This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

This manual is designed to help you quickly get acquainted with the activation of sample reports, and module-wise sample reports available in Oracle Banking Treasury Management.

This preface has the following topics:

- [Audience](#)
- [Acronyms and Abbreviations](#)
- [Conventions](#)
- [List of Topics](#)
- [Related Resources](#)
- [Symbols and Icons](#)

Audience

This guide is intended for Back Office Data Entry Clerk, Back Office Managers/ Officers, Product Managers, End of Day Operators, and Financial Controller users.

Acronyms and Abbreviations

The acronyms and abbreviations are listed in this below table:

Table 1 Acronyms and Abbreviations

Abbreviations or Acronyms	Definition
DV	Derivatives
FX	Foreign Exchange
MM	Money Market
OT	Over the Counter Options
SE	Risk Free Rates
SR	Securities Repo

Conventions

The following text conventions are used in this document:

Table 2 Conventions and Meaning

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

List of Topics

This guide is organized as follows:

Topics	Description
Activation of Sample Reports	Explains the sample reports activation procedure in detail.
Module-wise Sample Reports	Explains the sample reports of each module available in Oracle Banking Treasury Management.

Activation of Sample Reports

During the day, or at the end of the day, you may want to retrieve information on several operations that were performed during the day in your bank. You can retrieve this information in the form of sample reports in Oracle Banking Treasury Management.

A set of a sample reports is pre-defined for all the modules in Oracle Banking Treasury Management. This topic provides information on how to activate the sample reports.

- [Activation of Menu and Report Rules](#)
This topic provides the systematic instructions to activate the sample.

1.1 Activation of Menu and Report Rules

This topic provides the systematic instructions to activate the sample.

To activate the sample reports, the following must be performed:

- Activate Menu
- Activate Reports Roles

Activation of Menu

You can activate the sample reports using menu in two ways:

1. Front End
2. Back end

Front End Activation using Menu

This topic provides the systematic instruction to activate the sample reports through Front End activation using menu.

To activate the sample reports using menu in Oracle Banking Treasury Management, perform the following:

1. On the Home page, enter **SMDFNDSC** in the text field, and click the next arrow.
The **Function Description Maintenance** screen is displayed.

Figure 1-1 Function Description Maintenance

2. In the **Function Description Maintenance** screen, ensure that **Available** field is enabled to activate by modifying the record.

Note:

We recommend that you modify and authorize the record.

Back End Activation using Menu

Reports can also be activated from back end by updating the static data of SMTB_MENU Available column to '1' for all the reports.

Figure 1-2 Back End Activation

```
SELECT * FROM SMTB_MENU WHERE FUNCTION_ID='STRCIF'
```

HO_FUNCTION	FUNCTION_ID	EXECUTABLE_NAME	EXECUTABLE_TYPE	AVAILABLE	AEOD_AWARE	LOG_EVENT	CUST_ACCESS	MENU
1	N	STRCIF	STRCIF	F	1	1	1	0 REPOF

Activation of Report Roles

This topic provides the systematic instructions to activate the report roles.

All the report roles end with the word 'REPORTS' which are pre-shipped in 'closed' status. To activate the report roles, perform the following:

1. On the Home page, enter **SMDROLDF** in the text field, and click the next arrow. The **Role Maintenance** screen is displayed

Figure 1-3 Role Maintenance

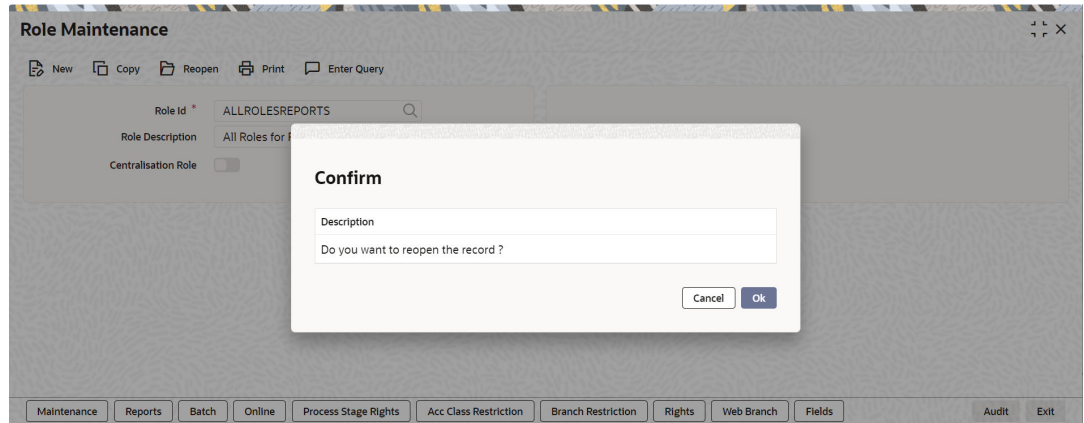

2. Click the Search icon to search for the report roles in the displayed list of values. The List of values Role Id page is displayed.

