Preface

- [Purpose](#)
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Guarantee Advise Amendment** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

- [Access to Oracle Support](#)

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide

- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBTFPM	Oracle Banking Trade Finance Process Management
OBTFPMCS	Oracle Banking Trade Finance Process Management Cloud Service
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency
FCY	Foreign Currency
LOV	List of Values
CIF	Customer Information File
UDF	User Defined Fields
FFT	Free Format Text
SBLC	Standby Letter of Credit

Basic Actions

Most of the screens contain Action Buttons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Common Action Buttons and its Definitions

Action Buttons	Description
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Click Cancel to cancel the transaction input midway without saving any data.
Save & Close	Click Save & Close to save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Next	Click Next , system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
Submit	Click Submit to complete the transaction after you specify all the input parameters for a particular process. The task will get moved to next logical stage of the process. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

Symbols and Icons

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

Oracle Banking Trade Finance Process Management is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

Oracle Banking Trade Finance Process Management helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Guarantee Advise Amendment

As part of Guarantee Amendment Advise, the advising bank advises an amendment of incoming Guarantee/ SBLC received from the issuing bank through SWIFT MT 767 to the beneficiary and Guarantee/SBLC through SWIFT MT 767 in favour of a beneficiary through an Advise Through Bank.

In the following sections, let's look at the details for Guarantee Amendment Advising process.

This topic contains following subtopics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the new Guarantee Advise request.
- [Registration](#)
This topic provides the systematic instructions to initiate the **Registration** stage of **Guarantee Advise Amendment** request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise Amendment request.
- [Exceptions](#)
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process of Guarantee Advise Amendment.
- [Customer - Acknowledgement](#)
This topic helps you quickly get acquainted with the Customer Acknowledgement process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new Guarantee Advise request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.
The **Initiate Task** screen appears.

Figure 2-1 Initiate Task

2. On **Initiate Task** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the **Registration** stage of **Guarantee Advise Amendment** request.

As a Registration user, you can register an amendment to a Guaranteed/SBLC advised request, also can upload relevant documents and verify checklist items.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the

Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 Login Screen

The image shows the Oracle login screen. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first field is labeled "User Name" and contains the text "ATEST11". The second field is labeled "Password" and contains a series of dots. Below these fields is a dark gray button with the text "Sign In" in white.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Bank Guarantee Advise**.
2. Under **Bank Guarantee Advise**, click **Guarantee Advise Amendment**.

Figure 2-3 Guarantee Advice Amendment

The **Guarantee Advice Amendment - Registration** screen displays. The Guarantee Advice Amendment - Registration stage has two sections Application Details and Guarantee Details. Let's look at the details of Registration screens below:

Figure 2-4 Guarantee Advice Amendment - Registration - Application Details

The screenshot shows the Oracle Guarantee Advice Amendment - Registration - Application Details screen. The screen is divided into two main sections: Application Details and Guarantee Details. The Application Details section includes fields for Redaction/Release, Priority, Issuing Bank, Advising Bank Reference Number, Submission Mode, Amendment Date, Beneficiary, Amendment Number, Branch, Process Reference Number, and Beneficiary Consent Required. The Guarantee Details section includes fields for 21D - Form of Undertaking, 21B - Undertaking Amount, 22A - Purpose of Message, 40C - Narrative, 23B - Expiry Type, 35G - Expiry Condition/Event, 36F - Supplementary Information About Amount, 20 - Undertaking Number, Amount in Local Currency, 23K - File Identification, 22K - Type of Undertaking, Date of Expiry, Applicant, Closure Date, Product Code, Contract Reference Number, 23K - Narrative, 22K - Narrative, Auto Renewal, 31 - Obligor/Instructing Party, Advising Bank, Product Description, User Reference Number, 40C - Applicable Rules, 50 - Date of Issue, Extension Required, Advise Through Bank, and Limit verification required. Table 2-5 (Cont.) Guarantee Advise Amendment - Registration - Action Buttons - Field Description

Field	Description
Submit	Click Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. The task will move to next logical stage of Guarantee Advise. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.
Checklist	Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.

- [Document Linkage](#)
This topic provides the systematic instructions to initiate the document linkage.

2.2.1 Document Linkage

This topic provides the systematic instructions to initiate the document linkage.

In Oracle Banking Trade Finance Process Management, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

Specify **User ID** and **Password**, and navigate to **Registration** screen.

1. On the header of **Registration** screen, click, **Documents**.

The **Document** pop-up screen is displayed.

2.3 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise Amendment request.

