

# Oracle® Banking Treasury Management

## User Defined Events User Guide

Release 14.7.4.0.0

G10928-01

June 2024

The Oracle logo, consisting of a solid red square with the word "ORACLE" in white, uppercase, sans-serif font centered within it.

ORACLE®

Copyright © 2020, 2024, Oracle and/or its affiliates.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

# Preface

This manual is intended as a guide to help you define User Defined Events in Oracle Banking Treasury Management.

This preface has the following topics:

- [Audience](#)
- [Acronyms and Abbreviations](#)
- [List of Topics](#)
- [Symbols and Icons](#)
- [Related Resources](#)
- [Conventions](#)

## Audience

This guide is intended for Back Office Data Entry Clerk, Back Office Managers/ Officers, Product Managers, End of Day Operators, and Financial Controller users.

## Acronyms and Abbreviations

The acronyms and abbreviations are listed in this below table:

**Table 1 Acronyms and Abbreviations**

Abbreviations or Acronyms	Definition
AEOD	Automated End of Day
AIF	Alternative Investment Fund
CLS	Continuous Linked Settlement
CIF	Customer Information Files
DV	Derivatives
Dr	Debit
EOFI	End of Financial Input
ECA	External Credit Approval
ESMA	European Securities and Markets Authority
FATCA	Foreign Account Tax Compliance Act,
FCY	Foreign Currency
FX	Foreign Exchange
GL	General Ledger

**Table 1 (Cont.) Acronyms and Abbreviations**

Abbreviations or Acronyms	Definition
HIRE	Hiring Incentives to Restore Employment
HTTP	Hypertext Transfer Protocol
IRS	Internal Revenue Service
ICCB	Interest Commission Charge and Fee
LCY	Local Currency
MM	Money Market
OBTR	Oracle Banking Treasury Management
OT	Over the Counter Options
UCITS	Undertaking for Collective Investment in Transferable Securities

## List of Topics

This guide is organized as follows:

Topics	Description
<a href="#">User Defined Events</a>	Explains how to define events in Oracle Banking Treasury Management either for your own convenience or to suit the requirements of your bank.

## Symbols and Icons

**Table 2 Symbols**

Icons	Function
	Exit
	Add row
	Delete row
	Option List

## Related Resources

For more information, see these Oracle Banking Treasury Management resources:

- *The Procedures User Manual*
- *The Common Core- Entities and Services User Manual*

# Conventions

The following text conventions are used in this document:

**Table 3 Conventions and Meaning**

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

# 1

## User Defined Events

A contract that you process in Oracle Banking Treasury Management goes through different stages during its life cycle. These stages are defined as Events. Every new module that you maintain has to be associated with a set of events, which can be triggered at appropriate stages during the lifecycle of the contract.

Apart from the factory shipped events, you can create your own events as per the requirements of the bank.

- [Event Details](#)  
This topic describes the processing of user defined events, default, value date derivation, event, view events, view accounting entries, and view message features.
- [Trigger User Defined Events Triggering](#)  
This topic describes the systematic instruction to trigger user defined events manually.
- [Accounting Roles and Heads](#)  
This topic describes the details on Treasury Roles and Heads feature along with amount tag and accounting roles details.
- [Trigger User Defined Events Automatically](#)  
This topic describes the systematic instruction to trigger user defined events Automatically.

### 1.1 Event Details

This topic describes the processing of user defined events, default, value date derivation, event, view events, view accounting entries, and view message features.

This topic contains the following sub-topics:

- [Process User Defined Events Screen](#)  
This topic describes the systematic instructions to process user defined events screen.
- [Default Option of the Treasury User Defined Events Screen](#)  
This topic describes the systematic instructions to process the fields of the default in the user defined events screen.
- [Value Date Derivation](#)  
This topic describes the systematic instructions to perform value date derivation.
- [Event Processing Button](#)  
This topic provides the systematic instructions to assign the derivation rule for the specific events.
- [View Event Details](#)  
This topic describes the systematic instructions to view the event details.
- [View Accounting Entries](#)  
This topic describes the systematic instructions to view the accounting entries details.
- [View Messages](#)  
This topic describes the systematic instruction to view the messages details.

