This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Purpose

This guide is designed to help you quickly get acquainted with the queries, queues and transactions supported in Oracle® Banking Virtual Account Management.

Audience

This guide is intended for Back Office Data Entry Clerk, Back Office Managers/Officers, Product Managers, End of Day Operators, and Financial Controller users.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

The related documents are as follows:

- *Oracle Banking Security Management System User Guide*
- *Oracle Banking Common Core User Guide*
- *Oracle Banking Getting Started User Guide*
- *Overview User Guide*
- *Configuration User Guide*
- *Customer and Accounts User Guide*
- *Identifier User Guide*

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>monospace</code>	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents are dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
DDA	Demographic Data Access
ECA	External Customer Account

Basic Actions

The basic actions performed in the screens are as follows:

Table 2 Basic Actions

Actions	Description
New	Click New to add a new record. The system displays a new record to specify the required data. The fields marked with Required are mandatory. This button is displayed only for the records that are already created.
Save	Click Save to save the details entered or selected in the screen.
Unlock	Click Unlock to update the details of an existing record. The system displays an existing record in editable mode. This button is displayed only for the records that are already created.
Authorize	Click Authorize to authorize the record created. A maker of the screen is not allowed to authorize the same. Only a checker can authorize a record. This button is displayed only for the already created records. For more information on the process, refer Authorization Process.
Approve	Click Approve to approve the initiated record. This button is displayed once you click Authorize.
Reject	Click Reject to reject the initiated record. This button is displayed once you click Authorize.
Audit	Click Audit to view the maker details, checker details of the particular record. This button is displayed only for the records that are already created.
Close	Click Close to close a record. This action is available only when a record is created.
Confirm	Click Confirm to confirm the action performed.
Cancel	Click Cancel to cancel the action performed.
Compare	Click Compare to view the comparison through the field values of old record and the current record. This button is displayed in the widget once you click Authorize.
View	Click View to view the details in a particular modification stage. This button is displayed in the widget once you click Authorize.
View Difference only	Click View Difference only to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed once you click Compare.
Expand All	Click Expand All to expand and view all the details in the sections. This button is displayed once you click Compare.

Table 2 (Cont.) Basic Actions

Actions	Description
Collapse All	Click Collapse All to hide the details in the sections. This button is displayed once you click Compare.
OK	Click OK to confirm the details in the screen.

Symbols and Icons

1

Introduction

The transaction is a process of money transfer, typically for corporates by banks. It includes banking products, payments, international trade and other services. Every day there are more than several billions of transactions are made around the world. It is an extraordinary amount of money that is transferred from one account to another.

2

Transactions

This topic provides the information about the Transactions related maintenances.

This topic contains the following subtopics:

- [Amount Block](#)
This topic provides the information about the Amount Block.
- [Internal Transfer](#)
This topic provides information about the Internal Transfer.
- [Journal Online](#)
This topic provides information about the Journal Online.
- [Release Uncollected Amount](#)
This topic provides the information about the Release Uncollected Amount.

2.1 Amount Block

This topic provides the information about the Amount Block.

Amount block is used to block a specified amount for a virtual account. When an amount is blocked for a virtual account, the available balance for transaction is the current balance minus the defined amount block.

For example, If the total amount in the account is \$10,000 and the amount block is \$1,000, the available balance for transaction is \$9,000.

This topic contains the following subtopics:

- [Create Amount Block](#)
This topic describes the systematic instructions to create an amount block for a virtual account.
- [View Amount Block](#)
This topic describes the systematic instructions to view the list of amount blocks for a virtual account.

2.1.1 Create Amount Block

This topic describes the systematic instructions to create an amount block for a virtual account.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.
2. Under **Transactions**, click **Amount Block**. Under **Amount Block**, click **Create Amount Block**.

The **Create Amount Block** screen displays.

Figure 2-1 Create Amount Block

- Specify the fields on **Create Amount Block** screen.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 2-1 Create Amount Block – Field Description

Field	Description
Effective Date	Select a start date for the amount block from the drop-down calendar.
Expiry Date	Select an expiry date for the amount block from the drop-down calendar.
Block Type	Select a block type from the drop-down list.
Reference Number	The system generates a reference number.
Source Code	Click Search to view and select the required source code.
Source Reference Number	Specify the system generates a default reference number.
Branch	Displays the branch number.
Skip DDA Entries	If enabled, indicates to skip underlying real account block.

