This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

This section provides supporting information for Oracle Financial Services Data Governance for North America Regulatory Reporting Release Notes.

You can find the latest copy of this document in the [OHC Documentation Library](#) which includes all the recent additions or revisions (if any) done to date.

Topics:

- [Purpose of This Document](#)
- [Intended Audience](#)
- [Access to Oracle Support](#)
- [Related Information Sources](#)

1.1 Purpose of This Document

This document contains release information for Oracle Financial Services Data Governance for North America Regulatory Reporting.

1.2 Intended Audience

This document is intended for users of Oracle Financial Services Data Governance for North America Regulatory Reporting.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For more information, visit [My Oracle Support](#) or visit [Oracle Accessibility Learning and Support](#) if you are hearing impaired.

1.4 Related Information Sources

We strive to keep this and all other related documents updated regularly; visit the OHC Documentation Library to download the latest version available there. The list of related documents is provided here.

- [OHC Documentation Library](#) for OFS Data Governance for North America Regulatory Reporting:
 - Financial Services Data Integration Installation Guide
- [OHC Documentation Library](#) for OFS AAI Application Pack:
 - OFS Advanced Analytical Applications Infrastructure (OFS AAI) Application Pack Installation and Configuration Guide
 - OFS Analytical Applications Infrastructure User Guide

- OFS Analytical Applications Infrastructure Administration Guide
- Oracle Financial Services Analytical Applications Infrastructure Environment Check Utility Guide
- Additional documents:
 - [OFSAA Licensing Information User Manual Release 8.1.2.0.0](#)
 - [OFS Analytical Applications Infrastructure Security Guide](#)
 - [OFS Analytical Applications 8.1.2.0.0 Technology Matrix](#)
 - [Oracle Financial Services Analytical Applications Infrastructure Cloning Guide](#)

2

Introduction

This chapter includes information about Oracle Financial Services Analytical Applications (OFSAA) and Oracle Financial Services Data Governance for North America Regulatory Reporting.

Topics:

- [Oracle Financial Services Analytical Applications \(OFSAA\)](#)
- [Oracle Financial Services Data Governance for US Regulatory Reporting](#)

2.1 About Oracle Financial Services Analytical Applications (OFSAA)

In today's turbulent markets, financial institutions require a better understanding of their risk-returns, while strengthening competitive advantage and enhancing long-term customer value. Oracle Financial Services Analytical Applications (OFSAA) enable financial institutions to measure and meet risk-adjusted performance objectives, cultivate a risk management culture through transparency, lower the costs of compliance and regulation, and improve insight into customer behavior.

OFSAA uses industry-leading analytical methods, shared data models, and applications architecture to enable integrated risk management, performance management, customer insight, and compliance management. OFSAA actively incorporates risk into decision-making, enables to achieve a consistent view of performance, promotes a transparent risk management culture, and provides pervasive intelligence.

OFSAA delivers a comprehensive, integrated suite of financial services analytical applications for both banking and insurance domains.

The Financial Services Analytical Applications Infrastructure is comprised of a set of frameworks that operates on and with the Oracle Financial Services Analytical Applications Data Model. This infrastructure delivers metadata across the stack and provides a single set of computational engines, stochastic modeling methods, and business rules. Data Integration Hub allows the financial institution to source data from multiple source systems to OFSAA required for analytical processing and reporting.

OFSAA Infrastructure is the foundation for Oracle Financial Services Analytical Applications (OFSAA). It provides support for User Administration, Metadata Management, a Processing Framework, a Forms Framework, and additional capabilities, necessary for the individual business applications of OFSAA packs, across the domains of Risk, Performance, Compliance, and Customer Insight.

2.2 OFS Data Governance for North America Regulatory Reporting

Oracle Financial Services Data Governance for North America Regulatory Reporting can help financial institutions in the United States to automate data management and governance while reducing cost, increasing efficiency, competitiveness, and customer management. The product is a part of the holistic data management solution (with data foundation, data integration, and data governance). The data governance solution provides an operational and active governance layer with content to ensure accuracy and confidence in the data elements and processes surrounding it right from its sources to regulatory reports. The solution has prebuilt content that offers a head start to organizations in the data management process to help them comply with BCBS 239.

The US FED Regulatory reports associated with this release are as follows:

- FFIEC-031
- FFIEC-041
- FR Y-9C
- FR Y-15
- FFIEC-009

The Oracle Financial Services Regulatory Reporting for Office of Superintendent of Financial Institutes Canada Applications Pack associated with this release are as follows:

- E2
- A4
- B2
- J2
- N3

3

OFS DGS for North America Regulatory Reporting

The following sections include features and bug-related information.

Topics:

- [New Features](#)
- [Bugs Fixed in This Release](#)
- [Known Issues or Limitations](#)

3.1 New Features

The new features in the OFS Data Governance for North America Regulatory Reporting Release v.8.1.2.3.0 release are as follows:

1. Content generation process is made dynamic using Regulatory Reporting Alternate Mapping process.
2. A new Refresh Adjustments button is introduced in the Report Publish Summary screen to refresh the adjustments value for Cell or MDRM.
3. Variance Analysis is now enhanced to different grains in the Summary page in the OBIEE Dashboards.

For detailed information on the usage of these enhancements, see the OFS Data Governance for North America Regulatory Reporting User Guide on the [OHC Documentation Library](#).

3.2 Bugs Fixed in this Release

There are no bugs fixed as part of this release.

3.3 Known Issues or Limitations

The known Issues and limitations in this Release are as follows:

- Issue count values are displaying incorrect values in OBIEE Dashboard.
- Comparison between the Account Mapper and KI Assessment value is mismatching.

4

Oracle Financial Services Analytical Applications Infrastructure

See the [Oracle Financial Services Advanced Analytical Applications Infrastructure Application Pack Readme](#) file for the details on the New Features, List of Bugs Fixed, and Known Issues and Limitations.

5

Hardware and Software Tech Stack Details

The hardware and software combinations required for OFS AAI 8.1.2.0.0 are available at [OFS Analytical Applications Technology Matrix](#).

6

Licensing Information

For details on the third party software tool used, see the [OFSAA Licensing Information User Manual Release 8.1.2.0.0](#).
