This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

### Purpose

This guide provides an overview to the module and takes through the various steps involved setting up and using the security features that Oracle offers.

## Audience

This guide is intended for Oracle Implementers, SMS Administrator for the Bank, SMS Administrator for the Branch, and an Oracle user.

## **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup? ctx=acc&id=docacc.

#### Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

### **Diversity and Inclusion**

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our

initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

#### **Related Resources**

For more information on any related features, refer to the following documents:

- Oracle Banking Getting Started User Guide
- Oracle Banking Common Core User Guide

## Conventions

The following text conventions are used in this document:

Convention	Meaning	
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.	
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.	
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.	

### Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

### Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

#### Table 1 Acronyms and Abbreviations

Abbreviation	Description
SMS	Security Management System

#### **Basic Actions**

Table 2	List of Basic Actions
---------	-----------------------

Action	Description
Approve	Used to approve the initiated report. This button is displayed, once the user click <b>Authorize</b> .

Action	Description	
Audit	Used to view the maker details, checker details, and report status.	
Authorize	Used to authorize the report created. A maker of the screen is not allowed to authorize the report. Only a checker can authorize a report, created by a maker.	
Close	Used to close a record. This action is available only when a record is created.	
Confirm	Used to confirm the performed action.	
Cancel	Used to cancel the performed action.	
Compare	Used to view the comparison through the field values of old record and the current record. This button is displayed in the widget, once the user click <b>Authorize</b> .	
Collapse All	Used to hide the details in the sections. This button is displayed, once the user click <b>Compare</b> .	
Expand All	Used to expand and view all the details in the sections. This button is displayed, once the user click <b>Compare</b> .	
New	Used to add a new record. When the user click <b>New</b> , the system displays a new record enabling to specify the required data.	
	Note: The fields which are marked with asterisk are mandatory.	
ок	Used to confirm the details in the screen.	
Save	Used to save the details entered or selected in the screen.	
View	Used to view the report details in a particular modification stage. This button is displayed in the widget, once the user click <b>Authorize</b> .	
View Difference only	Used to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed, once the user click <b>Compare</b> .	
Unlock	Used to update the details of an existing record. System displays an existing record in editable mode.

# 1 Role

This topic describes about the maintenance of role and the respective access rights.

The users who works in the same department at the same level of hierarchy need to have similar user profiles. In such cases, the user can define a Role Profile that includes access rights to the functional activities that are common to a group of users. A user can be linked to a Role Profile by giving the user access rights to all the functional activities in the Role Profile.

The roles defined is effective only after the dual authorization.

- Create Role This topic provides the systematic instructions to create role.
- View Role

This topic provides the systematic instructions to view the list of configured roles.

# 1.1 Create Role

This topic provides the systematic instructions to create role.

Specify User ID and Password, and login Home screen.

The Create Role screen allows the user to create roles and assign their activities.

- 1. On Home screen, click Security Management. Under Security Management, click Role.
- 2. Under Role, click Create Role.

The Create Role screen displays.

Figure 1-1 Create Role

age	01210 K 4 1 2 3 4 5	o 218 • >1	

- 5. Specify the functional activity code or functional activity description in the respective fields.
- 6. Click **Search** to filter the required functional activity list.
- Select the required functional activity code to which the role profile must have access. For more information on functional activity, refer to Functional Activity Codes

- 8. Perform the following actions on functional activity code screen:
  - a. Click Add button to add a functional activity for the role creation.

- b. Click **Cancel** button to discard the changes.
- 9. Click **Delete** button to delete the functional activity code to which the role profile access is not required.
- 10. Click Save to save the details.

The user can view the configured roles in the View Role.

# 1.2 View Role

This topic provides the systematic instructions to view the list of configured roles.

Specify User ID and Password, and login Home screen.

The user can configure the role using the Create Role screen.

- 1. On Home screen, click Security Management. Under Security Management, click Role.
- 2. Under Role, click View Role.

The View Role screen displays.

Field	Description
Record Status	Displays the record status of the configured role. The available options are: • Open • Closed
Modification Number	Displays the number of modification performed on the record.

# 2 User

This topic describes about the maintenance of the user and their access.

Controlled access to the system is a basic parameter that determines the robustness of the security in banking software. Only authorized users can access the system with the help of a unique User Login ID and password. The user profile of a user contains the details of the user in four sections - User details, Status, Other details and User role branches.

- Create User This topic provides the systematic instructions to create the user and assign their activities based on their entity login.
- View User This topic provides the systematic instructions to view the list of configured users.
- Clear User This topic provides the systematic instructions to clear the user.
- Unlock User

This topic provides the systematic instructions to unlock the user.