- Click **Add** icon to add a row and specify the required details.

The **Amount Block Details** screen displays.

For more information on fields, refer to the field description table.

Table 2-2 Amount Block Details – Field Description

Field	Description
Account Number	Click Search icon to view and select the account number.
Account Branch	Based on the Account Number selected, the information is auto-populated.
Block Currency	Click Search icon to view and select a currency.
Requested Amount in Block Currency	Specify an amount for the blocked currency.

Table 2-2 (Cont.) Amount Block Details – Field Description

Field	Description
Account Currency	Based on the Account Number selected, the information is auto-populated.
Requested Amount in Account Currency	Specify the requested amount block.
Released Amount in Block Currency	The system generates the release amount.
Outstanding Amount in Block Currency	The system generates the outstanding amount.
ECA System Reference Number	Displays the ECA system reference number details.
Real Account Number	The system generates the real account number.
Real Account Branch	The system generates the real account branch.
Real Account Currency	The system generates the real account currency.
Real Account Amount	The system generates the real account amount.
Real Account Exchange Rate	The system generates the real account exchange rate.
Remarks	Specify additional details of the amount block.

5. Click **Delete** icon to delete the selected row.

6. Click **Save** to save the details.

The user can view the configured amount block in the [View Amount Block](#).

7. Click **Cancel** to close the details without saving.

2.1.2 View Amount Block

This topic describes the systematic instructions to view the list of amount blocks for a virtual account.

The user can block an amount using the [Create Amount Block](#).

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.

2. Under **Transactions**, click **Amount Block**. Under **Amount Block**, click **View Amount Block**.

The **View Amount Block** screen displays.

Figure 2-2 View Amount Block

For more information on fields, refer to the field description table.

Table 2-3 View Amount Block – Field Description

Field	Description
Reference Number	Displays the amount block reference number.
Branch	Displays the branch number.
ECA System Reference Number	Displays the ECA reference number.
Authorized Status	Displays the authorization status of the record. The options are: - Authorized - Rejected - Unauthorized
Transaction Status	Displays the transaction status of the record. The options are: - Active - Expired - Released - Pending

2.2 Internal Transfer

This topic provides information about the Internal Transfer.

The internal transfer is used to transfer funds from one virtual account to another virtual account that are mapped to same real account of the same customer. Internal transfers are processed immediately so that, the funds become available in the receiving account straight away.

This topic contains the following subtopics:

- [Create Internal Transfer](#)
This topic describes the systematic instructions to configure internal transfer from one virtual account to another within the structure mapped to the same account of the customer.

- [View Internal Transfer](#)

This topic describes the systematic instructions to view the list of configured internal transfer details for a customer.

2.2.1 Create Internal Transfer

This topic describes the systematic instructions to configure internal transfer from one virtual account to another within the structure mapped to the same account of the customer.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.
2. Under **Transactions**, click **Internal Transfer**. Under **Internal Transfer**, click **Create Internal Transfer**.

The **Create Internal Transfer** screen displays.

Figure 2-3 Create Internal Transfer

3. Specify the fields on **Create Internal Transfer** screen.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 2-4 Create Internal Transfer – Field Description

Field	Description
Booking Reference Number	The system generates the booking reference number.
Booking Date	By default, the application date is selected as the booking date.
Value Date	Click Calendar to select a value date from the drop-down calendar.

