This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates

will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

Purpose

This guide describes the steps for customer administrators to manage interface (Only NON-REST API interfaces) users in OPERA Cloud Role Manager.

Audience

This document is intended for OPERA Cloud Services application administrators.

Customer Support

To contact Oracle Customer Support, access the Customer Support Portal at the following URL:

<https://iccp.custhelp.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at

<http://docs.oracle.com/en/industries/hospitality/>

Introduction – Interface Users (For NON-REST API Interfaces Only)

OPERA Cloud non-REST API Interfaces requires interface users for interface authentication and authorization. This chapter provides steps for creating and managing interface users in OPERA Cloud Role Manager.

Interface user credentials are valid for one year from the date of creation or last password reset.

Interfaces users can be created and managed only by OPERA Cloud administrators.

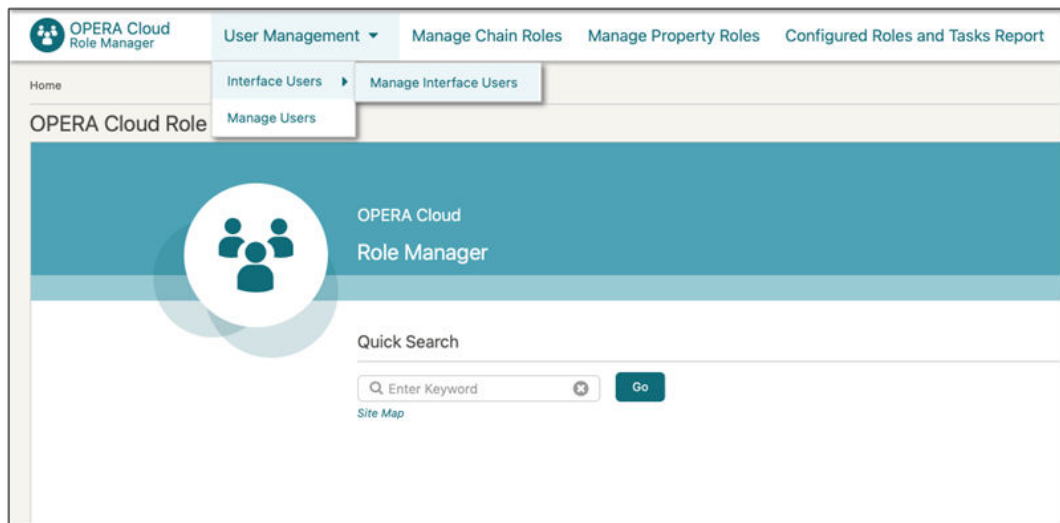

2

Managing Interface Users

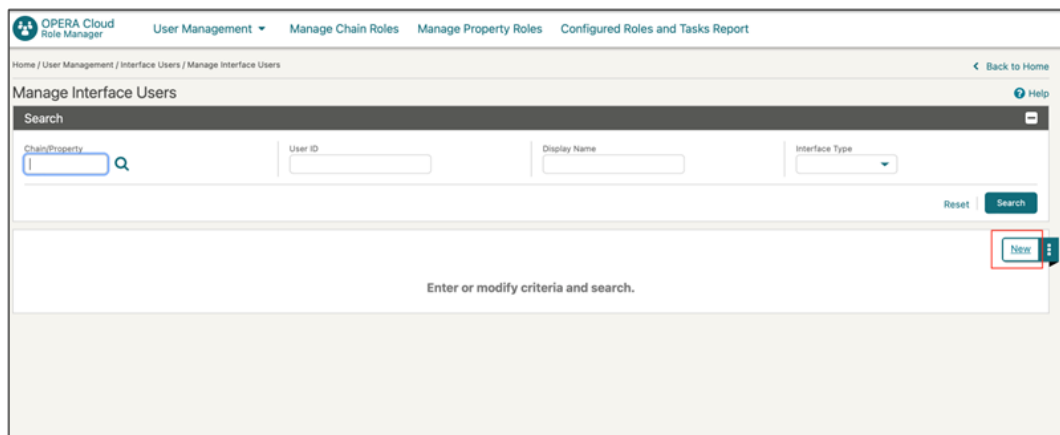

The below section describes the steps required for creating and managing interface (NON-REST API) users in OPERA Cloud Role Manager.

