This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

1.1	Audience	1-1
1.2	Access to Oracle Support	1-1
1.3	Related Information Sources	1-1
1.4	Additional Documents to Read	1-2
1.5	Conventions	1-2
1.6	Abbreviations	1-3

## 2 OFS Balance Sheet Planning Pack (OFS BSP Pack) Release v8.1.2.2.0

---

2.1	Pre-installation Requirements	2-1
2.2	Installing this Release	2-1

# 1

## Preface

This section provides information about the Oracle Financial Services Balance Sheet Planning Pack (OFS BSP Pack).

You can find the latest copy of this document in the [OHC Documentation Library](#) which includes all the recent additions or revisions (if any) done to date.

Before you begin the installation, ensure that you have access to [My Oracle Support](#) with the required login credentials to quickly notify us of any issues at any stage.

Topics:

- [Audience](#)
- [Access to Oracle Support](#)
- [Related Documents](#)
- [Conventions](#)
- [Abbreviations](#)

### 1.1 Audience

OFS Balance Sheet Planning Pack (OFS BSP Pack) Installation Guide is intended for administrators and implementation consultants who handle installing and maintaining the application pack components.

This document assumes that you have experience in installing Enterprise components and basic knowledge about the following:

- Balance Sheet Planning Pack (OFS BSP Pack) components
- OFSAA architecture
- UNIX commands
- Database concepts
- Web server or web application server

### 1.2 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For more information, visit [My Oracle Support](#) or visit [Oracle Accessibility Learning and Support](#) if you are hearing impaired.

### 1.3 Related Information Sources

This section identifies additional documents related to the OFS BSP Application Pack.

You can access the following documents online from the [Oracle Help Center \(OHC\) Documentation Library](#) for OFS BSP Application Pack Release 8.1.2.0.0:

- – OFS Balance Sheet Planning Release Notes, Release 8.1.2.2.0
- OFS Balance Sheet Planning System Administrator User Guide, Release 8.1.2.0.0
- OFS Balance Sheet Planning-Planning Administrator and Planning Analyst User Guide, Release 8.1.2.0.0
- OFS Balance Sheet Planning Cloning Reference Guide Release 8.1.x
- OFS Balance Sheet Planning Security Guide Release 8.1.x

## 1.4 Additional Documents to Read

Oracle Financial Services Balance Sheet Planning Application is built on the Oracle Financial Services Advanced Analytical Applications Infrastructure (OFS AAI).

See the following OFS AAI Documents ([OHC Documentation Library](#)) as no separate documents are required at the pack or application level for Oracle Financial Services Balance Sheet Planning Application Pack:

- OFS Analytical Applications Infrastructure (OFS AAAI) Application Pack Installation and Configuration Guide Release 8.1.2.0.0
- OFS Analytical Applications Infrastructure Administration Guide Release 8.1.x
- OFS Analytical Applications Infrastructure Cloning Reference Guide Release 8.1.x
- OFS Analytical Applications Infrastructure Security Guide Release 8.1.x
- OFS Analytical Applications Infrastructure User Guide Release 8.1.2.0.0

You can access the common document from the OHC Documentation Library:

- [OFS Analytical Applications 8.1.2.0.0 Technology Matrix](#)
- [OFS Data Model Utilities Guide](#)
- [OFS Cash Flow Engine Reference Guide](#)

## 1.5 Conventions

The following text conventions are used in this document:

**Table 1-1 Conventions Used in this Guide**

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, file names, text that appears on the screen, or text that you enter.
<a href="#">Hyperlink</a>	Hyperlink type indicates the links to external websites, internal document links to sections.

## 1.6 Abbreviations

The following table lists the abbreviations used in this document:

Abbreviation	Meaning
BDP	Big Data Processing
DBA	Database Administrator
DDL	Data Definition Language
DEFQ	Data Entry Forms and Queries
DML	Data Manipulation Language
EAR	Enterprise Archive
EJB	Enterprise JavaBean
ERM	Enterprise Resource Management
FTP	File Transfer Protocol
HDFS	Hadoop Distributed File System
HTTPS	Hypertext Transfer Protocol Secure
J2C	J2EE Connector
J2EE	Java 2 Enterprise Edition
JCE	Java Cryptography Extension
JDBC	Java Database Connectivity
JDK	Java Development Kit
JNDI	Java Naming and Directory Interface
JRE	Java Runtime Environment
JVM	Java Virtual Machine
LDAP	Lightweight Directory Access Protocol
LHS	Left Hand Side
MFA	Multi-Factor Authentication
MOS	My Oracle Support
OFSAA	Oracle Financial Services Analytical Applications
OFSAAI	Oracle Financial Services Analytical Application Infrastructure
OFSAAAI	Oracle Financial Services Advanced Analytical Applications Infrastructure Application Pack
OHC	Oracle Help Center
OLAP	On-Line Analytical Processing
OLH	Oracle Loader for Hadoop
ORAAH	Oracle R Advanced Analytics for Hadoop
OS	Operating System
RAM	Random Access Memory
RDBMS	Relational Database Management System
RHEL	Red Hat Enterprise Linux
SFTP	Secure File Transfer Protocol
SID	System Identifier
SSL	Secure Sockets Layer
TNS	Transparent Network Substrate
URL	Uniform Resource Locator
VM	Virtual Machine

<b>Abbreviation</b>	<b>Meaning</b>
WAR	Web Archive
XML	Extensible Markup Language

# 2

## OFS Balance Sheet Planning Pack (OFS BSP Pack) Release v8.1.2.2.0

OFS Balance Sheet Planning Pack Installation Guide Maintenance Level (ML) release v8.1.2.2.0 includes all the bug fixes and minor enhancements since the previous Minor release v8.1.2.0.0.

