This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Send Us Your Comments

Oracle Retail Customer Engagement Cloud Service User Guide , Release 22.1.401.0

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document.

Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

> **Note:**
>
> Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the Online Documentation available in the Oracle Help Center (`docs.oracle.com`). It contains the most current Documentation Library plus all documents revised or released recently.

Send your comments to us using the electronic mail address: `retail-doc_us@oracle.com`.

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at `http://www.oracle.com`.

Preface

This guide describes the Customer Engagement Cloud Services. It provides step-by-step instructions to complete most tasks performed through the user interface.

Audience

This User Guide is for users and administrators of Oracle Retail Customer Engagement. This includes merchandisers, buyers, business analysts, and administrative personnel.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at `http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc`.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit `http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info` or visit `http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs` if you are hearing impaired.

Related Documents

For more information, see the following documents in the Oracle Retail Customer Engagement documentation set:

- *Oracle Retail Customer Engagement User Guide*
- *Oracle Retail Customer Engagement Implementation Guide*
- *Oracle Retail Customer Engagement Release Notes*
- *Oracle Retail Customer Engagement Administration Guide*
- Oracle Retail Customer Engagement Batch Processing & Web Services Guide

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL:

`https://support.oracle.com`

When contacting Customer Support, please provide the following:

- Product version and program/module name

- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Improved Process for Oracle Retail Documentation Corrections

To more quickly address critical corrections to Oracle Retail documentation content, Oracle Retail documentation may be republished whenever a critical correction is needed. For critical corrections, the republication of an Oracle Retail document may at times not be attached to a numbered software release; instead, the Oracle Retail document will simply be replaced on the Oracle Help Center (docs.oracle.com), or, in the case of Data Models, to the applicable My Oracle Support Documentation container where they reside.

This process will prevent delays in making critical corrections available to customers. For the customer, it means that before you begin installation, you must verify that you have the most recent version of the Oracle Retail documentation set. Oracle Retail documentation is available on the Oracle Help Center (docs.oracle.com) at the following URL:

`https://docs.oracle.com/en/industries/retail/index.html`

An updated version of the applicable Oracle Retail document is indicated by Oracle part number, as well as print date (month and year). An updated version uses the same part number, with a higher-numbered suffix. For example, part number E123456-02 is an updated version of a document with part number E123456-01.

If a more recent version of a document is available, that version supersedes all previous versions.

Oracle Retail Documentation on the Oracle Help Center (docs.oracle.com)

Oracle Retail product documentation is available on the following web site:

`https://docs.oracle.com/en/industries/retail/index.html`

(Data Model documents can be obtained through My Oracle Support.)

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
`monospace`	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the window, or text that you enter.

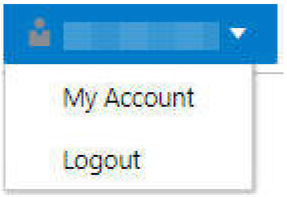
Getting Started

User Options are accessed by clicking the User Name after a successful login.

They include:

Figure 1-1 User Options



- **My Account** - Displays your profile and the assigned roles. Depending on your access privileges, you may be able to change your Default Home. If available, select the desired Home Page and click **OK** to confirm the selection.
- **Logout**- Logs you out of the application. Click **Yes** to logout, or **No** to return to the application.

Navigation

Navigation Icons

When you first log in to the application, it displays a menu and toolbar that you can use to navigate to other areas of the application. Your administrator can assign a roll to determine your start page. Roles include:

- If you have the Customer Home user role, the Customer Home landing page displays.
- If you have the Promotion user role, the Promotion Home landing page displays.
- If you have the Segment user role, the Segment Home landing page displays.
- If you have the Program user role, the Program Home landing page displays.
- If you have the Job Management user role, the Job Management Home landing page displays.

> **Note:**
>
> If a user has multiple "home" roles, this will be the priority of the home window the user lands on after login.
>
> – Customer Home
> – Promotion Home
> – Segment Home
> – Program Home
> – Job Management

Icon	Description
☰	The **Menu** icon provides links that correspond to icons on the toolbar, and returns you to the Home page.
★	The **Favorite** icon displays frequently used Tasks and Reports. See Adding or Removing a Favorite for more information.
☑	The **Tasks** icon displays a Search for a task search box, where you can enter text to search for Task submenu options, along with links to the Home and Customer pages. See Note below for more information.
🔔	The **Notifications** icon alerts you to items needing your attention.. Click the icon to open the Notifications Panel Menu. See Notificationsvaavi for more information.
👥	The **Customer Search** icon displays the Customer Search page. See Customer Search for more information.
◔	The **Segments** icon displays the Segment search which allows you to select more criteria that are not available in the Segment Quick Search box. You can also Create Segments. See Segments for more information.
🏷	The **Offers** icon displays the Offers Advanced search which allows you to select more criteria that are not available in the Offer Quick Search box. You can also Create Offers. See Offers for more information.
⚙	The **Promotions** icon displays a Promotion Search which allows you to select criteria to search promotions. You can also Create Promotions. See Promotion Search for more information.
💳	The **Card** icon displays a Card Search which allows you to select criteria to search Cards. See Card Search for more information.
▣	The **Program** icon displays a Program Search which allows you to select criteria to search Programs. See Advanced Program Search for more information.
📊	The **Reports** icon displays a list of reports that can be run. See Reports for more information.
⋮	The **Overflow Menu** provides additional options including Edit, View, and Delete.

Task Priority

Icons displayed are based on what the user has access to. However, if the user has access to more than 6, there is a priority order for the icons to display. The ones further down the list will then only be accessible from the Main menu or from favorites section if they are marked as a favorite.

The Priority Order is:

- Customer Search
- Segment Search
- Offer Search
- Promotion Search
- Card Search
- Program Search
- Reports

> **Note:**
>
> Displays only if the user does not have one of the first six features, otherwise it is not a menu option, but can be saved as a favorite

Task Lists

Additional Tasks

The Reports Task opens the Reports application. The About Application opens a pop up window with the information regarding this version.

Favorites

Favorites provide the ability to designate certain Tasks or Reports as Favorites that allow quick and easy access to frequently menu selections. You may also Pin or Unpin favorites to the Main Navigation Menu.

Adding or Removing a Favorite

A full blue star indicates which Task or Report is a Favorite and conversely, an empty blue star indicates which Task or Report is not a Favorite. To add a Favorite do the following:

1. Navigate to the desired **Task** or **Report**.

Figure 1-10 Menu Item - Favorites

Pinned Navigation Bar Favorites

Press **Shift + F10** or right-click a **Pinned Favorite** to display the following options:

- Cut
- Paste Before
- Paste After

> **Note:**
>
> In addition to the cut and paste options, you can reorder the pinned favorites from the Pinned Navigation Bar Favorites section on the Edit Favorites window by clicking a folder or favorite and dragging it to a new position.

- Unpin Favorite

> **Note:**
>
> You can also highlight a Pinned Task and click the **X** icon to unpin a favorite.

Edit Favorites - Working with Folders

You can edit, organize, rename, pin, and unpin favorites from the **Edit Favorites** window. The favorites displayed and the order in which the favorites are displayed are managed in **Edit Favorites**.

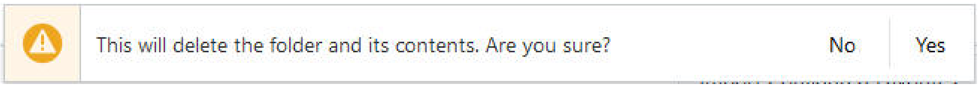
Note:

See Organized Favorites for information on how to create a folder.

Press **Shift + F10** or right-click a folder to display the following options:

- Edit - Enter a **new name** for the previously created folder. Click **Ok** to accept or click **Cancel** to close the window without saving.
- Cut
- Paste Before
- Paste After
- Paste Inside - Use this option on Favorites to move them into a folder.
- Delete - Deletes the folder and the contents. A warning message appears. Click **Yes** to delete the folder and its contents or click **No** to close the warning without deletion.

Figure 1-21 Delete Folder - Warning



This will delete the folder and its contents. Are you sure?

Searching Favorites

The Favorites Menu provides a smart search feature to enable you to quickly find and open a task or report that is marked as a Favorite.

- Enter any part of a task or report name and the list automatically populates with matching results as shown in Figure 1-22.
- Select one of the items in the list to open that task or report.

2. Click **See All**. The Notifications page appears.

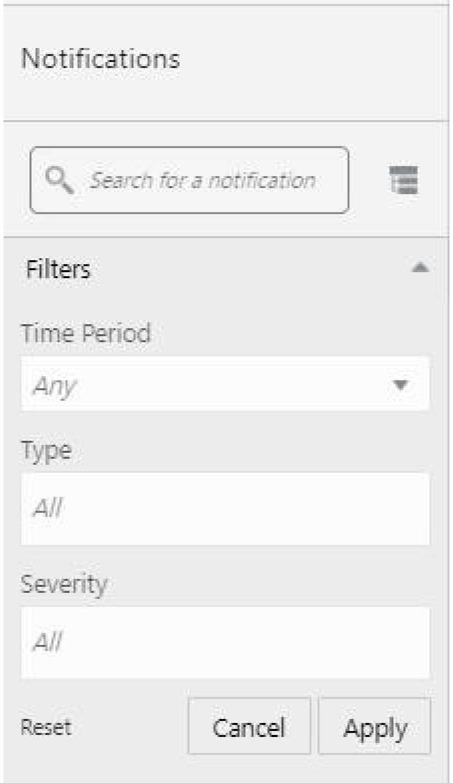
Using the Notifications Panel

The active view in the panel depends on which filters are selected and whether the grouping toggle is activated. The filter view is active when the grouping toggle is off. The grouped view is accessed by turning the grouping toggle on.

Filter View

The Filter view shows each notification individually. Click the **Filters down facing arrow** to expand the filter options.

Figure 1-26   Filter VIew



Notifications
Search for a notification
Filters
Time Period
Any
Type
All
Severity
All
Reset
Cancel
Apply

The filter view supports three search criteria. The Time Period, Type, and Severity inputs allow filtering on the respective fields of the notification.

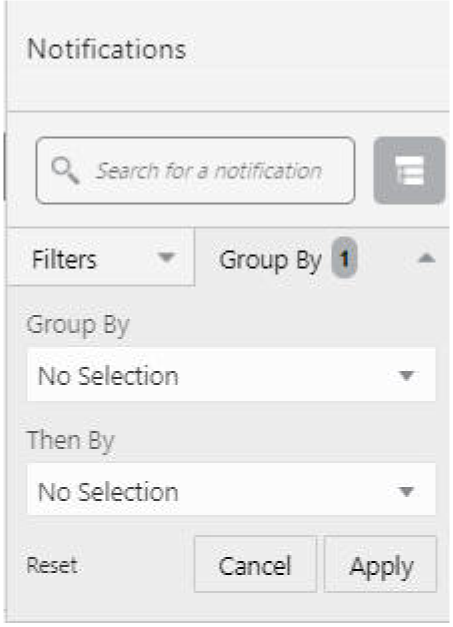
Click **Apply** to fetch the Notifications that match the set values. Click **Cancel** to revert to the previously used values, and Click **Reset** to reset to the default values (but does not close the tab or save them).

In this view, individual notifications are listed out in detail. In order, the notifications: Type, Severity, Description, and Last Updated values are displayed.

Clicking a notification with launch able context will mark it as read and open the context. For other notifications, they can be marked as read by clicking the filled blue circle in the upper-left corner; clicking the rest of the notification will have no effect.

Group View

Figure 1-27   Group View



The Group view shows notifications grouped by hierarchy values. The group view is active by clicking the **Grouping Toggle** to on and only **one** grouping option at a time can be selected.

The grouping options allow the selection of up to two hierarchy levels to organize the notifications by. The first selection is required while the toggle is active; the second is not. Also, the group by and then by lists are mutually exclusive - selecting an option in one will remove it from the other. The buttons on the tab work in the same manner as those on the filter tab.

This view is similar to the first, save that the notifications are organized by hierarchy value. Initially, the three most recent notifications for each hierarchy value will be displayed. Click **See More** to load up to twenty five notifications. Clicking a notification in this view behaves the same as in the filter view.

Working with Notifications

The Notifications page provides more details about the notifications. It also displays read notifications and the ability to reassign notifications.

Metric Tile Section

The Notifications Page has the following five tiles in this section. Clicking on any tile will filter the table to the content for that tile (for example, unread critical notifications). The Filter tile only shows up in certain cases: when there are filters set on the sidebar menu.

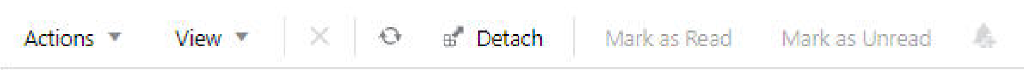
- All Notifications
- All Unread

- Critical
- Important
- Normal
- Filter Applied - Displays only when Filters are applied.

Data Display Section

The following options will display in the toolbar of the data display section:

Figure 1-28 Toolbar Options



- **Action Menu**
  - Delete
  - Refresh Notifications
  - Mark as Read
  - Mark as Unread
  - Reassign Notification
- **View Menu**
  - Manage Columns
  - Detach

- **Icons**
  - Delete
  - Refresh
  - Detach
  - Mark as Read
  - Mark as Unread
  - Reassign Notification

Click on one or more rows and then select the desired option from the Toolbar options.

2

Customer Home

Customer records store basic information about each customer. These records can be associated with a card or an account used to track transactions and provide incentives to customers.

Customer records can be used to track individual customers and their shopping preferences, habits, and tendencies. This allows locations and chains to target promotions to customers most likely to take advantage of purchase incentives given by the location or chain.

When you log in to the application, it first displays the Home page with the Customer Quick Search panel and the Day Planner panel. If you have customers assigned to you, the Home page search panel will also have a list of Associated Customers. See Associate Assignment for more information about associated customers.

Search for a Customer

You can search for additional customers by entering the customer name, customer id, alternate key, email address, or phone number in the Search bar. Select **Partial**, if you want to results that match part of what you enter, or select **Exact** if you only want results that are an exact match.

Click the Customer Advanced Search link to do an advanced search. See Customer Search for more information.

Associated Customer List

You can filter for customers by segment and select from a list of sort criteria. There are several actions available on an Action menu in each customer row, including Add to Personal List, Create Appointment, Create Note, Create Registry, and Create To Do.

This information is displayed for each customer in the Associated Customers grid:

- Customer - The customer image, icon or initials and the customer's name and address.
- Last Visit - The date of the customer's last purchase.
- Activity YTD - The total amount of the customer's purchases year-to-date, displayed in the base system currency.
- Average Spend LTD - The average amount of the customer's purchases life-to-date (the total amount of the customer's purchases life-to-date divided by the number of purchases). Displayed in the base system currency.

Filtering by Segment

By default the Associated Customers list includes all customers assigned to the associate regardless of the segments to which they belong. If you do not want to filter by segment, keep the default selection in the Customers In field, as All.

To Filter the Associated Customers list by Segment:

1. Click the drop-down list in the Customers In field.
2. Click a segment from the list to filter for only the customers in that segment.

Sorting Associated Customers

You can sort customers in the Associated Customer list by any of the information contained in the grid by making a selection from the items in the Sort by list. These include:

- Average Spend LTD
- Activity YTD
- Last Visit
- Last Name
- First Name
- Address
- City
- State
- Last Update Date

Linking to the Customer Dashboard

You can click a customer name or image icon in the Associated Customers list to view them in the Customer Dashboard.

Associated Customer Actions

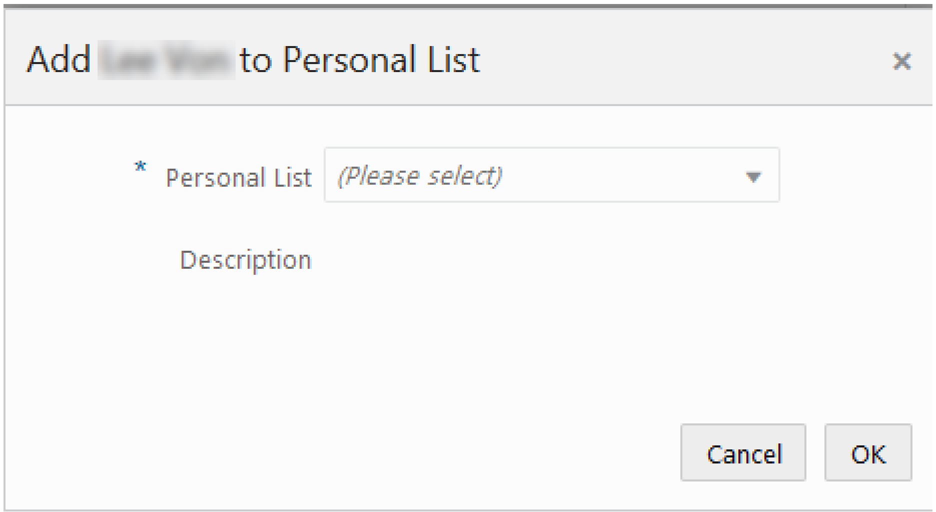
The Actions menu in each row, in the Associated Customers list, provides access to the actions described below:

Add to Personal List

To add a customer to your personal list:

1. In the row of the customer that you want to add, click the Actions menu and choose Add to Personal List. This displays the following prompt:

Figure 2-2 Add Customer to Personal List



2. Select a list from the Personal List drop-down. A description of the selected list is displayed in the Description field.
3. Click **OK**. This adds the customer to the list.

Create Appointment

To create an appointment for a customer:

1. In the row of the customer for whom you want to create an appointment, click the **Actions** menu and choose **Create Appointment**. This displays the Create Task window for the customer with the Task Type, Appointment selected.
2. Enter the rest of the details for the appointment and click **OK** when you are done. This creates the task and returns you to the Associated Customers list.

   For more information, see: Tasks

Create Note

To create a note for a customer:

1.
   a. In the row of the customer for whom you want to create a note, click the Actions menu and choose Create Note. This displays the Create Note dialog for the customer.

   b. Select the Note Type and enter the note in the Note field. If you do not want the note to be seen by others select the Mark as Private check box.

   c. Click **OK** when you are done. This creates the note and returns you to the Associated Customers list.

      For more information, see: Notes

Create Registry

To create a registry for a customer:

1. In the row of the customer for whom you want to create a registry, click the **Actions** menu and choose **Create Registry**. This displays the Create Registry window for the customer.
2. Enter the registry details and click **OK** when you are done. This creates the registry and returns you to the Associated Customers list.

For more information, see: Registries

Create To Do

To create a To Do task for a customer:

1. In the row of the customer for whom you want to create a To Do task, click the **Actions** menu and choose **Create To Do**. This displays the Create Task window for the customer with the Task Type, To Do selected.
2. Enter the rest of the details for the task and click **OK** when you are done. This creates the task and returns you to the Associated Customers list.

For more information, see: Tasks

Day Planner

The Day Planner shows a list of appointments and tasks assigned to the associate as well as offers for a given day.

Click the **Calendar** icon in the Events field to select a different date.

The following information is displayed for the selected date:

- **Appointments** - Shows the appointments for the selected date. No expired appointments are shown. The maximum number of appointments displayed is 25. If there are no appointments, the message `No appointments available to display` is shown.
- **Tasks** - Shows the tasks assigned on the selected date. No expired tasks are shown. The maximum number of tasks displayed is 25. If there are no tasks, the message `No tasks available to display` is shown.
- **Offers** - Shows all active offers based on the selected date. The offers are shown for the default location of the associate. If there is no default location identified, all offers for the chain are shown. No expired offers are shown. The maximum number of offers displayed is 25. If there are no offers, the message `No offers available to display` is shown.

3

Customer Search

Use the Customer Search page to find an existing customer to work with.

How to display this page:

- Select the **Customer Search** icon.
- Customer Search - You can search for customers using a number of criteria such as Name, Address, and Customer ID.
- Customers Found - Shows a list of customers retrieved based on the search criteria.

Customer Search

To search for a customer, enter any combination of the following search criteria and select Search. Optionally, select Reset to clear the entered search criteria.

Rules for Searching

- Matching: Unless otherwise indicated, the results are restricted to customer records that begin with your entry or match it exactly. For example, if you enter a postal code of 2050, the results include customers whose postal codes are 20501 or 20502.
- Case: Searching is **case-insensitive**.
- Searches for primary records only: In cases where the customer can have a primary record and additional records, such as address, email or phone number, the customer is included in search results only if the primary record matches. For

example, if the postal code for the customer's primary address is 01602, but the customer also has an additional address in postal code 01609, the customer is not included in the search results if you search on postal code 01609.

> **Note:**
>
> Be as specific as possible when entering search information. The more specific the information, the fewer customer records are returned

Search Criteria

- **Last Name** - Customer last name.
- **First Name** - Customer first name.
- **Business Name** - Name of the customer's business.
- **Address** - Address line for the customer. Searches address line 1 in the customer's primary address.s
- **City** - City of the customer's primary address.
- **State** - State or province of the customer's primary address.
- **Postal Code** - Postal Code or ZIP Code of the customer's primary address.
- **Email Address** - Customer's primary email address.
- **Phone Number** - Customer's primary telephone number.
- **Second First Name** - Customer's second first name.

> **Note:**
>
> This field appears only if the system is configured to display additional customer names. See the Implementation Guide for more information.

- **Second Last Name** - Customer's second last name.

> **Note:**
>
> This field appears only if the system is configured to display additional customer names. See the Implementation Guide for more information.

- **Customer ID** - A unique identifier assigned by Customer Engagement. Searching on customer ID requires an exact match.
- **Alternate Key** - Customer Alternate Key. A unique identifier assigned to identify the customer in an integrating system. Searching on Alternate Key requires an exact match.
- **Card Number** - Card Number associated with the customer. Searching on card number requires an exact match.

- **Card Serial Number** - Serial Number of the card associated with the customer. Searching on card serial number requires an exact match.
- **Associate ID** - ID of an Associate assigned to the customer. Searching on associate ID requires an exact match.
- **Segment** - Name and ID of a customer segment. Segments are listed alphabetically by Segment Name in ascending order with All segments at the top. Optionally, select an existing segment from the list to restrict results to customers in the segment, or leave this field set to All.
- **Franchisee** - Name of the Franchisee. Franchisees are listed alphanumerically by franchisee name. Optionally, select a franchisee from the list to restrict results to customers associated with the franchisee, or leave this field set to All.

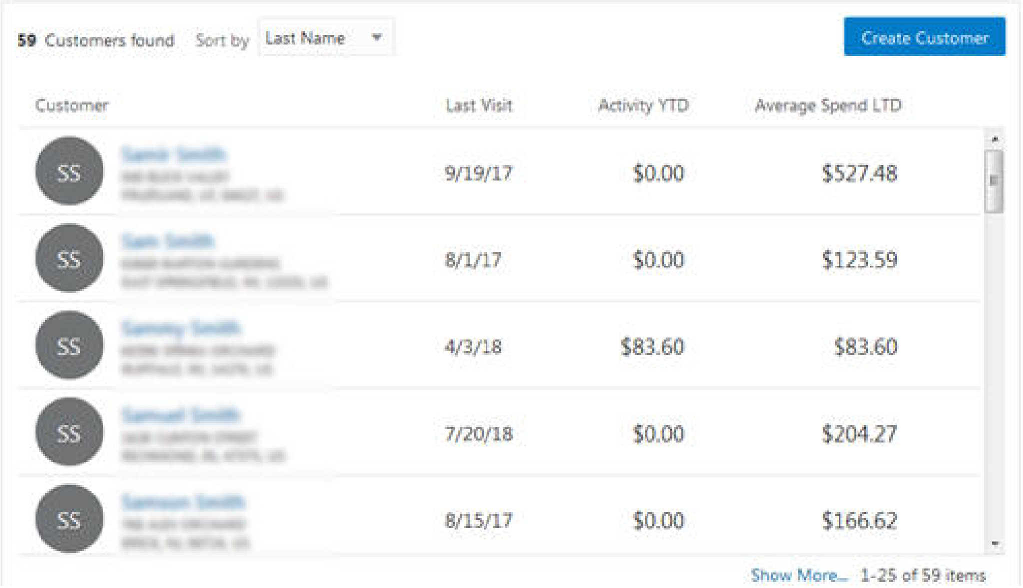
> **Note:**
>
> This field appears only if the Franchisee Support is enabled. See the Implementation Guide for more information.

Customers Found

The customer records matching the search criteria are displayed under Customers Found.

If more than 25 customer records match the search criteria, the first 25 records are displayed. Select Show More... at the bottom of the page to display more customer records.

Figure 3-2 Customers Found List



59 Customers found Sort by Last Name

Customer	Last Visit	Activity YTD	Average Spend LTD

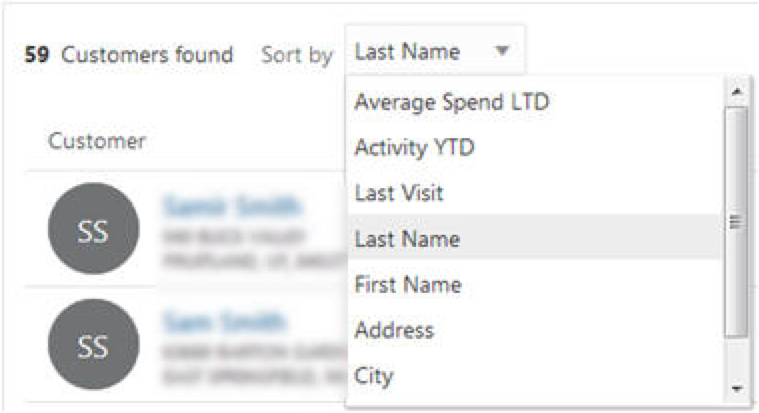
Show More... 1-25 of 59 items

- Customer image or initials - Displays:
    - The image of the customer, if it has been identified. Otherwise,
    - The customer's initial(s), if the customer's first or last name, or both, are known. Otherwise,
    - A customer icon if the customer record has no first or last name (for example, a business).
    - The customer image or initials provides a link to the Customer Dashboard.
    - Customer name - The customer first and last name, if any.
    - The customer name provides a link to the Customer Dashboard. This option is not available if the customer record has no first or last name (for example, a business).
    - Customer address - Values include, Address 1, Address 2, City, State/Province, Postal Code, and country, if they exist. If the customer does not have a primary address, the message `No Address Available` is displayed.
    - Last Visit - The date of the customer's last purchase.
    - Activity YTD - The total amount of the customer's purchases year-to-date, displayed in the base system currency.
    - Average Spend LTD - The average amount of the customer's purchases life-to-date (the total amount of the customer's purchases life-to-date divided by the number of purchases). Displayed in the base system currency.

Figure 3-3 Sort-by Options



Sorting Customers

You can use the Sort by drop-down list to sort the list of Customers found by the following options:

- **Average Spend LTD** - Select this option to list customers in descending order by average spend life-to-date (the total amount of the customer's purchases life-to-date divided by the number of purchases).
- **Activity YTD** - The total amount of the customer's purchases year-to-date, displayed in the base system currency.

- **Last Visit** - Select this option to list customers in descending order by the date of last visit (purchase).
- **Last Name** [default] - Leave this option selected to list customers alphabetically by last name.
- **First Name** - Select this option to list customers alphabetically by first name.
- **Address** - Select this option to list customers alphanumerically by street address.
- **City** - Select this option to list customers alphabetically by city name. Customers in the same city are listed alphabetically by last name.
- **State** - Select this option to list customers alphabetically by state or province. Customers in the same state or province are listed alphabetically by last name.

Displaying a Customer in the Customer Dashboard

There are two ways to access the Customer Dashboard. In Task Management, use the Search panel to list tasks. The customer names appear as a link that you can click. You can also click a customer name or image icon in the Customers found list to view more information about them in the Customer Dashboard.

Creating a New Customer

Click the Create Customer button to create a new customer. This displays a blank Customer Details page for the new customer. See Customer Information for details about the information that can be entered on this page.

4

Customer Dashboard

Use the Customer Dashboard to look up the information available for a customer and to edit customer information.

The Customer Dashboard is displayed when you look up a customer. See Customer Search. You can also link from the customer name or image icon in the Customer List on the Home page.

Information on the Customer Dashboard is divided into these sections:

- The header bar displays the Customer Name and ID, start date, Personal Lists, Number in Customer Household and Actions menu.
- **Customer Information** - Basic information about the customer, such as mailing addresses, email addresses and phone numbers. See Customer Information.
- **Attributes** - Information that helps to characterize the customer, such as birth month and marital status. See Attributes.
- **Activity** - Shows current and upcoming customer tasks. See Activity.
- **Purchase Profile** - Shows purchase pattern of the customer by revenue center over a year. See Purchase Profile.

- **Stratified Segments** - Shows the stratified segments in which the customer is grouped. See Stratified Segments.
- **Cards and Programs** - Includes information for each program where the customer has an account. See Cards and Programs.
- **Offers** - Shows current offers for the customer. See Offers.
- **Segments** - Segments define groups of customers. This section shows the segments to which the customer belongs. See Segments.
- **Notes** - Provides information about all of the notes written about the Customer. See Notes.

Customer Household

The Customer Household includes members of a household that a customer is a part of, so that it is possible to direct marketing efforts to a household, rather than each individual member. Household members can be included in this list if they share the same last name and address, or if they only share the same address.

Viewing the Customer Household List

To display the Customer Household list:

1. Display the customer in the Customer Dashboard, for example by clicking on the customer name or image in the Customer List.
2. In the header of the Customer Dashboard, look for the (Number) in Household link. This link will only display if there is more than one household member.
3. Click the (Number) in Household link. This displays the Customer Household list:

Figure 4-2 Customer Household

Household Activity

Activity YTD: $2,911.62 Activity Count YTD: 6 Activity LTD: $8,677.42 Activity Count LTD: 50

Customers In Household Sort By Activity YTD

Name And Address	Last Visit	Activity YTD:	Activity Count YTD:	Activity LTD:	Activity Count LTD:
[redacted]	12/6/18 Location 9990	$2,911.62	6	$8,023.80	32
BW [redacted]	12/14/17	$0.00	0	$81.51	1
FR [redacted]	11/3/17	$0.00	0	$81.51	1
NM [redacted]	11/3/17	$0.00	0	$81.51	1

The Household list displays the following view-only information:

- Household Activity - Summarizes the transaction activity of the household by these metrics:

    - Activity YTD – The amount of the total year-to-date transaction activity for the whole household.
    - Activity Count YTD – The number of transactions for the whole household for the year to date.
    - Activity LTD – The amount of the total life-to-date transaction activity for the whole household.
    - Activity Count LTD – The number of life-to-date transactions for the whole household.
  - You can sort by the above Household Activity metrics by selecting from these items on the Sort By drop-down list.
    - Activity YTD
    - Activity Count YTD
    - Activity LTD
    - Activity Count LTD
  - Name and Address – The name and address of the household member, and the customer image, if available.
  - Last Visit – The last date the customer made a purchase.
  - Activity YTD – The amount of the total year-to-date transaction activity for the household member.
  - Activity Count YTD – The household member's number of transactions for the year to date.
  - Activity Count LTD – The household member's number of life-to-date transactions.

4. Use the scroll bars to display hidden information. Click **Done** when you are done viewing the list. This returns you to the Customer Dashboard.

Personal Lists

The Personal List provides information about all the user-created personal lists (previously known as manual segments) to which the user can associate customers. The Personal Lists link at the top of the Customer Dashboard displays all the private lists created by the associate to which the customer may be assigned.

To Assign and Unassign Personal Lists:

1. Click the (#) Available Personal Lists link at the top of the Customer Dashboard. This displays the associate's available Personal Lists, with the ones that include the customer listed first.

Figure 4-3 Personal Lists for Customer

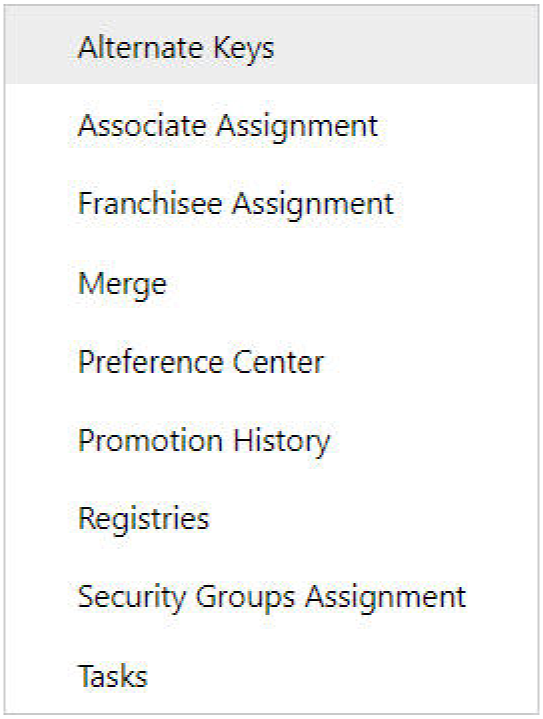
  - Customer Name and ID
- Available Personal Lists Grid
  - List ID – ID of the list
  - List Name – Name of the List
  - Description – Description of the list
  - Added On – The date on which the customer was added to the list
  - Customer Count – The number of customers on that list.
  - Assign to List – Buttons for assigning (Assign) and removing (Unassign)
- Scroll bars are available if there are more lists than will fit on the window.

2. Add or remove the customer from a list:
   - Click **Assign** to assign a customer to a list
   - Click **Unassign** to remove a customer from a list.
3. Click **OK** when you are done. This returns you to the Customer Dashboard.

Actions Menu

The actions menu at the top of the Customer Dashboard provides access to several tasks associated with customer management.

Figure 4-4 Actions Menu



- Alternate Keys – Displays the Alternate Keys window for the customer displayed in the Customer Dashboard. See: Alternate Keys
- Associate Assignment – Displays the Associate Assignment window for the customer displayed in the Customer Dashboard. See: Associate Assignment
- Franchisee Assignment - Displays the Franchisee Assignment window for the customer displayed in the Customer Dashboard. This option is only displayed if the associate has access to at least one franchisee. See: Franchisee Assignment
- Merge - Displays the Customer Merge window for the customer displayed in the Customer Dashboard. See: Merge
- Preference Center - Displays the Preference Center window for the customer displayed in the Customer Dashboard. See: Preference Center
- Promotion History - Displays the Promotion History window for the customer displayed in the Customer Dashboard. See: Promotion History
- Registries – Displays the Registries window for the customer displayed in the Customer Dashboard. See: Registries
- Security Groups Assignment. Provides the ability to assign or unassign a Security Group to a customer, so that customer details will be protected based on the privileges for the assigned security group. See: Security Groups Assignment
- Tasks - Displays the Customer Tasks window for the customer displayed in the Customer Dashboard. See: Tasks

Customer Information

The Customer Information area of the Customer Dashboard includes contact information and other details about the customer.

Figure 4-5 Customer Information

Customer Detail

Prefix: Mr

Organization Type: Organization Type

Customer Locations

Signup Location: 51516

A customer image, if provided, is displayed in the top left of this panel.

To edit the customer image:

1. Under the customer image, click **Edit Image**. This displays a dialog for uploading an image.

   Figure 4-7 Edit Customer Image

   
   Edit Customer Image

   Drop a new image here or click to upload

   Or via URL

2. Select an image and drag it into the top box. Alternatively, you can enter a URL for the image file in the or via URL field, and click **Upload**.

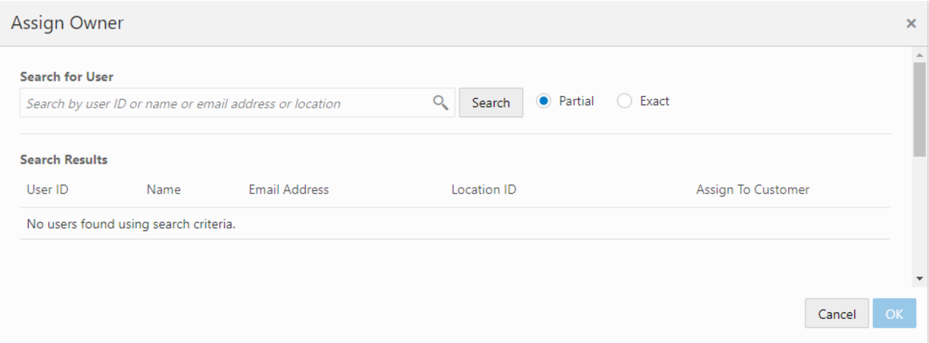
3. When you have selected the new image file, click OK.
4. For all other items, enter the information in the fields that need updating and click **OK**.

Customer Detail information includes the following:

Customer Details

- **Language** – The customer's preferred language (required).
- **Class** – The class to which the customer belongs (required).
- **Prospect** – Indicates whether the customer is a prospect.
- **Rent** – Indicates whether the customer name can be rented to other companies for prospecting efforts.
- **Prefix** – Prefix to the customer name.
- **First Name** – First name for the customer.
- **Second First Name** – A second first name for the customer, if provided.
- **Middle Name** – Middle name or middle initial for the customer.
- **Last Name** – Last name for the customer.
- **Second Last Name** – A second last name for the customer, if provided.
- **Suffix** – Suffix to the customer name.
- **Business Name** – Name of the business associated with the customer.
- **Organization Name** – Name of the organization associated with the customer.
- **Organization Type** – Type of organization associated with the customer.
- **Owner ID -** Used to control the associate able to assign one or more security groups to a customer. Do the following to add an Owner ID:
    1. Click the Owner ID **Assign Owner Add** icon. Result: The Assing Owner window appears.

Figure 4-8 Assign Owner



User ID	Name	Email Address	Location ID	Assign To Customer
No users found using search criteria.				

    2. In the Search for User field, enter the **User ID**, **Name**, **Email Address**, or **Location** of the user you want to search for. Click **Partial** to search for users that partially match the search text, or click **Exact**, to search for an exact match.
    3. Click **Assign** for the user you wish to assign to the customer.

4. When you are finished assigning a user, you can either click **OK** to close the window and save the changes or click **Cancel** to close the window without saving the changes.

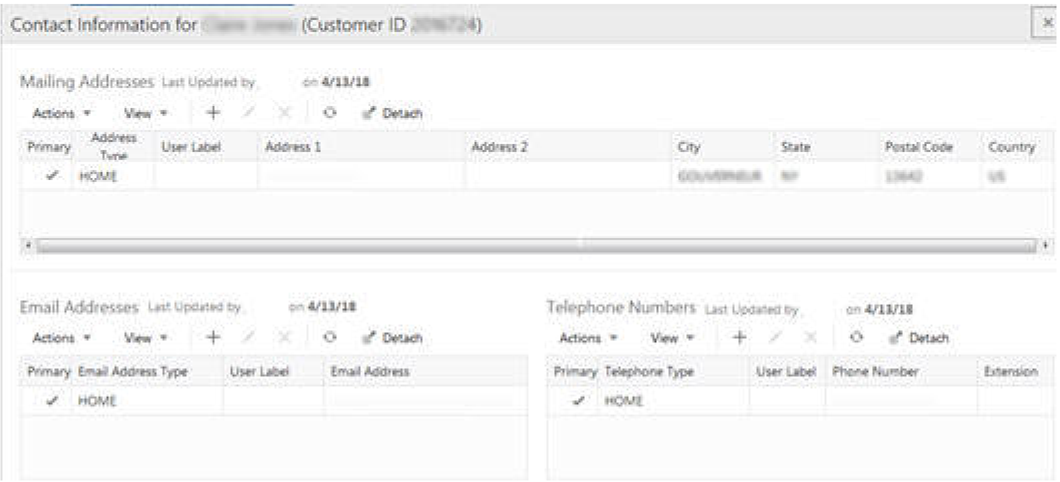
> **Note:**
>
> Click **Unassign** to remove an existing user assigned to a customer. This enables you to assign a new user. Each customer can only have one user assigned as an owner.

- **Birth Date** – Date of birth of the customer.
- **Gender** – Customer gender.
- **Education Level** – Highest level of education completed by the customer.
- **Marital Status** – Current marital status of the customer.
- **Anniversary** – Customer anniversary date.
- **Ethnicity** – Customer ethnicity.
- **Annual Income** – Customer's annual income.
- **Net Worth** – Net worth of the customer.
- **Signup Location** – Location where the customer signed up.
- **Home Location** – Home location for the customer.
- **Contact Permissions** – The methods by which the customer has given permission to be contacted. Check the box next to each allowed method.
- **Card Detail** – Details on card associated with the customer

Editing Customer Contact Information

To edit the customer's contact information, click the Edit icon next to Contact Information. This opens an editable Contact Information panel.

Figure 4-9 Edit Customer Contact Information



Contact Information for [redacted] (Customer ID [redacted])

Mailing Addresses Last Updated by on 4/13/18

Primary	Address Type	User Label	Address 1	Address 2	City	State	Postal Code	Country

✓	HOME		[redacted]	

Customer Contact information includes the following:

- **Mailing Addresses** - All mailing addresses of the customer.
- **Email Addresses** - All email addresses of the customer.
- **Telephone Numbers** - All telephone numbers of the customer.

Add, Edit, or Delete a Mailing Address:

To create a new mailing address:

1. In the Contact Information editing panel under Mailing Addresses, choose **Create Address** from the Actions menu, or click the **Add (+)** icon. This opens a Create Address dialog.

Figure 4-10 Create Address Dialog

(Please select)
Cancel
OK

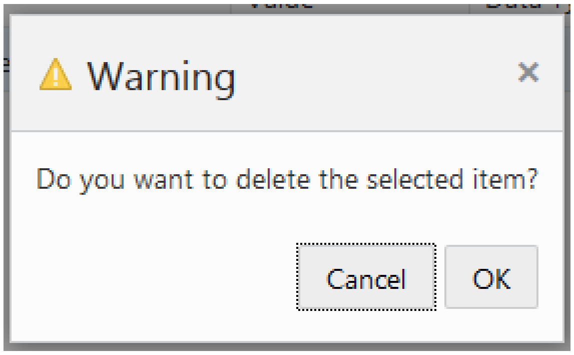
2. Enter the information for the new address (see Step 2 in Editing a Mailing Address) and click **OK**. The new address is displayed at the top of the Mailing Address list, because the Primary flag is automatically defaulted when adding a new mailing address.

   The Primary field for any address that was previously the primary address is de-selected.

To delete a mailing address:

1. In the Contact Information editing panel under Mailing Addresses, select the address you want to delete.
2. Choose **Delete Address** from the Actions menu, or click the **Delete** icon. This displays a Warning message:

Figure 4-11   Warning



Warning
Cancel
OK

Do you want to delete the selected item?

3. In the Warning message, click **OK**. The address is deleted from the Mailing Addresses list.

To edit a mailing address:

1. In the Contact Information editing panel under Mailing Addresses, choose **Edit Address** from the Actions menu, or click the **Edit** icon. This opens an Edit Address dialog:

Primary ☑

* Country [redacted]

* Address Type HOME

Address 1 [redacted]

Contact (Please select)

2. Edit the information for the address (see Step 2 in Editing a Mailing Address) and click **OK**. The edited information is displayed in the Mailing Addresses list.

   If the Primary check box for the address that you are editing was selected, the Primary check box is disabled in the Edit Address dialog. If the Primary check box for the address that you are editing was not selected, the Primary check box is enabled in the Edit Address dialog. To set an address as the new Primary address, select the Primary check box when editing.

The Create and Edit Mailing Address dialogs display the following information:

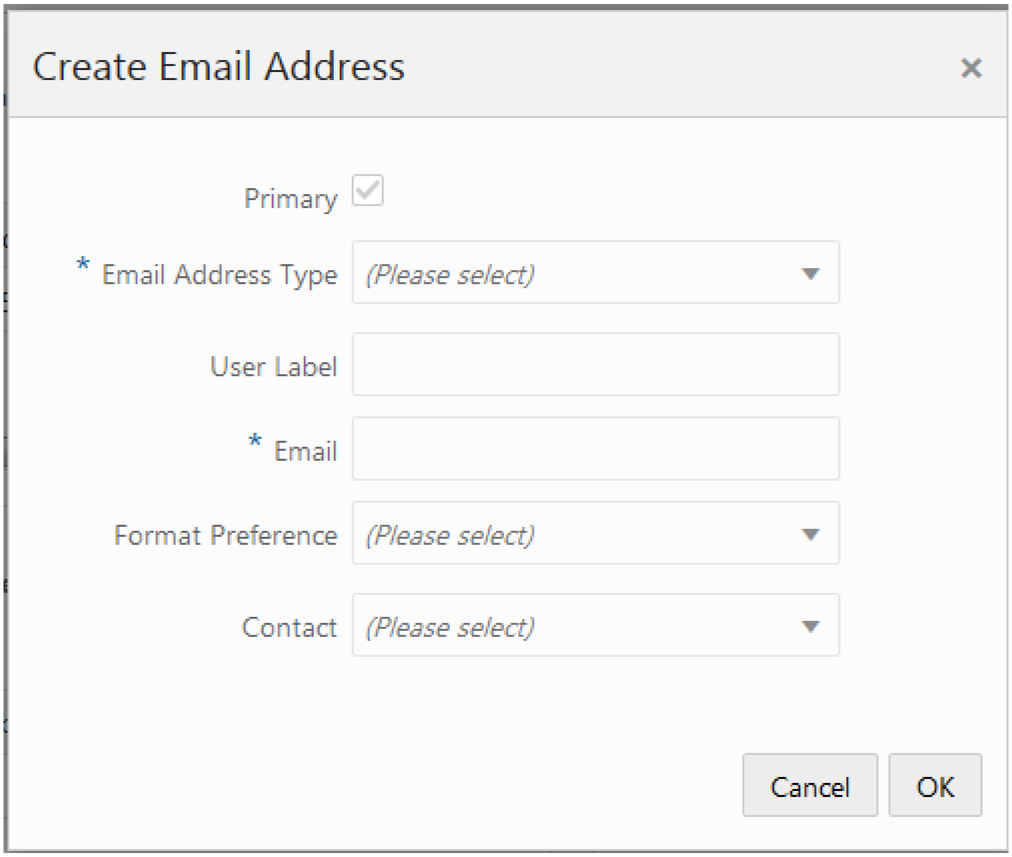
- **Primary** – Indicates whether this is the primary address for the customer.
- **Country** – The country for the customer address. Select a country from the drop-down list (required).
- **Address Type** – Indicates the type of address, such as Home or Business. Select a type from the drop-down list (required).
- **User Label** – User label for the address.
- **Address 1-4** – The street number in the address. You can enter up to four addresses, for example, suite or office number.
- **Apartment** – The apartment number, if applicable.
- **City** – The city for the customer address.
- **State** – The state for the customer address.
- **Postal Code** – The postal code for the customer address (required).
- **County** – The County for the customer address.
- **Contact** – The contact rule for the address. Select a contact preference from the drop-down list.

Add, Edit, or Delete an Email Address:

To create a new email address

1. In the Contact Information editing panel under Email Addresses, choose **Create Email Address** from the Actions menu, or click the **Add** icon. This displays a Create Email Address dialog:

Figure 4-13 Create Email Address Dialog



Create Email Address
×
Primary ☑
* Email Address Type (Please select)

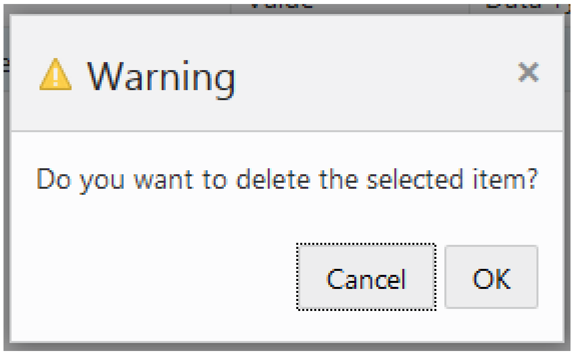
2. Enter the information for the new email address (see Step 2 in Editing an Email Address) and click **OK**. The Primary flag is automatically defaulted when adding a new email address, so the new email is displayed at the top of the Email Addresses list.

   The Primary field for any email that was previously the primary email is de-selected.

To delete an email address:

1. In the Contact Information editing panel under Email Addresses, select the email you want to delete.
2. Choose **Delete Email Address** from the Actions menu, or click the **Delete** icon. This displays a Warning message:

Figure 4-14 Warning



Warning
×
Cancel
OK

Do you want to delete the selected item?

3. In the Warning message, click **OK**. The email is deleted from the Email Addresses list.

To edit an email address:

1. In the Contact Information editing panel under Email Addresses, select the email address you want to edit, and choose **Edit Email Address** from the Actions menu, or click the **Edit** icon. This opens an Edit Email dialog.

Primary ☑

* Email Address Type: HOME

User Label:

* Email:

Format Preference: Text

Contact: (Please select)

2. Edit the information for the email address (see Step 2 in Editing an Email Address)) and click **OK**. The edited information is displayed in the Email Addresses list.

   If the Primary check box is selected for the email address being edited, the Primary check box is disabled in the Edit Email Address dialog. If the Primary check box is not selected for the email address being edited, the Primary check box is enabled in the Edit Email Address dialog. To set an email address as the new primary email address, select the Primary check box when editing.

The Create and Edit Email Address dialogs display the following information:

- **Primary** – Indicates whether this is the primary email address for the customer.
- **Email Address Type** – The type of email address, for example, Home or Business. Select a type from the drop-down list (required).
- **User Label** – User label for the email address (required).
- **Email** – The email address (required).
- **Format Preference** – The preferred file format for receiving email messages. Select a format from the drop-down list.
- **Contact** – The contact rule for the email address. Select a contact preference from the drop-down list.

Add, Edit, or Delete a Telephone Number

To create a new telephone number:

1. In the Contact Information editing panel under Telephone Numbers, choose **Create Telephone** from the Actions menu, or click the **Add** icon. This opens a Create Telephone dialog.

Figure 4-16 Create Telephone Dialog

Primary ☑

* Telephone Type: HOME

User Label:

* Phone Number: [redacted]

Extension:

Contact: *(Please select)*

2. Edit the information for the number (see Step 2 in Editing a Telephone Number) and click **OK**. The edited information is displayed in the Telephone Numbers list.

   If the Primary check box is selected for the telephone number being edited, the Primary check box is disabled in the Edit Telephone dialog. If the Primary check box is not selected for the telephone number being edited, the Primary check box is enabled in the Edit Telephone dialog. To set a telephone number as the new Primary telephone number, select the Primary check box when editing.

The Create and Edit Telephone dialogs display the following information:

- **Primary** – Indicates whether this is the primary telephone number for the customer.
- **Telephone Type** – The type of telephone number, for example, Home or Business. Select a type from the drop-down list (required).
- **User Label** – User label for the telephone number.
- **Phone Number** – The telephone number, including area code (required).
- **Extension** – The telephone number extension, if applicable.
- **Contact** – The contact rule for the telephone number. Select a contact preference from the drop-down list.

Viewing Customer Details and Contact Information

If you have read-only access, you will see the **View** icon in the Customer Information panel instead of the **Edit** icon.

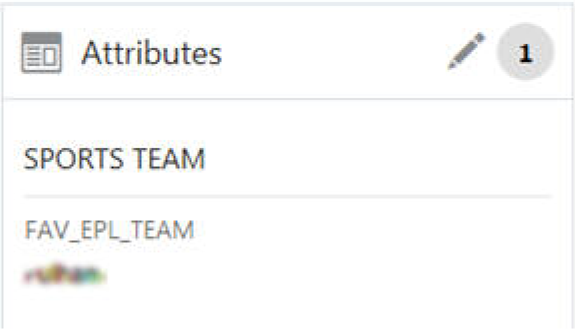
- To view both customer details and contact information, click the View icon at the top of the Customer Information panel.
- To view just customer contact information, click the View icon at the top of the Contact Information section.
- To view just customer details, click the View icon at the top of the Customer Details section.

  See the previous sections for more information on the fields displayed in View mode.

Attributes

The Attributes panel of the Customer Dashboard displays all the attributes and attribute values associated with the customer:

Figure 4-19 Customer Attributes



- A badge with the total number of attributes assigned to the customer is displayed on the right side of the title bar, as in figure 4-19, above.
- An Edit icon is displayed next to the badge as in as in figure 4-19, above. This lets you access controls for editing, creating and deleting attributes.

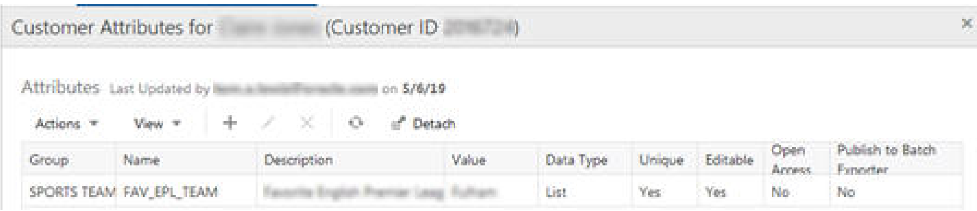
- The Customer Attribute section contains the following information for each customer attribute:
    - Group - The group associated with the attribute.
    - Name - The name of the attribute.
    - Value - The value set for the attribute.
    - Description - Description of the information provided by the attribute.
- The name of the attribute appears above the attribute value.
- If attributes are assigned to a group, those attributes are sorted by group, and the group name is displayed above the attributes.
- Scroll bars are available if the number of attributes do not fit in the display area of the panel.
- If there are no attributes assigned to the customer, a pop-up appears indicating `No Attributes assigned`.

Creating an Attribute

1. Click the **Edit** icon at the top of the Attributes panel.

   This displays a window with details of the customer's attributes:

Figure 4-20 Customer Attributes Details



Customer Attributes for [redacted] (Customer ID [redacted])

Attributes Last Updated by [redacted] on 5/6/19

Group	Name	Description	Value	Data Type	Unique	Editable	Open Access	Publish to Batch Exporter
SPORTS TEAM	FAV_EPL_TEAM	[redacted]	[redacted]	List	Yes	Yes	No	No

The following controls are available in the toolbar:

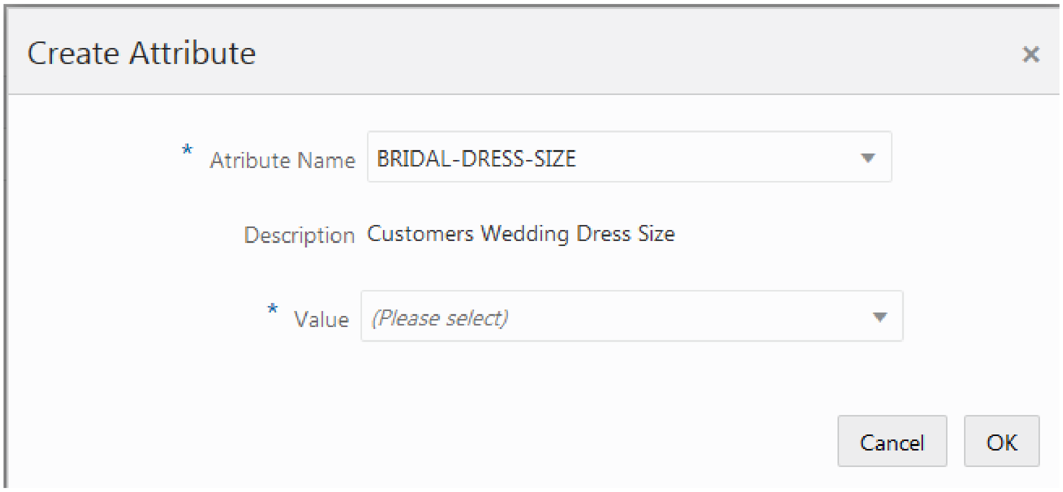
- **Actions menu** – The Actions menu has options that correspond to the Add, Edit, and Delete icons.
- **Add icon** - Displays a dialog that lets you create a new customer attribute
- **Edit icon** - Displays a dialog that lets you edit a selected customer attribute.
- **Delete icon** - Deletes a selected customer attribute.

  The following information is displayed for each attribute:
    - Group – The group associated with the attribute.
    - Name – The name of the attribute.
    - Description – Description of the information provided by the attribute.
    - Value – The value set for the attribute.
    - Data Type – The type of data contained in the attribute value.
    - Unique - Only one value can be added to the attribute when it is identified as unique.

   - Editable - Identifies whether the associate is allowed to edit the value for the attribute once it is added.
   - Open Access – Indicates whether there is open access to this attribute.
   - Publish to Batch Folder – Indicates whether the attribute has been made available for export to a marketing system such as Responsys.

2. Click **Add**, or click the **Actions Menu** and select **Add**. This displays the Create Attribute dialog:

Figure 4-21 Create Attributes Dialog



* Atribute Name BRIDAL-DRESS-SIZE

Description Customers Wedding Dress Size

* Value (Please select)

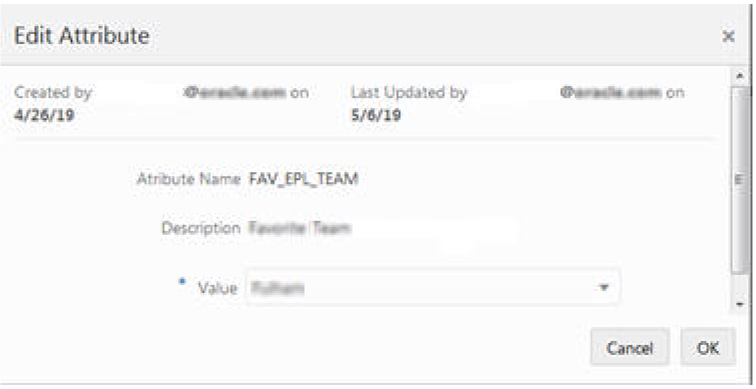
3. Select a **name** from the Attribute Name list.
4. Select a **value** from the Value list.
5. Click **OK**. This adds the new attribute to the list of attributes for the customer

Editing an Attribute

1. Click **Edit** at the top of the Attributes panel.
2. Select the **attribute** that you want to edit.
3. Click **Edit** at the top of the detail window, or choose **Edit** from the **Actions** menu.

   This displays an Edit Attribute dialog with details of that attribute:

Figure 4-22 Edit Attribute Dialog



Created by [redacted] on 4/26/19

Last Updated by [redacted] on 5/6/19

Atribute Name FAV_EPL_TEAM

Description [redacted]

* Value [redacted]

4. Select a new **Value** for the Attribute form the list in the Value field.
5. Click **OK** to accept the value. The attribute is displayed with the new value.

Deleting an Attribute

1. Click **Edit** at the top of the Attributes panel.

   This displays a window with details of the customer's attributes:
2. Select the **attribute** that you want to delete.
3. Click **Delete**, or click the **Actions Menu** and select **Delete**. This displays a Warning message:

   Figure 4-23 Warning

   
   Do you want to delete the selected item?

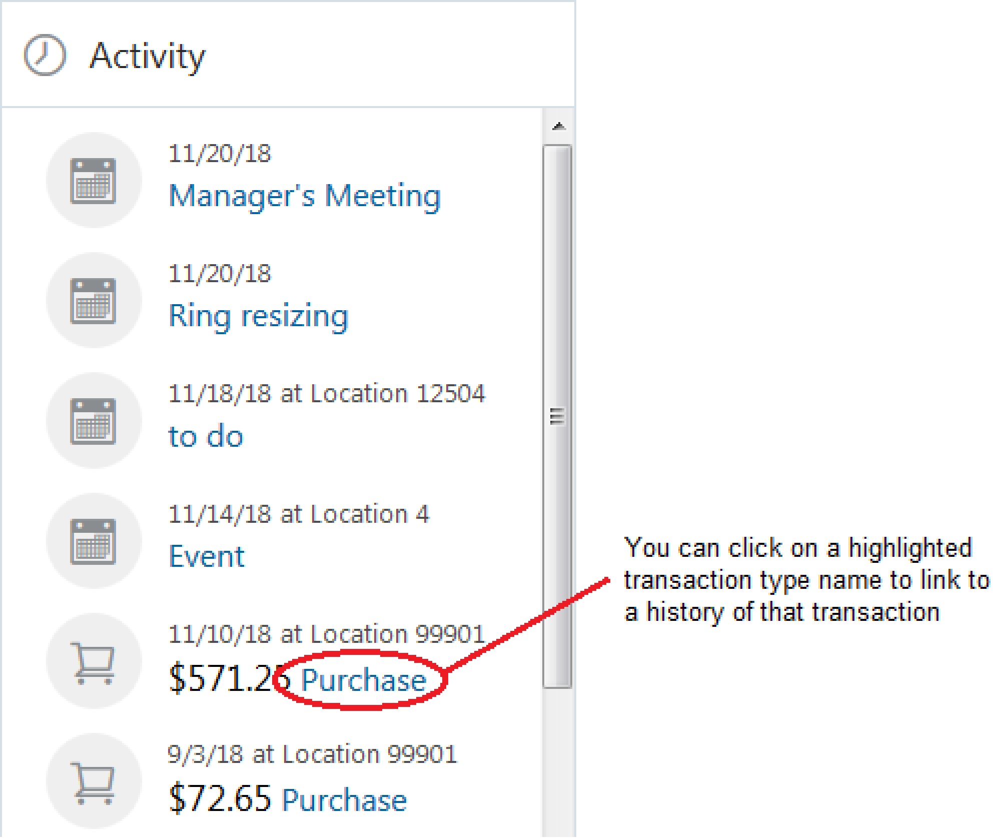
4. Click **OK** to verify that you want to delete the message.
5. When you are finished adding, editing or deleting customer attributes, click **Done**, to return to the Customer Dashboard.

Activity

The Activity panel of the Customer Dashboard provides quick access to transactions and other activities pertaining to a customer.

- This panel displays current and future tasks, and after those, the past 25 activities, which include tasks and retail transactions.
- The user can view the tasks associated with the customer only if they have the appropriate user roles for task access.
- The activity stream is sorted by the most recent first.
- Scroll bars are available if the number of activities do not fit in the display area of the panel.
- If there are no activities to show for the customer, an image with No Activity available to display displays.

Figure 4-24 Customer Activity



Activity

9/3/18 at Location 99901
$72.65 Purchase

You can click on a highlighted transaction type name to link to a history of that transaction

The Activity panel can display the following information, depending on the type of activity:

- The date of the activity.
- The name of the activity.
- The location where the activity occurred, if available.
- The total amount of a transaction, such as a purchase.

Item Purchase History

In the Activity panel as shown in Figure 4-24, if the activity is a transaction such as a purchase, return, or void, you can link to the item purchase history details by clicking the highlighted transaction type name.

> **Note:**
>
> You can also link to the Item Purchase History from the Purchase Profile by clicking a colored area in the bar chart, or by clicking the View All Purchases link. See **Purchase Profile**.

Filters

You can use the fields in the Filters panel to search for specific items by the following criteria:

- **Item Keyword** – Enter a keyword in the item description to filter for items having that keyword.
- **Transaction ID** – Enter an exact Transaction ID to filter for that transaction.
- **Date Range** – Specify a date range using the calendars to search for items in that date range.
- **Unit Price** – Use the up and down arrows to specify a minimum and maximum unit price to filter for items in that price range.
- **Department** – The store department where the item was purchased. Select a department from the list to filter on items from that department.

  > **Note:**
  >
  > This is a client-specific hierarchy field and the name (for example, Department) will depend on the client system configuration.

- **Reset** – Click **Reset** to clear all filters. This displays all of the items purchased by the customer.

  Apply – Click **Apply** to display items filtered by the specified criteria.
- When there are more fields than can fit in the filter box, a scroll bar is provided to navigate to the hidden items.

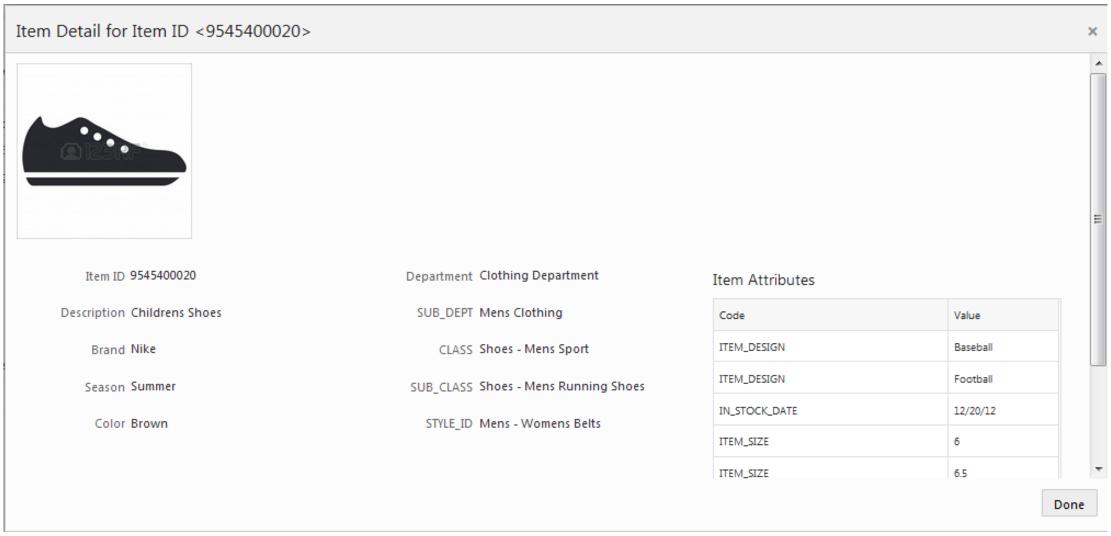
The following information is displayed for each item in the list, if available:

- Item name and number
- Purchase date and time
- Transaction ID
- SKU
- Quantity – the number of items purchased or returned
- Price – the price paid for the item
- Points –the loyalty points earned or reduced for the item purchased or returned
- Item Hierarchies for the item

Item Details

When you click a specific item in the Item Purchase History panel, the Item Detail opens:

Figure 4-26   Item Detail



Item Detail for Item ID <9545400020>

Item ID 9545400020
Description Childrens Shoes
Brand Nike
Season Summer
Color Brown

Department Clothing Department
SUB_DEPT Mens Clothing
CLASS Shoes - Mens Sport
SUB_CLASS Shoes - Mens Running Shoes
STYLE_ID Mens - Womens Belts

Item Attributes

Code	Value
ITEM_DESIGN	Baseball
ITEM_DESIGN	Football
IN_STOCK_DATE	12/20/12
ITEM_SIZE	6
ITEM_SIZE	6.5

These details for the item are displayed, if available:

- Item ID
- Description
- Brand
- Season
- Color
- Hierarchy 1-5 - These vary according to the way the customer is configured, for example, Department, SUB_DEPT, CLASS, SUB_CLASS, STYLE_ID. Only configured levels are displayed.
- Item Attributes:

  - Code
  - Value
  - If more attributes are available than can fit in the Item Attributes box, scroll bars are provided for navigation to hidden information.

Click **Done** to close the Item Detail.

Transaction Details

When clicking a specific transaction ID in the Item Purchase History panel, a Purchase Details window displays for that transaction ID.

- The popup has three tabs.
- The information is read-only.
- It displays both purchases and returns, in all three tabs, based on the selected transaction.
- All currency fields are populated based on the system base currency.
- If there is more information than can fit in the tab, scroll bars are provided for navigation to hidden information.

Click **Done** when you are finished viewing the transaction details.

Purchase Profile

The Purchase Profile panel shows the purchase pattern of the customer. Each bar in the graph represents a year. The colored bands correspond to the revenue department* (*or other entity named by the client) in which the customer purchased products during that year, measured by the amount of spending. Each year in the graph displays the top five revenue departments (or other entities named by the client).

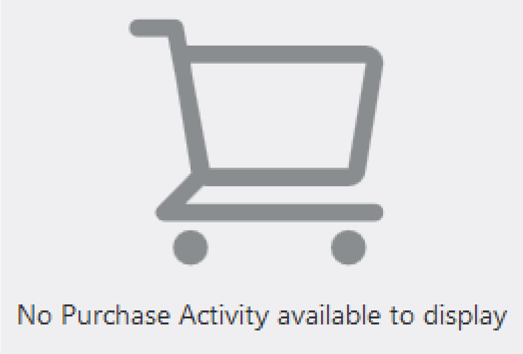
Returns

- Other revenue metrics include:
  - **Total Spend** - Shows how much the customer has spent since their first purchase to date.
  - **Profit Since** - Shows the total profit the store or chain has made since the customer's first purchase to date.
  - **Total Item Count** - Shows the total transaction (purchases minus returns) count for the lifetime of the customer. This includes all transactions, not just the ones represented in the five departments and five years displayed in the graph.
  - **Returns** - Shows the percentage of the amount of Returns to the amount of Total Spending.
- If there are no Purchase Profiles to show for the customer, an image with `No Purchase Activity available to display` appears:

Figure 4-31   No Purchase Activity Available Message



No Purchase Activity available to display

Viewing Purchase Pattern Details

Hover over a colored area in a graph to see detail information in a tool tip. This information includes:

- **Category** – The category of the purchase, such as Clothing Department.
- **Category Spend** – How much the customer spent on items in this category.
- **Classes** – The name of the classes (or client-specific hierarchy level) within the selected category.

Viewing Purchase History

Click a colored area in a bar chart to go the Item Purchase History for all the items represented in that area.

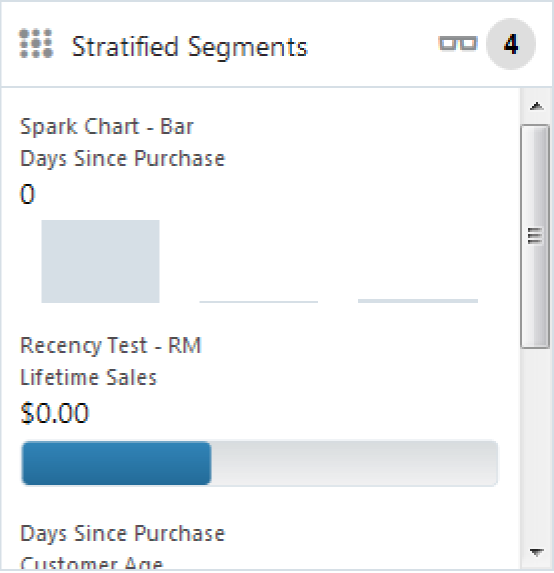
You can also click the **View All Purchases** link to go to the Item Purchase History for all items.

See **Item Purchase History** for more information.

Stratified Segments

Stratified Segments define groups of Customers. The Customers within a Stratified Segment are divided into levels within the Segment. The stratified segments to which the customer belongs are shown in the Stratified Segments panel of the Customer Dashboard.

Figure 4-32   Stratified Segments Panel



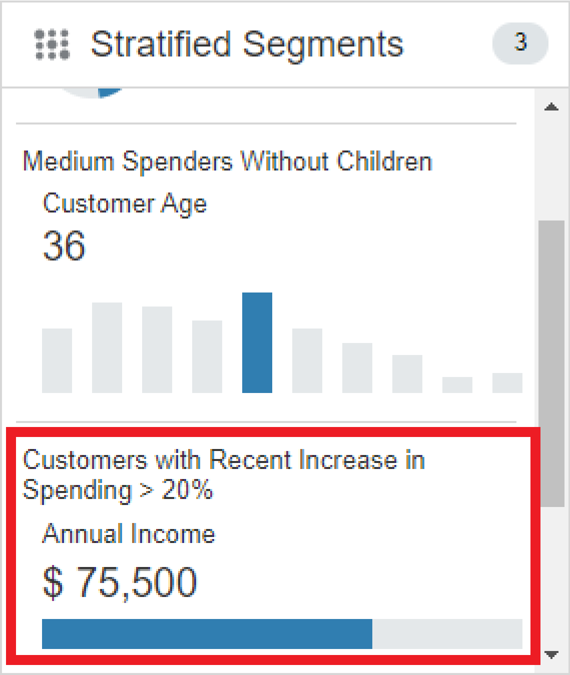
Spark Chart - Bar
Days Since Purchase
0

Recency Test - RM
Lifetime Sales
$0.00

Days Since Purchase
Customer Age

- Stratified segments classified as public are shown. If a stratified segment is classified as private, it will only be shown to the associate who created the stratified segment.
- Three types of graphs are used to represent statistics:
  - Status Meter Gauge – Horizontal, uses horizontal orientation to indicate thresholds at specific values:

Figure 4-33   Stratified Segments - Horizontal



Medium Spenders Without Children
Customer Age
36

Customers with Recent Increase in Spending > 20%
Annual Income
$ 75,500

- - Status Meter Gauge - Circular, uses circular orientation to indicate thresholds at specific values:

Customer Age

36

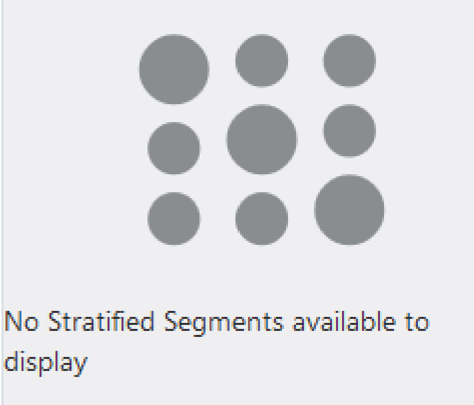
Customers with Recent Increase in Spending > 20%

Annual Income

$ 75,500

- A badge with the total number of stratified segments to which the customer belongs displays on the right side of the title bar.
- An eyeglass icon lets you view details about all the Stratified Segments to which the customer belongs. See **Viewing Customer Stratified Segments List**.
- Scroll bars are available if the number of stratified segments do not fit in the display area of the panel.
- If there are no stratified segments assigned to the customer, the following image is displayed:

Figure 4-36 No Stratified Segments Assigned Message

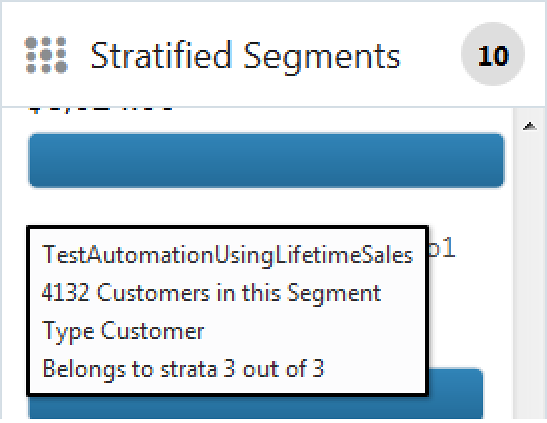


No Stratified Segments available to display

Viewing Stratified Segment Details

If you hover over a segment name in the Stratified Segments panel a tool tip is displayed:

Figure 4-37 Stratified Segments Tool Tip



TestAutomationUsingLifetimeSales
4132 Customers in this Segment
Type Customer
Belongs to strata 3 out of 3

The following information is provided:

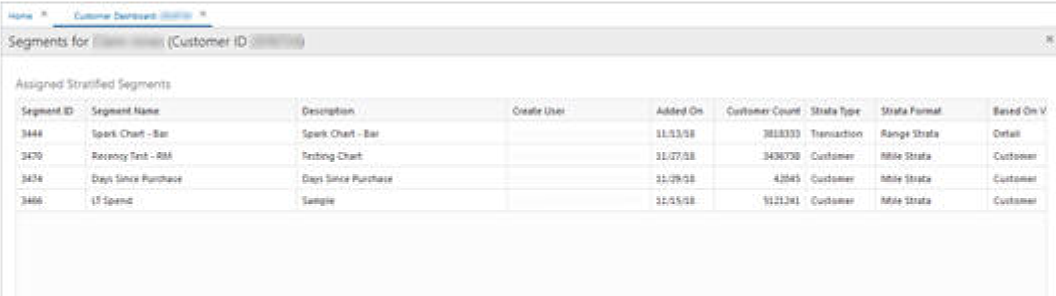
- Segment Description.

- Customer Count – Total number of customers in this segment.
- Strata Type and Based on Value:
  - Strata Type values (Customer, Loyalty, Transaction).
  - Based on Value (Header, Detail, Customer, Loyalty Summary, Loyalty Detail).
  - Type = <strata type> based on <based on value>.
- Customer Strata membership - The strata the customer falls into.

Viewing Customer Stratified Segments List

1. Click the **eyeglass** icon in the title bar. This displays the Stratified Segments for (Customer) window:

Figure 4-38 Stratified Segments for Customer



Segments for [redacted] (Customer ID [redacted])

Assigned Stratified Segments

Segment ID	Segment Name	Description	Create User	Added On	Customer Count	Strata Type	Strata Format	Based On V
3444	Spark Chart - Bar	Spark Chart - Bar		11/13/18	3818333	Transaction	Range Strata	Detail
3470	Recency Test - RM	Testing Chart		11/27/18	3436730	Customer	Ntile Strata	Customer
3474	Days Since Purchase	Days Since Purchase		11/29/18	42045	Customer	Ntile Strata	Customer
3466	LT Spend	Sample		11/15/18	5121241	Customer	Ntile Strata	Customer

This window displays the following view-only information about the stratified segments associated with the customer:

- The Customer Name and ID Number are displayed in the Segments for title bar. If there are no segments assigned, the table displays No Segments Assigned.
- Assigned Stratified Segments Grid
  - Segment ID – ID of the segment
  - Segment Name – Name of the segment
  - Description – Description of the segment
  - Create User – the user who created the segment
  - Added On – the date on which the customer was added to the segment.
  - Customer Count – the number of customers in that segment.
  - Strata Type – (Customer, Loyalty, Transaction)
  - Strata Format – the format used to create the strata. Possible values are:

    - Range Strata – Strata are determined by configured ranges

    - Ntile Strata – Strata are formed by equally sized groups of customers
  - Based on Value – the basis used for determining the Strata field (Header, Detail, Customer, Loyalty Summary, Loyalty Detail)
  - Strata Field – the field used to create the Strata

  - Average Strata Value
  - Number of Strata – the number of strata in the segment
  - Customer Strata – the strata the customer falls into
  - Customer Value
2. Click **Done**. This returns you to the Customer Dashboard.

Cards and Programs

The Cards and Programs panel of the Customer Dashboard includes information about cards held by the customer and about the programs associated with each card. Programs include Tender, Award, and Loyalty. You can assign and generate cards for the customer in this panel.

Figure 4-39 Cards and Programs

- The Customer Name and ID number are displayed in the title bar.
- Assign Card allows access to the Assign Card to (Customer) dialog. See: **Assigning a Card**.
- The following fields are displayed for a card:
  - Card Type
  - Card Number
  - Serial Number
  - Primary Card Holder (Customer Name and ID)
- Card Holders

  - Customer Image, if available, or customer initials
  - Customer Name
  - Primary Card Holder Customer Name and ID
  - Primary Card Holder icon – displayed to the right of the card holder name and ID.
  - Secondary Card Holders Image, Name and ID – There can be multiple secondary card holders
- The following fields are displayed for each program:
  - Program Name
  - Program Type – The type of program: Award, Tender, Loyalty
  - Account Number
  - Program Level – displayed for Loyalty programs only.
  - Balance
  - YTD Points – Year to Date points. This is displayed for Loyalty programs only
  - LTD Points – Lifetime to Date points. This is displayed for Loyalty programs only.
- The list is sorted by card number, where the Customer is a primary cardholder first.

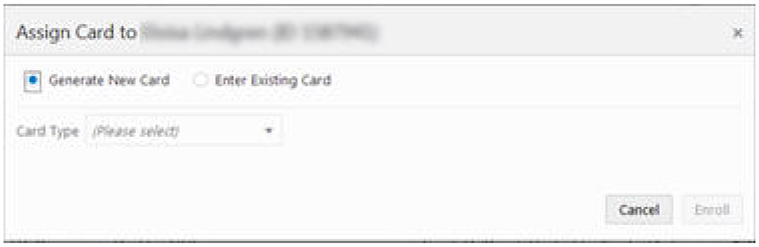
2. Click **Done** to return to the Customer Dashboard.

Assigning a Card

To assign a card:

1. Click **Assign** in the Cards and Programs panel header or click **Assign Card** in the Cards and Programs for (Customer) detail window. Either action displays the Assign Card to (Customer) dialog:

Figure 4-42 Assign Card to (Customer)



Assign Card to [redacted]

● Generate New Card ○ Enter Existing Card

Card Type: (Please select)

2. Select the **Enter Existing Card** option. This populates the dialog with Search for Card field:

Enroll

○ Generate New Card ● Enter Existing Card

No cards to display.

3. In the Search for Card field, enter the full **Card Number** or **Serial Number** of the card you want to assign. Do not use spaces.
4. Click **Search**. This populates Selected Card Details with the Card Number, Serial Number, and Primary Card Holder of the card, if one exists.
5. Click **Enroll** to assign the card to the customer. This returns you to the previous window with the new card displayed for the customer.

Generating a Card

To generate a card:

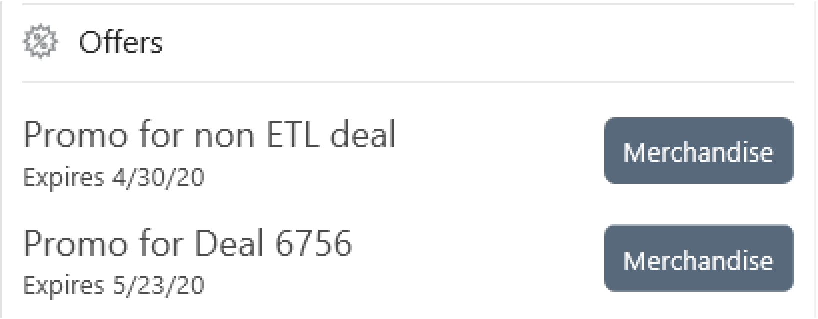
1. Click **Assign** in the Cards and Programs panel header or click **Assign Card** in the Cards and Programs for (Customer) detail window. Either action displays the Assign Card to (Customer) dialog (see Figure 4-42).
2. By default, Generate New Card is selected. Keep this selection.
3. Select a **Card Type** from the list.
4. Click **Enroll** to generate a new electronic card for the customer. This returns you to the previous window with the new card displayed for the customer.

> **Note:**
>
> : If you select a valid card series where all cards have been assigned or generated already, clicking Enroll displays a message: *No cards found for selected card type.*

Offers

An offer is part of a campaign that is intended to provide some purchase incentive to customers. These offers may provide price incentives on a specific item, or provide coupons to be redeemed during a purchase, they may be messages notifying customers of special events or pricing, or they may provide tender certificates that a customer can use at a later date The Offers panel of the Customer Dashboard shows current offers for the customer.

Figure 4-44   Offers

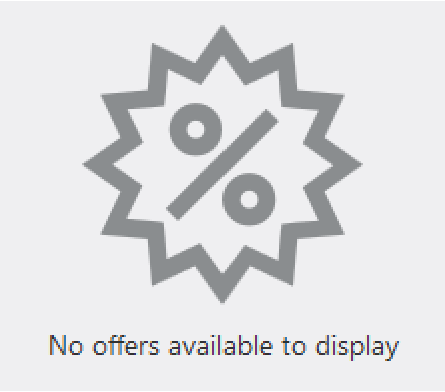


Promo for non ETL deal
Expires 4/30/20

Promo for Deal 6756
Expires 5/23/20

- A badge with the total number of offers the customer is qualified for displays on the right side of the title bar.
- The following information is displayed for each offer:
  - Offer Name
  - Expiration date – the expiration date comes from the promotion of which the offer is a part, or from the coupon expiration date, if the offer has coupons.
- The following offers are displayed:
  - Any offer within an ACTIVE, NOT EXPIRED promotion that is exclusively targeted to a segment the customer is a part of.
  - Any offer within an ACTIVE, NOT EXPIRED promotion that is NOT exclusively targeted.
  - Any offer within an ACTIVE, NOT EXPIRED promotion that is NOT targeted.
  - Any entitlement offer within an ACTIVE, NOT EXPIRED Award promotion, with an Award Program. Requires a card associated to the program for the customer.
- A maximum of 25 offers are displayed.
- The offers are sorted by expiration date in ascending order.
- Scroll bars are available if the number of offers do not fit in the display area of the panel.
- Exclusive offers are indicated with an icon next to the exclusive offer. When you hover over the icon, the text Exclusive Offer displays. Entitlements are exclusive offers. Promotional offers can be exclusive or general.
- If there are no offers assigned to the customer, the system displays the following image:

Figure 4-45   No Offers Available Message



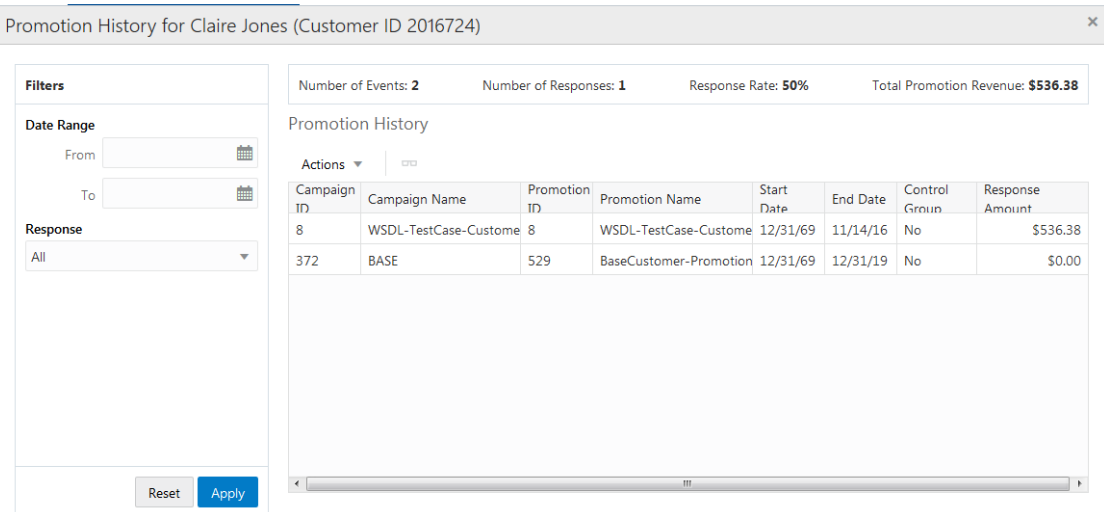
No offers available to display

- There is a View Promotion History link at the bottom of the Offers panel that provides access to the Promotion History window. See the following section, Promotion History for details.

