

Documaker Standard Edition

Introduction

Documaker version 13.0.2 is built for the 64-bit architecture. Documaker 64-bit applications support 64-bit processors which can handle larger data sets, perform complex calculations more efficiently and access significantly more RAM than with 32-bit.

Existing customers may upgrade to Documaker 13.0.2 product version at any time.

Documaker 13.0.2 falls under the Oracle Lifetime Support Policy for Documaker 13.0.0.

This ReadMe accompanies the following Oracle products for Microsoft Windows, Linux x64 and Solaris SPARC x64 operating systems:

- **Documaker Studio:** Integrated development environment (IDE) for design, library management, testing and promotion.(Windows Only)
- **Documaker Server:** High-performance Electronic Document Automation (EDA) publishing system that composes, renders, and delivers documents.
- **Documaker Desktop:** Workstation-based application that supports form selection, data entry and publishing within the Documaker system for Oracle Documaker Standard Edition (Windows Only)
- **Documaker Add-in for Microsoft Word:** Add-In that allows business users to create dynamic documents in Word for inclusion in a Documaker library. (Windows Only)

Linux download packages include Linux platform installers that support *Oracle* and *RedHat Linux 8 and 9* and end with `.linux` file name extension or have *Linux* in the file name.

Solaris SPARC download packages include Solaris platform installers that support *Oracle Solaris 11.4* on SPARC and end with `.spa` file name extension or have '*Solaris*' in the file name.

Note

This release of Oracle Documaker is for multiple platforms.
This file contains the following topics:

- Documentation provides links to Documaker product documentation on Oracle Help Center.
- Known Issues lists the known issues of version 13.0.2.
- Items Addressed lists bug fixes, minor improvements, and other changes made to the Documaker components.
- Customer Support provides information on contacting Oracle Support.

Documentation

The documentation for Documaker is available at: <https://docs.oracle.com/en/industries/financial-services/documaker/index.html>

The Oracle Documaker Documentation Libraries include the following reference materials:

- The Documaker Release Notes and Readmes list new features, updates and bug fixes for all product components in this release.
- The System Requirements list system requirements for all products and platforms.
- The Documaker Installation Guide provides installation instructions.
- The Documaker Administration Guide provides information on system concepts, post-installation configuration and maintenance information for the Documaker Server and related sub-components.
- The Documaker Studio User Guide, Rules Reference, DAL Reference, and Docutoolbox Reference provide information on using Documaker Studio, building publishing rules, the document assembly language (DAL), additional tools available, and creating and managing your Documaker library of publishing resources.
- The Documaker Desktop Installation Guide and Documaker Desktop Administration Guide provide additional installation, configuration, and customization instructions for desktop-based solutions using Documaker Desktop.
- The Documaker Desktop User Guide for information on how to select forms, enter information onto forms, print copies, email forms to other users, place form sets into work-in-progress (WIP), archive forms, etc.
- A collection of Documaker Add-In for Microsoft Word Tutorials provide step-by-step instructions on utilizing the Documaker Add-In for Microsoft Word.

Additional information is also available in the Help files within the products.

Known Issues

There are no specific known issues related to the Documaker Standard Edition 13.0.2 in this release.

Items Addressed

This release is a cumulative release which includes enhancements and patches released in prior versions; please refer to the release notes and readmes for 13.0.2 and prior versions for additional items previously addressed. In addition to the following items, there may also be additional product enhancements outlined in the Release Notes which are available on OTN.

13.0.2

Installation

There are no specific product changes or BugDB items related to Standard Edition Installation in this release.

Table 1-1 Documaker Core

ID	BugDB#	Components	Description
767	28121138	Print (PDF)	Enhancement: Provide ability to specify languages for specific text within PDF documents
2954	36170614	Docupresentment	Enhancement: Added Priority value (lowest 0 to highest 9) to IDS Client requests queue properties for processing order for IBM WebSphere MQ and JMS
4088	37477044	EWPS	Apache Commons IO update to 2.16.1 (CVE-2024-47554)