## 1.1.1 Process User Defined Events Screen

This topic describes the systematic instructions to process user defined events screen.

You can define the events through the **Treasury User defined Events** screen. You can define events for a new module and also for existing modules in this screen. User defined events will be linked to a product and is triggered in the life cycle of a contract, which is processed under that product.

Specify **User ID** and **Password** and login to **Home** screen.

1. On **Home** screen, type **UDDTREV** in the text box, and click next.  
**User Defined Events** screen displays.

**Figure 1-1 Treasury User Defined Events**

 **Note:**

All fields with an asterisk (\*) symbol are mandatory.

2. On **User Defined Events** screen, specify the fields.  
For more information on fields, refer to the field description table.

**Table 1-1 User Defined Events - Field Description**

Field	Description
<b>Report Module</b>	Specify the module for which you want to set up a user-defined event. The adjoining option list contains all the module codes available in the system. Select the appropriate one.
<b>Event Code</b>	Specify the event code that you want to set up for the module.
<b>Event Description</b>	Give a brief description of the event that you are defining. The description that you enter is for information purposes.

**Table 1-1 (Cont.) User Defined Events - Field Description**

Field	Description
<b>Accounting Entries Definition</b>	Specify the accounting entries definition. You have the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>Advice Definition</b>	Specify the advice entries definition. You have the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>UDE Advices Definition</b>	Specify the UDE advice definition. You have the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>

**Association:** Indicate your preferences.

**Table 1-2 User Defined Events - Field Description**

Field	Description
<b>Allow Charge</b>	Specify the association allow charge. You have the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>Allow Transaction Tax</b>	Specify the association allow transaction tax. You have the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>

**Apply:** Indicate your preferences.

**Table 1-3 User Defined Events - Association Field Description**

Field	Description
<b>Allow Charge</b>	Specify the application allow charge. You have the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>Allow Transaction Tax</b>	Specify the application allow transaction tax. You have the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>

3. Click the **Exit** button to close the screen.

## 1.1.2 Default Option of the Treasury User Defined Events Screen

This topic describes the systematic instructions to process the fields of the default in the user defined events screen.

Specify **User ID** and **Password** and login to **Home** screen.

1. On **Treasury User Defined Events** screen, click **Default** available at the bottom of the **Treasury User Defined Events** screen.

**Event Trigger** screen displays.

**Figure 1-2 Event Trigger**

 **Note:**

All fields with an asterisk (\*) are mandatory fields.

2. On **Event Trigger** screen, specify the fields.  
For more information on fields, refer to the field description table.

**Table 1-4 Event Trigger- Field Description**

Field	Description
<b>Module Code</b>	The system displays the module code here.
<b>Event Code</b>	The system displays the event code here.
<b>Event Trigger</b>	The event, which you are defining, can be triggered in either of the following ways: <ul style="list-style-type: none"> <li>• <b>Automatic</b> – This means that the event should be triggered automatically during EOD.</li> <li>• <b>Manual</b> - This means that the event should be triggered manually from the 'User Defined Event' triggering screen.</li> </ul>
<b>Value Date Derivation</b>	Check this box to indicate that the value date derivation is defined for a particular event.
<b>Event Processing</b>	Check this box to indicate the event processing is defined for a particular event.
<b>Execution Query</b>	Enter the query condition to select the list of accounts for the execution of the event during EOD. Input to this field will be mandatory if you choose Automatic triggering of the event.

3. Click the **Ok** button to close the screen.

## 1.1.3 Value Date Derivation

This topic describes the systematic instructions to perform value date derivation.

1. On **Event Trigger** screen, click **Value Date Derivation** button.  
**Derivation Rule** screen displays.

**Figure 1-3 Derivation Rule**

### Note:

All fields with an asterisk (\*) are mandatory fields.

