Copyright © 2022, 2025, Oracle and/or its affiliates.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

Oracle Hospitality OPERA Reporting and Analytics Cloud Service is a web-based application that centralizes hotel property management data to provide operational and analytical insights into business operations, and to improve efficiency by delivering information to all roles within an organization.

Audience

This document is intended for customers subscribed to Oracle Hospitality OPERA Reporting and Analytics Cloud Services.

Oracle Hospitality OPERA Reporting and Analytics documentation applies to the following users:

- Users who perform day-to-day operations with OPERA Reporting and Analytics and who typically do not have permissions to configure applications.
- Administrators who configure and maintain OPERA Reporting and Analytics. Administrators can also have permissions to configure applications.

Important Information

The navigation instructions throughout the documentation may not accurately depict the menu layout for your Oracle Hospitality OPERA Reporting and Analytics deployment because administrators can customize the name and organization of the groups and links in the sidebar menu. Use the navigation instructions provided as a guideline for locating the links in your deployment, or contact an administrator for assistance.

Customer Support

To contact Oracle Customer Support, access Customer Support Portal at the following URL:

<https://iccp.custhelp.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/>.

Revision History

Table Revision History

Date	Description of Change
June 2025	Initial Publication

1

Feature Summary

Column Definitions

SMALL SCALE: These UI or process-based features are typically comprised of minor field, validation, or program changes. Therefore, the potential impact to users is minimal.

LARGER SCALE: These UI or process-based features have more complex designs. Therefore, the potential impact to users is higher.

CUSTOMER ACTION REQUIRED: You must take action before these features can be used. These features are delivered disabled, and you choose if and when to enable them.

FEATURE	SCALE	CUSTOMER ACTION REQUIRED
GENERAL - NEW FEATURES AND ENHANCEMENTS		
Include Folder Path in EOD List	SMALL	
REPORTING - NEW REPORTS		
Country Specific - Spain - New Report Templates	SMALL	
New finjrbytrans (Journal by Cashier and Transaction Codes) Report	SMALL	
REPORTING - SUBJECT AREAS UPDATED		
Bookings-Block Subject Area Updated	SMALL	
Bookings-Reservation Subject Area Updated	SMALL	
Catering-Events and Resources Subject Area Updated	SMALL	
Inventory-Rooms Management Subject Area Updated	SMALL	
Profiles-Accounts Subject Area Updated	SMALL	
New Profiles-Stay Record Subject Area	SMALL	

GENERAL - NEW FEATURES AND ENHANCEMENTS

Include Folder Path in EOD List

To assist in identifying reports configured during the End of Day, the report's folder path is added as a column in the reporting list. Hover over the entry to see the full path.

The screenshot shows the 'End of Day Reporting' page in the Oracle Hospitality OPERA Reporting and Analytics application. At the top, there's a search bar for 'Property' and buttons for 'Reset' and 'Search'. Below this is a 'Reports' section with a 'Clone To Property' button and a 'New' button. A table lists reports with columns: Report Name, Destination, Folder path, and an ellipsis menu. The 'Folder path' column is circled in yellow, showing the path '/shared/VAB_ENT1/Simple Reports/Profiles-Individual...'. The report name 'Profiles-Individuals-Report1' and destination 'Email' are also visible.

Report Name	Destination	Folder path	
Profiles-Individuals-Report1	Email	/shared/VAB_ENT1/Simple Reports/Profiles-Individual...	...

