Workstation 8 Vertical Stand Hole Drilling Template

For Oracle part # 8213282

Instructions:

1. Download and save PDF file.
2. Set printer layout to Portrait and Scale to 100% or actual size.
3. Print this template on a legal-size paper (8 ½ x 14").
4. Place the paper template on a flat test surface and mark the 4 hole locations using a small punch or similar tool.
5. Drill holes. Recommended drill bit size for a metal surface is 7/32" (Approx. 5.5mm).
6. Align the vertical stand base mounting holes to the test surface holes.
7. All holes should align and screws (M5-0.8) can be mounted.
8. Proceed to use on permanent locations based on step 7 results.

Note: Print on a transparency film for a long lasting template.