2. On **Derivation Rule** screen, specify the fields.  
For more information on fields, refer to the field description table.

**Table 1-5 Derivation Rule - Field Description**

Field	Description
<b>Module Code</b>	The system displays module code here.
<b>Event Code</b>	The system displays event code here.
<b>Value Date Derivation Rule</b>	Enter description about the value date derivation rule. You need to assign a value to 'L_VAL_DT'. For instance, 'L_VAL_DT:=global.application_date'.
<b>Error</b>	Click <b>X</b> button to execute the code. The derivation code will be validated by the system. If any checks fail, you must alter the statement so that the validation can be made successfully. Click <b>E</b> button to view the errors.

3. Click the **Ok** button to close the screen.

## 1.1.4 Event Processing Button

This topic provides the systematic instructions to assign the derivation rule for the specific events.

1. On **Event Trigger** screen, click **Event Processing** button.  
**Derivation Rule** screen displays.

**Figure 1-4 Derivation Rule**

2. On **Derivation Rule** screen, specify the fields.

 **Note:**

The fields which are marked in red asterisk are mandatory.

For more information on fields, refer to the field description table.

**Table 1-6 Derivation Rule - Field Description**

Field	Description
<b>Module Code</b>	The system displays module code here.
<b>Event Code</b>	The system displays event code here.
<b>Errors</b>	Click <b>X</b> button to execute the code. The derivation code will be validated by the system. If any checks fail, you must alter the statement so that the validation can be made successfully. Click <b>E</b> button to view the errors.

3. Click the **Ok** button to close the screen.

## 1.1.5 View Event Details

This topic describes the systematic instructions to view the event details.

You can view the event details maintained in the **User Defined Events** screen under **Events** screen of a contract screen.

Specify **User ID** and **Password** and login to **Home** screen.

1. On **Home** screen, type **CSDTREVN** in the text box, and click next.  
**Events** screen displays.

**Figure 1-5 Events**

2. On **Events** screen, specify the fields.

 **Note:**

The fields which are marked in red asterisk are mandatory.

For more information on fields, refer to the field description table.

**Table 1-7 Events - Field Description**

Field	Description
<b>Reference Number</b>	Specify the reference number.

The system displays the following details:

- **Event Number**
- **Event code**
- **Description**
- **Event Date**
- **Authorization Status**
- **Maker Id**
- **Checker Id**

3. Click the **Exit** button to close the screen.

## 1.1.6 View Accounting Entries

This topic describes the systematic instructions to view the accounting entries details.

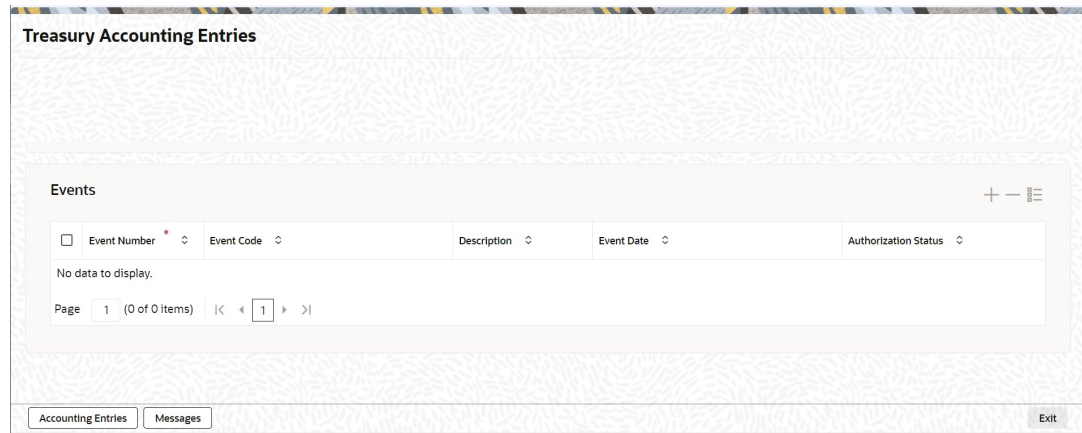

You can view the accounting entries maintained for an event in the **Accounting Entries** screen.

