This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

# Preface

This preface contains the following sections:

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### **Access to Oracle Support**

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

# Oracle Health Revenue Cycle and Consumer Management Platform Release Notes

The Oracle Health Revenue Cycle and Consumer Management Platform Release Notes for Release 2025.2.1.0.0 provide information on the new features and solution changes in this application.

## Intended Audience: Revenue Cycle and Consumer Management Platform

The Oracle Health Revenue Cycle and Consumer Management Platform release notes are for customers who have purchased this product. This product provides engagement through a standard system to interact with your Oracle Health applications, such as Patient Administration, Patient Portal, and Patient Accounting.

## Current Release

This section provides information about corrections and enhancements available in Oracle Health Revenue Cycle and Consumer Management Platform with this update release.

## Oracle Health Revenue Cycle and Consumer Management Platform 2025.2.1.0.0

The solution changes below are available with this release for Oracle Health Revenue Cycle and Consumer Management Platform.

Solution Change	Description and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
IRCSOCI-8141	You can create Revenue Cycle environment groups. UI Impact: Workflow (Automatic)	See the Create and Deploy Environments section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	Verify that you can successfully define, configure, and review, and deploy new environments.	No implementation or maintenance impact.

Solution Change	Description and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
IRCSOCI-8142 IRCSOCI-8143 IRCSOCI-8144	You can create test and production environments for purchased Revenue Cycle products (subscriptions). UI Impact: Workflow (Automatic)	See the Create and Deploy Environments section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	Verify that Revenue Cycle products that you site has purchased are available to select from the Subscriptions list when you create an environment group.	No implementation or maintenance impact.
IRCSOCI-8146 IRCSOCI-8147	You can create new or select existing Oracle Identity Cloud Service (IDCS) domains when you configure environments. UI Impact: Workflow (Automatic)	See the Create and Deploy Environments section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	Verify that you have the option to select from existing IDSC domains, and the option to create a new IDCS domain when you create new environments.	No implementation or maintenance impact.
IRCSOCI-8149	Globally unique identifiers are created when for new Revenue Cycle environments. No UI impact	None	No validation testing is provided because the solution change contains updates not visible to users. As part of your regression testing, ensure that your system is working as expected.	No implementation or maintenance impact.
IRCSOCI-8150	Additional language support is available for environment groups. UI Impact: Workflow (Automatic)	See the Create and Deploy Environments section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	Verify that you can select the appropriate language from the Language list when you create an environment group.	No implementation or maintenance impact.
IRCSOCI-8151	You can securely access the Oracle Health Revenue Cycle and Consumer Management Platform administrative console using OCI Identity Domains. UI Impact: Workflow (Automatic)	See the Administrative Console section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	From a deployed Revenue Cycle application, verify that you can access the administrative console by selecting the Oracle icon.	No implementation or maintenance impact.

Solution Change	Description and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
<b>IRCSOCI-8152</b>	Status updates and notifications are provided during environment creation. For example, Started, Completed, or Failed. UI Impact: Visual Only	None	Verify that updates and notifications are displayed as appropriate to indicate the status of environments that you are creating.	No implementation or maintenance impact.
<b>IRCSOCI-8153</b>	The console can identify customer location to help ensure compliance with regional or country-specific healthcare regulations. No UI impact	None	No validation testing is provided because the solution change contains updates not visible to users. As part of your regression testing, ensure that your system is working as expected.	No implementation or maintenance impact.
<b>IRCSOCI-8156</b>	You can filter and sort existing environments by searching for the environment name or status. UI Impact: Visual Only	None	From the Environments list, verify that a list of existing environments is displayed when you use the Search and Filter box.	No implementation or maintenance impact.
<b>IRCSOCI-8760</b>	The console provides logging information, error handling, and inline workflow validation during environment creation, application (subscription) deployment, and so on. No UI impact	None	No validation testing is provided because the solution change contains updates not visible to users. As part of your regression testing, ensure that your system is working as expected.	No implementation or maintenance impact.
<b>IRCSOCI-2917</b>	You can view all deployed Revenue Cycle applications in the administrative console. UI Impact: Visual Only	See the Administrative Console section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	From a deployed Revenue Cycle application, select the Oracle icon, and verify that your site's deployed Revenue Cycle applications are displayed in a card format.	No implementation or maintenance impact.

Solution Change	Description and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
<b>IRCSOCI-1781</b>	You can search for deployed applications in the administrative console. UI Impact: Workflow (Automatic)	See the Access Applications section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	From the administrative console, verify that you can search and filter for deployed Revenue Cycle applications.	No implementation or maintenance impact.
<b>IRCSOCI-1780</b> <b>IRCSOCI-11082</b>	You can update language settings for deployed Revenue Cycle applications using the administrative console. UI Impact: Workflow (Automatic)	See the Modify Location Settings section of the Oracle Health Revenue Cycle and Consumer Management Platform User Guide.	From the administrative console, verify that you can customize regional settings as appropriate including language, date format, currency, and so on.	No implementation or maintenance impact.