As part of Data Enrichment, you can update the details already captured in Registration stage. If details are not captured in Data Enrichment stage, user can input the details.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task which completed the registration and scrutiny and currently at Data enrichment stage.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click, **Tasks**.
2. Under **Tasks**, click **Free Tasks**.

Let's look at the details for Data Enrichment stage. You should be able to enter/update the fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

The Data Enrichment stage has the following hops for data capture:

- [Main Details](#)
This topic provides the systematic instructions to initiate the **Main** details of Data Enrichment stage of Guarantee Advise Amendment request.
- [Guarantee Preferences](#)
This topic provides the systematic instructions to capture the Guarantee preference details in Data Enrichment stage of Guarantee Advise Internal Amendment process.
- [Amendment Snapshot](#)
This topic provides the systematic instructions to capture the Amendment Snapshot details.
- [Acknowledgement Details](#)
This topic provides the systematic instructions to capture the acknowledgement details of Data Enrichment stage.
- [Additional Fields](#)
This topic provides the systematic instructions to capture the additional fields of Guarantee Advise Amendment process.
- [Advices](#)
This topic provides the systematic instructions to capture the advices details of Guarantee Advise Amendment process.
- [Additional Details](#)
This topic provides the systematic instructions to capture the additional details in Data Enrichment stage of Guarantee Advise Amendment process.
- [Settlement Details](#)
This topic provides the systematic instructions to capture the settlement details of Guarantee Advise Amendment request.

- [Summary](#)
This topic provides the systematic instructions to view the summary of Guarantee Advise Amendment request.

2.3.1 Main Details

This topic provides the systematic instructions to initiate the **Main** details of Data Enrichment stage of Guarantee Advise Amendment request.

Main details section has two sub section as follows:

- Application Details
- Guarantee Details.

Application Details

All fields displayed under Application details section, would be read only except the **Priority** and **Beneficiary Consent Required** fields.

1. On **Data Enrichment - Main Details** screen, specify the fields that were not entered at Registration stage.

Figure 2-7 Data Enrichment - Main Details

For more information on fields, refer to the field description table below.

Table 2-6 Guarantee Advise Amendment - Main - Application Details - Field Description

Field	Description
Advising Bank Reference Number	Read-only field. Displays the Advising Bank Reference Number as selected in Registration stage.
Beneficiary	Read-only field. Displays the beneficiary as per the Guarantee/SBLC advised.

Table 2-6 (Cont.) Guarantee Advise Amendment - Main - Application Details - Field Description

Field	Description
Branch	Read only field. Displays the branch name as per the Guarantee/SBLC advised.
Priority	This field will be defaulted based on the priority maintenance. If priority is not maintained for a customer, 'Medium' priority will be defaulted. User can change the priority populated, as per the requirement.
Submission Mode	Read only field. Displays the submission mode of Guarantee Advise Amendment request.
Amendment Number	Read only field. Displays the amendment number based on the back-end simulation.
Process Reference Number	Read only field. Displays the unique OBTFPM task reference number for the transaction. This is auto generated by the system based on process name and branch code.
Issuing Bank	Read only field. Displays the issuing bank as per the Guarantee/SBLC advised.
Amendment Date	Read only field. Displays the current system date by default.
Beneficiary Consent Required	Enable the option, if beneficiary consent required for the amendment made to the fields. Disable the option, if beneficiary consent is not required for the amendments.

Guarantee Details

The fields listed under this section are same as the fields listed under the **Guarantee Details** section in **Registration** stage. For more information on the fields, refer **Registration** stage. During Registration, if user has not captured input, then user can capture the details in this section.

Figure 2-8 Guarantee Details

For more information on action buttons, refer to the field description table below.

Table 2-7 Guarantee Advise Amendment Islamic - Main - Guarantee Details - Field Description

Field	Description
Form of Undertaking	Read only field. Displays the type of LC (Documentary Credit).
Undertaking Number	Read only field. Displays the undertaking number available in the guarantee/SBLC.

2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Guarantee Advise Amendment request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Amount Block Exception Approval

User can review the amount block exception for Trade Finance requests that failed to create Amount Block in backend system.

Log in into Trade Mid Office (TMO) system amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue.

Log in into Trade Mid Office (TMO) system amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue.

Open the task to view the summary tiles. The tiles should display a list of important fields with values.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to

release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
 - Settlement amount will be funded (outside of this process)
 - Allow account to be overdrawn during hand-off
- Refer:
 - Refer Refer back to DE providing alternate settlement account to be used for block.
 - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement account Amount Bock Exception This section will display the amount block exception details.

Amount Bock Exception

This section will display the amount block exception details.