Specify **User ID** and **Password** and login to **Home** screen.

1. On **Home** screen, type **CSDTRACE** in the text box, and click next (or) On **Events** screen, click **Accounting Entries** button.

Accounting Entries screen displays.

Figure 1-6 Accounting Entries

2. On **Accounting Entries** screen, specify the fields.

 **Note:**

The fields which are marked in red asterisk are mandatory.

For more information on fields, refer to the field description table.

Table 1-8 Accounting Entries- Field Description

Field	Description
<b>Reference Number</b>	Specify the transaction reference number.
<b>See Position Entries</b>	Check this box to view currency position of the entries.
<b>Event</b>	Specify the event.
<b>Event Number</b>	The system displays the event number.

The following details are displayed in the Accounting Entries:

- **Event**
- **Branch**
- **Account**
- **Account Description**
- **Dr/Cr**
- **Amount Tag**
- **Account Currency**
- **Foreign Currency Amount**
- **Rate**
- **Local Currency Amount**
- **Date**

- **Value Date**
  - **Txn Code**
3. Click the **Exit** button to close the screen.

## 1.1.7 View Messages

This topic describes the systematic instruction to view the messages details.

Specify **User ID** and **Password** and login to **Home** screen.

- On **Home** screen, type **CSDTRMVW** in the text box, and click next (or) On **Events** screen, click **Message** button.

**Treasury Message** screen displays.

**Figure 1-7 Treasury Message**

The system displays the following details:

- **Contract Reference**
- **ESN**
- **Event**
- **Message Type**
- **SWIFT Message Type**
- **Sub Message Type**
- **SWIFT Sub Message Type**
- **Test Status**
- **Medium**
- **Message Status**
- **Authorization Status**
- **Receiver**
- **Receiver Name**
- **DCN**

## 1.2 Trigger User Defined Events Triggering

This topic describes the systematic instruction to trigger user defined events manually.

You can use the **Treasury User Defined Events Triggering** screen to manually trigger the user defined events for accounts.

Specify **User ID** and **Password** and login to **Home** screen.

1. On **Home** screen, type **UDDTREV** in the text box, and click next.  
**Treasury User Defined Events Triggering** screen displays.

**Figure 1-8 Treasury User Defined Events Triggering**

2. On the **Treasury User Defined Events Triggering** screen, specify the fields.

 **Note:**

The fields which are marked in asterisk are mandatory.

For more information on fields, refer to the field description table.

**Table 1-9 Treasury User Defined Events Triggering - Field Description**

Field	Description
<b>Contract Reference</b>	Select the contract reference number from the adjoining option list.
<b>Event</b>	Select the event from the adjoining option list.
<b>Description</b>	Give a brief description on the event.

**Table 1-9 (Cont.) Treasury User Defined Events Triggering - Field Description**

Field	Description
<b>Payment Remarks</b>	Specify remarks pertaining to the payment on the account.
<b>Value Date</b>	If the value date derivation rule has been maintained for the event code, the system will calculate the value date and display it here. However, you can change it.
<b>Amount Details</b>	The system displays the following amount details: <ul style="list-style-type: none"> <li>• <b>Component</b></li> <li>• <b>Description</b></li> <li>• <b>Currency</b></li> <li>• <b>Amount Paid</b></li> </ul>

3. Click the **Exit** button to close the screen.

## 1.3 Accounting Roles and Heads

This topic describes the details on Treasury Roles and Heads feature along with amount tag and accounting roles details.

This topic contains the following sub-topics:

- [Process Treasury Roles and Heads Screen](#)  
This topic describes the systematic instruction to process accounting roles and heads screen.

### 1.3.1 Process Treasury Roles and Heads Screen

This topic describes the systematic instruction to process accounting roles and heads screen.

