Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Sample Data Deployment Guide

This document provides instructions on how to deploy the Oracle Healthcare Foundation (OHF) sample data files. The sample data files populate the Healthcare Data Mart (HCD) with sample data for the Oracle Healthcare Foundation Dashboards or for other analytics uses.

1. Download the Oracle Healthcare Foundation Samples file OHFSSA 7.2 Samples.zip from My Oracle Support (MOS) (<https://support.oracle.com/>) under the patch 24929753.
2. Copy the file to a preferred drive on a Windows machine and extract the contents. The following files will be extracted:
 - ohf_dims_insert.sql
 - ohf_facts_001_insert.sql
 - ohf_facts_003_insert.sql
 - ohf_facts_004_insert.sql
 - ohf_facts_005_insert.sql
 - ohf_facts_006_insert.sql
 - ohf_facts_007_insert.sql
 - ohf_facts_008_insert.sql
 - ohf_helper_dims_insert.sql
 - ohf_master_insert.sql
3. To insert the sample data into the Healthcare Data Mart (HCD), connect to the HCD schema through SQLPlus or SQLDeveloper.
4. Execute the `ohf_master_insert.sql` script available under **/data**. This inserts data into all HCD schema dimensions and facts used by the Oracle Healthcare Foundation Reports.
The Oracle Healthcare Foundation sample data is now installed.

You can access the sample reports and dashboards from the Oracle Analytics Server Analytics page (<http://obiee host name:port number/analytics>) under **Dashboards**, in the **Oracle Healthcare Foundation** group.
