This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Preface

This topic contains following sub-topics:

- [Background](#)
- [Purpose](#)
- [Audience](#)
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Conventions](#)
- [Related Documents](#)
- [Abbreviations](#)

Background

Oracle Financial Services Software Limited has developed 14.8.2.0.0, which enable banks to streamline their trade finance operations. A robust workflow engine enables transparency of the process from initiation to fulfilment and brings in rich user experience and process efficiencies.

Purpose

The purpose of this Release Note is to propagate the enhancements in 14.8.2.0.0.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- *User Manuals*
- *License Guide*

Release Notes

The release notes include details of the new features introduced in release 14.8.2.0.0.

- [Release Highlights](#)
- [Enhancements](#)

1.1 Release Highlights

The rationale for the release of version 14.9.0.0.0 is to support regulatory requirements and enhance features that are essential in competitive market.

Following are the features included in the release along with forward porting of applicable fixes related to the incidences reported in previous versions and technical qualification to comply with approved Tech Stack:

1. **SWIFT messaging and standards** - SWIFT 2026 address changes for Import LCs, Export LCs, Guarantees and Collections; enhanced handling of MT719, MT726/759, MT786, MT787, MT788, MT797, MT767/775, MT769 and MT785.
2. **Reimbursement Authorization** - End-to-end booking, amendment, internal amendment, cancellation, closure, claiming-bank consent, claim lodgment, update and settlement capabilities, including pre-debit notification days.
3. **Vessel tracking** - Shipment tracking integration for Shipping Guarantees, LC drawings and collection booking/update journeys across export and import processes.
4. **Bills and finance** - Pre-shipment loan linkage, trust receipt loans, multi-tenor bill discounting, MT752 charges/net amount automation, and enhanced Interest tile.
5. **Operational controls** - Customer debit amount-block accuracy, ACCR event display controls, functional test-plan coverage and related user experience refinements.

1.2 Enhancements

The enhancements for this release are as follows:

- [New Processes Released](#)
- [Enhancements to Existing Processes](#)
- [Deprecated APIs](#)

1.2.1 New Processes Released

The following new processes are released as a part of 14.9.0.0.0 Release:

1. **Reimbursement Authorization booking**
Supports registration from MT740 or manual input for common conventional and Islamic processes, including undertaking, expiry, auto-close and closure-date details.

This enhancements are supported in the below process/screen:

- a. Reimbursement Authorization / Undertaking

2. Reimbursement Authorization lifecycle

Adds controlled registration and processing flows for MT747/MT799 or manual requests, including document, checklist, remarks, consent and handoff requirements.

The enhancements are supported in the below list of new processes/screens:

- a. Reimbursement Authorization Amendment
- b. Reimbursement Authority Internal Amendment
- c. Reimbursement Authorization Cancellation
- d. Reimbursement Authorization Closure
- e. Reimbursement Authorization Amendment Claiming Bank Consent

3. Reimbursement claims

Adds claim registration and lifecycle handling for MT742/manual requests, including limits, collateral, CASA, early/overdue settlement, additional amounts and liquidation options.

The enhancements are supported in the below list of processes/screens:

- a. Reimbursement Authorization Claim Lodgment
- b. Reimbursement Authorization Claim Settlement
- c. Reimbursement Authorization Claim Update

4. Pre-debit notification days

Introduces the numeric Pre-debit notification no. of days field, replaces the previous toggle in applicable flows, and provides display-only propagation to claims and enquiries.

The enhancements are supported in the below list of processes/screens:

- a. Reimbursement Authority Booking
- b. Reimbursement Authorization Claim Lodgment
- c. Reimbursement Authorization Claim Settlement
- d. Reimbursement Authorization Claim Update

:

1.2.2 Enhancements to Existing Processes

The following are the enhancement to the existing process as a part of 14.9.0.0.0 Release:

1. SWIFT 2026 standards

Renames City to Town/City/State, introduces Post Code, enhances party placeholders, applies Common Core defaulting and supports required-party validations for the relevant SWIFT MT messages.