Creating the Interface User

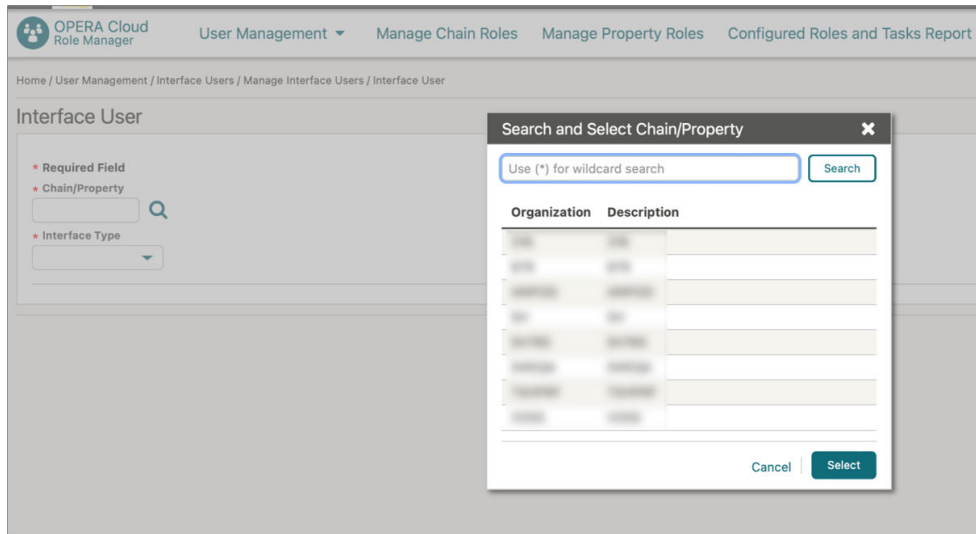

1. Log in to OPERA Cloud as an administrator and navigate to Role Manager.
2. Click the **User Management** tab on the Role Manager screen.
3. Click **Interface Users** and then click **Manage Interface Users**.

