

Documaker Mobile

Introduction

Documaker version 13.0.2 is built for the 64-bit architecture. Documaker 64-bit applications support 64-bit processors which can handle larger data sets, perform complex calculations more efficiently and access significantly more RAM than with 32-bit.

Existing customers may upgrade to Documaker 13.0.2 product version at any time.

Documaker 13.0.2 falls under the Oracle Lifetime Support Policy for Documaker 13.0.0.

This ReadMe accompanies the following Oracle product for Microsoft Windows, Linux x64 and Solaris SPARC x64 operating systems.

Documaker Mobile: Documaker Mobile provides the ability to render output for iOS, Android operating systems, and laptops by leveraging existing Documaker capabilities including defining content, triggers, and data mapping.

Note

This release of Oracle Documaker is for multiple platforms.

This file contains the following topics:

- *Documentation* provides links to Documaker product documentation on Oracle Help Center.
- *Items Addressed* lists bug fixes, minor improvements, and other changes made to the Documaker components.
- *Customer Support* provides information on contacting Oracle Support.

Documentation

The documentation for Documaker is available at: <https://docs.oracle.com/en/industries/financial-services/documaker/index.html>

The Oracle Documaker Documentation Libraries include the following reference materials:

- The *Documaker Release Notes and Readmes* lists new features, updates and bug fixes for all product components in this release.
- The *Systems Requirements Guide* lists system requirements for all products and platforms.
- The *Documaker Mobile Install Guide* describes how to install the Documaker Mobile.
- The *Documaker Mobile User Guide* describes how to use the Documaker Mobile.
- The *Documaker Studio User Guide* describes how to use Documaker Studio to create form sets, forms, sections and the resources that comprise sections. Using Documaker Studio, you build the documents processed by Documaker Server.
- The *Documaker Enterprise Administration Guide* describes how Document Factory and Documaker Interactive work and provides information on various ways you can run this system to meet your business needs. This also includes information about Documaker Web Services (DWS).
- The *Documaker Add-In for Microsoft Word Help* provides information on using the Documaker Add-In for Microsoft Word.

Additional information is also available in the Help files within the products.

Items Addressed

This release is a cumulative release which includes enhancements and patches released in prior versions; please refer to the release notes and readmes for 13.0.2 and prior versions for additional items previously addressed. In addition to the following items, there may also be additional product enhancements outlined in the Release Notes which are available on OTN.