Table 2-4 (Cont.) Create Internal Transfer – Field Description

Field	Description
Source Code	Click Search icon to view and select the source code.
Source Reference Number	Specify the source reference number.
Customer Number	Click Search icon to view and select the customer number.
Real Account Number	Displays the real account number associated with the selected virtual account number. Note: The information gets populated based on the selection of Virtual Account Number in Transaction Details section.
Real Account Branch	Displays the real account branch associated with the Real Account Number .
Original Reference Number	The system generates the original reference number.
Transaction Details	The below fields describes about the transaction details section.
Virtual Account Number	Click Search icon to view and select the virtual account number for the transaction.
Currency	Displays the currency of the selected Virtual Account Number .
Amount	Specify the amount.
Transaction Code	Click Search icon to view and select the transaction code. To create a new transaction code, refer to Transaction Code in the Oracle Banking Common Core User Guide .
Debit/Credit Indicator	Select one of the options to indicate if the transaction is debit/credit.
Offset Details	The below fields describes about the offset details section.
Virtual Account Number	Click Search icon to view and select the virtual account number. The list of virtual accounts are displayed based on the Virtual Account selected in Transaction details section and are linked to the same real account. The offset Virtual account will always be of the same currency as that of the Virtual account selected in Transaction details section.
Currency	Displays the currency of the selected Virtual Account Number .
Amount	The system populates the amount entered in the Transaction Details .
Transaction Code	Click Search icon to view and select the transaction code.
Debit/Credit Indicator	Select one of the options to indicate if the transaction is debit/credit. If the Transaction Details is selected as Debit, the Offset Details is automatically selected as Credit. As both cannot be debit/credit.
Others	The below field describes about the others section.
Remarks	Specify the additional information about the internal transfer fund.

- Click **Save** to save the details.

The user can view the configured internal transfer details in the [View Internal Transfer](#).

- Click **Cancel** to close the details without saving.

2.2.2 View Internal Transfer

This topic describes the systematic instructions to view the list of configured internal transfer details for a customer.

The user can perform an internal transfer using the [Create Internal Transfer](#).

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.
2. Under **Transactions**, click **Internal Transfer**. Under **Internal Transfer**, click **View Internal Transfer**.

The **View Internal Transfer** screen displays.

Figure 2-4 View Internal Transfer

Booking Reference Number	Booking Date	Customer...	Transaction...	Status

000ZVIB180990007	2018-04-09	222222	1159703	Unauthorized

For more information on fields, refer to the field description table.

Table 2-5 View Internal Transfer – Field Description

Field	Description
Booking Reference Number	Displays the booking reference number associated with the internal transfer.
Booking Date	Displays the booking date associated with the internal transfer.
Real Customer Number	Displays the number of the customer.
Transaction Virtual Account Number	Displays the transaction virtual account number.
Authorized Status	Displays the authorization status of the record. The options are: • Authorized • Rejected • Unauthorized
Transaction Status	Displays the transaction status of the record. The options are: • Active • Reversed • Expired

Reverse the Internal Transfer:

3. On **View Internal Transfer** screen, click **three-dots** icon, and click **Reverse**.

The **Reversal Confirmation** popup screen displays.

Figure 2-5 Reversal Confirmation

4. Click **View** to view the data before proceeding with the reversal.
5. Click **Proceed** to proceed with the reversal.

The **Reversal Remarks** popup screen displays.

Figure 2-6 Reversal Remarks

6. Specify the remarks in the **Remarks** field.
7. Click **Confirm** to reverse the internal transfer.

2.3 Journal Online

This topic provides information about the Journal Online.

Journal online is used for posting debit/credit transactions to virtual accounts. Any transaction posted on the virtual account is redirected to the underlying DDA for transaction posting into the real account.

This topic contains the following subtopics:

- [Create Journal Online](#)
This topic describes the systematic instructions to post debit/credit transactions for a virtual account.
- [View Journal Online](#)
This topic describes the systematic instructions to view a list of journal online transactions.

2.3.1 Create Journal Online

This topic describes the systematic instructions to post debit/credit transactions for a virtual account.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.
2. Under **Transactions**, click **Journal Online**. Under **Journal Online**, click **Create Journal Online**.

The **Create Journal Online** screen displays.

Figure 2-7 Create Journal Online

3. Specify the fields on **Create Journal Online** screen.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 2-6 Create Journal Online – Field Description

Field	Description
Source Code	Click Search icon to view and select the required source code.
Source Reference Number	Specify the source reference number.
Booking Date	By default, the application date is selected as the booking date.