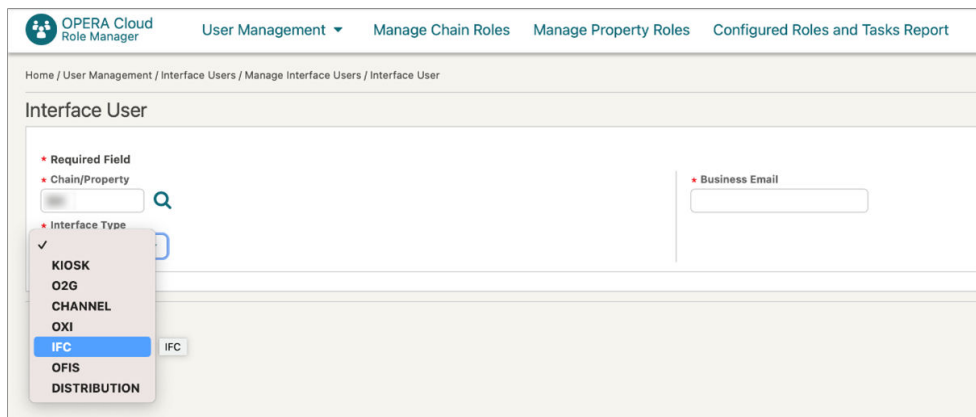

4. Click **New**.

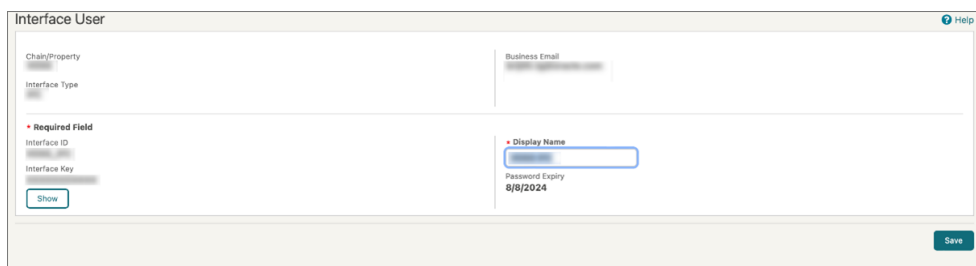

- Click the **Search** icon next to the **Chain/Property** field. Select the respective **chain/property** where this interface user will have access to the data.

- Please select the appropriate **Interface Type**. The **OXI** interface type provides an additional list of values (LOV) from which to select the OXI interface.

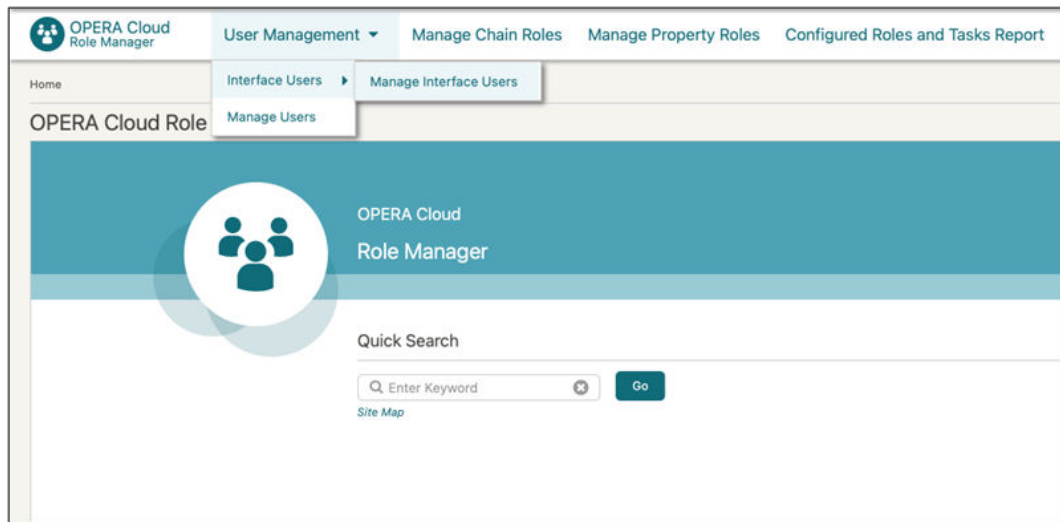

- Enter the valid email address of an administrator in the **Business Email** field.
- Click **Save**.
The screen will show the interface user and user credentials, which are valid for one year. The Interface key is masked. Click **show** to view the interface key and make a note of this key. This screen also shows the password expiry date for the user.