Specify **User ID** and **Password** and login to **Home** screen.

1. On **Home** screen, type **UDDTRRLT** in the text box, and click next.  
**Treasury Role and Head Maintenance** screen displays.

**Figure 1-9 Treasury Role and Head Maintenance**

The screenshot displays the 'Treasury Role and Head Maintenance' interface. At the top, there is a 'Save' icon and a 'Module Id' field containing 'MM'. Below this is a 'Module Description' field. The main area is divided into two sections: 'Amount Tag' and 'Accounting Roles'. The 'Accounting Roles' section contains a table with the following columns: Amount Tag, Description, Charge, Accounting, Transaction Tax, Local Currency, Local Currency Equivalent Tag, and Derivation. The first row is selected, showing 'Yes' for Charge, Accounting, and Transaction Tax, and 'Average' for Local Currency. A 'Derivation' button is located to the right of the Derivation column. At the bottom of the table, it shows 'Page 1 of 1 (1 of 1 items)'. There are 'Audit' and 'Cancel' buttons at the bottom right of the screen.

2. On **Treasury Role and Head Maintenance** screen, specify the fields.

 **Note:**

The fields which are marked in red asterisk are mandatory.

For more information on fields, refer to the field description table.

**Table 1-10 Treasury Role and Head Maintenance - Field Description**

Field	Description
<b>Module Code</b>	Specify the module code.
<b>Description</b>	The system displays the module description.

3. Click the **Exit** button to close the screen.
- [Amount Tag Tab](#)  
This topic describes the systematic instructions to process the amount tag details.
  - [Accounting Roles Tab](#)  
This topic describes the systematic instruction to process the accounting roles details.

### 1.3.1.1 Amount Tag Tab

This topic describes the systematic instructions to process the amount tag details.

1. On **Treasury Role and Head Maintenance** screen, the **Amount Tag** tab is displayed by default when you process the screen and specify the fields.

For more information on fields, refer to the field description table.

**Table 1-11 Treasury Role and Head Maintenance - Field Description**

Field	Description
<b>Amount Tag</b>	Specify the amount tag.
<b>Description</b>	Enter the brief description for amount tag.
<b>Charge</b>	Indicate whether the amount tag pertains to a charge or not by choosing one of the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>Accounting</b>	Indicate whether accounting entries are required or not by choosing one of the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>Transaction Tax</b>	Indicate whether transaction tax is applicable or not by choosing one of the following options: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>Local Currency</b>	Indicate the local currency preference by choosing one of the following options: <ul style="list-style-type: none"> <li>• <b>Average</b></li> <li>• <b>Equivalent</b></li> </ul>
<b>Local Currency Eq. Tag</b>	Specify the amount tag for the local currency equivalent amount.

2. Click **Derivation** button to derive the amount and currency for the amount tag.

**Derivation Rule Details** screen displays.

**Figure 1-10 Derivation Rule Details**

Here you can specify derivation logic for the following:

- **Amount Rule**
- **Currency Rule**

**Table 1-12 Derivation Rule Details - Field Description**

Field	Description
<b>Module Code</b>	The system displays module code here.
<b>Amount Tag</b>	The system displays the amount tag here.
<b>Amount Rule Type</b>	Check this box if the amount has to be derived based on a specified condition. The amount for a particular tag can be derived based on a condition.

**Derivation Amount Rule:** If you have checked against the option **Amount Rule Type**, the system will derive the amount for the amount tag that is being defined. You can use the following as variables while creating the derivation rule:

- Account Level UDF
- SDE

You can use any of the following SDEs:

- CUSTOMER\_CATEGORY - Category of the customer of the loan
- CUSTOMER\_ID - Customer ID
- LOAN\_STATUS - Status
- ACCOUNT\_CCY - Loan account's currency
- TODAY - Today
- NEXT\_WORKDAY - Date of next workday
- PAYMENT\_VALUE\_DATE - Payment value date
- LAST\_PAYMENT\_DATE - Last payment date for the customer

