This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Preface

Oracle Hospitality Cruise Property Management Border Control is an application that generates passenger manifests from the Oracle Hospitality Cruise Shipboard Property Management System. The generated passenger manifests can be uploaded/transferred to the relevant authorities for verification.

Oracle Hospitality Cruise Property Management Border Control version 23.1.0 introduces Entry/Exit System (EES), developed in accordance with EU-LISA authority requirements.

Purpose

These release notes provides a brief overview of additions, enhancements, and corrections implemented in this software release. Their intent is informative, not instructional. Please review Oracle Hospitality Cruise Property Management Border Control's product documentation, including technical and application advisories for previous versions, for detailed information on installation, upgrade, configuration, and general use.

Audience

This document is intended for project managers, application specialists, and users of the Oracle Hospitality Cruise Property Management Border Control System.

Customer Support

To contact Oracle Customer Support, access the Customer Support Portal at the following URL:

<https://iccp.custhelp.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/cruise.html>.

1

Features and Updates

The content below is a list of features and updates for the Oracle Hospitality Cruise Property Management Border Control 23.1.0 release.

Tools and Technology Updates

The following controls have been upgraded to meet compliance standards.

- Oracle Helidon to version 3.2.8
- Apache Tomcat to version 10.1.25
- RAPID to 15.0.0

Entry / Exit System (EES)

The application is designed to be simple, easy to use and adhering to EES requirements. It enable users to perform the necessary tasks and fulfill all requirements seamlessly.

EES Setup

This feature allow to determine the nationality groups to be included, and the types of document to exclude in the EES requests file

EES Request File

The function determines the location of the export file generated for submission to EU-LISA EES application

EES Response File

This function allow you to upload and processes the responses received from EES application, enabling the status to be reflected on each passenger's profile

Manage EES Response File

This option provides the ability to correct to the passenger manifest errors, if any and regenerate a new EES request file

2

System Requirements, Supported Systems and Compatibility

This minimum enterprise server operating system, and databases, supported by the Property Management Border Control follows the same requirements as Cruise Shipboard Property Management System (SPMS)

The requirements for each server type and supported database versions are listed in *Cruise Compatibility Matrix* at the Oracle Help Center.

3

Installation and Upgrade

The installation and upgrade packages are available for download at [Oracle Software Delivery Cloud](#). Please refer to the *Oracle Hospitality Cruise Property Management Border Control Installation and User Guide* for detailed instructions on installation and upgrading