## 2.1 Create User

This topic provides the systematic instructions to create the user and assign their activities based on their entity login.

Specify User ID and Password, and login Home screen.

The **Create User** screen allows the user to create the user and assign their activities based on their entity login.

- 1. On Home screen, click Security Management. Under Security Management, click User.
- 2. Under User, click Create User.

The Create User screen displays.

Figure 2-2 Create User - Multi Entity

3. Specify the fields on **Create User** screen.

For more information on fields, refer to the field description table below.

 Table 2-1
 Create User - Field Description

Field	Description
Login ID	<ul> <li>Single Entity - Specify login ID with which a user logs into the system. This login ID is unique across all branches. The minimum length of login ID can be configurable and the maximum number can be 12 characters.</li> <li>Multi Entity - Search and select the required login ID from the LOV.</li> </ul>

Field	Description	
Name	Specify the name of the user.	
Home Branch	Click the <b>Search</b> icon and select required home branch.	
User Status	Select the user status from the drop-down list.	
Status Changed On	Displays the last modified status.	
Is Supervisor	Select the toggle to indicate whether the user is a supervisor or not. By default, this option is disabled.	
Manager ID	Click the <b>Search</b> icon and select the required manager ID.	
Start Date	Select the start date from when the user is valid.	
End Date	Select the end date till when the user is valid.	
Access to PII	Select the toggle to enable the user to access the Personal Identifiable Information of the entity.	
	By default, this option is disabled.	
Staff Customer Restriction Required	Select the toggle to enable the staff customer restriction.	
	By default, this option is disabled.	
Customer ID	Click the <b>Search</b> icon and select required customer ID.	
Email ID	Specify the user Email ID at the time of the creation. All system generated password is communicated to the user through this mail ID.	
Telephone Number	Specify the user contact number.	
Home Phone Number	Specify the user home contact number.	
Mobile Number	Specify the user mobile number.	
Fax	Specify the fax details of the user.	
Language Code	Click the <b>Search</b> icon and select the required language code.	
User Role Branches	Specify the user role branches details.  Note:  A minimum of one user role and branch must be mapped.	
Propoh Codo		
Branch Code	Click the <b>Search</b> icon and select the required branch code.	
Role Code	Click the <b>Search</b> icon and select the required role code.	
Role Description	Displays the description about the role, based on the selected role code.	
User Applications	Specify the user application details.	
Application Name	Click the <b>Search</b> icon and select the required application.	
Application Description	Displays the description about the application based on the selected application.	
Customer Access Groups	Specify the customer access group details.	
Customer Access Group	Search and select the required customer access group from the list.	
Customer Access Description	Displays the additional information about the customer access based on the selected group.	

#### Table 2-1 (Cont.) Create User - Field Description

4. Click + to add a row and provide the required details in the columns.

- 5. Click **Select All Applications** button to select all the applications for which the user needs the access.
- 6. Click **Save** to save the details.

The user can view the configured users in the View User.

#### Note:

User modification is not allowed while the user is logged in. However, the administrator can clear off the user and perform modifications. For more information, refer to the Clear User topic.

## 2.2 View User

This topic provides the systematic instructions to view the list of configured users.

Specify User ID and Password, and login Home screen.

The user can configure the user using the Create User screen.

- 1. On Home screen, click Security Management. Under Security Management, click User.
- 2. Under User, click View User.

The View User screen displays.

The user can search for the user based on the **User Login ID** and **Branch Code** parameters.

3. Specify the fields on the Clear User screen.

For more information on fields, refer to the field description table below.

Table 2-3 Clear User - Field Descripti	on
--	----

Field	Description
User Login ID	Specify the user login ID.
Branch Code	Specify the branch code.

4. Click **Query**, once the parameters are specified.

The system displays the following details of the users who have logged into the system.

- Branch Code
- User Login ID
- User Name
- 5. Click **Reset** to reset the query parameters.
- 6. Select the check box against the relevant user record and click **Save** to force log out of the selected user.

# 2.4 Unlock User

This topic provides the systematic instructions to unlock the user.

Specify User ID and Password, and login Home screen.

The Unlock User screen allows the user to unlock the users.

- 1. On Home screen, click Security Management. Under Security Management, click User.
- 2. Under User, click Unlock User.

Figure 2-5 Unlock User

The Unlock User screen displays.

# B Functional Activity Codes

This topic describes about the functional activity for Security Management System services.

