This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

## Financial Services Advanced Analytical Applications Infrastructure Application Pack v8.1.2.0.0 Maintenance Release #5 (v8.1.2.5.0)

OFS AAI Application Pack v8.1.2.0.0 Maintenance Release #5 8.1.2.5.0 (ID **36420089**) is a cumulative release of all enhancements and bug fixes completed since the v8.1.2.0.0 release.

### Note

- Before you apply the OFS AAI 8.1.2.5.0 ML, contact [My Oracle Support](#) to ascertain the compatibility of the OFSAA applications in the OFSAA instance.
- For information about the Hardware and Software Requirements for this release, see the [Oracle Financial Services Analytical Applications 8.1.2.0.0 Technology Matrix](#).
- In case the OFSAA environment has the ERF suite of applications installed, refer to the Compatibility Matrix of OFSAAI with ERF Applications ([DOC ID 3066794.1](#)) and install the appropriate compatibility patches.
- In case the OFSAA environment has the FCCM suite of applications installed, refer to the Compatibility Matrix of OFSAAI with FCCM Applications ([DOC ID 3066800.1](#)) and install the appropriate compatibility patches.
- **SQL Rule is a deprecated feature from OFS AAI 8.1.2.4.0 ML and is not supported.** For more information, contact Oracle support.
- **Data Entries Forms and Queries is not enabled as part of standard release and is only available in as-is-where-is mode and will not be enhanced, fixed, or updated.** As an alternative, data maintenance is enabled through Data Maintenance Interface (DMI) module. **We strongly recommend to use DMI for data maintenance.**

### Additional Licensing Information

To use the **Data Maintenance Interface** feature, Oracle Financial Services Analytical Applications Infrastructure Extension Pack (OFS AAIEP) is required. For more information, refer to [OFS AAIEP Release Notes](#).

### Prerequisites

The minimum patch set level should be OFS AAI/AAAI Application Pack v8.1.2.0.0.

### Note

Upgrade the OFS AAI Platform on any OFSAA Application Pack.

**How to Apply this Release?**

For instructions on how to install this OFS AAAI Application Pack release, see the [OFS AAAI Application Pack Installation and Configuration Guide 8.1.2.5.0](#)

## New Features and Enhancements

Features and improvements introduced in this release.

The following list provides details for the new features and enhancements in this release. For detailed information on how to use these features, see the [Oracle Financial Services Advanced Analytical Applications Infrastructure v8.1.2.x User Documentation](#).

**Oracle Linux compatibility**

Support for Oracle Linux 9 Server is included from this release onwards.

**Administration**

- SFTP password can contain up to 60 alphanumeric characters
- Log-in screen shows a user's number of failed login attempts

**Data Maintenance Interface**

DMI screens are re-written using RAPID framework.

**Metadata**

- Ability to configure and execute F2T in Process Modeling framework
- Partition clause provided in T2T engine query to handle performance tuning

**Model Upload**

- Model Upload messaging now provides clearer, more detailed information to simplify debugging issues
- Ability to invoke Model Upload through REST API

**Operations**

User Interface support for batch ownership transfer functionality

**Process Modelling Framework**

- Availability of a New Process Modelling Framework User Interface from the AFCS landing page: User can now launch the new PMF canvas with an option to "Switch to New UI" and the new canvas is loaded. This interface is available for Process Modeller and Process Monitor.
- Order of the alert decision is changed
- Support for process execution to continue upon failure of a task
- Workflow audit log provided to capture change in workflow
- PMF data fields are now passed to T2T, DQ, DIH, and DT tasks

**Rules Framework**

“FIC\_MIS\_DATE” option is available at the time of creating a batch in AAI-run framework

**Security Management System**

- OFSAA user password accepts up to 30 characters
- Regeneration of instance access token/client secret during REST API calls
- Support for alphanumeric name in entity ID for SSO configuration
- Integration with Azure external SSO login.

**Unified Metadata Manager**

- Ability to capture failed records in DQ audit trail
- Support for threshold breach in decimals
- Support for absolute volume threshold as a user input at DQ group level

**System Configuration**

- REST API endpoint provided to fetch database server address as a response
- Ability to save external application details in OFSAA

**Workflow**

Ability to set schedule time separately in PMF timer.

## Library Upgrade Information

Refer to the following topic for information on libraries that are upgraded in this release.

