This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Contents

Preface

1 What's New for Mobile Guest Experience

Release 24.2 — May 2024	1-1
Release 24.1 — February 2024	1-1
Release 23.2 — September 2023	1-1

2 Resolved Issues

Preface

OPERA Cloud Mobile Guest Experience is a guest-facing web application designed for smartphones. Guests can pre-register their arrival with the registration process commencing with an email sent to eligible guests up to 48 hours prior to arrival.

Purpose

The Release Notes provide a brief overview of additions, enhancements, and corrections implemented in this software release. The intent is informative, not instructional. Review the product documentation, including technical and application advisories for previous versions, for detailed information on installation, upgrade, configuration, and general use.

Audience

This document is intended for OPERA Cloud Mobile Guest Experience application users.

Customer Support

To contact Oracle Customer Support, access the Customer Support Portal at the following URL:

<https://iccp.custhelp.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/>.

What's New for Mobile Guest Experience

Learn about the new and changed features of OPERA Cloud Mobile Guest Experience.

Release 24.2 — May 2024

OPERA Cloud Mobile Guest Experience is a feature of Oracle Hospitality OPERA Cloud Service and is included in the subscription to Oracle Hospitality OPERA Cloud Foundation.

Feature	Description
Ability to set NLS_TERRITORY	In the Configuration Portal you can now set the NLS_TERRITORY in the activation settings. The territory controls the currency format of the rate amounts displayed to the guest.
Reservation Preferences	Guests can now select reservation preferences during the mobile pre-registration. In the Guest Experience Configuration Portal you can enable up to five preferences that you have created in OPERA Cloud for the guest journey.
Support for OPERA Cloud Identity Management	OPERA Cloud Mobile Guest Experience is now available to OPERA Cloud Foundation Users with OPERA Cloud Identity Management (OCIM).
Onboarding Simplification	OPERA Cloud Foundation Users with Oracle Hospitality Shared Security Domain (SSD) no longer have to enter authentication credentials for Oracle Hospitality Integration Platform (OHIP) when onboarding properties to Guest Experience.

Release 24.1 — February 2024

OPERA Cloud Mobile Guest Experience is a feature of Oracle Hospitality OPERA Cloud Service and is included in the subscription to Oracle Hospitality OPERA Cloud Foundation.

Feature	Description
Guest Experience Version	The release version of OPERA Cloud Mobile Guest Experience is now shown in the Guest Experience Configuration Portal.
Language Localization – JAPAC Region	The mobile guest journey and the pre-arrival and confirmation emails are now translated into three additional languages: <ul style="list-style-type: none">• Japanese• Simplified Chinese• Thai
Nor1 Upgrade Offer Status	In the Guest Experience Configuration Portal, you can now track the status of Nor1 upgrade offers and upgrade offer emails in the Email Queue.

Release 23.2 — September 2023

OPERA Cloud Mobile Guest Experience is a feature of Oracle Hospitality OPERA Cloud Service and is included in the subscription to Oracle Hospitality OPERA Cloud Foundation.

Feature	Description
Nor1 Upgrade Offers	<p>You can now promote and confirm Nor1 room upgrade offers within the guest journey. A new page for the mobile pre-registration path presents a maximum of three upgrade offers. Offers include the following:</p> <ul style="list-style-type: none"> • Upgrade offer description • Offer image • Offer price and savings <p>Upgrade offers are generated by Nor1 and require a subscription to the Oracle Hospitality Nor1 Cloud Service, eXpress Room Upgrade.</p>
Language Localization	<p>The mobile guest journey and the pre-arrival and confirmation emails are now translated into five additional languages:</p> <ul style="list-style-type: none"> • Spanish • French • German • Italian • Portuguese
Oracle Hospitality Design Theme	<p>The Oracle Hospitality lilac design theme is now applied to the Guest Experience Configuration Portal.</p>
Globally Unique User Identity	<p>An OPERA Cloud user with a matching user in another SSD can log in to the Configuration Portal without issue.</p>
Configuration Portal Initial Loading	<p>Users are presented with a progress bar and status message when onboarding to the Guest Experience Configuration Portal.</p>
Improvement for Chain Users	<p>Chain level users can navigate from one property to another within the Configuration Portal.</p>
Ability to Restore Default Content	<p>Configuration Portal users can restore the default content of email templates and guest messages and can also restore default translations.</p>
Test Emails in Multiple Languages	<p>Test emails can be sent in all supported languages.</p>

2

Resolved Issues