Table 2-6 (Cont.) Create Journal Online – Field Description

Field	Description
Initiation Date	By default, the application date is selected as the initiation date.
Processing Reference Number	The system generates an unique processing reference for the transaction.
Original Reference Number	The system generates an original reference number for the transaction.
Account Number (Virtual Account/Identifier)	Click Search icon to view and select the required account number.
Virtual Account Currency	Based on the Virtual Account selected, the information is auto-populated.
Virtual Account Branch	Based on the Virtual Account selected, the information is auto-populated.
Debit/Credit	Select if the transaction is debit/credit.
Force Debit	If selected, the account is forced debited and no balance check is performed.
Transaction Currency	Click Search icon to view and select the transaction currency.
Transaction Amount	Specify the transaction amount.
Transaction Code	Click Search icon to view and select the transaction code.
Value Date	By default, the application date is selected as the value date.
Exchange Rate	Specify the exchange rate.
Amount in Account Currency	Specify the amount in account currency.
Reconciliation Reference Number	Specify additional information about the transaction that is used for the reconciliation purpose.
ECA or Block Reference Number	Specify the block or ECA reference number.
Reporting Information	Specify additional information about the transaction which must be reported.
Real Account Number	Specify the real account number.
Real Account Branch	Specify the real account branch.
Real Account Exchange Rate	Specify the real account exchange rate.
Real Account Amount	Specify the real account amount.
Skip DDA Entries	If enabled, indicates to skip a DDA entry for an account number.
DDA Offset	Click Search icon to view and select the DDA offset details.
Additional Text	Specify additional information about the transaction.

4. Click **Add** icon to add a row and specify the required details.
5. Click **Save** to save the details.

The user can view the configured journal online in the [View Journal Online](#).

6. Click **Cancel** to close the details without saving.

2.3.2 View Journal Online

This topic describes the systematic instructions to view a list of journal online transactions.

The user can post debit/credit transactions to the virtual accounts using the [Create Journal Online](#).

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.
2. Under **Transactions**, click **Journal Online**. Under **Journal Online**, click **View Journal Online**.

The **View Journal Online** screen displays.

Figure 2-8 View Journal Online

The screenshot shows the 'View Journal Online' interface. It features a search bar at the top left and a list of 209 items. The main content area displays a grid of transaction cards. Each card shows a 'Processing Reference Number' (e.g., 000ZJNL180980A9F), a 'Source Code' (OBVAM), and a transaction status (e.g., Authorized, Reversed, Rejected, Expired, Unauthorized, Active). The bottom of the screen shows a pagination control indicating 'Page 1 of 209' and a list of items (1 - 10 of 209 items).

For more information on fields, refer to the field description table.

Table 2-7 View Journal Online – Field Description

Field	Description
Processing Reference Number	Displays the processing reference number.
Source Reference Number	Displays the source reference number.
Source Code	Displays the source code.
Authorized Status	Displays the authorization status of the record. The options are: • Authorized • Rejected • Unauthorized
Transaction Status	Displays the transaction status of the record. The options are: • Active • Reversed • Pending • Expired

Reverse the Journal:

3. On **View Journal Online** screen, click **three-dots** icon, and click **Reverse**.

The **Reversal Confirmation** popup screen displays.

Figure 2-9 Reversal ConfirmationA light gray dialog box with a close button (X) in the top right corner. The text inside asks, "Would you like to view the data before proceeding with this operation?". At the bottom right, there are two buttons: "View" and "Proceed".

Would you like to view the data before proceeding with this operation?

View Proceed

4. Click **View** to view the data before proceeding with the reversal.
5. Click **Proceed** to proceed with the reversal.

The **Reversal Remarks** popup screen displays.

Figure 2-10 Reversal RemarksA light gray dialog box titled "Reverse" with a close button (X) in the top right corner. The text asks, "Are you sure you want to reverse the transaction? Please confirm". Below this is a text input field labeled "Remarks". At the bottom right, there are two buttons: "Cancel" and "Confirm".

Reverse

Are you sure you want to reverse the transaction? Please confirm

Remarks

Cancel Confirm

6. Specify the remarks in the **Remarks** field.
7. Click **Confirm** to reverse the journal transaction.

**Note:**

Once the maker reverses the journal transaction, the checker needs to authorize the original journal transaction which is marked for reversal. The system will automatically create a reversal transaction in authorized status once the original journal marked for reversal is authorized.