Table 1-1 (Cont.) Documaker Core

ID	BugDB#	Components	Description
4142		DAL	<ul style="list-style-type: none"> • DelSubform had a fault if no matching subform was found • SpanField function was changing the incorrect field text when the left side is empty • SpanField function was changing the incorrect field text when the left side parameter is empty • SpanField intentionally will omit the span if both parameter fields are empty • PatchRelease function did not work correctly • FieldRule allow definition to default in the field's Length if none specified • Script loading another library could crash if compiled script loading turned on • StrCompare documented as returning 0, 1, or -1, however certain platforms would return other values greater or lessor. Now works as documented on all platforms • DBUnloadDFD and PathExist() changed to address platform file path name compatibility
4142		Rules Processor (Field Rule)	TextMergeParagraph rule resetting embedded field references to "blank" does not set the text properly if it is a Unicode font
4142	37636135	MPM	MPM on Linux would not generated a correct link reference on Table of Content items
4198	37735466	Print (All Types)	Oracle Outside In Technology's Image Export (OIT IX) update to patch 8.5.7.7 (FreeType CVE-2025-27363)
4243	37883384	Print (PDF)	The font for a Bullet was not being set correctly in certain data import situations
4270	37927277	DAL	Fixed Issue with DAL Retain function caused by changes in prior release for creating DAL variables as needed

Table 1-1 (Cont.) Documaker Core

ID	BugDB#	Components	Description
4288		Print (HTML)	Upgrade HTML markup for MLT mapped from XML. See the release document for full details <ul style="list-style-type: none"> • Add span tag support • Add attribute check at all "paragraph" level tags • Add support for additional character escape tags • Text inherits field default font and color when specified • Child-level Bullet indent • List elements were previously inheriting the font from a prior bullet or text within the bullet item
4308		XML Import	Improvements <ul style="list-style-type: none"> • Honoring the <XMLImport> DontResizelmages= option • Html output was choosing a color text even if not requested to print in color • Cached sections were omitting the field color when it matched the global color and affected subsequent reuse of that section
4316		DAL	DAL enforcing date validation now in GenData affecting legacy behavior INI option added to relax the Date validation within DAL for customer regressions
4319	38012272	EWPSj Documaker (ECM) Connector Documaker Interactive Documaker Administartor Documaker Dashboard	Apache Commons BeanUtils update to 1.11.0 (CVE-2025-48734)
4334	37909817	Docupresentmen t Client	DSI SDK assemblies and some examples were missing from the Windows IDS installation
4359	38140572	DAL	DAL function Cut(String,Position,Length) behavior issue addressed
4373	38189956	EWPSj Docupresentmen t Documaker Interactive	Apache Commons FileUpload update to 1.6.0 (CVE-2025-48976)

Table 1-1 (Cont.) Documaker Core

ID	BugDB#	Components	Description
4384			Documaker Core Installers: Update included JDKs/JREs to version 1.8.0.461.32
4392	38258126	DBHandler (ODBC)	Library Manager when using ODBC DBHandler addressed
4403		XML Import	Image/section occurrence over multi-page section is counted as same occurrence for xpath/overflow mapping based upon the section occurrence number
3693 4075		Word Import	Issue with incorrect bullet point numbering when importing a Word document as a FORM into MRL resolved
4196 4223	37730104 37816780	DAL	Issue with blank comments (asterisk on line) encountered during execution of a DAL script addressed
4356 4375	38138959	All	Oracle JDBC Driver (ojdbc.jar)

Table 1-2 Documaker Studio & Utilities

ID	BugDB#	Description
4166	37624365	Documaker Studio Issues with Documaker Studio Workspace using ODBC DB Handler
4326		Documaker Studio Enhancements/Improvements Added and updated (light/dark) themes Graphic buttons improved on toolbars and option trees toolbar settings are suppressed now since only ribbons Dark theme visual improvements
4342		Test Manager Manual Triggering Not Offering ad hoc Forms Manual trigger process in Test Manager now allows selection of any other form(s) from the library

Table 1-3 Documaker Desktop

ID	BugDB#	Description
4266		Documaker Workstation adjustment for AutoSave to handle when the filename/key is mixed case when database stores as uppercase only

Table 1-4 Documaker Add-In for Microsoft Word

ID	BugDB#	Description
NA	NA	There are no specific product changes or BugDB items related to this release.

Oracle Global Customer Support

If you have any questions about the installation or use of our products, call +1.800.223.1711 or visit the [My Oracle Support](#) website.

Go to [My Oracle Support](#) to find answers in the Oracle Support Knowledge Base; submit, update or review your Service Requests; engage the My Oracle Support Community, download software updates, and tap into Oracle proactive support tools and best practices.

Hearing impaired customers in the U.S. who need to speak with an Oracle Support representative may use a Telecommunications Relay Service (TRS); information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of phone numbers is available at <http://www.fcc.gov/cgb/dro/trsphonebk.html>. International hearing impaired customers should use the TRS at 1.605.224.1837.