Promotion History

When you click the **View Promotion History** link in the Offers panel or choose the **Promotion History** option from the **Actions** menu on the Customer's Dashboard, the Promotion History window is displayed.

Figure 4-46   Promotion History



Promotion History for Claire Jones (Customer ID 2016724)

Number of Events: **2**   Number of Responses: **1**   Response Rate: **50%**   Total Promotion Revenue: **$536.38**

Promotion History

Campaign ID	Campaign Name	Promotion ID	Promotion Name	Start Date	End Date	Control Group	Response Amount
8	WSDL-TestCase-Custome	8	WSDL-TestCase-Custome	12/31/69	11/14/16	No	$536.38
372	BASE	529	BaseCustomer-Promotion	12/31/69	12/31/19	No	$0.00

The Promotion History window displays metric summary information and detail information about specific promotion events for the selected customer. You can filter the list of events by date range and response type.

Filters Panel

You can filter the list of promotion events using these controls:

- Date Range – Select a date range in the From and To calendar fields to filter on promotion events in only that date range
- Response – Select a promotion response from the list to filter on one of the following response types:
  - All
  - None
  - Generated Revenue

Click **Apply** to apply the filter, or **Reset** to clear the filter.

Promotion History Panel

The Promotion History panel lists the filtered promotion events and summarized metrics for the set of events. The following information is provided:

- Metrics:
  - Number of Events – The number of promotion events that have been available to the customer within the date range of the search.
  - Number of Responses – The number of promotions to which the customer has responded within the date range of the search.
  - Response Rate – The percentage of available promotions to which the customer has responded within the date range of the search.
  - Total Promotion Revenue – The total revenue received from customer responses to promotions within the date range of the search.
- The following information is displayed in the Promotion History table for each event:
  - Campaign ID
  - Campaign Name
  - Promotion ID
  - Promotion Name
  - Start Date
  - End Date
  - Control Group
  - Response Amount
- The Promotion History list is sorted by Response Amount in descending order (highest value first).
- If there are no promotions for the customer, the message No Promotions Available to Display displays.

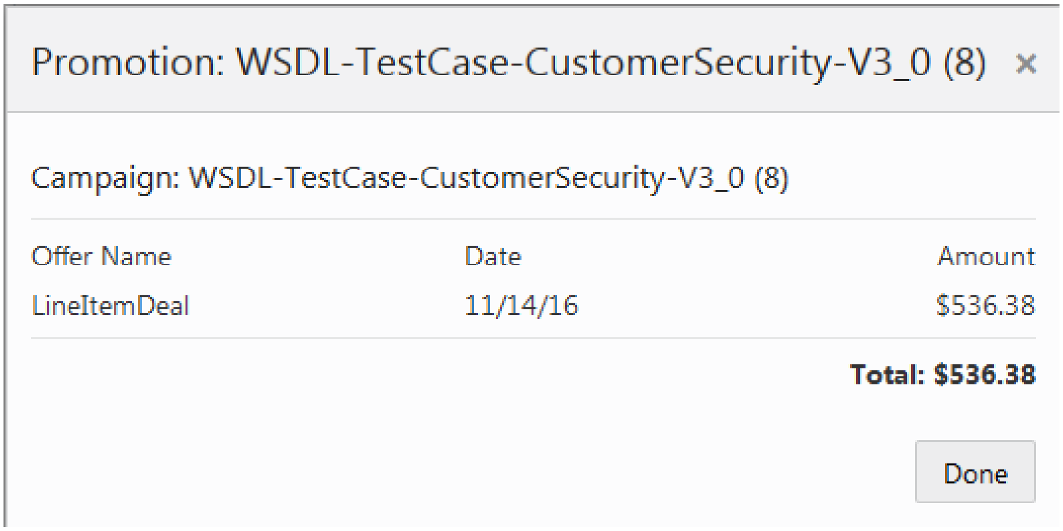
Viewing Promotion Event Detail

You can see more detail about an event in a view-only window following these steps:

1. Select the event in the grid that you want to view.
2. From the Actions menu, choose View, or click the View icon.

This displays the event in a view-only window:

Figure 4-47 Promotion Event Detail



Promotion: WSDL-TestCase-CustomerSecurity-V3_0 (8)

Campaign: WSDL-TestCase-CustomerSecurity-V3_0 (8)

Offer Name	Date	Amount
LineItemDeal	11/14/16	$536.38

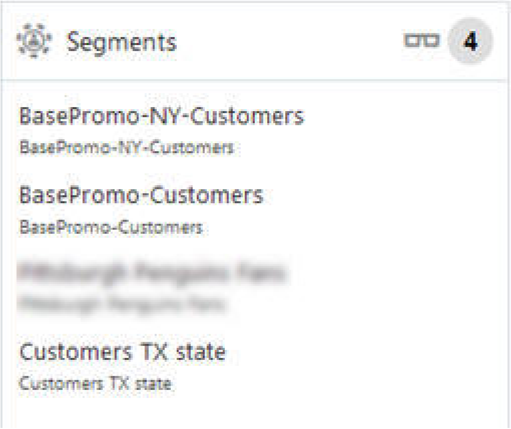
Total: $536.38

3. Click **Done**. This returns you to the Promotion History window.
4. To return to the Customer Dashboard, click **Done**.

Segments

The Segments panel displays the unstratified segments to which the customer belongs.

Figure 4-48 Customer Segments



BasePromo-NY-Customers
BasePromo-NY-Customers

BasePromo-Customers
BasePromo-Customers

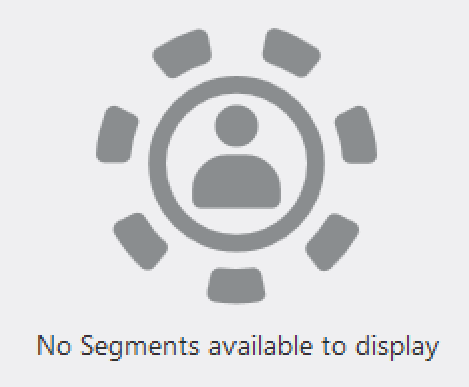
[redacted]

Customers TX state
Customers TX state

- An eyeglass icon lets you view details about all the Segments to which the customer belongs. See Viewing Customer Segments
- A badge with the total number of segments to which the customer belongs displays on the right side of the title bar.
- The following information is displayed for each segment:

  - Segment Name
  - Segment Description
- If a segment is designated as private, it is only displayed for the user who created it.
- Scroll bars are available if the number of segments do not fit in the display area of the panel.
- If there are no segments assigned to the customer, the following image is displayed:

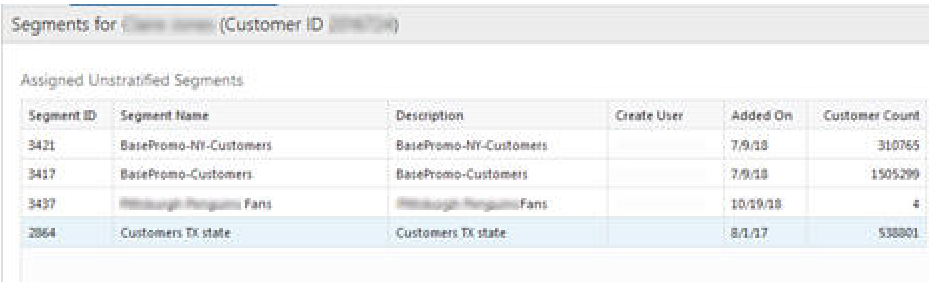
Figure 4-49 No Segments Available Image



Viewing Customer Segments

1. Click the **Eyeglass** icon in the title bar. This displays the Segments for (Customer) window:

Figure 4-50 Segments for Customer



Segments for [redacted] (Customer ID [redacted])

Assigned Unstratified Segments

Segment ID	Segment Name	Description	Create User	Added On	Customer Count
3421	BasePromo-NY-Customers	BasePromo-NY-Customers	[redacted]	7/9/18	310765
3417	BasePromo-Customers	BasePromo-Customers	[redacted]	7/9/18	1505299
3437	[redacted] Fans	[redacted] Fans	[redacted]	10/19/18	4
2864	Customers TX state	Customers TX state		8/1/17	538801

This window displays the following view-only information about the segments associated with the customer:

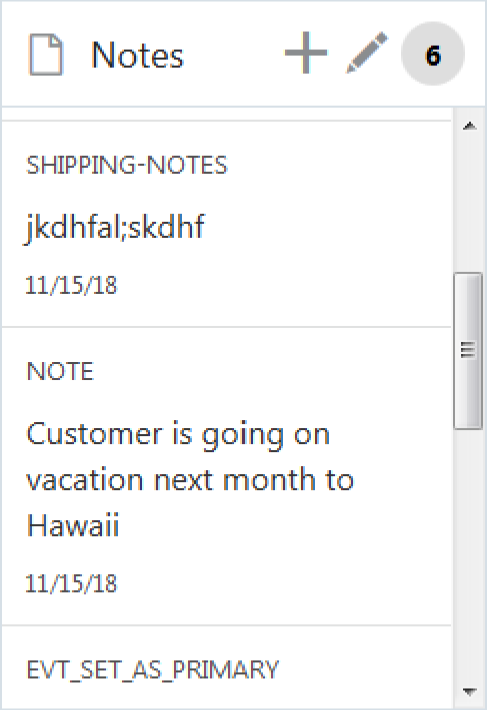
- The Customer Name and ID Number are displayed in the Segments for title bar. If there are no segments assigned, the title displays No Segments Assigned.
- Assigned Unstratified Segments Grid

  - Segment ID – ID of the segment.
  - Segment Name – Name of the segment.
  - Description – Description of the segment
  - Create User – the user who created the segment.
  - Added On – the date on which the customer was added to the segment.
  - Customer Count – The number of customers in that segment.
2. Click **Done**, to return to the Customer Dashboard.

Notes

The Notes panel of the Customer Dashboard provides information about the last 25 Notes written about the Customer.

Figure 4-51 Notes



SHIPPING-NOTES

jkdhfal;skdhf

11/15/18

NOTE

Customer is going on vacation next month to Hawaii

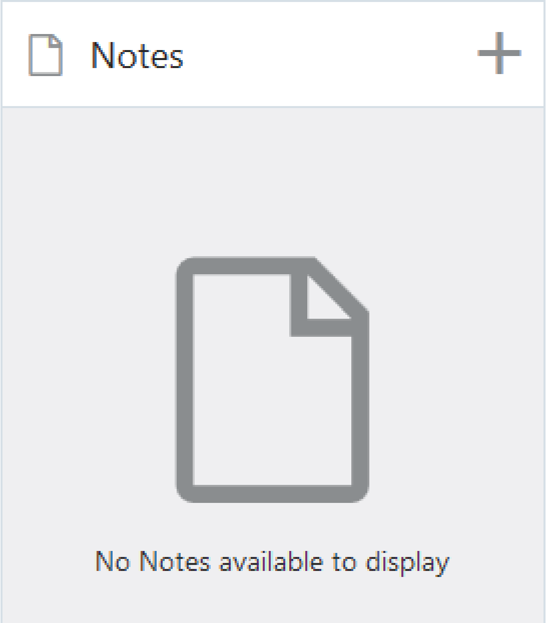
11/15/18

EVT_SET_AS_PRIMARY

- A badge with the total number of notes for the customer displays on the right side of the title bar.
- The following information is displayed for each note:
  - The note type.
  - The first three lines of the note.
  - The date the note was created.
  - The user name of the person who create the note.

- If a note is marked as private, the details of the note are masked to all associates except for the note creator or an associate with the System Administrator role.
- A maximum of 25 notes are displayed.
- The notes are sorted by update date in descending order.
- Scroll bars are available if the number of notes do not fit in the display area of the panel.
- Notes created within a task do not appear on the list.
- If there are no notes created for the customer, the following image is displayed:

Figure 4-52 No Notes Available Message



No Notes available to display

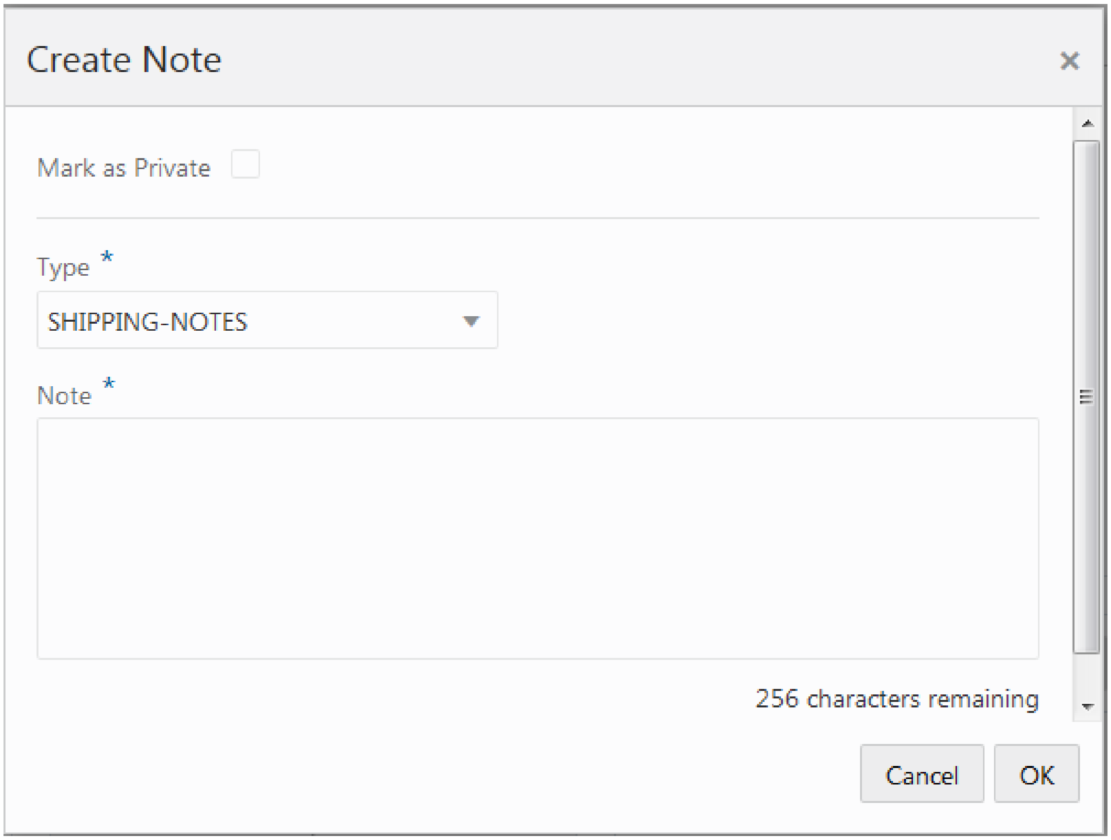
Create a Note

To add a note about the customer, use one of these methods to display the Create Note window:

- Click the **Add + icon** in the top right corner of the Notes panel.
- Click the **Edit** icon in the top right corner of the Notes panel to display the Notes for Customer list, and use either action:
  - Click the **plus sign** in the toolbar
  - From the Actions menu, choose **Add**.

Any of the following actions display the Create Note window:

Figure 4-53 Create Note



Mark as Private ☐

Type *
SHIPPING-NOTES

Note *

256 characters remaining

To create a note:

1. If you want the note to be private, select **Mark as Private**, otherwise, leave it de-selected.
2. Select a **note type** from the Type list.
3. Enter a note of up to 256 characters in the Note field.
4. Click **OK** when you are finished to save the note. Click **Cancel** if you do not want to add the note.

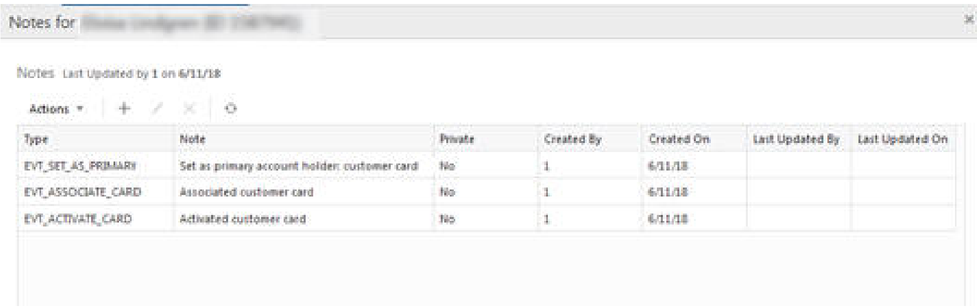
Edit a Note

You can edit notes that are listed in the Notes panel of the Customer Dashboard.

To edit a note:

1. Click the **Edit** icon at the top of the Notes panel. This displays a Notes for (Customer) window that lists the notes stored for the selected customer.

Figure 4-54   Notes for (Customer)



Notes for [redacted]

Notes Last Updated by 1 on 6/11/18

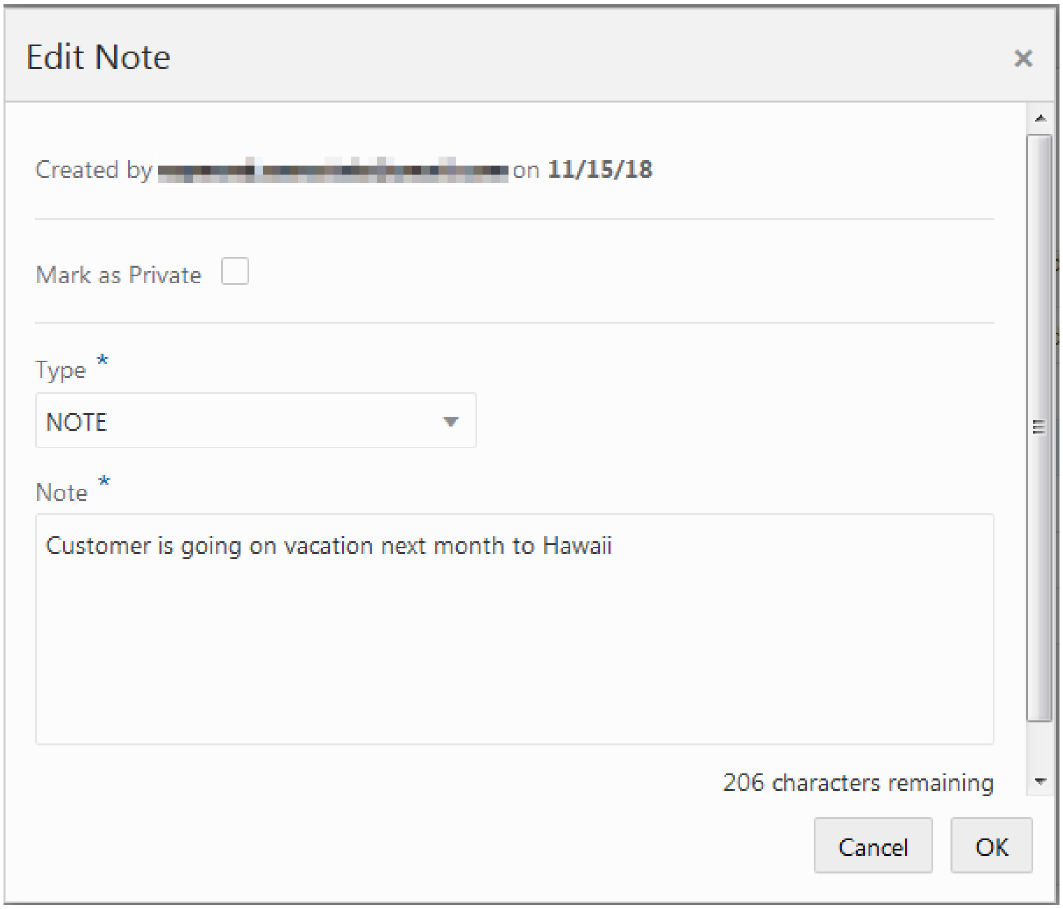
Type	Note	Private	Created By	Created On	Last Updated By	Last Updated On
EVT_SET_AS_PRIMARY	Set as primary account holder: customer card	No	1	6/11/18		
EVT_ASSOCIATE_CARD	Associated customer card	No	1	6/11/18		
EVT_ACTIVATE_CARD	Activated customer card	No	1	6/11/18		

The Notes for (Customer) window provides the following information and features:

- The title bar displays the Customer Name and ID
- The user that last updated the notes and the date they were last updated is displayed beneath the title bar.
- The toolbar and actions menu provide commands to Add, Edit, and Delete a note
- The notes grid displays the following about each note:
  - Type – the type of note
  - Note – the text of the note
  - Private – indicates whether the note is private (can be seen only by the note's author or system administrators) Yes/No
  - Created By – the ID of the user who created the note
  - Last Updated By –the ID of the user who last updated the note
  - Last Updated On – the date the note was last update
- The Note list is sorted by the Last Updated On date in descending order, by default. If there is no Last Updated On date, the Created On date is used.
- If there is more information than can be displayed on the window, scroll bars are provided to navigate to hidden information.

2. Select the **note** in the grid that you want to edit, and click the **Edit** icon, or choose **Edit** from the Actions menu. This displays the note in the Edit Note window:

Figure 4-55 Edit Note



Created by [redacted] on **11/15/18**

Mark as Private ☐

Type *

NOTE

Note *

Customer is going on vacation next month to Hawaii

206 characters remaining

3. You can change any of following:

   Mark as Private – Select the check box to ensure that only the note's author and system administrators can see it, or de-select if you do not want to restrict access.

   Type – Select a different type from the list.

   Note – Edit the text of the note.

4. When you are finished editing the note, click **OK** to save the changes or click **Cancel** if you do not want to save the changes. Either action returns you to the Notes for (Customer) window.

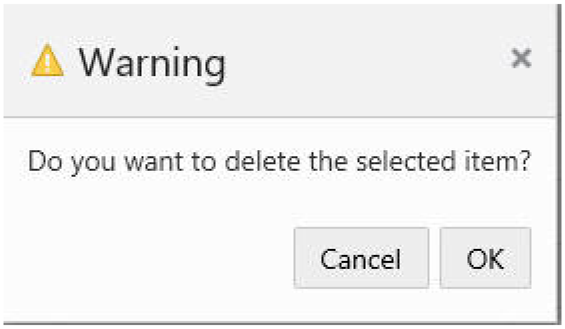
Delete a Note

You can delete a note in the Notes for (Customer) window.

To delete a note:

1. Select the note in the grid that you want to delete, and click the **Delete** icon, or choose **Delete** from the Actions menu. This displays a Warning message:

Figure 4-56 Warning Message



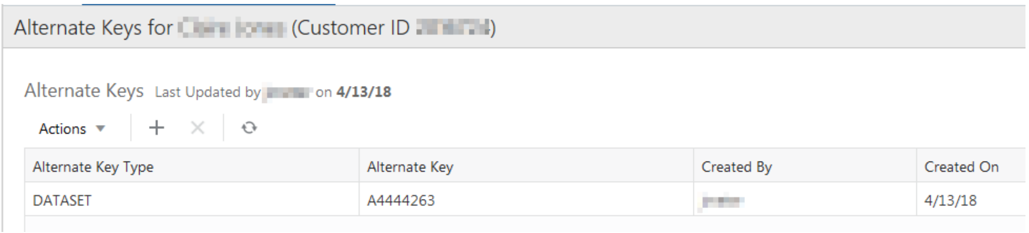
Do you want to delete the selected item?

2. Click **OK** to delete the note, or **Cancel**, if you do not want to delete the note.
3. Either action returns you to the Notes for (Customer) window. If you chose **OK**, to delete the note, it is no longer displayed in the grid and is removed from the database.
4. Click **Done** in the Notes for (Customer) window when you are finished. This returns you to the Customer Dashboard.

Alternate Keys

Alternate keys are used to link customer accounts with other systems. Choose the Alternate Keys option on the Actions menu in the Customer Dashboard for access to the Alternate Keys page:

Figure 4-57 Alternate Keys



Alternate Keys for [redacted] (Customer ID [redacted])

Alternate Keys Last Updated by [redacted] on 4/13/18

Alternate Key Type	Alternate Key	Created By	Created On
DATASET	A4444263	[redacted]	4/13/18

The Alternate Keys window offers the following information and features:

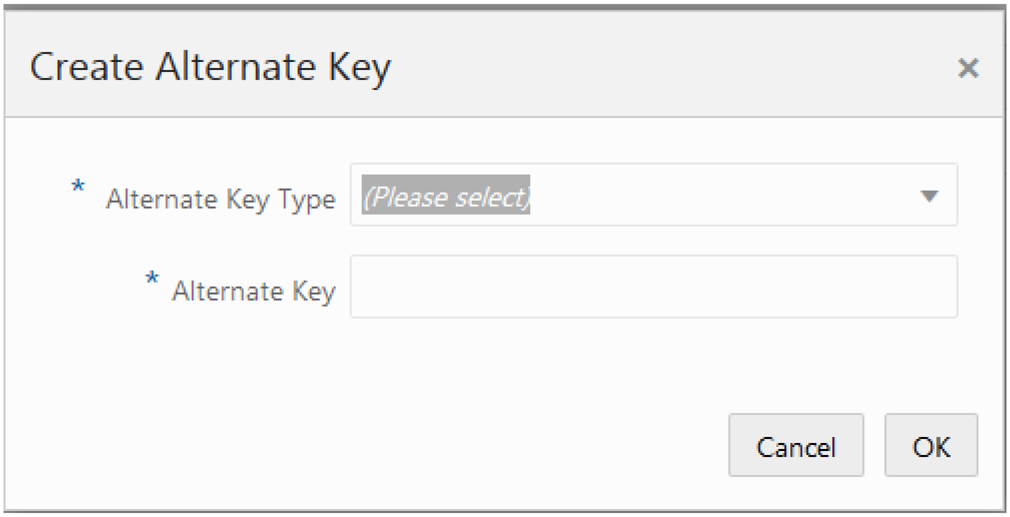
- The customer name and ID
- The user who last updated the window and the date it was last updated
- The Actions menu and corresponding icons let you Add and Delete alternate keys.
- Alternate Key Type –The type of the alternate key (these are defined by the customer)
- Alternate Key – The value of the alternate key (the value format is defined by the customer)
- Created By – The user who created the alternate key
- Created On – The date the alternate key was created

Adding an Alternate Key

To add an Alternate Key:

1. Click the **Actions** menu in the Customer Dashboard and choose **Alternate Keys**. This displays an Alternate Keys window listing the customer's alternate keys.
2. Click the **Add+** icon, or choose **Add** from the Actions menu. This displays a Create Alternate Key window.

Figure 4-58 Create Alternate Key



3. Select an Alternate Key Type from the list.
4. Enter the **value** of the new alternate key in the Alternate Key field.
5. Click **OK** to save the new alternate key and return to the Alternate Keys window, click **Cancel** to return without saving the alternate key.

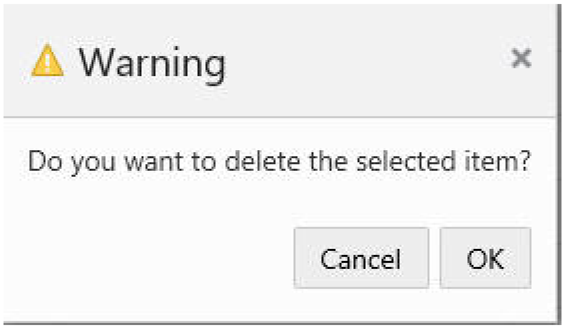
Deleting an Alternate Key

To delete an alternate key:

1. Select the alternate key that you want to delete.
2. Click the **Delete** icon, or chose **Delete** from the **Actions** menu.

   This displays a Warning message asking you to confirm that you want to delete the alternate key.

Figure 4-59 Warning



Warning

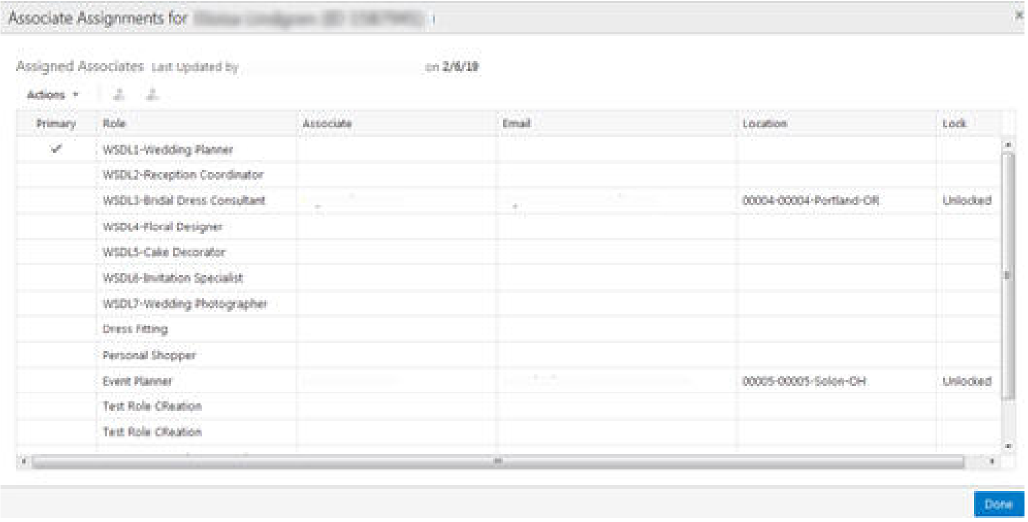
Do you want to delete the selected item?

3. Click **OK** to delete the alternate key, or **Cancel**, if you do not want to delete the alternate key.
4. Either action returns you to the Alternate Keys window. If you chose **OK**, to delete the alternate key, it is no longer displayed in the grid and is removed from the database.
5. Click **Done** in the Alternate Keys window when you are finished. This returns you to the Customer Dashboard.

Associate Assignment

The Associate Assignment page lets you add, update, or delete associates assigned to a role for a customer. Choose the **Associate Assignment** option on the **Actions** menu in the Customer Dashboard for access to the Associate Assignment page:

Figure 4-60 Associate Assignment



Associate Assignments for [redacted]

Assigned Associates Last Updated by [redacted] on 2/6/19

Primary	Role	Associate	Email	Location	Lock
✓	WSDL1-Wedding Planner				
	WSDL2-Reception Coordinator				
	WSDL3-Bridal Dress Consultant	[redacted]	[redacted]	00004-00004-Portland-OR	Unlocked
	WSDL4-Floral Designer				
	WSDL5-Cake Decorator				
	WSDL6-Invitation Specialist				
	WSDL7-Wedding Photographer				
	Dress Fitting				
	Personal Shopper				
	Event Planner	[redacted]	[redacted]	00005-00005-Solon-OH	Unlocked
	Test Role CReation				
	Test Role CReation				

The Associate Assignment window offers the following information and features:

- The customer name and ID
- The user who last updated the window and the date it was last updated

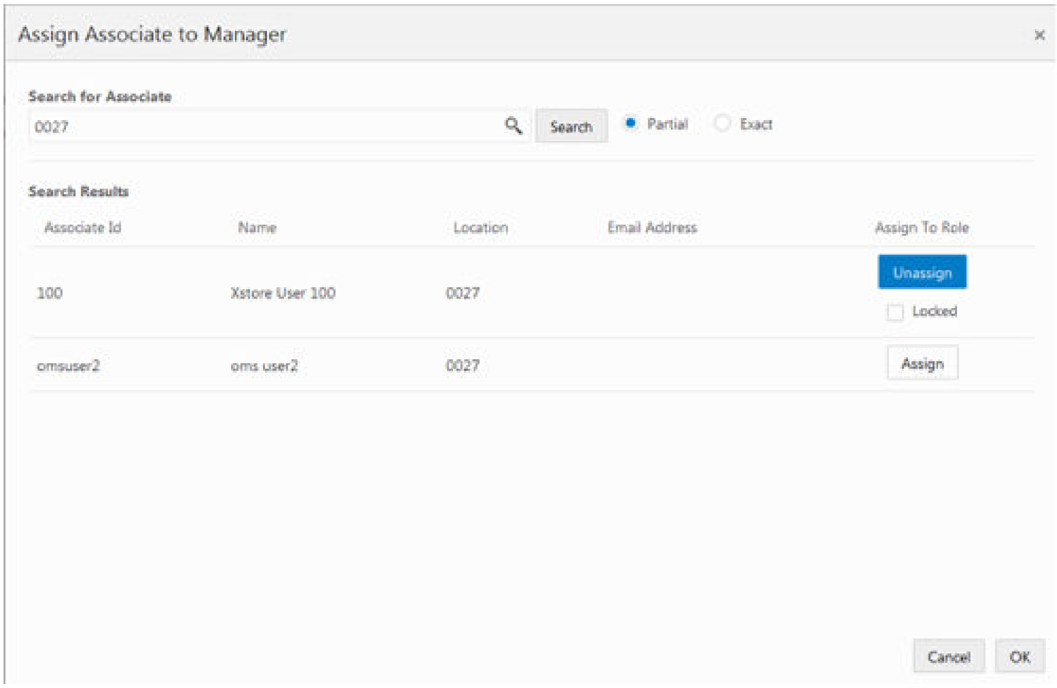
- The Actions menu and corresponding icons let you Assign and Unassign associates.
- Primary – Indicates the pre-designated Primary role, which is set by the client.
- Role – Associate Role. See the *Oracle Retail Customer Engagement Cloud Service Implementation Guide* for more information about Associate Roles
- Associate – Name of the associate
- Email – The email of the associate
- Location – ID of the associate's location
- Lock – Indicates whether the associate user assignment can be changed (Unlocked) or not changed (Locked).
  - If an associate is not assigned, this field is blank.
  - When the assignment is locked, the logged in user must be the same as the assigned user to edit or unlock the associate user assignment, with the exception of a system administrator. The system administrator can edit any assigned user.
  - If a user without the privileges to change the associate assignment attempts to do so, an error message displays: *The assignment is locked, and can only be changed by the assigned user or a system administrator.*

Assigning an Associate

To assign an associate to a role for a customer:

1. In the Associate Assignment grid, select the **role** to which you want to assign an associate.
2. From the Action menu, choose **Assign**, or click the **Assign** icon. This displays the Assign Associate dialog:

Figure 4-61 Assign Associate



Assign Associate to Manager

Search for Associate: 0027 ● Partial ○ Exact

Search Results

Associate Id	Name	Location	Email Address	Assign To Role
100	Xstore User 100	0027		Unassign ☐ Locked
omsuser2	oms user2	0027		Assign

3. In the **Search for Associate** prompt, enter the ID, Name, Location or E-mail of the associate you want to assign to the role. Select **Partial** to search on a partial entry, or **Exact**, to search for only exact matches.
4. Click **Search**. This displays the associates matching the search criteria in the Search Results grid.
5. Click **Assign** in the row of the associate that you want to assign to the role. Assign changes to **Unassign**, and the Locked check box is displayed:
6. If you want to lock the assignment so that only you and system administrators can change it, select the Locked check box. If not, leave it clear.
7. Click **OK**. This returns you to the Associate Assignments page. The associate added to the role is displayed in the assignment row.

Unassigning an Associate

To un-assign an associate from a role for customer:

1. In the Associate Assignment grid, select the **assignment** from which you want to un-assign an associate. Only one assignment can be selected to un-assign at one time.
2. From the Action menu, choose **Unassign**, or click the **Unassign** icon. This removes the associate from the role, and their information is deleted from the assignment row.
3. Click **Done** when you are finished with associate assignments. This returns you to the Customer Dashboard

Franchisee Assignment

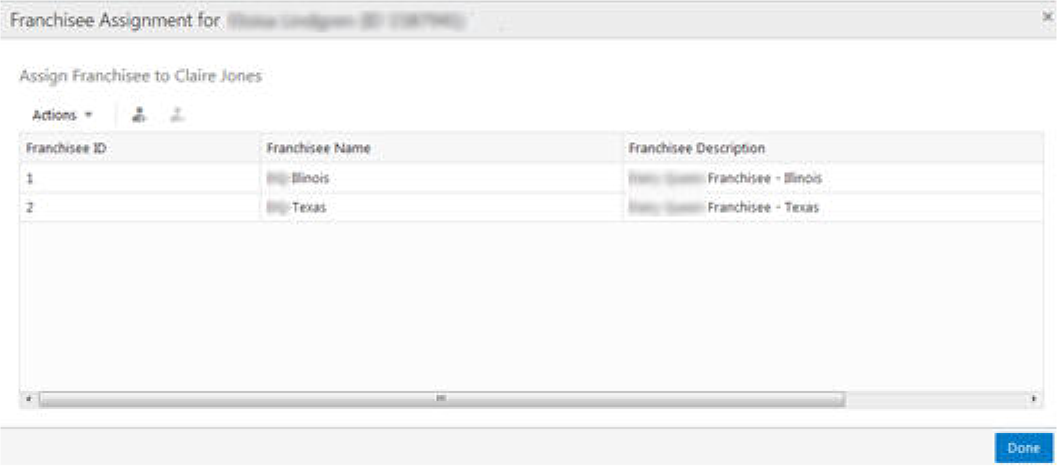
The Franchisee Assignments page displays information about the franchisees to which the customer has been assigned.

> **Note:**
>
> The Franchisee Assignment option is only displayed if the (Franchisee) user has access to more than one Franchisee.

For more information about how franchisees are initially set up and the configuration is enabled, see the Customer Engagement Cloud Services Implementation Guide

Choose the **Franchisee Assignment** option on the Actions menu in the Customer Dashboard for access to the Franchisee Assignment page:

Figure 4-62 Franchisee Assignment



Franchisee Assignment for [redacted]

Assign Franchisee to Claire Jones

Franchisee ID	Franchisee Name	Franchisee Description
1	[redacted] Illinois	[redacted] Franchisee - Illinois
2	[redacted] Texas	[redacted] Franchisee - Texas

The Franchisee Assignment page offers the following information and features:

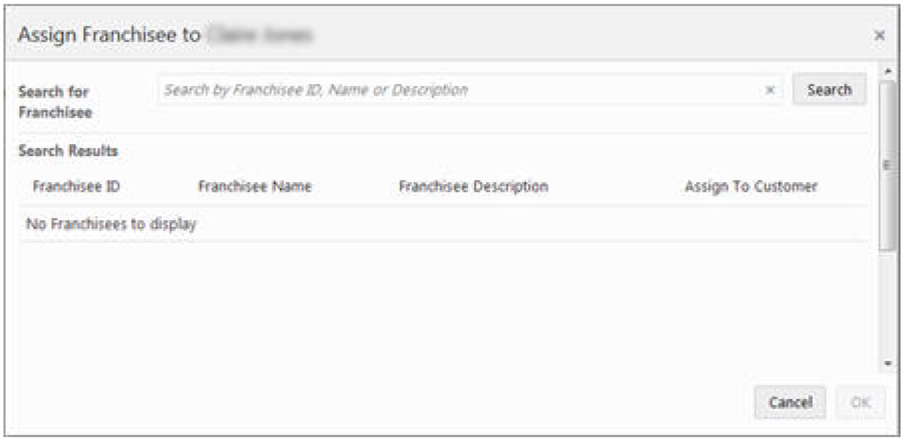
- The customer name and ID
- The user who last updated the window and the date it was last updated
- The Actions menu and corresponding icons let you Assign and Un-assign franchisees.
- Franchisee ID – ID number of the franchisee
- Franchisee Name – Name of the franchisee
- Franchisee Description – a description of the franchisee

Assigning a Franchisee

To assign a Franchisee to a customer:

1. Choose **Assign** from the Actions menu, or click the **Assign** icon. Either action displays the Assign Franchisee dialog:

Figure 4-63 Assign Franchisee



Assign Franchisee to [redacted]

Search for Franchisee: *Search by Franchisee ID, Name or Description*

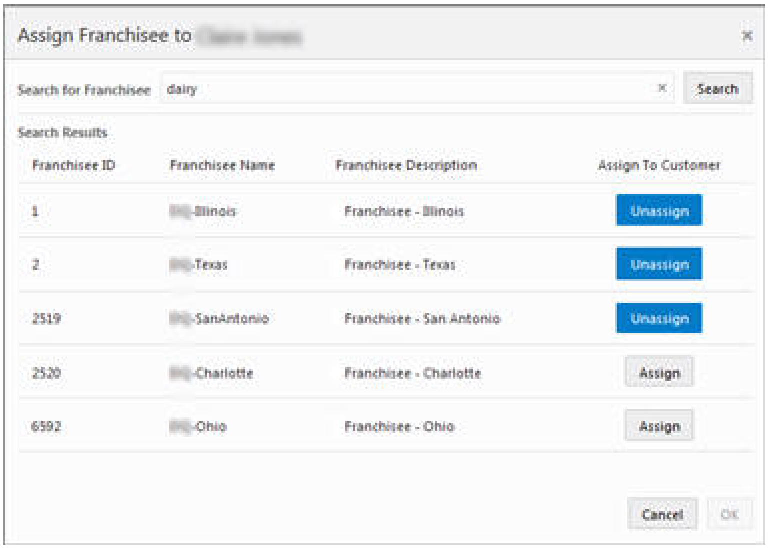
Search Results

Franchisee ID	Franchisee Name	Franchisee Description	Assign To Customer
No Franchisees to display			

2. Enter a full or partial franchisee ID, name or description in the Search for Franchisee field and click **Search**. A list of franchisees matching the search text is displayed in the Search Results grid.

> **Note:**
>
> The only franchisees to display are those to which the associate has access.

Figure 4-64 Assign Franchisee - Results



Assign Franchisee to [redacted]

Search for Franchisee: dairy

Search Results

Franchisee ID	Franchisee Name	Franchisee Description	Assign To Customer
1	[redacted]-Illinois	Franchisee - Illinois	Unassign
2	[redacted]-Texas	Franchisee - Texas	Unassign
2519	[redacted]-SanAntonio	Franchisee - San Antonio	Unassign
2520	[redacted]-Charlotte	Franchisee - Charlotte	Assign
6592	[redacted]-Ohio	Franchisee - Ohio	Assign

3. The Search Results list all franchisees that match the search criteria to which the associate has access. If the franchisee is already assigned to the customer, Unassign is enabled. If the franchisee is not assigned, **Assign** is enabled. In the row of the franchisee that you want to assign, click **Assign**.
   - To assign a Franchisee, click **Assign**.
   - To unassign a Franchisee, click **Unassign**.
4. Click **OK** to accept the assignment or Cancel to cancel. Either action returns you to the Franchisee Assignment page. If you click **OK**, the new franchisee assignment displays in the grid.

Unassigning a Franchisee

To un-assign a franchisee:

1. In the Assign Franchisee grid, select the franchisee that you want to un-assign from the customer.

> **Note:**
>
> Only one franchisee can be selected to un-assign at a time.

2. Choose **Unassign** from the Actions menu, or click the **Unassign** icon. Either action unassigns the franchisee from the customer and deletes the franchisee from the grid.

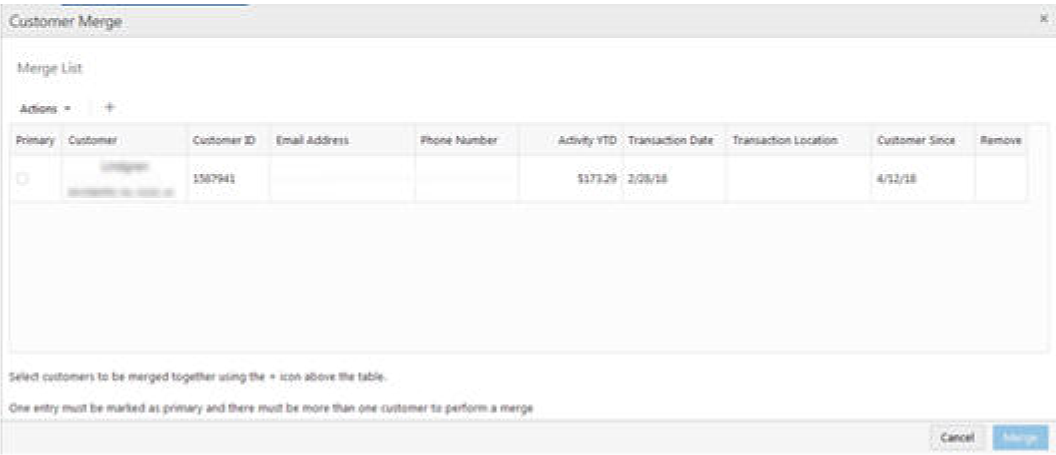
Merge

Customer Merges combine multiple Customer records into one, new Customer record. This new Customer record includes the Transaction, Card, and Account information from all the merged Customer records.

To merge customer records:

1. From the **Actions** menu in the Customer Dashboard, choose **Merge**. This displays the Customer Merge window:

Figure 4-65 Customer Merge



Primary	Customer	Customer ID	Email Address	Phone Number	Activity YTD	Transaction Date	Transaction Location	Customer Since	Remove
☐	[redacted]	1567941			$173.29	2/28/18		4/12/18	

Select customers to be merged together using the + icon above the table.

One entry must be marked as primary and there must be more than one customer to perform a merge

The Customer Merge page offers the following information and features:

- The Actions menu and corresponding icon lets you Add Customers to Merge
- Primary – when selected, indicates the primary customer.
- Customer –The customer name and address
- Customer ID
- Email Address – The customer email address
- Phone Number – The customer phone number
- Activity YTD – The amount of the customer's transactions for the year to date
- Transaction Date – The date of the last transaction
- Transaction Location – The location of the last transaction
- Customer Since – The customer creation date
- Remove – Click to remove a customer from the list.

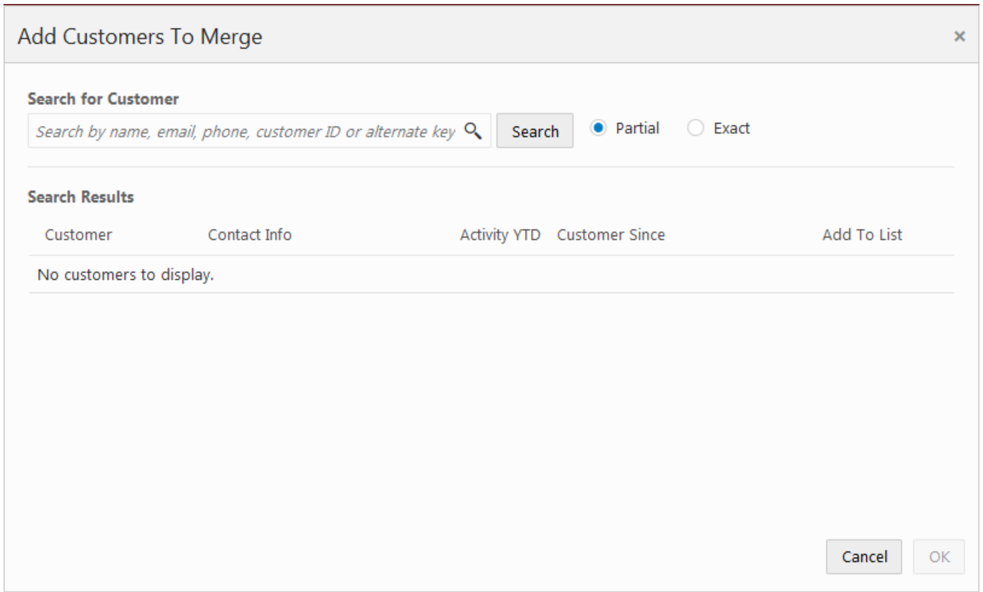
2. Click **Merge** to accept the merge, or click **Cancel** to close the window without saving.

Merging Customers

First: Add Customers to Merge

1. In the Customer Merge page, click the **Actions** menu and choose **Add Customers to Merge**, or click the **Add Customers to Merge +** icon. Either action displays the Add Customers to Merge dialog:

Figure 4-66 Add Customers to Merge

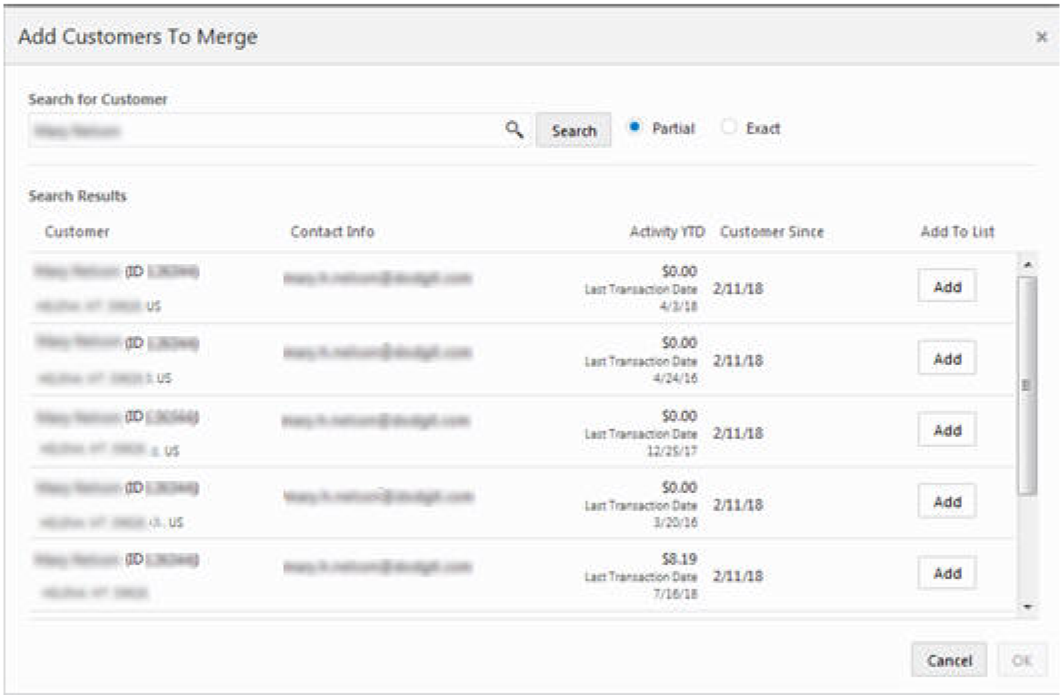


Add Customers To Merge
×
Search for Customer
Search by name, email, phone, customer ID or alternate key
Search
● Partial
○ Exact
Search Results
Customer
Contact Info
Activity YTD
Customer Since
Add To List
Cancel
OK

No customers to display.

2. In the **Search for Customer** prompt, enter the Name, Email, Phone, ID, or Alternate Key of the customer you want to add to the Merge list. Select **Partial** to search on a partial entry, or **Exact**, to search for only exact matches.
3. Click **Search**. This displays the customers matching the search criteria in the Search Results grid:

Figure 4-67 Add Customers to Merge Results



Add Customers To Merge

Search for Customer: [redacted]

Search Results

Customer	Contact Info	Activity YTD	Customer Since	Add To List
[redacted] (ID [redacted]) [redacted] US	[redacted]	$0.00 Last Transaction Date 4/3/18	2/11/18	Add
[redacted] (ID [redacted]) [redacted] US	[redacted]	$0.00 Last Transaction Date 4/24/16	2/11/18	Add
[redacted] (ID [redacted]) [redacted] US	[redacted]	$0.00 Last Transaction Date 12/25/17	2/11/18	Add
[redacted] (ID [redacted]) [redacted] US	[redacted]	$0.00 Last Transaction Date 3/20/16	2/11/18	Add
[redacted] (ID [redacted]) [redacted]	[redacted]	$8.19 Last Transaction Date 7/16/18	2/11/18	Add

The grid displays the following information for each customer:

- Customer – the customer name, ID, and primary address.
- Contact Info – the customer email address and phone number
- Activity YTD - The amount of the customer's transactions for the year to date, and the date of the last transaction.
- Customer Since – the creation date of the customer.

4. Click **Add** in the Customer row if you want to add the customer to the Customer Merge list. **Add** is replaced with **Remove**, which you can use to remove the customer.

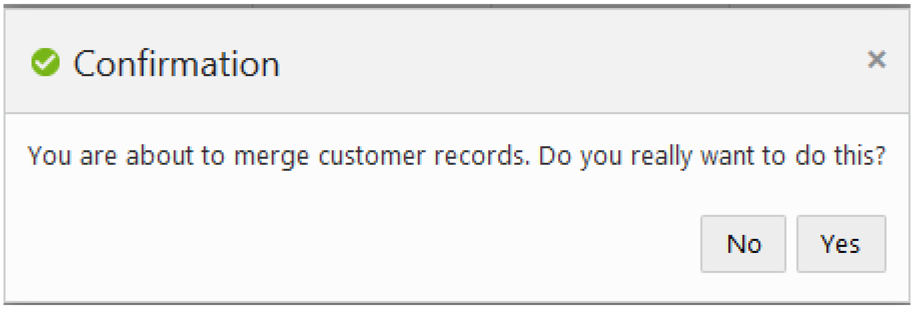
> **Note:**
>
> You can only merge up to five customers at one time.

5. Click **OK**. This returns you to the Customer Merge page with the customers added to the Merge List.

Second: Merge Customers

1. In the Customer Merge page, review the Merge List and click **Remove** to remove any customers you do not want to merge.
2. Click **Primary** in the row of the customer that you want as the primary customer.
3. Click **Merge** to display a confirmation prompt:

Figure 4-68 Confirmation



You are about to merge customer records. Do you really want to do this?

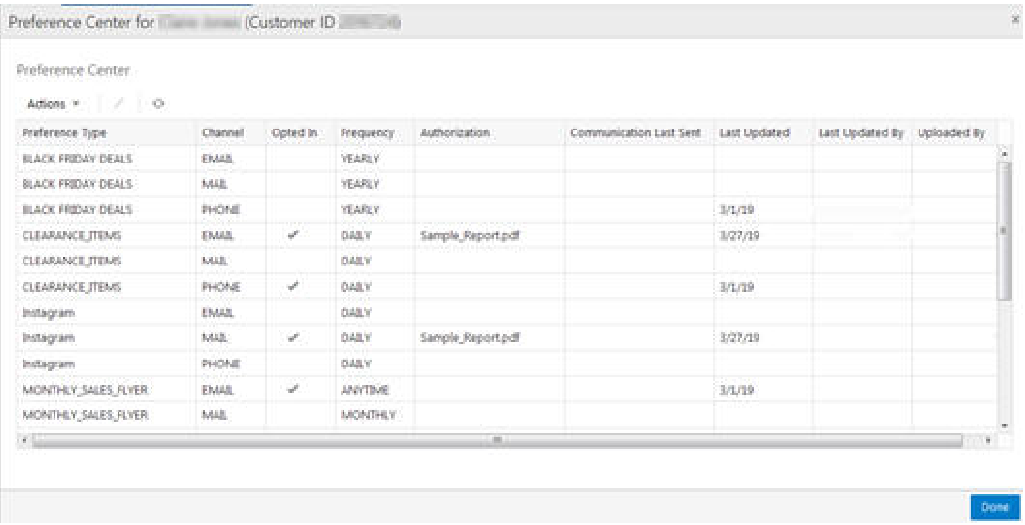
4. To merge the customer records, click **Yes**. To exit without merging the customers, either click **No** or **X**.

Preference Center

The Preference Center page displays the contact preferences for a customer. For more information about how Preference Center channels are initially set up and the configuration is enabled, see the *Oracle Retail Customer Engagement Cloud Service Implementation Guide*.

Choose the **Preference Center** option on the **Actions** menu in the Customer Dashboard for access to the Preference Center page:

Figure 4-69 Preference Center



Preference Type	Channel	Opted In	Frequency	Authorization	Communication Last Sent	Last Updated	Last Updated By	Uploaded By
BLACK FRIDAY DEALS	EMAIL		YEARLY					
BLACK FRIDAY DEALS	MAIL		YEARLY					
BLACK FRIDAY DEALS	PHONE		YEARLY			3/1/19		
CLEARANCE_ITEMS	EMAIL	✓	DAILY	Sample_Report.pdf		3/27/19		
CLEARANCE_ITEMS	MAIL		DAILY					
CLEARANCE_ITEMS	PHONE	✓	DAILY			3/1/19		
Instagram	EMAIL		DAILY

Instagram	PHONE		DAILY					
MONTHLY_SALES_FLYER	EMAIL	✓	ANYTIME			3/1/19		
MONTHLY_SALES_FLYER	MAIL		MONTHLY					

The Preference Center page offers the following information and features:

- The customer name and ID
- The Actions menu and corresponding icons let you Edit a preference.
- Preference Type – Name of the preference center. This is displayed for all the channels in a preference center.
- Channel –The communication channel

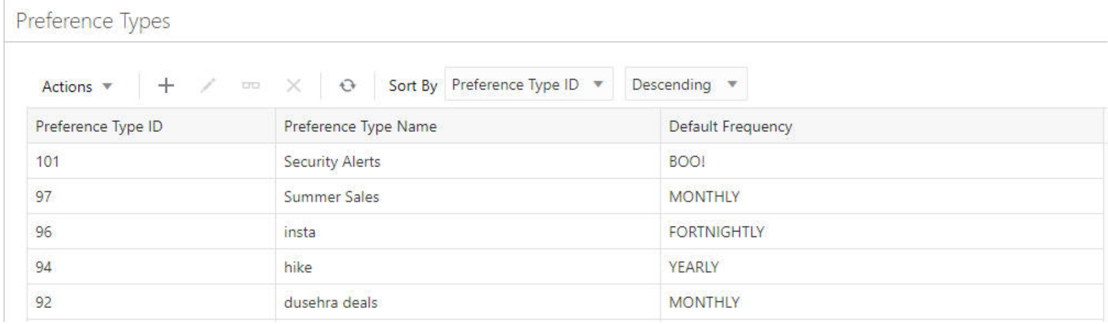
- Opted In – Indicates whether the customer has opted to be contacted through the channel. If there is a check mark in the field, then the customer is contacted through the channel.
- Frequency – The frequency at which the customer is contacted through the channel
- Authorization – Name of the file in which the customer authorized communication
- Communication Last Sent – Date the communication was last sent to the customer
- Last Updated – Date and time the channel preferences for this customer were last updated
- Last Updated By – ID of the user who last updated the channel preferences for this customer.
- Uploaded By – User who last updated the image/file. This is populated by the logged in user who uploads the latest file on the preference.

Working with Preference Types

You can refresh, sort, view, add, edit and delete preference types, so that you can setup unlimited preference types to use with the Customer Preference Center. To access Preference Types:

1. Click the **Tasks** icon.
2. Click the **Admin** Task.
3. Click the **Preference Types** Task.

Figure 4-70 Preference Types



Preference Type ID	Preference Type Name	Default Frequency
101	Security Alerts	BOO!
97	Summer Sales	MONTHLY
96	insta	FORTNIGHTLY
94	hike	YEARLY
92	dusehra deals	MONTHLY

Sorting Preference Types

You can sort by:

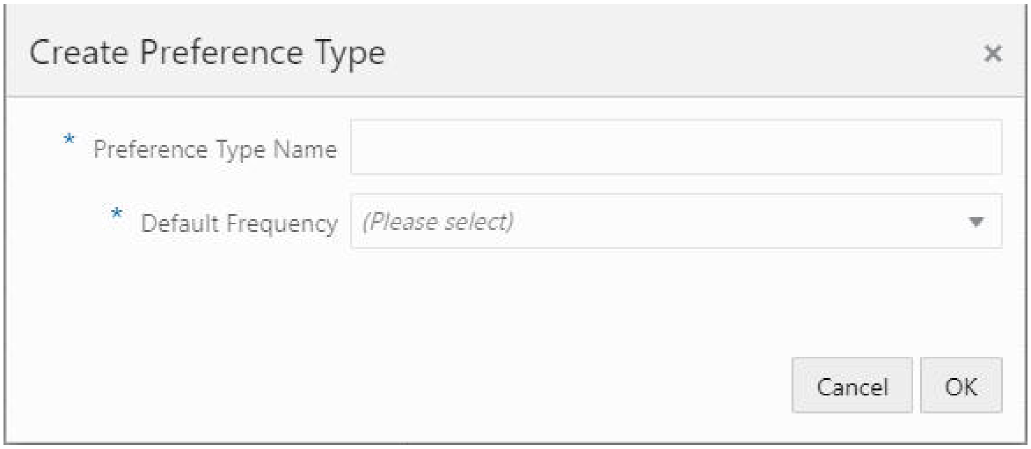
- Default Frequency
- Preference Type ID
- Preference Type Name

Preference types can be sorted ascending or descending from the list.

Adding a Preference Type

Click the **Actions** menu or the **Add** icon to open the Create Preference Type window.

Figure 4-71 Create Preference Type



Create Preference Type
×
* Preference Type Name
* Default Frequency
(Please select)
Cancel
OK

Type a Preference Type Name and choose one of the following default frequencies.

- Anytime
- Weekly
- Monthly
- Yearly
- Daily
- Fortnightly
- Quarterly

Click **OK** to add the new Preference Type. Click Cancel to close the window.

> **Note:**
>
> Preference types are configured values and they may vary from what is listed. Contact your system administrator for more information.

Editing a Preference Type

Highlight the row of the Preference Type you want to edit and click the Actions menu or the Edit icon to open the Edit Preference Type window.

Figure 4-72   Edit Preference Type

View the details of the Preference Type and click **Done** to close the window.

Deleting a Preference Type

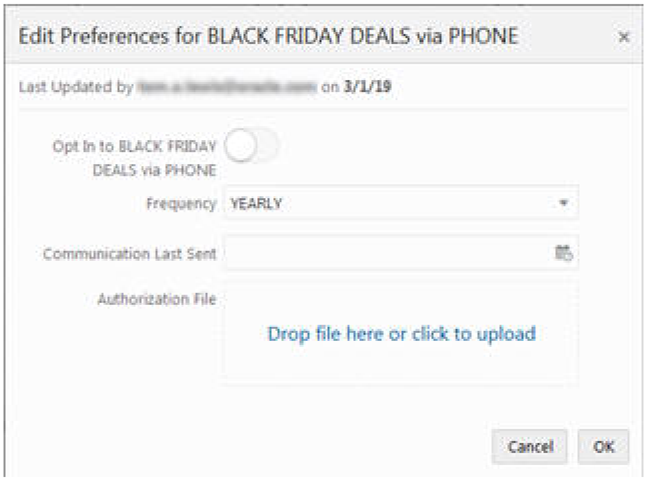
Highlight the **row** of the Preference Type you want to delete and click the **Actions** menu, then click **Delete**, or click the **Delete** icon to open the delete confirmation window. Click **OK** to delete the Preference Type or **Cancel** to close the window without deleting the row.

Editing a Preference

To edit a Preference:

1. In the Preference Center grid, select the preference that you want to edit.
2. From the Actions menu, choose **Edit**, or click the **Edit** icon. This displays the Edit Preference dialog:

Figure 4-74 Edit Preferences



Edit Preferences for BLACK FRIDAY DEALS via PHONE

Last Updated by [redacted] on 3/1/19

Opt In to BLACK FRIDAY DEALS via PHONE

Frequency: YEARLY

Communication Last Sent

Authorization File

3. Edit the fields that you want to change:
   - **Opt In to** – Click to the on position to indicate that the customer accepts communication from this channel, or click off, to indicate the customer does not want communication.
   - **Frequency** – Select the frequency with which the customer receives communication from this channel.
   - **Communication Last Sent** – Click the date in the calendar on which communication from the channel was last sent.
   - **Authorization File** – Drag and drop a file authorizing the communication, or click in the field to search for a file to upload.
4. Click **OK**. This returns you to the Preference Center page.

Security Groups Assignment

You the ability to assign or unassign a Security Group to a customer, so that customer details will be protected based on the privileges for the assigned security group.

Choose the **Security Groups Assignment** option on the **Actions** menu in the Customer Dashboard for access to the Security Groups page.

Figure 4-75 Security Groups

TODO	to do	11/16/18	11/18/18	IN_PROGRESS	
EVENT	Event	11/13/18	11/14/18	OPEN	

The Tasks page offers the following information and features:

- The customer name and ID
- The user who last updated the window and the date it was last updated
- The Search panel lets you search for a task or task note by term
- The Actions menu and corresponding icons let you Add, Edit, View, and Reassign a task
- Task Type – The type of task. These are configured by the customer. See the `Oracle Retail Customer Engagement Cloud Services Implementation Guide` for information about configuring custom Task types
- Task Name – A name for the task that was entered by the user who created the task
- Start Date – The start date of the task
- End Date – The end date of the task
- Status – The selected status of the task
- Assigned to – The associate to whom the task is assigned

Adding a Task

To add a task:

1. Choose **Add** from the Actions menu, or click the **Add** icon. This displays the Create Task window:

Figure 4-82 Create Task

OK

Name	Email Address	Phone Number	Customer ID	Alternate Key	Assign To Task
No customers to display.					

a. In the Search for Customer field, enter the **Name**, **Email**, **Phone**, **Customer ID**, or **Alternate Key** of the customer you want to search for. Select **Partial** to search for customers that partially match the search text, or **Exact**, to search for an exact match.

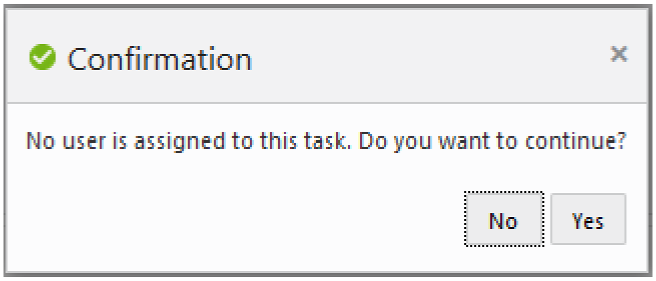
b. Click **Search**. This displays the list of matching customers under Search Results.

c. Select the customer in the list that you want to assign to the task and click **OK**, or click **Cancel** if you do not want to change the customer assignment. This returns you to the Create Task window. If you click **OK**, the Customer Name and ID for the selected customer precede the Task Details.

3. Enter the details for the new task. Mandatory fields are indicated with asterisks (*):
   - Task Type – Select a task type from the list. This list is determined by the customer.
   - Subject – Enter a subject. This will appear in the Task Name field.
   - Status – Select a status from among those on list:
     - Open – Set the status of your task to Open.
     - In Progress – Set the status of your task to In Progress
     - Cancelled – Set the status of your task to Cancelled.
     - Closed – Set the status of your task to Closed.
   - Start – Select a start date for the task from the calendar.
   - Duration – Select the duration of the task from the list (optional). Selecting one of the duration options will determine the value for the End Date/Time based on the option chosen.
   - End – If no selection was made in the Duration field, select an end date for the task using the calendar.
   - Location – Select a location from the list.
   - Priority – Select a priority level from the list. These are configured by the customer. See the Customer Engagement Cloud Services Implementation Guide for information about configuring custom Task Priority Codes.
   - Event Type – If you selected Event as the Task Type, select an Event Type from the list. For all other task types, this field is disabled.
4. Under Assigned Users, assign a user to the task. This defaults to the current logged-in user.
   - If you want to remove the current user, select the user and choose **Remove** from the **Actions** menu, or click the **Remove** icon. This clears the user from the grid.

> **Note:**
>
> If no user is assigned to the task, and you click **OK** in this window, a Confirmation prompt is displayed:

Figure 4-84 Confirmation



No user is assigned to this task. Do you want to continue?

  - Click **No** if you want to return to the Create Task window.
  - Click **Yes** if you want to create the task without a user assigned.
- If you want to add a user, remove the current user (see previous) and choose **Add** from the Actions menu, or click the **Add** icon. This displays an Add User to Task dialog:

Event Type (Please select)

No Users available to display

No Notes available to display

- The user who created the task and the date it was created are displayed at the top of the window.
- The Assigned Customer Name and ID precede the Task Details. You can change the assigned customer.
- The Task Type and Event Type fields are not editable.

3. If you want to change the customer assigned to the task, click the Edit icon next to the Assigned Customer Name and ID. This displays the Edit Assigned Customer window. See Adding a Task for more information on editing the assigned customer.
4. Modify what you want to change in the Task Details, Assigned Users, and Task Notes panels. See Adding a Task for more information on entering information in these fields.
5. Click **OK** to return to the Customer Tasks page. Or, click **Cancel** to return to the Customer Tasks page without saving any of your changes.

   If you clicked **OK** to save the changes, the Update User and Update Date are updated to that of the logged-in user and the date/time the changes were saved and displayed at the top of the Customer Tasks window.

Viewing a Task

To view a task:

1. In the Tasks List, in the Customer Tasks window (see Figure 4-81) select the task that you want to view.
2. Choose **View** from the Actions menu, or click the **View** icon. This displays the task details in view-only mode in the View Task window.
3. Review the task details. See Adding a Task for more information on the task details in these fields.

4. Click **Done** when you are finished reviewing the task details. This returns you to the Tasks page.

5

Promotions

Overview

In Customer Engagement, a Promotion defines an offer, within a Campaign, that is intended to provide some purchase incentive to Customers. These offers may be made available to all Customers, or they may be offered only to a specified subsets of Customers. These offers may provide price incentives on a specific item, they may provide coupons to be redeemed during a purchase, they may be messages notifying Customers of special events or pricing, or they may provide tender certificates that a Customer can use at a later date.

About this Chapter

This chapter contains the following information;

- Promotion Search
- Viewing a Promotion
- Creating a Coupon Promotion
  - Creating Additional Coupons
- Creating a Product Promotion
- Creating a Message Promotion
- Creating an Award Promotion
- Creating a Points for Purchase Promotion
- Creating a Points for Marketing Engagements Promotion
- Creating a Points Promotion
- Promotion Actions
- Editing a Promotion
- Duplicating a Promotion
- Promotion Scorecard
- Promotion Information - Tabs

Promotion Search

To search for a promotion use the following steps:

1. Click the **Menu** icon.
2. Click the **Campaign Task**.
3. Click the **Promotion Search Task**.

Figure 5-1 Promotion Search

4. Enter any or all of the following information to conduct a search. The Search pane contains the following filters:
   - **Promotion ID** – Returns the exact ID match of the Promotion. No partial IDs or wild cards may be used.
   - **Campaign** – Filters the list by the name of the Promotion. The default filter is all.
   - **Status** – Filters the List by the current Promotion Status. This filter has the following options:
     - **All -** [DEFAULT] Do not filter by Status; display all Statuses
     - **Approved** - Display only Approved Promotions.
     - **Clear** - Display only Promotions that have been cleared.
     - **Conflict** - Display only Promotions with conflicts.
     - **Saved** - Display only Saved Promotions.
     - **Terminated** - Display only Terminated Promotions.
   - **Type** – Filters the List by the Type of Promotion. This filter has the following options:
     - **All -** [DEFAULT] Do not filter by Type; display all Promotion Types.
     - **Award** - Display only Award Promotions.
     - **Coupon -** Display only Coupon Promotions.
     - **Message -** Display only Message Promotions.
     - **Points** - Display only Points Promotions.
     - **Points for Marketing Engagements -** Display only Points for Marketing Engagements only.
     - **Points for Purchase** - Display only Points for Purchase Promotions.
     - **Product -** Display only Product Promotions.
   - **Loyalty Bounceback Type** - Filter the list by the type of Loyalty Bounceback.

     Note: This filter is activated when the types Coupon or Product are selected. See Loyalty Bounceback for information on how to use this filter.

  - None [DEFAULT]
  - Bonus Points
  - Entitlements
- **Exported** – Filter the List by whether the promotion definition or data has been exported. This filter has the following options:
  - **All -** [DEFAULT] Do not filter by Export status; display both exported and unexported Promotions

    - **Yes** - Display only exported Promotions

    - **No -** Display only Promotions that have not been exported
- **Attribute Type** – The type of attribute.
- **Attribute Value** – This is a dynamic field based on the attribute previously entered.
- **Franchisee ID** – This Text Field searches for Promotions by the Franchisee associated with the Promotion. The Franchisee ID criteria is only visible if the `EnableFranchiseSupport` configuration is enabled. Only Franchisees associated with the user is displayed. This will default to All.
- **Coupon Code** – Coupon code associated with the Promotion.
- **Created By** – List Box with list of associates who created available Promotions. This will default to Everyone.
- **Generated** – Indicates whether the target data for the promotion has been generated.

Working with Promotion Results

The results will indicate the number of promotions found displayed in a table. Fields include:

- **Promotion Name and Campaign Name** – The promotion and campaign name. Click the name to view the Promotion Scorecard for the promotion.
- **Type** – The type of promotion.
- **Start Date** – The start date of the promotion.
- **End Date** – The end date of the promotion.
- **Offers** – The number of offers associated with the promotion.
- **Status** – The status of the promotion.
- **Exported** – Whether or not the promotion was exported.
- **Revenue LTD** – Revenue Lifetime to Date (LTD) of the promotion.

You can sort by:

- Last Update Date
- Promotion Name
- Promotion ID
- Campaign Name
- Type
- Status
- Exported
- Revenue LTD

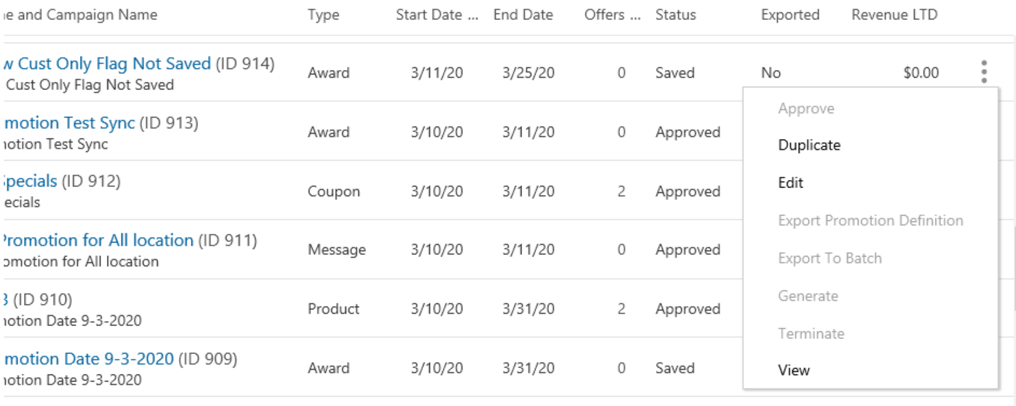
Promotion results can be sorted ascending or descending.

> **Note:**
>
> The results pane shows the first 25 results. Click the **Show More…** link to see the next 25 results.

Viewing a Promotion

There are three places that a user can find the View option in order to view a Promotion:

Figure 5-8   Overflow Menu



e and Campaign Name	Type	Start Date ...	End Date	Offers ...	Status	Exported	Revenue LTD
w Cust Only Flag Not Saved (ID 914) Cust Only Flag Not Saved	Award	3/11/20	3/25/20	0	Saved	No	$0.00
motion Test Sync (ID 913) otion Test Sync	Award	3/10/20	3/11/20	0	Approved		
pecials (ID 912) ecials	Coupon	3/10/20	3/11/20	2	Approved		
romotion for All location (ID 911) omotion for All location	Message	3/10/20	3/11/20	0	Approved		
(ID 910) otion Date 9-3-2020	Product	3/10/20	3/31/20	2	Approved		
motion Date 9-3-2020 (ID 909) otion Date 9-3-2020	Award	3/10/20	3/31/20	0	Saved		

- Select **View** under the Action Menu (also known as the Overflow Menu) icon for each individual Promotion on the Promotion Advanced Search window.
- Select **View** in the Overflow Menu on each individual Promotion on the Promotion List window (which displays in the Promotion Home menu).
- Select **View** in the Overflow Menu for the individual Promotion on the Promotion Scorecard.

The View Promotion window displays:

  - Franchisees
  - Offers

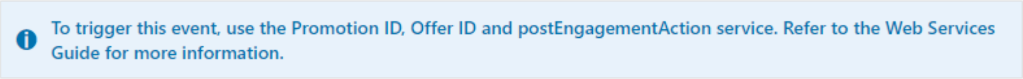
- Audience
- Budget
- Loyalty Program Levels and Loyalty Cards

> **Note:**
>
> At any time click the Pencil icon to go into the edit mode, see Editing a Promotion for more information. You can also click the **X** icon to close the promotion.

Viewing Promotions - Marketing Engagements

Once a Marketing Event is created, it needs to be activated. The following message appears on Marketing Engagements to assist the user setting the event. The message reads: To trigger this event, use the Promotion ID, Offer ID and `postEngagementAction` service. Refer to the *Web Services Guide* for more information.

Figure 5-10 Trigger Event Information



To trigger this event, use the Promotion ID, Offer ID and postEngagementAction service. Refer to the Web Services Guide for more information.

Creating a Coupon Promotion

There are a few choices available to start the process of creating a promotion. The **Create Promotion** button is available in both the Promotion Home window as well as the Promotion Search window.

> **Note:**
>
> You will need the Promotion Home role to access the Promotion Home window.

1. Click **Create Promotion**, which opens up the Promotion wizard to the Information tab.

Figure 5-11 Information Tab - Coupon

2. Select the **Promotion Type**: Coupon

> **Note:**
>
> Contact your administrator if you do not see the Promotion Types needed for your promotion

3. There are two options for a Coupon Promotion - Serialized and Non-Serialized. The selection you make will display different options on the Coupon tab. A Serialized Coupon promotion will generate coupons, each with a unique serial number, generally for a one-time use. A Non-Serialized Coupon promotion will generate a unique coupon code for the promotion, for example, a SHOE20 may represent a code a customer can use, multiple times, to receive 20% off a shoe purchase. If you wish to create a Serialized Coupon promotion, use the Coupon Serialization switch in the Coupon type box to activate that option. This Switch is only available if the Serialized Coupon Enabled Flag configuration is set to **Yes**. See the *Oracle Retail Customer Engagement Cloud Service Implementation Guide* for more information about the Serialized Coupon Enabled Flag configuration.

4. Select one of the choices for the Campaign.
   - **Auto-create Campaign** – The campaign is automatically created and will use the same name and description from the promotion name and description.
   - **Associate this promotion with an existing campaign** – Uses existing campaigns in the system.
     - Click the list arrow and select an **existing campaign**.

> **Note:**
>
> The Start Date and End Date display underneath the Existing Campaign list.

- **Create a new campaign for this promotion** – A new campaign is created with this promotion being the first added.

5. Enter the following information:
   - Enter a **Campaign Name** (for new Campaigns only).
   - Enter a **Description** (for new Campaigns only).
   - Enter a **Name**.
   - Enter a **Description**.
   - Select a **Start Date**.
   - Select a **Start Time**.
   - Select an **End Date**.
   - Select an **End Time**.
6. **Optional** - Slide the **Loyalty Bounceback** toggle to ON to activate.

Coupon Prefix: 123456

19. For each Offer that was added to the Promotion, as separate section will appear to complete these fields listed below.

   a. Coupon Prefix - Enter a **6 digit prefix** to be used for the coupon.

   > **Note:**
   >
   > Values may be generated systematically, provided the *PromoCouponCodeManagement* configuration is enabled. Contact your system administrator regarding configurations.

   b. Media Description – Description of the Media for the Coupon

   c. Click **+ Add Coupon Code** to add another coupon to the Offer for Promotion.

   d. To delete Coupons from an Offer, click **X** for that row.

20. When finished adding Coupon information for the Promotion, click **Next** to continue to the **Audience** tab.

21. Take the following actions for the Audience tab.

Audience Rules – Select **All**, **Exclusive**, or **Non-Exclusive** to define the audience.

- If you select **ALL**, it means this promotion is open to anyone who responds to the sale – everyone who buys items on the promotion get the Offer.
- The category **All** is defaulted when you open the Audience Window. Make no changes and advance to the next tab to add all customers to be targeted for this promotion.

Exclusive Targeting - If you create an exclusive targeted promotion, this means that only the customers you've identified in your target group are eligible to receive the promotion at the point of sale.

Non-Exclusive Targeting - If you create a non-exclusive targeted promotion, all customers are eligible for the promotion.

- The Exclusive and Non-Exclusive options operate the same - the difference is only if the Promotion is exclusive to just those customers or non-exclusive for the groups selected. The Static and Dynamic selections apply to both.
  - **Static** – Only customers defined at this time are considered eligible for the promotion.
  - **Dynamic** – Dynamic can not only add customers but also remove customers that no longer apply. When Dynamic is selected, Update Method is available.

  New audience members will be added – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. All customers currently in the audience will remain in the audience.

  Audience members can be added and removed – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. Additionally, only the customers that meet the criteria will be included in the audience. If the customer is in the audience before the job runs, but no longer meets the criteria, the customer will be removed from the audience.

Define Audience - Included Audience Groups

a. Click + **Add Audience Group**.

Personal Lists	Personal Lists (ID 4991)	*No Strata*	7	7

As shown in Figure 5-36 the Count is shown for each audience group. In the Audience Rules section the Audience Count is provided on the right hand side.

Columns include the following details:

- Group Name
- Included Lists
- Strata Name and Level (if applicable)
- Count
- Audience Count

Each Group Name has an Overflow Menu Icon where you can Edit or Remove the Audience Group from the list.

The Included Lists column displays a link on that list (also known as a segment) and that link will open to the Audience List Details window.

In this window, the following sections may display, depending on the type of list and which of the options were selected when the list was created:

- List Options section
- Criteria section
- Trend Results section
- Strata Levels section
- Attributes section
- Franchisees section
- Message section
- Scheduled Jobs section

The checked List Options vary by the selections made when the list was created, and may include the following fields:

- **Export** – Indicates whether the Segment list is automatically exported after the Segment Query is run.

- **Open Access** – Indicates whether the Segment has Open Access.
- **Permanent** – Indicates whether the Segment is kept in the system, even if it meets the criteria for deletion by the housekeeping job.
- **Public** – Indicates whether the Segment is Public.
- **Publish to Batch Exporter** – Indicates whether the Segment has been made available for export to a Marketing system.
- **Publish to Clienteling** – Indicates whether the Segment has been made available to the Clienteling module.
- **Publish to Task Generator** – Indicates whether the Segment has been made available to the Task Generator Job.
- **Save as List** – Indicates whether a list of matching Customer IDs is created when the Segment is created.
- **Trend Results** – Indicates whether the results of the Segment run are kept to provide trend information about the Segment.

Figure 5-38 displays the Trend Results in a chart. A user can scroll down to see a table as shown in Figure 5-39, which for this segment shows the Strata Levels Against Customer Age and displays the strata that are shown in the graph.

● New audience members will be added
○ Audience members can be added and removed

No Audience Groups Added

Exclude Audience Groups - If you wish to exclude certain groups of customers that may also be a part of the Included Group, you can do that by selecting the **Exclude Audience Groups** link, which opens a new section in the Audience Definition window

- Select the **Exclude Audience Groups** link.
- Click **+ Add Audience Group**.
- Select an Available List type.
-
  - **All** – Default group listing.
  - **Stratified** – The Customers within a Stratified list are divided into levels.
  - **Unstratified** – The Customers within an Unstratified list are not differentiated into separate groups.
  - **Personal** – User created groups.
- In the Search field, enter some or all of the **List Name**, **ID**, or **Strata Name**.
- Click **Search**.
- The results can be sorted by using the **Sort by list** menu with the following options:
  - Last Updated
  - Name
  - Customer Count
- Enter a **Group Name**.
- Click **Add** to add the selection Assigned Audience Lists.
- Click **Add** for another list means you are using the condition **AND**. Both conditions must be met.

- Click **OK and Add Another** to keep you in the same window and use the condition **OR**. One or more of the conditions must be met when you click **Add** for another Audience Group.

22. When finished entering all Audience Groups for the Promotion, click **Next**.
    - If the Selection Method selected in **Step 21**, is Static, continue to the next tab, the **Filtering Audience** tab.
    - If the Selection Method selected in **Step 21,** is Dynamic, continue to **Step 22**, the **Control Groups** tab.
23. Enter the following for the **Filtering Audience** tab.