[OFSAAI Licensing Information User Manuals.](#)

## List of One-offs Regularized

The list of one-offs that have been regularized in this release.

**One-offs Released on v8.1.2.4.0**

Component/Sub-component	One-Off Patch Number	Bug ID	Description
Administration	8.1.2.4.1	36209018	User unable to enable CSRF flag from System Administration
Administration	8.1.2.4.2	36338333	User activity report: The Idle Users reports are not getting generated.
Process Modelling Framework	8.1.2.4.3	36168017	Support of the process execution to continue on failure of a task
Process Modelling Framework	8.1.2.4.4	35947687	Workflow audit log to capture change in workflow

Component/Sub-component	One-Off Patch Number	Bug ID	Description
Unified Metadata Manager	8.1.2.4.5	36252233	Failed records are to be captured in DQ audit trail
Unified Metadata Manager	8.1.2.4.6	36322927	DQ group status shows success even though underlying DQ generic rule fails
Administration	8.1.2.4.7	36453331	Consolidated one-off for OCBC
Forms Framework	8.1.2.4.9	36494367/ 36211566	Check box selections are unchecked if mouse hovers
Workflow Framework	8.1.2.4.10	36526200	Unable to import custom workflow
Forms Framework	8.1.2.4.11	36494367	Check box selections are unchecked if mouse hovers
Others	8.1.2.4.12	36519365	Business processor screen is unable to save change - metadata could not be parsed. Please check SQL syntax
System Configuration	8.1.2.4.14	36388656	SSH exception in PKA enabled environment after upgrading to 8.1.2.4
Unified Metadata Manager	8.1.2.4.16	36409046	DQ check to consider decimal/absolute value in threshold
OJET Framework	8.1.2.4.17	36696277	Duplicate involved parties are added when user clicks Save button multiple times
Operations	8.1.2.4.17	36579230	ICC batch notification is not working when batch failure occurs
Data Loading	8.1.2.4.18	36673110	Unable to expand entities in expression builder in data mapping
Inline Processing	8.1.2.4.19	36347983	KYC regular batch is failing at 1st IPE task
Workflow	8.1.2.4.22	36850315	PMF timer has to set the scheduling time separately
Others	8.1.2.4.23	36541842	Standard upgrade of Apache XERCES-C++ libraries for common usage in OFSAA in v8124-JULY-2024
Administration	8.1.2.4.24	36782405	Support of API to delete list of segments/folders required to perform rollback of sandbox provisioning
Rules Framework	8.1.2.4.25	36703198	PR2RESTSERVICE/RUNLIST API is giving always 15 batch run definitions only

Component/Sub-component	One-Off Patch Number	Bug ID	Description
Security Management System	8.1.2.4.26	36694550	Utility to update passwords for SMSAUTHUSERS, SFTP, CONFIG and ATOMIC SCHEMA
Expressions	8.1.2.4.27	36810557	Not able to map constant to a number column in target mapping in data mapping.
ABC	8.1.2.4.28	36930351	RFI code not generated on WebSphere
Administration	8.1.2.4.29	36866424	User access report taking long time to display in user access report screen
Unified Metadata Manager	8.1.2.4.30	36801124	Error while creating a derived entity in OFSAAI 8.1.2.4
System Configuration	8.1.2.4.31	36713810	SSH exception in PKA enabled environment after applying patch 36388656
Administration	8.1.2.4.32	36919705	Consolidated IPE bugs in OFSAAI 8.1.2.4
Questionnaire	8.1.2.4.35	37100862	User privilege escalation issue found in Questionnaire module
Questionnaire	8.1.2.4.36	37058077	Sent RFI and cancelled but link still valid and able to Submit
Model Execution	8.1.2.4.37	37201179	Issues with Studio Model execution in ICC and RRF
Process Modelling Framework	8.1.2.4.37	36886131	PMF batch hung at ongoing state

**One-offs Released on v8.1.2.3.0**

Component/Sub-component	One-Off Patch Number	Bug ID	Description
Others	8.1.2.3.1	35320767	Adjustment screens are not loading after applying AAI April CPU on 812 and 8121 versions
Administration	8.1.2.3.2	35372280	Invalid error while entering wrong username and wrong password
Security Management System	8.1.2.3.3	35384601	Forward port for the bug 35330648 - search issue on user maintenance screen
Others	8.1.2.3.4	35340701	Consolidated fixes for issues found on OFSAAI v8123 post library upgrade
Others	8.1.2.3.5	35307360	Consolidated fixes for issues found on OFSAAI v8123

