This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Description

OFS MMG 8.1.2.0.0 Maintenance Release #7 8.1.2.7.0 (ID **36885021**).

This release of the OFS MMG Application Pack is cumulative of all enhancements and bug fixes completed since the v8.1.2.0.0 release.

 **Note:**

For more information on MMG related documents, see the following link. https://docs.oracle.com/cd/F40412_01/get_started.htm

How to Apply this Release?

For instructions on how to install this OFS MMG Application Pack Release, see the [Oracle Financial Services Model Management and Governance Application Pack Installation Guide, Release 8.1.2.7.0](#).

2

New Features and Enhancements in this Release

File Manager

- File manager is a ftpshare home path. It has option to Upload a new file, create a new folder, preview the file, delete and download options.

Workspace

- Enabled deletion of models and objectives and import of models in to production workspace

Gateway related features

- Additional grants and steps to create file/folder in the DB server when creating configuration schema.

MMG Health Log

- mmg-health log is being generated separately in service logs to capture health check related logs.

Config schema

- New parameters added in Config schema.

Cloning the environment

- Automatically update entries or Database details/service URLs for most of the tables.

Model Pipelines

- Changes for Dashboard Model Status Drill to reach Model Pipeline List View. Also involves Pagination correction and View Change issue (Hierarchical -> List) of Model Pipeline.
- Allows users to provide breakpoints on activities in model pipeline

Datasource Object

- Datasource object creation in target schema was handled by MMG. From this release, this is migrated to DMM services. Movement of modified tables (adding and deleting columns) from production to simulation is supported now.

 **Note:**

Tables deletion sync up between schema's is not supported by DMM.
