Preface

- [Purpose](#)
This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Guarantee Advise Cancellation - Islamic** process.
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Guarantee Advise Cancellation - Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Guarantee Advise Cancellation Islamic

As part of Conventional Guarantee Advise Cancel, System enables the user to cancel the Guarantee which had been already Advised.

The various stages involved for Guarantee Advise Cancel are:

- Receive and verify documents and Input basic details- Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify details of Cancel of Guarantee - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Advise Cancel process flow is similar to that of conventional Guarantee Advise Cancel process flow.

This section contains the following topics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the new Guarantee Advise Cancellation Islamic request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Guarantee Advise Cancellation Islamic request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise Cancellation - Islamic request.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new Guarantee Advise Cancellation Islamic request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.
The **Initiate Task** screen appears.

- On **Initiate Task** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

- Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of Guarantee Advise Cancellation Islamic request.

The first stage of Guarantee Advise Cancellation process starts from the Registration Stage. User can register a request for an Islamic Guarantee Advise Cancel received at the front desk (as an application received physically/received by mail/fax). During registration (Ref Fig-2), I will capture the basic details of the Cancel application, check the signature of the applicant and upload related documents. On submit of the Cancel request, the customer should be notified with acknowledgment and the request should be available for the Guarantee expert to handle

in the next stage. The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

The user has the option to submit, hold, save and hold and cancel the application.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-1 Login Screen

The image shows the Oracle login screen. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first field is labeled "User Name" and contains the text "ATEST11". The second field is labeled "Password" and contains a series of dots. Below these fields is a dark gray button with the text "Sign In" in white.

1. On **Home** screen, click **Trade Finance - Islamic**. Under **Trade Finance - Islamic**, click **Bank Guarantee Advise**.
2. Under **Bank Guarantee Advise**, click **Guarantee Advise Cancellation Islamic**.

The task will move to next logical stage of Guarantee Advise Cancellation Islamic. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.
Checklist	Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.

2.3 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise Cancellation - Islamic request.

On successful completion of Registration of an Guarantee Advise Cancellation - Islamic, the task moves to Data Enrichment stage.

As part of Data Enrichment, user can register and update the basic details of Guarantee Cancellation Islamic request. If the request is received by mail/Courier, the user should be able to update the request. In case the message is received by SWIFT, then the cancellation task needs to be auto created and available for the user to handle.

The DE user can view the latest Guarantee/SBLC Advise values displayed in the respective fields.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task which completed the registration and scrutiny and currently at Data enrichment stage.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.

2.4 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

A User can view the summary of details updated in multilevel approval stage of Islamic Guarantee Advise Cancel request.

1. Log in into OBTFPM application and acquire the task available in the approval stage in free task queue. The user can view the Summary tiles which displays list of important fields with values.
2. Click each tile to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

Authorization Re-Key (Non-Online Channel)

For non-online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Currency
- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

Figure 2-17 Authorization Re-Key

The screenshot displays the 'Approval Rekey' modal window in the Oracle OBTFM application. The modal is overlaid on a 'My Tasks' screen. The 'My Tasks' screen has a sidebar with navigation options like 'Awaiting Customer Clarification', 'Business Process Maintenance', 'Completed Tasks', 'Free Tasks', 'Hold Tasks', 'My Tasks', 'Other User tasks', 'Search', 'SubProcess Tasks', and 'Supervisor Tasks'. The main area of 'My Tasks' shows a list of tasks with columns for 'Edit', 'Priority', and 'Process Name'. The 'Approval Rekey' modal contains the following elements:

- Title:** Approval Rekey
- Buttons:** View Signature, Documents, Remarks, Refer, Close, Proceed.
- Fields:**
 - Currency:** A dropdown menu currently showing 'AED'.
 - Contract Amount:** A text input field showing 'AED 2,000.00'.

The background 'My Tasks' list includes tasks such as 'Islamic Guarantee Adv.', 'Guarantee Advise Can.', 'Guarantee Advise Can.', 'Islamic Guarantee Adv.', 'Import LC Issuance', 'Import LC Issuance', 'Import LC Issuance', 'Import LC Issuance', 'Guarantee Advise Inte.', 'Guarantee Advise Inte.', and 'Guarantee Advise Inte.'.

Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.

- [Reject Approval](#)
This topic helps you quickly get acquainted with the Reject Approval process.

2.4.1 Reject Approval

This topic helps you quickly get acquainted with the Reject Approval process.

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Guarantee Advise available in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view and modify details about application details and guarantee details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required.
- Charge Details - User can view and modify charge details, if required.