Figure 5-42 Filtering Audience Tab

Customer Household Consolidation: None

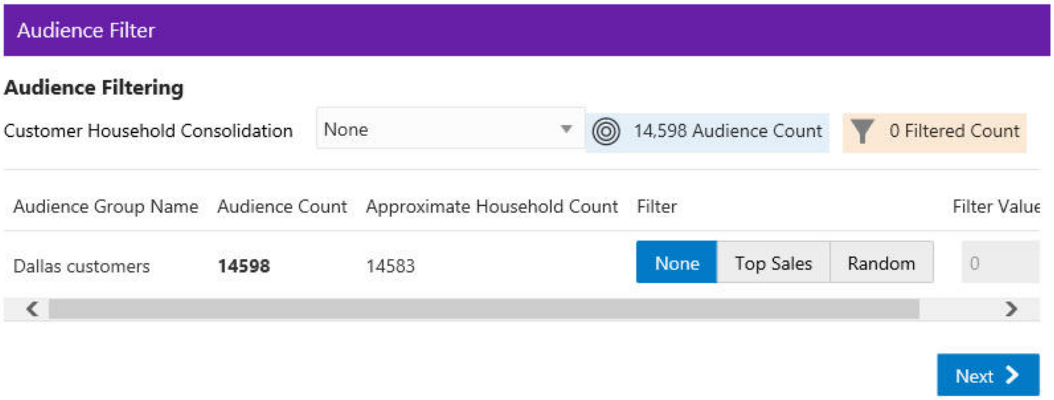
Audience Group Name	Audience Count	Approximate Household Count	Filter
St. Pete and Clearwater Area Customers	**2278**	2278	None Top Sales

Use the **Customer Household Consolidation Selection Menu** to indicate whether the Promotion will use household consolidation, and the rule for determining the Customer who is the head of household.

- **None** – Do not perform household filtering.
- **LT Sales** – Select head of household based on amount purchased over the lifetime of their account.
- **LT Transaction Count** – Select head of household based on lifetime number of transactions.
- **Last Transaction Date** – Select head of household based on the Customer who performed the most recent transaction.
- **Customer Attributes** – Select head of household based on the Customer's numeric attributes.

Select the **Filter Type** for each Audience:

Figure 5-43 Select Desired Filtering



Customer Household Consolidation: None

14,598 Audience Count

0 Filtered Count

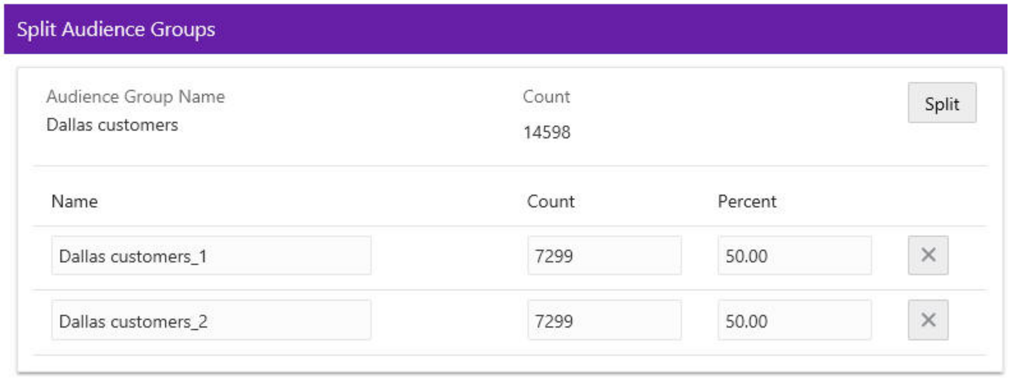
Audience Group Name	Audience Count	Approximate Household Count	Filter	Filter Value
Dallas customers	14598	14583	None / Top Sales / Random	0

- **None** - [DEFAULT] All Customers in the Audience Group are eligible.
- **Top Sales** - Customers from the Audience Group will be chosen for eligibility by the greatest total amount of purchases.
- **Random** - Customers from the Audience Group will be chosen randomly for eligibility.

Enter a **filter value** to indicate the number of customers eligible for the promotion.

24. When finished entering any household filtering for the Audience Groups for the Promotion, click **Next** to continue to the **Split Audience** tab.
25. In the Split Audience tab, filtered audiences can, optionally, be split into smaller, separate audiences. If desired, create splits for the filtered audiences on the promotion.
    - Click **Split**.

Figure 5-44 Split Audience Groups



Audience Group Name	Count
Dallas customers	14598

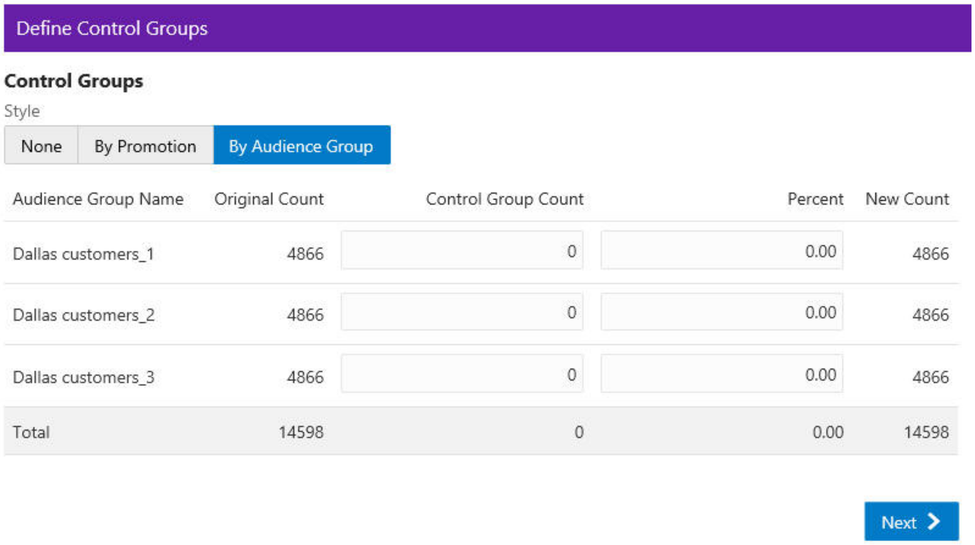
Name	Count	Percent
Dallas customers_1	7299	50.00
Dallas customers_2	7299	50.00

- The Split Name field is automatically populated from the name of the Audience Group Name. If desired, you can change the name of the splits in this step.
- Select **Split** to automatically divide the Audience Group into equal portions and percentages. If you desire different portions or percentages for the splits, enter either a count or a percentage, and the corresponding field will update.

26. When finished entering any Audience Group splits for the Promotion, click **Next** to continue to the **Control Groups** tab.

27. Enter the following information for the **Control Groups** tab.

Figure 5-45 Define Control Groups



Control Groups

Style: By Audience Group

Audience Group Name	Original Count	Control Group Count	Percent	New Count
Dallas customers_1	4866	0	0.00	4866
Dallas customers_2	4866	0	0.00	4866
Dallas customers_3	4866	0	0.00	4866
Total	14598	0	0.00	14598

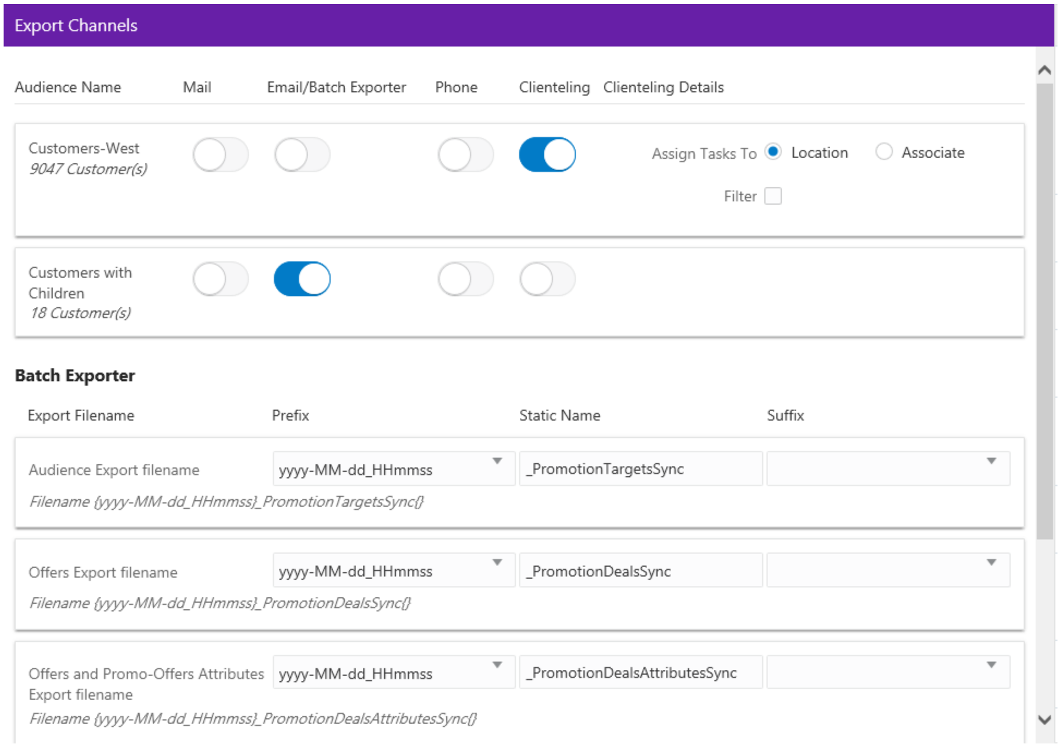
The control group is a statistically identical group that doesn't receive the offer. Following the promotional period, the results of the two groups are compared and you can determine if the offer generated incremental revenue. Options include:

- **None** – No Control Group
- **By Promotion** – Enter either a New Count or Percent. The corresponding field will update automatically to determine the size of the control group.
- **By Audience Group** – Enter either a Control Group count or percentage for each split created earlier. The corresponding field will update automatically.

28. When finished entering any Control Groups for the Promotion, click **Next** to continue to the **Export Channels** tab.

29. Enter the following information for the **Export Channels** tab. The options include:

Figure 5-46 Export Channels Tab



Export Channels

Audience Name	Mail	Email/Batch Exporter	Phone	Clienteling	Clienteling Details

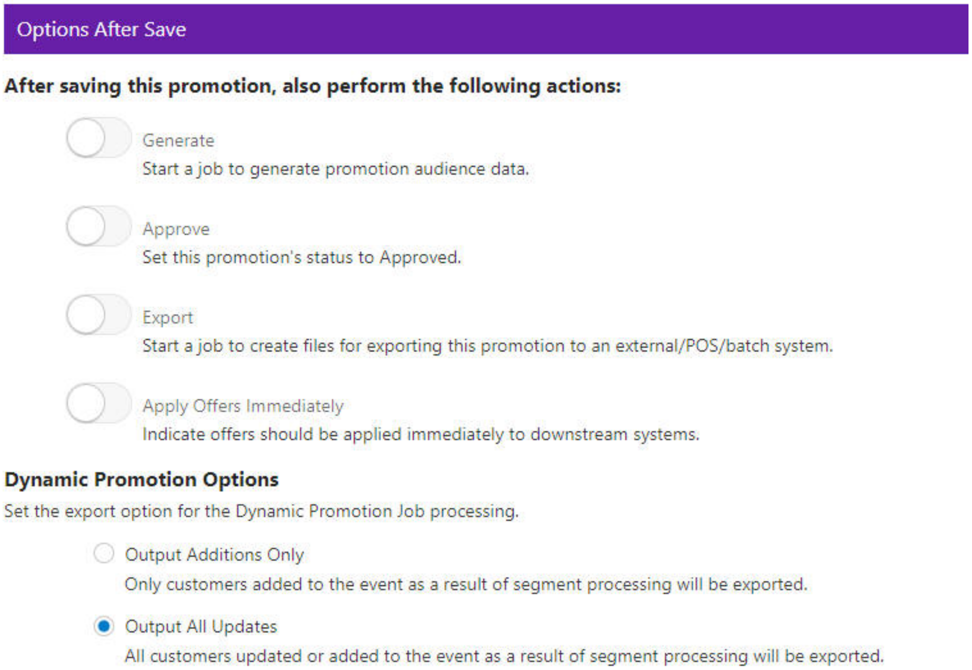
i. In the Actual-CPM field, enter the **actual cost** of the Channel for each 1,000 Customers.

j. Repeat **steps f-i** for each Target Channel in the Promotion.

34. When finished entering any Budget Costs for the Promotion, click **Next** to continue to the **Save Options** tab.

35. Enter the following information in the **Save Options** tab. You can enter more than one choice.

Figure 5-52 Options After Save Tab



Options After Save

After saving this promotion, also perform the following actions:

○ Generate
Start a job to generate promotion audience data.

○ Approve
Set this promotion's status to Approved.

○ Export
Start a job to create files for exporting this promotion to an external/POS/batch system.

○ Apply Offers Immediately
Indicate offers should be applied immediately to downstream systems.

Dynamic Promotion Options

Set the export option for the Dynamic Promotion Job processing.

○ Output Additions Only
Only customers added to the event as a result of segment processing will be exported.

● Output All Updates
All customers updated or added to the event as a result of segment processing will be exported.

- Generate – Start a job to generate promotion audience data.
- Approve – Set this promotion's status to Approved.
- Export – Start a job to create files for exporting this promotion to an external/POS/batch system. This option automatically approves the Promotion.
- Apply Offers Immediately – Indicates that offers should be applied immediately to downstream systems. This option is configurable.
- Dynamic Promotion Options – Select one of the two export options for processing when using the Dynamic selection method on the Audience tab.

> **Note:**
>
> Depending on the type of promotion that you created, different Options After Save are available.

36. When finished entering any Save Options for the Promotion, click **Next**.
    - If the Promotion Type is Coupon go to Step 37 to continue to the Coupon Type Promotion Review tab.
    - If the Promotion Type is Product, go to Step 7 to continue in the Creating a Product Promotion Review tab.
    - If the Promotion Type is Message, go to Step 6 to continue in the Creating a Message Promotion Review tab.
    - If the Promotion Type is Award, go to Step 8 to continue in the Creating an Award Promotion Review tab.
37. The **Review** tab displays the key elements in the Promotion Setup.

5. When finished entering the Campaign and Promotion information, click **Next** to continue to theFigure 5-13, see step 8 in Creating a Coupon Promotion
6. To assign awards for the Awards tab, do the following:

    Award promotions are based on award card definitions. Awards (EAwards or Entitlement Offer awards) are issued when the Promotion is generated. If the Promotion is defined as Issue to registered cards only, the awards will be created for cards within the selected program that are associated to a customer when the promotion is generated. This type of promotion is considered exclusively targeted to the customers with those cards. The targeting step will be available to define filters and/or control groups if desired.

    A segment can be added to filter the number of awards created. For example, an Award Program has 1,000 customers associated to cards, but this Promotion is only for those customers that live in Ohio. A segment can be defined for Ohio customers within that card program and added to the Promotion as Included Targets. In this case, only the customers that live in Ohio are included. An alternative is to add an Excluded Target segment, which could exclude all customers that live in New York. The promotion target can also be defined as Dynamic Targeting. If Dynamic Targeting is selected, any new customers that are associated to cards are dynamically added to the promotion target, and awards are issued when the Dynamic Promotion job is run.

If the promotion is defined to Issue Coupons Dynamically, the awards are created for activated cards within the selected program when the promotion is generated. The card does not need to be associated to a customer. This type of promotion is considered non targeted, since a customer association is not required. The promotion targeting step is skipped. This type of promotion is automatically considered a Dynamic Promotion. For a Dynamic Promotion, any new cards within the selected program that are activated will have an award issued when the Dynamic Promotion job runs.

c. Select one or more Loyalty Programs. The Deselect All Displayed Levels button clears all selections.

11. When finished selecting Loyalty Programs for the Promotion, click **Next** to continue to the **Offers** tab.

12. To begin the Offers tab, take the following actions:

    There are two methods to add offers, either:

    - Select the **Quick Add** option to search for a known Offer ID.
    - Click **+Add Offers** for an Advanced Offer Search.

- In the Search section, enter any or all of the following information:
  - **Attribute Type** – Search for an Offer by the Attribute assigned to the Offer. The default is ALL.
  - **Attributes Value** - Type-ahead search according to the Attribute Type selected.
  - **Maximum Offer ID** – Highest Offer ID number you wish to limit the search to. This will return that offer ID and all others with a lower number.
  - **Offer ID** – This Text Field searches all the Offers currently present in the application. The default is an empty field.
  - **Offer Name** – Name of the Offer.
  - **Offer Type** – Search the Offer by Offer Type (Single Select). The value **Buy X Get Points** is populated in the list of options.
  - **Intended Use** – The type of Promotion associated with the Offer you are searching for. The value **Loyalty** is populated in the list of actions.
- Click **Search**.

> **Note:**
>
> To retrieve all the offers in the system, select Search without entering any search criteria. All offers are returned to the Offers results section. From there, you can scroll through the list to choose which offers to add.
>
> To clear the search fields and restore default selections in the search page, click **Reset**.

- Upon selecting **Search**, the results display in the Offers section. Use the **Sort by list** to sort by the following options:
  - Last Update Date
  - Offer Name
  - Offer Type
  - Intended Use
  - Offer ID
- In the Add Offers window, you can select any of the offers in the Include Offers section and remove them by selecting the **X** in the top right corner of the Offer. Click **Add** to include the offers in the promotion.
- When finished selecting offers to add to the Promotion, select **Done**, which returns you to the Select Offers window.
- On the Select Offers window, you can select the **Remove** option from the **Overflow Menu** to remove an offer from the promotion.
- Enter the **Offer ID** in the Quick Add field and then click **Add** to also add offers to a promotion.

Audience Rules – **Exclusive** is only used here to define the audience.

Exclusive Targeting - If you create an exclusive targeted promotion, this means that only the customers you've identified in your target group are eligible to receive the promotion at the point of sale.

- Selection Method
  - **Static** – Only customers defined at this time are considered eligible for the promotion.
  - **Dynamic** – Dynamic can not only add customers but also remove customers that no longer apply. When Dynamic is selected, Update Method is available.

  New audience members will be added – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. All customers currently in the audience will remain in the audience.

  Audience members can be added and removed – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. Additionally, only the customers that meet the criteria will be included in the audience. If the customer is in the audience before the job runs, but no longer meets the criteria, the customer will be removed from the audience.

Define Audience - Included Audience Groups

a. Click + **Add Audience Group**.

Stratified JET 1	Stratified JET 1 (ID 5640)	All Strata	34	0

As shown in Figure 5-94 the Group Count is shown for each audience group. In the Audience Rules section the total count is provided on the right hand side.

Columns include the following details:

- Group Name
- Included Lists
- Strata Level and Name
- Count
- Audience Count

Each Group Name has an Overflow Menu Icon where you can Edit or Remove the Audience Group from the list.

The Included Lists column displays a link on that list (also known as a segment) and that link will open to the Audience List Details window.

In this window, the following sections may display, depending on the type of list and which of the options were selected when the list was created:

- List Options section
- Criteria section
- Trend Results section
- Strata Levels section
- Attributes section
- Franchisees section
- Message section
- Scheduled Jobs section

The checked List Options vary by the selections made when the list was created, and may include the following fields:

- **Export** – Indicates whether the Segment list is automatically exported after the Segment Query is run.

- **Open Access** – Indicates whether the Segment has Open Access.
- **Permanent** – Indicates whether the Segment is kept in the system, even if it meets the criteria for deletion by the housekeeping job.
- **Public** – Indicates whether the Segment is Public.
- **Publish to Batch Exporter** – Indicates whether the Segment has been made available for export to a Marketing system.
- **Publish to Clienteling** – Indicates whether the Segment has been made available to the Clienteling module.
- **Publish to Task Generator** – Indicates whether the Segment has been made available to the Task Generator Job.
- **Save as List** – Indicates whether a list of matching Customer IDs is created when the Segment is created.
- **Trend Results** – Indicates whether the results of the Segment run are kept to provide trend information about the Segment.

Figure 5-96 displays the Trend Results in a chart. A user can scroll down to see a table as shown in Figure 5-97, which for this segment shows the Strata Levels Against Customer Age and displays the strata that are shown in the graph.

Customer Household Consolidation: None

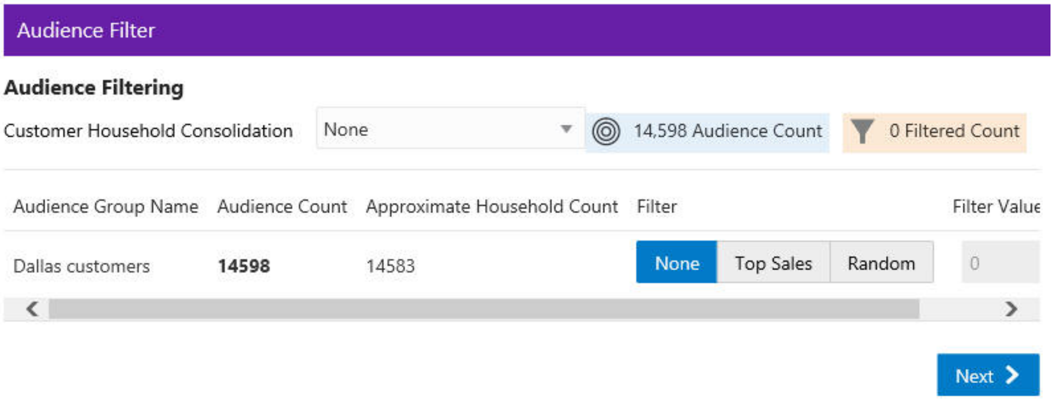
Audience Group Name	Audience Count	Approximate Household Count	Filter
St. Pete and Clearwater Area Customers	**2278**	2278	None / Top Sales

Use the **Customer Household Consolidation Selection Menu** to indicate whether the Promotion will use household consolidation, and the rule for determining the Customer who is the head of household.

- **None** – Do not perform household filtering.
- **LT Sales** – Select head of household based on amount purchased over the lifetime of their account.
- **LT Transaction Count** – Select head of household based on lifetime number of transactions.
- **Last Transaction Date** – Select head of household based on the Customer who performed the most recent transaction.
- **Customer Attributes** – Select head of household based on the Customer's numeric attributes.

Select the **Filter Type** for each Audience:

Figure 5-101 Select Desired Filtering



Customer Household Consolidation: None

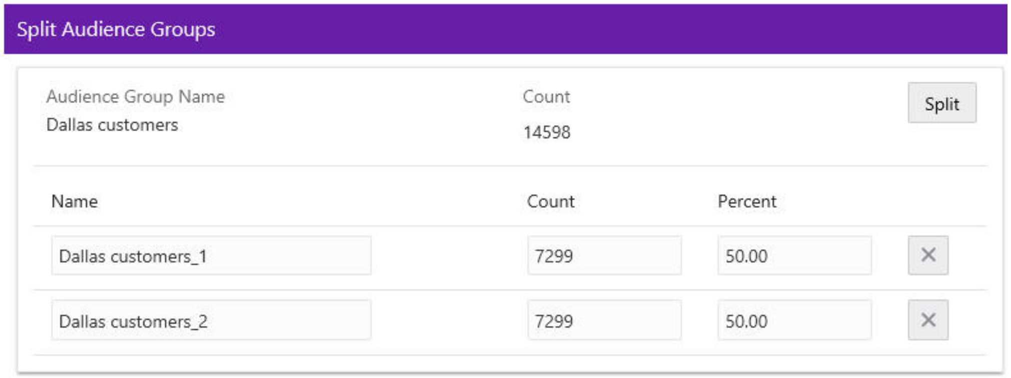
Audience Group Name	Audience Count	Approximate Household Count	Filter	Filter Value
Dallas customers	**14598**	14583	None	0

- **None** - [DEFAULT] All Customers in the Audience Group are eligible.
- **Top Sales** - Customers from the Audience Group will be chosen for eligibility by the greatest total amount of purchases.
- **Random** - Customers from the Audience Group will be chosen randomly for eligibility.

Enter a **filter value** to indicate the number of customers eligible for the promotion.

19. When finished entering any household filtering for the Audience Groups for the Promotion, click **Next** to continue to the **Split Audience** tab.
20. In the Split Audience tab, filtered audiences can, optionally, be split into smaller, separate audiences. If desired, create splits for the filtered audiences on the promotion.
    - Click **Split**.

Figure 5-102 Split Audience Groups



Audience Group Name	Count
Dallas customers	14598

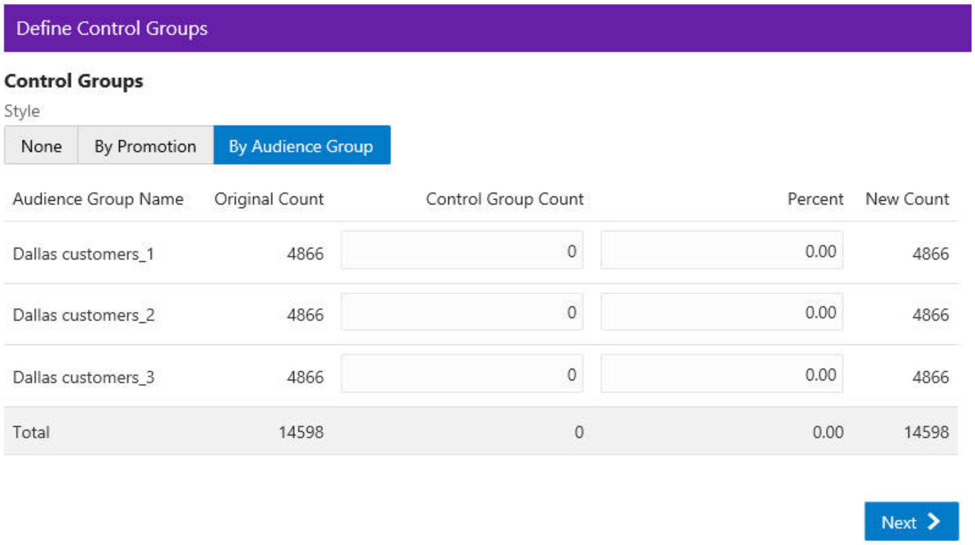
Name	Count	Percent
Dallas customers_1	7299	50.00
Dallas customers_2	7299	50.00

- The Split Name field is automatically populated from the name of the Audience Group Name. If desired, you can change the name of the splits in this step.
- Select **Split** to automatically divide the Audience Group into equal portions and percentages. If you desire different portions or percentages for the splits, enter either a count or a percentage, and the corresponding field will update.

21. When finished entering any Audience Group splits for the Promotion, click **Next** to continue to the **Control Groups** tab.

22. Enter the following information for the **Control Groups** tab.

Figure 5-103 Define Control Groups



Audience Group Name	Original Count	Control Group Count	Percent	New Count
Dallas customers_1	4866	0	0.00	4866
Dallas customers_2	4866	0	0.00	4866
Dallas customers_3	4866	0	0.00	4866
Total	14598	0	0.00	14598

The control group is a statistically identical group that doesn't receive the offer. Following the promotional period, the results of the two groups are compared and you can determine if the offer generated incremental revenue. Options include:

- **None** – No Control Group
- **By Promotion** – Enter either a New Count or Percent. The corresponding field will update automatically to determine the size of the control group.
- **By Audience Group** – Enter either a Control Group count or percentage for each split created earlier. The corresponding field will update automatically.

23. When finished entering any Control Groups for the Promotion, click **Next** to continue to the **Export Channels** tab.
24. Enter the following information for the **Export Channels** tab. The options include:

Figure 5-104 Export Channels Tab

2. Select the **Promotion Type**: Points for Marketing Engagements.

> **Note:**
>
> Contact your administrator if you do not see the Promotion Types needed for your promotion

3. Select one of the choices for the Campaign.
   - **Auto-create Campaign** – The campaign is automatically created and will use the same name and description from the promotion name and description.
   - **Associate this promotion with an existing campaign** – Uses existing campaigns in the system.
     - Click the list arrow and select an **existing campaign**.

     > **Note:**
     >
     > The Start Date and End Date display underneath the Existing Campaign list.

   - **Create a new campaign for this promotion** – A new campaign is created with this promotion being the first added.
4. Enter the following information:
   - Enter a **Campaign Name** (for new Campaigns only).
   - Enter a **Description** (for new Campaigns only).
   - Enter a **Name**.

- Enter a **Description**.
- Select a **Start Date**.
- Select a **Start Time**.
- Select an **End Date**.
- Select an **End Time**.

5. When finished entering the Campaign and Promotion information, click **Next** to continue to the **Franchisees** tab.

> **Note:**
>
> This tab will only display if the `EnableFranchiseSupport` configuration is enabled, and Franchisees have been created.

6. By default, all franchisees are assigned to the promotion. To make changes to those assignments, do the following:

- In the Search section, enter any or all of the following information:
  - **Attribute Type** – Search for an Offer by the Attribute assigned to the Offer. The default is ALL.
  - **Attributes Value -** Type-ahead search according to the Attribute Type selected.
  - **Maximum Offer ID** – Highest Offer ID number you wish to limit the search to. This will return that offer ID and all others with a lower number.
  - **Offer ID** – This Text Field searches all the Offers currently present in the application. The default is an empty field.
  - **Offer Name** – Name of the Offer.
  - **Offer Type** – Search the Offer by Offer Type (Single Select). The value **Marketing Engagements** is populated in the list of options.
  - **Intended Use** – The type of Promotion associated with the Offer you are searching for. The value **Loyalty Marketing Engagement** is populated.
- Click **Search**.

> **Note:**
>
> To retrieve all the offers in the system, select Search without entering any search criteria. All offers are returned to the Offers results section. From there, you can scroll through the list to choose which offers to add.
>
> To clear the search fields and restore default selections in the search page, click **Reset**.

- Upon selecting **Search**, the results display in the Offers section. Use the **Sort by list** to sort by the following options:
  - Last Update Date
  - Offer Name
  - Offer Type
  - Intended Use
  - Offer ID
- In the Add Offers window, you can select any of the offers in the Include Offers section and remove them by selecting the **X** in the top right corner of the Offer. Click **Add** to include the offers in the promotion.
- When finished selecting offers to add to the Promotion, select **Done**, which returns you to the Select Offers window.
- On the Select Offers window, you can select the **Remove** option from the **Overflow Menu** to remove an offer from the promotion.
- Enter the **Offer ID** in the Quick Add field and then click **Add** to also add offers to a promotion.

Figure 5-118 Select Offers Quick Add

Audience Rules – **Exclusive** is only used here to define the audience.

Exclusive Targeting - If you create an exclusive targeted promotion, this means that only the customers you've identified in your target group are eligible to receive the promotion at the point of sale.

- Selection Method
  - **Static** – Only customers defined at this time are considered eligible for the promotion.
  - **Dynamic** – Dynamic can not only add customers but also remove customers that no longer apply. When Dynamic is selected, Update Method is available.

  New audience members will be added – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. All customers currently in the audience will remain in the audience.

  Audience members can be added and removed – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. Additionally, only the customers that meet the criteria will be included in the audience. If the customer is in the audience before the job runs, but no longer meets the criteria, the customer will be removed from the audience.

Define Audience - Included Audience Groups

a. Click + **Add Audience Group**.

Stratified DB	Stratified DB (ID 5124)	All Strata	48	2
Stratified JET 1	Stratified JET 1 (ID 5640)	All Strata	34	0

As shown in Figure 5-123 the Audience Count is shown for each audience group. In the Audience Rules section the Audience count is provided on the right hand side.

Columns include the following details:

- Group Name
- Included Lists
- Strata Level and Name
- Count
- Audience Count

Each Group Name has an Overflow Menu Icon where you can Edit or Remove the Audience Group from the list.

The Included Lists column displays a link on that list (also known as a segment) and that link will open to the Audience List Details window.

In this window, the following sections may display, depending on the type of list and which of the options were selected when the list was created:

- List Options section
- Criteria section
- Trend Results section
- Strata Levels section
- Attributes section
- Franchisees section
- Message section
- Scheduled Jobs section

Exclude Audience Groups - If you wish to exclude certain groups of customers that may also be a part of the Included Group, you can do that by selecting the **Exclude Audience Groups** link, which opens a new section in the Audience Definition window

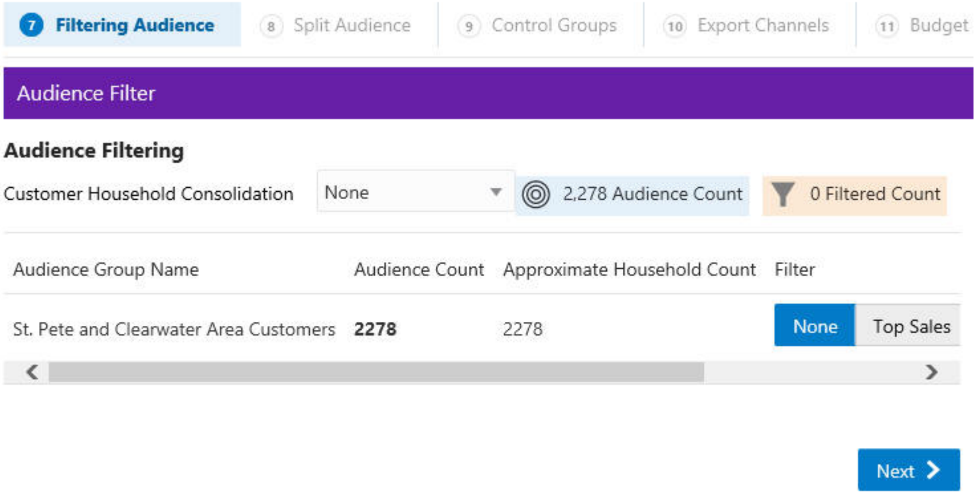
- Select the **Exclude Audience Groups** link.
- Click **+ Add Audience Group**.
- Select an Available List type.
-
  - **All** – Default group listing.
  - **Stratified** – The Customers within a Stratified list are divided into levels.
  - **Unstratified** – The Customers within an Unstratified list are not differentiated into separate groups.
  - **Personal** – User created groups.
- In the Search field, enter some or all of the **List Name**, **ID**, or **Strata Name**.
- Click **Search**.
- The results can be sorted by using the **Sort by list** menu with the following options:
  - Last Updated
  - Name
  - Customer Count
- Enter a **Group Name**.
- Click **Add** to add the selection Assigned Audience Lists.
- Click **Add** for another list means you are using the condition **AND**. Both conditions must be met.
- Click **OK and Add Another** to keep you in the same window and use the condition **OR**. One or more of the conditions must be met when you click **Add** for another Audience Group.

15. When finished entering all Audience Groups for the Promotion, click **Next.**

- If the Selection Method selected in **Step 14**, is Static, continue to the next tab, the **Filtering Audience** tab.
- If the Selection Method selected in **Step 14** is Dynamic, continue to **Step 20**, the **Control Groups** tab.

16. Enter the following for the **Filtering Audience** tab.

Figure 5-129 Filtering Audience Tab



Customer Household Consolidation: None

2,278 Audience Count

0 Filtered Count

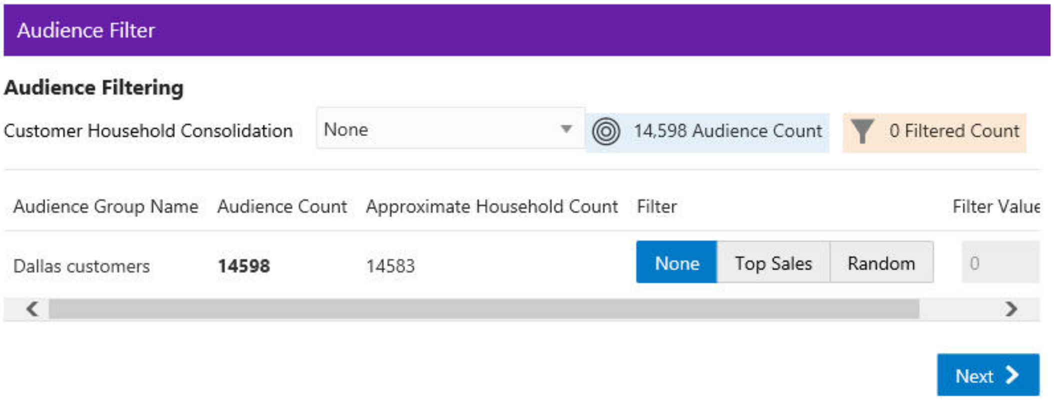
Audience Group Name	Audience Count	Approximate Household Count	Filter
St. Pete and Clearwater Area Customers	2278	2278	None / Top Sales

Use the **Customer Household Consolidation Selection Menu** to indicate whether the Promotion will use household consolidation, and the rule for determining the Customer who is the head of household.

- **None** – Do not perform household filtering.
- **LT Sales** – Select head of household based on amount purchased over the lifetime of their account.
- **LT Transaction Count** – Select head of household based on lifetime number of transactions.
- **Last Transaction Date** – Select head of household based on the Customer who performed the most recent transaction.
- **Customer Attributes** – Select head of household based on the Customer's numeric attributes.

Select the **Filter Type** for each Audience:

Figure 5-130 Select Desired Filtering



Audience Filter

Audience Filtering

Customer Household Consolidation: None

14,598 Audience Count

0 Filtered Count

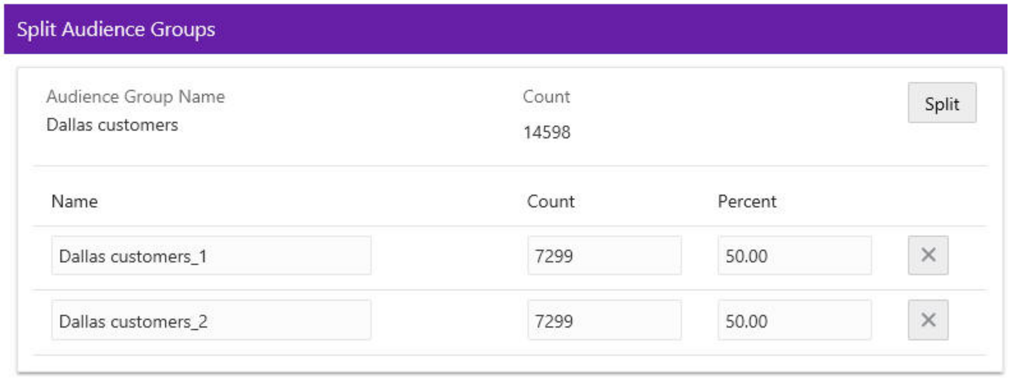
Audience Group Name	Audience Count	Approximate Household Count	Filter	Filter Value
Dallas customers	**14598**	14583	None / Top Sales / Random	0

- **None** - [DEFAULT] All Customers in the Audience Group are eligible.
- **Top Sales** - Customers from the Audience Group will be chosen for eligibility by the greatest total amount of purchases.
- **Random** - Customers from the Audience Group will be chosen randomly for eligibility.

Enter a **filter value** to indicate the number of customers eligible for the promotion.

17. When finished entering any household filtering for the Audience Groups for the Promotion, click **Next** to continue to the **Split Audience** tab.
18. In the Split Audience tab, filtered audiences can, optionally, be split into smaller, separate audiences. If desired, create splits for the filtered audiences on the promotion.
    - Click **Split**.

Figure 5-131 Split Audience Groups



Split Audience Groups

Audience Group Name	Count
Dallas customers	14598

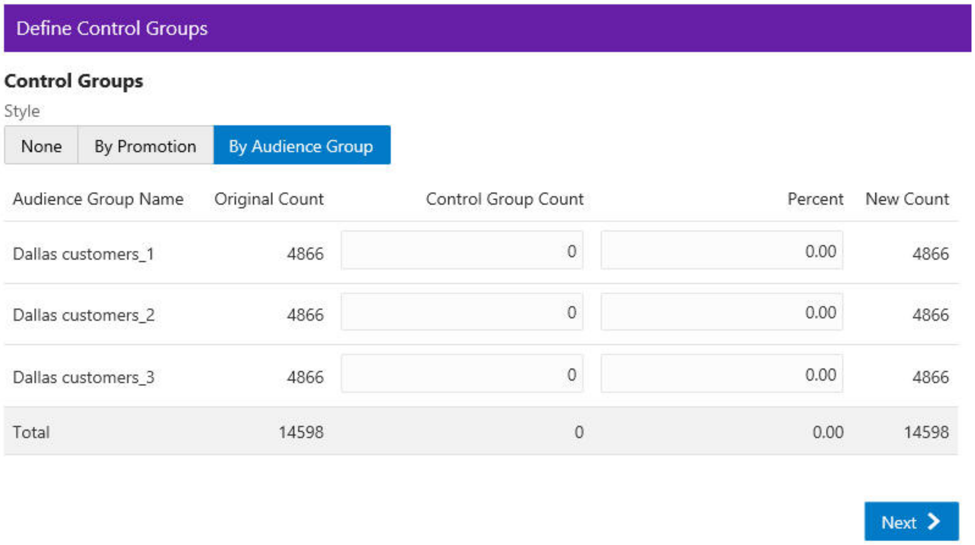
Name	Count	Percent
Dallas customers_1	7299	50.00
Dallas customers_2	7299	50.00

- The Split Name field is automatically populated from the name of the Audience Group Name. If desired, you can change the name of the splits in this step.
- Select **Split** to automatically divide the Audience Group into equal portions and percentages. If you desire different portions or percentages for the splits, enter either a count or a percentage, and the corresponding field will update.

19. When finished entering any Audience Group splits for the Promotion, click **Next** to continue to the **Control Groups** tab.

20. Enter the following information for the **Control Groups** tab.

Figure 5-132 Define Control Groups



Audience Group Name	Original Count	Control Group Count	Percent	New Count
Dallas customers_1	4866	0	0.00	4866
Dallas customers_2	4866	0	0.00	4866
Dallas customers_3	4866	0	0.00	4866
Total	14598	0	0.00	14598

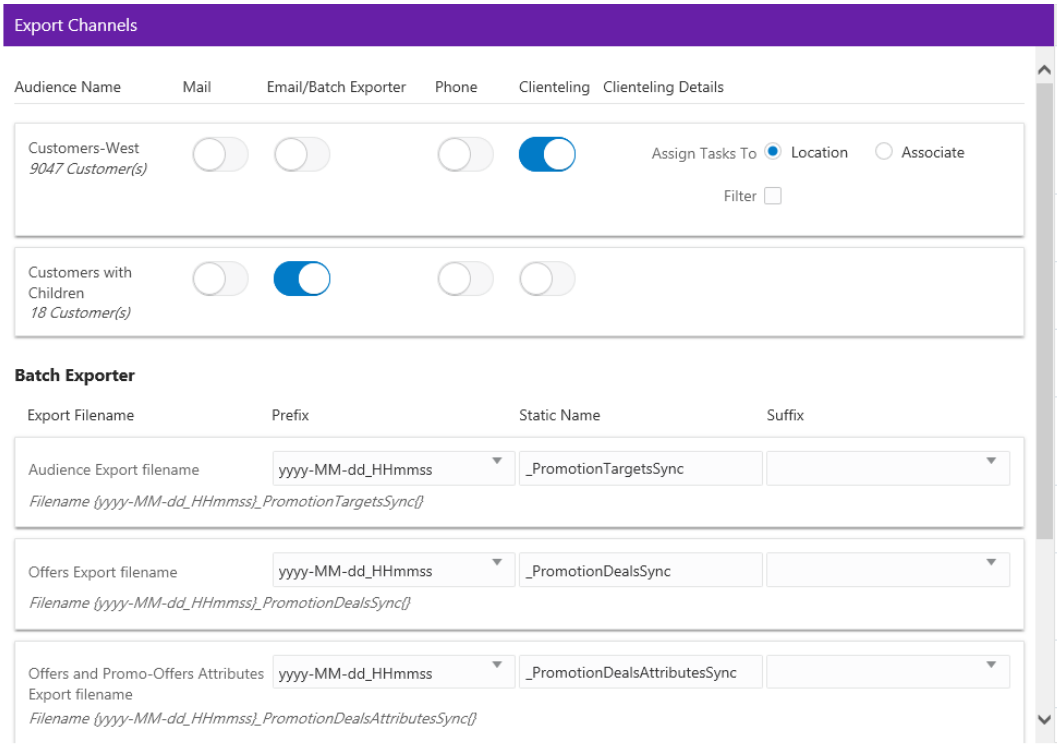
The control group is a statistically identical group that doesn't receive the offer. Following the promotional period, the results of the two groups are compared and you can determine if the offer generated incremental revenue. Options include:

- **None** – No Control Group
- **By Promotion** – Enter either a New Count or Percent. The corresponding field will update automatically to determine the size of the control group.
- **By Audience Group** – Enter either a Control Group count or percentage for each split created earlier. The corresponding field will update automatically.

21. When finished entering any Control Groups for the Promotion, click **Next** to continue to the **Export Channels** tab.

22. Enter the following information for the **Export Channels** tab. The options include:

Figure 5-133 Export Channels Tab



Export Channels

Audience Name	Mail	Email/Batch Exporter	Phone	Clienteling	Clienteling Details

- **Associate Channel** – Tasks are assigned to an associate in a location.

The following fields are enabled if the Filter option is selected:

- **Max Count Per <type>** - Determines the maximum number of target Customers that will be contacted through the channel.
- **Method** - Method used to select the Customers contacted. Options include:
  - **Random** - Select Customers Randomly (Default).
  - **Top - Recent Purchase** - Filter the Customers based on the most recent purchases.
  - **Top - LT Sales** - Filter the Customers based on the largest amount purchased over the lifetime of their account.
  - **Top - Numeric Attribute** - Filter the Customers based on the highest attribute value for a selected numeric attribute. If this option is selected, an additional Channel Filter option, Attribute, displays. Attribute is the numeric attribute used to determine the customers contacted

23. When finished entering any Export Channels for the Promotion, click **Next** to continue to the **Event Definition** tab.
    - If Clienteling is not enabled, proceed to **Step 26**, the Budget Tab.

- If Clienteling is enabled, proceed to **Step** 24, the Event Definition tab.

24. Enter the following information on the Event Definition tab.

> **Note:**
>
> The Event Definition Tab displays only when the Promotion uses the Clienteling Channel.

Audience Rules – Exclusive is the only option available for the Points Promotion to define the audience.

Exclusive Targeting - If you create an exclusive targeted promotion, this means that only the customers you've identified in your target group are eligible to receive the promotion at the point of sale.

- The Selection methods include:
  - **Static** – Only customers defined at this time are considered eligible for the promotion.
  - **Dynamic** – Dynamic can not only add customers but also remove customers that no longer apply. When Dynamic is selected, Update Method is available.

  New audience members will be added – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. All customers currently in the audience will remain in the audience.

  Audience members can be added and removed – When the Dynamic Promotions job runs, any new customers found that meet the criteria, are added to the audience. Additionally, only the customers that meet the criteria will be included in the audience. If the customer is in the audience before the job runs, but no longer meets the criteria, the customer will be removed from the audience.

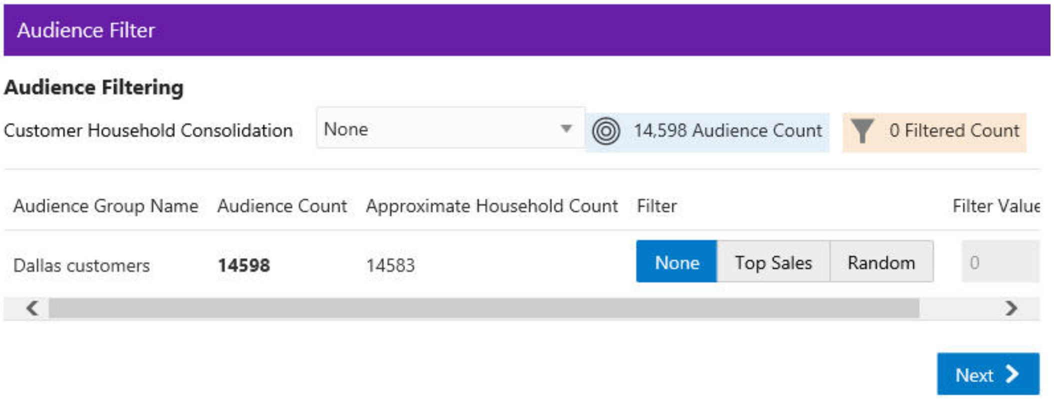
Audience Group Name	Audience Count	Approximate Household Count	Filter
St. Pete and Clearwater Area Customers	**2278**	2278	None Top Sales

Use the **Customer Household Consolidation Selection Menu** to indicate whether the Promotion will use household consolidation, and the rule for determining the Customer who is the head of household.

- **None** – Do not perform household filtering.
- **LT Sales** – Select head of household based on amount purchased over the lifetime of their account.
- **LT Transaction Count** – Select head of household based on lifetime number of transactions.
- **Last Transaction Date** – Select head of household based on the Customer who performed the most recent transaction.
- **Customer Attributes** – Select head of household based on the Customer's numeric attributes.

Select the **Filter Type** for each Audience:

Figure 5-161 Select Desired Filtering



Audience Filter

Audience Filtering

Customer Household Consolidation: None

14,598 Audience Count

0 Filtered Count

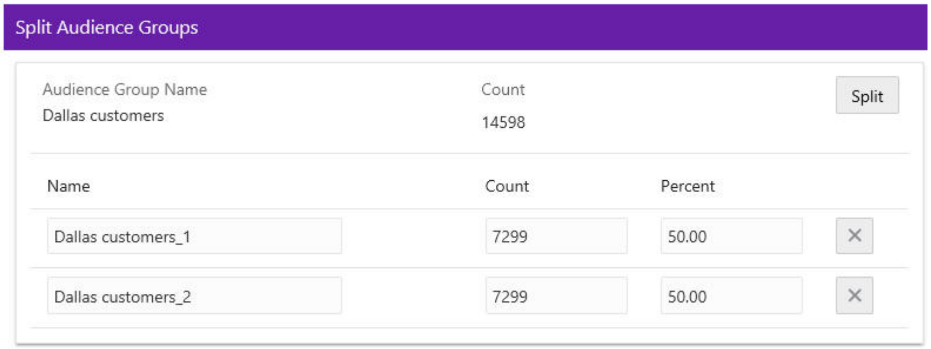
Audience Group Name	Audience Count	Approximate Household Count	Filter	Filter Value
Dallas customers	14598	14583	None / Top Sales / Random	0

- **None** - [DEFAULT] All Customers in the Audience Group are eligible.
- **Top Sales** - Customers from the Audience Group will be chosen for eligibility by the greatest total amount of purchases.
- **Random** - Customers from the Audience Group will be chosen randomly for eligibility.

Enter a **filter value** to indicate the number of customers eligible for the promotion.

24. When finished entering any household filtering for the Audience Groups for the Promotion, click **Next** to continue to the **Split Audience** tab.
25. In the Split Audience tab, filtered audiences can, optionally, be split into smaller, separate audiences. If desired, create splits for the filtered audiences on the promotion.
    - Click **Split**.

Figure 5-162   Split Audience Groups



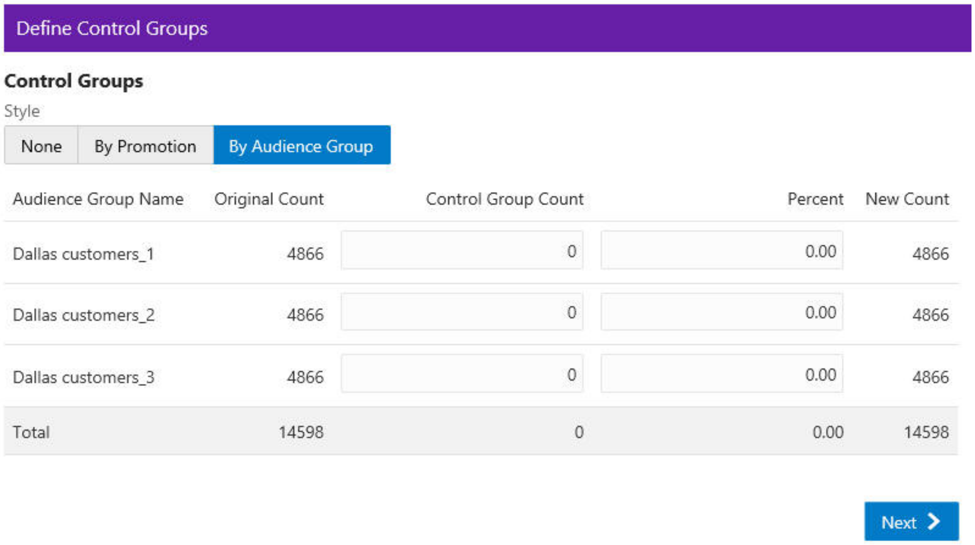
Audience Group Name	Count
Dallas customers	14598

Name	Count	Percent
Dallas customers_1	7299	50.00
Dallas customers_2	7299	50.00

- The Split Name field is automatically populated from the name of the Audience Group Name. If desired, you can change the name of the splits in this step.
- Select **Split** to automatically divide the Audience Group into equal portions and percentages. If you desire different portions or percentages for the splits, enter either a count or a percentage, and the corresponding field will update.

26. When finished entering any Audience Group splits for the Promotion, click **Next** to continue to the **Control Groups** tab.
27. Enter the following information for the **Control Groups** tab.

Figure 5-163   Define Control Groups



Audience Group Name	Original Count	Control Group Count	Percent	New Count
Dallas customers_1	4866	0	0.00	4866
Dallas customers_2	4866	0	0.00	4866
Dallas customers_3	4866	0	0.00	4866
Total	14598	0	0.00	14598

The control group is a statistically identical group that doesn't receive the offer. Following the promotional period, the results of the two groups are compared and you can determine if the offer generated incremental revenue. Options include:

- **None** – No Control Group
- **By Promotion** – Enter either a New Count or Percent. The corresponding field will update automatically to determine the size of the control group.
- **By Audience Group** – Enter either a Control Group count or percentage for each split created earlier. The corresponding field will update automatically.

28. When finished entering any Control Groups for the Promotion, click **Next** to continue to the **Export Channels** tab.

29. Enter the following information for the **Export Channels** tab. The options include:

Figure 5-164 Export Channels Tab

f. In the Budget-Fixed field, enter the **fixed cost budgeted** for the audience.

g. In the Budget-CPM field, enter the **cost budgeted** for the Channel for each 1,000 Customers.

h. In the Actual-Fixed field, enter the **actual fixed cost** of the Channel.

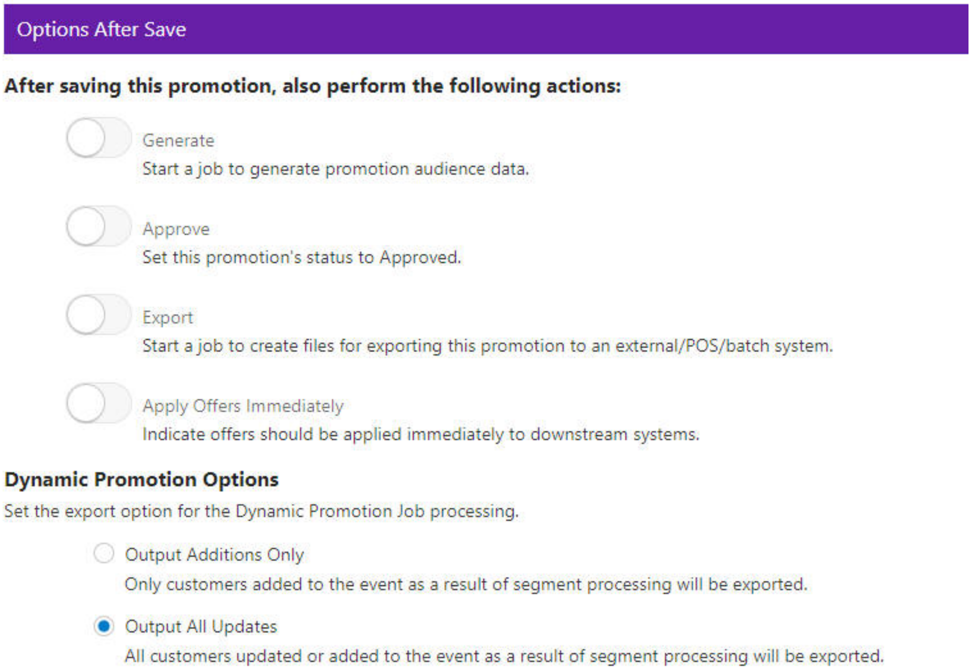
i. In the Actual-CPM field, enter the **actual cost** of the Channel for each 1,000 Customers.

j. Repeat **steps f-i** for each Target Channel in the Promotion.

32. When finished entering any Budget Costs for the Promotion, click **Next** to continue to the **Save Options** tab.

33. Enter the following information in the **Save Options** tab. You can enter more than one choice.

Figure 5-168 Options After Save Tab



Options After Save

After saving this promotion, also perform the following actions:

○ Generate
Start a job to generate promotion audience data.

○ Approve
Set this promotion's status to Approved.

○ Export
Start a job to create files for exporting this promotion to an external/POS/batch system.

○ Apply Offers Immediately
Indicate offers should be applied immediately to downstream systems.

Dynamic Promotion Options

Set the export option for the Dynamic Promotion Job processing.

○ Output Additions Only
Only customers added to the event as a result of segment processing will be exported.

● Output All Updates
All customers updated or added to the event as a result of segment processing will be exported.

- **Generate** – Start a job to generate promotion audience data.
- **Approve** – Set this promotion's status to Approved.
- **Export** – Start a job to create files for exporting this promotion to an external/POS/ batch system. This option automatically approves the Promotion.
- **Dynamic Promotion Options** – Select one of the two export options for processing when using the Dynamic selection method on the Audience tab.

> **Note:**
>
> Depending on the type of promotion that you created, different Options After Save are available.

34. When finished entering any Save Options for the Promotion, click **Next** to continue to the Coupon Review tab.
35. The **Review** tab displays the key elements in the Promotion Setup.

36. Click **OK** to save the Promotion, or click **Cancel** to close the promotion without saving. Click **Previous** or any **Tab** to return to any point of the Create Promotion process.

Promotion Actions

From within the Promotion Home and Promotion Advanced Search windows, there are different Overflow Menus that enable you to perform some of following actions:

- **Approve** – Approves the promotion the user is viewing.
- **Duplicate** – Opens a new window enabling the promotion wizard for a copy of the existing promotion.
- **Edit** – Opens a new window enabling the promotion for editing.
- **Export Promotion Definition** – The definition of the Promotion is exported in a job, and associated export files are then attached to the Export Promotion in the Process Queue page.

> **Note:**
>
> This option is not available for an Award Promotion.

- **Export to Batch** – This option exports details about the Promotion, in a job, including the Offers, Attributes, Audience, and Serialized Coupons, if applicable. The files are listed in the Process Queue page under the Promotion Batch Export job for this Promotion.

> **Note:**
>
> This option is available only if one or more types are selected for the Supported Batch Exporter Types property in System Configuration.

- **Generate** – Creates generate job that can be accessed via the Job Process Queue.
- **Terminate** – This action will terminate the Promotion on the current date as well as disable the associated Offers on the Promotion.
- **View** – Opens a new window, displaying the Review tab for the Promotion.

> **Note:**
>
> The options will vary based on the promotion type and the user permissions.

To edit other areas of the promotion, see Creating a Coupon Promotion for detailed information.

Editing a Promotion - Loyalty Bounceback

The Loyalty Bounceback that is available from the Information tab, the Programs tab, and the Offers tab are editable to allow you to modify the programs selected and the bounceback defined after the Coupon/Product promotion is created.

The ability to edit the promotion depends on whether or not the promotion has been generated.

See the following tab options when editing a Coupon/ Product promotion that includes a Loyalty Bounceback:

Information Tab

- You can change the Bounceback Type if the promotion has not been generated. All other fields can also be edited, with the exception of Campaign.
- When the Bounceback Type is changed, anything assigned to the offer on the Offers tab, is dropped.

> **Note:**
>
> A warning appears. Click **OK** to remove all loyalty bounceback details, or click **Cancel** to close the window without saving.

- You only have the ability to change the Name, Description and End Date fields after the promotion has been generated.

Programs Tab

- Existing program selections are set to default and are enabled when editing the promotion if the promotion has not been generated.
- When the promotion is generated, no changes to the Programs tab will be permitted.

Offers Tab

- All the fields included on the Offer tab are enabled when editing the promotion, if the promotion has not been generated.
- Existing offers cannot be removed after the promotion has been generated. However, they can be disabled. Additionally, a previously disabled offer can be re-enabled.

Duplicating a Promotion

To create a new Promotion with the same configurations as the current Promotion:

> **Note:**
>
> Some information will not be copied from the existing
>
> Promotion to the new Promotion:
>
> - Auto-created Campaigns
> - End Dates in the past
> - Coupon configurations
> - Target information
> - Options after saving

1. There are three places that a user can find the Duplicate option in order to duplicate a Promotion:
    - Select **Duplicate** under the **Action Menu** (also known as the Overflow Menu) icon for each individual Promotion on the Promotion Advanced Search window.
    - Select **Duplicate** in the **Overflow Menu** on each individual Promotion on the Promotion List window (which displays in the Promotion Home menu).
    - Select **Duplicate** in the **Overflow Menu** for the individual Promotion on the Promotion Scorecard.

    A copy of Promotion opens in the Promotion Wizard, prompting for the action to perform on the current Promotion.

    Budget defined

2. Select the action to perform on the existing Promotion:
    - Leave it unchanged. – Do nothing to change the existing Promotion.
    - Terminate and export it – Terminate the Promotion and export the termination to the POS systems.
    - Modify its end date and export it – Change the end date for the Promotion and export the Promotion, with its new end date, to the POS systems.

        > **Note:**
        >
        > If you select this option, Customer Engagement prompts for the new End Date and End Time.

3. Click **Next**.
4. **Edit** the Promotion.
    - Use Wizard Navigation to move through the Wizard.
    - Make any necessary changes.
    - Click **Save** when you are finished making changes. The Wizard closes, saving the new Promotion and returning to the Promotion List.
    - Click **Cancel** to exit the Wizard and return to the Promotion List without saving the new Promotion.

For more information about the fields and information to be entered, see Creating a Coupon Promotion.

Promotion Scorecard

The Promotion Scorecard displays information about the Customer response to a Promotion.

Viewing the Promotion Scorecard

To access the Promotion Scorecard for summary information on a particular promotion, the user can select the link on the Promotion name on either the Promotion List or the Promotion Search results windows.

To access the Promotion List:

1. From the **Main** menu, click **Tasks**.
2. Click **Campaign**.
3. Click **Promotion Home**. This should default you to the Promotion List

> **Note:**
>
> You will need the Promotion Home role in order to see this menu option.

Additional Metrics

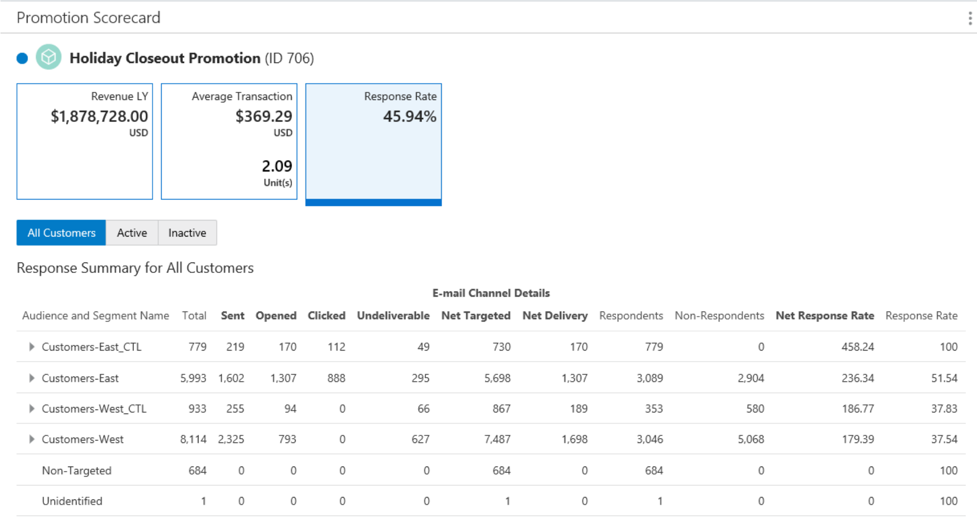
- **Audience Name** – Name of the group of customers targeted for the Promotion.
- **Promotion Cost Per Customer in Audience** – Cost of the Promotion per Customer targeted by the Promotion.
- **Promotion Cost Per Responded Customer** – Cost of the Promotion per Customer who responded to the Promotion.
- **Revenue Per Customer in Audience** – Revenue received from the Customers who were targeted for the Promotion.
- **Revenue Per Responded Customer** – Revenue received from the Customers who responded to the Promotion.
- **Net Profit Per Customer in Audience** – Net Profit from the Customers who were targeted for the Promotion.
- **Net Profit Per Responded Customer** – Net Profit from the Customers who responded to the Promotion.

8. Click the **Response Rate Metric Tile** to see the following information which can be viewed by All Customers, Active, or Inactive:

Figure 5-181 Promotion Scorecard - Response Rate Metric Tile



Response Summary for All Customers

Audience and Segment Name	Total	Sent	Opened	Clicked	Undeliverable	Net Targeted	Net Delivery	Respondents	Non-Respondents	Net Response Rate	Response Rate
					E-mail Channel Details						
Customers-East_CTL	779	219	170	112	49	730	170	779	0	458.24	100
Customers-East	5,993	1,602	1,307	888	295	5,698	1,307	3,089	2,904	236.34	51.54
Customers-West_CTL	933	255	94	0	66	867	189	353	580	186.77	37.83
Customers-West	8,114	2,325	793	0	627	7,487	1,698	3,046	5,068	179.39	37.54
Non-Targeted	684	0	0	0	0	684	0	684	0	0	100
Unidentified	1	0	0	0	0	1	0	1	0	0	100

- **Audience and Segment Name** - Name of the target. A target name ending in _CTL indicates a control group. Non-Targeted is displayed as the Target Name for customers who responded to the Promotion but were not included in Target Groups.
- **Total** - Number of Customers to whom emails were sent because they were in the Target Group. For Non-Targeted totals, this is the number of non-targeted customers who responded.
- **Sent** - Number of emails sent. This total is 0 for Non-Targeted customers.
- **Opened** - Number of emails opened.
- **Clicked** - Number of emails clicked on.
- **Undeliverable** - Number of emails that could not be delivered.
- **Net Targeted** - Total customers - Undeliverable emails.
- **Net Delivery** - Total number of emails Sent - Undeliverable emails.
- **Respondents** - Number of Customers in the Target who have responded to the Promotion. This is the same as the Total for Non-Targeted customers.
- **Non-Respondents** - Number of Customers in the Target who have not responded to the Promotion. This is 0 for Non-Targeted customers.
- **Net Response Rate** - Calculated by dividing the total number of Respondents by the Net Delivery total. Set to 0.00 for Non-Targeted customers.
- **Response Rate** - Calculated by dividing the total number of Respondents by the Total number targeted. Set to 100.00 for Non-Targeted customers.
- **Award Value** - The total value of Awards issued through the promotion. Included only for an Award Promotion.
- **Redeemed Award Value** - The total value of Awards redeemed. Included only for an Award Promotion.

9. Click the **Loyalty Points Metric Tile** to see the following information which can be viewed by All Customers, Active, or Inactive:

Note:

For Points Promotions, the Loyalty Tile displays differently. See Figure 5-183 followed by the description for this type of promotion.

> **Note:**
>
> This is a promotion type specific to the loyalty program and issues loyalty points to specific card loyalty programs. The purchase totals are based on the selected customers/loyalty members receiving the Points promotion. There are no offers (triggering events) that are required to receive the points. The total purchases are based strictly on the customers that are part of the promotion. There are no items to exclude as we would do in the case of a promotion with offers.

> **Note:**
>
> The values displayed in the scorecard will include only indirect revenue. The indirect revenue is based on all purchases made by the customers that received loyalty points. This scorecard is used to analyze the stimulation in revenue based on issuing loyalty points. However, these transactions cannot be tied directly to specific purchases.

- **Loyalty Program Summary**
  - Program Name and Level
  - ID
  - Points Issued
  - Members Who Received Points
  - Respondents - Members who received points that also made a purchase during this promotion period.
  - Response Rate {%}
- **Pie Chart**
  - Calculates and displays the Total Points Issued by program and level.

- Each sector of the pie chart represents the points awarded to the unique program and level with a different color.
- The table lists all the levels, but the pie chart will only show the top ten based on points issued.

Offers

In Customer Engagement, Offers are price incentives given to the customer. These offers can often be reused in separate Promotions or Card Programs. To facilitate and ease the reuse of existing Offers, a library of Offers can be created in Customer Engagement.

About this Chapter

This chapter contains the following information:

- Offer Types
- Intended Use
- Offers Quick Search
- Offers Advanced Search
- Creating Offers
- Editing Offers
- Duplicating Offers
- Viewing Offers
- Offer Scorecard

Offer Types

The Offer Type determines the type of incentive provided by the Offer. Customer

Engagement has the following Offer Types:

- **Transaction Discount -** A discount is prorated across all items within a transaction.
- **Line Item Discount** - A discount is applied to specific line items within a transaction.
- **Fixed Quantity/Price** - A fixed price is defined for various quantities of qualifying items.
- **Kit** - A defined set of heterogeneous items that, when purchased together, trigger special pricing.
- **Gift with Purchase** - A specific gift item is provided at a discounted price when the selected qualifying items are purchased.
- **Buy X Get X** - The purchase of defined items at regular price allows the customer to receive discounts on the purchase of subsequent quantities of the same items of equal or lesser value.
- **Buy X Get Y** - The purchase of defined items at regular price allows the customer to receive discounts on the purchase of subsequent different items at a discount.
- **Tiered Discount** - A discount is applied to a defined set of items and the amount of the discount can vary at different quantity thresholds.

- **Buy X Get Points** - The purchase of the qualifying items will result in the loyalty points being awarded to the loyalty program members.
- **Marketing Engagements** - Create a bonus point earning opportunity for an event that happens outside of Customer Engagement.

Intended Use

In Customer Engagement, Offers can be assigned an Intended Use. This indicates the manner in which an Offer is likely to be used.

- **Any (Default)** – An Offer that can be applied as a Product, Coupon, or Entitlement.
- **Coupon** – An Offer that is applied to an item or transaction through a Coupon.
- **Product** – An Offer that is applied directly to an item or transaction.
- **Entitlement** – An Offer that is applied to an item or transaction as an Entitlement for a Customer, including Offers associated with Promotions or Card Programs.
- **Loyalty** - An Offer that is applied to a transaction enabling the customer to earn loyalty points.

Offers Quick Search

Offers Quick Search displays a list of results as you type in characters in the search box. To use the Offers Quick Search do the following:

1. Click **Tasks**.
2. Click **Campaign**.
3. Click **Promotion Home**.

> **Note:**
>
> You will need the Promotion Home role in order to see this menu option.

4. Click the **Active Offers** Metric Tile.

The following Search fields are available:

- **Offer ID** - This Text Field searches all the Offers currently present in the application. The default is an empty field.
- **Hierarchy Level** - The Merchandise Hierarchy Level, which consists of: Item ID, Department, Sub-Department, Class, Sub-Class, and Style ID. This will default to All. Example: You select Hierarchy level as Department.
- **Hierarchy Value** - The search box included on the top of the list allows you to search for a specific Department. As you begin to type, the application then displays any matching Departments. The field also includes a list of available departments from which to select. This will default to All.
- **Promotions** - To search for Offers which are part of Promotions. This will default to All. Options include:
  - All
  - Active
  - Inactive
- **Offer Type** -Search for Offers by Offer Type, which will be based on available Offer Types configured in the System Configuration module. Following are the current Offer Types. The default field is All.
  - Buy X Get Points
  - Buy X Get X
  - Buy X Get Y
  - Fixed Quantity/Price
  - Gift with Purchase
  - Kit
  - Line Item Discount
  - Marketing Engagements
  - Tiered Discount
  - Transaction Discount
- **Intended Use (Required)** - Search for Offers by the Intended Use assigned. By default, All will be checked.
  - Any
  - Coupon
  - Product
  - Entitlement
  - Loyalty
  - Loyalty Marketing Engagement
- **Attribute Type** - Search the Offer by the Attribute assigned to the Offer. The field will default to All.
- **Attributes Value** - Type-ahead search according to the selected Attribute Type.
- **Created By**- List of Associates who created Offers. This defaults to Everyone.

- **Franchisee ID** - This Text Field searches for Offers by the Franchisee associated with the Offer. The Franchisee ID field will only be visible if the `EnableFranchiseSupport` configuration is enabled and Franchisees are defined. Only Franchisees associated with the user are shown. This defaults to All.

Searching Offers

Once all the desired information has been entered, click **Search** to see the results. If more than 25 results are returned, you can click the **Show More…** link to show the next 25 offers.

> Click **Reset** to clear all fields and return list values to the default selections. You can also click Search without entering any criteria to see a complete list of offers.

Sorting Offer Results

The results can be sorted by the following options:

- Last Update Date (Default)
- Offer ID
- Offer Name
- Number of Active Promotions
- Offer Revenue
- Offer Type
- Intended Use

Creating Offers

In Customer Engagement, Offers are price incentives given to the customer. These Offers can often be reused in separate Promotions or Card Programs. To facilitate and reuse existing Offers, a library of Offers can be created in Customer Engagement.

Process by Offer Type

The Create Offers process depends on the type of offer you create with the Create Offer Wizard. In the wizard, the tabs are dynamic and vary by Offer Type.

Table 6-1 shows the Create Offer process by offer type and a link to its procedure. Refer to the section, Create Offers Procedure, for specifics about the steps to create offers.

Table 6-1 Create Offer Process by Offer Type

Create Offers Procedure

The following procedure describes the steps to create an offer. Refer to specific details for each tab in these sections:

- Updating the Information Tab
- Updating the Franchisees Assignment Tab
- Updating the Attributes Tab
- Updating the Qualifying Items Tab
- Update Award Items Tab
- Define Tiered Discount
- Update Shipping Awards Tab

- Updating Award Points for Marketing Engagements
- Using the Review Tab

Procedure

To create an offer:

1. Click the **Tasks** icon.
2. Click **Campaign**.
3. Click **Offers Search**. Results: The Offers Search window opens.

The Information tab has these components:

- Type Pane
- Description Pane
- Options Pane
- Time Rules
- Offer Information Panel

> **Note:**
>
> The read-only Offer Information Panel displays details throughout all tabs of the wizard.

Type Pane

Select the type of offer from the available options.

- Transaction Discount
- Line Item Discount
- Fixed Quantity/Price
- Kit
- Gift with Purchase
- Buy X Get X
- Buy X Get Y

- Tiered Discount
- Buy X Get Points
- Marketing Engagements

Description Pane

Update the fields in the Description Pane. Required fields are noted by an asterisk.

- **Offer Name (Required)** – Enter a name for the offer.
- **POS Name** – Enter the name for the Offer to be displayed in the POS system.
- **Intended Use (Required)** – Select the type of Promotion in which the Offer is to be used.
  - Any (Default)
  - Coupon
  - Product
  - Entitlement

> **Note:**
>
> By Default, Loyalty is the only Intended Use available when creating Buy X Get Points. For Marketing Engagement Offers the only intended use is Loyalty Marketing Engagement.

- **Comments** – Enter any comments about the Offer in the text box.
- **Shipping Award** – If available, toggle the switch to activate the offer for shipping awards.

Options Pane

Select any available options to be applied to the Offer.

- **Include Non-Merchandise Charges** – This Check Box determines whether non-merchandise charges are included in the Offer (The default is a clear check box that indicates No)).
- **Allow Items to be used in other Offers** – This check box indicates whether the items used in the Offer can be used again in other Offers applied to a transaction. If clear (default), the items can only be used in one offer per transaction. If checked, the items can be used in more than one offer per transaction.
- **Include Redlines** – This check box determines whether Redlines are included in the Offer (The default is a clear check box that indicates No).
- **Allow Zero Price** – This check box determines whether zero-priced items are included in the Offer (The default is a clear check box that indicates No).

Time Rules

Time Rules are unavailable if **Entitlement** is selected for **Intended Use** in the Description Pane.

Adding Time Rules

Multiple Time Rules can be added to Offers. Perform the following steps to add Time Rules to Offers.

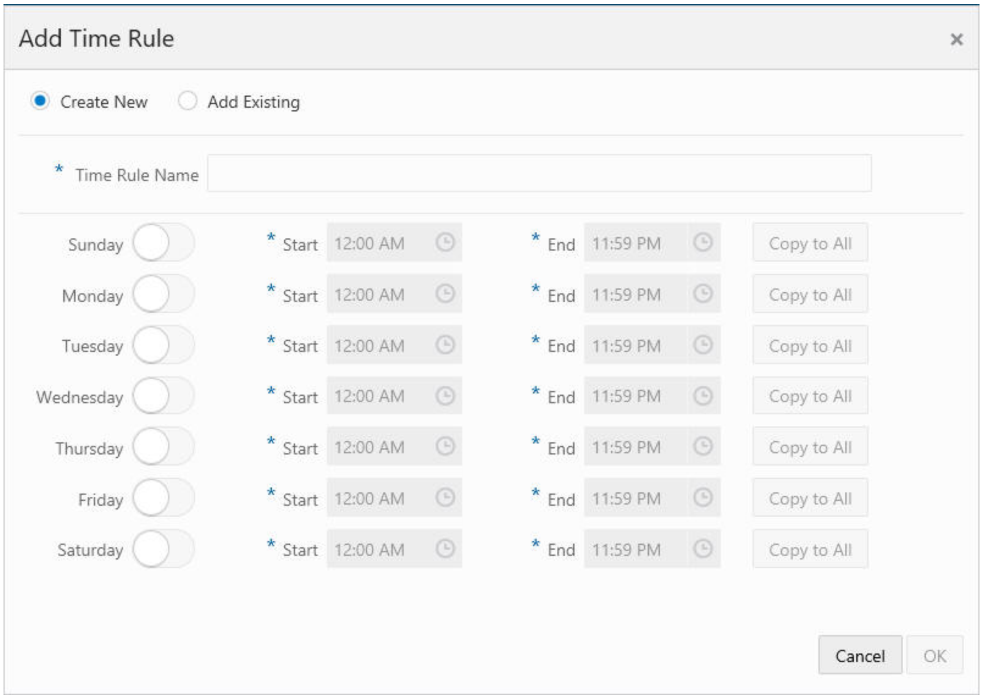
1. There are two methods to add Time Rules to an Offer, either:
   - Click **+Add Time Rule**.
   - Select the **Quick Add** option and enter a known **Time Rule ID** which you wish to associate with this new Offer.
2. Click **Add** to add that time rule to the Offer.

Creating New Time Rules

Perform the following steps to create a new Time Rule.

1. Click **+ Add Time Rule**.
2. Select the **Create New** option.

Figure 6-15 Add Time Rule (Create New)



Add Time Rule

Wednesday * Start 12:00 AM * End 11:59 PM Copy to All
Thursday * Start 12:00 AM * End 11:59 PM Copy to All
Friday * Start 12:00 AM * End 11:59 PM Copy to All
Saturday * Start 12:00 AM * End 11:59 PM Copy to All
Cancel
OK

3. Update the following fields
   - Enter a **Time Rule Name** (required).
   - Select the **Day of the Week** for which the time rules will apply for this Offer.
   - Enter a **Start Time** for each day selected.
   - Enter an **End Time** for each day selected.
4. **Optional:** Click **Copy To All** to copy the settings (Start and End times) from the Day you select, to all days.

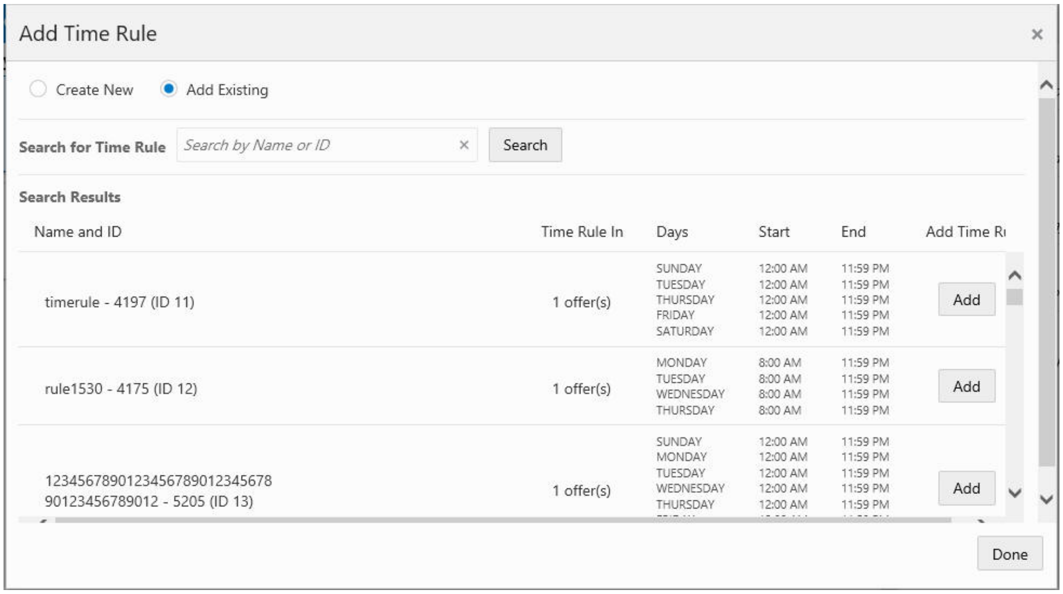
5. Click **OK** to accept the new time rule, or **Cancel** to close without saving.

Adding an Existing Time Rule

Perform the following steps to add an existing Time Rule.

1. Click **+ Add Time Rule**.
2. Select the **Add Existing** option.

Figure 6-16 Add Time Rule (Add Existing)



Name and ID	Time Rule In	Days	Start	End	Add Time Ru

3. Enter a **Time Rule Name** or **ID** and click **Search**, or click **Search** to retrieve all existing Time Rules from which to select.
4. The Figure 6-16 window displays the available time rules to add to an existing offer. Information for each existing time rule includes:
   - **Name and ID** – The name and ID of the Time Rule
   - **Time Rule In** – The number of offers the Time Rule is already associated with.
   - **Days** – The days of the week the Time Rule is active.
   - **Start** – The Start time for each corresponding day.
   - **End** – The End time for each corresponding day.
   - **Add** – Adds a Time Rule.
5. Click **Add** for the desired Time Rule you wish to add to the Offer.
6. Click **Done**.

Updating the Franchisees Assignment Tab

For Step 6 under the section Creating Offers update the Franchisees Assignment tab and return to Step 7.

The Franchisees Assignment tab allows you to view or change the Franchisees to which an Offer is assigned. The Franchisee tab is only visible if the `EnableFranchiseSupport` configuration is enabled, and Franchisees are defined. By default, all franchisees are included on the Offer. If you are assigned to specific franchisees, only those franchisees you are associated with are shown.

  - Quantity
- **Threshold (Required)** – The amount of the threshold

Import Items for Group 1

Import items into the Define Qualifying Items window by either:

- Import Items from Existing Offers
- Import Items from a CSV file

Import Items from Existing Offers

1. Click **Import From Existing Offers** then enter the following information:
    a. Enter some or all of the **Offer Name,** or **Offer Type** in the Search for Offer field. When searching by Offer ID the user must enter the **exact ID.**
    b. Click one or more of the **Import check boxes** for the Offers you would like to import.
    c. Click **OK** to import the Offer.

Import Items from a CSV file

There are two methods to import items in a CSV file, either:

- Use the Action Menu.
    1. Click the **Actions Menu** and select **Import from CSV**.
    2. **Drag and Drop the File**
    3. Click **OK**
- Use File Explorer.
    1. Click **Upload**. This displays the file selection menu where you can import a set of items in a comma-separated values (CSV) format.
    2. Select a file from File Explorer.
    3. Click **Open**.
    4. Click **OK**.

> **Note:**
>
> When the file has been uploaded, the name of the file displays an **X** icon that allows you to remove the file.

Define Qualifying Items Pane for Group 1

There are three methods to define Qualifying Items, either:

- Use the **Quick Add** option to enter a known **Item ID** which you wish to associate with this new Offer.

  Click **Add**.
- Click the **Actions Menu** and select **Add Item Rule**.
- Click **+Add Item Rule**.

The Figure 6-22 window opens.

Update the Parameters Pane for Group 2

The following parameters are dynamic and vary based on the type of offer selected.

- **Subtotal Minimum** – The minimum subtotal required for the transaction to be eligible for the discount.
- **Subtotal Maximum** The maximum subtotal required for the transaction to be eligible for the discount.
- **Threshold Style** – The style of threshold to be set.

> **Note:**
>
> The available options vary, depending upon the Offer Type selected.

  - Exact

  - Minimum
- **Threshold Type** – The type of threshold.
  - Amount
  - Quantity
- **Threshold (Required)** – The amount of the threshold

> **Note:**
>
> For KIT and BUY X Get Y offers, the Threshold Style, Threshold Type, and Threshold fields will appear in the Define Qualifying Items section. In these Offer Types, qualifying Items are organized in **Sets**. Each Set has an Include Item and Exclude Item section which contains one or more Items.

Import Items for Group 2

Import items into the Define Qualifying Items window by either:

- Import Items from Existing Offers
- Import Items from a CSV file

Import Items from Existing Offers

1. Click **Import From Existing Offers** then enter the following information:
   a. Enter some or all of the **Offer Name,** or **Offer Type** in the Search for Offer field. When searching by Offer ID the user must enter the **exact ID.**
   b. Click one or more of the **Import check boxes** for the Offers you would like to import.
   c. Click **OK** to import the Offer.