- DAYS\_FOR\_NEXT\_PMNT - Days for next payment
- AMOUNT\_DISBURSED - Current disbursement amount
- COMMITMENT\_UTILIZED - Utilized part of commitment
- EMI\_AMOUNT - EMI AMOUNT
- NET\_PRINCIPAL - Non-funded amount for which the loan is applied
- TOTAL\_DUE\_AMOUNT - Sum of all the Outstanding Balances for the Customer
- LAST\_PAYMENT\_AMOUNT - Last Payment Amount for the Customer
- CURRENT\_PAYMENT\_AMOUNT - Current Amount which is Due
- PAID\_INTEREST\_AMOUNT - Total Interest Amount Paid
- INTEREST\_ACCRUED\_AMOUNT - Sum of all the Accrued Amounts for Interest
- AMOUNT\_NOT\_DISBURSED - Amount Not Disbursed
- COMMITMENT\_UNUTILIZED - Unutilized part of commitment
- TOTAL\_PRINCIPAL - Amount for which the loan is applied
- TENOR - Duration for which the loan is applied
- LOAN\_PRINCIPAL - Principal
- PRINCIPAL - Amount disbursed
- PRINCIPAL\_OUTSTAND - Principal amount outstanding
- OVERDUE\_MONTHS - OverDue Months
- TOTAL\_OVERDUE\_AMOUNT - Total Overdue amount for all components
- INS\_TENOR - INSTALLMENT TENOR
- NO\_OF\_RPMNT\_SCHS - Number of Non-Moratorium repayment schedules
- MORA\_OUTSTANDING - Moratorium Outstanding Amount
- COMPOUND\_VALUE - Amount Compounded
- TOTAL\_MORA\_AMOUNT - Total Moratorium Amount
- \_OVR\_DAYS - <Component> overdue days
- \_EXPECTED - <Component> expected amount
- \_OUTSTAND - <Component> outstanding amount
- \_CCY - <Component> currency
- \_OVERDUE - <Component> overdue amount
- \_FN\_NO\_REPAY\_SCH - <Component> number of schedules for a component if periodic
- \_NET\_PRINCIPAL - <Component> amount financed
- PROJECTED\_AMOUNT - Projected Amount
- UIDB\_DIFFERENTIAL - UIDB Differential
- BALLOON\_AMOUNT - Balloon Amount
- RESIDUAL\_AMOUNT - Residual Amount
- CAPITAL\_AMOUNT - Capital Amount
- CLOSURE\_AMOUNT - Closure Amount

- NET\_MORTGAGE - Net Mortgage Amount.

Assume that you have an account-level UDF called 'OSCHGRATE'.

The derivation rule using the SDEs and UDF may be given as under.

```

DECLARE
l_osprin_amt number;
rate number;
BEGIN
L_osprin_amt:=(@SDE_VAL#PRINCIPAL_OUTSTAND);
rate:=(@UDF_UD#OSCHGRATE);
l_amount:=rate * l_osprin_amt;
END

```

**Table 1-13 Derivation Rule Details - Field Description**

Field	Description
<b>Amount Rule Error Description</b>	Enter a brief description about amount rule error that should be displayed in case the derivation fails.

**Currency Rule Derivation:** The currency can either be derived from the existing account currency or can be maintained as a UDF field in the account or it can be hard-coded in the **Currency Rule Definition** screen.

**Table 1-14 Derivation Rule Details - Field Description**

Field	Description
<b>Currency Rule Type</b>	Check this box if the currency for a particular amount tag has to be derived based on the derivation rule.
<b>Derivation Currency Rule</b>	Specify the rule based on which the system should derive the currency for the amount tag. You need to assign a value to 'L_CCY'. For instance, the rule may be given as under.  <pre> BEGIN SELECT currency INTO l_ccy FROM cltb_account_master WHERE account_number = p_acc_no AND branch_code=p_branch; END; </pre>
<b>Currency Rule Error Description</b>	Enter a brief description about currency rule error that should be displayed in case the derivation fails.