The enhancements are supported in the below list of processes/screens:

- a. Import LCs, Export LCs
- b. Guarantees and Collections

2. MT798-719 incoming message visibility

Displays incoming MT798/719 responses in the Incoming Message area, including multiple responses, alongside existing corporate-to-bank message visibility.

The enhancements are supported in the below list of processes/screens:

- a. Import LC
- b. Guarantee draft-confirmation tasks

3. MT798/726/759 ancillary messages

Processes incoming MT798/726 with MT759 ancillary information, using message references to identify the appropriate task and route content for processing.

The enhancements are supported in the below list of processes/screens:

- a. Incoming corporate-to-bank SWIFT processing

4. MT798/788 free-format messages

Uses MT798 references to create the appropriate task or a Miscellaneous task; exposes underlying MT798/788 and MT799 information for task handling.

The enhancements are supported in the below list of processes/screens:

- a. Incoming corporate-to-bank SWIFT processing

5. MT798/797 cancellation

Creates and processes Corporate Cancellation Request tasks for cancellation of referenced in-progress or handed-off SWIFT instructions, with parent-task controls and MT798/741 response handling.

- a. Corporate cancellation requests

6. Incoming MT786

Supports task creation and contract identification for Guarantee/SBLC Demand Refusal messages, including the applicable claim-update or Miscellaneous-task outcomes.

The enhancements are supported in the below list of processes/screens:

- a. Claim Lodged Under Guarantee/SBLC Issued
- b. Guarantee/SBLC Issuance Claim Update
- c. Guarantee Issuance - Claim Settlement
- d. Claim Lodged Under Guarantee/SBLC Advised
- e. Guarantee/SBLC Advised Claim Update
- f. Guarantee/SBLC Advised Claim Settlement

7. Incoming MT787

Supports incoming amendment responses, incoming-message visibility, FileAct document handling where applicable, and required fields for beneficiary-response capture.

- a. Guarantee amendment beneficiary consent

8. STP counter guarantees

Closes STP mapping gaps between incoming Sequence C and outgoing guarantee data for counter-guarantee issuance, amendments and cancellations; preserves incoming-message access.

- a. Incoming MT760/761 and MT767/775

9. Outgoing MT769

Introduces outgoing MT768/MT769 other-charges sections and field capture for MT769 reduction and release of liability messages.

The enhancements are supported in the below list of processes/ screens:

- a. Guarantee Amendment
- b. Guarantee Cancellation

10. MT785 non-extension notification

Adds incoming/outgoing MT785 support, automatic-extension non-renewal selection, and associated incoming/outgoing message fields.

- a. Guarantee Issuance

- b. Guarantee advice amendment

11. Vessel tracking

Adds shipment tracking fields, sea-transport validations, Track Shipment and View Shipment Details actions, external-service response persistence, OBTF handoff and enquiry visibility.

The enhancements are supported in the below list of processes/screens:

- a. Shipping Guarantee
- b. Export LC drawing
- c. Import LC Drawing
- d. Export Documentary Collection Booking
- e. Export Documentary Collection Update
- f. Import Documentary Collection Booking
- g. Import Documentary Collection Update

12. Pre-shipment linkage to bills

Defaults LC-linked pre-shipment/packing-credit loans, queries current outstanding amounts, supports sequential repayment from bill proceeds and routes excess proceeds to the default settlement account.

The enhancements are supported in the below list of processes/screens:

- a. Export LC Drawing
- b. Repayment of Buyers Credit User Guide

13. Trust Receipt loans

Adds Trust Receipt Loan selection and detail capture, validations, product-level controls, loan preference defaulting, and mutually exclusive behavior with Advance by Loan.

The enhancements are supported in the below list of processes/screens:

- a. Import Documentary Collection Booking
- b. Import Documentary Collection Liquidation
- c. Import Documentary Collection Update

14. Multi-tenor Bill Discounting

Improves the multi-tenor maturity section, permits controlled tenor add/delete at booking, supports finance/discount amount validation and refines operation-based input behavior.