REPORTING - NEW REPORTS

Country Specific - Spain - New Report Templates

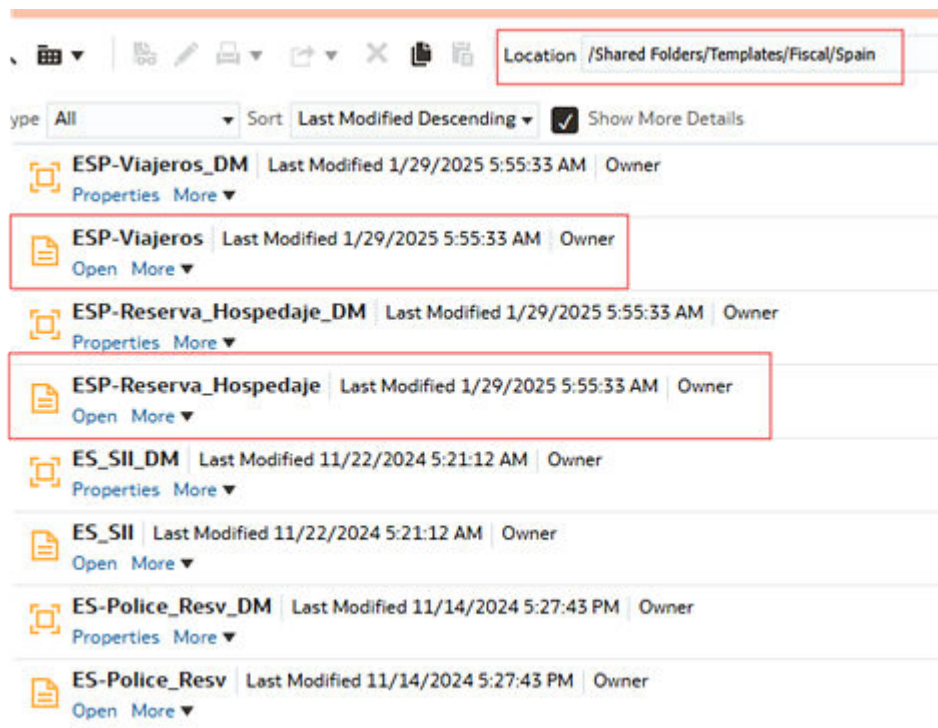

The following template reports are generically available in Reporting and Analytics, but should be reviewed by properties in Spain. They are located in the Fiscal/Spain subfolder.

- ESP_Viajeros - The report displays Travellers bookings for police report purposes.
- ESP-Reserva_Hospedaje - The report displays Lodging bookings for police report purposes.

The Police Exports for Spain in XML Format are available in R&A Version 25.2.0.0 using ESP-Reserva_Hospedaje and ESP-Viajeros report xml files located in /Shared Folders/Templates/Fiscal/Spain.

Note

Full details showing how to configure and run the ESP-Reserva_Hospedaje and ESP-Viajeros report xml files are available in the [Spain - Oracle Hospitality OPERA Cloud Fiscal Reference Guide](#).

New finjrnbytrans (Journal by Cashier and Transaction Codes) Report

A new finjrnbytrans report is added to the Shared Folders/Templates/Financial folder.

