Preface

- [Purpose](#)
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Diversity and Inclusion](#)
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Guarantee Advise Internal Amendment** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at [http://www.oracle.com/pls/topic/lookup? ctx=acc&id=docacc](http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc).

- [Access to Oracle Support](#)

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Structure

This manual is organized into the following chapters:

- Preface: Preface gives information on the intended audience, structure, and related documents for this User Manual.
- Chapters: The subsequent chapters provide an overview to the module.
- Screen Shot Disclaimer - The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; information used in the interface or documents are dummy, it does not exist in real world, and its only for reference purpose.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBTFPM	Oracle Banking Trade Finance Process Management
OBTFPMCS	Oracle Banking Trade Finance Process Management Cloud Service
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency
FCY	Foreign Currency
LOV	List of Values
CIF	Customer Information File
UDF	User Defined Fields
FFT	Free Format Text
SBLC	Standby Letter of Credit

Basic Actions

Most of the screens contain Action Buttons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Common Action Buttons and its Definitions

Action Buttons	Description
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Click Cancel to cancel the transaction input midway without saving any data.
Save & Close	Click Save & Close to save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Next	Click Next , system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
Submit	Click Submit to complete the transaction after you specify all the input parameters for a particular process. The task will get moved to next logical stage of the process. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

Symbols and Icons

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

Oracle Banking Trade Finance Process Management is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

Oracle Banking Trade Finance Process Management helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Guarantee Advise Internal Amendment

Guarantee Advise Internal Amendment allows the user to change the Limit/ Cash collateral details or to capture the MT 768 acknowledgment details received from Advise through bank.

Limits and Cash Collateral change are usually done when the Advising Bank or Advise through bank has confirmed the SBLC and in such cases the Limits/ Cash Collateral maintained by Issuing Bank is changed.

Following data can be changed during Internal Amendment

- Line ID
- CASA account for Cash Collateral
- Charges Simulated on account of this task
- Suppress of Advices generated on account of this task

Data received on account of Incoming MT 768 need to be captured as received.

This topic contains following subtopics:

- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Guarantee Advise Internal Amendment request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of **Guarantee Advise Internal Amendment** request.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.

2.1 Registration

This topic provides the systematic instructions to initiate the Registration stage of Guarantee Advise Internal Amendment request.

As a Registration user, you can register an internal amendment to a Guaranteed/SBLC Advised request, also can upload relevant documents and verify checklist items. If the request is received by mail/Courier, you can update the request.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-1 Login ScreenThe image shows the Oracle login screen. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains a series of dots. Below these fields is a dark gray button with the text "Sign In" in white. The background of the login area is light gray, and there is a decorative header with a blue and yellow pattern.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Bank Guarantee Advise**.
2. Under **Bank Guarantee Advise**, click **Guarantee Advise Internal Amendment**.

Figure 2-2 Guarantee Advise Internal Amendment

The **Guarantee Advise Internal Amendment** screen appears.

The Guarantee Advise Internal Amendment - Registration stage has two sections Application Details and Guarantee Details. Let's look at the details of Registration screens below:

In case of STP of incoming SWIFT MT 768, a task should be directly created in Data Enrichment Stage after the required business validations and Registration stage is not applicable.

Figure 2-3 Guarantee Advise Internal Amendment - Registration - Application Details

The screenshot displays the 'Guarantee Advise Internal Amendment' registration form. The form is organized into two primary sections: 'Application Details' and 'Guarantee Details'. The 'Application Details' section contains fields for 'Advising Bank Reference Number', 'Submission Mode', 'Amendment Date', 'Beneficiary', 'Branch', 'Process Reference Number', 'Issuer', 'Priority', and 'Issuing Bank Reference'. The 'Guarantee Details' section is more extensive, including fields for '22D - Form of Undertaking', '22K - Type of Undertaking', '22L - Undertaking Amount', '22M - Purpose of Message', '22N - Narrative', '22O - Additional Amounts', '22P - Expiry Condition/Event', '22Q - Advising Bank', '22R - Amount in Local Currency', '22S - File Identification', '22T - Applicant Name', '22U - Expiry Type', '22V - Obligor/Instructing Party', '22W - Limit verification required', '22X - Narrative', '22Y - Beneficiary Name', '22Z - Date of Expiry', '22AA - Product Code', '22AB - Product Description', '22AC - User Reference Number', '22AD - Applicable Rules', '22AE - Advise Through Bank', '22AF - Auto Renewal', and '22AG - Closure Date'. The form also features a top navigation bar with tabs for 'Signatures', 'Documents', 'Remarks', 'Customer Instruction', and 'Common Group Messages'. At the bottom right, there are buttons for 'Hold', 'Cancel', 'Save & Close', and 'Submit'.

- On **Guarantee Advise Internal Amendment - Registration - Application Details** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

- [Document Linkage](#)

This topic provides the systematic instructions to initiate the document linkage.

2.1.1 Document Linkage

This topic provides the systematic instructions to initiate the document linkage.

In Oracle Banking Trade Finance Process Management, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

Specify **User ID** and **Password**, and navigate to **Registration** screen.

1. On the header of **Registration** screen, click, **Documents**.

The **Document** pop-up screen is displayed.

2. Click the **Add Additional Documents** button/ link.

The **Document** screen is displayed.

2.2 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of **Guarantee Advise Internal Amendment** request.

At this stage the user can register a request for Internal Amendment of Guarantee/SBLC Advised.

As part of Data Enrichment, user can update the details already captured in Registration stage. If details are not captured in DE stage, user can input the details.

If the request is received by mail/Courier, the user can update the request. The request will have the details entered during the Registration stage.

If the request is received by SWIFT, then the Internal Amendment task needs to be auto created and available for the user in the Data Enrichment stage to handle.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task which completed the registration and currently at Data enrichment stage.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click, **Tasks**.
2. Under **Task**, click **Free Tasks**.