Table 2-8 Journal Reversal - Sample Process Flow

SL No	Description	Processing Reference Number	Original Reference Number	Authorization Status	Transaction Status
1	Maker creates a Journal transaction	TXREF1234567	-	Unauthorized	Active
2	Checker approves the journal transaction	TXREF1234567	-	Authorized	Active
3	Maker reverses the journal transaction	TXREF1234567	-	Unauthorized	Reversed
4a	Checker approves the journal transaction marked for reversal	TXREF1234567	-	Authorized	Reversed
4b	System automatically creates a reversal transaction in authorized status	REVREF1234567	TXREF1234567	Authorized	Active

2.4 Release Uncollected Amount

This topic provides the information about the Release Uncollected Amount.

Uncollected funds are generally released automatically after a specified time interval. It is referred as **Availability Information** and maintained at a transaction code level in Oracle® Banking Virtual Account Management.

However, the user can also release the uncollected funds manually through **Release Uncollected Amount** screen.

This topic contains the following subtopics:

- [Release Uncollected Amount](#)
This topic describes the systematic instructions to release uncollected funds manually for credit transactions for which the manual release has been specified at a transaction code level or which are yet to be released automatically.
- [View Released Uncollected Amount](#)
This topic describes the systematic instructions to view a list of manually released uncollected amount.

2.4.1 Release Uncollected Amount

This topic describes the systematic instructions to release uncollected funds manually for credit transactions for which the manual release has been specified at a transaction code level or which are yet to be released automatically.

For automatic release, the user can release the funds before the expected release date.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.
2. Under **Transactions**, click **Release Uncollected Amount**. Under **Release Uncollected Amount**, click **Release Uncollected Amount**.

The **Release Uncollected Amount** screen displays.

Figure 2-11 Release Uncollected Amount

- Specify the fields on **Release Uncollected Amount** screen.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 2-9 Release Uncollected Amount - Field Description

Field	Description
Source Code	Click Search to view and select the required source code.
Reference Number	The system generates a unique reference number for each of the release request.
Virtual Account Number	Click Search to view and select the virtual account number.
Virtual Account Name	Displays the virtual account name based on the Virtual Account Number selected.
Expected Release Date Range	Select the expected release date range from the calendar list.

- Click **Query** to view the credit transactions which are yet to be released.

For more information on fields, refer to the field description table.

Table 2-10 Release Uncollected Amount (Search Result) - Field Description

Field	Description
Virtual Account Number	Displays the virtual account number.
Source Reference	Displays the source reference.
Transaction Reference Number	Displays the transaction reference number.
Uncollected Amount	Displays the uncollected amount.

Table 2-10 (Cont.) Release Uncollected Amount (Search Result) - Field Description

Field	Description
Expected Release Date	Displays the expected release date. Expected release date is derived based on the balance availability parameter configured for the transaction code.
Actual Release Time	Displays the actual release time of the transaction.

5. Click **Reset** to clear the search criteria.
6. Select the **Checkbox** for the transactions which has to be released.
7. Click **Save** to save the details.

The user can view the manually released uncollected amount details in the [View Released Uncollected Amount](#).

8. Click **Cancel** to close the details without saving.

2.4.2 View Released Uncollected Amount

This topic describes the systematic instructions to view a list of manually released uncollected amount.

The user can release the uncollected amount manually using the [Release Uncollected Amount](#).

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Transactions**.
2. Under **Transactions**, click **Release Uncollected Amount**. Under **Release Uncollected Amount**, click **View Release Uncollected Amount**.

The **View Release Uncollected Amount** screen displays.

Figure 2-12 View Release Uncollected Amount

The screenshot displays the 'View Released Uncollected Amount' interface. It features a search bar at the top left and a list of transaction cards. Each card contains the following information:

- Reference Number:** (e.g., 000UNCL1809901Qk, 000UNCL1809902zc, 000UNCL180990253, 000UNCL1809902TS, 000UNCL18099037l, 000UNCL18099037m, 000UNCL1809903Fv, 000UNCL1809903Vx, 000UNCL1809904ok, 000UNCL1809904wk)
- Source Code:** OBVAM
- Authorized:** (indicated by a checkmark icon)

At the bottom, there is a pagination control showing 'Page 1 of 9 (1 - 10 of 84 items)' and a set of navigation buttons (1, 2, 3, 4, 5, 9, etc.).

For more information on fields, refer to the field description table.