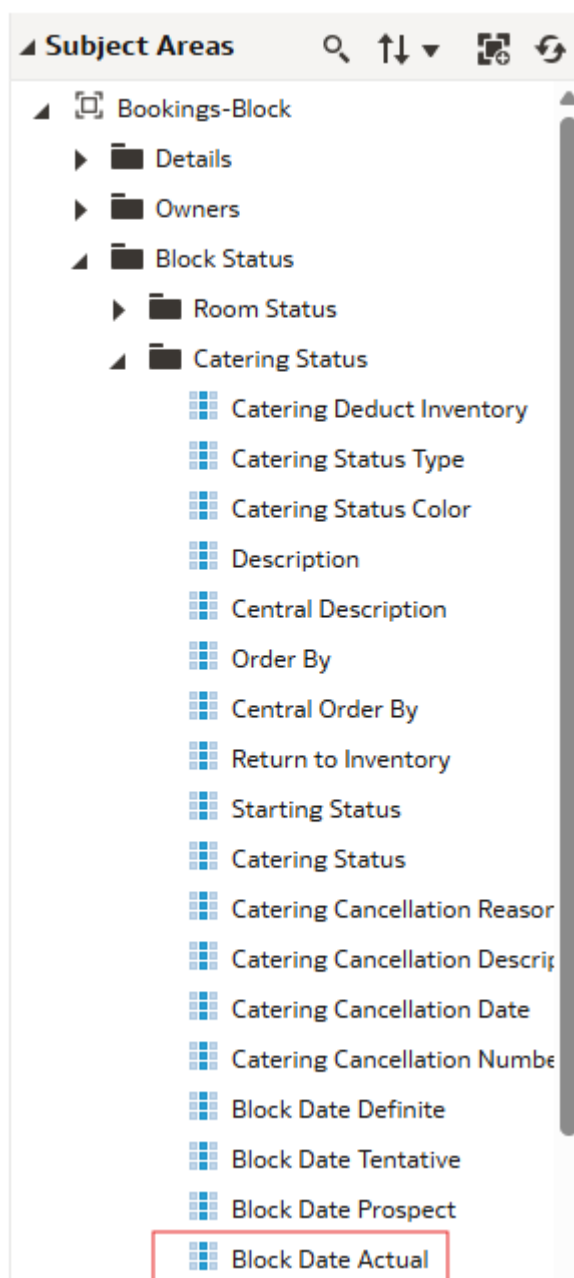

The Journal By Cashier and Transaction Codes report displays each posted transaction code and its corresponding amount for a particular date. The ability to filter on a Transaction Code is available. Each transaction code shows the cashier that posted the transaction, any taxes that apply, and if any package credits exist for that particular code.

REPORTING - SUBJECT AREAS UPDATED

Bookings-Block Subject Area Updated

The Bookings-Block Subject Area is updated with the following attribute under the Block Status/Room Status subfolder and Block Status/Catering Status subfolder:

- Block Date Actual

Bookings-Reservation Subject Area Updated

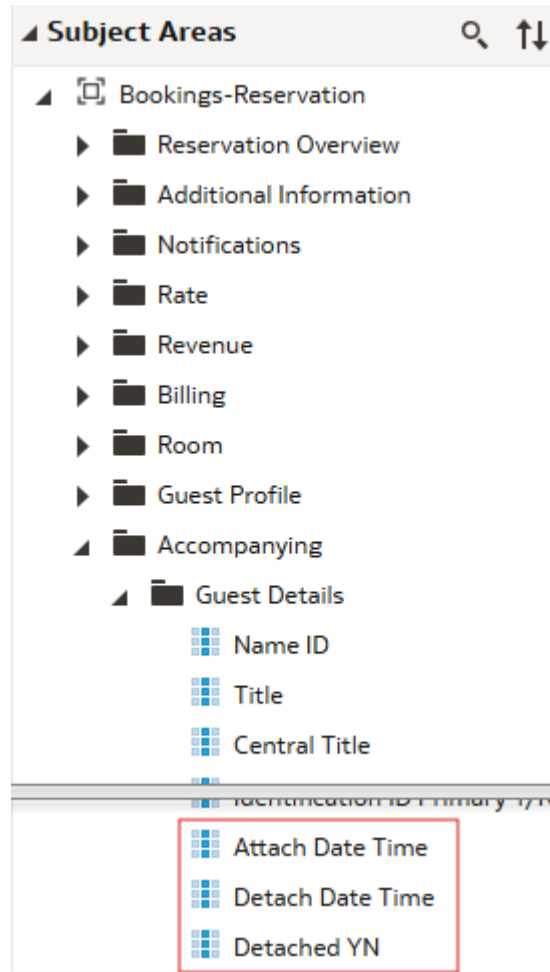

The Bookings-Reservation Subject Area is updated with new attributes under the following subfolders:

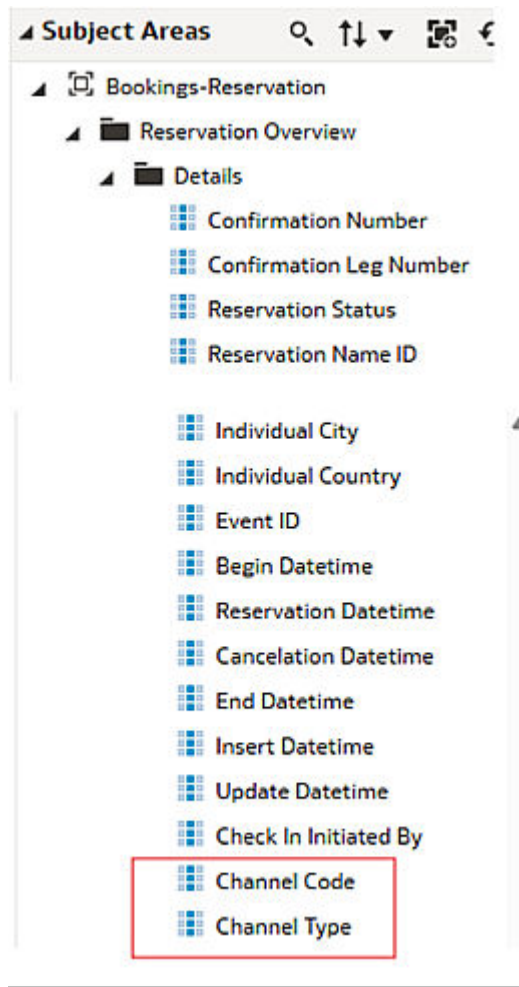

Accompanying - Guest Details subfolder:

- Attach Date Time
- Detach Date Time
- Detached YN

Reservation Overview/Details subfolder:

- Channel Code
- Channel Type

Catering-Events and Resources Subject Area Updated

The Catering-Events and Resources subject area is updated with the following attributes:

Location: Events/Catering Packages-Catering Packages-Details

- Original Package Price
- Original Central Package Price
- Discount Percentage

Location: Events/Catering Packages/Package Revenue Details

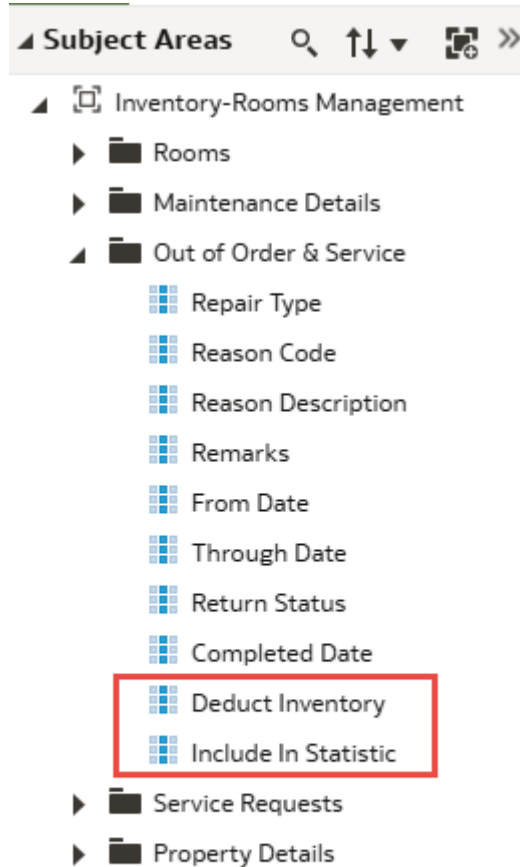

- Original Package Expected Revenue
- Original Central Package Expected Revenue
- Discount Percentage

The existing fields for Package Expected Revenue and Central Package Expected Revenue will display the revenue with the discounts applied.

Inventory-Rooms Management Subject Area Updated

The Inventory-Rooms Management Subject Area is updated with new attributes:

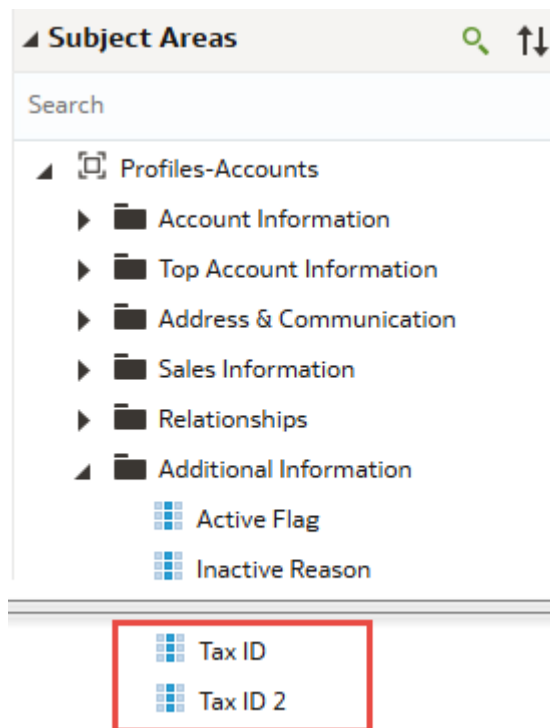

- Deduct Inventory
- Include In Statistic

Profiles-Accounts Subject Area Updated

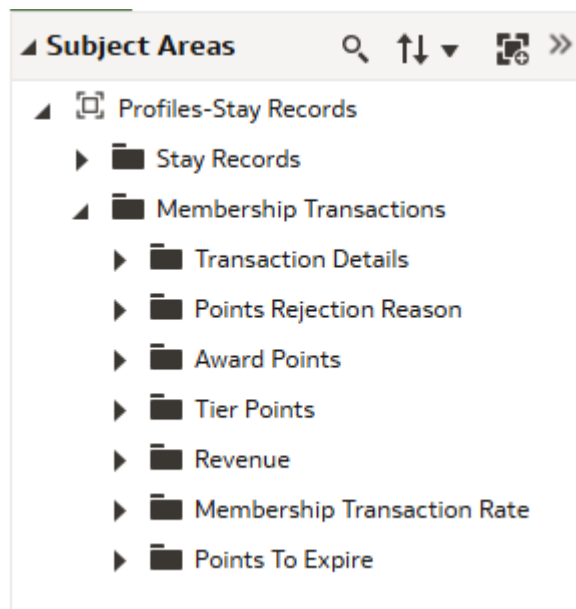

The Profiles-Accounts Subject Area is updated with new attributes under the Additional Information subfolder:

- Tax ID
- Tax ID 2

New Profiles-Stay Record Subject Area

A new Profiles-Stay Records subject area is added to Reporting and Analytics. The subject area contains guest stay records and relevant membership transaction details.

2

Resolved Issues

This chapter contains a list of the issues resolved in this release.

Bug ID	Description
37727727	Issue with job that was cleaning invalid users automatically from configuration is resolved.
37613785	When selecting multiple properties as criteria, the data is appearing correctly in the reports.
37588190	PoliceReport1 and PoliceReport2 in the Shared Templates\Fiscal folder are updated with a report parameter. You'll need to select a property and other criteria before generating these reports. If you're already using these reports, you'll need to reselect and customize them if required. The report should be reconfigured if set as a scheduled report.
37576660	The fields for Package Forecast, Expected, Guaranteed, Actual and Billed Revenue are updated to calculate revenue for packages priced per person.
37564884	Promotion coupon codes generated at the template level are available in the Reports and Analytics for report creation.
37556501	Adjustments were made to improve daily scheduled job report generation.
37524055	Changes made in the Statistics-Reservation Pace Subject Area resolve the issues in the daily scheduled job generated reports.
37512123	Reports are optimized to improve generation times.
37507617	Changes made in the Statistics-Reservation Pace Subject Area resolve the snapshots updates issue in the generated reports.
37488440	You can generate reports within the expected timeframe.
37474613	The field for Average Rate in Catering - Events and Resources is hidden. A new field for Average Room Rate Booked is available which shows the average room rate for blocked rooms.
37461641	The Catering-Events and Resources reports generate successfully.
37454608	The On the Book Revenue field is updated to exclude revenue from deleted events or events in a return-to-inventory status.
37453970	Generating an Inventory-Rooms SA report is more efficient, even when selecting multiple properties in the criteria.
37409636	RevPar, PevPar(N), and RevPar(T) show correct values in the Statistics-Reservation Pace Subject Area.
37409635	When an Inventory-Rooms subject area report is generated using the room feature code as a filter, and there are properties that have no rooms assigned to that code, the report shows a row with no value for each room instead of excluding them from the report.
37409604	The Statistics-Reservation Pace subject area report shows the correct calculation for the Room Reservation Block.
37408636	In the Statistics-Reservation Pace subject area report, Physical Rooms are no longer showing in decimals.
37403327	The Bookings-Reservation subject area is showing the correct Trace Time.
37273572	The total Open AR Transaction Amount in Reports & Analytics aligns with the Account Balance displayed in OPERA Cloud.
37207491	The Statistics-Reservation Pace subject area report is optimized for better performance when pulling Year, Week, and Day AGO values for rooms and revenue, even when handling multiple dimensions.
37160382	Account Owners created at the ORS level are visible on custom reports.
36977917	Reports containing Out-of-Order information and generated with the Statistics-History and Forecast subject area align with the related data in OPERA Cloud.

3

Deprecated or Desupported Features

There are no deprecated features or functionalities reported in this release.

4

Compatibility

Application and OPERA Compatibility

Refer to the [OPERA Reporting and Analytics Cloud Service Compatibility Matrix](#) document on the Oracle Help Center for detailed information.