This ML release of OFS Balance Sheet Planning Pack (OFS BSP Pack) can be installed on a setup with any OFS Balance Sheet Planning Pack (OFS BSP Pack) Release v8.1.2.0.0.

### 2.1 Pre-installation Requirements

Ensure that the following prerequisites are present before you install this Maintenance Release:

- The minimum patch level installed must be OFS BSP Release 8.1.2.0.0.

#### Note:

See the [OFS Analytical Applications Technology Matrix](#) for hardware and software requirements.

For more details on Java 11, see the *Update the OFSAA 8.1.1.x Java 8 Instance to Java 11* section in the OFS Analytical Applications Infrastructure Administration and Configuration Guide available at [OHC Documentaion Library](#).

- The unlimited cryptographic policy for Java is enabled during the installation of OFS BSP 8.1.2.0.0. For more information, see the *Enabling Unlimited Cryptographic Policy* section in the available at [OHC Documentaion Library](#).

### 2.2 Installing this Release

If you are installing OFS PCD Release 812 on the same Infodomain (in an integrated environment) where OFS ALM, OFS FTP, and OFS BSP are installed, then the following order of installation is mandated:

- OFS PCD
- OFS ALM
- OFS FTP
- OFS BSP

If you have already installed OFS PCD and planning to install the remaining applications, then you must apply the OFS PCD one-off patch 34985659.

To install this release patch, follow these steps:

1. Log in to My Oracle Support and search for 34856205 under the Patches & Updates tab.
2. Download the OFS Balance Sheet Planning 8.1.2.2.0 ML Release archive file and copy it to your OFSAA server in Binary mode.

 **Note:**

There are different archive files for different operating systems such as Solaris, and RHEL or OEL.

3. Stop all the OFS AAI services. For more information, see *Stop the OFSAA Infrastructure services* section in the OFS AAI Installation and Configuration Guide available at [OHC Documentaion Library](#).
4. Log in to the OFSAA server as a non-root user and navigate to the \$FIC\_HOME directory.
5. Assign WRITE permission to the files or directories such as commonscripts, EXEWebService, ficapp, ficweb, and ficdb using the command:  

```
chmod -R 775 *
```
6. If you have the Unzip utility, skip to the next step or download the Unzip utility (OS-specific) and copy it in Binary mode to the directory that is included in your PATH variable, typically \$HOME path or directory in which you have copied the 8.1.2.2.0 ML.
  - Uncompress the unzip installer file using the command:  

```
uncompress unzip_<os>.Z
```

 **Note:**

If you notice an error message "uncompress: not found [No such file or directory]" when the package is not installed, contact your UNIX administrator.

- Assign EXECUTE permission to the utility using the command:  

```
chmod 751 unzip_<os>
```

For example, `chmod 751 unzip_linux`
7. Extract the contents of the 8.1.2.2.0 ML archive file using one of the following commands:  

```
unzip_<os> -a <name of the file to be unzipped>
```

Or

```
unzip -a <name of the file to be unzipped>
```

 **Note:**

The `-a` option is mandatory to extract the archive file. An example for the Linux operating system, `unzip_linux -a p34837251_81220_linux.zip`

8. Navigate to the `/OFS_BSP_PACK/appsLibConfig/conf` directory and configure the parameter `UPLOAD_MODEL` to 1 in the `params.conf` file.

 **Note:**

Model Upload Process: Input values required are 0 or 1.

- 1 indicates Trigger Model Upload.
- 0 indicates Skip Model upload process.

If the value is 1, then choose a type of Model Upload from the following:

- 0 indicates Released Data Model.
- 1 indicates the Customized Data Model.

If the value of the Model upload type is 1, then provide the inputs for the Data Model name and the path of the Data Model.

9. Navigate to the `OFS_BSP_PACK` directory to assign EXECUTE permission to the ML patch installer script using the command:

```
chmod 755 OFSAIUpdate.sh
```

10. Complete the patch upgrade using the command:

```
./OFSAAIUpdate.sh
```

11. Verify if the ML patch is applied successfully by checking the log file generated in the `OFS_BSP_PACK/logs` and `OFS_BSP_PACK/OFS_BSP/logs` directory. You can ignore error codes ORA-00001 and ORA-02292 in the log file. For any other errors, contact My Oracle Support.

 **Note:**

For an upgrade on Hive Infodom, you may encounter an exception "PL/SQL: ORA-00942: table or view does not exist". You can ignore this error.

12. After successful installation of the ML, follow these steps:

- Run the following command to execute the `.profile` file:
 

```
. $HOME/.profile
```
- Clear the application cache. Navigate to the following path depending on the configured web application server and delete the files.
  - **Tomcat:**

```
<Tomcat installation folder>/work/Catalina/localhost/<Application name>/org/apache/jsp
```
  - **WebLogic:**

```
<WebLogic installation location>/domains/<Domain name>/servers/<Server name>/tmp/_WL_user/<Application name>
```
  - **WebSphere:**

```
<WebSphere installation directory>/AppServer/profiles/<Profile name>/temp/<Node name>/server1/<Application name>/<.war file name>
```

13. Delete the existing EAR or WAR file available in the `$FIC_HOME/ficweb` directory.

14. Generate the application EAR or WAR file and redeploy the application onto your configured web application server. For more information on creating and deploying the EAR or WAR file, see *Create and deploy EAR/WAR files* section in the OFS AAI Installation and Configuration Guide available at [OHC Documentaion Library](#).

Restart all the OFSAAI services. For more information, see *Start the OFSAA Infrastructure services* section in the OFS AAI Installation and Configuration Guide available at [OHC Documentaion Library](#).