ECA System	Posting Status	Exception	Retry Count
FCUBS	F	Failed to Save	

Retry

Reverse

For more information on fields, refer to the field description table.

Table 4-2 Business Exception Queue – Field Description

Field	Description
View Payload	Displays the payload details of the business exceptions.
Retry	Allows to retry the business exception queues.

4.2 Exchange Rate Queues

Exchange Rate Queues is used to access and approve the exchange rate queues for amount block and journal online.

This topic contains the following subtopics:

- [Approve Amount Block](#)
This topic describes the systematic instructions to approve an Amount Block.
- [Approve Journal Online](#)
This topic describes the systematic instructions to approve journal online.

4.2.1 Approve Amount Block

This topic describes the systematic instructions to approve an Amount Block.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Queues**.

- Under **Queues**, click **Exchange Rate Queues**. Under **Exchange Rate Queues**, click **Amount Block**.

The **Amount Block** screen displays.

Figure 4-3 Amount Block

The screenshot shows the 'Amount Block' screen with a search bar and a list of four data cards. Each card displays a reference number, branch, ECA system reference, and authorization status. The status is 'Unauthorized' for all four cards. The page number is 1 of 1.

Reference	Branch	ECA System	Status
000ZVAB180990422	000	-	Unauthorized
000ZVAB180990423	000	-	Unauthorized
000ZVAB180990424	000	-	Unauthorized
000ZVAB180990425	000	-	Unauthorized

For more information on fields, refer to the field description table.

Table 4-3 Amount Block – Field Description

Field	Description
Reference Number	Displays the amount block reference number.
Branch	Displays the branch number.
ECA System Reference Number	Displays the ECA reference number.
Authorization Status	Displays the authorization status of the record. The options are: - Authorized - Unauthorized
Transaction Status	Displays the transaction status of the record. The options are: - Active - Expired - Released - Pending

- On **Amount Block** screen, select the required record.
The **Amount Block Rate Queue** screen displays.
- Specify the required details in the grid on **Amount Block Rate Queue** screen.
For more information on fields, refer to the field description table.

Table 4-4 Amount Block Rate Queue – Field Description

Field	Description
Real Account Exchange (New)	Specify a real account exchange details.

Table 4-4 (Cont.) Amount Block Rate Queue – Field Description

Field	Description
Real Account Amount (New)	Based on the Real Account Exchange entered, the real account amount is auto-populated.

5. Click **Approve**.

The **Confirmation** screen displays.

4.2.2 Approve Journal Online

This topic describes the systematic instructions to approve journal online.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Virtual Account Management**. Under **Virtual Account Management**, click **Queues**.
2. Under **Queues**, click **Exchange Rate Queues**. Under **Exchange Rate Queues**, click **Journal Online**.

The **Journal Online** screen displays.

Figure 4-4 Journal Online

The screenshot shows the 'Journal Online' interface. It features a search bar at the top left and a list of five items. Each item displays a 'Processing Reference Number' and a 'Source Code'. The first four items have a status of 'Unauthorized' or 'In Progress', while the fifth item has a status of 'Active'. The interface includes a pagination bar at the bottom indicating 'Page 1 of 1 (1 - 5 of 5 items)'.

For more information on fields, refer to the field description table.

Table 4-5 Journal Online – Field Description

Field	Description
Processing Reference Number	Displays the processing reference number.
Source Reference	Displays the source reference number.
Source Code	Displays the source code.

Table 4-5 (Cont.) Journal Online – Field Description

Field	Description
Authorization Status	Displays the authorization status of the record. The options are: • Authorized • Unauthorized
Transaction Status	Displays the transaction status of the record. The options are: • Active • Reversed • Pending

 Note:

The user can also approve a journal online record for an exchange rate queue. Refer to [Approve Amount Block](#) (the steps are similar).

A

Error Codes and Messages

This topic provides the error codes and messages found in the application.