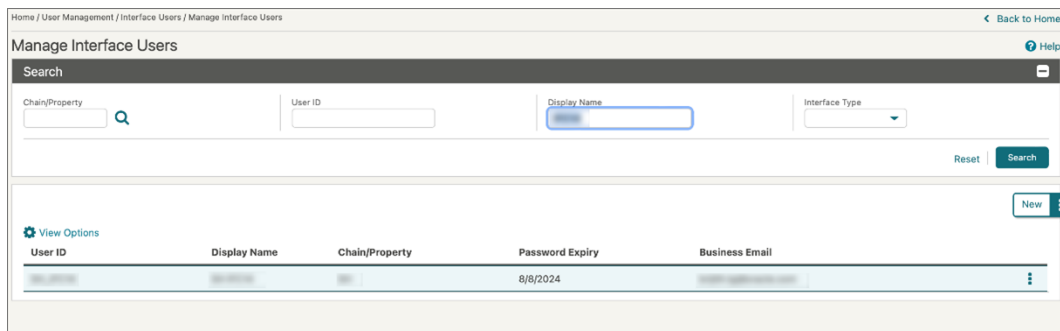

Searching for and Viewing the Interface User

1. Log in to OPERA Cloud as an administrator and navigate to Role Manager.
2. Click the **User Management** tab on the Role Manager screen.
3. Click **Interface Users** and then click **Manage Interface Users**.

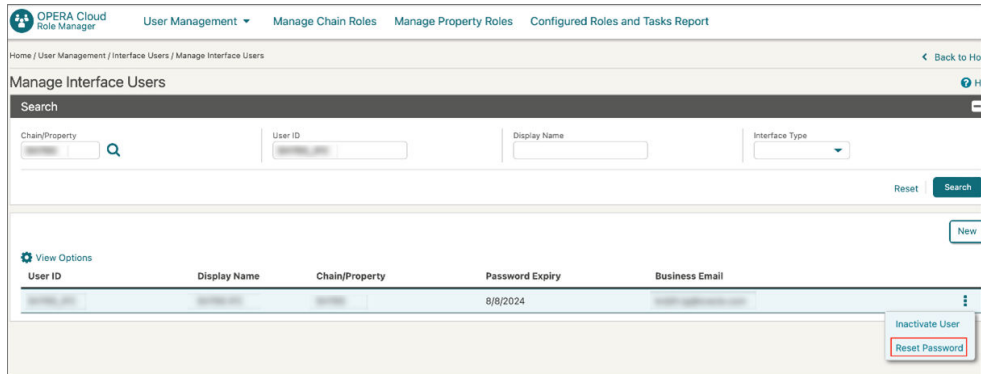

4. Enter values in the **Search** filters to search for the interface user. You can also do a blank search without entering any values in the filters. The following search filters are available:
 - **Chain/Property**
 - **User ID**
 - **Display Name**
 - **Interface Type**
5. Click **Search** to search for the user. The following information for the interface user will appear in the search results: User ID, Display Name, Chain/Property, Password Expiry Date, and Business Email.

Resetting the Password for the Interface User

1. Log in to OPERA Cloud as an administrator and navigate to Role Manager.
2. Click the **User Management** tab on the Role Manager screen.
3. Click **Interface Users** and then click **Manage Interface Users**.
4. Search for the user by entering the **User ID** or **Display Name**.
5. Click the **vertical ellipsis** for the user and select **Reset Password**.