SMS manages the user access by associating various functional activities to a role. Based on the business use cases, the granular level activities / operations are defined at Functional activity.

SMS related functional activities must be mapped to a Role for Menu, Dashboard, User maintenance, and Role maintenance related access. It is as follows:

Screen/API Names	Functional Activity Codes	Action	Description
Role	SMS_FA_ROLE_AMEND	UNLOCK	Functional activity for modifying a role record.
Role	SMS_FA_ROLE_AUTHORIZ E	AUTHORIZE	Functional activity for authorizing a role record including Authority query and View changes.
Role	SMS_FA_ROLE_CLOSE	CLOSE	Functional activity for closing a role record.
Role	SMS_FA_ROLE_REOPEN	REOPEN	Functional activity for reopening a role record.
Role	SMS_FA_ROLE_VIEW	VIEW	Functional activity for viewing a role record including role LOV validation.
Role	SMS_FA_ROLE_DELETE	DELETE	Functional activity for deleting a role record.
Role	SMS_FA_ROLE_NEW	NEW	Functional activity for creating a role record.
Role	SMS_FA_GET_ALL_FUNC_ ACTIVITIES	VIEW	Functional activity for getting all the functional activities.
User	SMS_FA_USER_AMEND	UNLOCK	Functional activity for modifying a user record.
User	SMS_FA_USER_AUTHORIZ E	AUTHORIZE	Functional activity for authorizing a user record including Authority query and View changes.
User	SMS_FA_USER_CLOSE	CLOSE	Functional activity for closing a user record.
User	SMS_FA_USER_DELETE	DELETE	Functional activity for deleting a user record.
User	SMS_FA_USER_NEW	NEW	Functional activity for creating a user record.
User	SMS_FA_USER_REOPEN	REOPEN	Functional activity for reopening a user record.

Table B-1 Functional Activity Codes

	E-motional Activity Oct	<b>A</b> addieur	Description
Screen/API Names	Functional Activity Codes	Action	Description
User	SMS_FA_USER_VIEW	VIEW	Functional activity for viewing a user record including user LOV validation.
User	SMS_FA_USER_VIEW_NE W	VIEW	Functional activity to validate existing User.
User	SMS_FA_USER_CUST_AC CESS_GROUP	VIEW	Functional activity for maintaining the user customer access group.
User	SMS_FA_APPLICATION_V IEW	VIEW	Functional activity for viewing all the applications.
Clear User	SMS_FA_USER_GET_LOGI N_STATUS	VIEW	Functional activity for getting the login status.
Clear User	SMS_FA_USER_CLEAR	UPDATE	Functional Activity for Clear User.
sms-core-services	SMS_FA_LOAN_DASHBOA RD_PREFERENCE	VIEW	Functional activity for reading User Dashboard preference.
sms-core-services	SMS_FA_LOAN_DASHBOA RD_PREFERENCE_PUT	UPDATE	Functional activity for updating User Dashboard preference.
sms-core-services	SMS_FA_LOAN_DASHBOA RD_VIEW	VIEW	Functional activity for reading User Dashboard tiles.
sms-core-services	SMS_FA_MENU_DASHBOA RD_VIEW	VIEW	Functional activity for constructing menu.
sms-core-services	SMS_FA_USER_GET_HIER ARCHY	VIEW	Functional activity for getting the user hierarchy.
sms-core-services	SMS_FA_USER_GET_PEE R_REPORTEES	VIEW	Functional activity for getting the peer reporters.
sms-core-services	SMS_FA_USER_AUDIT_TR AIL_GET	VIEW	Functional activity for getting the audit trail.
sms-core-services	SMS_FA_USER_GET_USR_ FUN_ACT	VIEW	Functional activity for getting the user functional activities.
sms-core-services	SMS_FA_USER_SERVICE_ AMEND	UNLOCK	Functional Activity for user amendment using service API.
sms-core-services	SMS_FA_USER_SERVICE _NEW	NEW	Activity for user creation using service API.
sms-core-services	SMS_FA_USER_GET_REP ORTEES	VIEW	Functional activity for getting the reportees.
sms-core-services	SMS_FA_GET_ALL_FUNC_ ACTIVITIES_SUB	VIEW	Functional activity for getting all the functional activities for subordinates.
sms-core-services	SMS_FA_USER_GET_FILTE RED_USERS	VIEW	Functional activity for getting all filtered users.
sms-core-services	SMS_FA_USER_MAINT_BA TCH	BATCH	Functional activity for maintaining the user batch.
Login	SMS_FA_USER_LOGIN	LOGIN	Functional activity for logging in the user.