Table A-1 Error Codes and Messages

Screen Name	Error Code	Error Message
Journal Online	VAT-JNOL-072	virtualAccountIdentifier is a mandatory input
Internal Transfer	VAI-INT-25	Virtual Accounts doesn't belong to same real Account
All Screens	VAM-BAL-017	Virtual Account number, from date and to date, all three are mandatory fields
Amount Block	VAB-ECA-23	Virtual Account is not mapped to Real Account
Amount Block	VAB-ECA-07	Virtual Account \$1 cannot be passed multiple times.
All Screens	VAM-BAL-021	Virtual Account \$1 and currency \$2 combination is Invalid
Amount Block	VAB-ECA-31	Valid Value Date
All Screens	GCS-AUTH-02	Valid modifications for approval were not sent. Failed to match
Journal Online	VAT-JNOL-048	User rate queue of Transaction with \$1 ID should get Authorize First
Journal Online	VAT-JNOL-049	User cannot Authorize Exchange rate queue record before Accepting the Exchange Rate
Amount Block	VAB-ECA-54	Updated Transaction status successfully with out new Exch Rate
Amount Block	VAB-ECA-26	Updated Released Amount Successfully
All Screens	GCS-REOP-04	Unauthorized record cannot be reopened, record should be closed and authorized
All Screens	GCS-REOP-01	Unauthorized Record cannot be Reopened
All Screens	GCS-CLOS-03	Unauthorized record cannot be closed, it can be deleted before first authorization
All Screens	GCS-COM-006	Unable to parse JSON
All Screens	EDA-ACC-017	Txn Came in Async Mode hence batch will process the records from Tank Tables which are UnProcessed
Amount Block	VAB-ECA-25	Txn Amount and Approved Amt are not same
Journal Online	VAT-JNOL-013	Transaction with \$1 ID doesn't exist
All Screens	VAI-RMLS-08	Transaction Value Date should be Less than the Validity End Date Of Remitter ID
All Screens	VAI-RMLS-07	Transaction Value Date should be Greater than the Validity Start Date Of Remitter ID
Journal Online	VAT-JNOL-020	Transaction successfully saved
Journal Online	VAT-JNOL-022	Transaction successfully reversed
Journal Online	VAT-JNOL-016	Transaction successfully deleted
Journal Online	VAT-JNOL-017	Transaction successfully authorized

Table A-1 (Cont.) Error Codes and Messages

Screen Name	Error Code	Error Message
Amount Block	VAB-ECA-81	Transaction Status is not in Pending status in Block Queue
Internal Transfer	VAI-INT-034	Transaction Rolled Back due to failure
Journal Online	VAT-JNOL-031	Transaction Rolled Back due to failure
All Screens	EDA-VAT-001	Transaction Rolled Back due to failure
Amount Block	VAB-ECA-30	Transaction Request to ECA is Empty
Journal Online	VAT-JNOL-019	Transaction persistence failed
Internal Transfer Journal Online	VAM-ACCK-013	Transaction not allowed for virtual account \$1 as account closure initiated for the same
Journal Online	VAT-JNOL-018	Transaction is not in unauthorized state
Journal Online	VAT-JNOL-052	Transaction details cannot be empty while posting a transaction
Internal Transfer	VAI-INT-11	Transaction Currency and Offset Currency must be same
Amount Block	VAB-ECA-63	Transaction currency and block currency for the provided ECA reference number is different
Journal Online	VAT-JNOL-071	Transaction Branch is mandatory for Identifier Real account fetch
Internal Transfer	VAI-INT-01	Transaction Account and Offset Account cannot be the same
Journal Online	VAT-JNOL-024	This transaction was created by reversal hence should not be reversed
Journal Online	VAT-JNOL-012	The request sent for transaction posting can not be null
All Screens	GCS-VAL-001	The record is successfully validated.
All Screens	GCS-SAV-003	The record is saved and validated successfully.
Amount Block	VAB-ECA-62	The amount to be released is greater than approved amount
All Screens	VAM-BAL-005	Sufficient funds available for \$1
All Screens	VAM-BAL-002	Successfully validated and updated balance
All Screens	VAM-BAL-012	Successfully updated turn over balance
All Screens	VAM-BAL-007	Successfully updated data into Value Dated table for \$1
All Screens	EDA-ACC-010	Successfully retrieved the for the inter DDA GLs
All Screens	VAM-BAL-014	Successfully retrieved
All Screens	GC-REOP-03	Successfully Reopened
All Screens	GCS-REOP-003	Successfully Reopened
All Screens	GCS-REOP-03	Successfully Reopened
All Screens	VAM-BAL-024	Successfully merged account details for Untanking batch
All Screens	VAM-BAL-006	Successfully inserted data into Value Dated table for \$1
All Screens	VAM-BAL-008	Successfully inserted data into Account Transaction table for \$1
Journal Online	VAT-JNOL-073	Successfully Fetched real account
All Screens	GCS-COM-010	Successfully cancelled \$1.