The enhancement is supported in the below list of processes/screens::

- a. Bill finance

15. MT752 charges and net amount

Defaults and displays FFT-derived Charges Deducted and Net Amount values for MT752 supported by NONDISC_ACCPT advice, with controlled narrative input for charges.

The enhancement is supported in the below list of processes/screens:

- a. Import LC Drawing

16. Interest tile enhancement

Expands the Interest tile to align with OBTF, adds drill-down detail, simulation-populated values, recalculation, validations and re-default behavior.

The enhancement is supported in the below list of processes/screens:

- a. Import LC Drawing

- b. Import Documentary Collection Booking
 - c. Import Documentary Collection Update Booking
 - d. Export LC Drawing
 - e. Export Documentary Collection Booking
 - f. Import Documentary Collection Update Booking
- 17. Customer debit amount block**
Creates amount blocks only for immediately debited amounts from accounting simulation, consolidates customer-account debits and excludes GL and Nostro accounts
- This enhancement is supported in the below list of processes/screens:
- a. Customer-account debit processing
- 18. ACCR event display control**
Adds configurable maximum-event display count and controlled ACCR-event viewing with selection/date-range validations and user guidance.
- This enhancement is supported in the below list of processes/screens:
- a. LC and Bank Guarantee contract events

1.2.3 Deprecated APIs

API Name (as in Swagger)	API Functional Description	Deprecate in Next Release	Brief of the Changes

Components of the Software

This topic contains following sub-topics:

- [Documents Accompanying the Software](#)
- [Software Components](#)

2.1 Documents Accompanying the Software

Documents Accompanying the Software

The various documents accompanying the software are as follows:

- Product Release Note
- Installation Guide
- Licence guide
- Security guide
- API Documentation

2.2 Software Components

Software Components of 14.8.2.0.0 that form part of this release are as follows:

- Host
 - UI Components (JS, XML)
 - Stored Procedures (Packages, Functions, Procedures, Triggers, Views)
 - Tables, Types, Sequences, INC
- Java Application Layer
 - Java Sources
 - Configuration files used for deployment
- Integration Gateway
- REST Services
 - Java Application Layer
 - * Java Sources
 - * Configuration files used for deployment
- Conversion Utilities
- Installation Utilities
- Tools
 - ODT

3

Tech Stack

This topic contains following sub-topics:

- [Tech Stack - Oracle](#)

3.1 Tech Stack - Oracle

Component	Deployment Option	Machine	Operating System	Software	Version Number
Oracle Banking Trade Finance Process Management	UI-Host	Application Server	Oracle Enterprise Linux Server 8.7 (x86 64 Bit)	Apache Tomcat	9.0.112
				Java HotSpot (TM) JDK (with WebLogic Application Server)	17.0.18
				Oracle Coherence	14.1.2.0.0
				Conductor	3.15.0
		Database Server	Oracle Enterprise Linux Server 8.7 (x86 64 Bit)	Oracle RDBMS Enterprise Edition	19.29.0.0.0
		Messaging	NA	Apache Kafka	2.13 - 3.9.2
		UI	NA	Oracle JET	18.1.0
		Client Machines	Windows 10	Apple Safari	17+
				Google Chrome	131+
				Microsoft Edge	131+
				Mozilla Firefox	132+

Note

- # Browser support is no longer based on Operating Systems but strictly tied to the browser themselves, no matter on which Operating Systems they are installed. Current release is certified on client workstations with Windows 10.
- Client Machines#: For detailed information on Browser Support, please refer to the Oracle Software Web Browser Support Policy at <https://www.oracle.com/middleware/technologies/browser-policy.html>.
- Oracle Applications are developed and tested on Oracle Linux, which is optimized for performance, stability and security.
- Installation Requirement: To ensure a seamless deployment, implementation team are required to use the provided installer for the installation process. Manual deployment of software components is not recommended. Please follow the installation guide for detailed steps.