Import Items from a CSV file

There are two methods to import items in a CSV file, either:

- Use the Action Menu.
  1. Click the **Actions Menu** and select **Import from CSV**.
  2. **Drag and Drop the File**
  3. Click **OK**
- Use File Explorer.
  1. Click **Upload**. This displays the file selection menu where you can import a set of items in a comma-separated values (CSV) format.
  2. Select a file from File Explorer.
  3. Click **Open**.
  4. Click **OK**.

> **Note:**
>
> When the file has been uploaded, the name of the file displays a close icon **X** that allows you to remove the file.

Define Qualifying Items Pane for Group 2

There are three methods to define Qualifying Items, either:

- Use the **Quick Add** option to enter a known **Item ID** which you wish to associate with this new Offer.

  Click **Add**.
- Click the **Actions Menu** and select **Add Item Rule**.
- Click **+Add Item Rule**.

The Figure 6-27 window opens.

Update the Parameters Pane for Group A

The following parameters are dynamic and vary based on the type of offer selected.

- **Priority** – If more than one Offer can be applied to a Transaction, this selection menu determines the priority given to the Offer.
- **Maximum Award Amount** – The maximum currency amount of the award.
- **Offer Count Limit** – The maximum number of times the Offer can be applied to the same transaction. Available only if the Intended Use for the Offer is not Entitlement. Set to 0 (default) for no limit.
- **Discount Type** – The type of discount.
  - Percent Off – The discount is a certain percentage off of the qualifying items. The Discount Value field determines the percentage.
  - Amount Off – The discount is a fixed amount off of the qualifying items. The Discount Value field determines the amount.
- **Discount Value** – The amount of the discount.
- **Maximum Quantity** – Maximum quantity of the matching items that can be used to satisfy the item rule.
- **Award application method** – Determines how a discount is applied to the award Items. These options are only enabled for Amount Off discount types, and only if the Intended Use for the Offer is not Entitlement. This method has the following options:
  - Prorate award value across qualifying items - The amount of the discount is divided by the number of items and then that amount is applied to each Item.
  - Issue award to each qualifying items - The amount of the discount is applied to each Item.

Define Award Items for Group A

Update the Parameters Pane for Buy X Get Y

The following parameters are dynamic and vary based on the type of offer selected.

- **Priority** – If more than one Offer can be applied to a Transaction, this selection menu determines the priority given to the Offer.
- **Maximum Award Amount** – The maximum currency amount of the award.
- **Offer Count Limit** – The maximum number of times the Offer can be applied to the same transaction. Available only if the Intended Use for the Offer is not Entitlement. Set to 0 (default) for no limit.
- **Discount Type** – The type of discount.
  - Percent Off – The discount is a certain percentage off of the qualifying items. The Discount Value field determines the percentage.
  - Amount Off – The discount is a fixed amount off of the qualifying items. The Discount Value field determines the amount.
  - Override Price - The new price for the qualifying item. The Discount Value field determines the new price.
- **Discount Value** – The amount of the discount.
- **Maximum Quantity** – Maximum quantity of the matching items that can be used to satisfy the item rule.
- **Award application method** – Determines how a discount is applied to the award Items.

> **Note:**
>
> These options are only available when:
>
> - Amount Off is the discount type
> - the Intended Use for the Offer is not Entitlement

You can select from the following options:

- **Prorate award value across qualifying items -** The amount of the discount is divided by the number of items and then that amount is applied to each Item.
- **Issue award to each qualifying items -** The amount of the discount is applied to each Item.

Define Award Items

This pane lists Award items that were selected in Define Qualifying Items for Offer Group 2.

- **Included Items -** Lists the items that are included as Award Items.
- **Excluded Items -** Lists the items that are excluded as Award Items.

Define Award Points Buy X Get Points

The Award Points tab defines the points in the Offer, as well as to define the rules for the Calculation type and amounts.

Perform the following steps.

1. Update the items in the Points Detail pane.
    - Select the **Calculation Type**. Values include:
        - The value of each item purchased - The sale amount of each item purchased in the transaction.
        - The quantity of each item purchased - The quantity of each item purchased in the transaction.
        - The number of qualifying transactions - The number of qualifying transactions made by the Customer.
    - **Bonus Points** - Indicates whether this Issue Rule stipulates that the Loyalty Program issues points as Bonus Points. Toggle the switch to activate.
    - **Fixed Amount** - The Fixed Amount, if any, assigned to each transaction.
    - **Points Multiplier -** The number multiplied by the value indicated in the Calculation Type field. This field is active when the selected Calculation Type is either **The value of each item purchased** or **The quantity of each item purchased**.
    - **Maximum Transactions Per Day** - The maximum number of sales transactions in a single day that will be used to calculate Loyalty points.
    - **Transaction Minimum Value -** Minimum amount of a transaction for it to be applied to a Loyalty account.
2. When finished entering parameters for the Award Points, click **Next** to continue to Define Tender Type for Buy X Get Points.

Define Tender Type for Buy X Get Points

Tender eligibility rules determine whether a Customer Engagement element is enabled for a transaction, depending upon the tender used in a transaction.

Award Points
Calculation Type
The value of each item purchased
Bonus Points Yes
Fixed Amount 2

Perform the following steps.

1. At the top of the window, in the Filter box enter filter criteria such as Name or ID. A list of tender types matching the filter criteria displays. Select one or more tender types to activate eligibility for this Issue rule.

   > **Note:**
   >
   > Select the **Enable all tender types** check box to indicate that all tenders are eligible for the Issue rule.

   > **Note:**
   >
   > If a customer uses a tender that is unchecked, that transaction will not qualify for points issued by the Issue rule.

2. When finished selecting Tender Types, click **Next**. Continue to the Buy X Get Points Review tab.

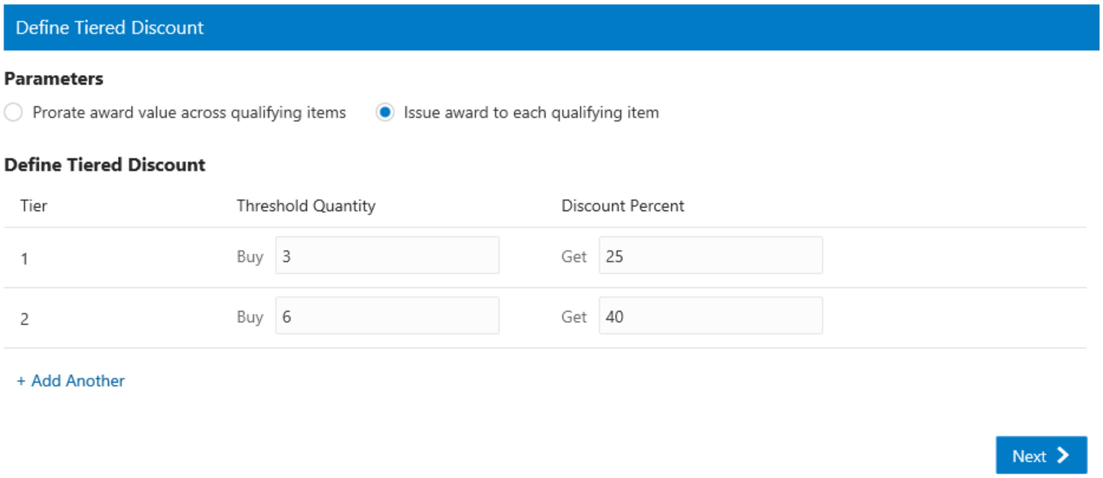
Define Tiered Discount

When the offer type is Tiered Discount, use the Figure 6-45 window.

A discount is applied to a defined set of items, where the amount or percent of the discount depends on the quantity or amount of the items defined in the threshold.

> **Note:**
>
> At least two tiers must be defined for Tiered Discount Offer.

Figure 6-45 Define Tiered Discount



Define Tiered Discount

Parameters

○ Prorate award value across qualifying items ● Issue award to each qualifying item

Define Tiered Discount

Tier	Threshold Quantity	Discount Percent
1	Buy 3	Get 25
2	Buy 6	Get 40

Perform the following steps to update the Figure 6-45 window

1. Enter the following information.

   Parameters

   - Prorate award value across qualifying items - The amount of the discount is divided by the number of items and then that amount is applied to each Item.
   - Issue award to each qualifying items - The amount of the discount is applied to each Item.

   For each Tier, enter the following information:

   - **Buy** - The quantity threshold that must be met or exceeded to qualify for the Tier-level discount.
   - **Get** - The discount applied to the Items in the Buy field. This field is only displayed when the discount type previously selected is Percent Off or Amount Off.
   - **For** - The price applied to the items in the Buy field. This field is only displayed if the discount type previously selected is Price Override.

2. Click **+ Add Another** to add another tier or click the **Remove Tier** icon to remove a tier from the offer.
3. When finished defining Tiered Discounts for the Offer, click **Next** and advance to the Tiered Discount Review tab.

Updating Award Points for Marketing Engagements

Award Points

No Award Points defined

Perform the following steps to update the Figure 6-46 window.

1. Enter the following for the **Award Points** tab.

Points Details

- **Calculation Type: The number of marketing engagements** - The number of times the customer interacts with marketing media, such as watching a video online. (default).
- **Bonus Points** - Indicates whether this Issue Rule stipulates that the Loyalty Program issues points as Bonus Points (inactive).
- **Fixed Amount** - The Fixed Amount, if any, assigned to each transaction.

Issuance Rules

- **Frequency Period** - This field determines the time period used to control the frequency with which a Customer can earn points through marketing engagements. Options include:
  - One time only
  - Daily
  - Weekly
  - Monthly
  - Yearly
- **Issues Per Period** - The number of times a Customer can earn points through marketing engagements during the Frequency Period. Set to 1 if the Frequency Period is One-time only
- **Unlimited Issuance** - Determines whether points can be issued an unlimited number of times during the Frequency Period. Cleared if the Frequency Period is set to One-time only.
- **Rule Count Limit** - The total number of times a Customer can earn points through marketing engagements. Set to 1 if the Frequency Period is One-time only

2. When finished defining Awards Points, click **Next**. Continue to the Marketing Engagements Review tab.

Update Shipping Awards Tab

For Step 10 under the section Creating Offers update the Shipping Awards tab and return to Step 11.

Update the Figure 6-47 when the offer type is:

- Transaction Discount
- Line Item Discount
- Fixed Quantity/Price
- Gift with Purchase
- Buy X Get X
- Kit
- Buy X Get Y

Perform the following steps to update the Figure 6-47.

1. Enter the following information for the **Shipping Awards** tab.

- **Shipping Method** – This table lists the shipping methods that will qualify the shipping award. Select the shipping methods eligible for the Offer (Optional).
- **Ship To Country** – This table specifies the countries which make eligible the shipping award on the Offer. Select the Ship to Countries for the Offer (Optional).
- **Qualifying Pay Type** – This table lists the payment types required on the transaction to qualify for the shipping award. Select the Pay Types for the Offer (Optional).
- **Continental US Only** – If the Continental USA Only check box is checked, the Offer applies only to states in the continental USA (excluding Hawaii and Alaska).
- **Sectional Center Facility From** – This represents the first three positions of the postal code, for the sectional center facility. This will be the starting point of the range of postal code the shipment destination must fall under to qualify for the Shipping award (Optional).
- **Sectional Center Facility To** – This represents the first three positions of the postal code, for the sectional center facility. This will be the ending point of the range of postal code the shipment destination must fall under to qualify for the Shipping award (Optional).
- When finished defining the Shipping Award rules for the Offer, click Next.

Awards

- **Shipping Charge Type** – Customer defined Charge Types that qualify for the shipping award discount, such as, Base or Upgrade.

- **Override Shipping Method** – If a Shipping Method was defined, selecting this check box dictates overriding that shipping method for this new method. These codes are defined in a Configuration called Shipping Method Codes.
- **Discount** – Select the type of shipping discount to apply.
  - **Percent Off** – Apply a percentage discount, specified in the Discount Value, to the shipping charge. For example, 40% off shipping.
  - **Amount Off** – Apply a discount amount, specified in the Discount Value, to the shipping charge. For example, $5.00 off shipping.
  - **Override Price** – Override the shipping price to the Discount Value. For example, $2.99 shipping.
- **Charge Code** – Select from the list to select a code that will appear on the order when using the Amount off or Percent Off (Optional).

2. Continue with the Review tab by offer type in the section, Using the Review Tab.

Using the Review Tab

For Step 11 under the section Creating Offers check the Review tab for your offer.

The Review tab displays key elements in the Offer Setup.

The following sections describe the review process for each type of offers.

- Transaction Discount Review
- Line Item Discount Review
- Fixed Quantity/Price Review
- Gift with Purchase Review
- Buy X Get X Review
- Buy X Get Points Review
- Kit Review
- Buy X Get Y Review
- Tiered Discount Review

Metric Tiles

Each offer presents a different set of Metric Tiles, click each one to see more information.

Revenue LTD

The Revenue LTD Metric Tile is: Total Direct Revenue generated Lifetime to Date (LTD) from the Offer.

Offer Performance

- In Promotion Filter – List of all the Promotions that the offer is associated with.
- Duration– Durations include:
  - **Last Week** - Offer performance for Last Week (7 days (Current date (-1)) display.
  - **Last Month (Default)** – Offer performance for Last Month (Current date (-1)) display.
  - **Last 6 Months** – Offer performance for Last 6 Months converted into weeks (Current date (-1)) display.
  - **Last Year** – Offer performance for Last 12 months (Current date (-1)) display.
  - **Lifetime to Date** – Offer performance for the last 5 years (Current date (-1)) display.

Graph

- The bar graph dynamically updates the Offer performance based on the value selected for the In Promotion and Duration.
- By default the Offer performance graph displays for All the Promotions which the Offer is part of for the Last Month.
- The graph represents a plot between the Direct Revenue on Y-axis and Duration on X-axis for each individual Promotion.

Promotion Details Side Panel

- **Promotion Name** – Name of the Promotion.
  - Click the **Promotion Name** link from the Promotion Details panel on the Offer Scorecard window to display the View Promotion window for the selected promotion on the same tab. Click **Done** to return to the Offer Scorecard.

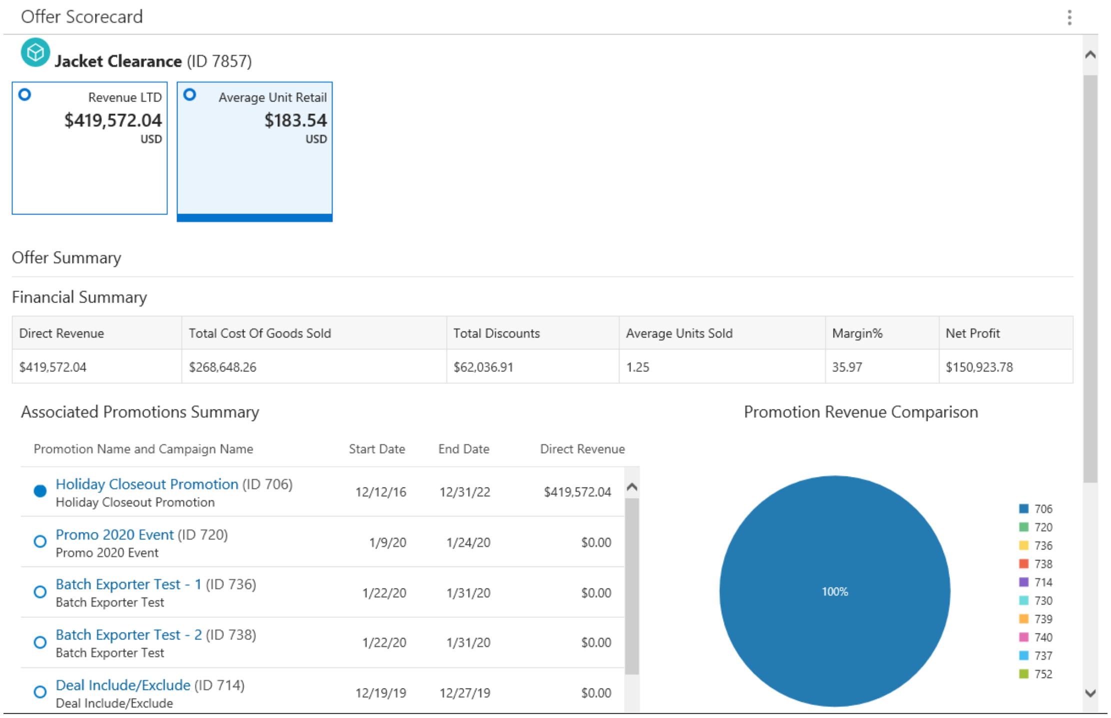
    See Viewing a Promotion to learn more about the information on that window.
- **Promotion ID** – ID of the Promotion.
- **Start Date** – The date the Promotion begins.
- **End Date** – The date the Promotion ends.
- **Revenue** – Offer's Revenue display depending on the value selected in the duration.
- Promotion Target – Indicates the type of targeting used by the Promotion (Nonexclusive or Exclusive).
- Response Rate – Calculated by dividing the total number of Respondents by the Total number targeted. Set to 100.00 for Non-Targeted customers.

- Respondents – Number of Customers in the Target who have responded to the Offer in the Promotion. This is the same as the Total for Non-Targeted customers.

Average Unit Retail Tile

The Average Unit Retail calculated for a given item over a select period of time. To calculate AUR, you simply take the total revenue (or net sales) divided by the number of units sold.

Figure 6-68 Average Unit Retail Tile



Offer Scorecard

Jacket Clearance (ID 7857)

○ Revenue LTD $419,572.04 USD

○ Average Unit Retail $183.54 USD

Offer Summary

  - Click the **Promotion Name** link from the Promotion Details panel on the Offer Scorecard window to display the View Promotion window for the selected promotion on the same tab. Click **Done** to return to the Offer Scorecard. See Viewing a Promotion to learn more about the information on that window.
- **Promotion ID** – ID of the Promotion.
- **Start Date** – The date the Promotion begins.
- **End Date** – The date the Promotion ends.
- **Promotion Audience** – Indicates the type of targeting used by the Promotion (Nonexclusive or Exclusive).
- **Response Rate** – Calculated by dividing the total number of Respondents by the Total number targeted. Set to 100.00 for Non-Targeted customers.
- **Respondents** – Number of Customers in the Target who have responded to the Offer in the Promotion. This is the same as the Total for Non-Targeted customers.

7

Segments

Customer Segments organize Customers into groups related by certain, specified criteria. These Segments can be used to define the Segment/Target Eligibility rules used by various Customer Engagement elements.

There are three types of Customer Segments:

- **Stratified** - Segments in which the Customers belonging to the segment are divided into stratified subgroups (or levels) determined by certain criteria, such as year-to-date total purchases, Customer age, annual income, or some other criteria. These Segments are described in Stratified Segments.
- **Unstratified -** Segments in which Customers belonging to the segment are not subdivided into different groups; that is, the Customers within the Segment are not differentiated into subgroups by the Segment. These Segments are described in Unstratified Segments.
- **Personal Lists** - Segments created by selecting Customers one-by-one. Associates can use Personal Lists to create Favorite Customer lists. These Segments are described in Personal Lists.

About this Chapter

This chapter contains the following information:

- Segment Quick Search
- Segment Advanced Search
- Creating a Segment or Personal List
- Editing Segments/Personal Lists
- Duplicating Segments/Personal Lists
- Viewing Segments/Personal Lists
- Exporting Segments
- Deleting Segments/Personal Lists
- Segment Scorecards

Segment Quick Search

Segments Quick Search displays a list of results as you type in characters in the search box. To use the Segments Quick Search do the following:

1. Click **Tasks**.
2. Click **Segment**.
3. Click **Segment Home**.

Figure 7-1   Segment Home - All Segments Metric Tile

Multiple **Per Day** (ID 5008)
Private

Note:

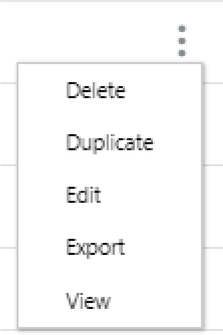
If more than 25 Segments or Personal Lists match the search criteria, the first 25 Segments or Personal Lists are displayed. Select **Show More...** at the bottom of the page to display more Segments or Personal Lists.

The search results display the following fields:

- Name and Description
- Run Schedule
- Classifications
- Last Run
- Customer Count
- Trend Results
- Save as List

6. The search results can be filtered by Segment Classification. The options include:
   - All (Default)
   - Open Access
   - Private
   - Public
7. Hover over any Run Schedule field to see a tooltip listing the following information.
   - Job ID
   - Run Interval
   - Status of Last Run
   - Duration
   - Started Date/Time
   - Ended Date/Time
   - Planned Next Run Date/Time
8. Click the **Name** which appears as a link for any Segment to open the Segment Scorecard. See Segment Scorecards for more information. Use the Overflow Menu to Delete, Duplicate, Edit, Export, or View the segment. See Deleting Segments/Personal Lists, Duplicating Segments/Personal Lists, Editing Segments/Personal Lists, Exporting Segments, or Viewing Segments/Personal Lists for more information.

Figure 7-3 Action Menu Options - Segments Quick Search



Segment Advanced Search

The Segment Advanced Search allows you to select more criteria that are not available in the Segment Quick Search box. The Segment Advanced Search is accessed by the following methods:

- Click the Advanced Search Link below the Segment Quick Search box in the Segment Home window.
- Click Segment Search in the Segment Task menu. See Navigation for more information.

> **Note:**
>
> Click **Reset** to clear all fields and return list values to the default selections. You can also click **Search** without entering any criteria to see a complete list of Segments and Personal Lists.

Sorting Segment Results

The sort options will re-sort just the current 25 segments displayed in the window. Sorting options include:

- **Last Run / Update Date** - Segment results are sorted by the Last Run (Stratified and Unstratified) or Last Update (Personal Lists) in descending order (Default).
- **Segment ID** - Segment results are sorted by Segment ID in descending order by default.
- **Segment Name** - Segment results are sorted by Segment Name in ascending order.
- **Customer Count** - Segment results are sorted by the Customer Count in descending order
- **Save as List** - Segment results are sorted by Save as List in ascending order.

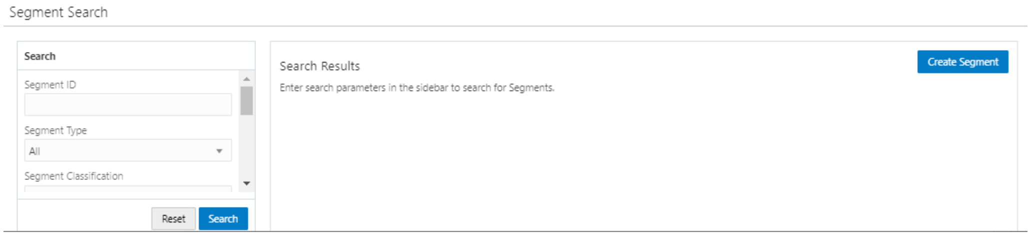
> **Note:**
>
> For Personal Lists, the **Save as List** setting is always Yes, so the sort order does not apply.

Creating a Segment or Personal List

There are a two choices available to start the process of creating a Segment or Personal List. The **Create Segment** button is available in both the Segment Home window as well as the Segment Search window.

Creating a Segment or Personal List - Segment Search

Figure 7-6 Segment Search



Enter search parameters in the sidebar to search for Segments.

To Create a new segment from the Segment Search screen, click the **Create Segment** button, which will open the segment wizard on the Information tab. Proceed to **Step 6** in Creating a Segment or Personal List - Segment Home.

Creating a Segment or Personal List - Segment Home

To create a new Segment or Personal List from the Segment Home window do the following:

1. Click the **Tasks** icon.
2. Click **Segment**.
3. Click **Segment Home**. The All Segments Tile is defaulted.

Create Segment

4. There are two options to start the Create process:

   Option 1

   a. With the All Segments Metric tile highlighted, select the Create Segment button which opens the Segment Wizard to the Information tab, with the Stratified Segment type defaulted. You can then change the Segment type, if desired.

   b. Select one of the Metric Tiles (Stratified, Unstratified, or Personal List), and from there select the Create Segment button, which will default that segment type in the Information tab of the segment wizard.

   Option 2

   a. Create a new segment from the Segment Search screen: Select the Create Segment button, which will open the segment wizard on the Information tab.

5. Click **Create Segment**. The Create Segment wizard may contain any of the following tabs, depending on configuration and the selected Segment Type.
   - Information
   - Franchisees
   - Segment Query
   - Stratification
   - Message
   - Strata Query
   - Attributes
   - Segment Members
   - Schedule
   - Review
6. Enter the following items for the Information Tab:

> **Note:**
>
> The read-only Segment Information Panel displays details throughout most of the tabs of the wizard.

- **Type** - Select the type of Segment from the available options:
  - **Stratified** - Segments in which the Customers belonging to the segment are divided into stratified subgroups.
  - **Unstratified** - Segments in which Customers belonging to the segment are not subdivided into different groups.
  - **Personal List** - Personal Lists created by selecting Customers one-by-one. Associates can use the Personal Lists to create "Favorite Customer" lists.
- **Description**
  - **Segment Name** - The name of the Segment (Required).
  - **Description** - Any Segment specific additional description (Required).
- **Publishing Options**
  - **Publish To Batch Exporter** - Determines whether or not the Segment is available to export to a Marketing system.

    > **Note:**
    >
    > If the Publish to Batch Exporter option is selected, the following options are automatically checked: **Export**, **Permanent**, **Public**, and **Save as List**. All other check boxes are unchecked and unavailable.

  - **Publish To Clienteling -** Determines whether or not the Segment is available to the Clienteling module.

    > **Note:**
    >
    > If the Publish to Clienteling option is selected, the following options are automatically checked: **Permanent**, **Public**, and **Save as List**. All other check boxes are unchecked and unavailable.
    >
    > A User must be assigned the Publish Clienteling Segment Role to see this option. See the *Oracle Retail Customer Engagement Implementation Guide* for more information about Roles.

  - **Publish to Task Generator -** Determines whether tasks are created for this Segment.

    > **Note:**
    >
    > If the Publish to Task Generator option is selected, the following options are automatically checked: **Export**, **Permanent**, and **Save as List**. All other check boxes are unchecked and unavailable.
    >
    > A User must be assigned the Task Manager Role to see this option. See the *Oracle Retail Customer Engagement Implementation Guide* for more information about Roles.

- **Options**
  - **Export -** Determines whether or not the Segment results are automatically exported after the Segment Query is run. The Export option is not available for Personal Lists.

    > **Note:**
    >
    > If the Export option is selected, **Save as List** is automatically checked and the **Export** and **Trend Results?** check boxes are unavailable.

  - **Open Access -** Determines whether or not the Segment has Open Access.

    > **Note:**
    >
    > If the Open Access option is selected, **Permanent**, **Public**, and **Save as List**, are automatically checked and the check boxes are unavailable; **Export** and **Trend Results?** are automatically unchecked and the check boxes are unavailable.

  - **Permanent -** Determines whether or not the Segment is kept, even if it meets the criteria for deletion by the housekeeping job.
  - **Public -** Determines whether or not the Segment is Public.

  - **Save as List** - Determines whether a List of matching Customer IDs are created when the segment is created. If this option is not checked, the Segment will only create a count of the Customers that meet the criteria.
  - **Trend Results?** - Determines whether the results of the Segment run are kept to provide trend information about the Segment.

7. When finished entering the Segment information on the Information tab, click **Next** to continue to the **Franchisees** tab.

   The Franchisees Assignment tab allows you to add or change the Franchisees you wish to assign to the segment.

   > **Note:**
   >
   > The Franchisee tab will only be visible if the `EnableFranchiseSupport` configuration is enabled, and Franchisees are defined. By default, all franchisees are included on the Segment. If you are assigned to specific franchisees, only those franchisees you are associated to are shown.

   - If Franchisees are enabled in Customer Engagement, the Franchisees Tab appears. Proceed to **Step** 8.
   - If Franchisees are not enabled in Customer Engagement and the Segment Type is **Stratified** or **Unstratified**, the Segment Query tab appears. Proceed to **Step** 10.
   - If Franchisees are not enabled in Customer Engagement and the Segment Type is **Personal List**, the Attributes Tab appears. Proceed to **Step** 18.

   Figure 7-9 Franchisee Tab

No Franchisees to display

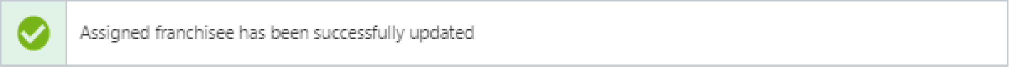
- By default, all franchisees are assigned to the segment. To make changes to those assignments, you can search for specific franchisees by entering all or part the franchisee **Name**, **ID**, or **Description**. Click **Search** in the Search for Franchisee search box.

> **Note:**
>
> You also have the option to enter no search criteria and click **Search** to retrieve all available franchisees from which to select for assignment.

- In the Included Franchisees results list, click **Assign All** to assign all the search results, or click **Assign** for a specific franchisee to add to the segment.
- Click **OK** to accept the changes or **Cancel** to close the window without saving.

> **Note:**
>
> A confirmation notification appears to confirm the Franchisees has been assigned.
>
> After a Franchisee is assigned, it appears at the top of the list. The rest of the Franchisees are ordered by ID.

Figure 7-11 Confirmation Notification



Assigned franchisee has been successfully updated

- Unassigning a Franchisee

  If you need to, there are two ways to unassign any of the assigned franchisees on the segment.

  - In the Assign Franchisee window, click **Unassign** on any Franchisees currently assigned to the segment. Then click **OK** to accept the changes or **Cancel** to close the window without saving.

- If Franchisees are listed on the Franchisee tab in the Included Franchisees table, highlight the **row**, and then select the **Action Menu**, and click **Unassign**, or click the **Unassign X** icon to remove the associated Franchisee.

9. When finished selecting the franchises on the Franchisee tab, click **Next** to continue to the next tab.
   a. If the Segment Type is **Stratified** or **Unstratified**, proceed to **Step 10**.
   b. If the Segment Type is **Personal List**, proceed to **Step 18**.
10. The Segment Query tab, used for **Stratified** or **Unstratified** segments, provides three choices to populate the Query window. They include:
    - Criteria
    - Segments
    - Saved Queries

> **Note:**
>
> The My Saved queries are private to the user that created the query or the system administrator.

> **Note:**
>
> The query window can be populated singularly, or by using any combination of the three choices previously listed.

- Select the Strata Type: **Customer** - Customer Data
  - Based on: Customer (Default) - Field to Stratify On options include:

Field	Description
Annual Income	Customer's Annual Income
Customer Net Worth	Customer's Net Worth
Lifetime Sales	Lifetime total amount of all sales made to the Customer.
Lifetime Returns	Lifetime total amount of all returns made by the Customer.
Lifetime Transaction Count	Lifetime total number of transactions.
Lifetime Sold Item Count	Lifetime total number of items sold
Lifetime Return Item Count	Lifetime total number of items returned.
Lifetime Profit Percent	Lifetime percentage of profit on all Customer transactions.
YTD Sales	Total amount of all sales during the year to date.
YTD Returns	Total amount of all returns during the year to date.
YTD Trans Count	Total number of transactions during the year to date.
YTD Sold Item Count	Total number of items sold during the year to date.

Field	Description
YTD Return Item Count	Total number of items returned during the year to date.
YTD Profit Percent	Percentage of profit on all Customer transactions during the year to date.
Customer Age	Age of the Customer.
Days Since Purchase	Number of days since the Customer's last purchase.
Attributes	Attribute values.

- Select the Strata Type: **Loyalty -** Loyalty Account Information
  - Based on: **Loyalty Summary** - Field to Stratify On options include:

Field	Description
Earned Points Balance	Current balance of earned points.
YTD Points	Total number of points earned during the year to date.
LTD Points	Total number of points earned over the lifetime of the Loyalty Account.

  - Based on: **Loyalty Detail** - Field to Stratify On options include:

Field	Description
Sum Number of Points	Total number of points in the Loyalty Account.
Count Number of Transactions	Total number of Loyalty transactions.
Days Since Last Activity	Days since the last Loyalty transaction.

- Select the Strata Type: **Transaction -** Transaction Information
  - Based on: **Header** - Field to Stratify On options include:

Field	Descriptions
Sum of Transaction Amount	Total amount of all transactions.
Number of Transactions	Total number of transactions.
Days Since Purchase	Number of days since the last purchase transaction.

  - **Detail**: **-** Field to Stratify On options include:

Field	Description
Sum of Line Item	Sum of all line items in all transactions.
Days Since Purchase	Number of days since the last purchase transaction.
Sold Item Count	Total number of items sold.
Transaction Count	Total number of transactions.

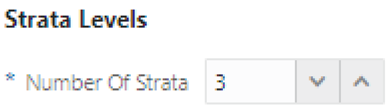
- Select a Strata Format
  - **Range Strata -** Strata are determined by configured ranges.
  - **Ntile Strata** - Strata are placed into equally-sized groups of Customers.

    Select the **Sort Order** for Ntile Strata:

- **Ascending** - The Strata having the lowest values are displayed first.

- **Descending** - The Strata having the greatest values are displayed first.

Figure 7-24   Strata Levels



Strata Levels

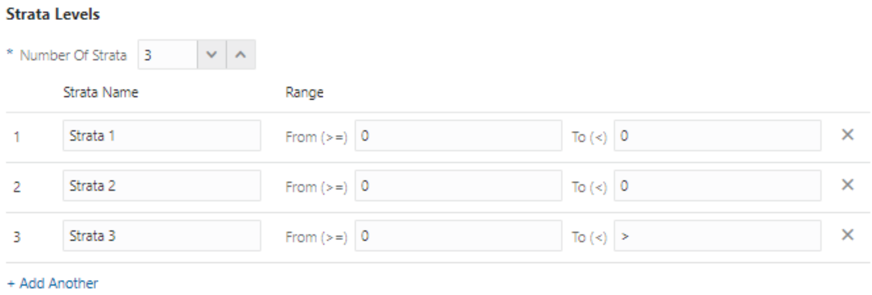
* Number Of Strata: 3

Strata Levels

The default number of strata levels is three. You can increase or decrease the number of strata levels.

- There are three ways to increase the number of Strata Levels
  - Number of Strata: Enter a **numeric value** and press **Enter**.
  - Click the **arrows** to increase or decrease by one increment.
  - Click the **+ Add Another** link.

Figure 7-25   Strata Levels - Ntile Strata



Strata Levels

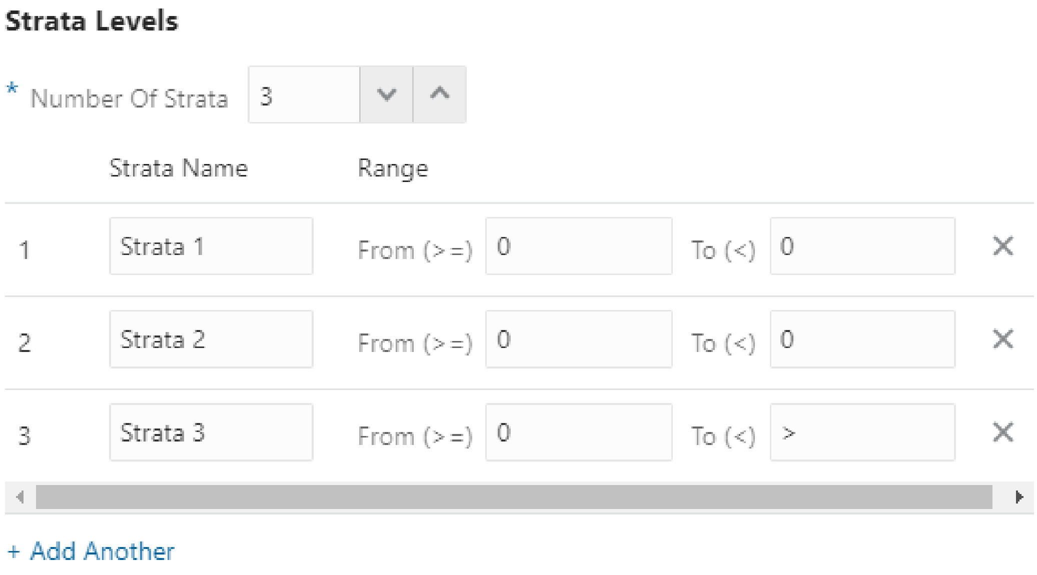
* Number Of Strata: 3

	Strata Name	Range				
1	Strata 1	From (>=)	0	To (<)	0	×
2	Strata 2	From (>=)	0	To (<)	0	×
3	Strata 3	From (>=)	0	To (<)	>	×

+ Add Another

- Enter a **Strata Name** for each Strata Level
- Click the **Delete** icon to remove a Strata Level.

Figure 7-26 Strata Levels - Range Strata



Strata Levels

* Number Of Strata 3

	Strata Name	Range			
1	Strata 1	From (>=)	0	To (<)	0
2	Strata 2	From (>=)	0	To (<)	0
3	Strata 3	From (>=)	0	To (<)	>

Strata Levels - Range Strata

- Enter a **Strata Name** for each Strata in the Segment.
- In the Range From (>=) fields, enter the **minimum value** of each Strata.

  If the Strata Field value for the Customer equals this value, it isincluded in this Strata.
- In the Range To fields, enter the **maximum value** of each Strata.

  If the Strata Field value equals this value, it is not included in this Strata.

13. When finished entering Stratification Details click **Next**.
    - If the Open Access Check Box was checked in the Information tab (see **Step 6** Options), the Message tab displays. Proceed to **Step 14**.
    - If the **Open Access** check box was **unchecked** in the Information tab (see **Step 6** Options), and the Strata Type: Customer was selected in Stratification Details (see **Step 12**), the Attributes Tab displays. Proceed to **Step 18**.
    - If the **Open Access** check box was **unchecked** in the Information tab (see **Step 16** Options), and the Strata Type: Loyalty or Transaction was selected in Stratification Details (see **Step 12**), the Strata Query tab displays. Proceed to **Step 16**.
14. The Message tab enables you to a add message for displaying at the Point-of-Sale for a Customer or Receipt display for upselling or other marketing campaigns. Enter the following for the **Message** tab:

c. In the POS Display Text Area field, enter the **text** that will be displayed to the associate using the Point-of-Sale system.

d. In the Customer Display Text Area field, enter the **text** that will be shown on the customer-facing display and, depending on the configuration of the POS system, the signature capture device, while the transaction is being performed.

e. In the Receipt Display Text Area field, enter the **text** that will be printed on the customer receipt.

> **Note:**
>
> For the POS, Customer, and Receipt Display messages, only one is required to have content. You can enter values in each.

  f. Optional: Click **+Add Another** to add an additional message in a different language to the Strata Level.

  g. Repeat **Steps 14.a - f** for each Strata Level.

15. When finished entering all Strata Level messages on the **Message** tab, click **Next**.
    - If the Strata Type: Customer was selected in Stratification Details (**see Step 12**), continue to **Step 18**, the Attributes tab.
    - If the Strata Type: Loyalty or Transaction was selected in Stratification Details (**see Step 12**), the Strata Query tab displays. Proceed to **Step 16**, the Strata Query tab.

16. The Build Strata Query appears when one of the following conditions from **Step 12** are met:
    - Stratification Details: Loyalty
    - Stratification Details: Transaction
    - Stratification Details: Customer and Field To Stratify On = Attributes

Qualifying Customer Count Graph

The Qualifying Customer Count graph dynamically updates based on the values selected for the number of Strata Levels and Duration. See Duration for duration details.

Average Value Trend Graph

The Average Value Trend graph dynamically updates based on the values selected for the number of Strata Levels and Duration. See Duration for duration details.

Strata Level Values

- A list of all the Strata Levels defined for the segment display in the Strata Level selection menu. Once a selection is made (all strata levels or an individual strata) a table displays directly below the graph and includes the following values:
  - **Strata Level** - Number of the Strata Level
  - **Customer Count -** The number of Customers in the Strata.
  - **Minimum Value** - The smallest value for the field by a Customer in the Strata (will not display for Segment type = Unstratified Segment).
  - **Maximum Value** - The largest value for the field by a Customer in the Strata (will not display for Segment type = Unstratified Segment).
  - **Average Value Comparison** - The average value for the field among the Customers in the Strata.
- Duration– Durations include:
  - **Last Week** - Customer Trend for Last Week (7 days (Current date (-1)) is displayed.
  - **Last Month (Default)** - Customer Trend for Last Month (Current date (-1)) is displayed.
  - **Last 6 Months** - Customer Trend for Last 6 Months converted into weeks (Current date (-1)) is displayed.
  - **Last Year** - Customer Trend for Last 12 months (Current date (-1)) is displayed.
  - **Lifetime to Date** - Customer Trend for the last 5 years (Current date (-1)) is displayed.

Segment Details Side Panel

Registries

Overview

The Customer Item Registry allows you to set up two different types of registries:

- Gift Registry: Select the items that the recipient would like to receive - usually for a special event such as a wedding or baby shower.
- Wish List: Select items that the recipient would like to receive, without identifying a special event as with a Gift Registry

About this Chapter

This chapter contains the following information:

- Looking Up an Item Registry – Describes how to navigate to the Registries page and look up registries.
- Creating a Registry – Explains each of the five steps for creating a registry in the Registry Wizard:
  - Step 1: Information – Add the basic registry details, such as owner and type.
  - Step 2: Items – Add the items to the list for the Gift Registry or Wish List.
  - Step 3: Attributes – Add the registry attributes, if any.
  - Step 4: Addresses – Add event addresses. This only applies to Gift Registries.
  - Step 5: Review – Review the information that has been entered, make revisions if necessary, and save the registry.
- Viewing a Registry – Explains how to view a registry in read-only mode
- Downloading a Registry Report – Explains how you can download a report containing a registry's information in PDF format
- Editing a Registry – Explain the different ways to navigate to the Edit Registry page and how to edit the registry.
- Deleting a Registry – Explains how to delete a registry

Looking Up an Item Registry

There are two ways to look up an item registry. You can search all registries using the Registries icon on the main toolbar, or you can look up just the registries for a specific customer using Registries option on the Actions menu in the Customer Dashboard.

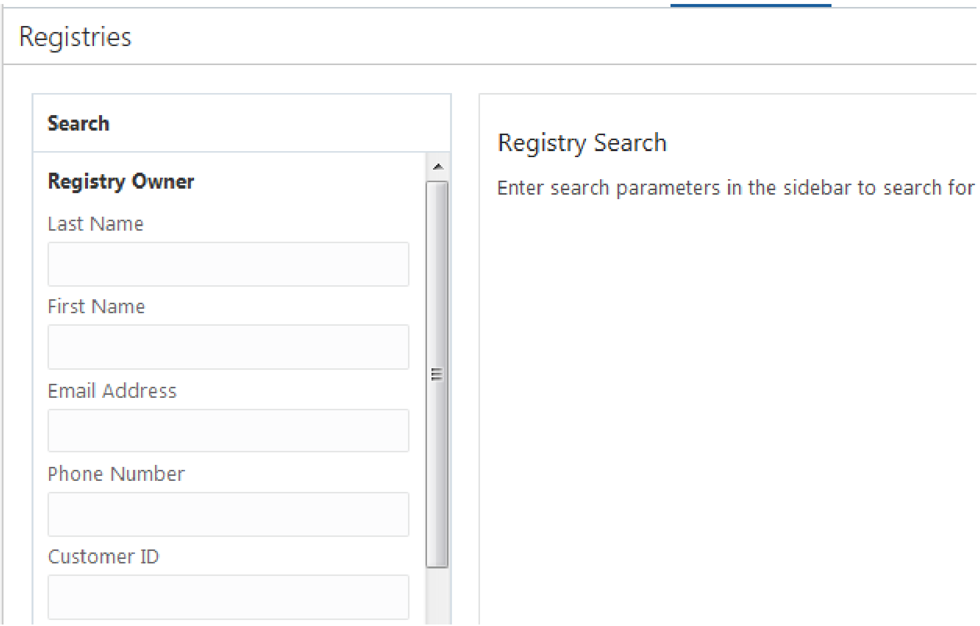
To look up a registry from the Customer Dashboard:

- From the Actions menu in the Customer Dashboard, choose the **Registries** option. This displays the list of Registries Found for the customer. See Figure 8-2.

To look up a registry from the main toolbar:

1. Click the **Tasks** icon.
2. Click **Customer**.
3. Click **Registries**. This displays the Registries page.

Figure 8-1 Registries Page



Registries
Search
Registry Owner
Last Name
First Name
Email Address
Phone Number
Customer ID
Registry Search

Enter search parameters in the sidebar to search for

4. Enter search criteria in one or more of the following fields in the Search panel:

> **Note:**
>
> To retrieve all the active Item Registries in the system, click **Search** without entering any search criteria.
>
> To clear the search fields and restore default selections in the search page, click **Reset**.

Registry Owner

- Last Name - Last name of the registry owner.
- First Name – First name of the registry owner.
- Email Address – Registry owner's email address.
- Phone Number – Registry owner's phone number.
- Customer ID – ID of the customer who owns the registry.
- Card Number – Number for a Card associated with the customer.

Registry

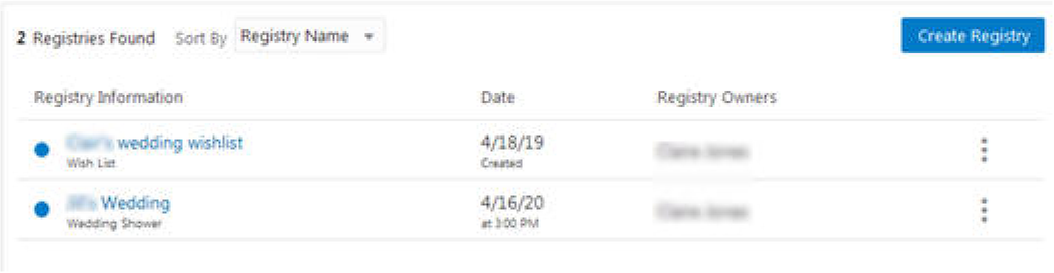
- Registry Type – Select All, Gift Registry, or Wish List from the list.
- Registry Name – Name of the registry.
- Event Type – Type of event for which the registry was created (wedding shower, for example).

> **Note:**
>
> You should not select an Event Type when searching for a Wish List, because a Wish List is not associated with an event.

- Event Date – Use the calendar to select the date on which the event occurs.
- Registry ID – The ID of the registry.

5. Click **Search**. This displays a list of registries that match the entered criteria. If you searched for the registries for one specific customer for example, by entering a complete Customer ID, you will see just that customer's registries. If you chose **Registries** from the Actions menu in the Customer's Dashboard, the registries for just that customer are displayed, as in the example following:

Figure 8-2 Registries Found List



Registry Information	Date	Registry Owners
● [redacted] wedding wishlist Wish List	4/18/19 Created	[redacted]
● [redacted] Wedding Wedding Shower	4/16/20 at 3:00 PM	[redacted]

- The number of registries that match the search criteria is shown to the left of the Sort By field.
- You can sort the registries displayed in the grid by the following options on the list:
  - Registry Name – Ascending order
  - Date Created- Descending order. This field sorts only for Wish Lists.
  - Registry Owner – Ascending order, by Last Name
  - Number of Items – Highest to lowest
- Create Registry – Displays a Create Registry window See Creating a Registry for more information.
- The registry grid displays the following information for each registry:
  - Blue dot at the left of the Wish List or Registry Name. If filled, indicates that the wish list or registry is active. If unfilled, it is inactive. Values are

    Active – displays from the time the registry is activated to the date and time of the event.

    Past – displays any time after the date and time of the event.

  - Registry Information – Shows the Registry Name and Registry Type
  - Date – The Event Date for a Registry or the Create Date for a Wish List
  - Registry Owners – The name of the Primary customer who owns the registry first, with any other owners subsequently.
- An action menu icon is displayed at the end of each row. It has these options:
  - Delete – Select to delete the registry. See Deleting a Registry.
  - Download Report – Select to download a report with information about the registry. See Downloading a Registry Report.
  - Edit – Select to edit the registry. See Editing a Registry.
- You can view registry details by clicking the name of the registry in the grid.

Creating a Registry

Step 1: Information

1. From the Actions menu on a Customer's Dashboard, choose **Registries**, or click the **Registries** icon to display the Registries window, and click Create **Registry**. Either action displays the Create Registry Wizard.

Figure 8-3 Create Registry Wizard

The progress bar at the top indicates that you are located at step 1, Information. As you progress, the Create Registry Wizard moves you through each of the five steps.

2. Under Registry Details, Select the **Registry Type**. A Gift Registry is tied to an event, while a Wish List is open-ended. This is mandatory.
3. Enter a **name** for the registry in the Registry Name field. This is mandatory.
4. If the **Ready to Publish** check box is **selected**, it indicates that the registry is available for export to a third party when the registry is saved

5. If the Registry Type is Wish List, there are no other mandatory fields under Registry Details. If the Registry Type is Gift Registry, also make selections for these mandatory fields:

   Event Type – Select an Event Type from the list.

   Event Date – Select the date and time of the event from the calendar.

   Expiration Date – Select the date that the registry expires, from the calendar.

6. Optionally, you can enter **comments** about the registry in the Comments field.
7. Optionally, you can add an **image** that represents the Gift Registry. Click **Edit** next to the logo in the Image field to display an Edit Registry Image prompt that lets you **drop or upload** a **new image**. This is only available for Gift Registries.
8. Under Registry Owners, choose **Add** from the **Actions Menu**, or click the **Add Icon**. Either action displays the Add Registry Owner window:

Figure 8-4 Add Registry Owner

9. In the search field at the top of the window, enter search criteria such as customer name or ID. A list of customers matching the search criteria is displayed. Select the customer for whom you are creating the registry. This displays the Name, ID, Alternate Key, and primary contact information of the selected customer under the search field. When you select a customer, the window is populated with available information about the customer.
10. Add any details that are missing. The following information can be entered, with mandatory fields marked by asterisks (*):
    - Primary – Indicates whether this customer is the primary owner of the registry.
    - Nickname –Enter an optional nickname for the registry owner.
    - Phone – Information about the registry owner's phone number:
      - The Phone switch defaults to On. If this switch is set to Off, the following fields are not displayed.
      - Registry Phone – Select the type of phone number being used for the registry from the list, or select Create New to enter a new phone number.
      - Phone Number – The registry phone number. This field is mandatory.

  - Extension – the extension of the registry phone number, if applicable.
  - User Label – Enter an optional user label for the registry phone number
- Email – Information about the registry owner's email address:
  - The Email switch defaults to On. If this switch is set to Off, the following fields are not displayed.
  - Registry Email – Select the type of email address being used for the registry from the list, or select Create New to enter a new email address.
  - Email – The registry email address. This field is mandatory.
  - User Label – Enter an optional user label for the registry email address
- Address – Information about the registry owner's address:
  - The Address switch defaults to On. If this switch is set to Off, the following fields are not displayed.
  - Registry Address - Select the type of address being used for the registry from the list, or select Create New to enter a new address.
  - Country – Select the country of the registry form the list.
  - Address 1-4 –The street address of the registry. Address 1 is mandatory
  - Apartment – The apartment number of the registry, if applicable.
  - City – The city of the registry. This field is mandatory.
  - State – The state or province of the registry. This field is mandatory.
  - Postal Code – The postal code of the registry. This field is mandatory.
  - County – The County of the registry.

11. Click **OK** when you are finished entering the customer details. This returns you to the Create Registry window. The customer information is displayed in the Registry Owners list. If you are done entering registry information, click **Next** to go to Step 2: Items.

Step 2: Items

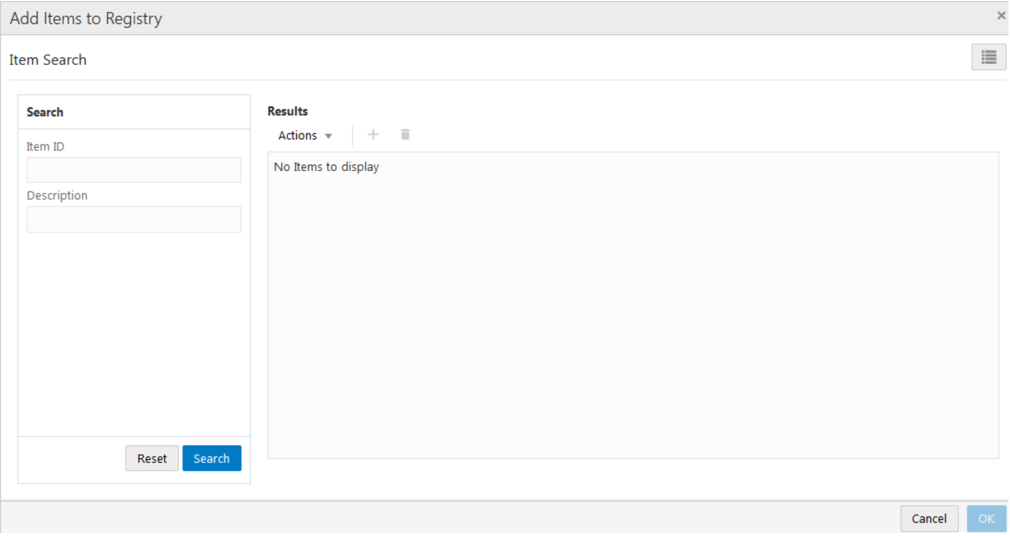
To add items to a Registry:

1. There are two methods for adding items to a registry, using the **Add** command to display the Add Items to Registry dialog, where you can search for items, or by entering the exact **Item ID** in the Quick Add field:
   - Under Items in Registry, choose **Add** from the Actions menu, or click the **Add Icon**. Either action displays the Add Items to Registry dialog:

Figure 8-6 Add Items to Registry



Add Items to Registry

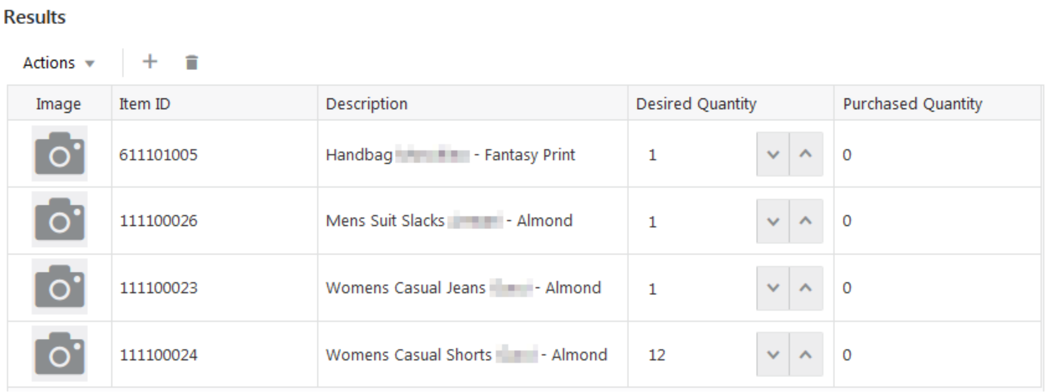
Actions
No Items to display
Cancel
OK

2. In the Search panel, enter an **Item ID**, **Description**, or **both** in the provided fields and click **Search**. This displays a list of items matching the search criteria in the Results panel. If you want to clear a search, click **Reset**. Use the Search panel to add more items.
3. The Results panel displays the Image, Item ID and Description of the items in the search results:

Figure 8-7 Search Results



Results
Actions

Image	Item ID	Description	Desired Quantity	Purchased Quantity
	611101005	Handbag [redacted] - Fantasy Print	1	0
	111100026	Mens Suit Slacks [redacted] - Almond	1	0
	111100023	Womens Casual Jeans [redacted] - Almond	1	0
	111100024	Womens Casual Shorts [redacted] - Almond	12	0

If you want to specify the desired quantity of this item, use the Increment and Decrement arrows to increase or decrease the quantity. The Desired Quantity value defaults to 1.

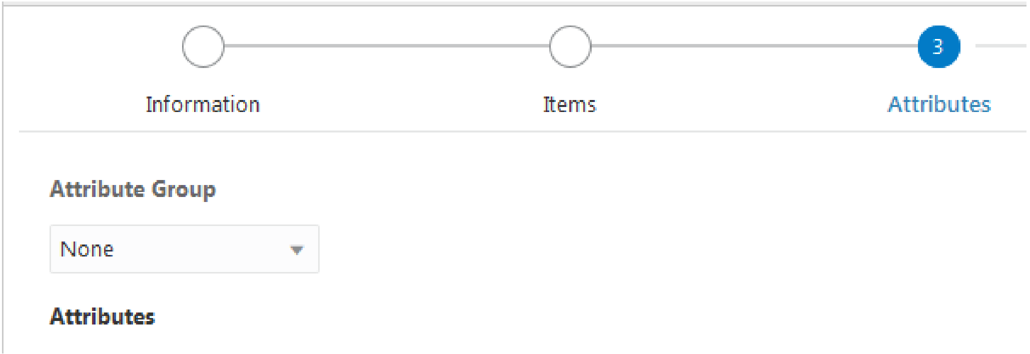
4. If you want to add an item from the Results panel to the Registry, select the item and choose **Add** from the **Actions Menu**, or click the **Add (+) Icon**. Items that you add are displayed in an Add Items to Registry panel on the right side of the page. To remove all items from the list, choose **Remove All** from the Actions menu or click the **Remove All** icon.
5. Click **OK** to add items. The selected items are added to the Items in Registry list on the Items tab.

   Or use this alternate method:

   - In the Quick Add field (see Figure 8-5), enter the exact **Item ID** and click **Add**. If the exact match is found, the item is added to the Items in Registry table. If the item is not found, the message `Invalid item` displays.
   - If the item is found, the Image, Item ID and Description of the item and a Desired Quantity field are displayed. The default quantity is 1. You can change the quantity using the Increment and Decrement arrows to increase or decrease the quantity.
6. When you are done adding items to the registry, click **Next** to go to Step 3: Attributes.

Step 3: Attributes

Figure 8-8 Registry Attributes

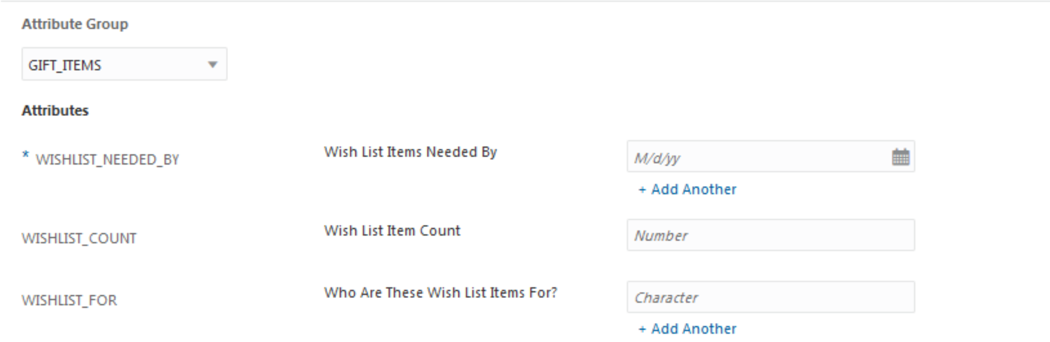


To add attributes to a registry:

1. Select a group from the Attribute Group list. A list of attributes specific to the selected Attribute Group is displayed.

> **Note:**
>
> This step is optional unless specific attributes are included in a group and you want to select any of them.

Figure 8-9   Attributes List



Attribute Group

GIFT_ITEMS

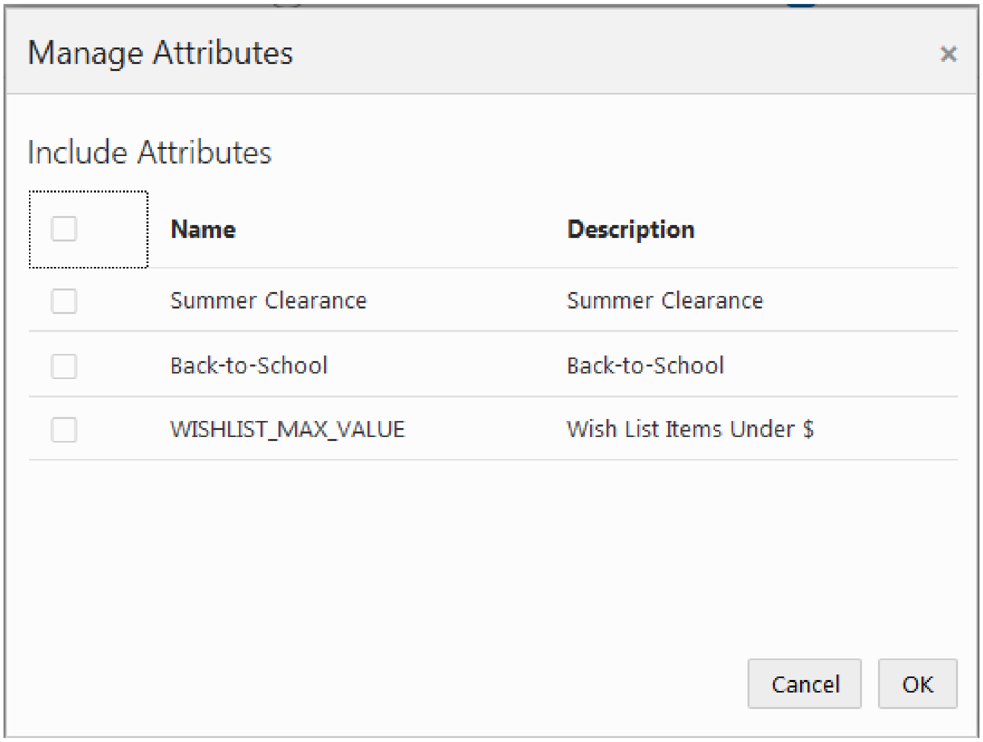
Attributes

* WISHLIST_NEEDED_BY	Wish List Items Needed By	M/d/yy + Add Another
WISHLIST_COUNT	Wish List Item Count	Number
WISHLIST_FOR	Who Are These Wish List Items For?	Character + Add Another

2. If you selected an Attribute Group, the attributes belonging to that group are listed in the Attributes grid. Enter values for the attributes you want applied to the registry. You must enter a value for each required attribute (indicated by an asterisk*).
   - The grid displays the name, description and value entry field for each attribute.
   - Attributes are displayed by group, with mandatory attributes displayed first.
   - Attribute value entry fields will initially indicate the type of value to enter, for example, (Please select) for a list of items.
   - If there is more than one possible value for the attribute, there is a + Add Another link under the attribute value entry field. Click the **+ Add Another** link if you have entered a value and need to add another. This displays a duplicate entry field for the attribute.
   - A value can only be removed if an **X** appears next to it. The **X** is only displayed if the value can be removed.
3. If you want to add attributes not assigned to the available Attribute Groups, click the **Manage** button under Additional Attributes.

> **Note:**
>
> This is only available for Wish Lists. This displays a Manage Attributes window:

Figure 8-10   Manage Attributes



Manage Attributes

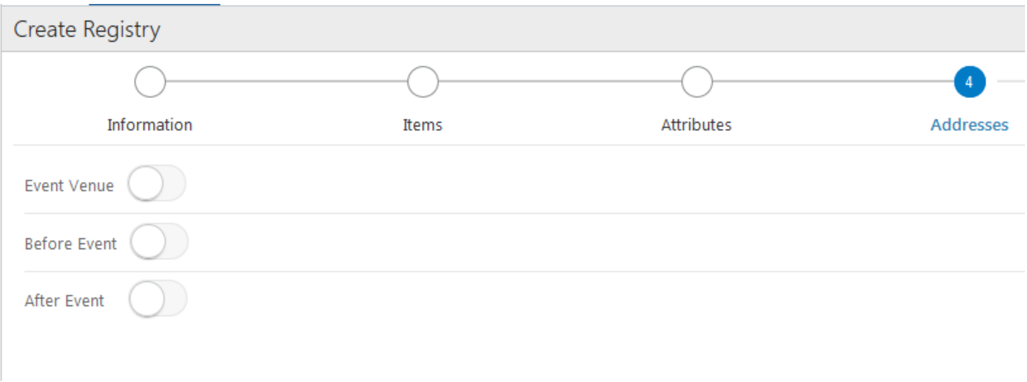
Include Attributes

☐	Name	Description
☐	Summer Clearance	Summer Clearance
☐	Back-to-School	Back-to-School
☐	WISHLIST_MAX_VALUE	Wish List Items Under $

4. Click the check box next to the Name and Description header row to select all of the attributes, or select the check box next to each attribute that you want to include, and click **OK**. The selected attributes are display beneath Manage.
5. If you have added attributes using the Manage Attribute window, specify values for those attributes.
6. When you are done selecting attributes and entering values, click **OK**.
7. Click **Next** to go to Step 4: Addresses.

Step 4: Addresses

Figure 8-11   Addresses



Create Registry

Event Venue ○
Before Event ○
After Event ○

> **Note:**
>
> This section only applies to Gift Registries.

To add Addresses:

1. Click the **switch** next to an address type to **On** to display a list of fields associated with that address. To hide the fields, set the **switch** to **Off**. The following example shows the fields associated with the Event Venue address. Fields marked with an asterisk (*) are mandatory:

   Figure 8-12 Event Venue

      Event Venue
   * Name
   * Address 1
   Address 2
   Address 3
   Address 4
   Apartment
   * City
   * State
   * Postal Code
   County
   Country
   (Please select)

2. Enter information in the fields.
   - Name – The name of the event venue. This field is mandatory.
   - Address 1-4 – The street address of the venue. Address 1 is mandatory.
   - Apartment – The apartment number, if applicable.
   - City – The city of the venue. This field is mandatory.
   - State – The state or province of the venue. This field is mandatory.
   - Postal Code – The postal code of the venue. This field is mandatory.
   - County – the County of the venue.
   - Country - The country of the venue. Choose a country from the list

     If there is a Use Address field for the event, as in the following example, select a name from the list. This will populate the remaining fields:

     Figure 8-13 Address Fields

          Before Event
     Use Address
     * Name

3. When you are done entering addresses, click **OK**.
4. Click **Next** to go to Step 5: Review. This displays a page where you can review all the information you have entered for the registry.

Step 5: Review

To review the registry:

1. Look over the information in the review page. If there is anything you want to change, click the step located in the top bar where the information was first entered. For example, click **Information** to return to the Information window. To navigate to the previous step, click **Previous**.
2. Make the changes to the information. For example, if you want to publish the registry, go back to the Information window and select the **Ready to Publish** check box. This ensures that the registry is published the next time it is saved.
3. Click **OK** to save your changes in each window.
4. Click **Review** located in the top bar, and then click **OK** in the Review window when complete. This saves the registry, and it now appears in the list of registries for the customer.

Viewing a Registry

To View a Registry

1. In the Registries Found list (See Figure 8-2), click the **name** of the registry you want to view.

   This displays the registry details in view-only mode:

3. Click **Done**. This returns you to the Registries Found list.

Downloading a Registry Report

To download a registry report either:

- In the Registries Found list (see Figure 8-2), click the Actions Menu in the row of the registry for which you want to download a report, and choose the **Download Report** option.
- In the Edit Registry Review or View Registry page, click the **Download Report** icon.

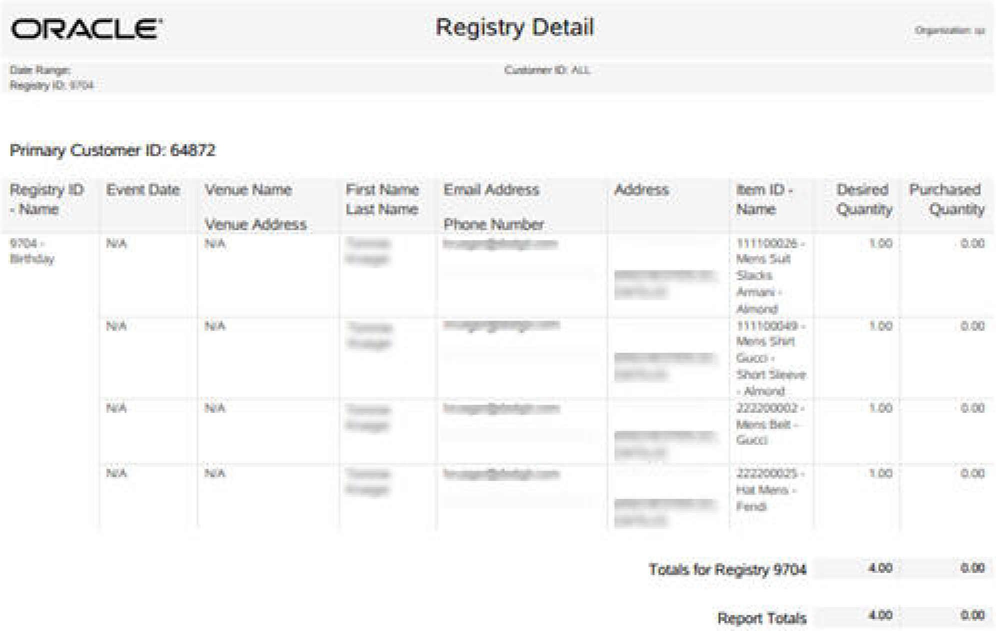
Either action displays a prompt for saving or running the report with these options:

- The steps in the prompt can vary based on the browser that is being used.
- The report is available in PDF format
- The steps in the prompt can vary based on the browser that is being used.

Registry Report Output

The following example shows the output of a downloaded registry report:

Figure 8-16 Registry Report



Registry Detail

Date Range:
Registry ID: 9704

Customer ID: ALL

Primary Customer ID: 64872

Registry ID - Name	Event Date	Venue Name Venue Address	First Name Last Name	Email Address Phone Number	Address	Item ID - Name	Desired Quantity	Purchased Quantity
9704 - Birthday	N/A	N/A	[redacted]	[redacted]	[redacted]	111100026 - Mens Suit Slacks Armani - Almond	1.00	0.00
	N/A	N/A	[redacted]	[redacted]	[redacted]	111100049 - Mens Shirt Gucci - Short Sleeve - Almond	1.00	0.00

Totals for Registry 9704	4.00	0.00
Report Totals	4.00	0.00

The Registry Report contains the following information:

Header Information

- Organization - The code identifying your organization.
- Date Range - The date range selected when generating the report.
- Customer ID - The numeric ID for the Customers selected when generating the report. Displays ALL if there was no restriction when running the report.
- Registry ID - The numeric ID for the Registries or Wish Lists selected when generating the report. Displays ALL if there was no restriction when running the report.

Detail Information

- Primary Customer ID - The unique numeric identifier for a Customer.
- Registry ID - Name - The unique numeric identifier for a Registry or Wish List, and the Name describing the Registry or Wish List.
- Event Date - The date for an Item Registry. Set to N/A for a Wish List. Repeated for each Item for the Registry.
- Venue Name and Venue Address - The Venue Name and Address for an Item Registry. Set to N/A for a Wish List. Repeated for each Item for the Registry.
- First Name and Last Name - The primary Customer's first and last name. Repeated for each Item for the Registry or Wish List.
- Email Address and Phone Number - The primary Customer's email address and phone number, as specified for the Registry or Wish List.
- Address - The primary Customer's address, as specified for the Registry or Wish List.
- Item ID - Name - The ID and Name of the Item on the Registry or Wish List.
- Desired Quantity - The desired quantity of the Item.
- Purchased Quantity - The purchased quantity of the Item.
- Totals for Registry:
  - Desired Quantity - The total desired quantity of all Items on the Registry or Wish List that are included on the report.
  - Purchased Quantity - The total purchased quantity of all Items on the Registry or Wish List that are included on the report.
- Report Totals:
  - Desired Quantity - The total desired quantity of all Items included on the report.
  - Purchased Quantity - The total purchased quantity of all Items included on the report.

Editing a Registry

If you need to edit a Registry, click the **Edit Icon** in the View Registry window (see Figure 8-13) or, in the Registries Found list, (see Figure 8-2), or click the **Actions**

menu in the row of the registry you want to edit, and choose the **Edit** option from the menu. Each action displays the registry in an editable window:

Figure 8-17   Edit Registry

You can review registry details and edit fields that are editable. Click **Next** to progress through the Edit Registry windows, or click the **Step Icons** located in the top bar. Use **Previous** to return to the previous window.

The Edit Registry window displays the same information as that in the Create Registry window, although not all fields are editable. For more information about entering the fields in a registry, see Creating a Registry.

Information in the Edit Registry windows includes that displayed in the Create Registry windows with these variations:

Information

- Title Bar
  - Title (Edit Registry for)
- Registry Details
  - Registry Type – this is not editable
  - The rest of the fields are editable
- Items
  - The Purchased Quantity for this registry is displayed on the right of the Desired Quantity field. This field is not editable
  - The rest of the fields are editable
- Attributes
  - All fields are editable
- Addresses
  - All fields are editable

Review

- Header Information
  - Displays Edit Registry for Customer name (Customer ID)
  - The Create User ID, Create Date, Update User ID, and Update Date are displayed next to the Registry Name

When you are done editing the Registry, click **OK** to save the changes.

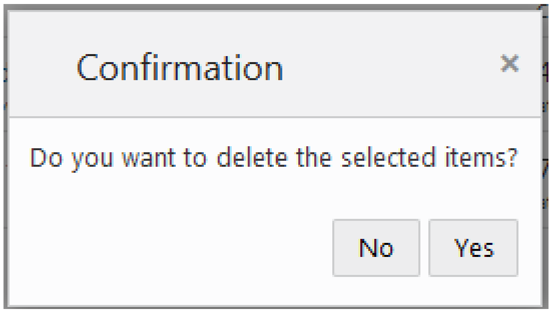
For more information about entering the fields in a registry, see Creating a Registry.

Deleting a Registry

To delete a registry:

1. In the Registries Found list (see Figure 7-2), click the **Actions Menu** in the row of the registry you want to delete.
2. Choose **Delete** from the menu, this displays a Confirmation prompt:

Figure 8-18 Confirmation Prompt



Confirmation

Do you want to delete the selected items?

3. Click **Yes** to delete the registry.

9

Customer Validation

Overview

Whenever a new Customer is added or updated, the Customer information (first name, last name, prefix, suffix, gender, address, postal code, email address and phone number) is validated. If any of the information provided does not meet the criteria of the Customer Engagement application, the Customer, address, phone, or email address is marked as invalid and a validation error is recorded. This does not affect how the information is saved or used; it just means the information did not meet the criteria.

> **Note:**
>
> The Customer validation process is determined by configuration, including whether or not validation is performed. Refer to the `Customer Engagement Cloud Services Implementation Guide` for more information, or contact your Project Manager.

Rules for Entering Customer Information

Follow these rules to ensure that the customer information entered is valid:

- **Names** - The first letter of each name, if applicable, is capitalized.
- **Prefix** (Salutation) - The user can enter anything for a prefix.
- **Suffix** - The user can enter anything for a suffix.
- **Gender** - When adding a new customer, select Male or Female from the list.
- **Address** - Address lines can be left blank.
- **Postal Code** - The user can enter anything for a postal code.
- **Email Address** - The system looks for an @ symbol in the email address. If found, the system verifies that the email address is in the proper format: accountname@sub-domain.domain. If the email address is in the wrong format, the email address is marked as invalid and a validation error is generated.
- **Phone** - The application looks for and removes any non-numeric character except for E, e, X, x, T, or t. Any leading 1 (one) characters are removed.

10

Programs

The Programs feature provides the ability to manage various programs to use in a retail environment in order to create customer loyalty. A card will be defined to hold one or more programs. The card may be a physical or electronic (used online only) card. Each defined card can associate one or more programs for the customer to use. These programs consist of three types: Tender, Award and Loyalty. Various rules and parameters can be defined for managing the program. You can use this chapter to define and manage the cards and programs used in retail locations.

Customer Engagement has the following types of Programs:

- **Tender Program -** Tender Programs define rules for gift cards or stored value cards. Only one tender program can exist on a card.
- **Award Program -** Award Programs are used to hold the awards a customer can use in the retail location. An Award Certificate can be defined with an entitlement offer that has rules on when and where the offer can be used. Additionally, an award currency value can be stored for use toward purchases in the retail store. Multiple award programs can exist on a card.
- **Loyalty Program -** Loyalty Programs are used for issuing points based on various customer activities such as purchases they make. Awards such as paper coupons, award certificates (with entitlement offer) and e-awards (with currency value) can be issued to the customer when they have earned a set amount of points. The points earned can then be used to redeem the award in a retail location. Loyalty Levels can be used to create a tiered structure to offer better benefits to the customer when they shop more frequently. An Award Program is required and used in conjunction with the loyalty program to hold the Award Certificates and the E-Award value earned based on rules defined in the loyalty program. Multiple loyalty programs can exist on a card.

About this Chapter

This chapter contains the following information:

- Program Quick Search
- Advanced Program Search
- Creating a Program
- Editing Programs
- Viewing Programs

> **Note:**
>
> If more than 25 Programs match the search criteria, the first 25 Programs are displayed. Select **Show More...** at the bottom of the page to display more Programs.

The search results display the following fields:

- Name and Description - Name and description of the program.
- Type - Program Type
- Members - Displays the number of registered customers in Customer Engagement.
- Accounts - Displays the number of individual accounts created for the program. The count will include all accounts created on the card for the program. This can include registered customers, unregistered (anonymous) customers and cards that have not be issued to anyone.
- Card - Name of Card.

6. Hover over any of the icons in the **Name and Description** column to see a tooltip listing the status of the Program as shown in Figure 10-2.
    - **Active** - Filled
    - **Inactive** - Empty
7. Click the **Card** name link for any Program to view the details. See Viewing Cards for more information. Use the Action Menu to Edit Card, Edit Program, or View Program. See Editing Cards, Editing Programs, or Viewing Programs for more information.

> **Note:**
>
> The read-only Program Information Panel displays details throughout most of the tabs of the wizard.

- **Program Type** - Select the type of Program from the available options:
  - **Tender Program** - Tender programs represent a specific corporate liability with intrinsic value that can be exchanged for merchandise.

> **Note:**
>
> When Tender Program is selected, the screen displays cards that do not already have a tender program.

    - **Loyalty Program -** Loyalty programs accumulate points issued for purchase activities or marketing engagements. Accumulated points can be converted into various awards including coupons, E-awards and Award Certificates.
    - **Award Program -** Award programs contain certificates for monetary rewards known as E-awards and merchandise discounts referred to as Award Certificates.
  - **Assign To Card**
    - **Create New Card** - Card Details will be defined in a later step. Proceed to **Step 6** for next steps.
    - **Existing Card** - Proceed to Step 6 for next steps.

6. Proceed to the step based on the type of program and card configuration chosen in the previous step.
   - If the Program Type is **Tender**, and you are creating a **new** card, click **Next** to proceed to **Step 7** the **Franchisees** tab.
   - If the Program Type is **Tender**, and you are assigning an **existing** card, proceed to Step 10 the **Tender Program** tab.
   - If the Program Type is **Loyalty**, and you are creating a **new** card, click **Next** to proceed to **Step 7** the **Franchisees** tab.
   - If the Program Type is **Loyalty**, and you are assigning an **existing** card, proceed to **Step 13** the Loyalty Program.
   - If the Program Type is **Award**, and you are creating a **new** card, click **Next** to proceed to **Step 7** the **Franchisees** tab.
   - If the Program Type is **Award**, and you are assigning an **existing** card, proceed to **Step 15** the Award Program tab.
7. The **Franchisees** tab allows you to add or change the Franchisees you wish to assign to the program.

   > **Note:**
   >
   > The Franchisee tab is only visible if the `EnableFranchiseSupport` configuration is enabled, and Franchisees are defined. If you are assigned specific franchisees, then only those franchisees you are associated with are shown.

   - If Franchisees are enabled in Customer Engagement, the Franchisees Tab appears. Proceed to **Step 8**.
   - If Franchisees are not enabled in Customer Engagement and the Program Type is **Tender**, the Tender Program tab appears. Proceed to **Step 10**.
   - If Franchisees are not enabled in Customer Engagement and the Program Type is **Loyalty**, the Loyalty Program tab appears. Proceed to **Step 13**.

- If Franchisees are not enabled in Customer Engagement and the Program Type is **Award**, the Award Program tab appears. Proceed to **Step 15**.

Award Program Details

- **Active -** Toggle on to activate the program immediately on the Start Date.
- **Name** - Name of the Program.
- **Description** - Description of the Program.
- **Start Date** - Date on which the Program starts.
- **Enable End Date -** Toggle on to activate the Ends On date selector.
- **End Date** (displays when the Enable End Date toggle is on) - Date on which the Program ends.
- **Currency** - The base currency for the Program.
- **Allow Foreign Currency** - Indicates whether or not foreign currency transactions (that is, a transaction performed in a currency other than the base currency) are applied to the Program.
- **Card Required** - Indicates whether the customer must have the physical card present during the transaction to receive credit for the transaction.
- **Card Merge Permitted** - Indicates whether or not the Card can be merged with another Card.
- **Allow Reloads** - Indicates whether or not the Program allows accounts to be reloaded.

> **Note:**
>
> The account balance for an award account holds the value of any e-awards added to an award program. If the Allow Reloads is not checked, once the initial value is used up, the program cannot add more value to the account balance. If it is checked, E Award values can continue to be added. E Awards are created and issued from loyalty programs but the value is held in a linked award program.

Account Details

- **Accounts Expire** - Toggle on to enter the preferred time period for the account to expire.
- **Initial Balance** - This initial balance will hold a currency value that will be added automatically to an award account when it is activated on an individual card. This currency value can be used in the retail location toward a purchase.

Award Expiration

- **Award Expire** - Toggle on to enter the preferred time and period for the award to expire.
- **Extend Expiration based on Activity** (appears only when Awards Expire is toggled to on) - If the check box is clear, then the expiration date is fixed and determined by the date the coupon is issued. If the check box is selected, the expiration date is initially determined by the date the coupon is issued, but is then recalculated based on the current activity date as a courtesy to the customer when they are shopping with your company.

> **Note:**
>
> Before you save the Program, you can use the **tab links** along with **Previous** and **Next** to go back to any point in the create program process and make changes.

16. When finished configuring the **Award Program**, Click **Next**. Proceed to **Award Rules** tab.
17. Enter the following for the **Award Rules** tab:

> **Note:**
>
> The Award Rules tab in the Award Program allows the user to create an award certificate and assign time and or location rules to limit when and or where they can be redeemed.

- Click the **+ Add Award Certificate** button.

Attribute Type: All
Offer Type: All
Intended Use: Entitlement
Sort By: Last Update Date
No Offer Selected
Precedence *: 1
Issue Certificate: On Demand

The Award Rules tab for the Award Program defaults the to Rule Type, Certificate Details. After the Offer is added to the Assign Entitlement Offer to Award Certificate, you are able to add additional Rule Types to this Award Certificate.

There are four sections; Search, Offers, Assign Entitlement Offer to Award Certificate, and Award Certificate.

- **Search** - Use this section to populate the Offers Section. Fields include:
  - Attribute Type
  - Maximum Offer ID
  - Offer ID
  - Offer Name
  - Offer Type
  - Intended Use

> **Note:**
>
> The Intended Use field is disabled and uses the default value of Entitlement. Only offers with an Intended Use of Entitlement can be assigned to an award certificate.

- Click **Search** to populate the Offers Section. Click **Reset** to clear all Search fields.
- **Sort By** - Select an option to sort by the following:
  - Last Update Date

  - Offer ID
  - Offer Name
  - Offer Type
- Click **Add** to populate the Assign Entitlement Offer to Award Certificate section.

  Assign Entitlement Offer to Award Certificate
- Click **Remove** to remove an offer. Return to the Offers section to select a new offer to assign.

  Award Certificate
- Enter the **Award Certificate Name**.
- Enter the **Description**.
- Enter the **Precedence** (Order in which the Award Rule will be applied if more than one Award Rule is effective).
- Select **Issue Certificate** setting.
  - On Demand
  - When Account is First Activated
  - When Card is Registered to Customer

> **Note:**
>
> When the On Demand option is selected, the award certificate can be issued manually, by a web service or by a loyalty issue rule using the Create Loyalty Award batch.

- **Award Certificate Expires -** This is a toggle switch, but it is read only. It is on or off based on the Issue Certificate setting. When Issue Certificate = On Demand, this toggle is **Off**. The expiration date is controlled by the web service or loyalty issue rule. When Issue Certificate is NOT On Demand, then the toggle is **On** (read only) and the user is required to select expiration parameters.
- To allow unlimited redemptions, toggle on **Unlimited Redemption**.
- When the Unlimited Redemption toggle is off, enter the number of **Maximum Redemptions** allowed.

  Rule Types - These are the eligibility rules that will be used to determine when the award certificate is effective.

> **Note:**
>
> The next section deals with the Rule Types available for the Award Certificate once an Entitlement Offer is assigned. Any of the Rule Types can be combined with other Rule Types.

Time Rule - Defines the time rules when the award certificate is effective.