Component/Sub-component	One-Off Patch Number	Bug ID	Description
OJET Framework	8.1.2.3.6	35400424	Consolidate ECM LP issues on 8123
OJET Framework	8.1.2.3.7	35547019	Event details screen is broken after upgrade of JS library
Security Management System	8.1.2.3.8	35526369	User - User Group map details are not coming under user group authorization
OJET Framework	8.1.2.3.9	35599570	Customer detail screens are not loading via load balancer URL
Administration	8.1.2.3.10	35304742	ECM attachments slow download
Others	8.1.2.3.11	35382114	Standard upgrade of libraries for common usage in OFSAA v81x - July2023
System Configuration/ Configuration	8.1.2.3.12	35677879	User account does not get locked after exceeding number of invalid login attempts specified in configuration screen
Data Maintenance Interface	8.1.2.3.13	35464170	Inclusion of data exporter feature
Forms Framework	8.1.2.3.14	35688363	Masking is not working in case screens
Administration	8.1.2.3.15	35386514	Could not start message server after upgrading to 8123
Questionnaire	8.1.2.3.16	35667722	Option to configure the RFI token based approach
Administration	8.1.2.3.17	35322369	Consolidated sanction simulation API requests
Administration	8.1.2.3.18	35708201	Request interception issues found in OFSAA application
OJET Framework	8.1.2.3.19	35644568	Consolidate ECM 8124 LP issues
Administration	8.1.2.3.20	35780491	Could not start message server after upgrading to 8123
All Common Apps	8.1.2.3.21	35704380	OFSAA allows unauthorized access to resources
OJET Framework	8.1.2.3.22	35719715	Duplicate involved parties are added when user click multiple times save button.
Inline Processing	8.1.2.3.23	35653122	Inline dataset in IPE it's not saving
OJET Framework	8.1.2.3.24	35842235	CTR issues after applying the OFSAA fixes shared for ADP penetration testing

Component/Sub-component	One-Off Patch Number	Bug ID	Description
System Configuration	8.1.2.3.25	35829211	Avoid creating AAI and some other related tables while creating Infodom through REST-API
Metadata	8.1.2.3.26	35584468	OFSA 8.1.2: "code validation failed" error when opening the edit tab for random OFSA column in post load changes
Inline Processing	8.1.2.3.27	35814104	Enhancements in IPE to support simulation requirements (model id, version)
Others	8.1.2.3.28	35598249	Consolidated fixes for issues dependent on FCCM release
Process Modelling Framework	8.1.2.3.29	35997595	Unable to pass OFSA parameters such as run_key as filter for a DQ rule in PMF
Administration	8.1.2.3.30	36029065	System for cross-domain identity management (SCIM)
Process Modelling Framework	8.1.2.3.31	35681148	Support of the process execution to continue on failure of a task
Security Management System	8.1.2.3.32	36163791	Allow alphanumeric name in entity ID for SSO configuration
Administration	8.1.2.3.34	36221295	User authorization: Wrong message for user rejection
Administration	8.1.2.3.35	36413097	Add Evidence is failing in ECM after application of OFSA patches
Security Management System	8.1.2.3.35	36413107	SFTP enhancement to use APACHE MINA instead of APACHE VFS
OJET Framework	8.1.2.3.39	36434814	Optimization of database queries to improve response time
Dimension Management	8.1.2.3.40	36441772	Level information missing from hierarchy definition screen in 8.1.2.3
Workflow Framework	8.1.2.3.41	36513150	Unable to import custom workflow
Rules Framework	8.1.2.3.42	36484422	XSS protection in process page
Security Management System	8.1.2.3.43	36700512	Additional attribute to identify authentication type in OFSA
Administration	8.1.2.3.44	36729459	Upload file in Add Evidence generates a .js error

Component/Sub-component	One-Off Patch Number	Bug ID	Description
Others	8.1.2.3.45	36759000	RFI code is not generated on WebSphere
Security Management System	8.1.2.3.46	36686516	Utility to update passwords for SMSAUTHUSERS, SFTP, CONFIG and ATOMIC SCHEMA
Data Entry Forms and Queries	8.1.2.3.47	37212484	Data entry form spinning icon upon authorizing

