This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Oracle Life Sciences Data Intelligence Release Notes

The Oracle Life Sciences Data Intelligence Release Notes provide information about new features and corrections.

Note

- The product name changed from Oracle Life Sciences AI Data Platform to Oracle Life Sciences Data Intelligence in September 2026.
- Dates listed in this document indicate the first regional deployment and may not reflect the date the updates are available to your site.
- The date associated with a release corresponds with the initial deployment and may not reflect the exact date that it becomes available in your region.
- Components or versions of components listed in this document may not be used at your site.

The solution changes below are available with Life Sciences Data Intelligence 2026.2.11 release.
- [Oracle Life Sciences AI Data Platform 2026.1.02](#)
The solution changes below are available with the Oracle Life Sciences AI Data Platform 2026.1.02 release.
- [Oracle Life Sciences AI Data Platform 2025.04.01 \(October 9, 2025\)](#)
The solution changes below are available with the Oracle Life Sciences AI Data Platform 2025.04.01 release.
- [Known Issues](#)
Oracle has identified the known issues below in Oracle Life Science AI Data Platform. The list is updated when issues are identified or resolved in a new release.

Oracle Life Sciences Data Intelligence 2026.2.11

The solution changes below are available with Life Sciences Data Intelligence 2026.2.11 release.

Oracle Life Sciences Data Intelligence 2026.2.11

- **Preproduction Release Date:** Not applicable
- **Production Release Date:** September 21, 2026

Note

The product name changed from Oracle Life Sciences AI Data Platform to Oracle Life Sciences Data Intelligence in September 2026.

Solution Change	Component, Description, and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
Life Sciences Data Intelligence AI Agents for Research DRTRACK-853	Component: Oracle Life Sciences AI Agents for Research Description: Users can use AI Agents for research to connect Oracle Life Sciences AI Data Platform with MCP AI Clients to answer questions, analyze, and save datasets for research. UI Impact: Workflow (Automatic) AI Agents for research are now available to answer questions, analyze, and save datasets on AI Data Platform.	<i>Oracle Life Sciences Data Intelligence User Guide</i> and <i>Oracle Life Sciences Data Intelligence Administrator Guide</i> for more information.	Verify that you can successfully complete the workflows in the Reference Materials.	Implementation Impact: AI Agents for research must be added as a connector to Life Sciences Data Intelligence. Maintenance Impact: AI Agents for research must be added at a connector to Life Sciences Data Intelligence by an administrator before use.

Oracle Life Sciences AI Data Platform 2026.1.02

The solution changes below are available with the Oracle Life Sciences AI Data Platform 2026.1.02 release.

Oracle Life Sciences AI Data Platform 2026.1.02

- **Preproduction Release Date:** Not applicable
- **Production Release Date:** July 14, 2026

Solution Change	Component, Description, and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
Life Sciences AI Data Platform Workbench Enablement HDWR-2166	Component: Oracle Life Sciences AI Data Platform Workbench Life Sciences AI Data Platform applications are enabled with Oracle AI Data Platform Workbench (Workbench) for users to navigate applications and data workflows. UI Impact: Workflow (Automatic) Workbench is available as a home page for AI Data Platform application users to begin data workflows.	Oracle Life Sciences AI Data Platform User Guide (now called <i>Oracle Life Sciences Data Intelligence User Guide</i>) and Using Oracle AI Data Platform Workbench for more information.	Verify that you can successfully complete the workflows in the Reference Materials.	Implementation Impact: None Maintenance Impact: None

Oracle Life Sciences AI Data Platform 2025.04.01 (October 9, 2025)

The solution changes below are available with the Oracle Life Sciences AI Data Platform 2025.04.01 release.

Oracle Life Sciences AI Data Platform 2025.04.01

- **Preproduction Release Date:** Not applicable
- **Production Release Date:** October 9, 2025

Solution Change	Component, Description, and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
1-000000566356	Component: Oracle Life Sciences AI Data Platform - Oracle Life Sciences AI Data Platform Oracle administrators can use Autonomous Data Warehouse to grant access to a subset of Oracle Real-World Dataset (ORWD) based on the data tier the customer purchased. Oracle-provided ORWD is isolated from customer-provided data. Oracle administrators can configure Oracle Life Sciences AI Data Platform to retain specific ORWD datasets for up to 12 months. - Customers can access projects, notebook sessions, and Jupyter Notebooks for data analysis and machine learning through the Data Science Service. - Customers can connect to Autonomous Data	Oracle Life Sciences AI Data Platform user Guide (now called <i>Oracle Life Sciences Data Intelligence User Guide</i>)	Verify that you can successfully complete the workflows in the Reference Materials.	Implementation Impact: None Maintenance Impact: None

Solution Change	Component, Description, and UI Impact	Reference Materials	Validation Guidelines	Implementation and Maintenance Impact
	Warehouse and create, manage and share visualizations, and import standard dashboards built in Oracle Analytics Cloud. UI Impact: Workflow (Automatic) • Users can query data, transform data, and share data within their organization. Users can connect to data using standard protocols. • Users can create analytics projects, sessions, and notebooks or import existing notebooks, access data through notebooks, install dependencies, create data processing and machine learning pipelines, and share them with other users. • Users can create, manage, and share visualizations.			

Known Issues

Oracle has identified the known issues below in Oracle Life Science AI Data Platform. The list is updated when issues are identified or resolved in a new release.

You can view known issues for this solution in eService. In Step 4 below, select **Clinical Intelligence** from the Solution list.

Complete the following steps to view known issues:

1. Access [eService](#).
2. Select **View Solution Change Records** under Solution Changes.
3. On the Solution list, select the check box next to the solution or solutions for which you want to view known issues.
4. You can filter the list of known issues further using the following filters:
 - Enter a date range in the Published Between box to see only issues published in a certain time span, for example, if you want to view new known issues since the date you last ran the query.
 - Optionally, you can enter a client number, solution change number, solution change type, severity, or status to further narrow results.
5. Select **Apply**. The list of known issues matching the entered criteria is displayed.

Note

- To save the search criteria for future use, select **Save** and enter a name for the saved search. When you return to eService, saved searches are available to select from a list at the top of the search criteria box.
- To export the results to Excel, select **Export to Excel** above the search results.
- To clear the selected search criteria, select **Clear**.

Note

The list of known issues changes over time and you should review it regularly.