- **Enable Time Rule** - Toggle on to activate the Time Rule Name, Description, and Time Rule Type fields, and the purpose is to define when the award certificate is effective. If it is turned off, the award certificate has no restrictions as to when it is effective.
- **Time Rule Name** - Name of the Time Rule.
- **Description** - Description of the Time Rule.
- **Time Rule Type** - Types include:
  - Eligibility Period
  - Blackout Period

Figure 10-21 Time Rule - Eligibility Period / Blackout Period

☑ 00005	00005-Solon-OH
☑ 79501	1.0 Store 79501
☑ 79901	1.0 Store 79901
☑ 79503	1.3 Store 79503

- To add an Award certificate by Specific Locations:

  > **Note:**
  >
  > The Location ID check box at the top of the list enables you to clear or select all locations. If you clear all the locations, then you can scroll through the list or search for a specific location.

  - Enter part or all of a **Location ID** or **Name**.
  - Click **Search**.
  - Select the check box for **each** of the desired **Locations**.
- To add an Award certificate using Include By Attributes and Locations or Exclude By Attributes and Locations
  - Click **Add** to select an attribute. The By Attributes and By Location options can be collapsed or expanded.
  - After the initial selection, additional choices display in the query with the condition, **Or** (one or more of the conditions must be met). Click **Or** to change to **And** (both conditions must be met).
  - Click the **Vertical Ellipsis** and select **Remove** to clear the attribute from the query.
- Click **OK** to add the Award Certificate to the Program or click **OK and Add Another** to add another Award Certificate. Click **Cancel** to close the window without adding the Award Certificate.

18. When finished entering all the Award Rules to the Award Certificates, in the Award Rules tab, click **Next**.

- **Create New Card** - Proceed to **Step** 29, the **Card Definition** tab.
- **Existing Card** - Proceed to **Step** 44, the **Review** tab.

19. When finished defining **Account Details** do the following:
    - If you are creating a **new** card, click **Next** to proceed to **Step** 29 the **Card Definition** tab.
    - If you are assigning an **existing** card, click **Next** to proceed to **Step** 36, the **Review** tab for the **Tender Program**.
20. The **Levels** tab displays information for each Level in the **Loyalty Program**. Enter the following information to add Loyalty Levels.

Figure 10-23 Levels Tab

Customer Eligibility Processing

- Select the **Use Customer Associated To The** Loyalty Card or Transaction.

> **Note:**
>
> When Loyalty Card is selected, the customer associated to the card is used to evaluate audience rule eligibility. When Transaction is selected, the customer associated to the transaction is used.

Points Details

- **Calculation Type** - Indicates the value that is used as the point-determination method.
  - **The value of each item purchased** - The sale amount of each item purchased in the transaction.

  - **The quantity of each item purchased** - The quantity of each item purchased in the transaction.
  - **The number of marketing engagements** - The number of times the customer interacts with marketing media, such as watching a video online.
  - **The number of qualifying transactions** - The number of qualifying transactions made by the Customer.
  - **The number of qualifying visits** - The number of qualifying visits made by the Customer
- **Bonus Points** - Indicates whether this Issue Rule stipulates that the Loyalty Program issues points as Bonus Points (defaults to ON if the Calculation Type is The number of marketing engagements) or Regular Points.
- **Fixed Amount** - The Fixed Amount, if any, assigned to each transaction or marketing engagement.
- **Points Multiplier** - The number multiplied by the value indicated in the Calculation Type field (only shown if the selected Calculation Type is either The value of each item purchased or The quantity of each item purchased).
- **Maximum Transactions Per Day** - The maximum number of sales transactions in a single day that will be used to calculate Loyalty points.
- **Transaction Minimum Value** - Minimum amount of a transaction for it to be applied to a Loyalty account.
- **Include Non-Merchandise Charges** - Determines whether points will be issued for non-merchandise charges in a transaction.
- **Allow Zero Price** - Determines whether points will be issued for zero priced items in a transaction.

Issuance Rules - Displays when the Calculation Type is, The number of marketing engagements.

- **Frequency Period** - This field determines the time period used to control the frequency with which a Customer can earn points through marketing engagements. Can be set to One-time only, Daily, Weekly, Monthly, or Yearly.
- **Issues Per Period** - The number of times a Customer can earn points through marketing engagements during the Frequency Period. Set to 1 if the Frequency Period is One-time only.
- **Unlimited Issuance** - Determines whether points can be issued an unlimited number of times during the Frequency Period.
- **Rule Count Limit** - The total number of times a Customer can earn points through marketing engagements.

Rule Types - Rules to set limits on how and when Issue Rules are applied and used.

> **Note:**
>
> Availability of Rule types are based on a previously selected Calculation Type.

> **Note:**
>
> The next section deals with the seven Rule Types available. They can be combined within a single Issue Rule.

Time Rule - Defines the time rules when loyalty points can be issued for a loyalty program, that rewards customers when they purchase during specific hours and date ranges.

Points Cost Type: Fixed

Issue Award: When Create Loyalty Award Batc...

Start Date *: 09/01/21

Ends On *: 09/01/22

E Award Details

Award Program: July Awards

Coupon Prefix *: 00120

Awards Rule Details

- Enter the **Points Cost Type**. The fields in the Award Rules Details section for an E Award will change depending upon the value in the Points Cost Type Selection Menu
  - **Fixed** - E Award is a fixed amount.
  - **Cashback** - E Award value will depend upon the number of points in the Loyalty Account, which allows for full redemption.
- Enter the **Award Name**.
- Enter the **POS Name**.
- Enter the **Description**.
- Enter the **Precedence** (Order in which the Award Rule will be applied if more than one Award Rule is effective).
- Select **Issue Reward** setting.

> **Note:**
>
> When the Issue Certificate is set to Immediately Upon Transaction Posting, the award certificate will be issued to a customer account as soon as the system processes the purchase activity. If the selection is set to When Create Loyalty Award Batch Runs, the award certificate will not be issued after the scheduled batch job runs.

- Enter the **Award Factor** (Cashback only). A multiple used to convert points to an E-Award amount (in the base currency of the Award Program).

- **Reset Balance** (Cashback only) - Indicates whether the loyalty points balance is reset when the Award is issued.
- Enter the **Points Threshold**.
- Enter the **Start Date**.
- **End Date** - Toggle the End Date to **On** to enter an End Date if desired.

  E Award Details
- Select an **Award Program**.

> **Note:**
>
> The list will display the award programs already on the selected card

- Enter the **Award Amount**.
- Enter the **Minimum Award Amount** (Cashback only).
- Enter the **Coupon Prefix**.
- **Award Expire** - Toggle on to configure expiry settings.
  - Select **Expiration Type**.

    Relative - Enter the Expires After value and select a Time Period.

    Program - E Award will use the Award Expiration defined for the award program the E Award will be held in.

There are five sections; Search, Offers, Assign Entitlement Offer to Award Certificate, Award Rule Details, and Certificate Details.

- **Search** - Use this section to populate the Offers Section. Fields include:
  - Attribute Type
  - Maximum Offer ID
  - Offer ID
  - Offer Name
  - Offer Type
  - Intended Use

> **Note:**
>
> The Intended Use field is disabled and uses the default value of Entitlement. Only offers with an Intended Use of Entitlement are assigned to an award certificate.

- Click **Search** to populate the Offers Section. Click **Reset** to clear all Search fields.
- **Sort By** - Select an option to sort by the following:
  - Last Update Date
  - Offer ID
  - Offer Name
  - Offer Type
- Click **Add** to populate the Assign Entitlement Offer to Award Certificate section.

Assign Entitlement Offer to Award Certificate

- Click the **X** to remove an offer. Return to the Offers section to select a new offer to assign.

Award Rule Details

- Select the **Award Program**.

> **Note:**
>
> An Award Certificate can be previously created in an Award Program on the same card as the Loyalty Program. Additionally, a new Award Certificate can be created from the Loyalty Program and associated with an Award Program on the same card. If an existing award certificate exists for the selected offer, the Award Program will be defaulted into the options list. If the offer is NOT associated with an existing award certificate, the first active award program on the card will display by default and the award certificate will be created from the Loyalty Program.

- Enter an **Award Rule Name**.
- Enter a **POS Name**.
- Enter a **Description**.
- Enter the **Precedence** (Order in which the Award Rule will be applied if more than one Award Rule is effective).
- Select **Issue Reward** setting.

> **Note:**
>
> When the Issue Certificate is set to Immediately Upon Transaction Posting, the award certificate will be issued to a customer account as soon as the system processes the purchase activity. If the selection is set to When Create Loyalty Award Job Runs, the award certificate is issued after the scheduled job runs.

- Enter the **Points Threshold**.
- Enter the **Points Cost**.
- Enter the **Start Date**.
- **End Date -** Toggle the End Date to **On** to enter an **End Date** if desired.
- Enter the **Coupon Prefix**.
- **Award Certificate Expires -** Toggle to **On** to configure the expiry settings.
  - Select an **Expiration Type**.

    Relative - Enter the **Expires After** value and select a **Time Period**.

    Program - Award Certificate will use the Award Expiration defined for the award program the Award Certificate will be held in.

Certificate Details

> **Note:**
>
> If the user selects an offer that is already assigned to an existing award certificate, the fields in the Certificate Details section will be populated and will be read only.

- Enter the **Award Certificate Name**.
- Enter the **Description**.
- Enter the **Precedence** (Order in which the Award Rule will be applied if more than one Award Rule is effective).
- Toggle **Unlimited Redemption** to **On** to allow unlimited redemptions.
- Enter the **number** of **Maximum Redemptions** (Displays when Unlimited Redemptions is OFF).

26. Either click **OK** to accept all changes for the configured Award Rules or click **Cancel** to close without saving.

> **Note:**
>
> Before you save the Program, you can use the **tab links** along with **Previous** and **Next** to go back to any point in the create program process and make changes.

27. When finished entering all **Award Rules**, click **Next** to go to the **Movement Rules** tab.

    Movement Rules determine how customers are moved from one Loyalty Level to another. Movement Rules are accessed through the Loyalty Level to which they belong.

    Figure 10-42 Movement Rules Tab

    
    One or more levels do not have a movement rule.

- Click **+ Add Movement Rule**.
- Select a **Movement Rule Type**.
  - **Advancement -** The Customer Account is moving to a higher level.
  - **Sustain -** The move is a lateral move.
  - **Demotion -** The Customer Account is moving to a lower level.
- Select the **Levels** to configure using the **From**, **To**, or **Sustain** option list.

> **Note:**
>
> Advancement and Demotion Movement Rule Types both use the From and To option lists. The Sustain Movement Rule Type uses the Sustain option list. All three Movement Rule Types share the same Movement Rule and Test Details.

Movement Test Details

Test Type: Average Points Earned Per Month

Test Period: 1

- Enter the **Name**.
- Enter the **POS Name**.
- Enter the **Description**.
- Enter the **Precedence** (Order in which the Award Rule will be applied if more than one Movement Rule is effective).
- Select **Change Level** setting.

> **Note:**
>
> When the Change Level is set to Immediately Upon Transaction Posting, the movement rule will be applied to a customer account as soon as the system processes the purchase activity. If the selection is set to When Create Loyalty Award Job Runs, the movement rule will be applied when the scheduled job runs.

- Enter the **Points Threshold**.
- Enter the **Points Cost**.
- Enter the **Start Date**.
- **End Date** - Toggle the End Date to **On** to enter an **End Date** if desired.

  Movement Test Details
- Select the **Test Type**. Type of test performed to determine whether a Customer should be moved. This Selection Menu has the following options:
  - **YTD Points** - Movement depends upon the number of points earned year-to-date in the Customer account.
  - **LTD Points** - Movement depends upon the number of points earned lifetime-to-date in the Customer account.
  - **Points Earned Since Last Level Move** - Movement depends upon the number of points earned since the last level move, or the creation of the Customer account.
  - **Average Points Earned Per Month** - Movement depends upon the average number of points earned per month in a defined number of months.
  - **Time Period Since Last Level Move** - Movement occurs after a defined period of time has passed since the last level move, or the creation of the Customer account.
- Enter the **Test Period**. The number of periods (from Test Period Type) used for the movement test (visible only if the Test Type is either Average Points Earned Per Month or Time Period Since Last Level Move).
- Enter the **Test Period Type**. The type of period used for the movement test (visible only if the Test Type is Time Period Since Last Level Move)
- **Extend Sustain Period** - When the toggle is on, then customers remain at the same level for an additional amount of time past the test period until the customer meets additional criteria.
  - Select the **Extension Test Type**.
  - Enter the **Extension Test Period** (only visible when the Extension Test Type is Average Points Earned Per Month).
  - Enter the **Extension Points Threshold**.
  - Enter an **Extend By** value.
  - Enter the **Period Type**.
- Click **OK** to save, click **Cancel** to close without saving, or click **OK and Add Another** to save the Movement Rule and configure additional Movement Rules.

28. When finished defining Movement Rules do the following:
    - If you are creating a **new** card, click **Next** to proceed to **Step 29** the Card Definition tab.
    - If you are assigning an **existing** card, click **Next** to proceed to **Step 38**, the Review tab for the Loyalty Program.
29. The **Card Definition** tab allows you to add a card image and identify the contact details if there is a supplier for the physical cards. Enter the following information:

Card Series Details

- **Series Name** - Name of the Card Series Distribution.
- **Description** - Description of the Card Series Distribution.
- **Generate Series**
  - Toggle on - When the wizard is completed, the card series is generated.
  - Toggle off (Default) - Card numbers in the series are generated individually on demand.

- **Card Series Expire** - Determines the type of expiration date to use for the Card Series Distribution. This Selection Menu has the following options:
  - **Relative** - The ending expiration date will be a certain, defined period of time after the initial activation date. If this option is selected, the Expire After section displays the Number of Periods and Period Type fields.
  - **Fixed** - Beginning and ending expiration dates are defined by the User.
- To Import Card Numbers, either:
  - **Drag and Drop** a file as shown in Figure 10-47.

Figure 10-47 Import Card Numbers

  - Click anywhere in the **Drop file here or click to upload** box.

Figure 10-48 Import Card Numbers

CardLevelAttributes.csv

6 anticipated cards to import (No Errors)

Data Preview:

Card Number: PET1234567890123456

PIN: 333112

Tender Balance: 5.00

Loyalty Balance: 100.00

Award Balance: 20.00

Card Import File Field Information

When importing external card numbers for a card series, the Import File listing the numbers must have the following fields for each line:

- CARD_NUMBER [required]
- CARD_PIN_NUMBER [optional]
- Tender Balance Amount [optional]
- Loyalty Balance Amount [optional]
- Award Balance Amount [optional]
- ATTRIBUTE NAME 1 [optional]
- ATTRIBUTE VALUE 1 [optional], but required if ATTRIBUTE NAME 1 specified
- ATTRIBUTE NAME 2 [optional]
- ATTRIBUTE VALUE 2 [optional], but required if ATTRIBUTE NAME 2 specified
- ATTRIBUTE NAME 3 [optional]
- ATTRIBUTE VALUE 3 [optional], but required if ATTRIBUTE NAME 3 specified
- ATTRIBUTE NAME 4 [optional]
- ATTRIBUTE VALUE 4 [optional], but required if ATTRIBUTE NAME 4 specified
- ATTRIBUTE NAME 5 [optional]
- ATTRIBUTE VALUE 5 [optional], but required if ATTRIBUTE NAME 5 specified

A placeholder must be used for all fields. For example, to include a card number of 1234567890123456 with a PIN of 123456, a Tender Balance Amount of 10, a Loyalty Balance Amount of 20, an Award Balance Amount of 30, and a CARD_REDEMPTION_ INFO attribute of Redeemed Solon, OH, the following line would be included in the Import File:

1234567890123456,123456,10,20,30,CARD_REDEMPTION_INFO,"Redeemed Solon, OH",,,,,,,

Note the empty fields for the remaining four attribute names and values in the example.

Card Import File Validation

- The card numbers cannot be duplicates to any cards already in the database.
- The card number prefixes must be valid for the card definition.
- The activation amounts must be valid numbers.
- The card number length does not need to match the length specified for the card definition.
- If an activation amount is provided in the import file, the card will be activated upon creation. If no amounts are provided the card will remain inactive.
- The activation amounts are in the program’s base currency.

Remove an Imported File

You have the option to remove the file at any time before the wizard is completed. Click **Remove** to remove the imported file.

> **Note:**
>
> The Import Card Numbers option is not allowed once cards have been generated for the card series.

Card Batch Details

- **Total Cards** - Total Number of cards to be generated for the Card Definition.

> **Note:**
>
> This field is filled in automatically when card numbers are imported.

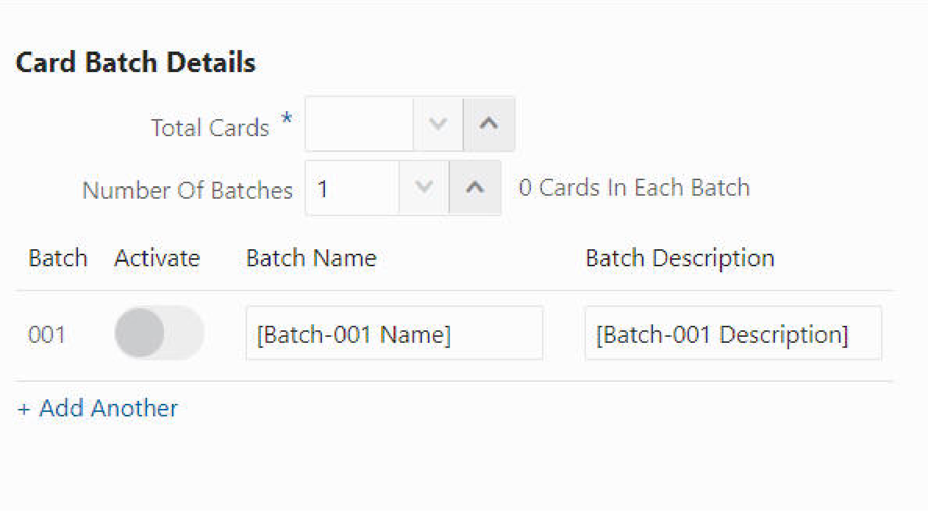
- **Number of Batches** - The number of separate Card batches included in the Card Series Distribution.

Activate Cards

When the wizard is completed, the cards in the batch set to activate will be set to active. If this is toggled off, the cards can be activated from the **Card Series** tab or from the **View Card** screen.

To activate a set of Cards within Card Series configuration:

Figure 10-49 Card Batch Details



Card Batch Details

Total Cards *

Number Of Batches 1

0 Cards In Each Batch

Batch	Activate	Batch Name	Batch Description
001	○	[Batch-001 Name]	[Batch-001 Description]

- **Activate** - Toggle on to activate the Cards when the wizard is completed.
- Enter a **Batch** Name.
- Enter a **Batch Description**.

> **Note:**
>
> Click **+ Add Another** to add another batch. You can also adjust the **Number of Batches** field. Click the **X** icon next to each Batch to remove a batch from the list.

- Click **OK** to add the Card Series to the Program or click **OK and Add Another** to add another Card Series. Click **Cancel** to close the window without adding the Card Series.

Program has been updated successfully

- Edit Program - See Creating a Program for details.

Editing Cards

Once a program has been created, you can edit the card associated with the program. You have the ability to edit certain information in the Franchisees, Card Definition, Card Series and Attributes tab. Once changes are made you can save the edited card.

There are a few places you can find the Edit Card option in order to edit a Card associated with a Program:

- Select **Edit Card** in the Action Menu (also known as the Overflow Menu) icon for each individual Program on the Program Advanced Search window.
- Select **Edit Card** in the Action Menu (also known as the Overflow Menu) icon for each individual Program on the Program Quick Search window.

Program Scorecards

The Program Scorecard provides statistical analysis about an individual Tender, Award, or Loyalty Program. The scorecard displays the number of accounts and activity for the program in order to see how much the program is being used, including outstanding balances.

Viewing the Tender Program Scorecard

The Program Scorecard provides a snapshot of how a Tender Program is doing.

To access the Program Scorecard for analysis on a Tender Program, the user can select the Tender Program name link on either the Programs List or the Programs Advanced Search results windows.

To access the Programs List:

1. From the **Main** menu, click **Tasks**.
2. Click **Program**.
3. Click **Program Home**. This displays the Program Home tab which contains the Program List.

Note:

You will need the Program Home role in order to see this menu option.

5. The Program Scorecard window displays the following sections:
   - **Title** (displays on all windows) - Displays the Name and ID of the Tender Program as well as an indicator of whether the program is currently active or inactive (a solid Blue Dot represents an Active Program while an Empty Dot represents an Inactive Program).

> **Note:**
>
> When the aggregate job for a Program Scorecard has not yet run for the month, there is no column in the graph for the new month. A message appears to the right of the Name and ID of the Tender Program with the aggregate job identified to let you know why that column is not there, and shows you the job name so you can research the job if several days have gone by and the column is not appearing.

> **Note:**
>
> The Title section also displays a vertical ellipse. Click the vertical ellipse to either Edit or View the Program. See Editing Programs or Viewing Programs for more information.

- **Analysis Toggles** - (chart displays on all windows) The following Analysis toggles are included for the Tender Program Scorecard:
- **Accounts Analysis**
  - Active Account Rate - The percentage of currently Activated Accounts that have been activated out of the total.
  - Current Active Accounts - The total number of accounts currently active for the selected program.
  - Total Cards - Total number of cards in all series.
  - Card Series - Number of card series.
- **Accounts Analysis Chart** - Displays Last Year or Lifetime to Date analysis of the Active Accounts.

Accounts Summary

Loyalty Program Levels	Percent Of Program	Points Issued	Points Redeemed	Members Who Received Points	Average Points Balance
Loyalty Program Total	100.00%	7,645,892.12	1,995,000.00	109,862	51.43
● Daily - Loyalty Level 1	100.00%	7,645,892.12	1,995,000.00	109,862	51.43

5. The Program Scorecard window displays the following sections:
    - **Title** (displays on all windows) - Displays the Name and ID of the Loyalty Program as well as an indicator of whether the program is currently active or inactive (a solid Blue Dot represents an Active Program while an Empty Dot represents an Inactive Program).

> **Note:**
>
> When the aggregate job for a Program Scorecard has not yet run for the month, there is no column in the graph for the new month. A message appears to the right of the Name and ID of the Loyalty Program with the aggregate job identified to let you know why that column is not there, and shows you the job name so you can research the job if several days have gone by and the column is not appearing.

> **Note:**
>
> The Title section also displays a vertical ellipse. Click the vertical ellipse to either Edit or View the Program. See Editing Programs or Viewing Programs for more information.

Analysis Toggles - (chart displays on all windows) The following Analysis toggles are included for the Loyalty Program Scorecard:

- **Accounts Analysis**
  - Customers in Program - The percentage of customers that are active members of the selected program. This includes both primary and secondary account holders.
  - Current Active Accounts - The total number of accounts currently active for the selected program.
  - Registered Accounts Total - The total number of accounts that are registered to customers and are not anonymous for the program.
  - Registered Accounts Percentage - The percentage of active accounts that are registered to customers compared to all accounts (registered plus anonymous) for the program.
- **Accounts Analysis Chart** - Displays Last Year or Lifetime to Date analysis of the Active Accounts by using the Newly Registered or Total Registered toggles.

5. The Program Scorecard window displays the following sections:
   - **Title** (displays on all windows) - Displays the Name and ID of the Award Program as well as an indicator of whether the program is currently active or inactive (a solid Blue Dot represents an Active Program while an Empty Dot represents an Inactive Program).

     > **Note:**
     >
     > When the aggregate job for a Program Scorecard has not yet run for the month, there is no column in the graph for the new month. A message appears to the right of the Name and ID of the Award Program with the aggregate job identified to let you know why that column is not there, and shows you the job name so you can research the job if several days have gone by and the column is not appearing.

     > **Note:**
     >
     > The Title section also displays a vertical ellipse. Click the vertical ellipse to either Edit or View the Program. See Editing Programs or Viewing Programs for more information.

   - **Metrics** (displays on all windows)
     - Redemption Rate LTD - The percentage of lifetime to date awards redeemed from those that have been issued.
     - Outstanding E-Award Value - The total value of e-awards available for redemption.

  - Customers in Program - The percentage of customers that are active members of the selected program out of all customers. This includes both primary and secondary account holders.
  - Current Active Accounts - The total number of active accounts. This includes registered and anonymous accounts.
  - Registered Accounts Total - The total number of accounts that are registered to customers and are not anonymous for the program.
  - Registered Accounts Percentage - The percentage of active accounts that are registered to customers compared to all accounts (registered plus anonymous) for the program.

Job Management

In Customer Engagement, Job Management is used to view and edit Jobs scheduled to be run in Customer Engagement.

About this Chapter

This chapter contains the following information:

- Job Quick Search
- Job Advanced Search
- Viewing a Scheduled Job
- Creating a Scheduled Job
- Editing a Job
- Deleting a Job
- Disabling a Job
- Enabling a Job
- Running a Job Immediately
- Viewing a Job in Process Queue
- Jobs and Tasks
- Configure Job Parameters

Job Quick Search

Job Quick Search displays a list of results as you type in characters in the search box. To use the Job Quick Search do the following:

1. Click the **Menu** icon.
2. Click **Job Management**.
3. Click **Job Home**. The Job Management window opens.

Job Quick Search - Process Queue and Alerts Tiles

These tiles display the following information for each job.

- Name and Description - Name and Description of the Job.
- Job Run ID - ID Number of the Job.
- Status - Current status of the Job.
- Started - The date and time at which the Job started running.
- Ended - The date and time at which the Job stopped running.
- Tasks - The number of Tasks performed by the Job.
- Success - The number of Tasks completed successfully by the Job.
- Error - The number of Tasks in the Job that resulted in an Error.
- Canceled - The number of Tasks in the Job that were canceled.
- Skipped - The number of Tasks in the Job that were skipped, possibly because an error occurred in a previous task.

Perform the following steps to search for a Job:

1. Click the **Process Queue** or **Alerts** tile.

2. In the Search for a Job field, enter the **Task Type**, **Group Type**, **Status** or **Job ID** of the Job you want to search for. Select **Partial** to search for Jobs that partially match the search text, or select **Exact**, to search for an exact match.

The Job Scheduling Tiles displays the following information for each Job:

- Job Status - Indicates whether the Job is currently enabled. A full circle indicates the Job is active. An empty circle indicates the job is inactive.
- Name and Description - Name and Description of the Job.
- ID - ID Number of the Job.
- Frequency - The frequency at which the Job is performed.
- Next Run Time - The Time at which the Job is run next.

Perform the following steps to search for a Job.

1. Click the **All Scheduled Jobs**, **Daily**, **Weekly**, or **Monthly** tile.
2. In the Search for a Job field, enter the **Name**, **Frequency**, or Viewing a Job in Process Queue of the Job you want to search for. Select **Partial** to search for Jobs that partially match the search text, or select **Exact**, to search for an exact match.

● Once, Immediately

☐ Override Job Processing Window

Job processing window is based on server time. The current server time is 8/20/20 1:06 PM

> **Note:**
>
> As shown in **Figure Figure 11-23**, hovering the mouse over the Job Processing Window enables the Zoom in and Zoom out icons. Click these icons to better view the days and times.

6. Select one of the following Job Execution Frequencies:
   - **Once, Immediately** to run the Job immediately, once you have finished creating/saving this job. If you select this option, continue with **Step** 6.f.
   - **Once, Later** to run the Job at a later date. If you select this option, continue with **Step** 6.a.
   - **Daily** to run the Job every day. If you select this option, continue with **Step** 6.a.
   - **Daily, Business Days Only** to run the Job only on business days (that is, Monday through Friday). If you select this option, continue with **Step** 6.a.
   - **Weekly** to run the Job once each week. If you select this option, continue with **Step** 6.a.
   - **Monthly** to run the Job once each month. If you select this option, continue with **Step** 6.a.

   a. Use the **Start Date Calendar Menu** to select the start of the date range in which the Job will run. If you selected a Job Execution Frequency of Once, Later, continue with **Step** 6.e.

   b. Use the **End Date Calendar Menu** to select the end of the date range in which the Job will run.

   > **Note:**
   >
   > For Daily, Daily, Business Days Only, Weekly, and Monthly, if **Disable End Date** is **selected**, the End Date configuration is deactivated, leaving the Job in effect, forever. To enable the End Date Calendar Menu, clear the check box.

   If you selected a Job Execution Frequency of **Daily**, or **Daily, Business Days Only**, continue with **Step** 6.e.

   If you selected a Job Execution Frequency of **Weekly**, continue with **Step** 6.c.

   If you selected a Job Execution Frequency of **Monthly**, continue with **Step** 6.d.

   c. Use the Day of Week Selection check boxes to select the days of the week that you want the Job to run. Continue with **Step** 6.e.

   d. Use the Day of Month Selection Menu to select the day of the month on which the Job will run.

   e. Use the Job Execution Time Menus to determine the time at which the Job will run.

It is recommended that you select a time that is within the Job Processing Window. If you select a time outside the Job Processing Window, the Override Job Processing Window setting (**see Step 6.f**) must be checked for the Job to run.

f. Use the Override Job Processing Window Check Box to indicate whether the Job should run, even if it is scheduled outside the Job Processing Window. See the Job Processing Window for more information on how the Job Processing Window works.

7. After defining the schedule, click **Next** to proceed to the **Review** tab.

Override Job Processing Window

Editing a Job

To edit an existing Job:

1. Navigate to Job Home. See Job Quick Search.
2. Click the **All Scheduled Jobs** tile.

   The Scheduled Jobs list appears.
3. Search for the Job. See Job Quick Search - Job Scheduling Tiles or Job Advanced Search.
4. For the Job you want to edit, click the **Action Menu**.
5. Click **Edit**. The Job Create Wizard opens with all fields populated with the current configuration information.

Job Execution Frequency Once, Later

6. Use Wizard Navigation to make any necessary changes. See Creating a Scheduled Job for a description of the fields and information.
7. When you are finished making changes to the Job, do one of the following, either:
   - Click **Save** to save the Job with the current settings and return to the Scheduled Jobs List or
   - Click **Cancel** to delete all changes and return to the Scheduled Jobs List.

Deleting a Job

To delete an existing job:

1. View a Job. See Viewing a Scheduled Job.
2. Click the **Action Menu**.
3. Click **Delete**.

   A warning message appears.

Figure 11-29 Warning Message

Are you sure you wish to terminate the following schedule: 4637: Sec Test;

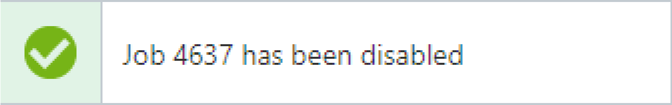
4. Click **Ok** to delete the job or **Cancel** to return to the Job.

Disabling a Job

To disable an existing job:

1. View a Job. See Viewing a Scheduled Job.
2. Click the **Action Menu**.
3. Click **Disable**.

Figure 11-30 Confirmation Notification



Job 4637 has been disabled

> **Note:**
>
> A confirmation notification appears to confirm the job has been disabled.

4. Click **Done** to close the job and return to the Job list.

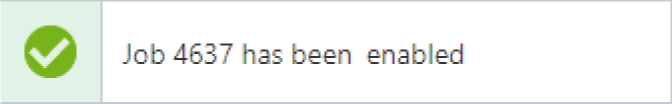
   An empty circle before the Job Name indicates the job is disabled.

Enabling a Job

To enable a previously disabled job:

1. View a Job. See Viewing a Scheduled Job.
2. Click the **Action Menu**.
3. Click **Enable**. A confirmation notification appears to confirm the job is enabled.

Figure 11-31 Confirmation Notification



Job 4637 has been enabled

4. Click **Done** to close the job and return to the Job List.

   A filled circle before the Job Name indicates the job is enabled.

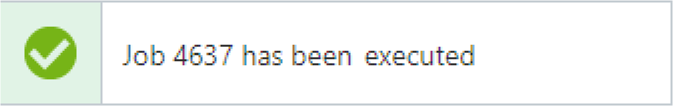
Running a Job Immediately

To run an existing job immediately:

1. View a Job. See Viewing a Scheduled Job.

2. Click the **Action Menu**.
3. Click **Run Job Immediately**.

Figure 11-32 Confirmation Notification



Job 4637 has been executed

> **Note:**

6. Click the **Action Menu** and then click **Refresh** to update the Task Run fields.
7. Click **Done** to close the job and return to the Process Queue for that job.

Jobs and Tasks

Jobs include one or more tasks that are chained together to run sequentially.

Each Job has additional parameters that must be configured. For information about these parameters, see Configure Job Parameters.The type of tasks that can be scheduled within a job are described in this section.

Customer Tasks

This section describes customer tasks.

Location Mass Assignment

This task searches Customer transaction histories in a selected date range and assigns each Customer to a Home Location, based on where the Customer shopped most frequently over the chosen date range.

In the database, there are two location fields: Home Location and Sign-Up Location. The system expects to see the Sign-Up Location populated from the POS or other data entry client. This field is static.

The Home Location field is intended to be the location to which the Customer is assigned as their primary location. As an example; it is possible that a Customer signs up in a location during a trip. However, there is a location in the Customer's neighborhood and subsequent to sign up, the Customer is seen to shop there regularly. As a basic management function, the administrator wants to assign the Customer to this location.

As Customers move around and as a retailer opens and closes locations it is a common, on-going requirement to assign and re-assign Customers to a home location. The Location Mass Assignment task will re-assign Customers to the home location where they shopped most frequently during the selected date range.

See Location Mass Assignment for job scheduling details.

Duplicate Search

This process allows you to schedule a search for duplicate Customer records. The search will identify potential duplicate Customer records by comparing information in each record and grouping them into Duplicate Sets.

See Duplicate Search for job scheduling details.

Duplicate Merge

This task performs the process of actually merging duplicate Customer records identified by the Duplicate Search job.

The Merge process that runs on this schedule will merge all duplicate sets that are marked as Approved regardless of the search strategy used to find them. After the merge, Customer Engagement will clean out all duplicate sets (Approved, Not Approved, and Merged) from the database.

Duplicates can be approved through a Duplicate Search job using the Automatic Approval option (see Duplicate Search), or in the Customer Merge Review procedure.

See Duplicate Merge for job scheduling details.

Household Identification

The Household Identification task determines which Customers belong to the same household. This is useful when creating mailing lists, as this allows you to limit the number of mailings sent out to one per household. Only primary home addresses are evaluated.

See Household Identification for job scheduling details.

Home Location Re-Assignment

The Home Location Re-Assignment task changes the Home Locations assigned to Customers.

See Home Location Re-Assignment for job scheduling details.

Franchisee Assignment

The Franchisee Assignment task assigns Franchisees to Customers.

See Franchisee Assignment for job scheduling details.

Customer Sync Export

Creates a file of customer data for export to a marketing system or a business intelligence/analytics system. The data includes the customers name, address, email address, phone number, and additional information.

Depending on the selected batch export type, the export task may also generate a listing of customer records that have been deleted as a result of Customer Housekeeping or Customer Merge, or include deleted customer records in a single customer export file.

See Customer Sync Export for job scheduling details and generated files.

Customer Activity Sync Export

Creates a file for export to a marketing system. The data includes details on customer transactions.

See Customer Activity Sync Export for job scheduling details and generated files.

Customer Attributes Sync Export

Create a file for export to a marketing system or a business intelligence/analytics system. The data includes details on customer attributes.

See Customer Attributes Sync Export for job scheduling details and generated files.

Customer Address Sync Export

Create a file for export to a business intelligence/analytics system. The data includes details on the customer, Äôs address.

See Customer Address Sync Export for job scheduling details and the generated address file.

Customer Household Sync Export

Create a file for export to a business intelligence/analytics system. The data includes details on the association of a customer with a household.

See Customer Household Sync Export for job scheduling details and generated files.

Rebuild Category Totals

Recalculate the totals in the CST_DEPARTMENT_TOTALS tables for all customers active within a specified number of days, months, or years, for example: rebuild totals for customers active within the last 4 weeks. The maximum period of time is up to three years.

See Rebuild Category Totals for job scheduling details.

BI/Analytics Package Exporter

The BI/Analytics Package Exporter task enables you to package the export files into a zip file for export to the business intelligence/analytics system. This task should be the last task performed for a single job, running after the individual exports.

See BI/Analytics Package Exporter for job scheduling details.

Reset Customer YTD Totals

Resets the YTD totals for all Customers to zero.

See Reset Customer YTD Totals for job scheduling details.

Associate Assignment Tasks

This section describes associate assignment tasks.

Automated Associate Assignment

This task automatically assigns Associates to Customers, based on a set of selected criteria.

See Automated Associate Assignment for job scheduling details.

Associate Mass Re-assignment

This task automatically reassigns the Customers assigned to a selected Associate to one or more new Associates.

See Associate Mass Re-assignment for job scheduling details.

Customer Segment Tasks

This section describes customer segment tasks.

Unstratified Segment

This task finds Customers to be entered into an Unstratified Segment and counts the number of Customers in the Segment. For more information on Unstratified Segments, see Unstratified Segments.

See Unstratified Segment for job scheduling details.

Stratified Segment

This task organizes Customers into user-defined levels and counts the number of Customers in each strata level. For more information on Stratified Segments, see Stratified Segments.

See Stratified Segment for job scheduling details.

Segment Sync Export

This task generates a CSV file of customers within a stratified, unstratified, or manual segment for export to a marketing system or a business intelligence/analytics system.

See Segment Sync Export for job scheduling details and generated files.

Account Tasks

This section describes account tasks.

Export Card Series

This task creates an export file for Cards created using a SOAP Message or batch file.

When a Generate Card message is processed, individual Cards are created and, depending on configuration, assigned to Customers; however, the Card and Customer information is not exported to an XML file. This job will create an export file that includes the Customer Engagement-generated Card numbers and the Customer assigned to each Card.

Note:

The export file for this type of job is not compressed.

See Export Card Series for job scheduling details and generated files.

Release Expired PreAuthorizations

This task releases (removes) expired pre-authorization amounts that have not been settled or post-authorized. It searches Tender Accounts for PreAuth amounts that are older than their configured expiration time and removes them from the associated Tender Account.

See Release Expired PreAuth for job scheduling details.

Points/Awards Transfer Notification Export

This task creates CSV files for notifications about points transfers and/or award transfers. A separate file is generated for each type of transfer, and information is included to notify both the source (originating) Customer for the transfer and the target (recipient) Customer.

The integrated system, such as Responsys, can use the information to generate transfer notification emails to the originator and recipient of the award or points transfer, based on each Customer‚Äôs Contact Permissions. SMS messages can also be generated if the integrated system supports it.

The Enable Responsys Transfer Notification configuration property controls whether to send the notification in real time, or capture the data in a separate table and generate notifications through a batch export file. See the *Oracle Retail Customer Engagement Implementation Guide* for more information about System Configuration.

When interactive notification requests are sent through a web service message, use of the export file occurs only if an interactive request to generate the notification did not succeed. In this case, the details of the transfer are retained in the database until a scheduled notification export job runs.

See Points/Awards Transfer Notifications Export for job scheduling details and generated files. The Marketing Integration Properties chapter of the *Oracle Retail Customer Engagement Implementation Guide* describes the configuration required for transfer notification integration with a marketing system such as Responsys.

Notify Card Renewal

This task notifies Customers that they need to renew Cards that are set to expire within a certain, defined period of time.

See Notify Card Renewal for job scheduling details.

Tender Sync Export

This task generates a file of tender accounts and tender account activity for export to an external system.

See Tender Account Sync for job scheduling details and generated files.

Award Account Tasks

This section describes award account tasks

Issue Anniversary Awards

This task searches for Customers who have a birthday or signup date anniversary within the time frame specified and issues an eAward.

This process schedules the Issue Anniversary Awards process.

This task will look behind and ahead of the run date for Customers who have birthdays or signup anniversaries within the time period. The Customers that are found will receive an award coupon as created in this process. When this task is run, an export file (birthday or signup anniversary) is created.

See Issue Anniversary Awards for job scheduling details.

Notify Awards Expire

This task searches for Customers whose awards are scheduled to expire within a defined time window, and creates an export file containing award expiration notification information for those Customers.

See Notify Awards Expire for job scheduling details.

Award Sync Export

This task generates a file of award accounts and a file of award coupons for export to a marketing system.

See Award Sync Export for job scheduling details and generated files.

Loyalty Tasks

This section describes loyalty tasks.

Distribute Loyalty Awards

This task creates an export file for all pending awards.

See Distribute Loyalty Awards for job scheduling details.

Create Loyalty Awards

This task converts loyalty points into awards, based on the parameters set for the program and program level.

See Create Loyalty Awards for job scheduling details.

Earn Loyalty Points

This task converts pending (escrow) loyalty points into earned loyalty points.

See Earn Loyalty Points for job scheduling details.

Expire Loyalty Points

This task expires (deletes) loyalty points based upon parameters in the Program/Level.

See Expire Loyalty Points for job scheduling details.

Reset Loyalty YTD Points

This task resets the YTD points earned by each Customer. This task should be run at the end of each calendar/fiscal year to reset YTD Points balances to zero. This task is used for reporting purposes only; it does not affect the actual loyalty points on an account. Life-to-date (LTD) points are not affected by this process.

See Reset Loyalty YTD Points for job scheduling details.

Loyalty Account Sync Export

This task generates a file of customer loyalty data for export to a marketing system or a BI/ analytics system.

See Loyalty Account Sync Export for job scheduling details and generated files.

Loyalty Account Activity Sync Export

This task generates a file of customer loyalty account activity to a BI/analytics system.

See Loyalty Account Activity Sync Export for job scheduling details and generated files.

Loyalty Program Sync Export

This task generates a file of loyalty programs to a BI/analytics system.

See Loyalty Program Sync Export for job scheduling details and generated files.

Loyalty Award Transaction Sync Export

This task generates a file of loyalty award transactions to a BI/analytics system. See Loyalty Award Transaction Sync Export for job scheduling details and generated files.

Housekeeping Tasks

This section describes housekeeping tasks.

When a database contains large amounts of old data, database performance and response may be slowed. To prevent the overburdening of the database with old, unneeded information, housekeeping tasks can be performed to remove old information.

Delete Award Inquiry Activities

This task deletes old award inquiry activities.

See Delete Award Inquiry Activities for job scheduling details.

Delete Batch Process Tracking

This task deletes old Batch Process Tracking records. Consolidated daily, weekly, and monthly records are stored in XMLAPI record tables in the database, and used to display information at the Batch Process Tracking pages.

See Delete Batch Process Tracking for job scheduling details.

Delete Customers

The Delete Customers task removes old Customer records that are no longer needed.

See Delete Customers for job scheduling details.

Delete Gift Registries

This task deletes all database information for Gift Registries that expired prior to a certain, defined period of time in the past.

See Delete Gift Registries for job scheduling details.

Delete Inactive Customer Addresses

This task deletes Customer addresses that are flagged as inactive.

See Delete Inactive Customer Addresses for job scheduling details.

Delete Inactive Customer Email Addresses

This task deletes Customer email addresses that are flagged as inactive.

See Delete Inactive Customer Email Addresses for job scheduling details.

Delete Inactive Customer Phone Numbers

This task deletes Customer phone numbers that are flagged as inactive.See Delete Inactive Customer Phone Numbers for job scheduling details.

Delete Inactive Customers

This task deletes old Customer records that are inactive.See Delete Inactive Customers for job scheduling details.

Delete Inactive Item Registries

This task deletes all database information for inactive Wish Lists that have not been updated within a certain, defined period of time.See Delete Inactive Item Registries for job scheduling details.

Delete Inactive Segment

This task deletes all database information for inactive segments.

See Delete Inactive Segment for job scheduling details.

Delete Job History

This task deletes old job history information.

See Delete Job History for job scheduling details.

Delete Loyalty Accounts and Activities

This task deletes old loyalty accounts and activities.

See Delete Loyalty Accounts and Activities for job scheduling details.

Delete Loyalty Inquiry Activities

This task deletes old loyalty inquiry activities.

See Delete Loyalty Inquiry Activities for job scheduling details.

Delete Loyalty Program Summary

This task clears down the Loyalty aggregation tables based on the YEAR and MONTH values and the "Number of Months" parameter value.

See Delete Loyalty Program Summary for job scheduling details.

Delete Merged/Archived Customers

This task deletes old Customer records that have been merged into other Customer records and archived.

See Delete Merged/Archived Customers for job scheduling details.

Delete Promotion

This task deletes old promotions. It also has the ability to delete an Offer that is associated with the Promotion which is being deleted.

> **Note:**
>
> This method deletes an Offer, provided it is not associated with any other Promotion and if it is associated with any other promotion, the Offer will not be deleted.

See Delete Promotion for job scheduling details.

Delete Segment History

This task deletes old segment history information.

See Delete Segment History for job scheduling details.

Delete Segments

This task deletes old segments.

See Delete Segments for job scheduling details.

Delete Social Activity

This task deletes all social activities from the database that were posted before a certain number of days in the past.

See Delete Social Activity for job scheduling details.

Delete Tasks

This configuration is for a job that deletes tasks from the system. Users can select either or both the **Status** and **Last Update** check boxes to close all tasks based on a status only, status and time period, or only a time period.The default option for status is closed.

See Delete Tasks for job scheduling details.

Delete Stored Files

This task deletes old transfer files.

See Delete Stored Files for job scheduling details.

Delete Transaction History

This task deletes old transaction information.

See Delete Transaction History for job scheduling details.

Delete Web Service Tracking

This task deletes old Web Service Tracking records.

See Delete Web Service Tracking for job scheduling details.

Delete Import Files

The Delete Import Files task removes files in import directories that have not been modified in a specified number of days.

See Delete Import Files for job scheduling details.

Delete Batch Import History

This task deletes old records from the XMLAPI_PROCESSED_RECORD table. This information is displayed at the Batch Import Review screen.

See Delete Batch Import History for job scheduling details.

OLAP Tasks

This section describes OLAP tasks.

Aggregate Award Program Summary

As part of the Online Analytical Processing (OLAP), this task summarizes data by program and month for award activity and account data for the Award Program Scorecard.

See Aggregate Award Program Summary for job scheduling details.

Aggregate Loyalty Program Summary

As part of the Online Analytical Processing (OLAP), this task summarizes data by program and month for loyalty activity and account data for the Loyalty Program Scorecard.

See Aggregate Loyalty Program Summary for job scheduling details.

Aggregate Tender Program Summary

As part of the Online Analytical Processing (OLAP), this task summarizes data by program and month for tender activity and account data for the Tender Program Scorecard.

See Aggregate Tender Program Summary for job scheduling details.

Aggregate Loyalty Facts

As part of Online Analytical Processing (OLAP), information about the loyalty program must be aggregated into a summary that can then be retrieved. This task aggregates loyalty information into a summary that can be used by OLAP processes.

See Aggregate Loyalty Facts for job scheduling details.

Aggregate Tender Facts

As part of Online Analytical Processing (OLAP), information about Tender Accounts must be aggregated into a summary that can then be retrieved. This task aggregates Tender Account information into a summary that can be used by OLAP processes.

See Aggregate Tender Facts for job scheduling details.

Campaign Tasks

This section describes campaign tasks.

Dynamic Promotions

This task updates the Targets for all dynamic Promotions.

See Dynamic Promotions for job scheduling details.

Promotion Response Data Import

This task imports customer event data from a marketing system such as Responsys.

See Promotion Response Data Import for job scheduling details and import file formats.

Social Network Integration Tasks

This section describes social network integration tasks.

Social Network Listener

This task searches social networks for Customer posts that meet search criteria defined by Social Listeners.

See Social Network Listener for job scheduling details.

Social Network Update

This task checks for new Social Profiles to add to Customer records.

See Social Network Update for job scheduling details.

Clienteling Tasks

This section describes clienteling tasks.

Task Generator

Generate tasks for Segments with Task Generation enabled. See Segments.

See Task Generator for job scheduling details.

Email Notification Tasks

This section describes email notification tasks.

Batch Import Review

Allows the Batch Import Review settings to be maintained.

See Batch Import Review for job scheduling details.

System Tasks

This section describes system notification tasks.

OCDS Sync

This task generates requests to the Omnichannel Cloud Data Service (OCDS) for updates on item and merchandise hierarchy data as well as location and franchise data.

See ODCS Sync for job scheduling details.

Data Sync

This task is responsible for moving data from the multiple pending Queues to the InProgress Queue in batches. Once the movement of each batch is complete, the records are deleted from the respective Pending Queue. After the data is transferred into the InProgress Queue, the job creates a message based on the operation and the object Name associated with each record. Next, one by one, each message is transferred to the third party application.

See Data Sync for job scheduling details.

Configure Job Parameters

The parameters that must be configured for a given task depend upon the task being defined.

The processes performed by these jobs are described above in Jobs and Tasks.

The following sections describe the fields that configure each task.

Location Mass Assignment

This Task has the following parameters:

- Date Range Type - This Selection Menu determines the Date Range used.
- Start Date - This Calendar Menu determines the first date of the Date Range (only available if Date Range Type is set to Specific Date Range).
- End Date - This Calendar Menu determines the final date of the Date Range (only available if Date Range Type is set to Specific Date Range).

Duplicate Search

This task has the following parameters:

- Search Strategy - This Selection Menu determines the strategy used to search for duplicate Customers. See Search Strategy Field Comparisons for a description of search strategies.
- Valid Data Only - This toggle determines whether the search strategy will only look at addresses, phone number, and/or email addresses that have been validated (see Customer Validation for more information). If the toggle is off, Customer Engagement will look at all addresses, phone number, and email addresses.
- Automatic Approval - This toggle determines whether the Duplicate Sets found by the search process is automatically approved for merging on the next scheduled merge.

Search Strategy Field Comparisons

The following table shows which fields are compared for the search strategy selected.

Table 11-1 Search Strategy Fields Comparison

Field	Name Address	Name Phone	Name Email	Name Address Phone Email
First Name	X	X	X	X
Middle Name	X	X	X	X
Second First Name	X	X	X	X
Second Last Name	X	X	X	X
Last Name	X	X	X	X
Suffix	X	X	X	X
Address 1	X			X
Address 2	X			X
City	X			X
State	X			X
Postal Code	X			X
Area Code		X		X
Phone Number		X		X
Email Address			X	X

Duplicate Merge

This task has the following parameter:

- Generate customer note - This toggle determines whether a Customer note is generated when duplicate Customers are merged.

Merge Behavior

The merge behavior described in this section can be overridden through the use of configuration settings. Contact your Project Manager for more information.

When a duplicate set is merged, there are certain checks that are made on each Customer record in the set and specific actions taken based on the results of that check. These duplicate checks are configured through System Configuration. See the *Oracle Retail Customer Engagement Implementation Guide* for more information about configuring duplicate checks.

Merge Records Logic

This section describes the new Customer record that results from the merge process. The following table lists information categories and where the information for the new record comes from.

Table 11-2 Merge Records Logic

Category	Comes From
Customer ID	New
Home Location	Source
Personal Preferences	Source
Name	Source
Address(es)	Source
Email Address(es)	Source
Telephone Number(s)	Source
Personal Summary	Source
Socioeconomic Profile	Source
Alternate IDs	All Duplicate records
Customer Attributes	All Duplicate records
Transactions	All Duplicate records
Effective Date	Maximum of all Duplicate Records
Expiry Date	Maximum of all Duplicate Records
Create Date	Maximum of all Duplicate Records
First Transaction Date	Maximum of all Duplicate Records
Last Transaction Date	Maximum of all Duplicate Records
Total Values	Sum of all Duplicate Records
YTD Values	Sum of all Duplicate Records
Signup Date/Location	Minimum of duplicate records that have both, or source if has both, or minimum date of duplicate records and any location.
Birthday	Source or any if source is empty.
Update Date	Current Date
Card Associations	All Cards associated with new Customer ID.

Household Identification

- Identify Household Strategy - This Selection Menu determines the search method used to organize Customers into Households.
  - PRIMARY HOME ADDRESS - Customers with the same primary home address is organized into a Household.
  - LAST NAME PRIMARY HOME ADDRESS - Customers with both the same last name and the same primary home address is organized into a Household.

    Business addresses are not evaluated.
- Valid Data Only - This toggle determines whether the search strategy will only look at addresses and names that have been validated (see Customer Validation for more information). If the toggle is off, Customer Engagement will look at all addresses and names.
- Reset Prior Run Data - This toggle determines how existing Households are treated by the Task.

  - On - Existing Households are ignored and the Households are created anew each time the Task runs.
  - Off - [default] Existing Households are kept in place.

Home Location Re-Assignment

This task has the following parameters:

- Assignment Method - These Radio Buttons determine how Customers are assigned to Locations.
  - Re-assign - [default] Check all Customers for reassignment.
  - Distribute among - Assign Customers from one Home Location among a set of Locations.
- Currently Assigned To - This Selection Menu determines which Location's Customers are reassigned. This field is only shown when Distribute among is selected in the Assignment Method Radio Buttons.
- Re-Assign to - The area displays the set of Locations among which the Customers are reassigned. This field is only shown when Distribute among is selected in the Assignment Method Radio Buttons.

  To add a Location:

  1. Click the Click here to select Link. A Search Home Location Window opens.
  2. Select the Location in the Selection Menu.
  3. Click the OK button. The Search Home Location Window closes and the Location is added to the Re-Assign to area.

  To delete a Location:

  1. Click to select the Location in the Re-Assign to area.
  2. Click the Delete Link. The Location is removed.
- Lock Until - After a Customer is assigned to a Home Location by this task, that Customer cannot be assigned to a new Home Location during the period of time determined by this Selection Menu.

Franchisee Assignment

This task has the following parameters:

- Assignment Method - These Radio Buttons determine how Customers are assigned to Franchisees.
  - Basic Assignment - [default] Check whether the Franchisee Assignment for each Customer record needs to be changed.
  - Franchisee Group - Assign Customers from one Franchisee among a set of Franchisees.
- Currently Assigned To - This Selection Menu determines which Franchisee's Customers are reassigned. This field is only shown when Franchisee Group is selected in the Assignment Method Radio Buttons.

- Franchisee Group - The area displays the set of Franchisees among which the Customers are reassigned. This field is only shown when Franchisee Group is selected in the Assignment Method Radio Buttons.
- Lock Until - After a Customer is assigned to a Franchisee by this task, that Customer cannot be assigned to a new Franchisee during the period of time determined by this Selection Menu.

Customer Sync Export

Before you submit this task, you must select an export target system of either Marketing for a system such as Responsys, or BI/Analytics for a system such as Retail Insights. The Supported Batch Exporter Types property controls which of these options are available.

See the *Oracle Retail Customer Engagement Implementation Guide* for more information about System Configuration.

Customer Sync Export - Marketing

If you select an export target system of Marketing, the following options are displayed.

With a selection of Marketing as the export target system, this task has the following parameters:

- Export type - Controls which records to include in the export file:
  - Export all active records - Include all active customer records with email addresses.
  - Export updated records only - Include customer records only if they have changed since the last export. With this selection, the Once Immediately and Once Later options for scheduling the job are not available.

    Note that, regardless of your selection here, the first time you run the export all active customer records are included.
- Specify export filename - These fields control the creation of the CSV file containing new or updated customer records.

  At least one entry (prefix, static name, or suffix) is required:
  - Prefix - The date and time stamp format to use as a prefix for naming the export file.
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20160630_123456 where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2016-06-30-123456, where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

  The setting of the Responsys Export Filename Default Prefix property defaults.
  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Customer Sync Default Filename property defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.

  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not yet selected a prefix format, suffix format, or static name.

- Specify deletes export filename - These fields control the creation of the CSV file listing the customer IDs of customer records that have been deleted through a housekeeping job or a customer merge since the last time you ran the export. At least one entry (prefix, static name, or suffix) is required.
  - Prefix - The date and time stamp format to use as a prefix for naming the deletes export file:
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20160630_123456 where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2016-06-30-123456, where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

  The setting of the Responsys Export Filename Default Prefix property defaults.
  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Customer Deletes Sync Default Filename property defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the deletes export file. The date and time stamp format options for the suffix are the same as for the prefix, described above, with a default of no suffix. The setting of the Responsys Export Filename Default Suffix property defaults.
- Filename - Displays an example of the deletes export file name with the prefix and suffix format, if any. This field is blank if you have not yet selected a prefix format, suffix format, or static name.

Customer Export File - Marketing

The customer export file is a comma-separated values file containing the following information:

- Customer ID and home store code.
- Customer name, including salutation, first name, second first name, middle name, last name, second last name, and suffix.
- Active flag (set to 1 if active).
- Primary address, including address lines 1 through 4, city, state, postal code, and country code.
- Primary email address, including email type code.
- Primary phone number, including phone type code.
- Customer's mail, email, and phone contact flags, set to 1 if selected and 0 if unselected.

Only customer records with email addresses are included in the export.

Customer ,Delete Export File - Marketing

The customer export file is a comma-separated values file containing the customer ID of each deleted customer, and the active flag setting of 0.

Customer Sync Export - BI/Analytics

If you select an export target system of BI/Analytics, the following options are displayed.

With a selection of BI/Analytics as the export target system, this task has the following parameters:

- Export type - Controls which records to include in the export file:
  - Export all active records - Include all active customer records.
  - Export updated records only - Include customer records only if they have changed since the last export. With this selection, the Once Immediately and Once Later options for scheduling the job are not available.

    Note that, regardless of your selection here, the first time you run the export all active customer records are included.
- Specify export filename - If you selected an Export type of BI/Analytics, the setting of the Retail Insights Customer Sync Default Filename property is displayed and cannot be changed.

Customer Export File - BI/Analytics

The customer export file is a pipe-delimited values file that typically contains the following information:

- Customer ID.
- Postal code.
- City.
- State.
- Country.
- Active flag for the customer.
- Prospect flag indicating if the customer is a prospect.
- Gender.
- Ethnicity.
- Marital status.
- Educational level.
- Effective date for the address.
- Annual income.
- Contact flag setting.
- Organization name, if the customer is an organization.
- Date when customer was added to the system.

- Flag indicating if the customer is an organization.
- Phone contact flag setting.
- Email contact flag setting.
- Fax contact flag setting.
- Mail contact flag setting.
- Birth month.
- Birth date.

The export file does not include a header row. Instead, there is a separate file with the same name as the customer sync export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the customer sync export file name is W_PARTY_PER_DS.dat, the file containing the header row names is W_PARTY_PER_DS.ctx.

Any customers that have been deleted are included in the customer export file. The only information included for deleted customers is the customer ID, active flag, prospect flag, call flag, delete flag, organization flag, and the contact flag settings.

Customer Address Sync Export

This task has the following parameters:

- Batch Exporter Type - Defaults to BI/Analytics and cannot be changed.
- Export type - Defaults to Export all active records and cannot be changed.
- Specify export filename - The setting of the Retail Insights Customer Activities Sync Default Filename property is displayed and cannot be changed.

Customer Address Export File - BI/Analytics

The customer address export file is pipe-delimited, and typically contains the following information:

- Customer ID.
- Sequence number identifying the order in which the customer's addresses were added to the database.
- Primary address flag setting.
- Date when the address became effective.
- Date when the address expired.
- First, second, and third lines of the customer's street address.
- City.
- State.
- Country.
- Postal code.

The export file does not include a header row. Instead, there is a separate file with the same name as the customer address export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the customer address export file name is W_RTL_CUST_ADDRESS_DS.dat, the file containing the header row names is W_RTL_CUST_ADDRESS_DS.dat.ctx.

Customer Activity Sync Export

This task has the following parameters:

- Select target batch exporter system - Select Marketing.
- Export type - Controls which records to include in the export file:
  - Export all active records - Include activity for all active customer records.
  - Export updated records only - Include activity for customer records only if the activity occurred since the last export With this selection, the Once Immediately and Once Later options for scheduling the job are not available.

  Note that, regardless of your selection here, the first time you run the export, activity for all active customer records is included.
- Specify export filename - These fields are displayed only if you selected an Export type of Marketing, and control the creation of the CSV file containing new or updated customer records.

  At least one entry (prefix, static name, or suffix) is required:
  - Prefix - The date and time stamp format to use as a prefix for naming the export file:
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20170830_123456 where the year is 2017, the month is August, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2017-08-30-123456, where the year is 2017, the month is August, the date is 30, and the time is 12:34:56).

      The setting of the Responsys Export Filename Default Prefix property defaults.
  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Customer Activities Sync Default Filename property defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any.

Customer Activity Export File

The customer activity export file contains the following information for each transaction it includes:

- Customer ID.
- Year when the activity occurred.

- Item hierarchy levels 1, 2, and 3; for example, this might be DEPT, SUB_DEPT, and CLASS, with the Hierarchy ID for each level indicated for each record. The level is 0 if there is no hierarchy definition for that level.
- The total count of the item for the activity. The count is 0 if the activity did not involve an item quantity.
- The monetary value of the activity, based on the price of the item. Includes up to two decimal positions if the amount is not a whole number.
- The code identifying the location, if any, associated with the activity. Blank if the activity was not associated with a location.
- The latest business date when the activity occurred.
- The latest business date when the activity was updated.

Customer Attributes Sync Export

This task has the following parameter:

- Batch Exporter Type - Select either Marketing or BI/Analytics.

Customer Attributes Sync Export - Marketing

If you select a Batch Exporter Type of Marketing, complete the following parameters:

- Specify export filename - These fields control the creation of the CSV file containing new or updated customer attribute records. At least one entry (prefix, static name, or suffix) is required:
  - Prefix - The date and time stamp format to use as a prefix for naming the export file:
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20160630_123456 where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2016-06-30-123456, where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

    The setting of the Responsys Export Filename Default Prefix property defaults.
  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Customer Attributes Sync Default Filename property defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not yet selected a prefix format, suffix format, or static name.
- Seq and Attribute - Use the drop-down list to select each attribute to include in the export file. Only attributes that have the Publish To Batch Exporter and Open Access flags selected are available for selection from the drop-down.

Customer Attribute Export File - Marketing

The customer attribute export file is comma-separated, and typically contains the following information:

- Customer ID.
- Customer primary email address.
- A column for each attribute selected for inclusion in the export file, and the current setting of that attribute for the customer.

The file includes a header row with the name of each column. The column for each attribute is indicated by the attribute name and ID.

Customer Attributes Sync Export - BI/Analytics

If you select a Batch Exporter Type of BI/Analytics, complete the following parameters:

- Customer Attributes Filename - The setting of the Retail Insights Customer Attributes Sync Default Filename property is displayed and cannot be changed.
- Attribute Metadata Filename - The setting of the Retail Insights Attribute Metadata Sync Default Filename property is displayed and cannot be changed.
- Seq and Attribute - Use the drop-down list to select each attribute to include in the export file. Only attributes that have the Publish To Batch Exporter and Open Access flags selected are available for selection from the drop-down. Select from the following types of attributes:
  - Varchar Type Attribute - The Retail Insights Varchar Type Attribute Allowed Count property controls the number of varchar type attributes you can select for export.
  - Numeric Type Attribute - The Retail Insights Numeric Type Attribute Allowed Count property controls the number of numeric type attributes you can select for export.
  - Data Type Attribute - The Retail Insights Date Type Attribute Allowed Count property controls the number of data type attributes you can select for export.

Customer Attribute Metadata Export File - BI/Analytics

The customer attribute export metadata file is pipe-delimited, and indicates how to map the Customer Attribute data from Customer Engagement to the target BI/Analytics system.

For example, a record in the metadata file might be:

```
RING_SIZE|CE|PARTY_ATTR1_NAME|W_PARTY_ATTR_DS|Customer Ring Size|VARCHAR|1|
RING_SIZE~CE~PARTY_ATTR1_NAME~W_PARTY_ATTR_DS|
```

Where:

- RING_SIZE = The attribute's Name, from the DTV_ATTRIBUTE_TYPE table
- CE = Hard-coded to CE
- A physical column name such as:
  - PARTY_ATTR[N]_NUM_VALUE = the [N] numeric attribute passed, or
  - PARTY_ATTR[N]_NAME_VALUE = the [N] name attribute passed, or
  - PARTY_ATTR[N]_DATE_VALUE = the [N] date attribute passed

  Where
  - PARTY_ATTR is hard-coded
  - [N] indicates the column number for that datatype, and
  - VALUE is the type of column (NUMBER, NAME, or DATE)

  Since there can be multiple attributes of the same data type passed, such as two date attributes, it is necessary to number the attributes with the same data type.

- W_PARTY_ATTR_DS = the target table in the BI/Analytics system
- Customer's Ring Size = the attribute‚Äôs Description, from the DTV_ATTRIBUTE_TYPE table
- VARCHAR = the data type of the attribute in the BI/Analytics system; displayed as Character at the Attribute Definition list page
- 1 = Hard-coded to 1
- RING_SIZE~CE~PARTY_ATTR1_NAME~W_PARTY_ATTR_DS = concatenation of the attribute name + CE + ~ + the physical column name + ~ + the target table name

The metadata file name is from the Retail Insights Customer Attribute Metadata Batch Exporter Templates property.

When you use the BI/Analytics Package Exporter to create a zip file containing the files for export to the BI/Analytics system, the attribute metadata file is merged with the metadata file from the Segment Sync Export.

Customer Attribute Export File - BI/Analytics

The customer attribute export file is pipe-delimited, and typically contains the following information:

- Customer ID.
- Category hard-coded to RETAIL
- Supplier flag hard-coded to N.
- Attribute value setting.

A column for each attribute selected for inclusion in the export file, and the current setting of that attribute for the customer.

The export file does not include a header row. Instead, there is a separate file with the same name as the customer attribute export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the customer attribute export file name is W_RTL_PARTY_PER_ATTR_DS.dat, the file containing the header row names is W_RTL_PARTY_PER_ATTR_DS.dat.ctx.

Customer Household Sync Export

This task has the following parameters:

- Batch Exporter Type - Defaults to BI/Analytics and cannot be changed.
- Export type - Defaults to Export all active records and cannot be changed.
- Specify export filename - The setting of the Retail Insights Household Sync Default Filename property is displayed and cannot be changed.

- Specify customer-household association export filename: The setting of the Retail Insights Household Customer Association Sync Default Filename is displayed and cannot be changed.

Household Export File - BI/Analytics

The household export file is pipe-delimited, and typically contains the unique identifier for each household, as well as some hard-coded fields that are required by the BI/Analytics system.

The export file does not include a header row. Instead, there is a separate file with the same name as the household sync export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the household sync export file name is W_HOUSEHOLD_DS.dat, the file containing the header row names is W_HOUSEHOLD_DS.dat.ctx.

Household Customer Association Export File - BI/Analytics

The household customer association export file is pipe-delimited, and typically contains the unique identifier for each household and the customer ID for each customer associated with the household. It also typically contains some hard-coded fields that are required by the BI/Analytics system.

The export file does not include a header row. Instead, there is a separate file with the same name as the household customer association file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the household customer association export file name is W_RTL_CUST_HOUSEHOLD_DS.dat, the file containing the header row names is W_RTL_CUST_HOUSEHOLD_DS.dat.ctx.

The information in these files is formatted as binary data.

Rebuild Category Totals

This task has the following parameters:

Customer Department Totals Rebuild Period:

- Select whether to recalculate totals based on activity within the most recent number of days, months, or years.
- Enter the number of days, months, or years to include. You can enter a maximum of 3 years, 36 months, or 1095 days.

Before you can submit the job, you need to acknowledge the warning at the bottom area of the Review step, indicating that the task will recalculate customer department totals, and that this step cannot be undone.

When the job runs, the records in the CST_DEPARTMENT_TOTALS table are cleared for all Customer activity during the specified rebuild period, and then rebuilt. The CREATE_DATE is set to the date when the job is run, and the CREATE_USER is set to ORCE. Return transactions are not included in the category totals.

BI/Analytics Package Exporter

This task has no additional parameters.

This task packages the export files to the BI/Analytics system, and must be the last task in a single job that includes all other exports to the BI/Analytics system.

The package exporter creates a zip file that includes the export files from the sync tasks run within the job, so that the zip file is ready for the BI/Analytics system.

The zip file name is from the Retail Insights Zip Package Default Filename property.

For more information on the export tasks and the generated export files, see Customer Sync Export, Customer Address Sync Export, Customer Attributes Sync Export, Customer Household Sync Export, and Segment Sync Export.

Reset Customer YTD Totals

This task has the following parameter.

- Year of data being reset - This Selection Menu determines the year for which the YTD data is reset.

Automated Associate Assignment

This task has the following parameters:

- Date Range Type - This Selection Menu determines the Date Range used.
- Start Date - This Calendar Menu determines the first date of the Date Range (only available if Date Range Type is set to Specific Date Range).
- End Date - This Calendar Menu determines the final date of the Date Range (only available if Date Range Type is set to Specific Date Range).
- Assignment Method - These Radio Buttons determine the selection method used to assign an Associate to a Customer. These Radio Buttons have the following options:
  - Sold most frequently - The Associate who performed the most sales to each Customer.
  - Sold largest total amount - The Associate who sold the largest total amount to each Customer.
- Assignment Interval - Number of days between Associate reassignments for a Customer. After the Job assigns an Associate to a Customer, this is the number of days the Job will wait before changing that assignment.
- Assignment Role - This Selection Menu determines the Associate Role used for the Associate assignment.
- Criteria specification - Additional criteria to use when assigning the Associate. This Selection Menu has the following options:
  - No additional criteria - This Job will not require any additional criteria.
  - Select criteria from list - Add Item or Location criteria to the Job. A transaction must match one of the entered criteria to be used in determining the Associate to be assigned to the Customer.
- When Select criteria from list is selected, the Item and Location Criteria appear. To configure Item Criteria, perform on of the following options:
  - Use the **Quick Add** option to enter a known **ID** which you wish to associate with this task. Click **Add**.

- Click the **Actions Menu** and select **Add Item Criteria**.
- Click **+Add Item Criteria**.

Include by Hierarchy

There are two ways to search for items in the Include by Hierarchy option, either:

- Select one of the **Hierarchy** choices (**Department** or **Class**, for example) and click **Search** to retrieve all associated hierarchies.
- Select one of the **Hierarchy** choices and enter part or all of the **ID**, **Name**, or **Description** in the field, and click **Search** to retrieve your refined search criteria.
- After locating the items, then **select** or **clear** the check boxes from the list.

☐	1250D	1250D-SanAntonio-TX
☐	15801	15801-SouthPark-MN
☐	15809	15801-SouthPark-MN

- Click the list arrow to select a **Filter Type**.
- Click **Search** to return all Locations that meet the Filter Type Criteria.
- You can use the Filter Criteria field before or after a search. The Filter Criteria is determined by your implementer.

> **Note:**
>
> The Filter Criteria field accepts partial input.

- **Select** or **clear** the check boxes from the list.
- Click **Add** to add the location to the task. Click **Cancel** to close the window without adding the location.
- Click **X** to remove added locations.

Associate Mass Re-assignment

This task has the following parameters:

- Assignment Method - Method used for reassigning the Customers. These Radio Buttons have the following options:
  - Re-assign - Assign all Customers to one Associate.
  - Distribute among - Distribute Customers among all Associates at the current Associate's location.
- Currently assigned to - Displays the Associate who is having their Customers reassigned. Perform a Change/Add Associate procedures to change the Associate.

- Selection Menu for the Associate Role that is used for the new Associates.
- Re-Assign to - Displays the User ID(s) of the Associate(s) to whom the Customers are reassigned. Perform a Change/Add Associate procedures to add an Associate to the field. Only displayed if the Assignment Method is set to Re-assign.

  Associate reassignment selections have the following rules:

  - This field is only displayed when Re-assign is selected as the Assignment Method.
  - The Associates must all belong to the same Location.
  - If a new Associate does not belong to the same Location as previously selected Associates, the previously selected Associates are removed and the new Associate is entered.
  - If the Associate selected does not belong to the Location to which the currently assigned Associate, a confirmation response is displayed.

Unstratified Segment

This Task has the following parameter:

- Customer Segment - This Selection Menu determines the Unstratified Segment that is counted.

Stratified Segment

This Task has the following parameter:

- Customer Segment - This Selection Menu determines the Stratified Segment that is organized and counted.

Segment Sync Export

Before you submit this task, you must select an export target system of either Marketing for a system such as Responsys, or BI/Analytics for a system such as Retail Insights. The Supported Batch Exporter Types property controls which of these options are available. See the *Oracle Retail Customer Engagement Implementation Guide* for more information about System Configuration.

Segment Sync Export - Marketing

If you select an export target system of Marketing, the following options are displayed:

- Specify export filename - These fields control the creation of the CSV file containing new or updated segment records. At least one entry (prefix, static name, or suffix) is required:
  - Prefix - The date and time stamp format to use as a prefix for naming the export file:
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20160630_123456 where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

      - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2016-06-30-123456, where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

    The setting of the Responsys Export Filename Default Prefix property defaults.

  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Segment Sync Default Filename defaults.

    You can include multiple segments in the same task. However, if you include multiple segment sync tasks to Marketing in the same job, you need to specify a unique static name for each to avoid overwriting one export sync file with another.

  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not yet selected a prefix format, suffix format, or static name.
- Strata Type - Defines the type of Segments that can be included in the export file:
  - Unstratified Segment - Unstratified Segments and Manual Segments are available for selection in the dropdown list.
  - Stratified Segment - Stratified Segments are available for selection in the drop-down list.

> **Note:**
>
> A single Job Definition can include either Unstratified/Manual Segments or Stratified Segments, but not both. If you have selected one or more Segments and then change the setting of the Strata Type, the previously selected Segments are cleared from the listing for the Job Definition.

- Seq N Segment = Use the drop-down list to select each Segment to include in the export file. Only Segments that have the Publish To Batch Exporter flag selected and that match the selected Strata Type are available for selection from the drop-down. As you select each Segment, it is added to the Seq. and Attribute listing between the Strata Type and the Seq N Segment drop-down.
- Seq and Attribute - Use the drop-down list to select each attribute to include in the export file. Only attributes that have the Publish To Batch Exporter and Open Access flags selected are available for selection from the drop-down.

Customer Segment File for Marketing: Stratified Segments

The customer segment export file for one or more stratified segments contains the following information:

- Customer ID.
- Customer primary email address.
- For each Segment included in the Job Definition:

  - A column with a setting of 1 if the customer is included in the Segment, or a setting of 0 if the customer is not included in the Segment.
  - The Segment stratification format (RANGE or NTILE).
  - The Segment strata type (Customer, Loyalty, or Transaction).
  - The data that the strata is based on (Customer for a Customer strata type; Loyalty Summary or Loyalty Detail for a Loyalty strata type; Header or Detail for a Transaction strata type).
  - The field to stratify on. See Creating a Segment or Personal List in the Segments chapter for a list of possible fields based on the selected strata type.
  - The strata ID.
  - The strata value.

Customer Segment Export File for Marketing: Unstratified Segments

The customer segment export file for one or more unstratified or manual segments contains the following information:

- Customer ID.
- Customer primary email address.
- Segment name.
- A column for each Segment included in the Job Definition, with a setting of 1 if the customer is included in the Segment or a setting of 0 if the customer is not included in the Segment.

Segment Sync Export - BI/Analytics

If you select a Batch Exporter Type of BI/Analytics, the following parameters are displayed:

- Segment Filename - The setting of the Retail Insights Segment Sync Default Filename property is displayed and cannot be changed.
- Segment Attributes Filename - The setting of the Retail Insights Segment Attributes Sync Default Filename property is displayed and cannot be changed.
- Customer Segment Association Filename - The setting of the Retail Insights Segment Customer Association Sync Default Filename property is displayed and cannot be changed.
- Attribute Metadata Filename - The setting of the Retail Insights Attribute Metadata Sync Default Filename property is displayed and cannot be changed.
- Customer Segment Category Filename - The setting of the Retail Insights Customer Segment Category Sync Default Filename property is displayed and cannot be changed.
- Seq N Segment = Use the drop-down list to select each Segment to include in the export file. Only Segments that have the Publish To Batch Exporter flag selected are available for selection from the drop-down. As you select each Segment, it is added to the Seq. and Attribute listing.
- Seq and Attribute - Use the drop-down list to select each attribute to include in the export file. Only attributes that have the Publish To Batch Exporter and Open

Access flags selected are available for selection from the drop-down. Select from the following types of attributes:

  - Varchar Type Attribute - The Retail Insights Varchar Type Attribute Allowed Count property controls the number of varchar type attributes you can select for export.
  - Numeric Type Attribute - The Retail Insights Numeric Type Attribute Allowed Count property controls the number of numeric type attributes you can select for export.
  - Data Type Attribute - The Retail Insights Date Type Attribute Allowed Count property controls the number of data type attributes you can select for export.
- Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above, with a default of no suffix.

Segment Export File - BI/Analytics

The customer segment export file contains the following information:

- Segment ID.
- Segment name.
- Datasource, which is hard-coded to 1.

The file also includes the values for attributes whose names match the following, if they exist:

- CUSTSEG_TYPE (if this attribute is not defined, a cluster type of Rule Based is passed)
- AGE_RANGE
- SEX_MF_CODE
- FAMILY_SIZE
- OCCUPATION_CODE
- EDUCATION_BCKGND_CODE
- ETHNICITY_CODE
- NATIONALITY_CODE
- RELIGION_CODE
- SOCAL_CLASS_CODE
- FAMILY_LIFE_CYCL_CODE
- REGION_CODE
- METRO_AREA_SIZE
- POPULATION_DENSITY
- CLIMATE_CODE
- BENEFIT_SOUGHT_CODE
- USAGE_RATE
- READINESS_TO_BUY_CODE
- OCCASION_CODE
- ACTIVITY_CODE
- INTEREST_CODE

- OPINION_CODE
- ATTITUDE_CODE
- VALUE_CODE
- EFFECTIVE_START
- EFFECTIVE_END
- CUSTSEG_SRC_TYPE
- ANNL_INCOME_RANGE
- CUSTSEG_DESC

The above attributes in Customer Engagement map to segment properties in Retail Insights.

The export file does not include a header row. Instead, there is a separate file with the same name as the segment export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the segment export file name is W_RTL_CUSTSEG_DS.dat, the file containing the header row names is W_RTL_CUSTSEG_DS.dat.ctx.

Segment Attributes Export File - BI/Analytics

The customer segment attributes export file contains the following information:

- Segment ID.
- The CUSTSEG_TYPE attribute value. If this attribute is not defined, a cluster type of Rule Based is passed.
- The CUSTSEG_SRC_TYPE attribute value, if any. Typically set to CUSTOMER.
- The value for each attribute assigned to the segment and selected for export.
- Datasource, which is hard-coded to 1.

The attribute mapping is defined in the generated metadata file. The file name for the metadata file is defined in the Retail Insights Attribute Metadata Sync Default Filename property.

The export file does not include a header row. Instead, there is a separate file with the same name as the segment attributes export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the segment attributes export file name is W_RTL_LYL_TRANS_DS.dat, the file containing the header row names is W_RTL_LYL_TRANS_DS.dat.ctx.

Customer Segment Association Export File - BI/Analytics

The segment customer association export file contains the following information for the customers included in a segment:

- Segment ID.
- Customer ID.
- Datasource, which is hard-coded to 1.

The export file does not include a header row. Instead, there is a separate file with the same name as the segment association export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the segment association export file name is W_RTL_CUST_CUSTSEG_DS.dat, the file containing the header row names is W_RTL_CUST_CUSTSEG_DS.dat.ctx.

Attribute Metadata Export File - BI/Analytics

This export file defines mapping for attributes. See the Customer Attribute Metadata Export File - BI/Analytics for an example of attribute mapping.

The export file does not include a header row. Instead, there is a separate file with the same name as the attribute metadata export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the attribute metadata export file name is W_RTL_INT_METADATA_G.dat, the file containing the header row names is W_RTL_INT_METADATA_G.dat.ctx.

Customer Segment Category - BI/Analytics

Currently, an empty customer segment category export file is created.

Points/Awards Transfer Notifications Export

See Points/Awards Transfer Notification Export for background on this job. This task has the following parameters:

- Please select transfer notification type - Indicates the type of transfer notifications to export: All, Awards Only, or Points Only.
- Specify Awards Transfer Export Filename - These fields control the creation of the CSV file containing contact information for Customers originating or receiving Award Coupon transfers. At least one entry (prefix, static name, or suffix) is required:
  - Prefix - The date and time stamp format to use as a prefix for naming the export file:
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20170830_123456 where the year is 2017, the month is August, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2017-08-30-123456, where the year is 2017, the month is August, the date is 30, and the time is 12:34:56).

    The setting of the Responsys Export Filename Default Prefix property defaults.
  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Awards Transfer Sync Default Filename defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not selected a prefix format, suffix format, or static name.
- Specify Points Transfer Export Filename - These fields control the creation of the CSV file containing contact information for Customers originating or receiving Loyalty Points transfers. At least one entry (prefix, static name, or suffix) is required:

  - Prefix - The date and time stamp format to use as a prefix for naming the export file:
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20170830_123456 where the year is 2017, the month is August, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2017-08-30-123456, where the year is 2017, the month is August, the date is 30, and the time is 12:34:56).

    The setting of the Responsys Export Filename Default Prefix property defaults.
  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Awards Transfer Sync Default Filename defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not selected a prefix format, suffix format, or static name.

Award Transfer Notifications Sync Export File

The Award Transfer Notification sync export file contains the following information:

- From Card Number - The Card number originating the transfer. The number is partially masked with X's.
- To Card Number - The Card number receiving the transfer. The number is partially masked with X's.
- From email address - The primary email address of the Customer originating the transfer. Included only if the Customer's contact permissions allow it.
- From phone number - The primary phone number of the Customer originating the transfer. Included only if the Customer's contact permissions allow it.
- To email address - The primary email address of the Customer receiving the transfer. Included only if the Customer's contact permissions allow it.
- To phone number - The primary phone number of the Customer receiving the transfer. Included only if the Customer's contact permissions allow it.
- Date and time when the transfer took place.
- The amount of the Award Coupon. Might be 0 for an Entitlement Coupon.

An entry for a transfer is included in the file only if there is phone or email contact information for either the originator of the transfer or the recipient, and if an interactive notification request was not successfully sent.

Points Transfer Notifications Sync Export File

The Award Transfer sync export file contains the following information:

- From Card Number - The Card number originating the transfer. The number is partially masked with X's.
- To Card Number - The Card number receiving the transfer. The number is partially masked with X,Äôs.
- From email address - The primary email address of the Customer originating the transfer. Included only if the Customer's contact permissions allow it.
- From phone number - The primary phone number of the Customer originating the transfer. Included only if the Customer's contact permissions allow it.
- To email address - The primary email address of the Customer receiving the transfer. Included only if the Customer's contact permissions allow it.
- To phone number - The primary phone number of the Customer receiving the transfer. Included only if the Customer's contact permissions allow it.
- Date and time when the transfer took place.
- The number of points transferred.

An entry for a transfer is included in the file only if there is phone or email contact information for either the originator of the transfer or the recipient, and if an interactive notification request was not successfully sent.

Export Card Series

This Task has the following parameters:

- Card Prefix - This Text Field indicates the Card Prefix of the Card Definition to be exported.
- Card Series - This Text Field indicates the Card Series of the Card Definition to be exported.

Release Expired PreAuth

This Task has no additional parameters:

Notify Card Renewal

This Task has the following parameters:

- Card Program - This Selection Menu determines the Card Program for which to notify Customers.
- Period Type - This Selection Menu determines the type of time period used to determine the notification time frame.
- Number of Periods - This Text Field defines the number of periods (from Period Type) before the Card expiration date that a Customer is notified of their Card's coming expiration.

Tender Account Sync

This Task has the following parameter:

- Tender Program - The Tender Program to include in the export files. The Task generates an export file of Tender Accounts and an export file of Tender Account Activity.

Tender Account Export File

The tender account export file contains the following information for each Tender account:

- Tender account ID.
- Last activity date.
- Effective date.
- Account expiry date.
- Card serial number.
- Card number.
- Card activation date.
- Date when card was first used.
- Date when card was last used.
- Card expiry date.
- Date when the card was associated with the customer.
- Start date, if any.
- End date., if any
- Customer ID.
- Primary flag, set to 1 if the customer is the primary account holder.
- Status indicator if Active or Inactive.
- Current balance on the account.
- Book balance for accounting purposes.
- Amount of balance that is frozen or unusable.
- Program ID to uniquely identify the tender program.
- Currency typecode.
- Usage count indicating the total number of times the tender account has been accessed for a transaction.
- Total number of lifetime credits for the account.
- Total number of lifetime debits for the account.
- Date created.
- User who created the account.
- Date updated.
- Use who updated the account.

Tender Account Activity Export File

The tender account activity export files contains the following information:

- Tender account ID.

- Program ID to uniquely identify the tender program.
- Unique identifier for the account activity record.
- Authorization code.
- Customer ID.
- Card number.
- Flag indicating whether the transaction was voided.
- Code to categorize the type of transaction or activity.
- Date and time when the activity took place.
- Amount of the activity or transaction.
- Currency typecode.
- Operator ID from the POS.
- Transaction ID from the POS.
- Transaction ID generated by Customer Engagement.
- Retail location where the activity took place.
- ID or serial number identifying the workstation where the activity took place.
- Date that corresponds to an accounting period fiscal day at the retail store.
- Account ID affected by the activity.
- ID of the activity.
- Flag indicating if the card was swiped during the activity.
- Error code, if any.
- User comments on the activity, if any.
- Code identifying the currency requested for the activity.
- Amount of currency being exchanged.
- Currency exchange rate.
- If the activity was a Card Merge, the unique ID for the source account of the merge.
- Unique identifier for the franchisee, if any.
- Account adjustment reason code, if any.
- Expiration date for the activity.
- Date created.
- User who created the activity.
- Date updated.
- Use who updated the activity.

