Purpose

This guide provides step-by-step instructions to onboard a Financial Institution (FI) customer using Oracle Banking Enterprise Party Management.

Audience

This guide is intended for the bankers who are responsible for onboarding FI customers into the bank.

Before You Begin

Kindly refer to the **Getting Started with Oracle Banking Cloud Service** for information on common functionalities like login, navigation, and general settings before proceeding with this guide.

Module Pre-requisite

Specify **User Id** and **Password**, and login to the **Home** screen.

Module Definitions

Table Terms & Definitions

Terms	Definitions
Conglomerate	A large company that owns a collection of smaller companies in different, often unrelated, industries.

Table (Cont.) Terms & Definitions

Terms	Definitions
BIC Code	A SWIFT code, is a unique identifier for banks and financial institutions, used primarily for international money transfers.
Stakeholders	A person, group or organization with a vested interest, or stake, in the decision-making and activities of a business, organization or project.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resources

For more information, refer to the related documents as follows:

- *Getting Started User Guide*

Acronyms and Abbreviations

The following acronyms and abbreviations are used in this guide:

Table Acronyms and Abbreviations

Acronym/ Abbreviation	Description
BIC	Bank Identification Code
CIF	Customer Information File
FI	Financial Institution

Table (Cont.) Acronyms and Abbreviations

Acronym/ Abbreviation	Description
KYC	Know Your Customer
MICR	Magnetic Character Ink Recognition
RTGS	Real Time Gross Settlement
SME	Small and Medium Enterprise
Govt	Government
NPA	Non-performing assets

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Symbols and Icons

The following are the symbols you are likely to find in this guide:

Table List of Symbols

Symbol	Function
	Add icon
	Edit icon
	Delete icon
	Calendar icon
	Close icon
	Increase/Decrease value
	Maximize
	Minimize
	Open a list
	Perform search

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table Common Icons and its Definitions

Icon	Operation
Submit	Click Submit to default the checklists applicable for the stage based on the application category. On verifying all the checklists and on the selection of the outcome, the task will be submitted.
Post	Click Post to post the comments below the Comments text box.
Cancel	Once you click Cancel , the system will ask for confirmation, and on confirming, the task will be closed without saving the data.
Hold	Click Hold to save the captured details and suspend the task status. The suspended task will be available in the Hold queue. This option is used if there is any pending information to be captured. If mandatory fields have not been captured, the system will display an error until the mandatory fields have been captured.
Next	Click Next to save the captured details and then the system will move to the next screen. If mandatory fields have not been captured, the system will display an error until the mandatory fields have been captured. If mandatory fields have not been captured, the system will display an error until the mandatory fields have been captured.
Back	Click Back to save the captured details and move to the previous screen.
Save and Close	Click Save and Close to save the captured details. If mandatory fields have not been captured, the system will display an error until the mandatory fields are captured.

Module Post-requisite

After finishing all the requirements, log out from the **Home** screen.

- [Recommendation](#)
In this stage, the Recommending user reviews the progress done so far and provides recommendations for each of the data segments with a decision as approve/reject.
- [Approval](#)
In this stage, the approver reviews the activity done across all the stages and provides final signoff to approve the customer onboarding.
- [Amendment](#)
In this stage, the Relationship Manager can amend the information or can add additional information about a Financial Institution customer using Oracle Banking Enterprise Party Management.

1.1 Overview

Financial Institution Customer Onboarding is an umbrella term that is often used to describe the entire process that users go through when they start their journey as a customer of a banking product or service.

Onboarding is an ongoing process, which helps banks to create a relationship with customers. In a bank there would be Relationship Manager for every Financial Institution customer, the respective Relationship Manager would take care of the customer to successfully onboard into the bank.

The various activities performed for the Financial Institution Customer Onboarding process are:

- Initiation
- KYC
- Enrichment
- Review
- Recommendation
- Approval

1.4.4 Stakeholders

This topic provides the systematic instruction to add the Stakeholders details.

1. On the **Party Details** screen, click on the **Stakeholders** section.

The **Stakeholders Details** screen displays.

Figure 1-25 Stakeholder

Stakeholder Details

Owners (0) Authorized Signatories (0) Guarantors (0) Suppliers (0) Bankers (0) Insurers (0) Buyers (0) Management Team (0) Creditors (0) >

+

Party Type	CIF/Party Id	Name	ID/Registration Number	Customer	Action
Individual	000117472	Jessica Jacob	j526eg8i2g	Yes	

Stakeholders Detail is necessary for the bank to ascertain the credibility of the business. Stakeholders to a customer can be either of the following:

- An existing customer of the Bank.
- An existing party that is not a customer but is a stakeholder to another customer of the bank.

- A new party, which is neither a customer nor an existing party (stakeholder).

The Following **Stakeholder** types are supported for the FI customer:

- Shareholders
- Customers
- Owners
- Authorized Signatories – Signature can be uploaded for Authorized Signatories.
- Guarantors
- Suppliers
- Bankers
- Insurers
- Buyers
- Management Team
- Sponsors
- Directors
- Contractors
- Auditors
- Debtors
- Creditors
- Advisor

Note

- User should have required access to add a party within a customer access group as stakeholder. For more details, refer to the **Oracle Banking Party Configuration User Guide**.
- User should have required Personal Identifiable Information (PII) access to add individual stakeholders, if PII fields are configured. For more details, refer to the **Oracle Banking Party Configuration User Guide**.

2. Select the corresponding Stakeholder and click + icon to add the desired stakeholder.

The **Add New Owners** screen displays.