Table A-1 (Cont.) Error Codes and Messages

Screen Name	Error Code	Error Message
All Screens	EDA-EAC-004	Source system is null for one of the Real accounts in VAC
Journal Online	VAT-JNOL-040	Skip DDA Entries flag should not be set for identifier transactions
All Screens	GCS-DEL-004	Send all unauthorized modifications to be deleted for record that is not authorized even once.
Journal Online	VAT-JNOL-011	Saved and authorized successfully
Amount Block	VAB-ECA-44	Rolled back the release flow of Amount Block
Amount Block	VAB-ECA-32	Rolled back the Locked and Released Blocked Amounts
Amount Block	VAB-ECA-66	Rolled Back release ECA due to failure in auto-authorization
Amount Block	VAB-ECA-67	Rolled Back create ECA due to failure in auto-auth
Amount Block	VAB-ECA-39	Rollback the callExternal DDA of closeECA
Amount Block	VAB-ECA-43	Rollback the authorized Regulatory Block Type due to Failure
All Screens	EDA-ACC-016	ReverseTxn cannot be called for Sync Txn Reference: \$1
All Screens	EDA-REV-004	Reverse Transaction in OBVAM Failed
All Screens	EDA-REV-005	Reverse Transaction in DDA Failed
All Screens	EDA-REV-002	Reverse failed with exception
Journal Online	VAT-JNOL-006	Reversal is not allowed for transactions with ECA reference number
All Screens	EDA-REV-007	Returning Success as there are no records to reverse
All Screens	EDA-ACC-015	Retry cannot be called for Sync Txn Reference: \$1
All Screens	GCS-COM-009	Resource ID cannot be blank or "null".
Amount Block	VAB-ECA-29	Requested ECA References does not exists in Database
Amount Block	VAB-ECA-04	Requested Amount Block must be greater than zero
All Screens	GCS-COM-007	Request Successfully Processed
All Screens	GCS-COM-005	Request is Null. Please Resend with Proper Values
Amount Block	VAB-ECA-06	Request is Null. Please Resend with Proper Values
Internal Transfer	VAI-INT-22	Request is Null. Please Resend with Proper Values
All Screens	VAI-IDCH-07	Remittance Detail is not configured for the associated remitter list id
Amount Block	VAB-ECA-27	Released Amount cannot be greater than Approved Amount
All Screens	GCS-DEL-002	Record(s) deleted successfully
Amount Block	VAB-ECA-65	Record with the Block refrenece No not found
Journal Online	VAT-JNOL-045	Record Updation Failed
Journal Online	VAT-JNOL-044	Record Successfully Updated
Amount Block	VAB-ECA-45	Record Successfully Saved and Authorized
Internal Transfer	VAI-INT-15	Record Successfully Reversed
All Screens	EDA-REV-003	Record Successfully Reversed

Table A-1 (Cont.) Error Codes and Messages

Screen Name	Error Code	Error Message
All Screens	GCS-MOD-002	Record Successfully Modified
All Screens	GC-CLS-02	Record Successfully Closed
All Screens	GCS-CLOS-002	Record Successfully Closed
All Screens	GCS-CLOS-02	Record Successfully Closed
All Screens	GCS-AUTH-01	Record Successfully Authorized
Amount Block	VAB-ECA-17	Record Successfully Authorized
Internal Transfer	VAI-INT-16	Record Successfully Authorized
Journal Online	VAT-JNOL-046	Record Successfully Authorized
Amount Block	VAB-ECA-52	Record Successfully Approved from Amount Queue
All Screens	GCS-SAV-002	Record Saved Successfully.
Amount Block	VAB-ECA-05	Record Saved Successfully
Internal Transfer	VAI-INT-23	Record Saved Successfully
Amount Block	VAB-ECA-21	Record Released Successfully
All Screens	GCS-MOD-003	Record marked for close, cannot modify.
Amount Block	VAB-ECA-20	Record is already released