OCDS Sync

This Task requires SystemConfig or SystemAdmin authority, and has the following parameters:

- Item and Merchandise Hierarchy - Select this option to request item and merchandise hierarchy data from the Omnichannel Cloud Data Service, including:
    - Merchandise Hierarchy
    - Item Header
    - Item Image
    - Item Price
- Location and Franchise - Select this option to request location and franchise data from the Omnichannel Cloud Data Service, including:
    - Store Location
    - Organizational Hierarchy/Franchise
- Reset Last Run Date - Select this option to retrieve all data, regardless of date created or updated; otherwise, leave this option unselected to request only data that has been created or updated since the last time you ran the OCDS data sync.

See Bulk Imports through Oracle Cloud Data Service (OCDS) in the *Batch Processing and Web Services Guide* for more information on the integration and the data received.

Issue Anniversary Awards

This Task has the following parameters:

- Award Program - This Selection Menu determines the Award Program to use for the Anniversary Awards.
- Coupon Prefix - This Text Field indicates the Coupon Prefix for the Coupons generated.
- Amount - This Text Field defines the amount for the Coupons generated.
- Expiration Period Type - This Selection Menu indicates the type of period used in determining when the Coupons will expire.
- Expiration Number of periods - This Selection Menu determines the number of periods (from Expiration Period Type) that will pass before the Coupons expire (not displayed if Expiration Period Type is set to Use Program).
- The Expiration Date is Based On - This Selection Menu determines how the Coupon expiration dates are determined. This Selection Menu has the following options:
    - Run Date - The Coupon expiration dates are calculated from the date the Task runs.
    - Customer Date - The Coupon expiration dates are calculated from the anniversary date.
- Anniversary Award Type - This Selection Menu determines the type of anniversary for which Awards are issued.
    - Birthday - Customer birthday.
    - Signup - Customer signup.
- Generate customer note - This toggle determines whether a Customer note is generated when a Coupon is generated for a Customer.

- Period Type - This Selection Menu indicates the type of period used in determining the window of dates for which Awards are issued.
- Num of Periods Before Run Date - This Text Field defines the number of periods (from Period Type) before the run date for which Awards are issued.
- Num of Periods After Run Date - This Text Field defines the number of periods (from Period Type) after the run date for which Awards are issued.

Export File

The export file for either a birthday or sign-up anniversary contains the following information:

- Award Account information including account number, Card number, and Card serial number.
- Customer information including name, address, email, phone, and anniversary date.
- Award information including the amount of coupon, coupon number, and the coupon expiration date. See the *Oracle Retail Customer Engagement Implementation Guide* for more information on export templates.

Notify Awards Expire

This Task has the following parameters:

- Award Program - This Selection Menu determines the Award Program for which notifications are sent.
- Period Type - This Selection Menu indicates the type of period used for determining the award expiration notification window.
- Number of Periods - Defines the number of periods (from Period Type) of the notification window.

Award Sync Export

This task has the following parameters:

- Select target batch exporter system - Set to Marketing by default.
- Export type - Controls which records to include in the export file:
  - Export all active records - Include all active award account and award coupon records.
  - Export updated records only - Include award account and award coupon records only if they have changed since the last export. With this selection, the Once Immediately and Once Later options for scheduling the job are not available

  Note that, regardless of your selection here, the first time you run the export all, active award account and award coupon records are included.
- Specify export filename - These fields control the creation of the file containing new or updated award account records.

  At least one entry (prefix, static name, or suffix) is required:
  - Prefix - The date and time stamp format to use as a prefix for naming the export file.
    - no prefix - Do not use a date and time stamp prefix on the file name.

    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20160630_123456 where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2016-06-30-123456, where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

    The setting of the Responsys Export Filename Default Prefix property defaults.

  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Award Account Sync Default Filename property defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not yet selected a prefix format, suffix format, or static name.

- Specify export filename - These fields control the creation of the file containing new or updated award coupon records.

  At least one entry (prefix, static name, or suffix) is required:

  - Prefix - The date and time stamp format to use as a prefix for naming the export file.
    - no prefix - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20160630_123456 where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2016-06-30-123456, where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

    The setting of the Responsys Export Filename Default Prefix property defaults.

  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Award Account Sync Default Filename property defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above. The setting of the Responsys Export Filename Default Suffix property defaults.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not yet selected a prefix format, suffix format, or static name.

- Award Program = Use the drop-down list to select an award program to include in the export files.

Award Account Export File

The award account export file contains the following information:

- Customer ID.
- Card number.
- Card active flag (set to 1 if active; if not active, indicates a deactivation or merge).
- Card expiration date.
- First used date.
- Last used date.
- Program name.
- Program ID.
- Update date.
- Currency code.
- Account expiration date.
- Account ID.
- Award balance.
- E-award count.
- Entitlement count.

Award Coupon Export File

The award coupon export file contains the following information:

- Customer ID.
- Card number.
- Account ID.
- Program ID.
- Coupon typecode (e-award or entitlement).
- Coupon ID.
- Coupon balance, if any; for example, an entitlement for a line item discount would not have a balance.
- Currency code.
- Deal name, if any; for example, a deal name is specified for an entitlement.
- Deal ID, if any; for example, a deal ID is specified for an entitlement.
- Expiration date.
- Update date.

Distribute Loyalty Awards

This Task has the following parameter:

- Export File - This Text Field defines the name of the export file created by the Task.

Note that the Create Loyalty Awards process should be run before this process.

Export File

The export file contains information about the Award issued, the Account through which the Award was earned, and the Customer to whom the Award is being issued. See the *Oracle Retail Customer Engagement Implementation Guide* for more information on export templates.

Create Loyalty Awards

This Task has the following parameters:

- Generate customer note - This toggle indicates whether a Customer note is generated when a Loyalty Award is generated for a Customer.
- Each Check Box in the List indicates whether the associated Loyalty Program or Program Level is included in the Task:
  - To select all programs and all levels [default], click the Top Level check box.
  - To deselect all programs and all levels, Clear the Top Level check box.
  - To select or deselect individual program levels, click the Enabled Check Box for the level. If there is a check mark in the box, the level is included in the task.

Export Files

When the award(s) are exported, three files are created: an E-Award Export File, an Entitlement Coupons File, and a Loyalty Level Movement Export File. See the *Oracle Retail Customer Engagement Implementation Guide* for more information on export templates.

Earn Loyalty Points

This Task has no additional parameters.

Expire Loyalty Points

This Task has no additional parameters.

Reset Loyalty YTD Points

This task has no additional parameters.

Loyalty Account Sync Export

Before you submit this task, you must select an export target system of either Marketing for a system such as Responsys, or BI/Analytics for a system such as Retail Insights. The Supported Batch Exporter Types property controls which of these options are available. See the *Oracle Retail Customer Engagement Implementation Guide* for more information about System Configuration.

Loyalty Account Sync Export - BI/Analytics

If you select BI/Analytics as the export target system, the following options are displayed:

- Export type - Controls which records to include in the export file:
    - Export all active records - Include all active loyalty account records.
    - Export updated records only - Include loyalty account records only if they have changed since the last export. With this selection, the Once Immediately and Once Later options for scheduling the job are not available.

  Note that, regardless of your selection here, the first time you run the export all active loyalty account records are included.
- Specify export filename - If you selected an Export type of BI/Analytics, the setting of the Retail Insights Loyalty Account Sync Export Default Filename property is displayed and cannot be changed.

Loyalty Account Sync Export File - BI/Analytics

The customer export file is a pipe-delimited values file that typically contains the following information:

- Loyalty Account Id
- Card Serial Number - Sixteen-digit number embossed on the card
- Primary Customer Number
- Loyalty Program Id
- Loyalty Program Level Id
- Account Active Flag
- Account Expiry Flag
- Earned Points Balance
- Escrow Points Balance
- Last Award Processed Date
- Last Accrual Date
- Last Program Level Change Date
- Last Transaction Date

The export file does not include a header row. Instead, there is a separate file with the same name as the loyalty account sync export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the loyalty account sync export file name is W_RTL_LYL_ACCOUNT_DS.dat, the file containing the header row names is W_RTL_LYL_ACCOUNT_DS.ctx.

Loyalty Account Sync Export - Marketing

If you select an export target system of Marketing, the following options are displayed:

- Select target batch exporter system - Set to Marketing by default.
- Export type - Controls which records to include in the export file:

  - Export all active records - Include all active loyalty records.
  - Export updated records only - Include loyalty records only if they have changed since the last export. With this selection, the Once Immediately and Once Later options for scheduling the job are not available.

  Note that, regardless of your selection here, the first time you run the export all active loyalty records are included.

- Specify export filename - These fields control the creation of the CSV file containing new or updated loyalty records. At least one entry (prefix, static name, or suffix) is required:
  - Prefix - The date and time stamp format to use as a prefix for naming the export file:
    - None - Do not use a date and time stamp prefix on the file name.
    - yyyyMMdd_HHmmss - Use a date and time stamp prefix in this format (for example, 20160630_123456 where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).
    - yyyy-MM-dd_HHmmss - Use a date and time stamp prefix in this format (for example, 2016-06-30-123456, where the year is 2016, the month is June, the date is 30, and the time is 12:34:56).

    The setting of the Responsys Export Filename Default Prefix property defaults.
  - Static Name - The text string to include in the file name between the prefix and suffix, if any. The setting of the Responsys Loyalty Account Sync Default Filename property defaults.
  - Suffix - The date and time stamp format to use as a suffix for naming the export file. The date and time stamp format options for the suffix are the same as for the prefix, described above, with a default of no suffix.
  - Filename - Displays an example of the export file name with the prefix and suffix format, if any. This field is blank if you have not yet selected a prefix format, suffix format, or static name.
- Loyalty Program - Select a single loyalty program to include in the export file.

Loyalty Account Sync Export File - Marketing

The customer export CSV file contains the following information:

- Customer ID.
- Card number.
- Card active flag (set to 1 if active; if not active, indicates a deactivation or merge).
- Card expiration date.
- First use date.
- Last use date.
- Life-to-date balance.
- Year-to-date balance.
- Earned point balance.
- Escrow point balance.

- Program name.
- Level ID.
- Level name.
- Account expiration date.
- Update date.
- Account ID.

Loyalty Account Activity Sync Export

This task has the following parameters:

- Batch Exporter Type - Defaults to BI/Analytics and cannot be changed.
- Export Type - Controls which records to include in the export file:
  - Export all active records - Include all active loyalty account records.
  - Export updated records only - Include loyalty account records only if they have changed since the last export. With this selection, the Once Immediately and Once Later options for scheduling the job are not available

  Note that, regardless of your selection here, the first time you run the export all active loyalty account records are included.
- Specify export filename - The setting of the Retail Insights Loyalty Transaction Data Sync Export Default Filename property is displayed and cannot be changed.

Loyalty Account Activity Export File - BI/Analytics

The export file is pipe-delimited, and typically contains the following information:

- Loyalty Transaction ID - Main identifier of the loyalty account activity.
- Loyalty Program ID - Unique identifier of the loyalty program.
- Loyalty Program Level ID - Unique identifier of the loyalty program level.
- Loyalty Account ID - Main identifier of the loyalty account associated with the transaction.
- Card Serial Number - The card associated with the loyalty account.
- Customer Number - Unique identifier of the primary customer associated with the card.
- Transaction Date - Date when the loyalty transaction took place.
- Transaction Type Code - Includes Activate, Deactivate, Issue, PointRecovery, Return, Award, Expire, ChangeLevel, SustainExtension, AccountMerge, ResetExpirationDate, TransferOut, and TransferIn. Inquiries are not included.
- Transaction Trigger Type - System where the transaction was triggered from, such as POS, CRM server, or loyalty admin module.
- Retail Transaction ID - Unique identifier of the transaction, provided by the POS System.
- Points Accrued - Number of points accrued for an Issue, Point Recovery, Earn, or Return. For a return, this is a negative number.
- Points Redeemed - Number of Points Redeemed for an Award.
- Bonus Points - Number of points issued as bonus points for an Issue, Point Recovery, Earn, or Return. For a return, this is a negative number.

- Points Expired - Number of points expired as a part of this transaction.
- Transaction Amount - The sale transaction amount that has earned the given points in original currency for an Issue, Point Recovery, Earn, or Return. For a return, this is a negative number.
- Original Currency Code - The currency code of the transaction amount.
- Converted Amount - The sale transaction amount that has earned the given points in program currency for an Issue, Point Recovery, Earn, or Return. For a return, this is a negative number.
- Program Currency Code - The currency code of the program.
- Location ID - Retail location ID where the transaction occurred.
- Points Transferred Out - The total number of points transferred out for the transaction. Included as a negative number when the transaction type is Transfer Out.
- Points Transferred In - The total number of points transferred in for the transaction. Included as a positive number when the transaction type is Transfer In.

The export file does not include a header row. Instead, there is a separate file with the same name as the loyalty account activity export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the loyalty account activity export file name is W_RTL_LYL_TRANS_DS.dat, the file containing the header row names is W_RTL_LYL_TRANS_DS.dat.ctx.

Loyalty Program Sync Export

This task has the following parameters:

- Batch Exporter Type - Defaults to BI/Analytics and cannot be changed.
- Export Type - Controls which records to include in the export file:
  - Export all active records - Include all active loyalty programs.
  - Export updated records only - Include loyalty programs only if they have changed since the last export.

  Note that, regardless of your selection here, the first time you run the export all active loyalty programs are included.
- Specify export filename - The setting of the Retail Insights Loyalty Program Data Sync Export Default Filename property is displayed and cannot be changed.

Loyalty Program Data Export File - BI/Analytics

The export file is pipe-delimited, and typically contains the following information:

- Loyalty Program Id
- Loyalty Program Name
- Points Name
- Points Currency Value
- Loyalty Program Active Flag
- Loyalty Program Start Date

- Loyalty Program End Date
- Loyalty Program Level Id
- Loyal Program Level Name
- Loyalty Program Level Active Flag
- Default Program Level flag
- Program Currency

The export file does not include a header row. Instead, there is a separate file with the same name as the loyalty program data export file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the loyalty program data export file name is W_RTL_LYL_PROG_DS.dat, the file containing the header row names is W_RTL_LYL_PROG_DS.dat.ctx.

Loyalty Award Transaction Sync Export

This task has the following parameters:

- Batch Exporter Type - Defaults to BI/Analytics and cannot be changed.
- Export Type - Controls which records to include in the export file:
  - Export all active records - Include all award transactions for all active loyalty programs.
  - Export updated records only - Include award transactions only if they have occurred since the last export.

  Note that, regardless of your selection here, the first time you run the export all award transactions for all active loyalty programs are included.
- Specify export filename - The setting of the Retail Insights Loyalty Award Transaction Data Sync Export Default Filename property is displayed and cannot be changed.

Loyalty Award Transaction Data Export File - BI/Analytics

The export file is pipe-delimited, and typically contains the following information:

- Award Transaction ID- The unique numeric identifier of the transaction.
- Award Account ID - The unique numeric identifier of the award account.
- Award Program ID - The unique numeric identifier of the award program.
- Card Serial Number - The serial number for the account.
- Customer Number - The unique numeric identifier of the customer.
- Award Type - E-Award or Entitlement Coupon.
- Award Transaction Type code - IssueCoupon, IssueEntitlementCoupon, Redeem, AutomaticRedeem, TransferIn, TransferOut, VoidAwardTransaction, NotifyCouponExpire, ActivateAccount, DeactivateAccount, and AccountMerge.
- Coupon ID - The unique numeric identifier for the award coupon.
- Coupon Effective Date - The date when the coupon becomes effective.
- Coupon Expiry Date - The date when the coupon expires.

- Issue Amount - Amount awarded in award currency during a E-Award issue. Populated when the transaction type is IssueCoupon or IssuePromoAwardCoupon.
- Redeem Amount - Amount redeemed in award currency during an E- Award redemption. Populated when the transaction type is Redeem or AutomaticRedeem.
- Balance Amount - Balance of an E-Award coupon.
- Deal ID - Deal associated to the given Coupon for an entitlement deal award.Deal Name - The name of an entitlement deal.
- External Deal ID - Promote-side Deal ID that is used to trigger the deal at POS for an entitlement coupon. The external deal ID and the Deal ID can be the same.
- Max Redeem Count - The maximum redeemable count for the deal. Included only for an Entitlement Deal.
- Redeemed Count - The redeemed count for this specific entitlement coupon record. Included only for an Entitlement Deal.
- Redemption Balance - The total count eligible for redemption. Calculated by subtracting the Redeemed Count from the Max Redeem Count. Included only for an Entitlement Deal.
- Award Currency - The currency defined for the award program.
- Award Transaction Date - The date when the transaction took place.
- Coupon Fully Redeemed Flag - Flag indicating if the given coupon has been fully redeemed. For an E-Award, this is the Issue Amount = Redeem Amount. For an Entitlement Deal, this is the Max Redeem Count = Redeemed Count.
- Coupon Expiry Flag - Flag indicating if the Expiry Date for the coupon has passed.
- Transfer Out Amount - The amount transferred out to another account.
- Transfer In Amount - The amount transferred in from another account.

The export file does not include a header row. Instead, there is a separate file with the same name as the loyalty award transaction data file, but with an extension of .ctx, that includes the titles of each column in the export file. For example, if the loyalty award transaction data file name is W_RTL_LYL_AWD_DS.dat, the file containing the header row names is W_RTL_LYL_AWD_DS.dat.ctx.

Delete Customers

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Customer's Last Purchase Date on which a Customer is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Customers that would be deleted, or if the Customers are deleted.
  - On () - Only a count of the Customers are reported.
  - Off () - The Customers are deleted.

Delete Inactive Customers

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Customer's Last Update Date on which a Customer is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Customers that would be deleted, or if the Customers are deleted.
  - On - Only a count of the Customers are reported.
  - Off - The Customers are deleted.

Purged data includes:

- The customer ID is set to null in the following tables:
  - TRN_LINE_ITEM
  - TRN_LINE_ITEM_MODIFIER
  - TRN_TRANSACTION
  - AWD_ACCT_ACTIVITY
  - LYL_LOYALTY_ACCT_ACT
  - SVC_TENDER_ACCT_ACT
- Archived customer data is deleted from the following tables:
  - ARCH_CST_CUST_PHONE
  - ARCH_CST_ADDRESS
  - ARCH_CST_CUST_ATTRIBUTES
  - ARCH_CST_CUST_ALT_KEY
  - ARCH_TRN_CUST_HISTORY
  - ARCH_CST_DEPARTMENT_TOTALS
  - ARCH_CST_CUSTOMER
  - ARCH_CST_CUST_NOTES
  - ARCH_CST_PREFERENCE_CENTER
  - ARCH_CST_CUST_SOCIAL_PROFILE
  - ARCH_CST_CUST_SOCIAL_ACTIVITY
  - ARCH_CST_CUST_FRANCHISEE_MAP
  - ARCH_CMP_SOCIAL_RESULT_MAP

Also, any Item Registry that includes only the inactive Customer is deleted, regardless of whether the inactive Customer is the primary Customer for the Registry.

Oracle recommends scheduling this Task to run weekly.

Delete Inactive Customer Addresses

This Task has the following parameters. The deletion is always based on the setting of the Active flag. Customer addresses are flagged as inactive when you select the Delete option for the address.

- Report Only - This toggle indicates whether the Task only reports the number of Customer addresses that would be deleted, or if the Customer addresses will actually be deleted.
  - On - Only a count of the Customer addresses are reported. The listing displayed at the Job Details Window indicates the total number of inactive addresses that would be deleted for all Customers, and the total number of Customers that would have inactive addresses deleted. These numbers might be different, for example, if you deleted two addresses for the same Customer.
  - Off - The Customer addresses are deleted.The listing displayed at the Job Details Window indicates the total number of inactive addresses that were deleted for all Customers, and the total number of Customers that had inactive addresses deleted. These numbers might be different, for example, if you deleted two addresses for the same Customer.

Delete Inactive Customer Phone Numbers

This Task has the following parameters. The deletion is always based on the setting of the Active flag. Customer phone numbers are flagged as inactive when you select the Delete option for the phone number.

- Report Only - This toggle indicates whether the Task only reports the number of Customer phone numbers that are deleted, or if the Customer numbers are actually deleted.
  - On - Only provides a count of the Customer phone numbers that are reported as inactive. The count at the Job Details Window indicates the total number of inactive phone numbers that will be deleted for all Customers and the total number of Customers that will have inactive phone numbers deleted. These numbers might be different, for example, if you deleted two phone numbers for the same Customer.
  - Off - The Customer phone numbers are deleted. The listing displayed at the Job Details Window indicates the total number of inactive phone numbers that were deleted for all Customers, and the total number of Customers that had inactive phone numbers deleted. These numbers might be different, for example, if you deleted two phone numbers for the same Customer.

Delete Inactive Customer Email Addresses

This Task has the following parameters. The deletion is always based on the setting of the Active flag. Customer email addresses are flagged as inactive when you select the Delete option for the email address.

- Report Only - This toggle indicates whether the Task only reports the number of Customer email addresses that are deleted, or if the Customer email addresses are actually deleted.

  - On - Only provides a count of the Customer email addresses that are reported as inactive. The count at the Job Details Window indicates the total number of inactive emails that will be deleted for all Customers and the total number of Customers that will have inactive emails deleted. These numbers might be different, for example, if you deleted two phone numbers for the same Customer.
  - Off - The Customer email addresses are deleted. The listing displayed at the Job Details Window indicates the total number of inactive email addresses that were deleted for all Customers and the total number of Customers that had inactive email addresses deleted. These numbers might be different, for example, if you deleted two email addresses for the same Customer.

Delete Transaction History

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Transaction Business Date on which a Transaction is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Transactions that are to be deleted, or if the Transactions will be deleted.
  - On - Only a count of the Transactions are reported.
  - Off - The Transactions are deleted.

Delete Promotion

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Promotion's End Date on which a Promotion is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Promotions that would be deleted, or if the Promotions are deleted.
  - On - Only a count of the Promotions are reported.
  - Off - The Promotions are deleted.

Delete Merged/Archived Customers

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a merged Customer record's Create Date on which the merged Customer records are deleted. Any Customer record that was merged and archived before that date is removed from the system
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Customers that would be deleted, or if the Customers are deleted.
  - On - Only a count of the Customers are reported.
  - Off - The Customers are deleted.

Oracle recommends that you schedule this task to run every week.

Delete Loyalty Accounts and Activities

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Loyalty Account's Last Update Date on which a Loyalty Account and its activities are deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Loyalty Accounts that would be deleted, or if the Loyalty Accounts are deleted.
  - On - Only a count of the Loyalty Accounts are reported.
  - Off - The Loyalty Accounts and activities are deleted.

Delete Loyalty Inquiry Activities

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Loyalty Inquiry's Last Activity Date on which a Loyalty Inquiry is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Loyalty Inquiries that would be deleted, or if the Loyalty Inquiries are deleted.
  - On - Only a count of the Loyalty Inquiries are reported.
  - Off - The Loyalty Inquiries are deleted.

Delete Loyalty Program Summary

This Task has the following parameters:

- Number of Months - Set the number of months after which data from the Loyalty Summary Aggregate tables will be deleted based on the Year and Month fields. If 0 is entered, all data will be deleted. If 1 is entered, only one month (the latest) will be kept and all previous data deleted. If 2 is entered, only the latest and previous month will remain and so on.
- Report Only -
  - On - The data will not be deleted, a count of the rows to delete from each table will be shown in the job processing output when the job is complete.
  - Off - The data will be deleted and a summary will be shown in the job processing output.

Delete Segments

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Segment's Last Run Date on which a Segment is deleted.
- Based On - A field that describes what the Number of Days field is determined by.

- Report Only - This toggle indicates whether the Task only reports the number of Segments that would be deleted, or if the Segments are deleted.
  - On - Only a count of the Segments are reported.
  - Off - The Segments are deleted.

Delete Segment History

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Segment's Last Run Date on which the History for the Segment is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Segment Histories that would be deleted, or if the Segment Histories are deleted.
  - On - Only a count of the Segment Histories are reported.
  - Off - The Segment Histories are deleted.

Delete Job History

This Task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Job's End Date on which the History for the Job is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Job Histories that would be deleted, or if the Job Histories are deleted.
  - On - Only a count of the Job Histories are reported.
  - Off - The Job Histories are deleted.

Delete Export Files

This Task has the following parameter:

- Number of Days - This Text Field defines the number of days to retain files in export directories before they are eligible to be deleted. The Task uses the date when a file was most recently modified to determine whether it is eligible for deletion.

Once an export file has been deleted, the Job Details Window for the export job displays a message: File no longer available.

Oracle recommends scheduling this Task to run weekly.

The following configuration properties define the export directories where files are created for export that are subject to deletion through this task.

- Account Batch Exporter Export Directory
- Award Export Directory
- Card Export Directory
- Card Series Export Directory

- Customer Batch Exporter Export Directory
- Customer Segment Export Directory
- Directory For Promotion Batch Export Files
- Directory For Segment Batch Export Files
- Location Specific Transform Export Directory
- Loyalty Export Directory
- Promote Transforms Export Directory
- Promotion Transforms Export Directory
- Promotion Export Directory
- Promotion Transforms Export Directory
- Retail Insights Batch Exporter Export Directory
- Tender Activity Report Export Directory

See the *Oracle Retail Customer Engagement Implementation Guide* for information on setting up configuration properties.

Delete Import Files

This Task has the following parameter:

- Number of Days - This Text Field defines the number of days to retain files in import directories before they are eligible to be deleted. The Task uses the date when a file was most recently modified to determine whether it is eligible for deletion.

Oracle recommends scheduling this Task to run weekly.

The following configuration properties define the import directories where files are deleted.

- Card Series Import Upload Directory
- Batch File Input Directory

See the *Oracle Retail Customer Engagement Implementation Guide* for information on setting up configuration properties.

Delete Gift Registries

This task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Gift Registry's Expiration Date on which the Gift Registry is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Gift Registries that would be deleted, or if the Gift Registries are deleted.
  - On - Only a count of the Gift Registries are reported.
  - Off - The Gift Registries are deleted.

Delete Inactive Item Registries

This task has the following parameters:

- Number of Days - This Text Field defines the number of days after an Inactive Wish List's or Gift Registry's Last Update Date on which the Wish List is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Gift Registries that would be deleted, or if the Wish Lists are deleted.
  - On - Only a count of the Wish Lists are reported.
  - Off - The Wish Lists are deleted.

Delete Inactive Segment

This task has no additional parameters.

Delete Social Activity

This task has the following parameters:

- Search Strategy - This Selection Menu determines the social network for which the Social Activity is being deleted.
- Number of Days - This Text Field defines the number of days after a Social Activity item's Last Activity Date on which the item is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Social Activity items that would be deleted, or if the Social Activity is deleted.
  - On - Only a count of the Social Activity items that are reported.
  - Off - The Social Activity is deleted.

Delete Tasks

This task has the following parameters:

- Task Status - This Selection Menu includes the following options.
  - All (Default)
  - Open
  - In Progress
  - Cancelled
  - Closed
- Number of Days - Set the number of days after a Task's Update/Create Date on which the Task is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the tasks that would be deleted, or if the tasks are deleted.

  - toggle Right - Only a count of the tasks that are reported.
  - toggle Left - The Tasks that are deleted.

Delete Award Inquiry Activities

This task has the following parameters:

- Number of Days - This Text Field defines the number of days after a Award Inquiry's Last Activity Date on which a Award Inquiry is deleted.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Award Inquiries that would be deleted, or if the Award Inquiries are deleted.
  - On - Only a count of the Award Inquiries are reported.
  - Off - The Award Inquiries are deleted.

Delete Web Service Tracking

This task has the following parameters:

- Number of Days - This Text Field defines the number of days after which tracked Web Service activity is deleted, based on the date when the record in the database was most recently updated.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Web Service Tracking records that would be deleted, or if the Web Service Tracking records would be deleted.
  - On - Only a count of the consolidated daily, weekly, and monthly Web Service Tracking records are reported.
  - Off - The consolidated Web Service Tracking records are deleted.

Delete Batch Import History

This task has the following parameters:

- Number of Days - This Text Field defines the number of days after which batch import history is deleted, based on the END_DATE in the XMLAPI_PROCESSED_RECORD table.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Batch Import History records that would be deleted, or if the Batch Import History records would actually be deleted.
  - On - Only a count of the Batch Import History records are reported.
  - Off - The Batch Import History records are deleted.

Delete Batch Process Tracking

This task has the following parameters:

- Number of Days - This Text Field defines the number of months after which tracked Batch Process activity is deleted, based on the date when processing ended. If this field is set to 0, all existing consolidated daily, weekly, and monthly Batch Processing data is eligible for deletion.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of Batch Process Tracking records that would be deleted, or if the Batch Process Tracking records would be deleted.
  - On - Only a count of the consolidated daily, weekly, and monthly Batch Process Tracking records are reported.
  - Off - The consolidated Batch Process Tracking records are deleted.

Delete Stored Files

Number of Days - This Text Field defines the number of days after which transfer file data currently stored in the database is deleted, based on each file's Create Date.

Based On - A field that describes what the Number of Days field is determined by.

Report Only - This toggle indicates whether the Task only reports the number of stored file records that would be deleted, or if the stored file records would be deleted.

- ON - Only a count of the stored transfer files records are reported.
- OFF - The stored transfer file records are deleted.

Data stored in the database on failed transfer files is deleted automatically based on the Delete Failed Transfer in X Days system configuration property.

Aggregate Loyalty Facts

This task has the following parameters:

- Number of prior years to begin aggregation of loyalty data - This Text Field determines the number of years prior to the current date that is included in the aggregation.
- Maximum number of months to collect data - This Text Field defines the number of months for which data is aggregated.

  If this field is left blank [default], the system will aggregate all the data included in the indicated number of years.
- Reset Prior Run Data - This toggle indicates whether the task will delete the previously aggregated loyalty information and create an entirely new summary, or if the summary information from previous aggregations are kept.
  - On - The task will remove all of the currently existing summary information and create an entirely new summary.
  - Off - The task will keep the previously collected summary information.

Aggregate Tender Facts

This task has no additional parameters.

Aggregate Award Program Summary

This task has no additional parameters.

Aggregate Loyalty Program Summary

This task has no additional parameters.

Aggregate Tender Program Summary

This task has no additional parameters.

Dynamic Promotions

This task has no additional parameters.

This job should be scheduled for the very early morning, before users generate Promotions. This allows the Job to run before any Dynamic Promotions are generated.

If a Dynamic Promotion was generated earlier in the day, do not run this job on the same day.

Do not run this job more than once per day.

Promotion Response Data Import

This task has no additional parameters.

This task processes the following import files to create Customer Notes recording each of the specific customer events. These files are typically submitted by a marketing system such as Responsys.

SENT_EMAILS Promotion Import File

This import file includes the following information:

- Campaign ID.
- Promotion ID.
- Event Type of 1 (sent email).
- Customer ID.
- Event Captured Date.

Each processed record in the import file creates a Customer Note:

- Type - EMAIL_SENT.
- User - OMC.
- Location - The organization's default location.
- Note contents:
  - Campaign ID.
  - Promotion ID.

  - Event Type ID.

CLICK_EMAILS Promotion Import File

This import file includes the following information:

- Event Type of 5 (click email).
- Customer ID.
- Event Captured Date.
- Campaign ID.
- Promotion ID.
- Offer Name (the name from the marketing system, such as Responsys).
- Offer Category (the category from the marketing system, such as Responsys).
- Offer URL.

Each processed record in the import file creates a Customer Note:

- Type - EMAIL_CLICKED.
- User - OMC.
- Location - The organization's default location.
- Note contents:
  - Campaign ID.
  - Promotion ID.
  - Event Type ID.
  - Offer Name.
  - Offer Number.
  - Offer Category.
  - Offer URL.

OPEN_EMAILS Promotion Import File

This import file includes the following information:

- Event Type of 4 (open email).
- Account ID.
- List ID (the list ID from the marketing system, such as Responsys).
- RIID (ID code from the marketing system, such as Responsys).Customer ID.
- Event Captured Date.
- Campaign ID.
- Promotion ID.

Each processed record in the import file creates a Customer Note:

- Type - EMAIL_OPENED
- User - OMC.

- Location - The organization's default location.
- Note contents:
  - Campaign ID.
  - Promotion ID.
  - Event Type ID.

FAIL_EMAILS Promotion Import File

This import file includes the following information:

- Customer ID.
- Event Type of 8 (failed email).
- Event Captured Date.
- Campaign ID.
- Promotion ID.

Each processed record in the import file creates a Customer Note:

- Type - EMAIL_FAILED
- User - OMC.
- Location - The organization's default location.
- Note contents:
  - Campaign ID.
  - Promotion ID.
  - Event Type ID.

Social Network Listener

This task has the following parameter:

- Social Network - This Selection Menu determines the social network to search for social activity matching the entered criteria.

Social Network Update

This task has the following parameters:

- Search Strategy - This Selection Menu determines the social network for which the Social Activity is being deleted.
- Number of Days - This Text Field defines the number of days in the past for which to search for updates.
- Based On - A field that describes what the Number of Days field is determined by.
- Report Only - This toggle indicates whether the Task only reports the number of updates available, or if the Social Profiles are updated.
  - On - Only a count of the updates that are reported.
  - Off - Social Profiles are updated.

Task Generator

This task has the following parameters:

- Select Segment For Task Generator - This Selection Menu determines the Segment for which tasks are generated.
- Task Type - This field cannot be edited.
- Subject - [required] This Text Field defines the subject line for the tasks.
- End after X days - This Text Field defines the number of days from the present day that the task will end.
- Skip if issued within X days - This Text Field defines a number of days before the present date in which, if the customer had a task created within those days, the job will not generate a task for that customer.
- Status - This field cannot be edited.
- Priority - This Selection Menu defines the priority for the created tasks.
- Associate Assignment Detail - These Radio Buttons determine the associate role for the associate who is assigned each task.
  - Assign to Primary - Assign each task to the customer's primary associate.
  - Assign to Role - Assign each task to the associate assigned to a specified role.
    - If Assign to Role is selected, a Selection Menu is enabled for determining the associate role to use when assigning the tasks.
  - Note Type - This Selection Menu determines the type of note (if any) to add to each task.
  - Note - This Text Area Field is used to enter the text of a note (if any) to add to each task.

Batch Import Review

This task has the following parameters:

- Select processed file result type: - These options determine the result types to include in the generated email:
  - All - Include all results in the generated email.
  - Error/Warning [default] - Include only errors or warnings in the generated email.

    See the *Oracle Retail Customer Engagement Batch Processing and Web Services Guide* for more information.
- List of Users - Select one or more Users to receive the email from the Selected Users Selection Search window.
  1. Click the Selected Users **Plus** icon to open a search window and search for the User to receive the email.
  2. Click Select. The User is added to the Selected Users List.
  3. Repeat step 2 for each User to be added to the Users list.
  4. To remove a User from the Users list, click the **X** icon. The User is removed from the Users list.

- List of Email Addresses - Enter one or more emails to add to the Notification Email List.
    1. Enter the email address in the Notify Email Address field.
    2. Click the **Plus** icon. The email address is added to the Notification Email List.

        > **Note:**
        >
        > Validation is performed on the email address.

    3. Repeat steps 1-2 for each email address to be added to the Notification Email List.
    4. To remove an email address from the Notification Email List, click the **X** icon. The email address is removed from the Notification Email List.

ODCS Sync

This task generates requests to the Omnichannel Cloud Data Service (OCDS) for updates on item and merchandise hierarchy data as well as location and franchise data. The three toggles are set to OFF by default and require SystemConfig or SystemAdmin authority, and have the following parameters:

- Item and Merchandise Hierarchy - Select this option to request item and merchandise hierarchy data from the Omnichannel Cloud Data Service, including:
    - Merchandise Hierarchy
    - Item Header
    - Item Image
    - Item Price
- Location and Franchise - Select this option to request location and franchise data from the Omnichannel Cloud Data Service, including:
    - Store Location
    - Organizational Hierarchy/Franchise
- Reset Last Run Date - Select this option to retrieve all data, regardless of date created or updated; otherwise, leave this option OFF to request only data that has been created or updated since the last time you ran the OCDS data sync.

See Bulk Imports through Oracle Cloud Data Service (OCDS) in the *Batch Processing and Web Services Guide* for more information on the integration and the data received.

Data Sync

This task has the following parameters:

- Click **Send Sample Message** to test the connection to a third party application. A confirmation appears indicating the message was sent successfully. If the connection is not working contact your application administrator.
- Enter the **Client ID**.

- Enter the **Secret** credential.

> **Note:**
>
> The Client ID and Secret are provided by the third party application that integrates with Customer Engagement.

- Click **Save**.

12

Reports

Oracle Retail Customer Engagement Cloud Services provides a set of pre-defined reports that cover all aspects of the application. The results can be modified through sorting and filtering.

To access the Reports panel, click the **Reports** icon from the main toolbar.

About this Chapter

This chapter contains the following information:

- Report Categories and Report Descriptions
  - Account Management
  - Award Management
  - Campaign Management
  - Card Management
  - Customer Management
  - Item Management
  - Location Operations
  - Loyalty Management
  - Segment Management
  - Tender Account Management
  - Registry Management
  - Task Management
- Displaying Reports
  - Running Reports
  - BI Publisher Toolbar
  - View Report Options
  - BI Publisher Actions
- Report Generation Options and Contents

Report Categories and Report Descriptions

Almost all reports require additional configuration information that limit the results returned. Most fields allow the user to create Lists of multiple items to be included on the report.

> **Note:**
>
> In most cases, if no information is entered for a configuration field, all results for that field are included on the report (up to the defined Limit Records setting).

The reports available for generation are listed in the following sections.

Account Management

Account Activity Summary - This report presents transaction count and value summary information about the program activities, segregated by activity typecode, user, and reason code. See Account Activity Summary Report for more information.

Award Management

- Award Account Activity Details - This report presents detailed information about activities performed on one or more given Award Accounts. See Award Account Activity Details Report for more information.
- Award Account Activity Errors - This report presents detailed information about transaction errors associated with Award Accounts. See Award Account Activity Errors Report for more information.
- Award Account Activity Trend - This report presents daily counts of Award Transactions, organized by Activity type, within a Program, and includes charts illustrating award account activity. See Award Account Activity Trend Report for more information.
- Award Account Balance - This report presents the Account balance available at run time for each Account. See Award Account Balance Report for more information.
- Award Account Error Trend - This report presents information about the number of times transaction errors occurred, by date, for each Program, and includes a chart illustrating error incidence. See Award Account Error Trend Report for more information.
- Award Account Last Use - This report presents counts of Accounts within an Award Program, grouped by the number of days between last use date and system date at run time. See Award Account Last Use Report for more information.
- Award Activity By Location - This report presents Award activity within a Program, by Location, for a selected date range. See Award Activity by Location Report for more information.
- Award Activity By Program - This report presents a summary of Account activities, listed by type, for each Program. See Award Activity by Program Report for more information.
- Award Entitlement Expiration - This report presents a listing of the expiration dates of issued Entitlement Coupons, providing information on how many are due to expire or have expired. See Award Entitlement Expiration Report for more information.

- Award Entitlement Redemption - This report presents a count of redeemed Entitlement Coupons for each Entitlement Offer, and includes charts illustrating entitlement redemption activity. See Award Entitlement Redemption (Trend) Report for more information.
- Award Entitlement Summary - This report displays the number of Issued Coupons for each Offer within an Entitlement program. See Award Entitlement Summary Report for more information.
- Award Program Balance Summary - This report presents summary statistics about current Account balances within each Award Program. See Award Program Balance Summary Reportfor more information.
- Award Program Definitions - This report presents details about each Award Program definition. See Award Program Definition Report for more information.
- Award Redemption Rate - This report presents information about the number of Award certificates issued & redeemed for each Card Prefix and Card Series by Program. See Award Redemption Rate Report for more information.

Campaign Management

- Promotion Response By Category - This report presents the event response, by Product Hierarchy, for the selected Promotion events, including items purchased. See Promotion Response by Category Report for more information.
- Promotion Response By Date - This report summarizes the value of the response, by business date, to the selected Promotion events. See Promotion Response by Date Report for more information.
- Promotion Response By Deal - This report summarizes the value of the response, by Deal, to the selected Promotion events. See Promotion Response by Deal Report for more information.
- Promotion Response By Location - This report summarizes the value of the response, by Location, to the selected Promotion events. See Promotion Response by Location Report for more information.
- Promotion Response By Target - This report presents response data, by Segment Target, for selected Promotion events. See Promotion Response by Target Report for more information.
- Promotion Response Detail - This report displays information about the Transactions created in response to each Promotion. See Promotion Response Detail Report for more information.
- Promotion Target Detail - This report displays Customer information for the segment targeted in each Promotion. See Promotion Target Details Report for more information.
- Promotion Target List - This report presents information about the Segment Targets associated with each Promotion within a Campaign. See Promotion Target List Report for more information.
- Promotion Target Segment List - This report displays a list of each Target Segment associated with each Promotion within a Campaign. See Promotion Target List Report for more information.

Card Management

- Card Batch Activation Rate - This report displays the activation rate for each Batch within each Card Series on the Card Prefix. See Card Batch Activation Rate Report for more information.
- Card Detail - This report presents detailed information about individual Cards defined in the system. See Card Detail Report for more information.
- Card Series Activation Rate - This report presents the activation rate for each Card Series created for each Card Type. See Card Series Activation Rate Report for more information.

Customer Management

- Address Summary - This report presents a count of Customers by address type, grouped by whether they are primary or valid. See Address Summary Report for more information.
- Birthday Summary - This report presents Customer counts by birth month. See Birthday Summary Report for more information.
- Customer Alt Key Summary - This report presents counts of the number of Customers by Alternate Key Type. See Customer Alt Key Summary Report for more information.
- Customer Assoc Assign By Assoc Role - This report displays contact information for Customers associated to a particular Associate Role. See Customer Associate Assignment by Associate and Role Report for more information.
- Customer Contact Email List - This report presents a listing of Customer names, addresses, and primary emails by Signup Location. See Customer Contact Email List Report for more information.
- Customer Contact Phone List - This report presents a listing of Customer names, addresses, and phone numbers by Signup Location. See Customer Contact Phone List Report for more information.
- Customer Purch By Dept By Year - This report presents a summary of Customer purchase activity by Department and year. See Customer Purchase by Department by Year Report for more information.
- Customer Status Summary - This report presents the number of Customer records grouped by Identified/Unidentified (Anonymous Flag) within Active/Inactive (Status Flag). See Customer Status Summary Report for more information.
- Gender Summary - This report presents the count of Customers grouped by gender. See Gender Summary Report for more information.
- Location Capture Rate - This report presents a count of Customers, by Anonymous Flag, for each signup Location. See Location (Store) Capture Rate Report for more information.
- Postal Code Summary - This report presents a count of Customers by Postal Code, filtered on only primary, active, home addresses. See Postal Code Summary Report for more information.
- Social Network Summary - This report displays a count of Customers by Social Network, grouped by the Customer's Home Store. See Social Network Summary Report for more information.

- State Summary - This report presents a count of active primary address records grouped by state. See State Summary Report for more information.
- Summary Report - This report presents totals and percentages of types of addresses, email addresses, and phone numbers for Customers who signed up within a specified date range. See Summary Detail Report for more information.

Item Management

- Item Attribute Summary - This report provides a count of Items that are associated with each given Item Attribute and Attribute value. See Item Attribute Summary Report for more information.

Location Operations

- Capture Quality Report - This report presents the percentage of validated Customer data, organized by Operator ID, within each Location. See Capture Quality Summary Report for more information.
- Customers by Home Location - This report presents a count of Customers for each Home Location. See Customer by Home Location Report for more information.
- Shoppers By Location - This report presents Customer count and purchase statistics for each Location. See Shoppers by Location Report for more information.
- Sign Up Location by Postal Code - This report presents the number of Customers, by Zip Code (or Postal Code) and on a given date, who signed up at the Location. See Signup Location (Store) by Postal Code Report for more information.
- Sign Up Location By State - This report presents the number of Customers by state, grouped by signup Location. See Signup Location by State Report for more information.
- Signup Location - This report presents the number of Customers by signup Location. See Signup Location Report for more information.
- Signup Location Daily Trend - This report presents Customer counts by signup date and signup Location, and includes a chart illustrating Customer signups by date. See Signup Location Daily Trend Report for more information.

Loyalty Management

- Loyalty Account Detail - This report presents details of the activities performed on each Loyalty Account. See Loyalty Account Detail Report for more information.
- Loyalty Acct Activity Errors - This report presents details of errors for Loyalty Accounts by Program ID. See Loyalty Account Activity Errors Report for more information.
- Loyalty Acct Level Summary - This report presents account level summaries for Loyalty accounts by Program ID. See Loyalty Account Level Summary Report for more information.
- Loyalty Activity Type Summary - This report presents summary information on accounts and Loyalty activity types associated with Program Levels on Loyalty Programs. See Loyalty Activity Type Summary Report for more information.
- Loyalty Activity Type Trend - This report presents summary information on Accounts by Activity Type by business date, organized by Loyalty Program Level and includes charts summarizing Loyalty activity. See Loyalty Activity Type Trend Report for more information.

- Loyalty Issue Rule Impact - This report displays transaction level counts of merchandise associated with purchases against a Loyalty Issue Rule. See Loyalty Issue Rule Impact Report for more information.
- Loyalty Rules Results Summary - This reports displays summary account information by Activity Type for each Loyalty Rule. It is organized by Program levels within the Loyalty Programs. See Loyalty Rules Results Summary Report for more information.
- Loyalty Rules Results Trend - This report presents summary information on accounts by Activity Type by Activity Date for each Loyalty Rule. It is organized by Loyalty Program Level for each Loyalty Program and also includes summary level charts. See Loyalty Rules Results Trend Report for more information.
- Loyalty Accounts - Balance Summary - This report presents summary information about the Loyalty Account balances, by Program Level, within each Program. See Loyalty Account Balance Summary Report for more information.
- Lyl Accounts - Last Use - This report presents Loyalty Account summary information within a Loyalty Program Level, grouped by the number of months since last use date and system date. See Loyalty Account Last Use Summary Report for more information.
- Lyl Accounts - Lifecycle - This report presents Loyalty Account summary information within a Loyalty Program Level, grouped by the number of months the accounts have been in use. See Loyalty Account Life Cycle Summary Report for more information.
- Lyl Acct Act Summary - Award - This report presents the earned points from Award rules, by Loyalty Account, within a given period of time. See Loyalty Account Activity Summary Award Report for more information.
- Lyl Acct Act Summary - Issue - This report presents the earned points from Issue rules, by Loyalty Account, within a given period of time. See Loyalty Account Activity Summary Issue Report for more information.
- Lyl Program Level Summary - This report presents the current balance statistics for Program Levels within Programs. See Loyalty Program Level Summary Report for more information.

Segment Management

- N-Tile / Range Strata Summary - This report presents details on Customer Segments broken out by strata. See N-Tile / Range Strata Report for more information.
- Segment By Home Location - This report presents a count of Customers, by Home Location, for Customer Segments. See Segment by Home Location Report for more information.
- Segment By State - This report presents a count of Customers, by State, for Customer Segment. See Segment by State Report for more information.
- Segment Count List - This report presents the details of each Segment run within a specified time period. See Segment Count List Report for more information.
- Segment Customer Master - This report presents a listing of information about the Customers in each Segment. See Segment Customer Master Reportfor more information.

- Segment Purchase Profile Report - This report presents counts, by Segment, of individual Items purchased. See Segment Purchase Profile Report for more information.
- Segment Trend Analysis - This report presents trend totals for Segments broken out by Run ID, and includes charts illustrating trend totals for Customer Segments. See Segment Trend Analysis Report for more information.

Tender Account Management

- Tender Account Activity Summary - This report displays tender summary information by Activity Type, by Program. See Tender (Account) Activity Summary Report for more information.
- Tender Activity Summary - This report is the same as the Tender (Account) Activity Summary Report.
- Tender Activity Summary By Batch - This report displays tender summary information organized by Card Prefix, Series, and Batch, for Activity Types, by Program. See Tender Activity Summary by Batch Report for more information.
- Tender Activity Type Trend - This report displays tender summary information organized by Card Prefix, Series, and Batch, for Activity Types, by Program, and includes charts illustrating Tender Type activity. See Tender Activity Type Trend Report for more information.

Registry Management

- Registry Detail - This report presents detailed information for Gift Registries or Wish Lists. See Registry Detail Report for more information.

Task Management

- Associate Task Detail - This report presents details on customer targeted tasks, by the associate assigned to them. See Associate Task Details Report for more information.
- Associate Task Summary - This report presents a summary of the types of Tasks assigned to each Associate, and their current statuses. See Associate Task Summary Report for more information.
- Task Summary - This report presents a summary of types of Tasks by their current statuses. See Task Status Summary Report for more information.

Displaying Reports

To access the Reports panel, click the **Reports** icon from the main toolbar. This displays the Reports panel, which lists all report categories and provides links to report lists and reports:

Help	Launches the BI Publisher online help.	?

View Report Options

The View Report Options list includes the formats available for viewing or saving a Report.

Available options are:

- **HTML** - Display the Report in HTML format.
- **PDF [Default]** - Display the Report in PDF format.
- **RTF** - Display the Report in Rich Text Format.
- **Excel** - Display the Report in spreadsheet format (.xlsx).

- **PowerPoint** - Display the Report in presentation format (.pptx)

BI Publisher Actions

The BI Publisher Actions list includes the available sharing, scheduling, and publishing options.

Available actions are:

- **Export** - Opens the View Report Options list.
- **Send** - Enter selection criteria and send the Report for immediate delivery to an email address, printer, or other destination.
- **Schedule** - Schedule generation and distribution of the Report.
- **Jobs** - View and manage scheduled jobs for the Report.
- **Job History** - View and manage completed and running Report jobs.
- **Republish from History** - Select a previously scheduled, completed Report generation for viewing.
- **Share Report Link** - Generate a link to the currently displayed Report. See the BI Publisher online help for more information on these options.

Report Generation Options and Contents

The generation options and fields included on each report are described in the following sections.

- Account Management Reports
- Award Management Reports
- Campaign Management Reports
- Card Management Reports
- Customer Management Reports
- Item Management Reports
- Location Operations Reports
- Loyalty Management Reports
- N-Tile / Range Strata Report
- Segment by Home Location Report
- Segment by State Report
- Segment Count List Report
- Segment Customer Master Report
- Segment Purchase Profile Report
- Segment Trend Analysis Report
- Tender (Account) Activity Summary Report
- Tender Activity Summary by Batch Report
- Tender Activity Type Trend Report

- Registry Detail Report
- Associate Task Details Report
- Associate Task Summary Report
- Task Status Summary Report

Account Management Reports

The Account Management Reports include:

- Account Activity Summary Report

Account Activity Summary Report

This report presents transaction count and value summary information about the program activities, segregated by activity typecode, user, and reason code.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Activity Time Period -** Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, then the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).

- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of individual Activity Typecodes with unique user IDs and reason codes for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Program ID** - The program IDs selected when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Account Type Code** - AWARD, LOYALTY, or TENDER.
- **Program ID** - The ID and Name identifying a Program for a Card Definition.
- **Activity Typecode** - Describes the type of activity that took place for the Program during the date range. Possible types include:
  - Activate Account
  - Activate Card
  - Deactivate
  - Expire Coupon
  - Inquiry
  - Issue Award
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Points
  - Issue Promo Award Coupon
  - Post Authorization
  - Pre Authorization
  - Redeem
  - Redemption
  - Release Authorization
  - Reload
  - Reset Expiration Date
  - Return
  - Void Transaction Unblock
- **Create User** - The ID of the user who performed the activity. May also be set to SYSTEM or POS. Set to N/A if no user ID is specified.

- **Reason Code** - The reason code passed for the activity. Set to N/A if no reason code is specified. If the same activity typecode occurs for multiple activities for the same Program, user ID, and date range, but with different reason codes, each reason code is listed separately on the report.
- **Total Trans Count** - The total number of transactions for the particular activity typecode for this Program and date range, and the same user ID and reason code.
- **Total Trans Value** - The total value of the transactions for the particular activity typecode for this Program and date range, and the same user ID and reason code. Some activities, such as card activation or expiration date reset, may not have a transaction value. Other activities, such as issuing an award, can have a negative transaction value.
- Totals for Program: For all activity for the Program during the date range included on the report:
  - **Total Trans Count** - The total number of transactions for this Program and date range.
  - **Total Trans Value** - The total net value of transactions for this Program and date range.
- Totals for Typecode: For each Typecode (AWARD, LOYALTY, or TENDER) included on the report:
  - **Total Trans Count** - The total number of transactions for this Typecode and date range for all Programs included on the report.
  - **Total Trans Value** - The total net value of transactions for this Typecode and date range for all Programs included on the report.
- Report Totals:
  - **Total Trans Count** - The total number of transactions included on the report.
  - **Total Trans Value** - The total net value of transactions included on the report.

Award Management Reports

The Award Management Reports include:

- Award Account Activity Details Report
- Award Account Activity Errors Report
- Award Account Activity Trend Report
- Award Account Balance Report
- Award Account Error Trend Report
- Award Account Last Use Report
- Award Activity by Location Report
- Award Activity by Program Report
- Award Entitlement Expiration Report
- Award Entitlement Redemption (Trend) Report
- Award Entitlement Summary Report
- Award Program Balance Summary Report
- Award Program Definition Report

- Award Redemption Rate Report

Award Account Activity Details Report

This report presents detailed information about activities performed on one or more given Award Accounts.

Selection Criteria

- **Account ID** - The ID and Name identifying an Award Account. All Account IDs are selected by default. Optionally, select Search to work with the list of eligible Account IDs, search based on Account ID, or remove Account IDs from the list selected for the report.
- **Serial Number** - Optionally, enter a card's Serial Number to search for an award account by Serial Number rather than by Account ID.
- **Void Flag** - Optionally, select Yes or No to select Award Account activity based on whether the activity was voided.
- **Activity Type Code** - Codes identifying types of activity for an Account. All activity type codes are selected by default. Optionally, select Search to work with the list of eligible Activity Type Codes, search based on Activity Type Code, or remove Activity Type Codes from the list selected for the report. Possible Activity Type Codes include:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon
  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire
  - Redeem
  - Reset Expiration Date
  - Void
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month

  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activity records for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Activity Type Code** - The list of activity type codes selected for the report. Set to ALL if there was no restriction.
- **Void Flag** - The void flag setting selected for the report. Set to ALL if there was no restriction.
- **Account ID** - The Account IDs selected when generating the report, or set to ALL if there was no restriction.
- **Serial Number** - The Serial Numbers selected when generating the report, or set to N/A if there was no restriction.

The Report Contents detail information includes:

- **Account ID** - Indicates the ID number for the account. For each Account ID included on the report, there are two rows of data including the following:
- **Workst. ID** - Identifies the workstation where the activity took place.
- **Award Trans. ID** - The transaction ID of the award.
- **Void Flag** - Set to Yes if the activity was voided; otherwise, set to No.
- **Notify Expiry Flag** - Set to Yes if an award expiration notification export file has been created that includes the account. Created through the Notify Awards Expire Job.

- **Coupon Code** - The coupon code affected by the activity, such as a coupon issue or redemption; otherwise, set to N/A.
- **Serial Number** - Unique serial number for the award.
- **Exchange Rate** - The rate of exchange between the transaction's original currency and the base currency. Set to 1 if the two currencies are the same. Set to 0 if the activity does not reference a specific amount, such as a card activation.
- **Activity Type** - Describes the type of activity. Possible types:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon
  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire - Redeem
  - Reset Expiration Date
  - Void
- **Business Date** - The retail business date when the activity occurred.
- **Activity Date** - The date when the activity took place.
- **Loc. ID-Name** - The numeric ID and name of the location where the activity occurred.
- **Currency Code** - The currency code for the transaction. Included only if there is an Activity Amount.
- **Ref. Activity ID** - The activity ID affected by this activity, if any; otherwise, set to N/A.
- **Retail Trans. Seq.** - The sequential transaction ID generated by the POS system, if any; otherwise, set to 0 or 1.
- **Retail Trans ID** - A sequence ID, generated by Customer Engagement Cloud Services, indicating the retail location ID, workstation ID, and transaction sequence number.
- **Create User** - The ID of the user that created the activity record.
- **Create Date** - The date when the activity was recorded in the database.
- **Comments** - The comments entered for the activity, if any; otherwise, set to N/A.
- **Error Code** - The error code associated with the activity, if any; otherwise, set to N/A.
- **Activity Amount** - The amount of the activity. Set to 0.00 if there is no associated amount, such as for a card activation.

- **Requested Amount** - The amount of the transaction in the requested currency. Same as the Activity Amount if there is no currency conversion.
- **Totals for the Account ID**:
  - **Activity Amount** - The total amount for activities for the Account ID that are included on the report.
  - **Requested Amount** - The total requested amount for the Account ID that are included on the report. The same as the total Activity Amount unless any requested amounts were in a different currency.
- **Report Totals**:
  - **Activity Amount -** The total amount for activities included on the report.
  - **Requested Amount** - The total requested amount for activities included on the report. The same as the total Activity Amount unless any requested amounts were in a different currency.

Award Account Activity Errors Report

This report presents detailed information about transaction errors associated with Award Accounts.

Selection Criteria

- **Program ID** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Serial Number** - Optionally, enter a Card's Serial Number to search for a specific Account by Serial Number rather than by Program ID.
- **Error Code** - Codes identifying types of errors. All error codes are selected by default. Optionally, select Search to work with the list of eligible Error Codes, search based on Error Code, or remove Error Codes from the list selected for the report. Possible Error Codes include:
  - Account Already Active
  - Account Expired
  - Account Inactive
  - Award Program Expired
  - Award Program Not Effective
  - Cannot Void Trans Type
  - Card Expired
  - Card Inactive
  - Coupon ID Invalid for Expire
  - Coupon ID Invalid or Expired
  - Coupon Request Amount Invalid
  - Coupon Request Date Invalid
  - Coupon Request Exceeds Balance

  - Coupon Request Neg Amt Invalid
  - Currency Exchange Rate Not Found
  - Currency ID Missing
  - General Error
  - Invalid Entitlement Deal
  - Invalid Pin Provided
  - Loyalty Award Account Error
  - Minimum Balance Not Met
  - Missing Pin Number
  - No Physical Card
  - Original Transaction Not Found
  - Original Transaction Required
  - Original Transaction Voided
  - Reloads Not Permitted
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activity error records for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Program ID** - The ID and Name identifying a Program for a Card Definition. Set to ALL if there was no restriction.
- **Error Code** - The list of error codes selected for the report. Set to ALL if there was no restriction.
- **Serial Number** - The serial numbers selected when generating the report. Set to N/ A if there was no restriction.

The Report Contents detail information includes:

- **Program ID** - The program ID and description.
- **Acct.ID** - Serial Number - Indicates the ID number and Serial Number for the account.

For each Account ID included on the report, there are two rows of data including the following:

- **Activity Type** - Describes the type of activity. Possible types:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire - Redeem
  - Reset Expiration Date
  - Void
- **Currency Code** - The currency code for the transaction. Included only if there is an Activity Amount; otherwise, set to N/A.
- **Workst. ID** - Identifies the workstation where the activity took place.
- **Award Trans. ID** - The transaction ID of the award.
- **Void Flag** - Set to Yes if the activity was voided; otherwise, set to No.
- **Coupon ID** - The unique identifier for the coupon affected by the activity, such as a coupon issue or redemption; otherwise, set to N/A.

- **Exchange Rate** - The rate of exchange between the transaction's original currency and the base currency. Set to 1 if the two currencies are the same. Set to 0 if the activity does not reference a specific amount, such as a card activation.
- **Retail Trans ID** - A sequence ID, generated by Customer Engagement Cloud Services, indicating the retail location ID, workstation ID, and transaction sequence number.
- **Create User** - The ID of the user that created the activity record.
- **Activity Date** - The date when the activity took place.
- **Create Date** - The date when the activity was recorded in the database.
- **Error Code** - The description of the error that occurred. Possible error codes include:
  - Account Already Active
  - Account Expired
  - Account Inactive
  - Award Program Expired
  - Award Program Not Effective
  - Cannot Void Trans Type
  - Card Expired
  - Card Inactive
  - Coupon ID Invalid for Expire
  - Coupon ID Invalid or Expired
  - Coupon Request Amount Invalid
  - Coupon Request Date Invalid
  - Coupon Request Exceeds Balance
  - Coupon Request Neg Amt Invalid
  - Currency Exchange Rate Not Found
  - Currency ID Missing
  - General Error
  - Invalid Entitlement Deal
  - Invalid Pin Provided
  - Loyalty Award Account Error
  - Minimum Balance Not Met
  - Missing Pin Number
  - No Physical Card
  - Original Transaction Not Found
  - Original Transaction Required
  - Original Transaction Voided
  - Reloads Not Permitted

- **Requested Amount -** The amount of the transaction in the requested currency. Same as the Activity Amount if there is no currency conversion.
- **Activity Amount -** The amount of the activity. Set to 0.00 if there is no associated amount, such as a card activation.
- **Totals for the Account ID**:
  - **Requested Amount** - The total requested amount for the Account ID included on the report. The same as the total Activity Amount unless any requested amounts were in a different currency.
  - **Activity Amount -** The total amount for activities for the Account ID included on the report.
- **Totals for the Program ID**:
  - **Requested Amount** - The total requested amount for the Program ID that were included on the report. The same as the total Activity Amount unless any requested amounts were in a different currency.
  - **Activity Amount** - The total amount for activities for the Program ID that were included on the report.
- **Report Totals**:
  - **Activity Amount -** The total amount for activities included on the report.
  - **Requested Amount** - The total requested amount for activities included on the report. The same as the total Activity Amount unless any requested amounts were in a different currency.

Award Account Activity Trend Report

This report presents daily counts of Award Transactions, organized by activity type, within a Program.

The report begins with two charts illustrating award account activity. One chart displays total activity counts for each date in the selected time period, while the other displays total activity amounts.

> **Note:**
>
> The charts on this report are useful only if you restrict the selection criteria to a single Program ID and Activity Type Code, so you can identify the totals for the type of activity. Otherwise, it would be difficult to determine the different totals for the same date but a different Program ID and Activity Type Code.

Selection Criteria

- **Program ID / Name -** The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.

- **Activity Type Code -** Codes identifying types of activity for an account. All activity type codes are selected by default. Optionally, select Search to work with the list of eligible Activity Type Codes, search based on Activity Type Code, or remove
- **Activity Type Codes** from the list selected for the report. Possible Activity Type Codes include:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon
  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire
  - Redeem
  - Reset Expiration Date
  - Void
- **Activity Time Period -** Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activity records for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Activity Type Code** - The Activity Type Codes selected when generating the report. Set to ALL if there was no restriction.
- **Program ID** - The ID and Name identifying the Programs selected when generating the report. Set to ALL if there was no restriction.
- **Activity Count Chart** - Displays the total Activity Count for each Activity Type Code and Program ID by date.

Award Account Activity Trend

Organization: demo

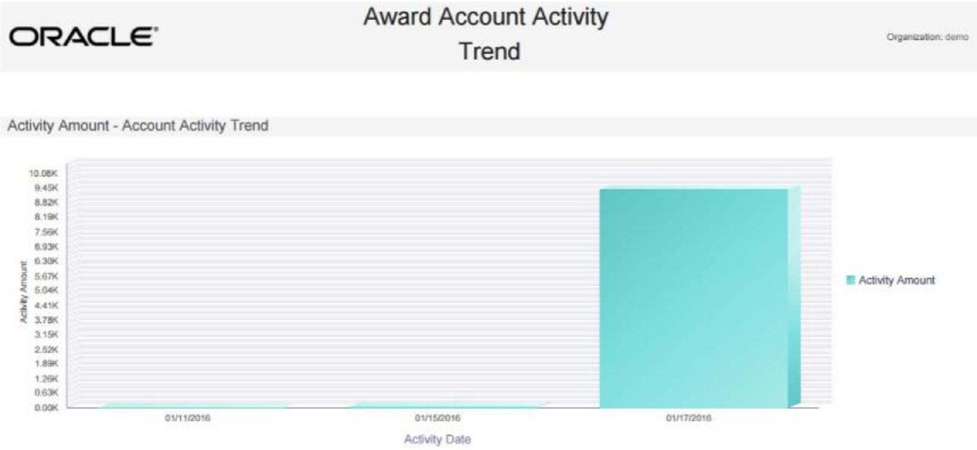
Date Range : 01/04/2016 - 01/29/2016
Activity type code : Redeem

Program ID : [5,1009,1010,1012,1014,1016,1519]

Activity Count - Account Activity Trend

- **Activity Amount Chart** - Displays the total Activity Amount for each Activity Type Code and Program ID by date.

Figure 12-6   Award Account Activity Trend Report - Activity Amount Chart



The Report Contents detail information includes:

- **Program ID** - The Program ID and description. For each Program:
- **Activity Type** - An entry for each type of activity that occurred for the program in the time period specified for the report. Possible Activity Type Codes include:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon
  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire
  - Redeem
  - Reset Expiration Date
  - Void
- **Activity Date** - For each date when the Activity Type took place for the program during the date range selected when generating the report:
  - **Activity Count** - The total number of times the activity took place for that program, Activity Type, and date.
  - **Activity Amount** - The total value for the activity that took place for that program, Activity Type, and date. Set to 0.00 if there is no associated amount, such as for a card activation.
- **Totals for program and Activity Type** - For each Activity Type and Program during the date range selected when generating the report:

  - Activity Count - The total number of times the activity took place for that program.
  - Activity Amount - The total value for the activity that took place for that program.
- **Totals for program** - For each program included on the report:
  - Activity Count - The total number of activities of any type that took place during the date range selected when generating the report.
  - Activity Amount - The total value of activities of any type that took place during the date range selected when generating the report.
- **Report Totals**:
  - Activity Count - The total number of activities of any type, for any program, during the date range selected when generating the report.
  - Activity Amount - The total value of activities of any type, for any program, during the date range selected when generating the report.

Award Account Balance Report

This report presents the Account balance available at run time for each Account.

Selection Criteria

- **Program ID** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Serial Number** - Optionally, enter a card's Serial Number to search for a particular Serial Number.
- **Account ID** - The ID identifying an award account. All Account IDs are selected by default. Optionally, enter an account ID to search for a particular account.
- **Include Expired Coupons? -** Indicates whether to include expired coupons on the report. Set to No by default.
- **Limit Records** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of individual Serial Number/ Account ID records for the entire report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- I**nclude Expired Coupons -** Set to Yes if the Include Expired Coupons option was selected when generating the report; otherwise, set to No.

The Report Contents detail information includes:

- **Program ID -** The ID identifying a Program for a Card Definition.
- **Program Name** - The name of the Program.

For each Award Account included on the report:

- **Serial Number -** Unique serial number for the Award Account.

- **Account ID** - Indicates the ID number for the Account.
- **Number of Coupons** - The number of award coupons for the account.
- **Award Balance** - The total balance of the coupons.
- **Average Coupon Value** - The average value of the coupons (Award Balance / Number of Coupons).

Program Totals - For each Program included on the report:

- **Number of Coupons** - The number of award coupons for the Program.
- **Award Balance** - The total balance of the coupons.
- **Average Coupon Value** - The average value of the coupons (Award Balance / Number of Coupons).

Report Totals - For all Award Accounts included on the report:

- **Number of Coupons** - The number of award programs included on the report.
- **Award Balance** - The total balance of the coupons.
- **Average Coupon Value** - The average value of the coupons (Award Balance / Number of Coupons).

Award Account Error Trend Report

This report presents information about the number of times transaction errors occurred, by date, for each Program.

The report begins with a chart illustrating award error frequency.

> **Note:**
>
> The chart on this report is useful only if you restrict the selection criteria to a single Error Code, so you can identify the total for dates when this error occurred. Otherwise, it might be difficult to determine the totals for the same date but a different error.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Error Code** - Codes identifying types of errors. All error codes are selected by default. Optionally, select Search to work with the list of eligible Error Codes, search based on Error Code, or remove Error Codes from the list selected for the report. Possible Error Codes include:
  - Account Already Active
  - Account Expired
  - Account Inactive

  - Award Program Expired
  - Award Program Not Effective
  - Cannot Void Trans Type
  - Card Expired
  - Card Inactive
  - Coupon ID Invalid for Expire
  - Coupon ID Invalid or Expired
  - Coupon Request Amount Invalid
  - Coupon Request Date Invalid
  - Coupon Request Exceeds Balance
  - Coupon Request Neg Amt Invalid
  - Currency Exchange Rate Not Found
  - Currency ID Missing
  - General Error
  - Invalid Entitlement Deal
  - Invalid Pin Provided
  - Loyalty Award Account Error
  - Minimum Balance Not Met
  - Missing Pin Number
  - No Physical Card
  - Original Transaction Not Found
  - Original Transaction Required
  - Original Transaction Voided
  - Reloads Not Permitted
- **Activity Time Period -** Optionally, select a time period to include errors that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activity error records for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Error Code** - The Error Codes selected when generating the report. Set to ALL if there was no restriction.
- **Program ID** - The ID and Name identifying a Program selected when generating the report. Set to ALL if there was no restriction.
- **Error Count Chart** - Displays the total Error Count for each Error Code and Program ID by date.

  - Loyalty Award Account Error
  - Minimum Balance Not Met
  - Missing Pin Number
  - No Physical Card
  - Original Transaction Not Found
  - Original Transaction Required
  - Original Transaction Voided
  - Reloads Not Permitted
- For each error included on the report:
  - **Activity Date -** The date when the error occurred.
  - **Error Count -** The total number the errors occurred for that program ID and date.
- **Total for each program -** The total number of errors for the program that were included on the report.
- **Report Totals -** The total number of errors that were included on the report.

Award Account Last Use Report

This report presents counts of Accounts within an Award Program, grouped by the number of days between last use date and system date at report run time.

Selection Criteria

- **Program ID** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Limit Records** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of date intervals for the entire report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Program ID** - The ID and Name identifying a Program for a Card Definition. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Program ID** - The Program ID and description. For each program included on the report:
- **Date Interval** - The range when accounts were last used. Possible ranges are Never Used, Less Than 30 Days, 31 to 60 Days, 61 to 90 Days, or Over 90 Days.
- **Number of Accounts** - The total number of Award Accounts that were used during the Date Interval.
- **Award Balance** - The total balance of Award Accounts that were used during the Date Interval.
- **Number of Coupons** - The total number of Award Coupons that were used during the Date Interval.
- **Average Coupon Value** - The average coupon value (Award Balance / Number of Coupons) used during the Date Interval.
- **Totals for Program** - For each program and date interval included on the report, the following totals are included:
- **Number of Accounts** - The total number of Award Accounts for the program, including those Never Used, included on the report.
- **Award Balance** - The total balance of Award Accounts for the Program included on the report.
- **Number of Coupons** - The total number of coupons for the Program included on the report.
- **Average Coupon Value** - The average coupon value (Award Balance / Number of Coupons) for the program included on the report.
- **The Report Totals** information includes:
  - Number of Accounts - The total number of Award Accounts included on the report.
  - Award Balance - The total balance of Award Accounts included on the report.

  - Number of Coupons - The total number of coupons included on the report.
  - Average Coupon Value - The average coupon value (Award Balance / Number of Coupons) included on the report.

Award Activity by Location Report

This report presents Award activity within a Program, by Location, for a selected date range.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.

  The related Card is not indicated here, but is listed on the generated report.
- **Location ID / Name** - The ID and Name identifying a retail Location. All Locations are selected by default. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.
- **Activity Type** - Codes identifying types of activity for an Award Account. All activity type codes are selected by default. Optionally, select Search to work with the list of eligible Activity Type Codes, search based on Activity Type Code, or remove Activity Type Codes from the list selected for the report. Possible Activity Type Codes include:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon
  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire
  - Redeem
  - Reset Expiration Date
  - Void
- **Void Flag** - Optionally, select Yes or No to select award activity based on whether the activity was voided.
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:

  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Void Flag** - The void flag setting selected for the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Program ID** - The ID and Name identifying a Program for a Card Definition. For each Program ID included on the report:
- **Retail Location ID** - The ID of the location where the activity occurred.
- **Retail Location Name** - The name of the location where the activity occurred.
- **Activity Type** - Describes the type of activity. Possible types:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon

  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire
  - Redeem
  - Reset Expiration Date
  - Void
- **Void Flag** - Set to Yes if the activity was voided; otherwise, set to No.
- **Transaction Count** - The total number of transactions for the activity included on the report for the Activity Type, Program ID, and Location ID.
- **Activity Amount** - The total amount of the activity included on the report for the Activity Type, Program ID, and Location ID. Set to 0.00 if there is no associated amount for the Activity Type, such as for a card activation.
- **Average Value** - The average value (total Activity Amount / Transaction Count) included on the report for the Activity Type, Program ID, and Location ID.
- **Totals for the Location ID**:
  - Transaction Count - The total number of transactions included on the report for the Program ID and Location ID.
  - Activity Amount - The total amount of transactions included on the report for the Program ID and Location ID.
  - Average Value - The average value (total Activity Amount / Transaction Count) included on the report for the Program ID and Location ID.
- **Totals for the Program ID**:
  - Transaction Count - The total number of transactions included on the report for the Program ID.
  - Activity Amount - The total amount of transactions included on the report for the Program ID.
  - Average Value - The average value (total Activity Amount / Transaction Count) included on the report for the Program ID.
- **Report Totals**:
  - Transaction Count - The total number of transactions included on the report.
  - Activity Amount - The total amount of transactions included on the report.
  - Average Value - The average value (total Activity Amount / Transaction Count) included on the report.

Award Activity by Program Report

This report presents a summary of Account activities, listed by type, for each Program.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Activity Type** - Codes identifying types of activity for an award account. All activity type codes are selected by default. Optionally, select Search to work with the list of eligible Activity Type Codes, search based on Activity Type Code, or remove Activity Type Codes from the list selected for the report. Possible Activity Type Codes include:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon
  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon
  - Notify Coupon Expire
  - Redeem
  - Reset Expiration Date
  - Void
- **Void** - Optionally, select Yes or No to select award activity based on whether the activity was voided.
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month

  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date -** The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date -** The last date to include on the report. Defaults to the current date (today).
- **Row Limit -** Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activity records for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization -** The code identifying your organization.
- **Date Range -** The date range selected when generating the report.
- **The Activity Type Codes** selected when generating the report. Set to ALL if there was no restriction.
- **Program ID -** The ID and Name identifying a Program selected when generating the report. Set to ALL if there was no restriction.
- **Void Flag -** The void flag setting selected for the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Program ID -** The ID and Name identifying a Program for a Card Definition. For each Program ID included on the report:
- **Activity Type -** Describes the type of activity. Possible types:
  - Account Merge
  - Activate Card
  - Automatic Redeem
  - De-Activate Card
  - Expire Coupon
  - Inquiry
  - Issue Birthday Coupon
  - Issue Coupon
  - Issue Entitlement Coupon
  - Issue Promo Award Coupon
  - Issue Signup Coupon

  - Notify Coupon Expire
  - Redeem
  - Reset Expiration Date
  - Void
- **Void Flag** - Set to Yes if the activity was voided; otherwise, set to No.
- **Transaction Count** - The total number of transactions for the activity included on the report for the Activity Type and Program ID.
- **Activity Amount** - The total amount of the activity included on the report for the Activity Type and Program ID. Set to 0.00 if there is no associated amount for the Activity Type, such as for a card activation or expiration.
- **Average Value** - The average value (total Activity Amount / Transaction Count) included on the report for the Activity Type and Program ID.
- **Totals for the Program ID**:
  - **Transaction Count** - The total number of transactions included on the report for the Program ID.
  - **Activity Amount** - The total amount of transactions included on the report for the Program ID.
  - **Average Value** - The average value (total Activity Amount / Transaction Count) included on the report for the Program ID.
- **Report Totals**:
  - **Transaction Count** - The total number of transactions included on the report.
  - **Activity Amount** - The total amount of transactions included on the report.
  - **Average Value** - The average value (total Activity Amount / Transaction Count) included on the report.

Award Entitlement Expiration Report

This report presents a listing of the expiration dates of issued Entitlement Coupons, providing information on how many are due to expire or have expired.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Include Expired Coupons?** - Optionally, select Yes or No to select Entitlement Coupons based on whether the coupons have already expired.
- **Row Limit** - Optionally, use this field to specify the maximum number of Entitlement Coupons to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Include Expired Coupons** - The expiration setting selected for the report. Set to ALL if there was no restriction based on whether the coupons have already expired.
- **Program ID** - The ID and Name identifying a Program selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- Offer ID - The ID identifying a Offer.
- Offer Name - The name of a Offer. For each Offer included on the report:
- Offer Typecode - Describes the type of Offer. Possible types:
  - Buy X Get Set
  - Buy X Get X
  - Buy X Get Y
  - Fixed Quantity/Price
  - Gift with Purchase
  - Item Price Override
  - Kit
  - Line Item Discount
  - Nth Item Discount
  - Transaction Discount
  - Tiered Discount
- **Expiry Date** - The date when the Offer expires.
- **Coupon Count** - The total number of Coupons for the Offer with the same Expiry Date.
- Totals for the Offer ID:
  - **Coupon Count** - The total number of Coupons for the Offer.
- Report Totals:
  - Coupon Count - The total number of Coupons included on the report.

Award Entitlement Redemption (Trend) Report

This report presents a count of redeemed Entitlement Coupons for each Entitlement Offer.

The report begins with a series of charts illustrating entitlement redemption activity.

> **Note:**
>
> The charts on this report are useful only if you restrict the selection criteria to a single Offer, so you can identify the total dates and activities for the Offer. Otherwise, it might be difficult to determine the different totals for the same dates but for different Offers.

Selection Criteria

- **Offer ID / Name** - The ID and Name identifying an Offer. All Offers are selected by default. Optionally, select Search to work with the list of eligible Deals, search based on Offer Name, or remove Offers from the list selected for the report.
- **Location ID / Name** - The ID and Name identifying a retail Location. All Locations are selected by default. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.
- **Activity Time Period** - This criterion is not implemented for this report. All redemptions for the selected Offer and/or Location are eligible for inclusion, regardless of activity date.
- **Activity Start Date** - This criterion is not implemented for this report.
- **Activity End Date** - This criterion is not implemented for this report.
- **Row Limit** - Optionally, use this field to specify the maximum number of Offers with redemptions to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

- **Entitlement Redemption Count Chart** - Displays the total redemption counts for each date.

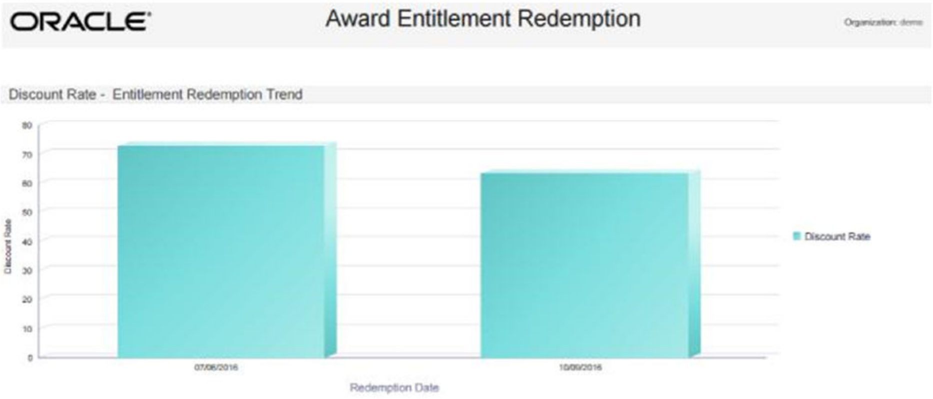
- **Entitlement Redemption Discount Rate Trend Chart** - Displays the discount percentage for the Offer for each date.

Figure 12-12 Award Entitlement Redemption Report - Entitlement Redemption Discount Rate Chart Report Contents



The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected for the report; however, the redemptions included on the report are not restricted by date range.
- **Location** - The ID of the Locations selected when generating the report. Set to ALL if there was no restriction.
- **Offer ID** - The ID of the Offers selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Offer ID** - The ID identifying an Offer.
- **Offer Name** - The name of a Offer. For each Offer included on the report:

  Offer Type - Describes the type of Offer. Possible types:

  – Buy X Get Set

  - Buy X Get X
  - Buy X Get Y
  - Fixed Quantity/Price
  - Gift with Purchase
  - Item Price Override
  - Kit
  - Line Item Discount
  - Nth Item Discount
  - Transaction Discount
  - Tiered Discount
- **Status** - Indicates if the Offer is currently Active or Inactive.
- **Redemption Rate** - The Redemption Count / the Issue Count for the Offer on the date, presented as a percentage.
- **Discount Rate** - The average discount applied for the Offer on the date, presented as a percentage.
- **Redeemed Value** - The total value of the redemptions for the Offer on the date.
- **Sales Value** - The total value of all sales for the date.
- **Issue Count** - The number of times the Offer was issued for the date.
- **Redemption Count** - The number of times the Offer was redeemed for the date.
- Totals for the Offer Type:
  - **Redemption Rate** - The Redemption Count / the Issue Count for the Offer and Offer Type, presented as a percentage.
  - **Discount Rate** - The average discount applied for the Offer and Offer Type, presented as a percentage.
  - **Redeemed Value** - The total value of the redemptions for the Offer and Offer Type.
  - **Sales Value** - The total value of all sales for the Offer and Offer Type.
  - **Issue Count** - The number of times the Offer and Offer Type was issued.
  - **Redemption Count** - The number of times the Offer and Offer Type was redeemed.
- Totals for the Offer:
  - **Redemption Rate** - The Redemption Count / the Issue Count for the Offer, presented as a percentage.
  - **Discount Rate** - The average discount applied for the Offer, presented as a percentage.
  - **Redeemed Value** - The total value of the redemptions for the Offer.
  - **Sales Value** - The total value of all sales for the Offer.
  - **Issue Count** - The number of times the Offer was issued.
  - **Redemption Count** - The number of times the Offer was redeemed.
- Report Totals:

  - **Redemption Rate** - The Redemption Count / the Issue Count included on the report, presented as a percentage.
  - **Discount Rate** - The average discount applied for data included on the report, presented as a percentage.
  - **Redeemed Value** - The total value of the redemptions included on the report.
  - **Sales Value** - The total value of all sales included on the report.
  - **Issue Count** - The number of times the Offers included on the report were issued.
  - **Redemption Count** - The number of times the Offers included on the report were redeemed.

Award Entitlement Summary Report

This report displays the number of Issued Coupons for each Offer within an Entitlement program.

Selection Criteria

- **Activity Time Period** - Optionally, select a time period to include Award Entitlement Programs from this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of Award Entitlement Programs to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report. Detail Information:
- **Program ID** - The ID and Name identifying an Award Entitlement Program for a Card Definition.
- For each Program ID included on the report:
- **Offer ID** - The ID identifying an Offer.
- **Offer Name** - The name of an Offer. For each Offer included on the report:
- **Offer Typecode** - Describes the type of Offer. Possible types:
  - Buy X Get Set
  - Buy X Get X
  - Buy X Get Y
  - Fixed Quantity/Price
  - Gift with Purchase
  - Item Price Override
  - Kit
  - Line Item Discount
  - Nth Item Discount
  - Transaction Discount
  - Tiered Discount
- **Status** - Indicates whether the Offer is currently Active.
- **Issue Count** - The total number of transactions where the award was issued.
- **Totals for Program ID**: The total number of Issues for the Program.
- **Report Totals:** The total number of Issues included on the report.

Award Program Balance Summary Report

This report presents summary statistics about current Account balances within each Award Program.

Selection Criterion:

- **Program ID / Name** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.

Click **Apply** to apply the selected criterion and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Programs** - The ID and Name identifying the Programs selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Program ID** - The ID identifying an Award Program for a Card Definition.
- **Program Name** - The Name identifying the Program. For each Program ID included on the report:
- **Balance Range** - The accounts are broken out into three brackets based on their current values:
  - Balance = 0
  - Between 1 and $50
  - Greater than 50
- **Number of Accounts** - The total number of accounts for the Program in each balance range.
- **Total Balance** - The total current value of the accounts for the Program in each balance range.
- **Average Balance** - The average balance for the accounts for the Program in each balance range: the Total Balance / Number of Accounts. Set to 0.00 if the balance range is 0.

The Program Totals for each Program included on the report:

- **Number of Accounts** - The total number of accounts for the Program.
- **Total Balance** - The total current value of the accounts for the Program.
- **Average Balance** - The average balance for the accounts for the Program: the Total Balance / Number of Accounts.

Report Totals:

- **Number of Accounts** - The total number of accounts for the Programs included on the report.
- **Total Balance** - The total current value of the accounts for the Programs included on the report.
- **Average Balance** - The average balance for the accounts for the Programs included on the report: the Total Balance / Number of Accounts.

Award Program Definition Report

This report presents details about each Award Program definition.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.