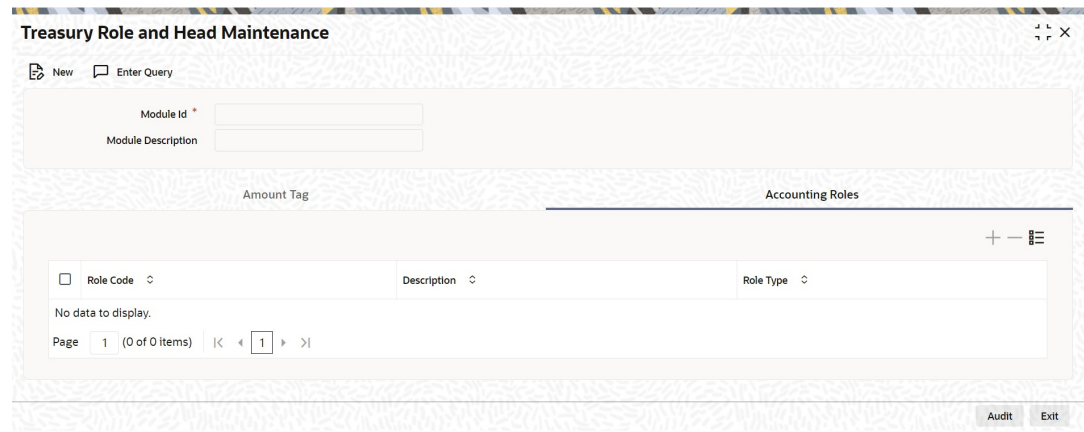

3. Click the **Exit** button to close the screen.

### 1.3.1.2 Accounting Roles Tab

This topic describes the systematic instruction to process the accounting roles details.

1. On **Treasury Role and Head Maintenance** screen, click **Accounting Roles** tab.  
**Treasury Role and Head Maintenance - Accounting Roles** screen displays.

**Figure 1-11 Treasury Role and Head Maintenance- Accounting Roles**

2. On **Treasury Role and Head Maintenance - Accounting Roles** screen, specify the fields.  
For more information on fields, refer to the field description table.

**Table 1-15 Treasury Role and Head Maintenance - Accounting Roles Field Description**

Field	Description
<b>Role Code</b>	Specify the role code.
<b>Description</b>	Enter a brief description about role code.
<b>Role Type</b>	Select the role type from the adjoining drop-down list. The following values are available: <ul style="list-style-type: none"> <li>• <b>Asset</b></li> <li>• <b>Liability</b></li> <li>• <b>Income</b></li> <li>• <b>Expense</b></li> <li>• <b>C Asset</b></li> <li>• <b>C Liability</b></li> <li>• <b>Customer</b></li> </ul>

3. Click the **Exit** button to close the screen.

## 1.4 Trigger User Defined Events Automatically

This topic describes the systematic instruction to trigger user defined events Automatically.

You can add the user defined event batch to the mandatory programs to be run for the module, using the **Mandatory Batch Program Maintenance** screen.

Specify **User ID** and **Password** and login to **Home** screen.

1. On **Home** screen, type **EIDMANPE** in the text box, and click next.  
**Mandatory Batch Program Maintenance** screen displays.

**Figure 1-12 Mandatory Batch Program Maintenance**

2. On the **Mandatory Batch Program Maintenance** screen, specify the fields.

**Note:**

The fields which are marked in asterisk are mandatory.

For more information on fields, refer to the field description table.

**Table 1-16 Mandatory Batch Program Maintenance - Field Description**

Field	Description
<b>Module</b>	Choose the module code from the adjoining option list.
<b>Function</b>	Specify <b>UDBTFEVT</b> as the batch that needs to be run.
<b>End of Cycle Group</b>	Select the option <b>End Of Transaction Input</b> .

3. Click the **Exit** button to close the screen.
