This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

1
Preface

This section provides supporting information for Oracle Financial Service Profitability Management Pack (OFS PFT Pack) Pack Release Notes.

Topics:

- Purpose of this Document
- Intended Audience
- Access to Oracle Support
- Related Information Sources
- Additional Documents to Read

1.1 Purpose of this Document

This document contains release information of OFS Profitability Management Pack (OFS PAM Pack), Release 8.1.2.2.0.

1.2 Intended Audience

This document is intended for users of OFS Profitability Management Pack (OFS PFT Pack), Release 8.1.2.2.0.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For more information, visit My Oracle Support or visit Oracle Accessibility Learning and Support if you are hearing impaired.

1.4 Related Information Sources

We strive to keep this and all other related documents updated regularly; visit the OHC Documentation Library to download the latest version available there. The list of related documents is provided here.

OHC Documentation Library for the OFS Profitability Management Pack (OFS PFT Pack), Release 8.1.2.0.0:

- OFS Profitability Management Pack Installation and Configuration Guide Release 8.1.2.0.0
- OFS Profiability Management User Guide Release 8.1.2.0.0
- Oracle Financial Services Profitability Management Security Guide Release 8.1.x
- Oracle Financial Services Profitability Management Application Cloning Guide Release 8.1.x

1.5 Additional Documents to Read

Oracle Financial Services Profitability Management Pack (OFS PFT Pack) is built on the Oracle Financial Services Advanced Analytical Applications Infrastructure (OFS AAI).

See the following OFS AAI documents as no separate documents are required at the pack or application level for Oracle Financial Services Profitability Management Applications Pack.

The following OFS AAI documents are available at the OHC Documentation Library:

- OFS Analytical Applications Infrastructure Installation Guide Release 8.1.2.0.0
- OFS Analytical Applications Infrastructure User Guide Release 8.1.2.0.0
- OFS Analytical Applications Infrastructure Environment Check Utility Guide Release 8.1.x
- OFS Analytical Applications Infrastructure Application Pack Administration and Configuration Guide Release 8.1.x
- OFS AAAI Application Security Guide Release 8.1.x
- OFS Analytical Applications Infrastructure Cloning Guide Release 8.1.x
- OFSAA Licensing User Manual, Release 8.1.2.0.0

You can access the common document from the OHC Documentation Library:

- OFS Analytical Applications 8.1.2.0.0 Technology Matrix
- OFS Data Model Utilities Guide
- OFS Cash Flow Engine Reference Guide
- OFS Asset Liability Management User Guide

2

Introduction to OFS Profitability Management Pack

In today's turbulent markets, financial institutions require a better understanding of their risk-return, while strengthening competitive advantage, and enhancing long-term customer value. Oracle Financial Services Analytical Applications (OFSAA) enables financial institutions to measure and meet the risk-adjusted performance objectives, cultivate a risk management culture through transparency, lower the costs of compliance and regulation, and improve insight into customer behavior.

OFSAA uses industry-leading analytical methods, shared data models, and applications architecture to enable integrated risk management, performance management, customer insight, and compliance management. OFSAA actively incorporates risk into decision making, enables to achieve a consistent view of performance, promotes a transparent risk management culture, and provides pervasive intelligence.

OFSAA delivers a comprehensive, integrated suite of financial services analytical applications for both banking and insurance domains.

OFS Profitability Management (OFS PAM) pack includes the following applications.

- **Oracle Financial Services Analytical Applications Infrastructure**: Provides the pre-requisite foundation services required to run all OFSAA applications including user and security management, object administration, and other foundational level services.
- **Oracle Financial Services Profitability Management**: Helps Banks and Financial services institutions measure and manage profitability at the lowest level of detail, the account level, allowing for a rollup of profitability results across any dimension including customer, channel, product, or organizational unit. The application provides robust allocation functionality supporting both top-down and bottom-up allocation methodologies.

See the subsequent chapters to know more about this release.

> **Note:**
>
> Release v8.1.2.2.0 of OFS PFT Application Pack is not certified for AIX and Solaris x86Operating Systems. If you are currently running OFSAA v8.0.x on AIX or Solaris x86 Operating Systems, then you must migrate from AIX or Solaris x86 to Linux or Solaris Spark. See the MOS Doc ID 2700084.1 for details.

3

Oracle Financial Services Profitability Management Application

This chapter describes the new features, bugs addressed, and known issues in this release of OFS Profitability Management.

- New Features in this Release
- Bugs Fixed in this Release
- Known Issues and Limitations in this Release

3.1 New Features in this Release

There are no new features in this release.

3.2 Bugs Fixed in this Release

There are no bugs fixed as part of this release.

3.3 Known Issues and Limitations in this Release

There are no known issues or limitations in this release of the OFS Profitability Management Application.

4

Oracle Financial Services Analytical Applications Infrastructure

See the Oracle Financial Services Advanced Analytical Applications Infrastructure Application Pack Readme file for the details on the New Features, List of Bugs Fixed, and Known Issues and Limitations.

5
Hardware and Software Tech Stack Details

The hardware and software combinations required for OFS AAAI 8.1.2.0.0 are available at OFS Analytical Applications Technology Matrix.

6
Licensing Information

For details on the third party software tool used, see the OFSAA Licensing Information User Manual Release 8.1.2.0.0.