Figure 1-4 List of Values Role Id

Role Id	Description
412118CHEK	412118CHEK
AC-BATCH	Accounting Batch Operations
AC-REPORTS	Accounting Reports

3. Initially all the report roles are in 'closed' status, click Reopen to reopen the report roles. The system displays a confirmation message.

Figure 1-5 Role Maintenance - Reopen Confirmation Message

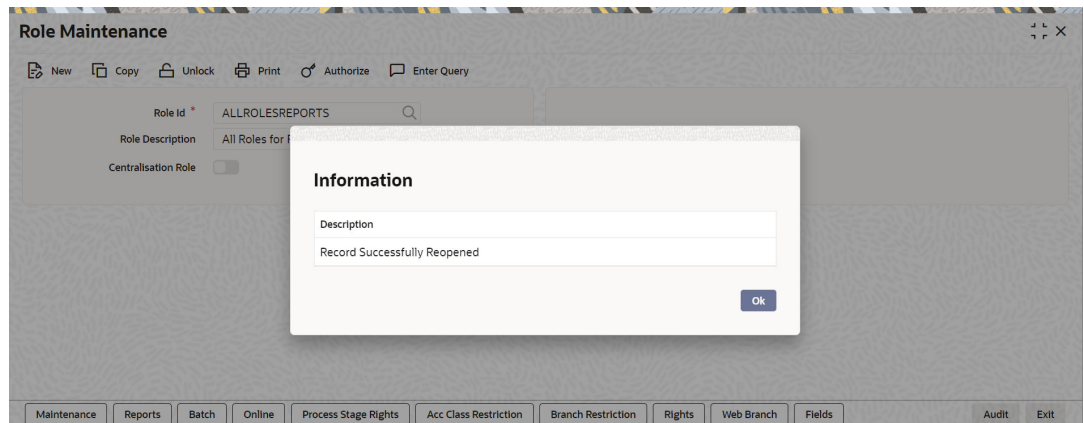

4. In the displayed **Confirmation Message** page, click **Ok** to reopen the Record.

 **Note:**

Click **Cancel** to cancel the record reopening operation.

The system displays an **Information Message**.

Figure 1-6 Role Maintenance - Reopen Information Message

5. In the displayed Information message page, click **Ok**. The record is reopened successfully.

2

Module-wise Sample Reports

This topic explains the module wise sample reports that you can generate in each module of Oracle Banking Treasury Management.

Reports provide details of various events in the life of a specific contract, or across contracts at a particular point of time. For every module in Oracle Banking Treasury Management, you can generate the sample reports.

Sample Reports in Common Core Module

Table 2-1 Common Core Sample Reports

S.No	Function Id	Report Name	Report Details
1.	SMRBASTA	Batch Performance Statistics	Maximum, minimum and average performance record of each batch operation across all the branches in Oracle Banking Treasury Management.
2.	SMRCONTL	Change Control Log	This report provides the change log details.
3.	SMREVNLO	Event Log	This report provides the event log details.
4.	SMRNWUSR	New User Created	The report provides the new user details.
5.	SMRROLPR	Role Profile	This report provides the details of the role profiles.
6.	SMRSUMRY	User Role Summary	This report provides the user role summary details.
7.	SSRCONTL	User Change Control Log	This report provides the user Change log details.
8.	SSRPINST	Security Maintenance Inactive User	This report provides the security maintenance inactive users details.
9.	SSRUSLOG	User Log details	This report provides the user log details
10.	SSRUSRDS	Disabled Users System Violation Log	This report provides the disabled user's system violation log details.
11.	SSRUSSTS	User Status Log	This report provides the user status log details.

Sample Reports in Foreign Exchange Module

Table 2-2 Foreign Exchange Sample Reports

S.No	Function Id	Report Name	Report Details
1.	CYRFWRAT	Currency Forward Rates Report	This report gives details about forward rates for different currency pairs over a given period.
2.	FXRPCCYA	Foreign Exchange Currency Analysis Report	This report gives the net currency position due to contracts maturing within a specified period.
3.	FXRPCCYT	Foreign Exchange Tenor-wise Currency Position Report	This report gives the net currency position due to contracts tenor-wise (spot, one month, two months, etc.)
4.	FXRPCPCO	Foreign Exchange counterparty confirmation report - options	This report gives the details of unconfirmed contracts; i.e. the confirmation details are not entered through the Confirmation screen for the contracts.
5.	FXRPDLY	Foreign Exchange Daily Activity report - Option	This report gives details of the activities performed on contracts in the FX module during the day. If the report is generated as a part of End of Day process all the activities during the day is reported.
6.	FXRPOVD	Foreign Exchange contract Overrides Report	This report gives details of all contracts on which overrides were displayed during contract processing.
7.	FXRPBRDT	Foreign Exchange Brokerage Details Report - Options	The processed brokerage details report gives details of brokerage that are processed against the contracts.