#### One-offs Released on v8.1.2.2.0

Component/ Sub-component	One-Off Patch Number	Bug ID	Description
Security Management System	8.1.2.2.8	35278955	ESIC batch execution is failing with the LDAP users
Unified Metadata Manager/ Business Metadata Management	8.1.2.2.9	35282057	Unable to view hierarchy info/ mapping info in rule screen
Administration	8.1.2.2.10	35330648	Search issue on user maintenance screen
Process Modelling Framework	8.1.2.2.11	35335686	PMF execute API creates instance when wrong process ID is sent for execution
OJET Framework	8.1.2.2.12	35330434	Alignment issue in the UI
Workflow Framework/ Activity Registration Interface	8.1.2.2.13	35420401	Unable to import custom workflow
OJET Framework	8.1.2.2.14	35450397	Customer detail screens are not loading via load balancer URL
Advanced Analytics Infrastructure/ Modeling	8.1.2.2.15	35404056	While orchestrating PMF process, adding mfmodel widgets doesn't display available models for selection
Administration	8.1.2.2.16	35225801	Invalid login prompt message shows blank screen when logging with LDAP user
Data Entry Forms and Queries	8.1.2.2.17	35648918	Copy is not working in defi data entry screen OFSAA version 8.1.2.2
Data Loading	8.1.2.2.18	35425189	Date format configuration required for each column of the source in F2T
Process Modelling Framework	8.1.2.2.19	35976900	Pipelineexecutor.sh does not trigger PMF run
Security Management System	8.1.2.2.20	36350466	User - user group map details are not coming under the User Group Authorization screen
Administration	8.1.2.2.21	36233218	Search is not working under the Enable User screen

Component/ Sub-component	One-Off Patch Number	Bug ID	Description
System Configuration	8.1.2.2.22	36337729	Limit for RFI_TOKEK_VALIDITY is around 24 days
Security Management System	8.1.2.2.23	36614035	Additional attribute to identify authentication type in OFSAA
Administration	8.1.2.2.24	36639648	FP: Email notification not sending any emails after ICC batch execution
Metadata	8.1.2.2.25	36764092	While running T2Ts sometimes the batch execution is failing
Administration	8.1.2.2.26	37032846	"[1271] error: Failed to connect to FICSERVER" error when trying to save SFTP details in UI
Data Entry Forms and Queries	8.1.2.2.27	37110433	Excel upload screen becomes unresponsive after clicking 'Upload' button

#### One-offs Released on v8.1.2.1.0

Component/ Sub-component	One-Off Patch Number	Bug ID	Description
Administration	8.1.2.1.18	35264569	The old session should be logged out and new user should be able to login automatically
Model Upload	8.1.2.1.19	35297030	The data model elements (table_name and column_name) to have more than 30 characters
Security Management System	8.1.2.1.20	35348384	The session not expired after the user password reset from different browsers
Administration/ Security Management	8.1.2.1.21	35251850	Authorization tasks does not appear post administration changes
Administration	8.1.2.1.22	35521052	No error for invalid login
Administration	8.1.2.1.23	35878979	SFTP password is not allowing if the password has more than 20 characters
Administration	8.1.2.1.24	36008632	SFTP public key connection fails with 'Auth Cancel' when clicked on ViewLog
System Configuration	8.1.2.1.25	36571920	Unable to save password number maximum field
Operations	8.1.2.1.26	36547688	Getting error message when creating monthly schedule for batch

**One-offs Released on v8.1.2.0.0**

Component/ Sub-component	One-Off Patch Number	Bug ID	Description
Administration	8.1.2.0.25	35584594	Metadata during dimensions migrations from lower to higher environments are not moving correctly
Administration/ Security Management	8.1.2.0.26	35999789	While user logs in 2nd time with multi login disabled, it was still allowed to log in
Administration	8.1.2.0.27	35782844	Email notification not sending any emails after batch execution
Data Entry Forms and Queries	8.1.2.0.27	35922872	Data entry form is taking a long time to open
System Configuration	8.1.2.0.28	36216812	Rotation utility for DB password change on 8.1.2.0
Security Management System	8.1.2.0.29	36275623	Instance access token/ client secret regeneration during REST API calls
Rules Framework	8.1.2.0.30	36285232	Run execution description feature in RRF run utility
Rules Framework	8.1.2.0.30	36300912	Getting wrong entry for FIC_MIS_DATE in DIM_RUN
Rules Framework	8.1.2.0.31	36387280	FIC_MIS_DATE option to be available at the time of create batch in AAI run framework
Log Viewer	8.1.2.0.33	36264787	Unable to check logs on Batch Monitor View log screen
Administration	8.1.2.0.34	36920465	OFSAAI REST API's under SAML appear to bypass invalid credentials under "Basic Auth"

## Bugs Fixed in This Release

The following bugs are fixed in this release.