- **Promotion Time Period** - Optionally, select a time period to include Promotions that have Start Dates during this period on the report rather than entering a Promotion Start Date or Promotion End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Promotion Time Period, the Promotion Start Date is ignored.

- **Promotion Start Date -** The first Start Date to include on the report. Defaults to the previous date (yesterday).
- **Promotion End Date -** The last date to include on the report. Defaults to the current date (today). This criterion is not currently used.
- **Row Limit -** Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of individual Items for the entire report. If you specify a Row Limit, any promotions that do not specify items are not included.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Campaign ID** - The Campaign IDs selected when generating the report, or set to ALL if there was no restriction.
- **Program ID** - The program IDs selected when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Campaign** - The unique number identifying the Campaign.
  - **Promotion ID -** Name **-** Type **-** For each Offer for the Promotion included on the report:

    —**Promotion ID -** The unique number identifying the Promotion.

    —**Name** - The name describing the Promotion.

    —**Type -** Possible Promotion Types are Coupon, Product, Message, and Award.
  - **Item Dept ID** - Name **-** The unique number identifying and name describing the item department, if any; otherwise, set to N/A - N/A.
  - **Item Sub Dept ID** - Name **-** The unique number identifying and name describing the item subdepartment, if any; otherwise, set to N/A - N/A.
  - **Item Class ID** - Name **-** The unique number identifying and name describing the item class, if any; otherwise, set to N/A - N/A.
  - **Item Style ID** - The unique number identifying the item style, if any; otherwise, set to N/A.
  - **Start Date and End Date** - The Start Date and End Date specified for the Promotion.
  - **Purchase Quantity** - The total number of units purchased through the Promotion.
  - **Purchase Total** - The total revenue (Direct + Indirect) received from the Promotion Target.
  - **Customers Responded** - The total number of customers who redeemed a coupon for the Promotion.
  - **Average Spent** - The Customers Responded / the Purchase Quantity.
- Totals for Promotion:
  - **Purchase Quantity -** The total number of units purchased through the Promotion.
  - **Purchase Total** - The total revenue (Direct + Indirect) received from the Promotion Target.
  - **Customers Responded** - The total number of customers who redeemed a coupon for the Promotion.
  - **Average Spent** - The Customers Responded / the Purchase Quantity for the Promotion.
- Totals for Campaign:

  - **Purchase Quantity** - The total number of units purchased through the Campaign.
  - **Purchase Total** - The total revenue (Direct + Indirect) received from the Campaign.
  - **Customers Responded** - The total number of customers who redeemed a coupon for the Campaign.
  - **Average Spent** - The Customers Responded / the Purchase Quantity for the Campaign.
- Report Totals:
  - **Purchase Quantity** - The total number of units purchased through all Campaigns on the report.
  - **Purchase Total** - The total revenue (Direct + Indirect) received from all Campaigns on the report.
  - **Customers Responded** - The total number of customers who redeemed a coupon for all Campaigns on the report.
  - **Average Spent** - The Customers Responded / the Purchase Quantity for all Campaigns on the report.

Promotion Response by Date Report

This report summarizes the value of the response, by business date, to the selected Promotion events. Only promotions that have had responses are included.

  - **Indirect Revenue -** The total extended selling price of all line items not associated with the Campaign sold to the Target at all Locations.
  - **Cost of Goods Sold -** Total cost of goods sold to the Target for all line items at the Location, whether included in Direct or Indirect Revenue.
  - **Avg Spent -** Trans Total / Customers Responded for the Target of the Campaign at all Locations.
  - **Gross Profit -** Trans Total - Cost Of Goods Sold for the Target of the Campaign at all Locations.
- **Report Totals**:
  - **Customers Responded -** The total number of customers who responded to any of the Campaigns included on the report.
  - **Trans Count -** The total number of transactions for the Campaigns included on the report.

  - **Trans Total** - Total Revenue (Direct + Indirect) received for the Campaigns included on the report.
  - **Direct Revenue -** The total extended selling price of all line items associated with a Campaign included on the report sold to the Target at all Locations included on the report.
  - **Markdown Total** - The total value of markdowns applied to Indirect line items.
  - **Indirect Revenue** - The total extended selling price of all line items not associated with the Campaign sold to the Target at all Locations.
  - **Cost of Goods Sold** - Total cost of goods sold to the Target for all line items at the Location, whether included in Direct or Indirect Revenue.
  - **Avg Spent** - Trans Total / Customers Responded for the Target of the Campaign at all Locations.
  - **Gross Profit** - Trans Total - Cost Of Goods Sold for the Target of the Campaign at all Locations.

Promotion Response by Target Report

This report includes response data, by Segment Target, for the selected Promotion events.

Selection Criteria

- **Campaign ID / Name -** The ID and Name identifying a Campaign. All Campaigns are selected by default. Optionally, select Search to work with the list of eligible Campaigns, search based on Campaign Name, or remove Campaigns from the list selected for the report.

  If you select a Campaign, one or more Promotions may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to Promotion responses that match the automatically selected criteria.
- **Promotion ID / Name** - The ID and Name identifying a Promotion. All Promotions are selected by default. Optionally, select Search to work with the list of eligible Promotions, search based on Promotion Name, or remove Promotions from the list selected for the report.
- **Promotion Time Period** - Optionally, select a time period to include Promotions that have Start Dates during this period on the report rather than entering a Promotion Start Date or Promotion End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Promotion Time Period, the Promotion Start Date is ignored.

- **Promotion Start Date** - The first Start Date to include on the report. Defaults to the previous date (yesterday).
- **Promotion End Date -** The last date to include on the report. Defaults to the current date (today). This criterion is not currently used.
- **Row Limit** - Optionally, use this field to specify the maximum number of targets to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range -** The date range selected when generating the report.
- **Campaign ID** - The Campaign IDs selected when generating the report, or set to ALL if there was no restriction.
- **Program ID** - The program IDs selected when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Campaign** - The unique number identifying the Campaign, and the name of the Campaign.
- **Promo ID** - Name - The unique number identifying the Promotion, and the name describing the Promotion.
- **Promo Type** - Possible types are AWARD, COUPON, MESSAGE, and PRODUCT.
- **Start - End Date** - The Start Date and End Date for the Promotion.
- **Target Name** - The name describing the customers targeted.
- **Target Count** - The total number of customers contacted.
- **Customers Responded -** The total number of customers in the Target who responded to the Promotion.
- **Transaction Count** - The total number of transactions for the Promotion for the Target.
- **Promo Item Count** - The number of units sold of items that were eligible for the Promotion.
- **Revenue Total** - The total extended selling price of all line items for the Target.
- **Average Spent** - Revenue Total / Customers Responded for the Target.

- **Cost of Goods Sold** - Total cost of goods sold to the Target for all line items at the Location, whether the items included in Direct or Indirect Revenue. Based on the Unit Cost.
- **Markdown Total** - The total value of markdowns applied to Indirect line items.
- **Totals for Promotion**:
  - **Target Coun**t - The total number of customers contacted for the Promotion.
  - **Customers Responded -** The total number of customers in Targets who responded to the Promotion.
  - **Transaction Count -** The total number of transactions for the Promotion.
  - **Promo Item Count** - The number of units sold that were eligible for the Promotion.
  - **Revenue Total** - The total extended selling price of all line items for the Targets for the Promotion.
  - **Average Spent** - Revenue Total / Customers Responded for the Targets for the Promotion.
  - **Cost of Goods Sold** - Total cost of goods sold to the Targets for all line items associated with the Promotion, whether the items included in Direct or Indirect Revenue. Based on the Unit Cost.
  - **Markdown Total -** The total value of markdowns applied to Indirect line items.
- **Totals for Campaign**:
  - **Target Count -** The total number of customers contacted for the Campaign.
  - **Customers Responded** - The total number of customers in Targets who responded to the Campaign.
  - **Transaction Count -** The total number of transactions for the Campaign.
  - **Promo Item Count -** The number of units sold that were eligible for the Campaign.
  - **Revenue Total** - The total extended selling price of all line items for the Targets for the Campaign.
  - **Average Spent -** Revenue Total / Customers Responded for the Targets for the Campaign.
  - **Cost of Goods Sold** - Total cost of goods sold to the Targets for all line items associated with the Campaign, whether the items included in Direct or Indirect Revenue. Based on the Unit Cost.
  - **Markdown Total -** The total value of markdowns applied to Indirect line items.
- Report Totals:
  - **Target Count -** The total number of customers contacted for the Promotions included on the report.
  - **Customers Responded** - The total number of customers in Targets who responded to the Promotions included on the report.
  - **Transaction Count** - The total number of transactions for the Promotions included on the report.
  - **Promo Item Count** - The number of units sold that were eligible for the Promotions included on the report.
  - **Revenue Total** - The total extended selling price of all line items for the Targets for the Promotions included on the report.

  - **Average Spent** - Revenue Total / Customers Responded for the Targets for the Promotions included on the report.
  - **Cost of Goods Sold** - Total cost of goods sold to the Targets for all line items associated with the Promotions included on the1, whether the items included in Direct or Indirect Revenue. Based on the Unit Cost.
  - **Markdown Total** - The total value of markdowns applied to Indirect line items.

Promotion Response Detail Report

This report includes information about the Transactions created in response to Promotions.

Selection Criteria

- **Campaign ID / Name** - The ID and Name identifying a Campaign. All Campaigns are selected by default. Optionally, select Search to work with the list of eligible Campaigns, search based on Campaign Name, or remove Campaigns from the list selected for the report.

  If you select a Campaign, one or more Promotions may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to Promotion responses that match the automatically selected criteria.
- **Promotion ID / Name** - The ID and Name identifying a Promotion. All Promotions are selected by default. Optionally, select Search to work with the list of eligible Promotions, search based on Promotion Name, or remove Promotions from the list selected for the report.
- **Promotion Time Period** - Optionally, select a time period to include Promotions that have Start Dates during this period on the report rather than entering a Promotion Start Date or Promotion End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Promotion Time Period, the Promotion Start Date is ignored.

- **Promotion Start Date** - The first Start Date to include on the report. Defaults to the previous date (yesterday).
- **Promotion End Date -** The last date to include on the report. Defaults to the current date (today). This criterion is not currently used.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization -** The code identifying your organization.
- **Date Range** - The date range selected when generating the report. Detail Information:
- **Campaign** - The unique number identifying the Campaign, and the name of the Campaign.
- **Promo ID** - Name **-** The unique number identifying the Promotion, and the name describing the Promotion.
- **Start Date** - Start Date for the Promotion.
- **End Date** - End Date for the Promotion.
- **Promo Type** - Possible types are AWARD, COUPON, MESSAGE, and PRODUCT.
- **Business Date** - The business date when the transaction took place.
- **Retail Transaction ID** - The transaction ID to reference retail location, workstation and transaction sequence number.
- **Customer ID** - Unique identifier for the customer.
- **Customer Name** - The customer's first and last name.
- **Transaction Total** - The total amount of the transaction, including the extended actual prices of items, but excluding any tax.
- **Direct Revenue** - The total extended selling price of all line items for the transaction that were associated with the Promotion.
- **Indirect Revenue -** The total extended selling price of all line items for the transaction that were not associated with the Promotion.
- **Markdown Total** - The total value of markdowns applied to Indirect line items for the transaction.
- **Cost of Goods Sold -** Total cost of goods sold for all line items on the transaction, regardless of whether the items are included in Direct or Indirect Revenue. Based on Unit Cost.
- **Gross Profit -** The Transaction Total **-** Cost of Goods Sold.
- **Gross Margin % -** The Gross Profit / Transaction Total, expressed as a percentage. For example, Gross Profit of 18.97 divided by Transaction Total of 56.93 produces a Gross Margin % of .33%.
- **Totals for Promotion**:
  - **Transaction Total -** The total amount of the transactions for the Promotion, including the extended actual prices of items, but excluding any tax.
  - **Direct Revenue -** The total extended selling price of all line items for the Transactions that were associated with the Promotion.

  - **Indirect Revenue** - The total extended selling price of all line items for the transactions that were not associated with the Promotion.
  - **Markdown Total** - The total value of markdowns applied to Indirect line items for the transactions.
  - **Cost of Goods Sold** - Total cost of goods sold for all line items on the transactions, regardless of whether the items are included in Direct or Indirect Revenue. Based on Unit Cost.
  - **Gross Profit** - The Promotion total of The Transaction Total - Cost of Goods Sold.
  - **Gross Margin %** - The Promotion total Gross Profit / Transaction Total, expressed as a percentage. For example, Gross Profit of 18.97 divided by Transaction Total of 56.93 produces a Gross Margin % of .33%.
- **Totals for Campaign**:
  - **Transaction Total** - The total amount of the transactions for the Campaign, including the extended actual prices of items, but excluding any tax.
  - **Direct Revenue** - The total extended selling price of all line items for the transactions that were associated with a Promotion for the Campaign.
  - **Indirect Revenue** - The total extended selling price of all line items for the transactions that were not associated with a Promotion for the Campaign.
  - **Markdown Total** - The total value of markdowns applied to Indirect line items for the transactions.
  - **Cost of Goods Sold** - Total cost of goods sold for all line items on the transactions, regardless of whether the items are included in Direct or Indirect Revenue. Based on Unit Cost.
  - **Gross Profit** - The Campaign total of The Transaction Total - Cost of Goods Sold.
  - **Gross Margin %** - The Campaign total Gross Profit / Transaction Total, expressed as a percentage. For example, Gross Profit of 18.97 divided by Transaction Total of 56.93 produces a Gross Margin % of .33%.
- **Report Totals**:
  - **Transaction Total** - The total amount of the transactions included on the report, including the extended actual prices of items, but excluding any tax.
  - **Direct Revenue** - The total extended selling price of all line items for the transactions associated with a Promotion included on the report.
  - **Indirect Revenue** - The total extended selling price of all line items for the transactions that were not associated with a Promotion.
  - **Markdown Total** - The total value of markdowns applied to Indirect line items for the transaction.
  - **Cost of Goods Sold** - Total cost of goods sold for all line items on the transaction, regardless of whether the items are included in Direct or Indirect Revenue. Based on Unit Cost.
  - **Gross Profit** - The total of The Transaction Total - Cost of Goods Sold that were included on the report.

  - **Gross Margin %** - The total Gross Profit / Transaction Total included on the report, expressed as a percentage. For example, Gross Profit of 18.97 divided by Transaction Total of 56.93 produces a Gross Margin % of .33%.

Promotion Target Details Report

This report displays Customer information for the segment targeted in each Promotion.

Selection Criteria

- **Campaign ID / Name** - The ID and Name identifying a Campaign. All Campaigns are selected by default. Optionally, select Search to work with the list of eligible Campaigns, search based on Campaign Name, or remove Campaigns from the list selected for the report.
- If you select a Campaign, one or more Promotions, Targets, and Customers may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to data that match the automatically selected criteria.
- **Promotion ID / Name** - The ID and Name identifying a Promotion. All Promotions are selected by default. Optionally, select Search to work with the list of eligible Promotions, search based on Promotion Name, or remove Promotions from the list selected for the report.
- **Target Name** - The name describing the group of Customers targeted for a Promotion. All Targets associated with a selected Promotion are selected by default. Optionally, select Search to work with the list of eligible Targets, search based on Target Name, or remove Targets from the list selected for the report.
- **Customer ID / Name** - The ID and Name identifying a Customer. All Customers that have been included in a selected Target are selected by default. Optionally, select Search to work with the list of eligible Customers, search based on Customer Name, or remove Customers from the list selected for the report.
- **Customer Alternate Key Types** - The Alternate Key Types identifying a Customer in an integrated system. All Alternate Key Types are selected by default. Optionally, select Search to work with the list of eligible Alternate Key Types, search based on Alternate Key Type Name, or remove Alternate Key Types from the list selected for the report.
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. Each row includes a Customer record and unique Alternate Key Type. For example, if a customer has three Alternate Keys, the customer is included on the report in three separate rows.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Promotion ID / Name** - The Program IDs selected when generating the report, or set to ALL if there was no restriction.
- **Campaign ID / Name** - The Campaign IDs selected when generating the report, or set to ALL if there was no restriction.

- **Customer Alt Key Type** - The Customer alt key types selected when generating the report, or set to N/A if there was no restriction.
- **Customer ID / Name** - The Customer ID / Names selected when generating the report, or set to ALL if there was no restriction.
- **Target Name** - The Target names selected when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Campaign** - The unique number identifying the Campaign, and the name of the Campaign.
- For each unique Customer/Alternate Key included on the report:
  - **Promo ID** - Name - The unique number identifying the Promotion, and the name describing the Promotion.
  - **Target Name** - The name describing the customers targeted.
  - **Customer ID** - Unique identifier for the Customer.
  - **Customer Name** - Customer Last Name.
  - **Alt Key Type** - Name identifying the type of Alternate Key. Typically, identifies the integrating system assigning the Alternate Key.
  - **Alternate ID** - The unique identifier for the Customer in the integrating system.
  - **Address** - The Customer's primary street address.
  - **City** - The City for the Customer's primary address.
  - **State** - The state or province for the Customer's primary address.
  - **Postal Code** - The postal or ZIP code for the Customer's primary address.

This report does not include any totals.

Promotion Target List Report

This report displays information about the Segment Targets associated with the Promotions within a Campaign.

Selection Criteria

- **Campaign ID / Name** - The ID and Name identifying a Campaign. All Campaigns are selected by default. Optionally, select Search to work with the list of eligible Campaigns, search based on Campaign Name, or remove Campaigns from the list selected for the report.

  If you select a Campaign, one or more Promotions and Targets may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to data that match the automatically selected criteria.
- **Promotion ID / Name** - The ID and Name identifying a Promotion. All Promotions are selected by default. Optionally, select Search to work with the list of eligible Promotions, search based on Promotion Name, or remove Promotions from the list selected for the report.
- **Target Name** - The name describing the group of Customers targeted for a Promotion. All Targets are selected by default. Optionally, select Search to work

with the list of eligible Targets, search based on Target Name, or remove Targets from the list selected for the report.

- **Promotion Time Period** - Optionally, select a time period to include Promotions that have Start Dates during this period on the report rather than entering a Promotion Start Date or Promotion End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Promotion Time Period, the Promotion Start Date is ignored.

- **Promotion Start Date** - The first Start Date to include on the report. Defaults to the previous date (yesterday).
- **Promotion End Date** - The last date to include on the report. Defaults to the current date (today). This criterion is not currently used.
- **Row Limit** - Optionally, use this field to specify the maximum number of targets to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

Organization - The code identifying your organization.

- **Date Range** - The date range selected when generating the report. Detail Information:
- **Campaign** - The unique number identifying the Campaign, and the name of the Campaign.
- **Promotion** - The unique number identifying the Promotion, and the name describing the Promotion.
- **Start Date** - The Promotion's Start Date.
- **End Date** - The Promotion's End Date.
- **For each Target included on the report**:
  - **Target Name** - The name describing the customers targeted.

  - **Base Target Count** - The total number of customers in the Target.
  - **Household Filter?** - Set to Yes if Customer Household Consolidation was selected for the Target in the Promotion.
  - **Household Count** - The total number of households in the Target. May be lower than the Base Target Count if Customer Household Consolidation took place for the Target in the Promotion.
  - **Filtered?** - Set to Yes if filtering took place when selecting members of the Target for the Promotion.
  - **Filtered Count** - The total number of Customer records from the Target that were selected for the Promotion after filtering.
  - **Filter Type** - The type of filtering applied, if any. Possible types are Top Sales and Random.
  - **Control Group Count** - The total number of Customer records from the Target, if any, that were assigned to the Control Group for the Promotion.
  - **Control Group Type** - The Control Group Type selected, if any. Possible types are Promotion Level and Target Level.
- **Totals for Promotion**:
  - **Base Target Count** - The total number of customers for the Promotion.
  - **Household Count** - The total number of households for the Promotion. May be lower than the Base Target Count if Customer Household Consolidation took place for a Target in the Promotion.
  - **Filtered Count** - The total number of Customer records that were selected for the Promotion after filtering any of the Targets.
  - **Control Group Count** - The total number of Customer records that were assigned to a Control Group for the Promotion.
- **Totals for Campaign**:
  - **Base Target Count** - The total number of customers for the Campaign.
  - **Household Count** - The total number of households for the Campaign. May be lower than the Base Target Count if Customer Household Consolidation took place for a Target in the Campaign.
  - **Filtered Count** - The total number of Customer records that were selected for the Promotions in the Campaign after filtering any of the Targets.
  - **Control Group Count** - The total number of Customer records that were assigned to a Control Group for the Campaign.
- **Report Totals:**
  - **Base Target Count -** The total number of customers for the Targets included on the report.
  - **Household Count -** The total number of households for the Targets included on the report. May be lower than the Base Target Count if Customer Household Consolidation took place for a Target.
  - **Filtered Count** - The total number of Customer records that were selected for the Promotions included on the report after filtering any of the Targets.
  - **Control Group Count** - The total number of Customer records that were assigned to a Control Group for a Target included on the report.

Promotion Target Segment List Report

This report presents the Target Segments associated with Promotions within a Campaign.

Selection Criteria

- **Campaign ID / Name -** The ID and Name identifying a Campaign. All Campaigns are selected by default. Optionally, select Search to work with the list of eligible Campaigns, search based on Campaign Name, or remove Campaigns from the list selected for the report.
- If you select a Campaign, one or more Promotions may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to data that match the automatically selected criteria.
- **Promotion ID / Name -** The ID and Name identifying a Promotion. All Promotions are selected by default. Optionally, select Search to work with the list of eligible Promotions, search based on Promotion Name, or remove Promotions from the list selected for the report.
- **Promotion Status** - The Promotion status to include on the report. All statuses are selected by default. Optionally, select Search to work with the list of eligible statuses, search based on status name, or remove statuses from the list selected for the report.
- **Promotion Time Period** - Optionally, select a time period to include Promotions that have Start Dates during this period on the report rather than entering a Promotion Start Date or Promotion End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Promotion Time Period, the Promotion Start Date is ignored.

- **Promotion Start Date** - The first Start Date to include on the report. Defaults to the previous date (yesterday).
- **Promotion End Date** - The last date to include on the report. Defaults to the current date (today). This criterion is not currently used.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report. Detail Information:
- **Campaign** - The unique number identifying the Campaign, and the name describing the Campaign.
- **Promo ID** - The unique number identifying the Promotion.
- **Promotion Name** - The name describing the Promotion.
- **Promotion Type** - The type of Promotion. Possible types are AWARD, COUPON, MESSAGE, and PRODUCT.
- **Status** - The current status of the Promotion. Possible statuses are Approved, Clear, Conflict, Saved, and Terminated.
- **Start Date** - The Start Date for the Promotion.
- **End Date** - The End Date for the Promotion.
- **For each Target**:
  - **Target Name** - The Name describing the Target.
  - **Segment ID** - A unique numeric identifier for the Segment used as the Target.
  - **Segment Name** - The Name describing the Segment used as the Target.

This report does not include any totals.

Card Management Reports

The Card Management Reports include:

- Card Batch Activation Rate Report
- Card Detail Report
- Card Series Activation Rate Report

Card Batch Activation Rate Report

This report displays the activation rate for each Batch within each Card Series on the Card Prefix.

Selection Criteria

- **Card Prefix** - The numeric prefix identifying a Card program. All Card Prefixes are selected by default. Optionally, select Search to work with the list of eligible Card Prefixes, search based on Card Prefix, or remove Card Prefixes from the list selected for the report.

  If you select a Card Prefix, one or more Card Series Sequences may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to Card Series Sequences that match the automatically selected criteria.

- **Card Series Sequence** - The sequence number identifying a generated Card Series.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Card Prefix** - The Card Prefixes selected when generating the report, or set to ALL if there was no restriction.
- **Card Series Sequence** - The Card Series Sequence numbers selected when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Card Prefix** - The numeric prefix identifying a Card program.
- **Card Series Sequence** - The sequence number identifying a generated Card Series.
- **Card Series Description** - The name describing the Card Series.
- **For each Batch in the Card Series Sequence**:
  - **Batch Number** - Batch Name - The unique number identifying a batch, and the name describing the batch.
  - **Batch Size** - The number of Cards generated in the Batch.
  - **Active Flag** - Always set to Yes. Batches that are not fully active are not included on the report.
  - **Activation Rate** - The percentage of the Cards in the Batch that are currently active. For example, if the Batch includes 1000 cards, and 150 are currently active, the Activation Rate is 15%.
  - **Card Count** - The number of currently active Cards in the Batch.
- **Totals for Card Series** - The number of currently active Cards in the Series.
- **Total for Card Prefix** - The number of currently active Cards for the Card Prefix.
- **Report Totals** - The number of activated Cards for all Card Prefixes on the report.

Card Detail Report

This report presents detailed information about individual Cards defined in the system.

Selection Criteria

- **Card Prefix** - The numeric prefix identifying a Card program. All Card Prefixes are selected by default. Optionally, select Search to work with the list of eligible Card Prefixes, search based on Card Prefix, or remove Card Prefixes from the list selected for the report.

  If you select a Card Prefix, the remaining criteria may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to Cards that match the automatically selected criteria.

- **Card Series Sequence** - The sequence number identifying a generated Card Series. All Card Series Sequences are selected by default. Optionally, select Search to work with the list of eligible Card Series Sequences, search based on Card Series Sequence, or remove Card Series Sequences from the list selected for the report.
- **Batch Number** - The system-assigned number identifying a batch for a Card Series. All Batch Numbers are selected by default. Optionally, select Search to work with the list of eligible Batch Numbers, search based on Batch Number, or remove Batch Numbers from the list selected for the report.
- **Serial Number** - The system-assigned number identifying a card, where the first five positions is the Card Prefix, the next two positions are the Card Series Sequence, the next three positions are the Batch Number, and the remaining positions uniquely identify the Card within the Prefix, Sequence, and Batch. All Serial Numbers are selected by default. Optionally, select Search to work with the list of eligible Serial Numbers, search based on Serial Number, or remove Serial Numbers from the list selected for the report.
- **Card Activation Time Period** - Optionally, select a time period to include Cards that have been activated during this period on the report rather than entering a Card Activation Start Date or Card Activation End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Card Activation Time Period, the Card Activation Start Date is ignored.

- **Card Activation Start Date** - The first Card Activation Date to include on the report. Defaults to the previous date (yesterday).
- **Card Activation End Date** - The last date to include on the report. Defaults to the current date (today). This criterion is not currently used.
- **Row Limit** - Optionally, use this field to specify the maximum number of batches to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Card Prefix** - The Card Prefixes selected when generating the report, or set to ALL if there was no restriction.
- **Card Series Sequence** - The Card Series Sequence numbers selected when generating the report, or set to ALL if there was no restriction.
- **Serial Number** - The Serial Numbers selected when generating the report, or set to ALL if there was no restriction.
- **Batch Number** - The Batch Numbers selected when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Card Prefix** - The numeric prefix identifying a Card program.
- **Card Series Sequence** - Card Name - Card Series Description:
  - **Card Series Sequence** - The sequence number identifying a generated Card Series.
  - **Card Name** - The name describing the Series.
  - **Card Series Description** - The description of the Card Series.
- **Batch Number - Batch Display Name** - The unique number identifying a batch, and the name describing the batch. The Batch Number defaults to 001, and the Batch Name defaults to [Batch-001].
- **Serial Number** - The system-assigned number identifying a Card, where the first five positions is the Card Prefix, the next two positions is the Card Series Sequence, the next three positions is the Batch Number, and the remaining positions uniquely identify the Card within the Prefix, Sequence, and Batch.
- **Card Number** - The unique card number identifying a Card.
- **Active Flag** - Set to Yes if the Card is currently active, or set to No if the Card has been deactivated. Only Cards that have been activated are included on the report.
- **Activation Date** - The date when the Card was first activated. If the Card has been deactivated and then reactivated, the original activation date is displayed.
- **First Use Date** - The first date when there was any activity on the Card.
- **Last Use Date** - The most recent date when there was any activity on the Card. There are no totals on the report.

Card Series Activation Rate Report

This report presents the activation rate for each Card Series created for each Card Type.

Selection Criteria

- **Card Prefix** - The numeric prefix identifying a Card program. All Card Prefixes are selected by default. Optionally, select Search to work with the list of eligible Card

Prefixes, search based on Card Prefix, or remove Card Prefixes from the list selected for the report.

Click **Apply** to apply the selected criterion and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Card Prefix** - The Card Prefixes selected when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Card Prefix** - The numeric prefix identifying a Card program.
- **Card Series -** The sequence number identifying a generated Card Series.
- **Card Name** - The name describing the Card.
- **Card Series Description** - The description of the Card Series.
- **Active Series Flag** - Always set to Yes. Series are included on the report only if at least some of the generated cards are active.
- **Number of Batches** - The total number of batches generated for the Card Series that is at least partially active.
- **Total Card Count** - The total number of cards generated for a Card Series that is at least partially active.
- **Active Card Count** - The total number of currently active Cards in the Series.
- **Activation Rate** - The percentage of Cards in the Series that are currently active: Active Card Count / Total Card Count.
- **Total for Card Prefix** - The totals for the Card Series and Card Prefix. Repeats the Number of Batches, Total Card Count, and Active Card Count from the previous line on the report.
- **Report Totals**:
  - **Number of Batches** - The total number of batches for all Card Prefixes included on the report.
  - **Total Card Count** - The total number of Cards in all batches that are at least partially active for all Card Prefixes included on the report.
  - **Active Card Count** - The total number of currently active Cards included on the report.

Customer Management Reports

The Customer Management Reports include:

- Address Summary Report
- Birthday Summary Report
- Customer Alt Key Summary Report
- Customer Associate Assignment by Associate and Role Report

- Customer Contact Email List Report
- Customer Contact Phone List Report
- Customer Purchase by Department by Year Report
- Customer Status Summary Report
- Gender Summary Report
- Location (Store) Capture Rate Report
- Postal Code Summary Report
- Social Network Summary Report
- State Summary Report
- Summary Detail Report

Address Summary Report

This report presents a count of Customers by address type, grouped by whether they are primary or valid.

Selection Criteria

- **Valid Flag** - Indicates whether an address has failed validation. Set to All by default. Optionally, select All to display options, including Yes for only Valid addresses or No for only invalid addresses to include in the totals on the report.
- **Activity Start Date** - Select the first date to include on the report.
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of unique categories, based on combination of Address Type, Valid Address setting, and Address Status, to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Start Range** - The Activity Start Date selected when generating the report.
- **Valid Flag Setting** - The selected setting of the Valid Flag: Yes, No, or ALL.

The Report Contents detail information includes:

> **Note:**
>
> For each Address Type, Valid Address setting, and Address Status combination for which any addresses were created since the Activity Start Date.

- **Address Type** - The user-defined address type that was created.

- **Valid Address** - If Customer Validation is enabled, set to No for any addresses that failed validation; otherwise, set to Yes.
- **Address Status** - Indicates if the addresses are flagged as Primary or Not Primary.
- **Customer Count** - The total number of customer records that had an address created matching the category of Address Type, Valid Address setting, and Address Status.
- **Percentage** - The percentage of all customer address activity on the report that is represented by the category of Address Type, Valid Address setting, and Address Status: Customer Count for the category / Customer Count for the entire report.
- **Report Totals**:
  - Customer Count - The total number of customers who had addresses created since the Activity Start Date.
  - Percentage - Set to 100%.

Birthday Summary Report

This report presents a count of Customers by birth month. Customers are included in the totals only if their birthday months are known.

Selection Criteria

- **Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Customer Sign Up Date From or Customer Sign Up Date To. Customer records created on or after this date, and on or before the Customer Sign Up Date To, are included in the totals, even if their birthdays were not specified until after this range of dates. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Customer Sign Up Date From and Customer Sign Up Date To criteria are ignored.

- **Customer Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Customer Sign Up Date To, are included in the totals, even if their birthdays were not specified until after this range of dates. Defaults to the previous date (yesterday).
- **Customer Sign Up Date To** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of months, starting with January, to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Customer Sign Up Date Range** - The date range selected when generating the report. Detail Information:
- **Birth Month** - The month when the Customers' birthday occurs.
- **Customer Count** - The total number of Customer records created during the specified date range that have birthdays during this month.
- **Percent** - The percentage of all Customer records included on the report with birthdays during this month: Customer Count for the month / Customer Count for the entire report.
- **Report Totals:**
  - **Customer Count** - The total number of Customers whose birthdays are known that are included on the report.
  - **Percentage** - Set to 100%.

Customer Alt Key Summary Report

This report presents counts of Customers by Alternate Key Type. Customers are included in the counts on the report only if they are assigned Alternate Keys.

Selection Criteria

- **Alt Key Type Code** - The code identifying an alternate key used to identify a customer in a different system. All Alt Key Type Codes are selected by default. Optionally, select Search to work with the list of eligible Alt Key Type Codes, search based on Alt Key Type Code, or remove Alt Key Type Codes from the list selected for the report.
- **Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering an Customer Sign Up Date From or Customer Sign Up Date To, even if their Alt Key Type Codes were not specified during this range of dates. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year

  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Customer Sign Up Date From and Customer Sign Up Date To criteria are ignored.

- **Customer Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Customer Sign Up Date To, are included in the totals, even if their Alt Key Type Codes were not specified during this range of dates. Defaults to the previous date (yesterday).
- **Customer Sign Up Date To -** The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum Alt Key Type Codes to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization -** The code identifying your organization.
- **Date Range -** The date range selected when generating the report.
- **Alt Key Type Code -** The Alt Key Type Codes specified when generating the report, or set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Alt Key Typecode -** The key identifying a Customer in another system.
- **Customer Count -** The total number of Customer records created during the specified date range that have this type of Alt Key assigned.
- **Key Count -** The total number of Alt Keys that are assigned to Customers created during the specified date range. This number might be higher than the Customer Count if, for example, a single Customer was assigned multiple Alt Keys for the same external system.
- **Report Totals**:
  - **Customer Count -** The total number of Customer records created during the specified date range that are assigned to any type of Alt Key that are included on the report.
  - **Key Count -** The total number of Alt Keys assigned to Customers that are included in the totals on the report.

Customer Associate Assignment by Associate and Role Report

This report displays contact information for Customers associated to a particular Associate Role.

Selection Criteria

- **Associate** - The code identifying a Customer Associate. All Associates are selected by default. Optionally, select Search to work with the list of eligible Associates, search based on Associate Name, or remove Associates from the list selected for the report.
- **Associate Role** - The code and name identifying the role that an Associate performs for Customers. All Associate Roles are selected by default. Optionally, select Search to work with the list of eligible Roles, search based on Role Name, or remove Roles from the list selected for the report.
- **Customer ID** - The numeric ID uniquely identifying a customer. Optionally, enter a single Customer ID to generate the report for this Customer. Searching for a Customer here is not supported.
- **Limit Records** - Optionally, use this field to specify the maximum number of Customer Associate assignments to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization. Selected search criteria are not included in the report header area. Detail Information:
- **Associate** - The Name identifying an Associate.
- **Role** - The Role in which the Associate is assigned to the Customer. If the Associate is assigned through multiple Roles, the Customer is listed additional times for the Associate under the most recently assigned Role. For example, an Associate was first assigned to the Customer as a Sales Associate, and then assigned to the same Customer as Suit Buyer. The Associate is listed on the report with a Role of Suit Buyer, with the Customer listed twice under this Role.

For each Associate and Role:

- **Customer ID** - The unique numeric identifier for the Customer.
- **First Name** - The Customer's first name.
- **Last Name** - The Customer's last name.
- **Address** - The first street address line for the Customer's primary address. All address information is blank if there is no primary address identified for the Customer.
- **City** - The city for the Customer's primary address.
- **State** - The state for the Customer's primary address.
- **Country** - The country for the Customer's primary address.
- **Phone** - The Customer's primary phone number. Blank if no primary phone number is identified for the Customer.

- **Email** - The Customer's primary email address. Blank if no primary email address is identified for the Customer.

There are no totals on this report.

Customer Contact Email List Report

This report presents a listing of Customer names, addresses, and primary emails by Signup Location.

Selection Criteria

- **Sign Up Location** - The location where the Customer was enrolled. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.
- **Customer ID** - The numeric ID uniquely identifying a customer. Optionally, enter a single Customer ID to generate the report for this Customer. Searching for a Customer here is not supported.
- **Sign Up Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Sign Up Date From or Sign Up Date To. The dates when email addresses were created are not used as criteria. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Time Period, the Sign Up Date From and Sign Up Date To criteria are ignored.

- **Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Sign Up Date To, are included in the totals, even if their primary email addresses were not created or updated during this range of dates. Defaults to the previous date (yesterday).
- **Sign Up Date To** - The last date to include on the report. Defaults to the current date (today).
- **Limit Records** - Optionally, use this field to specify the maximum number of records to include on the report. There is a separate entry on the report for each

mailing address for a customer, including deleted mailing addresses, if the customer has a primary email address.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Customer Sign Up Date -** The date range selected for inclusion on the report.

Any additional selection criteria are not included in the report header area.

The Report Contents detail information includes:

> **Note:**
>
> For each mailing address created for a Customer with a primary email address, including non-primary mailing addresses and deleted mailing addresses

- **Sign Up Location** - The Location where the Customer record was created.
- **Customer ID -** The unique numeric identifier for the Customer.
- **Customer Name** - The Customer's first and last name.
- **Address -** The Address Line 1 for the mailing address.
- **City and State** - The city and state for the Customer's address.
- **Postal Code** - The postal code for the Customer's address.
- **Email Address -** The Customer's current primary email address. The same primary email address is listed for each mailing address listed for the Customer.
- **Total Sales Amount** - The total extended amount of items and miscellaneous charges in the Customer's transaction history.

There are no totals on the report.

Customer Contact Phone List Report

This report presents a listing of Customer names, addresses, and phone numbers by Signup Location.

Selection Criteria

- **Customer ID -** The numeric ID uniquely identifying a customer. Optionally, enter a single Customer ID to generate the report for this Customer. Searching for a Customer here is not supported.
- **Sign Up Location** - The location where the Customer was enrolled. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.

- **Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Customer Sign Up Date From or Customer Sign Up Date To. The dates when phone numbers were created are not used as criteria. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Time Period, the Customer Sign Up Date From and Customer Sign Up Date To criteria are ignored.

- **Customer Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Sign Up Date To, are included in the report. Defaults to the previous date (yesterday).
- **Customer Sign Up Date To** - The last date to include on the report. Defaults to the current date (today).
- **Limit Records** - Optionally, use this field to specify the maximum number of records to include on the report. There is a separate entry on the report for each mailing address for a customer, including deleted mailing addresses, regardless of whether the customer has a phone number. If the customer does have a phone number, there is a separate entry on the report for each mailing address/phone number combination. For example, if the customer has two mailing addresses and two phone numbers, there are four entries on the report for the customer.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range**- The date range selected for inclusion on the report.
- **Customer ID** - The customer ID selected for inclusion on the report; otherwise, set to ALL.
- **Sign Up Location** - The Sign Up Locations selected for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

> **Note:**
>
> There is a separate entry on the report for each mailing address for a customer, including deleted mailing addresses, regardless of whether the customer has a phone number. If the customer does have a phone number, there is a separate entry on the report for each mailing address/phone number combination. For example, if the customer has two mailing addresses and two phone numbers, there are four entries on the report for the customer.

- **Sign Up Location** - The Location where the Customer record was created. For each Sign Up Location:
  - **Customer ID** - Name:

    —**Customer ID** - The unique numeric identifier for the Customer.

    —**Customer Name** - The Customer's first and last name.
  - **Address** - The Address Line 1 for the mailing address.
  - **City and State** - The city and state for the Customer's address.
  - **Postal Code** - The postal code for the Customer's address.
  - **Phone** - The phone number for the Customer.
  - **Total Sales Amount** - The total extended amount of items and miscellaneous charges in the Customer's transaction history.

There are no totals on the report.

Customer Purchase by Department by Year Report

This report presents a summary of Customer purchase activity by Department and year. Customers are included on the report only if they have purchase activity.

Selection Criteria

- **Customer ID** - The numeric ID uniquely identifying a customer. Optionally, enter a single Customer ID to generate the report for this Customer. Searching for a Customer here is not supported.
- **Department ID / Name** - The Department associated with items purchased by Customers. Optionally, select Search to work with the list of eligible Departments, search based on Department Name, or remove Departments from the list selected for the report.
- **Year** - The year when purchases occurred. Optionally, enter a single year to generate the report for purchases that occurred in this year. Searching for a year here is not supported.
- **Customer Sign Up Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Customer Sign Up Date From or Customer Sign Up Date To. Customers are included on the report only if they have purchase activity. Set to None by default. Available time periods are:

  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Customer Sign Up Date From and Customer Sign Up Date To criteria are ignored.

- **Customer Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Sign Up Date To, are included in the totals. Only Customers with purchase activity are included on the report. Defaults to the previous date (yesterday).
- **Customer Sign Up Date To** - The last date to include on the report. Only Customers with purchase activity are included on the report. Defaults to the current date (today).
- **Limit Records** - Optionally, use this field to specify the maximum number of records to include on the report. There is a separate entry on the report for each Customer, Department, and year. For example, if a Customer has purchases in one Department in 2016 and 2017, and purchases in a different Department in 2017, there are three rows for the Customer on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range**- The date range selected for inclusion on the report.
- **Customer ID** - The customer ID specified for inclusion on the report; otherwise, set to ALL.
- **Department ID** - The Department IDs specified for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

- **Customer** - The Customer ID and Name. For the Customer:
  - **Item Dept ID** - The unique numeric identifier for a Department.

  - **Department Description** - The description of the Department.
  - **Year** - The year when the purchase activity occurred for the Customer in the Department.
  - **Total Purchase Amount** - The total extended amount of items purchased in the Customer's transaction history.
- **Totals for Customer** - The Total Purchase Amount for the Customer included on the report.
- **Report Totals** - The Total Purchase Amount included on the report for all Customers.

Customer Status Summary Report

This report presents a summary of Customers grouped whether they are active or inactive, and identified or unidentified.

Selection Criteria

- **Active** - Indicates whether the Customer is Active, or has been flagged as Inactive. A customer might be inactive through a customer merge, dynamic target job processing, or customer deletes. Optionally, remove one of the Active Flag settings.
- **Anonymous Flag** - A Customer submitted by an integrating system is flagged as anonymous when there is no identifying information such as name, address, phone number, or email address. Optionally, remove one of the Anonymous Flag settings.
- **Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Customer Sign Up Date From or Customer Sign Up Date To. Customers are included on the report only if they have purchase activity. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Time Period, the Customer Sign Up Date From and Customer Sign Up Date To criteria are ignored.

- **Customer Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Sign Up Date To, are included in the totals. Only Customers with purchase activity are included on the report. Defaults to the previous date (yesterday).

- **Customer Sign Up Date To -** The last date to include on the report. Only Customers with purchase activity are included on the report. Defaults to the current date (today).
- **Limit Records** - Optionally, use this field to specify the maximum number of records to include on the report. There is a separate entry on the report for each combination of Active flag setting / Customer Status setting.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range -** The date range selected for inclusion on the report.

The Report Contents detail information includes:

- **Active** - Set to Yes if the totals are for active Customers, or set to No if the totals are for inactive Customers. A Customer might be flagged as inactive through a customer merge, dynamic target job processing, or customer deletes.
- **Customer Status** - Possible settings:

  Identified - The Customer's identity is known.

  Unidentified - The Customer is anonymous. A Customer submitted by an integrating system is flagged as anonymous when there is no identifying information such as name, address, phone number, or email address.
- **Customer Count** - The total number of Customer records included on the report with the same Active flag and Status settings.
- **Percent** - The percentage of the Customers included in the totals on the report represented by the Customer Count for this Status and Active flag.
- **Status Totals:**
  - **Customer Count -** The total number of Customer records included on the report with the same Status.
  - **Percent** - The percentage of the Customers included in the totals on the report represented by the Customer Count for this Status.
- **Report Totals**
  - **Customer Count -** The total number of Customers included in the totals on the report.
  - **Percent -** Set to 100.00%.

Gender Summary Report

This report presents a summary of Customers grouped by gender.

Selection Criteria

- **Customer Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Customer Sign Up Date To, are included in the totals.
- **Customer Sign Up Date To** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of gender categories to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected for inclusion on the report.

The Report Contents detail information includes:

- **Gender** - The gender identified for a Customer. N/A indicates that no gender was identified.
- **Gender Percentage** - The percentage of all Customer records, regardless of when they were created, that have been identified as this gender.
- **Customer Count** - The total number of Customer records identified as this gender created within the date range selected for the report, even if their gender was identified after this date range.
- **Report Totals** - The total number of Customers included in the report.

Location (Store) Capture Rate Report

This report presents a count of Customers, by Anonymous Flag, for each Sign Up Location. A Customer submitted by an integrating system is flagged as anonymous when there is no identifying information such as name, address, phone number, or email address.

Selection Criteria

- **Location ID / Name** - The location where the Customer was enrolled. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.
- **Customer Sign Up Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Customer Sign Up Date From or Customer Sign Up Date To. Only Customers with purchase activity are included on the report. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days

  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Customer Sign Up Date From and Customer Sign Up Date To criteria are ignored.

- **Customer Sign Up Date From** - The first date to include on the report. Customer records created on or after this date, and on or before the Customer Sign Up Date To, are included in the totals.
- **Customer Sign Up Date To** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. Each Location/Anonymous Status counts as a row.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range**- The date range selected for inclusion on the report.
- **Location ID** - The Location IDs selected for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

- **Sign Up Store** - The numeric code identifying the Location that originated Customers.
- **Store Name** - The name describing the Location.
- **Anonymous Status** - Set to No for the total number of Customers created by the Location with identifying information, such as the Customers' names, addresses, phone numbers, and email addresses; otherwise, set to Yes for the total number of Customers created without this identifying information.
- **Customer Count** - The total number of Customers created at the Location with the indicated Anonymous Status during the Date Range selected for the report.
- **Percent** - The percentage of Customers included on the report that are represented by this Customer Count.
- **Report Totals**:
  - **Customer Count** - The total number of Customers included on the report.
  - **Percent** - Set to 100.00%.

Postal Code Summary Report

This report presents a count of Customers by Postal Code, filtered on only primary, active, home addresses.

Selection Criteria

- **Postal Code** - The Postal Code for a Customer's primary address. Optionally, select Search to work with the list of eligible Postal Codes, search based on Postal Code, or remove Postal Codes from the list selected for the report.
- **Address Effective Time Period** - Optionally, select a time period to include Customers whose primary addresses became effective during this period on the report rather than entering an Address Effective Date From or Address Effective Date To. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Address Effective Date From and Address Effective Date To criteria are ignored.

- **Address Effective Date From** - The first date to include on the report. Primary Customer addresses created on or after this date, and on or before the Address Effective Date To, are included in the totals.
- **Address Effective Date To** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of Postal Codes to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.

- **Address Effective Date Range**- The date range selected for inclusion on the report.
- **Postal Code** - The Postal Codes selected for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

- **Postal Code** - The Postal Code for a Customer's primary address. A blank Postal Code might be used to summarize anonymous Customer records.
- **Customer Count** - The number of Customers who were created or updated with a primary address in this Postal Code during the date range.
- **Percent** - The percentage of Customers included on the report who were created or updated with a primary address in this Postal Code.
- **Report Totals**:
  - **Customer Count** - The total number of Customers included on the report.
  - **Percent** - Set to 100.00%.

Social Network Summary Report

This report displays a count of Customers by Social Network, grouped by the Customer's Home Store.

Click **Apply** to generate the report. There are no selection criteria.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization. Detail Information:
- **Anonymous Flag** - The totals are separate based on whether the Anonymous Flag for the Customer is set to Yes or No. A Customer submitted by an integrating system is flagged as anonymous when there is no identifying information such as name, address, phone number, or email address.
- **Home Store** - The numeric code identifying the Location where the Customer record was created.
- **Social Media** - The Social Media type, such as FACEBOOK, TWITTER, or LINKEDIN, associated with the Customer through a message from an integrating system.
- **Customer Count** - The total number of Customers from this Location that are associated with this Social Media type. For example, the report can include a Customer Count of the total number of Customers originating from a specific store Location, associated with TWITTER, that have the Anonymous flag set to No.
- **Totals for Anonymous Flag** - The total number of Customers from all Locations, associated with all Social Media types, with the same Anonymous Flag setting.

State Summary Report

This report presents a count of active primary address records grouped by state.

Selection Criteria

- **Time Period** - Optionally, select a time period to include Customers whose primary addresses became effective during this period on the report rather than entering a Customer Address Date From or Customer Address Date To. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Address Effective Date From and Address Effective Date To criteria are ignored.

- **Customer Address Date From** - The first date to include on the report. Primary Customer addresses created on or after this date, and on or before the Address Effective Date To, are included in the totals.
- **Customer Address Date To** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of states to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range**- The date range selected for inclusion on the report.

The Report Contents detail information includes:

- **State** - The U.S. state for a Customer's primary address.
- **Customer Count** - The number of Customers who were created or updated with a primary address in this state during the date range.

- **Percent** - The percentage of Customers included on the report who were created or updated with a primary address in this state.
- **Report Totals**:
  - **Customer Count** - The total number of Customers included on the report.
  - **Percent** - Set to 100.00%.

Summary Detail Report

This report presents totals and percentages of types of addresses, email addresses, and phone numbers for Customers who signed up within a specified date range.

Selection Criteria

- **Summary Type** - The type of information to summarize: Address, E-mail, or Telephone. Optionally, remove one or more summary types.
- **Valid Flag** - Indicates whether the mailing address, email address, or telephone number was flagged as valid or invalid. Optionally, remove one of the Valid Flag settings.
- **Address Type** - The address types, such as Home, Business, Not Defined, or Work. Applies to mailing address, email, and telephone totals included on the report. Optionally, remove one or more address types. Note that all address types used for your organization might not be included in this list.
- **Customer Signup Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Customer Signup Date From or Customer Signup Date To. Only Customers with active mailing addresses, email addresses, or telephone numbers are included in the totals on the report. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Customer Signup Date From and Customer Signup Date To criteria are ignored.

- **Customer Signup Date From -** The first date to include on the report. Customer records created on or after this date, and on or before the Signup Date To, are included in the totals. Only Customers with mailing addresses, email addresses, or telephone numbers are included in the report totals. Defaults to the previous date (yesterday).
- **Customer Signup Date To -** The last date to include on the report. Only Customers with mailing addresses, email addresses, or telephone numbers are included in the report totals. Defaults to the current date (today).
- **Limit Records -** Optionally, use this field to specify the maximum number of rows to include on the report. There is a separate row on the report for each combination of mailing address, email, or telephone type and valid flag setting.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization -** The code identifying your organization.
- **Date Range -** The date range selected for inclusion on the report.
- **Summary Type -** The summary types selected for inclusion on the report; otherwise, set to ALL.
- **Valid Flag -** The Valid Flag setting selected for inclusion on the report; otherwise, set to ALL.
- **Type -** The mailing address, email, and telephone Types selected for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

For each Summary Type (Address, Email, and Telephone):

- **Type -** The type of record, such as Home, Business, or Vacation.
  - **Valid -** Set to Yes if the Customer Count includes valid address, email, or telephone records; otherwise, set to No.
  - **Percent -** The percentage of the Summary Type represented by the Customer Count. For example, if the Summary Type is Address, the Total for the Summary Type is 100, and the Customer Count for valid Work addresses is 20, the Percent is 20%.
  - **Customer Count -** The total number of current primary mailing addresses, email addresses, or telephone numbers of this Type and Valid setting.
- Totals for Summary Type - The total number of current, primary mailing addresses, email addresses, or telephone numbers included on the report.

Item Management Reports

The Item Management Reports include:

- Item Attribute Summary Report

Item Attribute Summary Report

This report provides a count of items that are associated with each given Item Attribute and Attribute value.

Selection Criteria

- **Attribute** - An Attribute assigned to one or more items. Optionally, select Search to work with the list of eligible Attributes, search based on Attribute, or select all Attributes for the report.
- **Value** - An Attribute Value setting. Optionally, enter a single Value to generate the report for this Attribute Value. Searching for a Value here is not supported.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.

The Report Contents detail information includes:

- **Attribute Code** - The ID and Name for an Item Attribute. For each Attribute Code:
  - **Attribute Value** - A Value assigned to one or more items for an Attribute.
  - **Item Count** - The total number of items assigned this Attribute Value.
  - **Total Item Count** - The total number of items assigned a Value for this Attribute.

Location Operations Reports

The Location Operations Reports include:

- Capture Quality Summary Report
- Customer by Home Location Report
- Shoppers by Location Report
- Signup Location (Store) by Postal Code Report
- Signup Location by State Report
- Signup Location Report
- Signup Location Daily Trend Report

Capture Quality Summary Report

This report presents the percentage of validated Customer data, organized by Operator ID, within each Location.

This report includes Customer records created by receiving transactions through an integration. Customer records created through Customer Engagement Cloud Services windows are not included in these totals.

Selection Criteria

- **Location** - A Location in your organization. Optionally, select Search to work with the list of eligible Locations, search based on Location, or select all Locations for the report.
- **Operator ID** - A unique number identifying an employee. Optionally, enter a single Operator ID to generate the report for this Operator. Searching for an Operator here is not supported.
- **Business Date** - Optionally, select a time period to include Customers created during this period on the report rather than entering a Business Start Date or Business End Date. Only Customers created by receiving transactions through an integration are included in the totals on the report. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Time Period, the Business Start Date and Business End Date criteria are ignored.

- **Business Start Date** - The first date to include on the report. Customer records created on or after this date, and on or before the Business End Date, are included in the totals. Defaults to the previous date (yesterday).
- **Business End Date** - The last date to include on the report. Defaults to the current date (today).

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.

The Report Contents detail information includes:

- **Location** - The ID and Name for a Location. For each Location:
  - **Operator ID** - A code identifying an employee.
  - **Total Trans** - The total number of Transactions submitted by the Operator and Location during the date range.
  - **Address Valid** - The total number of valid addresses for the Total Trans.

  - **Address Invalid** - The total number of invalid addresses for the Total Trans.
  - **Address None** - The total number of transactions submitted without addresses.
  - **Address % Valid** - The Address Valid total / the Total Trans, formatted as a percentage.
  - **Phone Valid** - The total number of valid phone numbers for the Total Trans.
  - **Phone Invalid** - The total number of invalid phone numbers for the Total Trans.
  - **Phone None** - The total number of transactions submitted without phone numbers.
  - **Phone % Valid** - The Phone Valid total / the Total Trans, formatted as a percentage.
  - **Email Valid** - The total number of valid email addresses for the Total Trans.
  - **Email Invalid** - The total number of invalid email addresses for the Total Trans.
  - **Email None** - The total number of transactions submitted without email addresses.
  - **Email % Valid** - The Email Valid / the Total Trans, formatted as a percentage.
- **Location Totals**:
  - **Total Trans** - The total number of Transactions submitted for the Location during the date range.
  - **Address Valid** - The total number of valid addresses for the Total Trans.
  - **Address Invalid** - The total number of invalid addresses for the Total Trans.
  - **Address None** - The total number of transactions submitted without addresses.
  - **Address % Valid** - The Address Valid total / the Total Trans, formatted as a percentage.
  - **Phone Valid** - The total number of valid phone numbers for the Total Trans.
  - **Phone Invalid** - The total number of invalid phone numbers for the Total Trans.
  - **Phone None** - The total number of transactions submitted without phone numbers.
  - **Phone % Valid** - The Phone Valid total / the Total Trans, formatted as a percentage.
  - **Email Valid** - The total number of valid email addresses for the Total Trans.
  - **Email Invalid** - The total number of invalid email addresses for the Total Trans.
  - **Email None** - The total number of transactions submitted without email addresses.
  - **Email % Valid** - The Email Valid / the Total Trans, formatted as a percentage.
- **Report Totals**:
  - **Total Trans** - The total number of Transactions included on the report.

  - **Address Valid** - The total number of valid addresses for the Total Trans.
  - **Address Invalid** - The total number of invalid addresses for the Total Trans.
  - **Address None -** The total number of transactions submitted without addresses.
  - **Address % Valid** - The Address Valid total / the Total Trans, formatted as a percentage.
  - **Phone Valid** - The total number of valid phone numbers for the Total Trans.
  - **Phone Invalid** - The total number of invalid phone numbers for the Total Trans.
  - **Phone None** - The total number of transactions submitted without phone numbers.
  - **Phone % Valid -** The Phone Valid total / the Total Trans, formatted as a percentage.
  - **Email Valid** - The total number of valid email addresses for the Total Trans.
  - **Email Invalid** - The total number of invalid email addresses for the Total Trans.
  - **Email None -** The total number of transactions submitted without email addresses.
  - **Email % Valid** - The Email Valid / the Total Trans, formatted as a percentage.

Customer by Home Location Report

This report presents a count of Customers for each Home Location.

This report includes Customer records created by transactions received through an integration. Customer records created through Customer Engagement Cloud Services windows are not included in these totals.

Selection Criteria

- **Location** - A Location in your organization. Optionally, select Search to work with the list of eligible Locations, search based on Location, or select all Locations for the report.
- **Signup Date Period** - Optionally, select a time period to include Customers created during this period on the report rather than entering a Signup Start Date or Signup End Date. Only Customers created by receiving transactions through an integration are included in the totals on the report. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Signup Start Date and Signup End Date criteria are ignored.

- **Signup Start Date** - The first date to include on the report. Customer records created on or after this date, and on or before the Signup End Date, are included in the totals. Defaults to the previous date (yesterday).
- **Signup End Date** - The last date to include on the report. Defaults to the current date (today).

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Customer Signup Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Home Location** - The unique numeric identifier for the Location.
- **Location Name** - The Name describing the Location.
- **Customer Count** - The total number of Customers created for the Location through transactions receiving during the date range.
- **Report Totals** - The total number of Customers included on the report.

Shoppers by Location Report

This report presents Customer count and purchase statistics for each Location.

This report includes Customer records created by transactions received through an integration. Customer records created through Customer Engagement Cloud Services windows are not included in these totals.

Selection Criteria

- **Location** - A Location in your organization. Optionally, select Search to work with the list of eligible Locations, search based on Location, or select all Locations for the report.
- **Business Date** - Optionally, select a time period to include Customers created during this period on the report rather than entering a Business Start Date or Business End Date. Only Customers created during this time period on transactions received through an integration are included in the totals on the report. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week

  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Time Period, the Business Start Date and Business End Date criteria are ignored.

- **Business Start Date -** The first date to include on the report. Customer records created on or after this date, and on or before the Business End Date, are included in the totals. Defaults to the previous date (yesterday).
- **Business End Date -** The last date to include on the report. Defaults to the current date (today).

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Business Date** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Location** - The ID and Name for a Location.
- **Location Name** - The Name describing the Location.
- **Customer Count** - The total number of Customers created for the Location through transactions received during the date range.
- **Total Spent** - The total extended amount of items and miscellaneous charges for transactions.
- **Number of Transactions** - The total number of separate transactions.
- **Average Purchase** - The Total Spent / the Number of Transactions, presented as a percentage.
- **Percent of Total** - The Total Spent for the Location / the Total Spent for the report, presented as a percentage.
- **Report Totals**:
  - **Customer Count -** The total number of Customers created for the Locations and date range included on the report.

  - **Total Spent** - The total extended amount of items and miscellaneous charges for transactions included on the report.
  - **Number of Transactions** - The total number of separate transactions included on the report.
  - **Average Purchase** - The Total Spent for the report / the Number of Transactions on the report, presented as a percentage.
  - **Percent of Total** - Set to 100.00%.

Signup Location (Store) by Postal Code Report

This report presents the number of Customers, by date, who signed up at Locations, organized by Postal Code or Zip Code.

If you change a Customer's Signup Location, the Customer is included in the totals for the new Signup Location rather than the original Location, but included in the Date Range for the Customer's original signup date.

Selection Criteria

- **Location ID / Name** - A Location in your organization. Optionally, select Search to work with the list of eligible Locations, search based on Location, or select all Locations for the report.
- **Postal Code** - A postal or Zip code for a Location. Optionally, select Search to work with the list of eligible postal codes, search based on postal code, or select all postal codes for the report.
- **Signup Time Period** - Optionally, select a time period to include Customers whose records were created during this period on the report rather than entering a Signup Start Date or Signup End Date. Only Customers with active primary addresses are included in the totals on the report. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Signup Time Period, the Signup Start Date and Signup End Date criteria are ignored.

- **Signup Start Date -** The first date to include on the report. Customer records created on or after this date, and on or before the Signup End Date, are included in the totals. Defaults to the previous date (yesterday).
- **Signup End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. There is a separate row on the report for each Store and Signup Date.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

> **Note:**
>
> The title listed on the report is Signup Store by Postal Code.

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range -** The date range selected for inclusion on the report.
- **Location ID** - The Locations selected for inclusion on the report; otherwise, set to ALL.
- **Postal Code** - The Postal or Zip Codes selected for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

- **Store Name -** The Location ID and the Name of the Location. The first Store Name listed might be blank if there were Customers created without assignment to a Location.
- **Postal Code** - The Postal Code or Zip Code for the Location. Blank if no Postal or ZIP Code is specified for the Location.
- **Signup Date** - The date when one or more Customer records were created with this store specified as the Signup Location.
- **Customer Count** - The total number of Customers created for the Store Location on this Signup Date.
- **Totals for Location** - The total number of Customers created for the Store Location during the date range included on the report.
- **Report Totals -** The total number of Customers created for the Store Locations and date range included on the report.

Signup Location by State Report

This report presents the number of Customers, by the state or province of the Customers' primary addresses, who signed up at the Location.

If you change a Customer's Signup Location, the Customer is included in the totals for the new Signup Location rather than the original Location, but included in the Date Range for the Customer's original signup date.

Selection Criteria

- **Location ID / Name** - A Location in your organization. Optionally, select Search to work with the list of eligible Locations, search based on Location, or select all Locations for the report.
- **State** - The state or province for a Customer's primary address. Optionally, select Search to work with the list of eligible states or provinces, search based on state or province, or select all states or provinces for the report.
- **Signup Date Period** - Optionally, select a time period to include Customers whose records were originally created during this period on the report rather than entering a Signup Start Date or Signup End Date.

  Only Customers with active primary addresses are included in the totals on the report, regardless of whether the active primary addresses were defined during the date range. For example, a Customer signs up last month, and a primary address for the Customer is identified this month. When the report is run for last month, the state for the Customer's primary address is included in the report totals. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Signup Date Period, the Signup Start Date and Signup End Date criteria are ignored.

- **Signup Start Date** - The first date to include on the report. Customer records created on or after this date, and on or before the Signup End Date, are included in the totals. Defaults to the previous date (yesterday).
- **Signup End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. There is a separate row on the report for each Store and State.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Sign Up Date Range -** The date range selected for inclusion on the report.
- **Location ID** - The Locations selected for inclusion on the report; otherwise, set to ALL.
- **State** - The state or provinces selected for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

- **Sign Up Store -** The unique numeric identifier for the originating Store Location. The first Sign Up Store listed might be blank if there were Customers created without assignment to a Location.
- **Store Name -** The name identifying the originating Store Location.
- **State** - The state or province for one or more Customers' current primary addresses. A blank State might indicate that a Customer's primary address was created without a state or province.
- **Customer Count** - The total number of Customers originating at this Store Location during the date range with active primary addresses in this State.
- **Report Totals** - The total number of Customers created for the Store Locations during the date range included on the report that have active primary addresses.

Signup Location Report

This report presents a list of Customer totals by Signup Location.

If you change a Customer's Signup Location, the Customer is included in the totals for the new Signup Location rather than the original Location, but included in the Date Range for the Customer's original signup date.

Selection Criteria

- **Location ID / Name** - A Location in your organization. Optionally, select Search to work with the list of eligible Locations, search based on Location, or select all Locations for the report.
- **Signup Date Period** - Optionally, select a time period to include Customers whose records were originally created during this period on the report rather than entering a Signup Start Date or Signup End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days

  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select a Signup Date Period, the Signup Start Date and Signup End Date criteria are ignored.

- **Signup Start Date** - The first date to include on the report. Customer records created on or after this date, and on or before the Signup End Date, are included in the totals. Defaults to the previous date (yesterday).
- **Signup End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. There is a separate row on the report for each Signup Location.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Signup Date Period** - The date range selected for inclusion on the report.
- **Location** - The Locations selected for inclusion on the report; otherwise, set to ALL.

The Report Contents detail information includes:

- **Signup Location** - The ID and Name identifying an originating Store Location.
- **Customer Count** - The total number of Customers created during the date range and assigned to this Signup Location.
- **Signup Percentage** - The Customer Count for the Signup Location / the Customer Count for the entire report, presented as a percentage.

The Report Totals includes:

- **Customer Count** - The total number of Customers created during the date range included on the report.
- **Signup Percentage** - Set to 100.00%.

Signup Location Daily Trend Report

This report presents Customer counts by signup date and Location, and includes a chart depicting the signup trend over the selected date range.

> **Note:**
>
> The chart on this report is useful only if you restrict the selection criteria to a single Location, so you can identify the total signups for these dates for the Location. Otherwise, it might be difficult to determine the totals for the same date but a different Location.

If you change a Customer's Signup Location, the Customer is included in the totals for the new Signup Location rather than the original Location, but included in the Date Range for the Customer's original signup date.

Selection Criteria

- **Location ID / Name -** A Location in your organization. Optionally, select Search to work with the list of eligible Locations, search based on Location, or select all Locations for the report.
- **Signup Time Period -** Optionally, select a time period to include Customers whose records were originally created during this period on the report rather than entering a Signup Start Date or Signup End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select a Signup Time Period, the Signup Start Date and Signup End Date criteria are ignored.

- **Signup Start Date -** The first date to include on the report. Customer records created on or after this date, and on or before the Signup End Date, are included in the totals. Defaults to the previous date (yesterday).
- **Signup End Date -** The last date to include on the report. Defaults to the current date (today).
- **Row Limit -** Optionally, use this field to specify the maximum number of rows to include on the report. There is a separate row on the report for each Signup Location and Signup Date.

Click **Apply** to apply the selected criteria and generate the report.

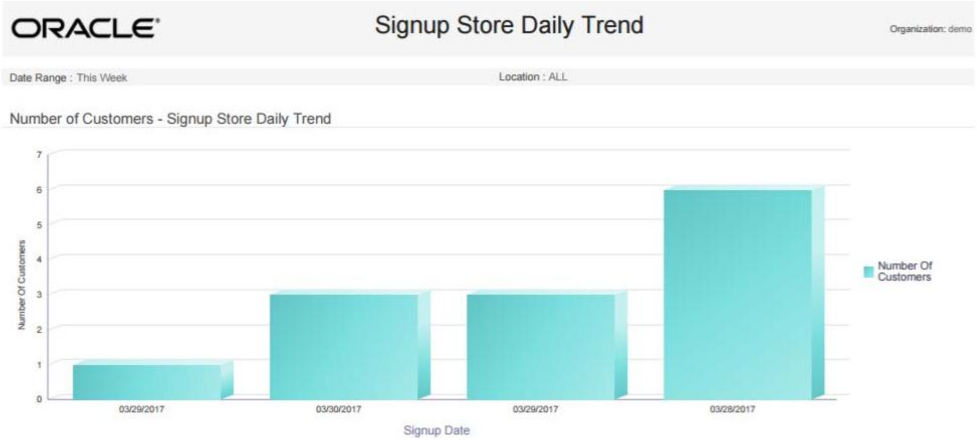
Report Contents

> **Note:**
>
> The title listed on the report is Signup Store Daily Trend.

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range -** The date range selected for inclusion on the report.
- **Location** - The Locations selected for inclusion on the report; otherwise, set to ALL.
- **Number of Customers** - Signup Store Daily Trend: Displays the total count of new Customers for each date and Location.

Figure 12-13   Signup Store Daily Trend Report - Number of Customers



Signup Store Daily Trend

Organization: demo

Date Range : This Week

Location : ALL

Number of Customers - Signup Store Daily Trend

The Report Contents detail information includes:

- **Signup Location** - The Location ID and Name for a Signup Location for one or more Customers. For each Signup Location:
- **Signup Date** - The date when one or more Customer records were created.
- **Customer Count** - The total number of Customers created on that date and assigned to the Signup Location.
- **Totals for Location** - The total number of Customers created during the date range and assigned to the Signup Location.
- **Report Totals** - The total number of Customers created during the date range and included on the report.

Loyalty Management Reports

The Loyalty Management Reports include:

- Loyalty Account Detail Report
- Loyalty Account Activity Errors Report
- Loyalty Account Level Summary Report
- Loyalty Activity Type Summary Report
- Loyalty Activity Type Trend Report
- Loyalty Issue Rule Impact Report
- Loyalty Rules Results Summary Report
- Loyalty Rules Results Trend Report
- Loyalty Account Balance Summary Report
- Loyalty Account Last Use Summary Report
- Loyalty Account Life Cycle Summary Report
- Loyalty Account Activity Summary Award Report
- Loyalty Account Activity Summary Issue Report
- Loyalty Program Level Summary Report

Loyalty Account Detail Report

This report presents details of the activities performed for individual Loyalty Accounts.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program ID, or remove Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Account ID** - Optionally, enter an Account ID to include a specific Loyalty Account on the report based on Account ID. Searching for an Account ID here is not supported.
- **Serial Number** - Optionally, enter a card's Serial Number to include a specific Loyalty Account on the report based on Serial Number. Searching for a Serial Number here is not supported.
- **Void Flag** - Optionally, select Yes or No to select Loyalty Account activity based on whether the activity was voided.
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:

  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date -** The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activity records for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization -** The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Account ID -** The unique identifier for the account associated with the card.
- **Serial Number** - The unique serial number for the card.
- **Loyalty Program -** The Loyalty Program for the card.

  For each activity included for an Account ID, Serial Number, and Loyalty Program:

  - **Activity ID** - A unique identifier for the activity.
  - **Activity Type -** The type of activity performed. Possible types include:

    —**Account Merge**

    —**Activate Account**

    —**Change Level**

    —**Deactivate**

    —**Issue Award**

    —**Issue Points**

    —**Point Recovery**

  - **Activity Date** - The date when the activity took place.
  - **Void** - Set to Yes if the activity has been voided.
  - **Escrow** Xfer - Set to Yes if the points are escrowed.
  - **Escrow** Xfer Date **-** The date, if any, when escrowed points are converted to earned points.
  - **Prog Lvl ID** - The unique numeric identifier for the Loyalty Program level.
  - **Prog Lvl Name** - The name describing the Loyalty Program level.
  - **New Prog Lvl I**D - The unique numeric identifier of the new Loyalty Program level assigned, if any.
  - **Loyalty Rule ID** - The unique numeric identifier of the Loyalty rule applied.
  - **Loyalty Rule Name** - The name describing the Loyalty rule.
  - **Business Date** - The business date of the activity.
  - **Location ID** - The unique numeric identifier of the Location where the activity took place.
  - **Sequence ID** - The unique numeric sequence identifier, if any, for the activity.
  - **Comments** - The comments, if any, describing the activity.
  - **Error Codes** - The error codes, if any, associated with the activity.
  - **Register ID** - The unique numeric identifier of the register, if any, where the transaction took place.
  - **Create Date** - The date when the activity record was created.
  - **Create User** - The user ID that created the activity record.
  - **Loyalty Points** - The points earned, awarded, or subtracted through the activity.
- **Totals for Account** - The total net points earned, awarded, or subtracted for the account during the date range included on the report.
- **Report Totals** - The total net points earned, awarded, or subtracted for all activity included on the report.

Loyalty Account Activity Errors Report

This report presents details of errors for Loyalty Accounts by Program ID.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program ID, or remove Programs from the list selected for the report.

- **Serial Number** - Optionally, enter a card's Serial Number to include a specific Loyalty Account on the report based on Serial Number. Searching for a Serial Number here is not supported.
- **Error Code** - The code identifying the type of error that occurred. All error codes are selected by default. Optionally, select Search to work with the list of eligible error codes, search based on error code, or remove error codes from the list selected for the report.
- **Activity Time Period -** Optionally, select a time period to include errors that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date -** The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date -** The last date to include on the report. Defaults to the current date (today).

  Row Limit - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of errors for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization -** The code identifying your organization.
- **Date Range -** The date range selected when generating the report.
- **Error Code -** The error codes selected for inclusion on the report; otherwise, set to ALL.

- **Program ID** - The program IDs selected for inclusion on the report; otherwise, set to ALL.
- **Serial Number** - The serial numbers selected for inclusion on the report; otherwise, set to N/A.

The Report Contents detail information includes:

- **Program**- The ID and Name of the Loyalty Program.
- **Acct ID** - The unique identifier for the account associated with the card.
- **Program Level ID** - Name - The ID and Name of the Loyalty Program level.
- **Serial Number** - The unique serial number for the card.
- **Activity ID** - Type - The unique numeric identifier for the type of activity, and the name of the type. Examples of activity types are Activate or Issue Points.
- **Activity Date** - The date when the activity took place.
- **Business Date** - The business date when the activity took place.
- **Create Date** - The date when the activity record was created.
- **Void Flag** - Set to Yes if the transaction was voided.
- **Error Code** - The description of the error that occurred.
- **Comments** - Any comments entered for the activity.
- **Create User** - The user ID that created the activity producing the error.
- **Trans. ID** - The unique numeric identifier for the transaction.
- **Loc. ID** - The unique identifier for the Location where the activity took place.
- **Number of Points** - The number of points associated with the activity.
- **Totals for Account** - The total net points earned, awarded, or subtracted for activities in error for the account during the date range included on the report.
- **Report Totals** - The total net points earned, awarded, or subtracted for activities in error included on the report.

Loyalty Account Level Summary Report

This report presents account level summaries for Loyalty accounts by Program ID.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program ID, or remove Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Account** - Optionally, enter an account number to include a specific Loyalty account on the report. Searching for an account here is not supported.

- **Serial Number** - Optionally, enter a card's Serial Number to include a specific Loyalty Account on the report based on Serial Number. Searching for a Serial Number here is not supported.
- **Activity Time Period** - Optionally, select a time period to include totals for cards created during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- Row Limit - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of accounts for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program ID** - The unique numeric identifier for the Program.
- **Program Name** - The Name describing the Program. For each account included on the report:
- **Program Level** - The unique numeric identifier for the current Program level for the account.

- **Program Level Name -** The Name describing the current Program level for the account.
- **Account ID -** The unique numeric identifier for the account.
- **Serial Number** - The unique serial number for the account.
- **Earned Points Balance -** The current total net earned points balance for the account.
- **Bonus Points Balance -** The current total net bonus points balance for the account.
- **Escrow Points Balance -** The current total net escrow points balance for the account.
- **Program Totals**:
  - **Earned Points Balance -** The current total net earned points balance for the accounts listed on the report for the Program.
  - **Bonus Points Balance -** The current total net bonus points balance for the accounts listed on the report for the Program.
  - **Escrow Points Balance -** The current total net escrow points balance for the accounts listed on the report for the Program.
- **Report Totals**:
  - **Earned Points Balance -** The current total net earned points balance for the accounts listed on the report.
  - **Bonus Points Balance -** The current total net bonus points balance for the accounts listed on the report.
  - **Escrow Points Balance -** The current total net escrow points balance for the accounts listed on the report.

Loyalty Activity Type Summary Report

This report presents summary information on accounts and Loyalty activity types associated with Program Levels on Loyalty Programs.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program ID, or remove Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name -** The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Type -** The type of activity performed for a Loyalty account. Optionally, select Search to work with the list of eligible types, search based on type, or remove types from the list selected for the report. Possible Activity Types are:
  - Account Merge
  - Activate Card
  - Award
  - Balance Transfer
  - Change Earn Date

  - Change Level
  - Deactivate Card
  - Earn Points
  - Expire Points - Inquiry
  - Point Recovery
  - Reset Expiration Date - Return
  - Sustain Extension
  - Void Transaction
- **Activity Time Period** - Optionally, select a time period to include totals for activities performed during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activities performed across all Programs and Levels included on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program ID** - The unique numeric identifier for the Program.
- **Program Name** - The Name describing the Program.
- For each activity type and Level included on the report:
  - **Program Level ID** - The unique numeric identifier for the Program Level.
  - **Program Level Name** - The Name describing the Program Level.
- **Activity Type** - The type of activity performed. Possible activity types include:
  - Account Merge
  - Activate Card
  - Award
  - Balance Transfer
  - Change Earn Date
  - Deactivate Card
  - Earn Points
  - Expire Points
  - Inquiry
  - Issue
  - Point Recovery
  - Reset Expiration Date
  - Return
  - Sustain Extension
  - Void Transaction
- **Number of Accounts** - The total number of accounts that had this type of activity for the Program Level during the date range.
- **Number of Points** - The total number of points for the activity type. Can be a negative number, such as for an award, or can be 0.00, such as for an inquiry.
- **Average Points** - The Number of Points / the Number of Accounts.
- **Program Totals**:
  - **Number of Accounts** - The total number of accounts that had this type of activity for all Program Levels
  - **Number of Points** - The total number of points for all included activities for the Program.
  - **Average Points** - The Number of Points / the Number of Accounts.
- **Report Totals**:
  - **Number of Accounts** - The total number of accounts included on the report.
  - **Number of Points** - The total number of points for all activities included on the report.
  - **Average Points** - The Number of Points / the Number of Accounts.

Loyalty Activity Type Trend Report

This report presents summary information on Accounts by Activity Type by business date, organized by Loyalty Program Level.

The report begins with three charts summarizing loyalty activity. One chart displays total activity counts for each date in the selected time period, another displays the number of points involved in the activities for each date, and the third displays average points for each date.

> **Note:**
>
> The charts on this report are useful only if you restrict the selection criteria to a single Program ID, Program Level ID, and Activity Type, so you can identify the totals for the type of activity. Otherwise, it would be difficult to determine the different totals for the same date but a different Program ID, Program Level ID, and Activity Type.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Type** - Codes identifying types of activity for a Loyalty account. All activity types are selected by default. Optionally, select Search to work with the list of eligible Activity Types, search based on Activity Type, or remove Activity Types from the list selected for the report. Possible Activity Types are:
  - Account Merge
  - Activate Card
  - Award
  - Balance Transfer
  - Change Earn Date
  - Change Level
  - Deactivate Card
  - Earn Points
  - Expire Points - Inquiry
  - Point Recovery

  - Reset Expiration Date - Return
  - Sustain Extension
  - Void Transaction
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of records by Business Date, Program Level, Activity Type, and Activity Date for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Program ID** - The numeric ID for a Loyalty Program selected when generating the report. Set to ALL if there was no restriction.
- **Program Level** - The numeric ID for a Loyalty Level selected when generating the report. Set to ALL if there was no restriction.
- **Activity Type** - The Activity Types selected when generating the report. Set to ALL if there was no restriction.

- **Number of Accounts Chart** - Displays the total number of Loyalty accounts for which there was activity for each date.

- **Business Date** - The business date when the activity type occurred for the Loyalty Program and Level.
- **Number of Accounts** - The total number of accounts that had this type of activity for the Program Level on this date.

- **Number of Points** - The total number of points for the activity type on this date. A negative number, such as for an award, is expressed as an absolute value.
- **Average Points** - The Number of Points / the Number of Accounts.
- **Totals for Activity Type**:
  - **Number of Accounts** - The total number of accounts that had this type of activity for the Program Level during this date range.
  - **Number of Points** - The total number of points for the activity type for this Program Level during this date range. A negative number, such as for an award, is expressed as an absolute value.
  - **Average Points** - The Number of Points / the Number of Accounts.
- **Totals for Program Level**:
  - **Number of Accounts** - The total number of accounts that had activity for the Program Level during this date range.
  - **Number of Points** - The total number of points for this Program Level during this date range. A negative number, such as for an award, is expressed as an absolute value.
  - **Average Points** - The Number of Points / the Number of Accounts.
- **Totals for Program**:
  - **Number of Accounts** - The total number of accounts that had activity for the Program.
  - **Number of Points** - The total number of points for all included activities for the Program.
  - **Average Points** - The Number of Points / the Number of Accounts.
- **Report Totals**:
  - **Number of Accounts** - The total number of accounts included on the report.
  - **Number of Points** - The total number of points for all activities included on the report. Calculated by adding absolute values.
  - **Average Points** - The Number of Points / the Number of Accounts.

Loyalty Issue Rule Impact Report

This report displays transaction level counts of merchandise associated with purchases against a Loyalty Issue Rule.

Selection Criteria

- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.

  After you make a Program ID / Name selection, clear the Loyalty Rule ID that is automatically selected as a result and reset Loyalty Rule IDs as needed.
- **Loyalty Rule ID / Name** - The ID and Name identifying a Rule that controls issuing points for a Loyalty Level. Optionally, select Search to work with the list of

eligible Rules, search based on Rule ID and Name, or remove Rules from the list selected for the report.

- **Activity Time Period -** Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date -** The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of transactions that triggered the application of a Rule included on the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Program Level ID** - The numeric IDs for Loyalty Levels selected when generating the report. Set to ALL if there was no restriction.
- **Loyalty Rule ID** - The numeric IDs for Rules selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Program Level ID** - The unique identifier for a Loyalty Program Level.

- **Loyalty Rule ID** - Description - The unique identifier for a Loyalty Rule that controls issuing points, and the Description of the Rule.
- **Item Dept ID** - The unique identifier for the Department associated with the Item on the transaction.
- **Item Class ID** - The unique identifier of the Item Class that further defines the Item on the transaction.
- **RTL Trans ID** - A unique identifier for the retail transaction, referencing the Location and Workstation as well as the transaction sequence number.
- **Number of Accounts -** The number of Accounts associated with the transaction ID. Typically set to 1.
- **Transaction Count** - The number of transactions associated with the transaction ID. Typically set to 1.
- **Item Extended Amount** - The extended selling price of the items on the transaction.
- **Totals for Rule**:
  - **Number of Accounts -** The number of Accounts associated with the transactions where the Rule was applied.
  - **Transaction Count -** The number of transactions where the Rule was applied.
  - **Item Extended Amount** - The total extended selling price of the items on the transactions.
- **Totals for Program Level ID**:
  - **Number of Accounts -** The number of Accounts associated with the transactions where a Rule for the Program Level was applied. If an Account was associated with multiple transactions for the Program, it is included for each transaction.
  - **Transaction Count** - The number of transactions where a Rule for the Program was applied.
  - **Item Extended Amount** - The total extended selling price of the items on the transactions.
- Report Total:
  - **Number of Accounts -** The number of Accounts for all transactions included on the report. If an Account was associated with multiple transactions on the report, it is included for each transaction.
  - **Transaction Count -** The number of transactions included on the report.
  - **Item Extended Amount** - The total extended selling price of the items on the transactions.

Loyalty Rules Results Summary Report

This reports displays summary account information by Activity Type for each Loyalty Rule. It is organized by Program levels within the Loyalty Programs

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Rule ID / Name** - The ID and Name identifying a Rule that controls issuing points for a Loyalty Level. Optionally, select Search to work with the list of eligible Rules, search based on Rule ID and Name, or remove Rules from the list selected for the report.
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:

  >
  > If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.
- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of activity types that triggered the application of a Rule included on the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program ID** - The unique numeric identifier for the Loyalty Program.
- **Program Name** - The Name describing the Loyalty Program.
- **Program Level ID** - The unique numeric identifier for the Loyalty Program Level.
- **Program Level Name** - The name describing the Loyalty Program Level.
- **Loyalty Rule ID** - The unique numeric identifier for the Loyalty Program Rule.
- **Loyalty Rule Name** - The name describing the Loyalty Program Rule.
- **Activity Type** - The type of activity that triggered the application of the Rule.
- **Number Of Accounts** - The number of Accounts for which the Rule was applied for the Activity Type.
- **Number of Points** - The total number of points applied through the Rule.
- **Average Points** - The Number of Points / the Number of Accounts.
- **Program Totals**:
  - **Number of Accounts** - The number of Accounts for which the Rule was applied for the Program.
  - **Number Of Points** - The total number of points applied for the Program.
  - **Average Points** - The Number of Points / the Number of Accounts.
- **Report Totals**:
  - **Number of Accounts** - The number of Accounts for all activities included on the report.
  - **Number Of Points** - The number of points for all Accounts and activities included on the report.
  - **Average Points** - The total Number of Points / the total Number of Accounts.

Loyalty Rules Results Trend Report

This report presents summary information on accounts by Activity Type by Activity Date for each Loyalty Rule. It is organized by Loyalty Program Level for each Loyalty Program.

The report begins with three charts illustrating loyalty rules results activity. One chart displays total number of accounts with rules activity for each date in the selected time period, another displays the number of points involved in the rules results activities for each date, and the third displays average points used for rules results for each date.