6. Click **Reset Password**.

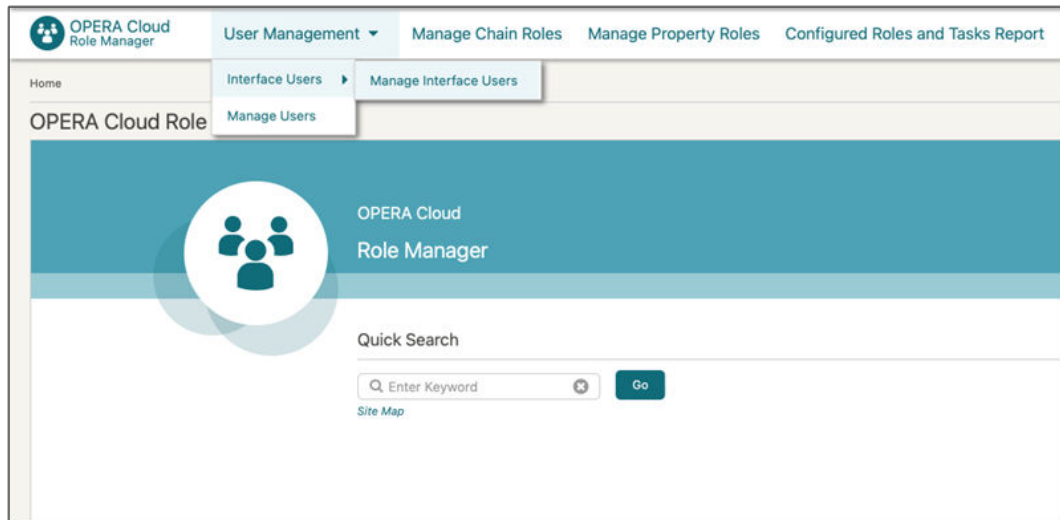

After clicking **Reset Password**, the screen loads updated interface user credentials

7. Click **Show** to view the Interface Key and take note of the new password for that interface user. The interface user password expiry date is also updated and appears on this screen.

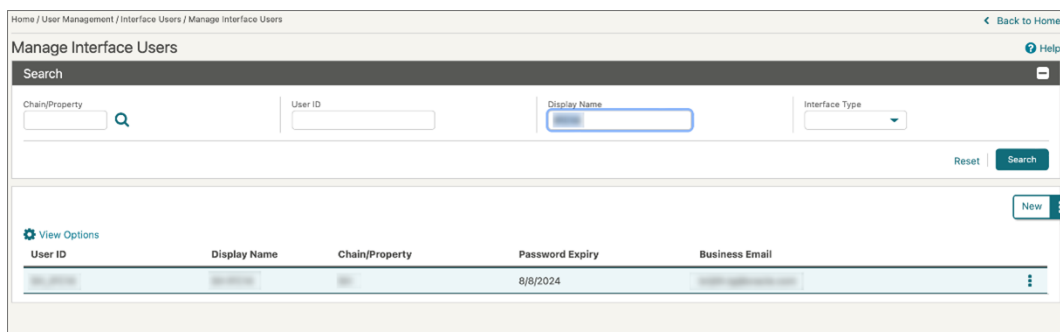

Inactivating the Interface User

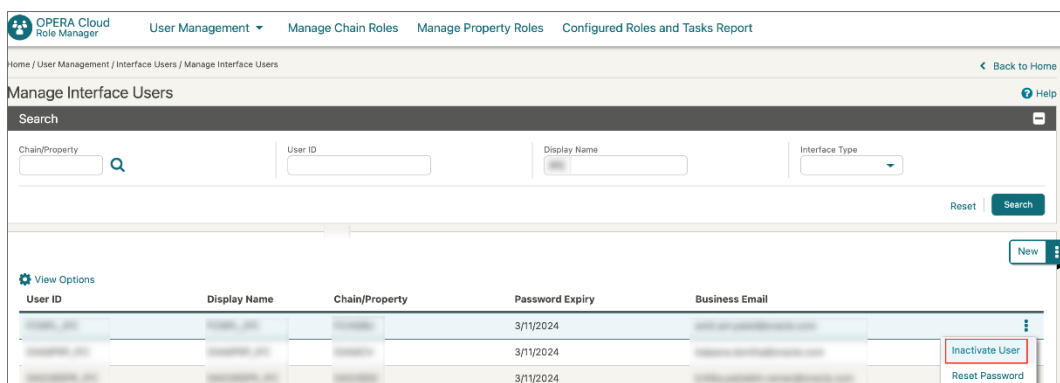

1. Log in to OPERA Cloud as an administrator and navigate to Role Manager.
2. Click the **User Management** tab on the Role Manager screen.
3. Click **Interface Users** and then click **Manage Interface Users**.

4. Search for the user you want to inactivate by entering the **User ID** or **Display Name** in the search fields.

5. Click the **vertical ellipsis** for the user and select **Inactivate User** to inactivate that user.

6. Search for the inactive user in **Manage Interface users** screen and then click the **vertical ellipsis** located next to the **New** button.
7. Select **Show Inactive**.