**Administration**

Bug ID	Description
37032846	"[1271] Error: Failed to connect to FICSERVER" error when trying to save SFTP details in UI
36920465	OFSAAI REST APIs under SAML appear to bypass invalid credentials under "Basic Auth"
36866424	User access report taking long time to display on User Access Report screen

Bug ID	Description
36755718	AAI 8123 : Unable to download attached documents
36639648	FP: Email notification not sending any emails after ICC batch execution
36484388	Document upload and download is not working
36413097	Add evidence is failing in ECM after application of AAI patches
36338333	User activity report: The idle users reports are not getting generated
36233218	Search is not working on the Enable User screen
36221295	User authorization: Wrong message for user rejection
36010057	ECM 8126 upload file in Add Evidence generates a .js error

### Advanced Analytics Infrastructure

Bug ID	Description
36951520	RFI code not generated on WebSphere

### Data Load

Bug ID	Description
36673110	Unable to expand entities in Expression Builder in Data Mapping

### Data Entry Forms and Queries

Bug ID	Description
37110433	Excel upload screen becomes unresponsive after clicking the 'Upload' button
37084716	Excel upload failed with the "Processing of multipart/form-data request failed" error
35922872	Data entry form is taking a long time to open

### Forms Framework

Bug ID	Description
36494367	Check box selections are unchecked if mouse hovers

### Inline Processing

Bug ID	Description
36347983	KYC regular batch is failing at 1st IPE task

### Log Viewer

Bug ID	Description
36264787	8.1 - Unable to check logs in Batch Monitor View Log screen

## Metadata

Bug ID	Description
36764092	While running T2Ts, sometimes the batch execution is failing

## OJET Framework

Bug ID	Description
36760912	Duplicate involved parties are added when user clicks <b>Save</b> button multiple times

## Operations

Bug ID	Description
36738946	Batch Maintenance - Buttons from tasks features do not work
36579230	ICC batch notification is not working when there is a batch failure
36547688	Getting error message when creating a monthly schedule for batch

## Process Modelling Framework

Bug ID	Description
37263156	Save button in Edit Definition for a process and some fields for widget details is not accessible

## Rules Framework

Bug ID	Description
36300912	812 - Getting wrong entry for FIC_MIS_DATE in DIM_RUN

## Security Management System

Bug ID	Description
36350466	User group map details are not displayed under User Group Authorization

## System Configuration

Bug ID	Description
36713810	SSH exception in PKA-enabled environment after applying patch 36388656
36571920	Unable to save password number maximum field
36409107	8.1.2.0.0 - Backport of bug 35677879 - User account does not get locked after exceeding number of invalid login attempts
36388656	SSH exception in PKA-enabled environment after upgrading to 8.1.2.4.0

## Unified Metadata Manager

Bug ID	Description
36801124	FP - Error while creating a derived entity in OFSAAI 8.1.2.4.0

Bug ID	Description
36322927	DQ group status shows success even though underlying DQ generic rule fails

## Bugs Fixed and Enhancements in Previous Releases Ported to This Release

The bugs fixed and enhancements in previous release versions that are ported to this release.

### Administration

Bug ID	Description
37048267	User access report taking long time to display on User Access Report screen
36475399	Script RESETPASS.SH does not consider the password restrictions defined on System Configuration screen
36475348	Improper neutralization of special elements in output used by a downstream
36475076	User-enabled rejection not working properly
36475028	FTP password in <b>defaultport.properties</b> file
36474858	Error [1271]: Connection failed with FIC server in <b>OFSA Administration &gt; Configure Servers</b>
36474849	Invalid login prompt message shows blank screen when logging with LDAP user
36474827	Encountering a dynamic value in the web request which is not generated by the application server
36474815	Invalid error while we enter wrong username and wrong password
36474807	Authorization task does not appear post administration changes
36474789	Request interception issues found in OFSAAI application