> **Note:**
>
> The charts on this report are useful only if you restrict the selection criteria to a single Program ID, Program Level ID, and Activity Type, so you can identify the totals for the type of activity. Otherwise, it would be difficult to determine the different totals for the same date but a different Program ID, Program Level ID, and Activity Type.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Type** - Codes identifying types of activity for a Loyalty account. All activity types are selected by default. Optionally, select Search to work with the list of eligible Activity Types, search based on Activity Type, or remove Activity Types from the list selected for the report. Possible Activity Types are:
  - Account Merge
  - Activate Card
  - Award
  - Balance Transfer
  - Change Earn Date
  - Change Level
  - Deactivate Card

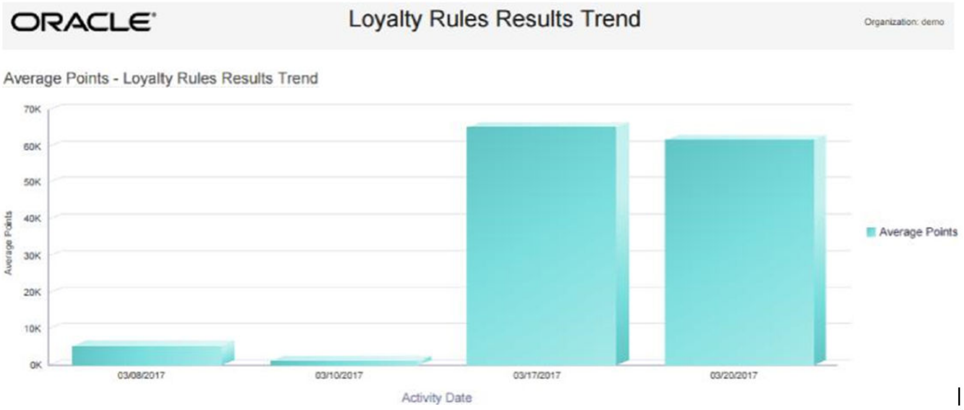
- **Average Points Chart** - Displays the average number of points involved in rules results for each date.

  Negative numbers are presented as absolute values. For example, if the Activity Type is Award, and the average amount of Points deducted is 100, the average amount of points depicted on this graph is 100 rather than -100.

Figure 12-19   Loyalty Rules Results Trend Report - Average Points Chart



The Report Contents detail information includes:

- **Program** - The unique numeric identifier for the Loyalty Program, and the Name describing the Loyalty Program.

For each Program Level:

- **Program Level ID** - Name - The unique numeric identifier for the Program Level, and the Name describing the Level.
- **Loyalty Rule ID** - The unique numeric identifier for the Loyalty Rule.
- **Description** - The name describing the Rule.
- **Activity Type** - The activity associated with the rule result. Possible Activity Types are:
  - Account Merge
  - Activate Card
  - Award
  - Balance Transfer
  - Change Earn Date
  - Change Level
  - Deactivate Card
  - Earn Points
  - Expire Points
  - Inquiry
  - Issue
  - Point Recovery
  - Reset Expiration Date
  - Return
  - Sustain Extension
  - Void Transaction
- **Activity Date** - The date when the activities took place.

- **Number of Accounts -** The number of Accounts involved in the rule results for the date, activity, and rule.
- **Number of Points -** The net total number of points involved in the rule results for the date, activity, and rule. Expressed as an absolute value.
- **Average Points -** The Number of Points / the Number of Accounts.
- **Totals for Rule**:
  - **Number of Accounts -** The number of Accounts involved in rule results for the rule.
  - **Number of Points -** The number of points involved in rule results for the rule.
  - **Average Points -** The Number of Points / the Number of Accounts.
- **Totals for Program Level**:
  - **Number of Accounts -** The number of Accounts involved in rule results for the Program Level.
  - **Number of Points -** The number of points involved in rule results for the Program Level.
  - **Average Points -** The Number of Points / the Number of Accounts.
- Totals for Program:
  - **Number of Accounts -** The number of Accounts involved in rule results for the Program.
  - **Number of Points -** The number of points involved in rule results for the Program.
  - **Average Points -** The Number of Points / the Number of Accounts.
- **Report Totals**:
  - **Number of Accounts -** The total number of Accounts involved in rule results on the report.
  - **Number of Points -** The total number of points involved in rule results on the report.
  - **Average Points -** The Number of Points / the Number of Accounts.

    An account can be included in the Number of Accounts totals more than once if, for example, multiple rules were applied for the account during the date range on the report.

Loyalty Account Balance Summary Report

This report presents summary information about the Loyalty Account balances, by Program Level, within each Program.

Selection Criteria

- **Program ID / Name -** The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.

- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Time Period** - Optionally, select a time period to include Loyalty Cards generated during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program** - The unique numeric identifier for the Loyalty Program, and the Name describing the Loyalty Program.
- **Program Level ID** - The unique numeric identifier for the Loyalty Program Level.
- **Program Level Name** - The Name describing the Loyalty Program Level.
- **Balance Range** - The range of balance totals categorizing the Loyalty Accounts for all generated Cards, including Cards not yet activated and Cards that have been activated and then deactivated. Possible ranges are:

  - **Balance Less Than 0** - Includes Accounts with negative balances.
  - **Balance Equals 0** - Includes Accounts whose balances are exactly 0.00.
  - **Balance Greater Than .01** - Includes Accounts whose balances are greater than 0.00, including Accounts with balances of .01.
- **Rolled-Up Earned Points Balance** - The total points balance for all Accounts included in the Balance Range.
- **Number Of Accounts** - The total number of Loyalty Accounts for all generated Cards in the Balance Range, including Cards not yet activated and Cards that have been activated and then deactivated.
- **Totals for Program Level**:
  - **Rolled-Up Earned Points Balance** - The total points balance for all Accounts for the Level.
  - **Number of Accounts** - The total number of Loyalty Accounts for all generated Cards for the Program Level, including Cards not yet activated and Cards that have been activated and then deactivated.
- **Totals for Program**:
  - **Rolled-Up Earned Points Balance** - The total points balance for all Accounts for the Program.
  - **Number of Accounts** - The total number of Loyalty Accounts for all generated Cards for the Program, including Cards not yet activated and Cards that have been deactivated.
- **Report Totals**:
  - **Rolled-Up Earned Points Balance** - The total points balance for all Accounts included in the totals on the report.
  - **Number of Accounts** - The total number of Loyalty Accounts for all generated Cards included in the totals on the report.

Loyalty Account Last Use Summary Report

This report presents Loyalty Account summary information within Loyalty Program Level, grouped by the number of months since last use date.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Time Period** - Optionally, select a time period to include Loyalty Cards generated during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week

  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program** - The unique numeric identifier for the Loyalty Program, and the Name describing the Loyalty Program.
- **Program Level ID** - The unique numeric identifier for the Loyalty Program Level.
- **Program Level Name** - The Name describing the Loyalty Program Level.
- **Last Use Interval** - The range of dates when there was most recently any activity for the Accounts. Possible intervals are:
  - Less Than 30 Days - Includes Cards that have not yet been activated.
  - 31 to 60 Days
  - 61 to 90 Days
  - Over 90 Days - Includes Cards that have been deactivated.
  - Never Used
- **Number Of Accounts** - The total number of Loyalty Accounts for all generated Cards for this Level in the Last Use Interval, including Cards not yet activated and Cards that have been deactivated.

- **Earned Points Balance -** The total points balance for all Accounts included in the Last Use Interval.
- **Average Earned Points Balance -** The Earned Points Balance / the Number of Accounts.
- **Totals for Program Level**:
  - **Number Of Accounts** - The total number of Loyalty Accounts for all generated Cards in the Program Level, including Cards not yet activated and Cards that have been deactivated.
  - **Earned Points Balance** - The total points balance for all Accounts for the Program Level.
  - **Average Earned Points Balance** - The Earned Points Balance / the Number of Accounts.
- **Totals for Program**:
  - **Number Of Accounts** - The total number of Loyalty Accounts for all generated Cards in the Program, including Cards not yet activated and Cards that have been deactivated.
  - **Earned Points Balance** - The total points balance for all Accounts for the Program.
  - **Average Earned Points Balance** - The Earned Points Balance / the Number of Accounts.
- Report Totals:
  - **Number Of Accounts** - The total number of Loyalty Accounts for all generated Cards included in the report totals.
  - **Earned Points Balance** - The total points balance for all Accounts included in the report totals.
  - **Average Earned Points Balance** - The Earned Points Balance / the Number of Accounts.

Loyalty Account Life Cycle Summary Report

This report presents summary information within a Loyalty Program Level, grouped by the number of months that the Accounts have been in use.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Time Period -** Optionally, select a time period to include Loyalty Cards with activity or transactions during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:

  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Activation Intervals for all Programs and Program Levels for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program** - The unique numeric identifier for the Loyalty Program, and the Name describing the Loyalty Program.
- **Program Level ID** - Name - The unique numeric identifier for the Loyalty Program Level, and the Name describing the Loyalty Program Level.
- **Activation Interval** - The time frame when the accounts were created. Possible time frames are:
  - Less Than 30 Days
  - 31 to 60 Days
  - 61 to 90 Days
  - Over 90 Days

- **Number of Accounts** - The total number of accounts for the Level and Activation Interval that have been activated. Includes accounts that have been activated and then deactivated.
- **Earned Points Balance** - The total balance of points for the accounts.
- **Average Earned Points Balance** - The Earned Points Balance / the Number of Accounts.
- **Totals for Program Level**:
  - **Number of Accounts** - The total number of accounts for the Program Level that have been activated. Includes accounts that have been activated and then deactivated.
  - **Earned Points Balance** - The total number of points for the accounts.
  - **Average Earned Points Balance** - The Earned Points Balance / the Number of Accounts.
- **Totals for Program**:
  - **Number of Accounts** - The total number of accounts for the Program that have been activated. Includes accounts that have been activated and then deactivated.
  - **Earned Points Balance** - The total number of points for the accounts.
  - **Average Earned Points Balance** - The Earned Points Balance / the Number of Accounts.
- **Report Totals**:
  - **Number of Accounts** - The total number of accounts included on the report that have been activated. Includes accounts that have been activated and then deactivated.
  - **Earned Points Balance** - The total number of points for the accounts.
  - **Average Earned Points Balance** - The Earned Points Balance / the Number of Accounts.

Loyalty Account Activity Summary Award Report

This report presents the earned points from Award rules, or paid points for Awards, by Loyalty Account, within a given period of time.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Time Period** - Optionally, select a time period to include Loyalty Cards with award transaction dates during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:

  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Account IDs for all Programs and Program Levels for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Program ID** - The numeric ID for the Loyalty Programs selected when generating the report. Set to ALL if there was no restriction.
- **Program Level** - The numeric ID for the Loyalty Levels selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Program** - The unique numeric identifier for the Loyalty Program, and the Name describing the Loyalty Program.
- **Program Level ID** - Name - The unique numeric identifier for the Loyalty Program Level, and the Name describing the Loyalty Program Level.
- **Account ID** - The unique numeric identifier for the account.
- **Earned Points** - The current total earned points balance for the account during the activity period, net of points used for awards.

- **Totals for Program Level** - The total Earned Points for the Program Level during the activity period.
- **Totals for Program** - The total Earned Points included on the report for the Program during the activity period.
- **Report Totals** - The total Earned Points included on the report for the activity period.

Loyalty Account Activity Summary Issue Report

This report presents the earned points from Issue rules, by Loyalty Account, within a given period of time.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Time Period** - Optionally, select a time period to include Loyalty Cards with issue transaction dates during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.
- Activity Start Date - The first date to include on the report. Defaults to the previous date (yesterday).

- Activity End Date - The last date to include on the report. Defaults to the current date (today).
- Row Limit - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Account IDs for all Programs and Program Levels for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Program ID** - The numeric ID for the Loyalty Programs selected when generating the report. Set to ALL if there was no restriction.
- **Program Level** - The numeric ID for the Loyalty Levels selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Program ID** - Name - The unique identifier for the Loyalty Program, and the Name describing the Loyalty Program.
- **Program Level ID** - Name - The unique identifier for the Loyalty Program Level, and the Name describing the Loyalty Program Level.
- **Account ID** - The unique numeric identifier for an account associated with any issue activity.
- **Activity Type** - Set to Issue.
- **Earned Points** - The total points issued for the account for the date range. Not net of points used for level changes or awards.
- **Totals for Program Level** - The total Earned Points for the Program Level for the date range. Not net of points used for level changes or awards.
- **Totals for Program** - The total Earned Points included on the report for the Program for the date range. Not net of points used for level changes or awards.
- **Report Totals** - The total Earned Points included on the report. Not net of points used for level changes or awards.

Loyalty Program Level Summary Report

This report presents the current balance statistics for Program Levels within Programs.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Loyalty Program for a Card Definition. All Loyalty Programs are selected by default. Optionally, select Search to work with the list of eligible Loyalty Programs, search based on Loyalty Program Name, or remove Loyalty Programs from the list selected for the report.

  After you make a Program ID / Name selection, clear the Program Level ID that is automatically selected as a result and reset Program Level IDs as needed.

- **Program Level ID / Name** - The ID and Name identifying a Level for a Loyalty Program. Optionally, select Search to work with the list of eligible Levels, search based on Level ID and Name, or remove Levels from the list selected for the report.
- **Activity Time Period** - Optionally, select a time period to include Loyalty Cards that were generated during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Program Levels for all Programs for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program** - The unique identifier for the Loyalty Program, and the Name describing the Loyalty Program.
- **Program Level ID** - The unique numeric identifier for the Loyalty Program Level.
- **Program Level Name** - The Name describing the Loyalty Program Level.

- **Number of Accounts** - The total number of cards generated during the date range that are currently at this Program Level.
- **Total Earned Point Balance** - The total current net earned points for all accounts generated during the date range that are currently at this Program Level.
- **Total Bonus Point Balance** - The total current net bonus points applied for all accounts generated during the date range that are currently at this Program Level.
- **Total Escrow Point Balance** - The total current net escrow points for all accounts generated during the date range that are currently at this Program Level.
- **Average Earned Balance** - The Total Earned Point Balance / the Number of Accounts.
- **Average Bonus Balance** - The Total Bonus Point Balance / the Number of Accounts.
- **Average Escrow Balance** - The Total Escrow Point Balance / the Number of Accounts.
- **Totals for Program**:
  - **Number of Accounts** - The total number of cards generated during the date range for the Program.
  - **Total Earned Point Balance** - The total current net earned points for all accounts generated during the date range for the Program.
  - **Total Bonus Point Balance** - The total current net bonus points applied for all accounts generated during the date range for the Program.
  - **Total Escrow Point Balance** - The total current net escrow points for all accounts generated during the date range for the Program.
  - **Average Earned Balance** - The Total Earned Point Balance / the Number of Accounts.
  - **Average Bonus Balance** - The Total Bonus Point Balance / the Number of Accounts.
  - **Average Escrow Balance** - The Total Escrow Point Balance / the Number of Accounts.
- Report Totals:
  - **Number of Accounts** - The total number of cards included on the report.
  - **Total Earned Point Balance** - The total current net earned points for all accounts included on the report.
  - **Total Bonus Point Balanc**e - The total current net bonus points applied for all accounts included on the report.
  - **Total Escrow Point Balanc**e - The total current net escrow points for all accounts included on the report.
  - **Average Earned Balance** - The Total Earned Point Balance / the Number of Accounts.
  - **Average Bonus Balance** - The Total Bonus Point Balance / the Number of Accounts.
  - **Average Escrow Balance** - The Total Escrow Point Balance / the Number of Accounts.

Segment Management Reports

The Segment Management Reports include:

- N-Tile / Range Strata Report
- Segment by Home Location Report
- Segment by State Report
- Segment Count List Report
- Segment Customer Master Report
- Segment Purchase Profile Report
- Segment Trend Analysis Report

N-Tile / Range Strata Report

This report presents details on Customer Segments broken out by strata.

Selection Criteria

- **Segment ID / Name** - The ID and Name identifying a Customer Segment. All eligible Segments are selected by default. Optionally, select Search to work with the list of eligible Segments, search based on Segment Name, or remove Segments from the list selected for the report. Only Public Stratified Segments with a Customer Count > 0 are eligible for selection.
- **Save List Flag** - Optionally, select Yes or No to have the report include Segments based on whether the Save as List flag was selected at Segment creation. Set to All by default.
- **Trended Flag** - Optionally, select Yes or No to have the report include Segments based on whether the Trend Results? flag was selected at Segment creation.
- **Activity Time Period** - Optionally, select a time period to include Segments run during this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Start Segment Run Date and End Segment Run Date criteria are ignored.

- **Start Segment Run Date -** The first date to include on the report. Defaults to the previous date (yesterday).
- **End Segment Run Date -** The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of levels for all runs of all Segment Strata for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range -** The date range selected when generating the report.
- **Segment ID -** The numeric ID for the Segments selected when generating the report. Set to ALL if there was no restriction.
- **Save List Flag** - Indicates if a Save List Flag setting of Yes or No was selected when generating the report. Set to ALL if there was no restriction.
- **Trended Flag** - Indicates if a Trended Flag setting of Yes or No was selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Segment -** The unique numeric identifier for the Segment and the Name describing the Segment.
- **Run ID -** The unique numeric identifier for a run of the Segment. Each Run is numbered sequentially, starting with a Run ID of 0.
- **Strata Type -** Either Range Strata or N-Tile.
- **Segment Count -** The number of Customer records included in the Segment.
- **Strata Level ID -** Name - The unique numeric identifier of the stratum and the Name describing the stratum.
- **Save List Flag and Trended Flag -** Indicates the settings of the Save as List flag and the Trend Results? flag specified at Segment creation.
- **Min Value and Max Value -** Depending on whether this is an N-Tile or Range Strata Segment:
  - **N-Tile -** The minimum and maximum values determined by the system when splitting the Segment into strata.
  - **Range Strata -** The Range From and Range To values specified when the Segment was created.

For example, if the Segment is stratified based on Annual Income, these are the minimum and maximum Annual Income totals qualifying Customers for assignment to this stratum.

- **Percent Total** - The percentage of the Segment Count that consists of the Customers in this stratum: Stratified Customer Count / Segment Count, presented as a percentage.
- **Run Date** - The date when the Run took place.
- **Stratified Customer Count** - The total number of Customer records in the stratum.
- **Totals for Run** - The total Segment Count for the Run included on the report.
- **Totals for Segment** - The total Segment Count included on the report.
- **Report Totals** - The total Segment Count for all Segments included on the report.

Segment by Home Location Report

This report presents a count of Customers, by their Home Locations, for Customer Segments.

Customers who are not assigned to a Home Location are not included in the totals on the report.

Selection Criteria

- **Segment ID / Name -** The ID and Name identifying a Customer Segment. All eligible Segments are selected by default. Optionally, select Search to work with the list of eligible Segments, search based on Segment Name, or remove Segments from the list selected for the report. Only Segments that have at least one Customer with an address are eligible for selection.
- **Time Period** - Optionally, select a time period to include Segments run during this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. For manual Segments, the time period applies to when the Customers were added to the Segments. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Start Segment Run Date and End Segment Run Date criteria are ignored.

- **Start Segment Run Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **End Segment Run Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of home location/ segment combinations for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Segment Name** - The numeric ID for the Segments selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Segment ID** - Name - The unique numeric identifier for the Segment and the Name describing the Segment.
- **Home Location** - The Home Location specified for any Customers in the Segment, prefixed by Store Location.
- **Location Name** - The Name describing the Home Location.
- **Customer Count** - The number of Customers assigned to this Home Location for the Segment.
- **Totals for Segment** - The total number of Customers in the Segment assigned to Home Locations.
- **Report Totals** - The total Customer Count for all Segments included on the report.

Segment by State Report

This report presents a count of Customers, by the states or provinces for each primary or non-primary address, for each Customer Segment.

Customers who are not assigned to any address are not included in the totals on the report.

Selection Criteria

- **Segment ID / Name** - The ID and Name identifying a Customer Segment. All eligible Segments are selected by default. Optionally, select Search to work with the list of eligible Segments, search based on Segment Name, or remove Segments from the list selected for the report. Only Segments that have at least one Customer with an address are eligible for selection.

- **Time Period** - Optionally, select a time period to include Segments run during this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. For manual Segments, the time period applies to when the Customers were added to the Segments. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, the Start Segment Run Date and End Segment Run Date criteria are ignored.

- **Start Segment Run Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **End Segment Run Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of states or provinces for all Segments for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Segment Name** - The numeric ID for the Segments selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Segment ID** - Name - The unique numeric identifier of the Segment and the Name describing the Segment.

- **State** - The name of the state or province where Customers in the Segment have addresses.
- **Customer Count** - The number of Customer addresses in this state for the Segment. Includes both primary and non-primary addresses.
- **Totals for Segment** - The total number of Customer addresses for the Segment.
- **Report Totals** - The total Customer Count for all Segments included on the report.

Segment Count List Report

This report presents the details of each Segment run within a specified time period.

Stratified and unstratified Segments that have not been run during the selected time period are not included on the report.

Selection Criteria

- **Segment ID / Name** - The ID and Name identifying a Customer Segment. All eligible Segments are selected by default. Optionally, select Search to work with the list of eligible Segments, search based on Segment Name, or remove Segments from the list selected for the report. Only Segments that have at least one Customer with an address are eligible for selection.
- **Time Period** - Optionally, select a time period to include Segments run during this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, the Start Segment Run Date and End Segment Run Date criteria are ignored.

- **Start Segment Run Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **End Segment Run Date** - The last date to include on the report. Defaults to the current date (today).

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Segment ID** - The numeric ID for the Segments selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Segment ID** - Name **-** The unique numeric identifier for the Segment and the Name describing the Segment.
- **Save List Option** - Indicates the settings of the Save as List flag specified at Segment creation.
- **Trended Flag** - Indicates the settings of the Trend Results? flag specified at Segment creation.
- **Last Run Date** - The last date when the Segment was run. Set to N/A for manual Segments.
- **Run Count** - The number of times when a segment was run. This count does not apply for a manual Segment, although a Run Count might be listed.
- **Customer Count** - The total number of Customers in the Segment.
- **Report Totals**:
  - **Run Count** - The total Run Count for all Segments listed on the report.
  - **Customer Count** - The total number of Customers in all Segments listed on the report.

Segment Customer Master Report

This report presents a listing of information about the Customers in each Segment. Only Customers that have primary email, phone, and mailing addresses are included on the report.

Selection Criteria

- **Segment ID / Name** - The ID and Name identifying a Customer Segment. All Segments that include at least one Customer are selected by default. Optionally, select Search to work with the list of Segments, search based on Segment Name, or remove Segments from the list selected for the report. Only Segments that have at least one Customer are eligible for selection.
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Customers for all Segments for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Segment ID** - The numeric ID for the Segments selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Segment ID** - The unique numeric identifier for the Segment and the Name describing the Segment.
- **Run ID** - This field is not currently implemented.
- **Cust ID -** Name - The unique numeric identifier for the Customer, and the Customer's first and last name.
- **Gender** - The Customer's gender, if known; otherwise, set to N/A.
- **Active Flag** - Set to Yes unless the Customer has been flagged as inactive.
- **Street, City, State -** The street address, city, and state or province for the Customer's primary mailing address.
- **Postal Code -** The postal or Zip code for the Customer's primary mailing address.
- **Phone Number** - The Customer's primary phone number.
- **Email** - The Customer's primary email address.
- **Home Location** - The unique numeric code for the Customer's Home Location, if any.
- **Birth Date** - The Customer's birth date, if known.
- **SignUp Date -** The date when the Customer record was created.
- **First Trans Date** - The date of the Customer's first recorded transaction, if any; otherwise, set to N/A.
- **Last Trans Date** - The date of the Customer's most recently recorded transaction, if any; otherwise, set to N/A.
- **Total Return Item Count Dollars** - The total extended merchandise value of returned items from the Customer's transaction history. Rounded to the nearest whole number.
- **Total Sale Item Count Dollars** - The total extended merchandise value of sold items from the Customer's transaction history. Rounded to the nearest whole number.
- **Total Trans Count -** The total number of individual transactions from the Customer's transaction history. Each transaction can include multiple items.
- **Total Profit Percent** - The total Sale Item Count Dollars - the total extended Unit Cost of the items on the transactions / the total Sale Item Count Dollars. Presented as a percentage with a two-position decimal.
- **YTD Return Item Count Dollars -** The total extended merchandise value of returned items for the Customer's transactions during the current year. Rounded to the nearest whole number.
- **YTD Sale Item Count Dollars -** The total extended merchandise value of sold items from the Customer's transactions during the current year. Rounded to the nearest whole number.

- **YTD Profit Percent** - The total YTD Sale Item Count Dollars - the total extended unit cost of the items on the transactions / the total YTD Sale Item count Dollars. Presented as a percentage with a two-position decimal.

Segment Purchase Profile Report

This report presents counts, by Segment, of individual items purchased.

Segments that have not had purchases during the selected time period are not included on the report.

Selection Criteria

- **Segment ID / Name -** The ID and Name identifying a Customer Segment. All eligible Segments are selected by default. Optionally, select Search to work with the list of eligible Segments, search based on Segment Name, or remove Segments from the list selected for the report.
- **Purchase Activity Time Period** - This criterion is not implemented for this report. All purchases for the selected Segment are eligible for inclusion, regardless of activity date.
- **Purchase Activity Start Date -** This criterion is not implemented for this report.
- **Purchase Activity End Date** - This criterion is not implemented for this report.
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of items for all Segments for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Segment ID** - The numeric ID for the Segments selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Segment ID** - Name - The unique numeric identifier of the Segment and the Name describing the Segment.
- **Item Class** - The code identifying the Class for the item.
- **Item Sub Class** - The code identifying the Sub Class for the item.
- **Item ID** - The unique identifier for the item.
- **Item Description** - The description of the item.
- **Customer Count** - The number of Customers within the Segment that purchased the item.
- **Transaction Count** - The total number of transactions in which Customers in the Segment purchased the item.
- **Item Quantity -** The total quantity of the item purchased by Customers in the Segment.

- **Item Extended Amount** - The total extended amount paid for all units of the item sold to Customers in the Segment.
- **Units per Transaction** - The average number of units of the item purchased in a transaction by a Customer in the Segment.
- **Totals for Item Class**:
  - **Customer Count** - The total number of Customers within the Segment that purchased any items in the Item Class.
  - **Transaction Count** - The total number of transactions in which Customers in the Segment purchased items in the Item Class.
  - **Item Quantity** - The total quantity of items in the Item Class purchased by Customers in the Segment.
  - **Item Extended Amount** - The total extended amount paid for all items in the Item Class sold to Customers in the Segment.
  - **Units per Transaction** - The average number of units in the Item Class purchased in a transaction by a Customer in the Segment. Rounded to the nearest whole number.
- **Totals for Segment**:
  - **Customer Count** - The total number of Customers within the Segment that purchased any items.
  - **Transaction Count** - The total number of transactions in which Customers in the Segment purchased items.
  - **Item Quantity** - The total quantity of items purchased by Customers in the Segment.
  - **Item Extended Amount** - The total extended amount paid for all items sold to Customers in the Segment.
  - **Units per Transaction** - The average number of units in purchased in a transaction by a Customer in the Segment. Rounded to the nearest whole number.
- **Report Totals**:
  - **Customer Count** - The total number of Customers included on the report.
  - **Transaction Count** - The total number of transactions included on the report.
  - **Item Quantity** - The total quantity of purchased items included on the report.
  - **Item Extended Amount** - The total extended amount paid for all items included on the report.
  - **Units per Transaction** - The average number of units purchased in a transaction. Rounded to the nearest whole number.

Segment Trend Analysis Report

This report presents trend totals for Customer Segments broken out by Run ID.

The report includes two charts illustrating trend totals for Customer Segments. One chart displays total Customer counts for each Run ID for a Segment, while the other displays total Customer counts for the strata within a Segment.

> **Note:**
>
> The charts on this report are useful only if you restrict the selection criteria to a single Customer Segment, so you can identify the totals for the Segment Run IDs and strata. Otherwise, it would be difficult to determine the different totals for multiple Customer Segments.

Selection Criteria

- **Segment ID / Name** - The ID and Name identifying a Customer Segment. All eligible Segments are selected by default. Optionally, select Search to work with the list of eligible Segments, search based on Segment Name, or remove Segments from the list selected for the report. Only Stratified Segments that have Trend Results? selected and have a Customer Count > 0 are eligible for selection.
- **Save List Flag** - Optionally, select Yes or No to have the report include Segments based on whether the Save as List flag was selected at Segment creation. Set to All by default.
- **Activity Time Period** - Optionally, select a time period to include Segments run during this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

  > **Note:**
  >
  > If you select an Activity Time Period, the Start Segment Run Date and End Segment Run Date criteria are ignored.

- **Start Segment Run Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **End Segment Run Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Run IDs for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

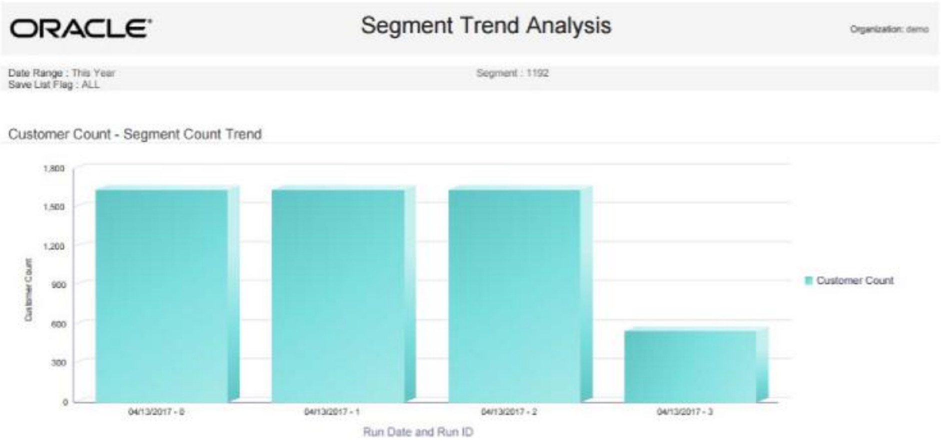
The report does not include any content for Customer Segments that do not have the Save as List flag selected.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Segment ID** - The numeric ID for the Segments selected when generating the report. Set to ALL if there was no restriction.
- **Save List Flag** - Indicates if a Save List Flag setting of Yes or No was selected when generating the report. Set to ALL if there was no restriction.
- **Customer Count** - Segment Count Trend Chart - Displays the total number of Customers included in the Segment for each Run ID. The date and Run ID are indicated as shown in Figure 12-20.

Figure 12-20 Segment Trend Analysis Report - Customer Count - Segment Count Trend Chart



Segment Trend Analysis

Organization: demo

Date Range : This Year
Save List Flag : ALL

Segment : 1192

Customer Count - Segment Count Trend

An additional chart follows the Detail Information for the Segment Count Trend chart.

The Segment Count Trend chart detail information includes:

- **Segment ID** - Name - The unique numeric identifier for and the Name describing the Segment.

For each Run ID:

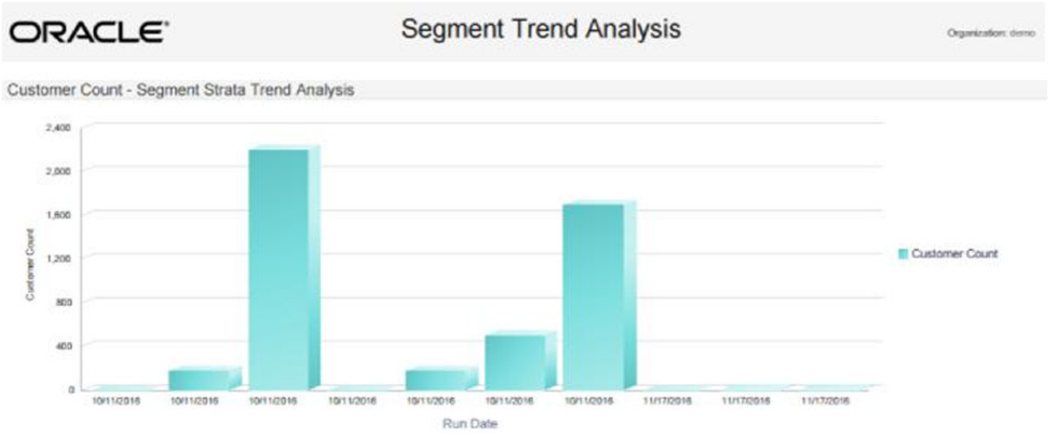
- **Save List Flag** - The setting of the Save List flag for the Segment. Always set to Yes for all Run IDs. The report does not include any data for a Segment that does not have the Save List flag selected.
- **Run ID** - A sequence number identifying the Run for the Segment. Each Run is numbered sequentially, starting with a Run ID of 0.
- **Run Date** - The date when the Run was generated.
- **Customer Count** - The number of Customers in the Segment after processing the Run.

- **Totals for Segment** - The total number of Customers for all Runs.
- **Report Totals** - The total number of Customers for all Runs of all Segments included on the report.

An additional chart follows this detail information.

- **Customer Count** - Segment Strata Trend Analysis Chart - Displays the total number of Customers included in each stratum for the Segment for each Run ID. The date and Run ID are indicated in Figure 12-21.

Figure 12-21   Segment Trend Analysis Report - Customer Count - Segment Strata Trend Analysis Chart



The Segment Strata Trend Analysis chart detail information for each Run ID includes:

- **Segment ID** - Name - The unique numeric identifier for and the Name describing the Segment.
- **Save List Flag** - The setting of the Save List flag for the Segment. Always set to Yes. The report does not include any data for a Segment that does not have the Save List flag selected.
- **Run ID** - A sequence number identifying the Run for the Segment. Each Run is numbered sequentially, starting with a Run ID of 0.

For each stratum in the Segment from the Run ID:

- **Run Date** - The date when the Run was generated. The same date is listed for all strata in the Run.
- **Strata Min Value** - The minimum value for a Customer to be included in the stratum. Based on the Field to Stratify On selected for the Segment.
- **Strata Max Value** - The maximum value for a Customer to be included in the stratum. Based on the Field to Stratify On selected for the Segment.
- **Strata Average Value** - The average value for all Customers in the stratum: the total Value / the Stratified Customer Count.
- **Stratified Customer Count** - The total number of Customers in the stratum.

  The report may include an extra stratum with a Strata Min Value, Strata Max Value, Strata Average Value, and Stratified Customer Count of 0.
- **Totals for Run** - The total number of Customers for all Strata in the Run.

- **Totals for Segment** - The total number of Customers for all Runs for the Segment included on the report.
- **Report Totals** - The total number of Customers for all Runs for all Segments included on the report.

Tender Account Management Reports

The Tender Account Management Reports include:

- Tender (Account) Activity Summary Report
- Tender Activity Summary by Batch Report
- Tender Activity Type Trend Report

Tender (Account) Activity Summary Report

This report displays tender summary information by Activity Type, by Program.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Tender Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Transaction Type** - Codes identifying types of activity for a Tender account. All Transaction Type codes are selected by default. Optionally, select Search to work with the list of eligible Transaction Type Codes, search based on Transaction Type Code, or remove Transaction Type Codes from the list selected for the report. Possible Transaction Type Codes include:
  - Activate Card
  - Card Merge
  - Cash Out
  - Change Acct Expiration Date
  - Change Pin Authentication
  - Deactivate
  - Errors
  - Inquiry
  - Post Authorization
  - Pre Authorization
  - Redemption
  - Release Authorization
  - Reload
  - Replace
  - Reset Expiration Date
  - Return

  - Reverse Transaction
  - Service Charge
  - Unblock
  - Verify Pin Authentication
  - Void Transaction
- **Void Flag** - Optionally, select Yes or No to select Tender account activity based on whether the activity was voided.
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Transaction Types and Void Flag settings for any Program ID for the entire report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

The Report Contents detail information includes:

- **Program ID** - The unique numeric identifier for the Tender Program.

- **Program Name** - The Name describing the Tender Program. For each Transaction Type that occurred for the Program:
- **Transaction Type** - The type of Transaction performed. Possible Transaction Type Codes:
  - Activate Card
  - Card Merge
  - Cash Out
  - Change Acct Expiration Date
  - Change Pin Authentication
  - Deactivate
  - Errors
  - Inquiry
  - Post Authorization
  - Pre Authorization
  - Redemption
  - Release Authorization
  - Reload
  - Replace
  - Reset Expiration Date
  - Return
  - Reverse Transaction
  - Service Charge
  - Unblock
  - Verify Pin Authentication
  - Void Transaction
- **Void Flag** - Indicates that a transaction has been voided. The record for the original transaction remains, and separate voided and unvoided totals are listed. For example, if a Card Reload is voided, the totals for unvoided Card Reloads are not increased, but the totals for voided Card Reloads are increased.
- **Transaction Count** - The total number of transactions for the Transaction Type.
- **Activity Amount** - The total value of transactions for the Transaction Type.
- **Average Amount** - The Activity Amount / the Transaction Count.
- **Program Totals**:
  - **Transaction Count** - The total of the Transaction Counts for the Program.
  - **Activity Amount** - The total value of Activity Amounts for the Program.
  - **Average Amount** - The total Activity Amount / the total Transaction Count for the Program.
- **Report Totals**:
  - **Transaction Count** - The total value of Transaction Counts on the report.

  - **Activity Amount** - The total value of Activity Amounts on the report.
  - **Average Amount** - The total Activity Amount / the total Transaction Count on the report.

Tender Activity Summary by Batch Report

This report displays tender summary information organized by Card Prefix, Series, and Batch, for Activity Types, by Program.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Tender Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Transaction Type** - Codes identifying types of activity for a Tender account. All Transaction Type codes are selected by default. Optionally, select Search to work with the list of eligible Transaction Type Codes, search based on Transaction Type Code, or remove Transaction Type Codes from the list selected for the report. Possible Transaction Type Codes include:
  - Activate Card
  - Card Merge
  - Cash Out
  - Change Acct Expiration Date
  - Change Pin Authentication
  - Deactivate
  - Errors
  - Inquiry
  - Post Authorization
  - Pre Authorization - Redemption
  - Release Authorization
  - Reload
  - Replace
  - Reset Expiration Date
  - Return
  - Reverse Transaction
  - Service Charge - Unblock
  - Verify Pin Authentication
  - Void Transaction
- **Card Prefix** - The prefix number defined for a Card Definition. All Prefixes are selected by default. Optionally, select Search to work with the list of eligible Prefixes, search based on Prefixes, or remove Prefixes from the list selected for the report.

- **Card Series Sequence -** The Card Series Sequence defined for a Card Series. All Sequence numbers are selected by default. Optionally, select Search to work with the list of eligible Sequence numbers, search based on Sequence numbers, or remove Sequence numbers from the list selected for the report.
- **Batch Number -** The Card Generation Batch Number defined for a batch. All Batch Numbers are selected by default. Optionally, select Search to work with the list of eligible Batch Numbers, search based on Batch Numbers, or remove Batch Numbers from the list selected for the report.
- **Void Flag** - Optionally, select Yes or No to select Tender account activity based on whether the activity was voided.
- **Activity Time Period -** Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date -** The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date -** The last date to include on the report. Defaults to the current date (today).
- **Row Limit -** Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Transaction Types for any Program ID, Series, and Batch, for the entire report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range -** The date range selected when generating the report.

The Report Contents detail information includes:

- **Program ID** - The unique numeric identifier for the Tender Program.
- **Program Name** - The Name describing the Tender Program.
- **Card Prefix** - The Prefix number defined for the Card.
- **Card Series** - The number identifying the Card Series.
- **Card Batch** - The number identifying the Card Batch.
- For each Transaction Type that occurred for the Program, Card Prefix, Series, and Batch:

  Transaction Type - The type of Transaction performed. Possible Transaction Type Codes:
  - Activate Card
  - Card Merge
  - Cash Out
  - Change Acct Expiration Date
  - Change Pin Authentication
  - Deactivate
  - Errors
  - Inquiry
  - Post Authorization
  - Pre Authorization - Redemption
  - Release Authorization
  - Reload
  - Replace
  - Reset Expiration Date - Return
  - Reverse Transaction
  - Service Charge - Unblock
  - Verify Pin Authentication
  - Void Transaction
- **Transaction Count** - The total number of transactions for the Transaction Type.
- **Activity Amount** - The total value of transactions for the Transaction Type.
- **Average Amount** - The Activity Amount / the Transaction Count.
- **Program Totals**:
  - **Transaction Coun**t - The total of the Transaction Counts for the Program.
  - **Activity Amount** - The total value of Activity Amounts for the Program.
  - **Average Amount** - The total Activity Amount / the total Transaction Count for the Program.
- **Report Totals**:
  - **Transaction Count** - The total value of Transaction Counts on the report.
  - **Activity Amount** - The total value of Activity Amounts on the report.

  - **Average Amount** - The total Activity Amount / the total Transaction Count on the report.

Tender Activity Type Trend Report

This report displays tender summary information organized by Card Prefix, Series, and Batch, for Activity Types, by Program.

The totals for all Tender Programs with the same Activity Type, Void Flag setting, and Business Date are combined in the charts at the beginning of the report.

The report begins with three charts illustrating tender type activity. Each chart is described in the following sections.

> **Note:**
>
> The charts on this report are useful only if you restrict the selection criteria to a single Transaction Type and Void Flag setting, so you can identify the totals for Transaction Type activity. Otherwise, it would be difficult to determine the different totals for the same date but a different Transaction Type or Void Flag setting. You can also restrict the report by Program ID.

Selection Criteria

- **Program ID / Name** - The ID and Name identifying a Tender Program for a Card Definition. All Programs are selected by default. Optionally, select Search to work with the list of eligible Programs, search based on Program Name, or remove Programs from the list selected for the report.
- **Transaction Type** - Codes identifying types of activity for a Tender account. All Transaction Type codes are selected by default. Optionally, select Search to work with the list of eligible Transaction Type Codes, search based on Transaction Type Code, or remove Transaction Type Codes from the list selected for the report. Possible Transaction Type Codes include:
  - Activate Card
  - Card Merge
  - Cash Out
  - Change Acct Expiration Date
  - Change Pin Authentication
  - Deactivate
  - Errors
  - Inquiry
  - Post Authorization
  - Pre Authorization
  - Redemption
  - Release Authorization

  - Reload
  - Replace
  - Reset Expiration Date - Return
  - Reverse Transaction
  - Service Charge
  - Unblock
  - Verify Pin Authentication
  - Void Transaction
- **Void Flag** - Optionally, select Yes or No to select Tender account activity based on whether the activity was voided.
- **Activity Time Period** - Optionally, select a time period to include activities that occurred during this period on the report rather than entering an Activity Start Date or Activity End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> If you select an Activity Time Period, the Activity Start Date and Activity End Date criteria are ignored.

- **Activity Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Activity End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of Transaction Types, Void Flag settings, and activity dates for the entire report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.

- **Date Range** - The date range selected when generating the report.
- **Transaction Type** - The transaction types selected when generating the report, or set to ALL if there was no restriction.
- **Program ID** - The program IDs selected when generating the report, or set to ALL if there was no restriction.
- **Void Flag** - The void flag setting selected for the report. Set to ALL if there was no restriction.
- **Transaction Count Chart** - Displays the total Transaction Count for each Business Date where the Transaction Type and Void Flag setting are the same.

  - **Average Amount -** The total Activity Amount / the total Transaction Count on the report.

Registry Management Reports

The Registry Management Reports include:

- Registry Detail Report

Registry Detail Report

This report presents detailed information for Gift Registries or Wish Lists.

Selection Criteria

- **Customer ID / Name -** The ID and Name identifying a Customer. All Customers are selected by default. Optionally, select Search to work with the list of eligible Customers, search based on Customer Name, or remove Customers from the list selected for the report. Only Customers selected with a Gift Registry or Wish List are available for selection.

  After you make a Customer ID / Name selection, clear the Registry ID that is automatically selected as a result and reset Program Level IDs as needed.
- **Registry Type** - The type of Registry: Gift Registry or Wish List. Both types are selected by default. Optionally, remove a type or Registry to exclude it from the report.

After you make a Registry Type selection, clear the Registry ID / Name that is automatically selected as a result and reset Registry IDs as needed.

- **Registry ID / Name** - The ID and Name identifying a Gift Registry or Wish List. All Registries and Wish Lists are selected by default. Optionally, select Search to work with the list of Registries and Wish Lists, search based on Registry or Wish List Name, or remove Registries or Wish Lists from the list selected for the report.
- **Registry Event Date Range** - Optionally, select a time period to include Gift Registries scheduled during this period or Wish Lists created during this period on the report rather than entering an Registry Event Start Date or Registry Event End Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week
  - This Month
  - This Year

> **Note:**
>
> Gift Registries scheduled for future dates are not included in any of these time periods. To include Gift Registries for future dates, use the Registry Event Start Date and Registry Event End Date options to select a date range that includes the scheduled date for the future Gift Registry.
>
> If you select a Registry Event Time Period, the Registry Event Start Date and Registry Event End Date criteria are ignored.

- **Registry Event Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Registry Event End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. This limit applies to the total number of items for all Registries for the entire report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.

- **Customer ID** - The numeric ID for the Customers selected when generating the report. Set to ALL if there was no restriction.
- **Registry ID** - The numeric ID for the Registries or Wish Lists selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Primary Customer ID** - The unique numeric identifier for a Customer.
- **Registry ID** - Name - The unique numeric identifier for a Registry or Wish List, and the Name describing the Registry or Wish List.
- **Event Date** - The date for an Item Registry. Set to N/A for a Wish List. Repeated for each Item for the Registry.
- **Venue Name and Venue Address** - The Venue Name and Address for an Item Registry. Set to N/A for a Wish List. Repeated for each Item for the Registry.
- **First Name and Last Name** - The primary Customer's first and last name. Repeated for each Item for the Registry or Wish List.
- **Email Address and Phone Number** - The primary Customer's email address and phone number, as specified for the Registry or Wish List. Not from the current primary email address and phone from the Customer record. Set to N/A if not specified.
- **Address** - The primary Customer's address, as specified for the Registry or Wish List. Not from the current primary address from the Customer record. Set to N/A if not specified.
- **Item ID** - Name - The ID and Name of the Item on the Registry or Wish List.
- **Desired Quantity** - The desired quantity of the Item.
- **Purchased Quantity** - The purchased quantity of the Item.
- **Totals for Registry**:
  - **Desired Quantity** - The total desired quantity of all Items on the Registry or Wish List that are included on the report.
  - **Purchased Quantity** - The total purchased quantity of all Items on the Registry or Wish List that are included on the report.
- **Report Totals**:
  - **Desired Quantity** - The total desired quantity of all Items included on the report.
  - **Purchased Quantity** - The total purchased quantity of all Items included on the report.

Task Management Reports

The Task Management Reports include:

- Associate Task Details Report
- Associate Task Summary Report
- Task Status Summary Report

Associate Task Details Report

This report presents details on customer targeted tasks, by the associate assigned to them.

Selection Criteria

- **Location ID / Name** - The ID and Name identifying a retail Location where Tasks might be assigned. All Locations are selected by default. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.

  If you select a Location ID, additional criteria may be selected automatically. If needed, set any remaining criteria to All to avoid restricting the report results to those that match the automatically selected criteria.
- **Task Type** - Codes identifying types of Tasks. All Task Types are selected by default. Optionally, select Search to work with the list of eligible Task Types, search based on Task Type, or remove Task Types from the list selected for the report. Task Types include:
  - ADMIN
  - APPOINTMENT
  - EVENT
  - TASK
  - TODO
- **Associate ID / Name** - The user ID and name of the Associate assigned to the Task. All Associates are selected by default. Optionally, select Search to work with the list of eligible Associates, search based on Associate Name, or remove Associates from the list selected for the report.
- **Task Time Period** - Optionally, select a time period to include Tasks scheduled for dates in this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week (excludes future dates)
  - This Month (excludes future dates)
  - This Year (excludes future dates)

> **Note:**
>
> If you select a Task Time Period, the Task Start Date and Task End Date criteria are ignored.

- **Task Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Task End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of Tasks to include on the report.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Location ID** - The Location IDs, if any, selected when generating the report. Set to ALL if there was no restriction.
- **Task Type** - The Task Types, if any, selected when generating the report. Set to ALL if there was no restriction.
- **Associate ID** - The Associate IDs, if any, selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Task ID** - A unique numeric identifier for the Task.
- **Task Status** - The current status of the Task. Possible statuses are:
  - Open
  - In Progress
  - Cancelled
  - Closed
- **Task Priorit**y - The priority of the Task. Possible priorities are:
  - Low
  - Medium
  - High
- **Task Loc ID** - The unique numeric identifier for the Location, if any, associated with the Task. Otherwise, set to N/A.
- **Task Subject** - The Subject entered to describe the Task.
- **Task Start Date** - The Start Date specified for the Task.
- **Task End Date** - The End Date specified for the Task.

- **Customer ID -** The unique numeric identifier for the Customer. Set to N/A if there is no Customer associated with the Task.
- **Create Date -** The date when the Task was created.
- **Update Date -** The date when the Task was most recently updated. Set to N/A if the Task has not been updated.
- **Create User** - The user ID of the User who created the Task.
- **Update User -** The user ID of the User who most recently updated the Task. Set to N/A if the Task has not been updated.

Associate Task Summary Report

This report presents a summary of the types of Tasks assigned to each Associate, and their current statuses.

Selection Criteria

- **Location ID / Name -** The ID and Name identifying a retail Location that might be associated with assigned Tasks. All Locations are selected by default. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.
- **Task Type -** Codes identifying types of Tasks. All Task Types are selected by default. Optionally, select Search to work with the list of eligible Task Types, search based on Task Type, or remove Task Types from the list selected for the report. Task Types include:
  - ADMIN
  - APPOINTMENT
  - EVENT
  - TASK
  - TODO
- **Associate ID / Name -** The user ID and name of the Associate assigned to the Task. All Associates are selected by default. Optionally, select Search to work with the list of eligible Associates, search based on Associate Name, or remove Associates from the list selected for the report.
- **Task Time Period -** Optionally, select a time period to include Tasks scheduled for dates in this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week (excludes future dates)
  - This Month (excludes future dates)

  - This Year (excludes future dates)

> **Note:**
>
> If you select a Task Time Period, the Task Start Date and Task End Date criteria are ignored.

- **Task Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Task End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. Each row represents a unique combination of Task Type, Associate ID, and Task Status.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Location ID** - The Location IDs, if any, selected when generating the report. Set to ALL if there was no restriction.
- **Task Type** - The Task Types, if any, selected when generating the report. Set to ALL if there was no restriction.
- **Associate ID** - The Associate IDs, if any, selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Task Type** - The type of Task. Possible Types are:
  - Admin
  - Appointment
  - Event
  - Task
  - To do
- **Associate ID** - The identifier of the Associate assigned to the Task. Set to N/A if no Associate is assigned.
- **Associate Name** - The name of the Associate assigned to the Task. Set to N/A if no Associate is assigned.
- **Task Status** - The current status of the Task. Possible statuses are:
  - Open
  - In Progress
  - Cancelled

  - Closed
- **Task Count** - The total number of Tasks of this Type, assigned to this Associate (or unassigned), and in the same status, included on the report.
- **Totals for Task Type** - The total number of Tasks of this Type included on the report.
- **Report Totals** - The total number of Tasks included on the report.

Task Status Summary Report

This report presents a summary of types of Tasks by their current statuses.

Selection Criteria

- **Location ID / Name** - The ID and Name identifying a retail Location that might be associated with assigned Tasks. All Locations are selected by default. Optionally, select Search to work with the list of eligible Locations, search based on Location Name, or remove Locations from the list selected for the report.
- **Task Type** - Codes identifying types of Tasks. All Task Types are selected by default. Optionally, select Search to work with the list of eligible Task Types, search based on Task Type, or remove Task Types from the list selected for the report. Task Types include:
  - ADMIN
  - APPOINTMENT
  - EVENT
  - TASK
  - TODO
- **Associate ID / Name** - The user ID and name of the Associate assigned to the Task. All Associates are selected by default. Optionally, select Search to work with the list of eligible Associates, search based on Associate Name, or remove Associates from the list selected for the report.
- **Task Time Period** - Optionally, select a time period to include Tasks scheduled for dates in this period on the report rather than entering a Start Segment Run Date or End Segment Run Date. Set to None by default. Available time periods are:
  - Yesterday
  - Last Week
  - Last Month
  - Last Year
  - Last 30 Days
  - Last 60 Days
  - Last 90 Days
  - This Week (excludes future dates)
  - This Month (excludes future dates)
  - This Year (excludes future dates)

> **Note:**
>
> If you select a Task Time Period, the Task Start Date and Task End Date criteria are ignored.

- **Task Start Date** - The first date to include on the report. Defaults to the previous date (yesterday).
- **Task End Date** - The last date to include on the report. Defaults to the current date (today).
- **Row Limit** - Optionally, use this field to specify the maximum number of rows to include on the report. Each row represents a unique combination of Task Type and Task Status.

Click **Apply** to apply the selected criteria and generate the report.

Report Contents

The Report Contents header information includes:

- **Organization** - The code identifying your organization.
- **Date Range** - The date range selected when generating the report.
- **Location ID** - The Location IDs, if any, selected when generating the report. Set to ALL if there was no restriction.
- **Associate ID** - The Associate IDs, if any, selected when generating the report. Set to ALL if there was no restriction.
- **Task Type** - The Task Types, if any, selected when generating the report. Set to ALL if there was no restriction.

The Report Contents detail information includes:

- **Task Type** - The type of Task. Possible Types are:
  - Admin
  - Appointment
  - Event
  - Task
  - To do
- **Task Status** - The current status of the Task. Possible statuses are:
  - Open
  - In Progress
  - Cancelled
  - Closed
- **Task Count** - The total number of Tasks of this Type and status that are included on the report.
- **Totals for Task Type -** The total number of Tasks of this Type included on the report.

- **Report Totals -** The total number of Tasks included on the report.

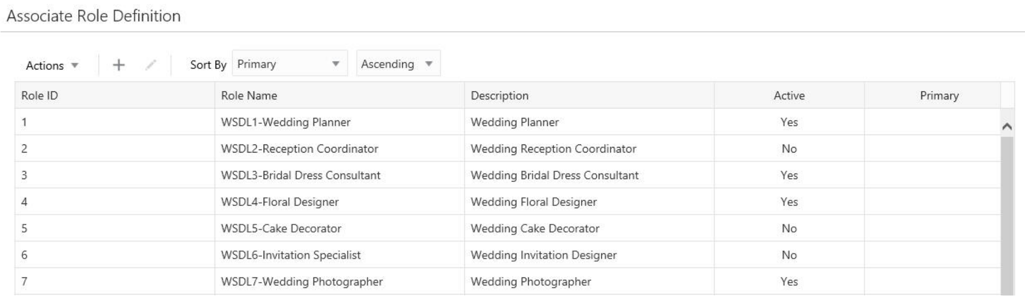
- System Configuration
- System Logs
- Task Management
  - Creating a Task

  - Editing a Task
  - Viewing a Task
  - Re-Assigning a Task
- Web Service Tracking
- Users

Associate Role Definition

Associate Roles are used to assign Associates to Customers. Only one Associate can be assigned to a Customer for each Associate Role, so the number of Associate Roles determines the number of Associates that can be assigned to a Customer.

Figure 13-1 Associate Role Definition



Sort By Primary
Ascending

Role ID	Role Name	Description	Active	Primary
1	WSDL1-Wedding Planner	Wedding Planner	Yes	
2	WSDL2-Reception Coordinator	Wedding Reception Coordinator	No	
3	WSDL3-Bridal Dress Consultant	Wedding Bridal Dress Consultant	Yes	
4	WSDL4-Floral Designer	Wedding Floral Designer	Yes	
5	WSDL5-Cake Decorator	Wedding Cake Decorator	No	
6	WSDL6-Invitation Specialist	Wedding Invitation Designer	No	
7	WSDL7-Wedding Photographer	Wedding Photographer	Yes	

To access the Association Role Definition window:

1. Click the **Tasks** icon.
2. Click the **Admin** Task.
3. Click the **Associate Role Definition** Task.

The following information is displayed for each role:

- **Role ID** – Unique ID for the Associate Role.
- **Role Name** – Name of the Associate Role.
- **Description** – Description of the Associate Role.
- **Active** – Indicates whether the Associate Role is active.
- **Primary** – Indicates whether the Associate Role is the primary role.

Sorting Associate Role Definitions

The user can sort the list to refine the results. The following sorting options include:

Figure 13-2 Sorting Options

Intended Use All
Sort By ID
Descending

The following fields can be sorted **Ascending** or **Descending**:

- **Active** – Indicates whether the Associate Role is active.
- **Description** – Description of the Associate Role.
- **Primary** – Indicates whether the Associate Role is the primary role.
- **Role ID** – Unique ID for the Associate Role.
- **Role Name** – Name of the Associate Role.

Adding an Associate Role

To add an Associate Role, do the following:

1. Click the **Add (+) icon**, or choose **Add** from the **Actions** menu. This displays a Create Associate Role window where you can enter the following information:
   - **Role Name** - This field configures the name of the Associate Role.
   - **Description** - This field configures a description of the Associate Role. This is a required field.
   - **Active** - This check box determines whether the Associate Role is active. As a default, the check box is selected.
   - **Primary** - This check box determines whether the Associate Role is the primary role.

   > **Note:**
   >
   > Customer Engagement only allows one Associate Role to be primary.

2. To add the new Associate Role to the list of definitions, click **OK**. To return to the original window without saving, click **Cancel**.

Editing an Associate Role

To edit an Associate Role, do the following:

1. Highlight the desired **Associate Role** (Only one record can be selected at a time for editing).
2. Click the **Edit** icon, or choose **Edit** from the **Actions** menu. This displays an Edit Associate Role window: This displays a window with details of the role:

183	AREA-MANAGER	Yes	Name of Area Manager	Yes	Yes	Character	8/28/17	Location	Management

To access the Attribution Management window:

1. Click the **Tasks** icon.
2. Click the **Admin** Task.
3. Click the **Attribute Management** Task.

The following information is displayed for each attribute:

- **ID** – The ID for the attribute.
- **Name** – The name of the attribute.
- **Unique** – Only one value can be added to the attribute when it is identified as unique.
- **Description** – Description of the information provided by the attribute.
- **Editable** – Identifies whether the associate is allowed to edit the value for the attribute once it is added.
- **Open Access** – Indicates whether there is open access to this attribute.
- **Data Type** – The type of data contained in the attribute value. Possible values include: Character, Number, Currency, Date, Logical, and List.
- **Last Update** – The date last updated in the system.
- **Intended Use** – The Customer Engagement element the attribute was created for. Possible uses include: Card, Card Series, Card Type, Customer, Gift Registry, Item Location, Offer, Promo Offer, Promotion, Segment, and Wish List.
- **Attribute Group** – The group associated with the attribute.

Filtering and Sorting Attributes

The user can narrow down the list by selecting any of the Intended Use filters. The list can then be sorted by the fields as shown in Figure 13-5.

Figure 13-5   Filtering and Sorting Options

Intended Use filters include:

- All (Default)
- Card
- Card Series
- Card Type
- Customer
- Gift Registry
- Item Location
- Offer
- Promo Offer
- Promotion

- Segment
- Wish List

The following fields can be sorted **Ascending** or **Descending**:

- Attribute Group
- Data Type
- Description
- ID
- Intended Use
- Last Update
- Name

Creating an Attribute

To create an Attribute, do the following:

1. Click the **Add (+) icon,** or choose **Add** from the **Actions** menu. This displays a Create Attribute dialog, where you can enter the following information:

   Figure 13-6 Create Attribute

Note:

The results display in batches of 25 records. When more than 25 records are available, click **Show More...** to view more results.

You can refresh the Search Results by clicking the **Refresh** icon or picking the **Refresh** option from the **Actions menu**.

Sorting Batch imports

You can sort by:

- End Time
- Examined
- Failures
- File Name (default)
- Record Type
- Repost Attempt

- Reposts
- Start Time
- Successes
- Warnings

Preference types can be sorted ascending or descending from the list.

Viewing a Batch Import

To view a Batch Import, do the following:

1. Highlight the **row** of the Batch Import you want to view.
2. Click the **Actions** menu or the **View icon** to open the View Report for window.

Exchange Rate

You can use the Exchange Rate feature to review the most current exchange rates that have been set up for currency conversions for PosLog transactions. You can also review previous Exchange Rates, as well as create new Exchange Rates.

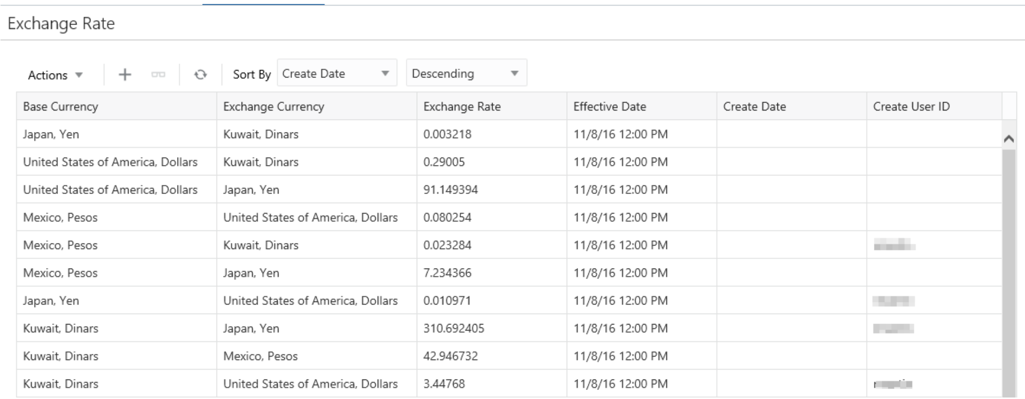
> **Note:**
>
> This option is available only if the user has been assigned the `SystemAdmin` role. See the `Oracle Retail Customer Engagement Cloud Service Implementation Guide` for more information on assigning User Roles.

Accessing the Exchange Rate Feature

To access the Exchange Rate feature do the following:

1. Click **Menu**.
2. Click the **Admin** task.
3. Click the **Exchange Rate** task. The Exchange Rate window displays.

Figure 13-16 Exchange Rate Window



Base Currency	Exchange Currency	Exchange Rate	Effective Date	Create Date	Create User ID
Japan, Yen	Kuwait, Dinars	0.003218	11/8/16 12:00 PM		
United States of America, Dollars	Kuwait, Dinars	0.29005	11/8/16 12:00 PM		
United States of America, Dollars	Japan, Yen	91.149394	11/8/16 12:00 PM		
Mexico, Pesos	United States of America, Dollars	0.080254	11/8/16 12:00 PM		
Mexico, Pesos	Kuwait, Dinars	0.023284	11/8/16 12:00 PM		[redacted]
Mexico, Pesos	Japan, Yen	7.234366	11/8/16 12:00 PM		
Japan, Yen	United States of America, Dollars	0.010971	11/8/16 12:00 PM		[redacted]
Kuwait, Dinars	Japan, Yen	310.692405	11/8/16 12:00 PM		[redacted]
Kuwait, Dinars	Mexico, Pesos	42.946732	11/8/16 12:00 PM		
Kuwait, Dinars	United States of America, Dollars	3.44768	11/8/16 12:00 PM		[redacted]

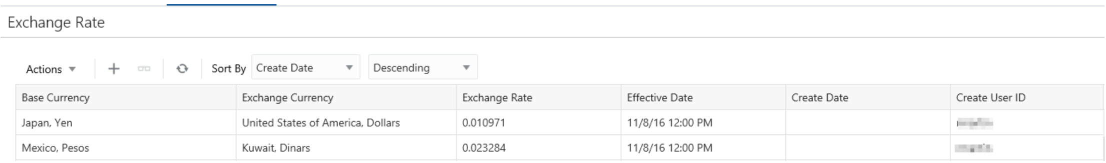
The Exchange Rate List displays the following information for each currency conversion that has a current Exchange Rate:

- **Base Currency** - The name of the currency that is being converted (the from currency).
- **Exchange Currency** - The name of the currency that is being converted to (the to currency).
- **Exchange Rate** - The most current Exchange Rate that has been defined for the currency conversion. Up to 6 decimal positions. Any future Exchange Rates are not displayed.
- **Effective Date** - The most current Exchange Rate that has been defined for the currency conversion, with the rate displaying up to 6 decimal positions. Any Exchange Rates with a future Effective Date are not displayed.
- **Create Date** - The date and time when the Exchange Rate was created.
- **Create User Id** - The user ID of the person who created the Exchange Rate.

Working with Exchange Rates

Sorting Results

Figure 13-17 Sort By Options



Base Currency	Exchange Currency	Exchange Rate	Effective Date	Create Date	Create User ID
Japan, Yen	United States of America, Dollars	0.010971	11/8/16 12:00 PM		[redacted]
Mexico, Pesos	Kuwait, Dinars	0.023284	11/8/16 12:00 PM		[redacted]

In the Exchange Rates window, the user can sort the list to refine the results. Results can be sorted Ascending or Descending using the following sorting options:

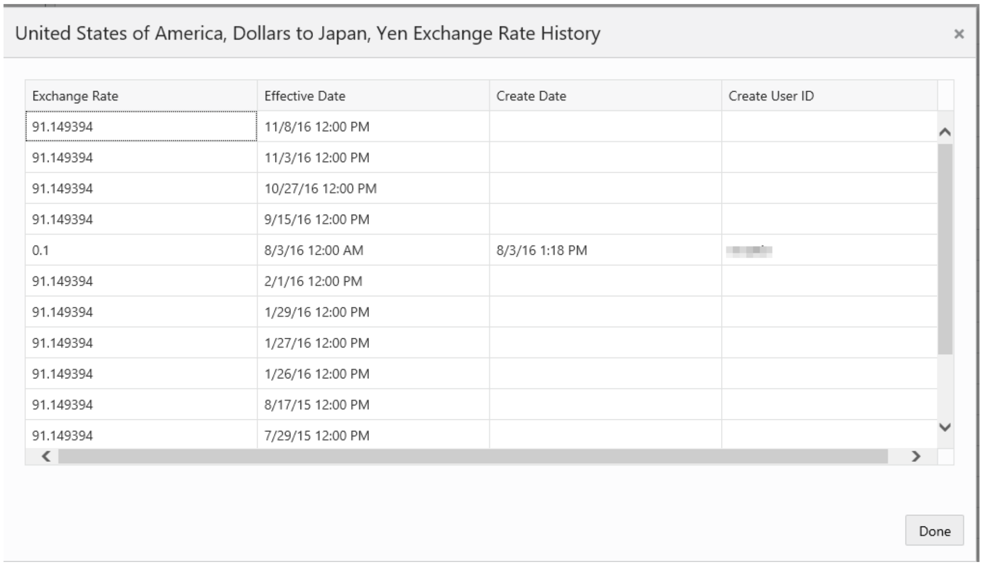
- Base Currency
- Create Date (Default)
- Create User ID
- Effective Date
- Exchange Currency
- Exchange Rate

Viewing Exchange Rate History

To view an Exchange Rate History do the following:

1. Highlight an **Exchange Rate** from the list of results.
2. Click the **Actions Menu**, and then click **View**, or click the **View** icon. The Exchange Rate History window displays the history of that Exchange Rate in descending date order.

Figure 13-18   Exchange Rate History



United States of America, Dollars to Japan, Yen Exchange Rate History

Exchange Rate	Effective Date	Create Date	Create User ID
91.149394	11/8/16 12:00 PM		
91.149394	11/3/16 12:00 PM		
91.149394	10/27/16 12:00 PM		
91.149394	9/15/16 12:00 PM		
0.1	8/3/16 12:00 AM	8/3/16 1:18 PM	[redacted]
91.149394	2/1/16 12:00 PM		
91.149394	1/29/16 12:00 PM		
91.149394	1/27/16 12:00 PM		
91.149394	1/26/16 12:00 PM		
91.149394	8/17/15 12:00 PM		
91.149394	7/29/15 12:00 PM		

- **Exchange Rate -** The Exchange Rates defined for the conversion of the Base Currency to the Exchange Currency.
- **Exchange Rate Date -** The date and time when the Exchange Rate becomes effective.
- **Create Date -** The date and time when the Exchange Rate was created.
- **Create User Id -** The user ID of the person who created the Exchange Rate.

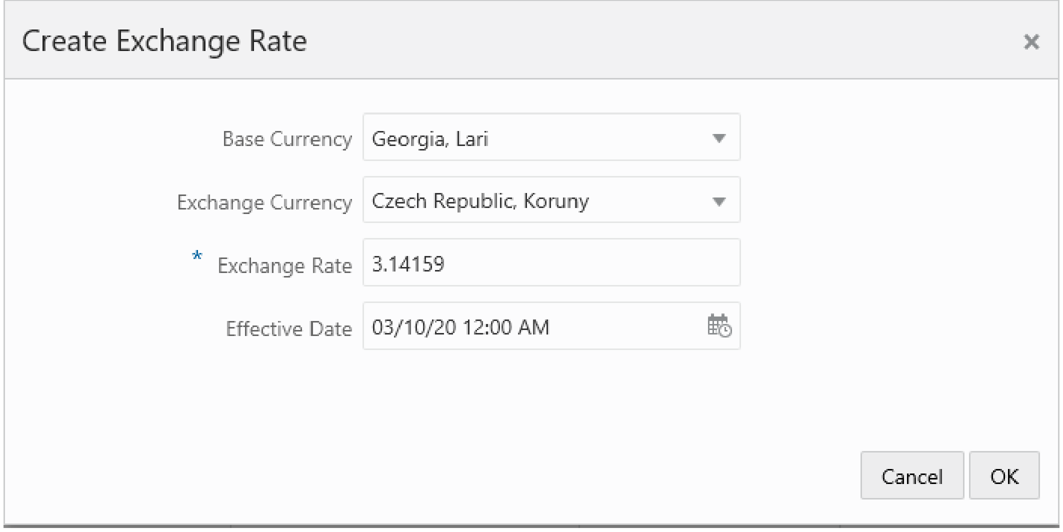
3. Click **Done** to close the window and return to the Exchange Rate Window.

Creating a New Exchange Rate

To create a new Exchange Rate for a currency conversion do the following:

1. Click the **Actions Menu**, and then click **Add**, or Click the **Add (+)** icon. The Create Exchange Rate window displays.

Figure 13-19   Create Exchange Rate



Base Currency: Georgia, Lari

Exchange Currency: Czech Republic, Koruny

* Exchange Rate: 3.14159

Effective Date: 03/10/20 12:00 AM

2. Enter the following information:
   - **Base Currency** - Select the basic currency from the list.
   - **Exchange Currency** - Select the Exchange Currency from the list.
   - **Exchange Rate** - Enter the Exchange Rate to use when converting the Base Currency to the Exchange Currency. The value entered can include up to 11 positions before the decimal and up to 6 after.
   - **Effective Date and Time** - Use the Calendar picker to select the date and time which the rate is effective. The date/time can be in the past or in the future. If an existing Exchange Rate for the specified date and time currently exists, the page displays an error.
3. Click **OK** to accept the changes or **Cancel** to close the task without saving. If you select **OK**, you will receive a confirmation at the bottom of the window confirming the new exchange rate was successfully added. You are returned to the Exchange Rate window where the new exchange rate you just created now displays at the top of the list.
4. You can refresh the Exchange Rate list by clicking the **Refresh** icon or picking the **Refresh** option from the **Actions menu**.

File Review

As an Administrator, I want the ability to view files, so that I can manage downloading and transferring of files.

1. Click the **Tasks** icon.
2. Click **Admin**.
3. Click **File Review**.
4. Select either Available Files or Transfer Activity.

Searching for Available Files

In the File Review window select **Available Files**.

- Enter the following **search parameters** to search for Available Files.
    - Select a **File Type**.
    - Enter any or all of a **File Name**.
    - Enter the **From** and **To** Date Ranges.
    - Select whether or not to **Exclude Zero Length Files**.

Click **Search**.

> **Note:**
>
> The results display in batches of 25 records. When more than 25 records are available, click **Show More...** to view more results.

You can refresh the Search Results by clicking the **Refresh** icon or picking the **Refresh** option from the **Actions menu**.

Sorting Available Files

The following fields can be sorted **Ascending** or **Descending**:

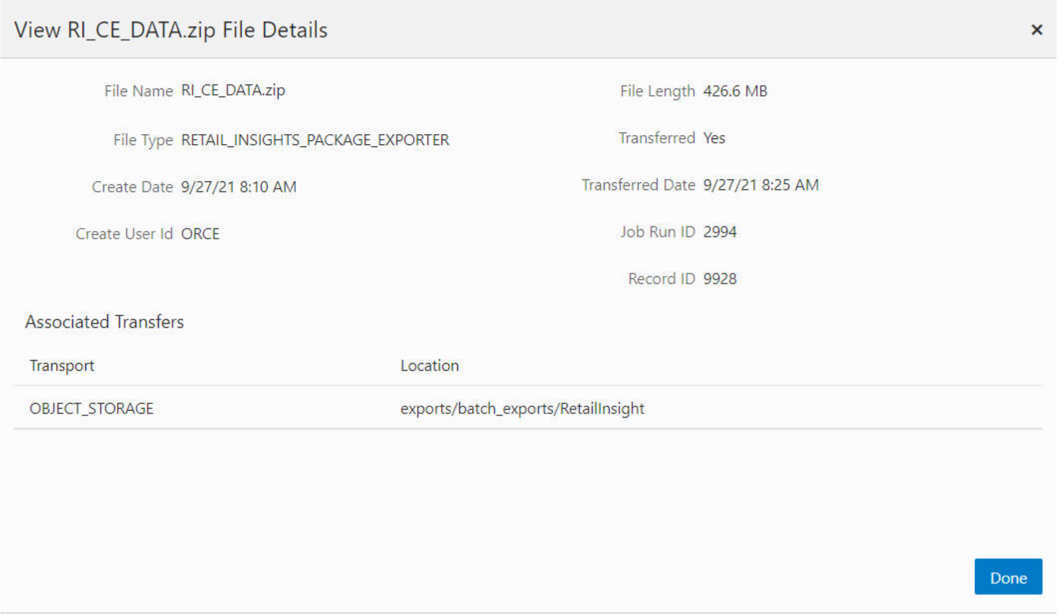
- Create Date
- File Length
- File Name
- File Type
- Job Run ID
- Record ID (default)

Viewing a FIle

To view a File, do the following:

1. Highlight the **row** of the File you want to view.
2. Click the **Actions** menu or the **View icon** to open the View File Details window.

Figure 13-20 View File Details



View RI_CE_DATA.zip File Details

		Record ID	9928

Associated Transfers

Transport	Location
OBJECT_STORAGE	exports/batch_exports/RetailInsight

3. View the details of the file and click **Done** to close the window.

Downloading Files

To download a file do the following:

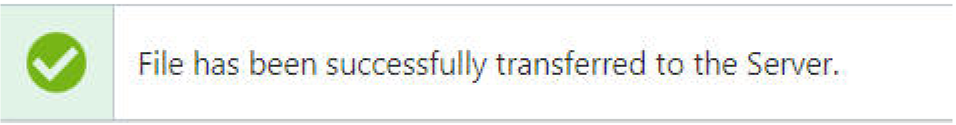
1. Highlight the **row** of the File you want to download.
2. Click the **Actions** menu and select **Download**, or click the **Download icon** to download the file. The file is downloaded to a location based on your settings.

Transfer to Server

To transfer a file to the server do the following:

1. Highlight the **row** of the File you want to transfer to server.
2. Click the **Actions** menu and select **Transfer to Server**. A notification appears to indicate the transfer is a success.

Figure 13-21 Notification



File has been successfully transferred to the Server.

Searching for Transfer Activity

In the File Review window select **Transfer Activity**.

- Enter the following **search parameters** to search for Transfer Activity.

- Select a **Transfer Type**.
- Enter any or all of a **File Name**.
- Select a **Status**. Options include:
  - All (default)
  - New Entry
  - Waiting
  - Transfer Started
  - Transfer Retry
  - Transfer Failed
  - Completed
  - Historical
  - Discard
- Select a **Transport** option.

Click **Search**.

> **Note:**
>
> The results display in batches of 25 records. When more than 25 records are available, click **Show More...** to view more results.

You can refresh the Search Results by clicking the **Refresh** icon or picking the **Refresh** option from the **Actions menu**.

Sorting Transfer Activity

The following fields can be sorted **Ascending** or **Descending**:

- Attempt
- File Name
- Last Updated (default)
- Message
- Retry
- Status
- Transfer Type
- Transport

Viewing a Transfer Activity

To view a Transfer Activity, do the following:

1. Highlight the **row** of the File you want to view.
2. Click the **Actions** menu or the **View icon** to open the View File Details window.

Record ID 9928

Associated Transfers

Transport	Location
OBJECT_STORAGE	exports/batch_exports/RetailInsight

3. View the details of the file and click **Done** to close the window.

Retry a Failed Transfer

Only files that have the status of Transfer Failed are eligible for a Retry. Do the following to Retry a Failed Transfer.

1. Highlight the **row** of the File you want to retry.
2. Click the **Actions** menu and select **Retry**, or click the **Retry icon** to retry the transfer.

Franchisees

You have the ability to view, add, edit, and delete a franchisee to be used within the system. Additionally, users and locations can be added and deleted on a franchisee as well as viewing a list of customers that are currently assigned to a franchisee. A list of Franchisees can also be imported.

1. Click the **Tasks** icon.
2. Click **Admin**.
3. Click **Franchisees**.

Searching for Franchisees

Enter the following **search parameters** to search for Franchisees.

- - Enter all or part of a **Franchisee ID**.
  - Enter all or part of a **Name**.
  - Enter all or part of a **Description**.
  - Enter all or part of a **City**.

- Enter all or part of a **State**.

Click **Search**.

> **Note:**
>
> The results display in batches of 25 records. When more than 25 records are available, click **Show More...** to view more results.

You can refresh the Search Results by clicking the **Refresh** icon or picking the **Refresh** option from the **Actions menu**.

Sorting Available Franchisees

The following fields can be sorted **Ascending** or **Descending**:

- City
- Description
- Franchisee ID (default)
- Name
- State

Viewing a Franchisee

To view a Franchisee, do the following:

1. Highlight the **row** of the Franchisee you want to view.
2. Click the **Actions** menu or the **View icon** to open the View Franchisee window.

3. Close the **Customer Search** tab to return to the Franchisees.

Import Franchisees using CSV File

You have the ability to import a csv file containing the franchisees for a client, so that they can be brought into Customer Engagement without creating them all manually.

To import by CSV do the following:

1. Click the Actions menu and select Import CSV file.

   Figure 13-30   Import CSV File

      Import CSV File
×
Drop file here or click to upload
Cancel
OK

2. To add a file either:
    - **Drag and Drop** a new file as shown in
    - Click anywhere in the **Drop file here or click to upload** box.
3. After uploading the CSV file, it will scan for viruses and validate the uploaded file's name, size, and extension. After passing the validations, the name of the file will appear on the popup and the **OK** button is enabled
4. Click **OK** to import the file or click **Cancel** the close the window without saving.

> **Note:**
>
> The Franchisees from the CSV file will be read, validated, and saved into the database and the appropriate response message will be displayed. Failure response will also be shown on the click of OK, in case of invalid CSV file. Click **Done** to close the window and refresh the base Franchisees screen.

Location Management

Use the Location Management window to add or edit a location.

1. Click the **Tasks** icon.
2. Click the **Admin Task**.
3. Click the **Location Management Task**.

The following information is displayed for each location:

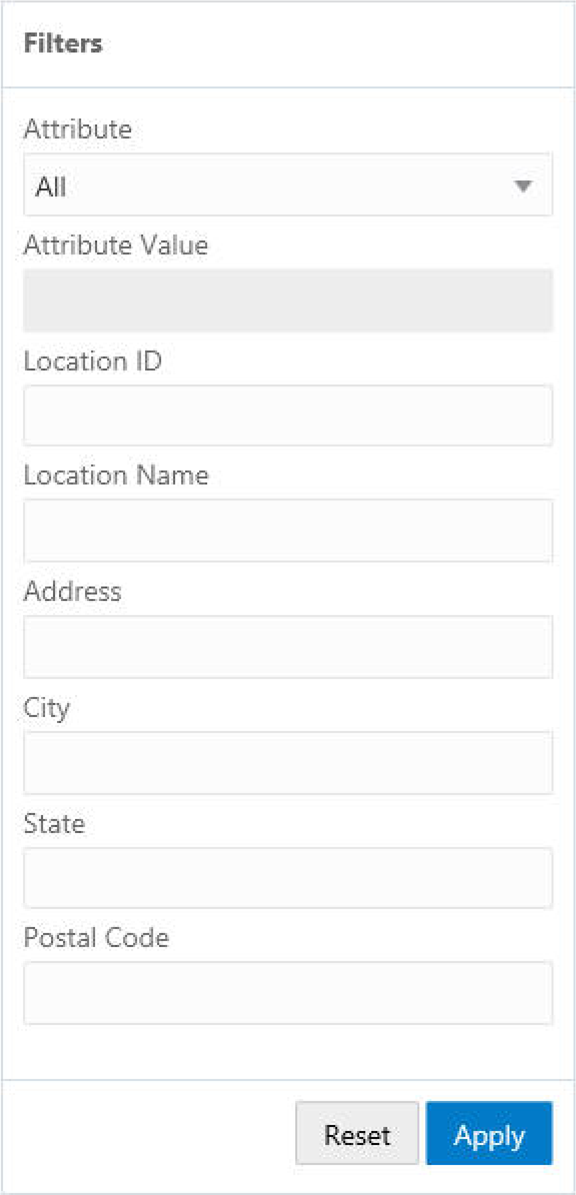
- **Location ID** – Unique ID of the Location.
- **Location Name** – Name of the Location.
- **Address** –Address 1 of the Location.
- **Franchisee Location** – Indicates whether the Location is a Franchisee.
- **Active** – Indicates whether the Location is currently active.

The Location Management window shows the first 25 locations, displayed in Location ID ascending order. You can click the Show More… link to show the next 25 locations or filter the results by completing the following steps:

Filtering the Results

1. Enter the information in any available following fields:

Figure 13-31   Filter Options



Filters
Attribute
All
Attribute Value
Location ID
Location Name
Address
City
State
Postal Code
Reset
Apply

- **Attribute** – Additional, descriptive information about a Customer Engagement element.
- **Attribute Value** – This is a dynamic field based on the attribute previously selected.
- **Location ID** – Unique ID for the Location.
- **Location Name** – Name of the Location.
- **Address** – Address 1 of the Location.
- **City** – City of the Location.
- **State** – State or Province of the Location.

- **Postal Code** – Postal Code or Zip Code of the Location.

2. Click **Apply** to filter the results, or click **Reset** to clear the fields.

> **Note:**
>
> The results remain the same even if you click **Reset**. Reset only clears the previously entered filter criteria. The results will only refresh when another filter is configured.

Adding a Location

Use the following steps to add a location:

Location Information

1. Click the **Add (+) icon**, or choose **Add** from the **Action** menu. This displays a Create Location window where you can enter the following information:

2. Enter the values for the following fields:
   - **Location ID -** Unique ID of the Location (Required field).
   - **Location Name -** Name of the Location (Required field).
   - **Active -** Indicates whether the Location is currently active. The default is checked.
   - **Location Number -** Location Number of the Location.
   - **Email Address -** Email address for the Location.

- **Address Line 1** - Line 1 of the Location's address.
- **Address Line 2** - Line 2 of the Location's address.
- **Address Line 3** - Line 3 of the Location's address.
- **Address Line 4** - Line 4 of the Location's address.
- **City** - City of the Location.
- **State** - State or Province of the Location.
- **Postal Code** - Postal Code or ZIP Code of the Location.
- **County** - County of the Location.
- **Country** - Country of the Location.
- **Franchisee -** Name of the Franchisee to which the Location is assigned (optional).

3. Either continue to the Location Attributes section or, if no Location Attribute additions are required, Click **OK** to create the Location. Click **Cancel** to close the window without saving.

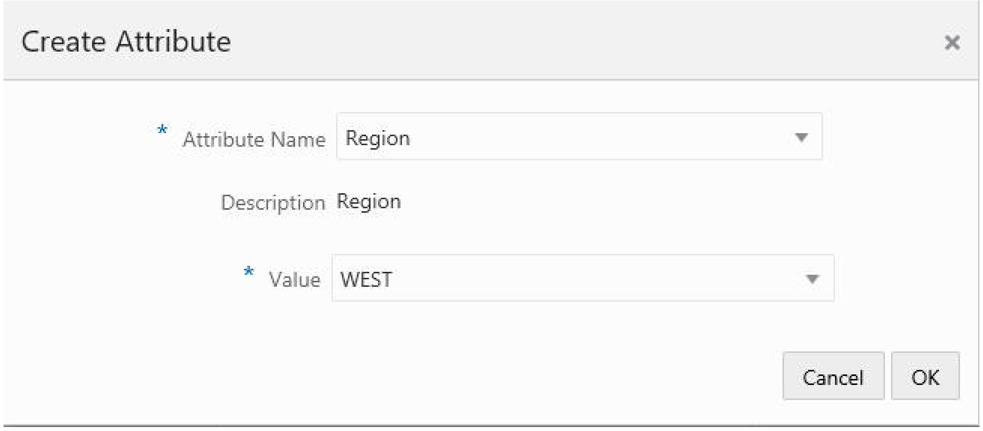
Location Attributes

If configured, the user can Add, Edit, or Delete Location Attributes.

Adding a Location Attribute

1. To add a Location attribute, click the **Action Menu** and click **Add** or click the **Add (+) icon.** This displays a Create Attribute window where you can enter the following information:

Figure 13-33 Create Location Attribute



Create Attribute

* Attribute Name: Region

Description: Region

* Value: WEST

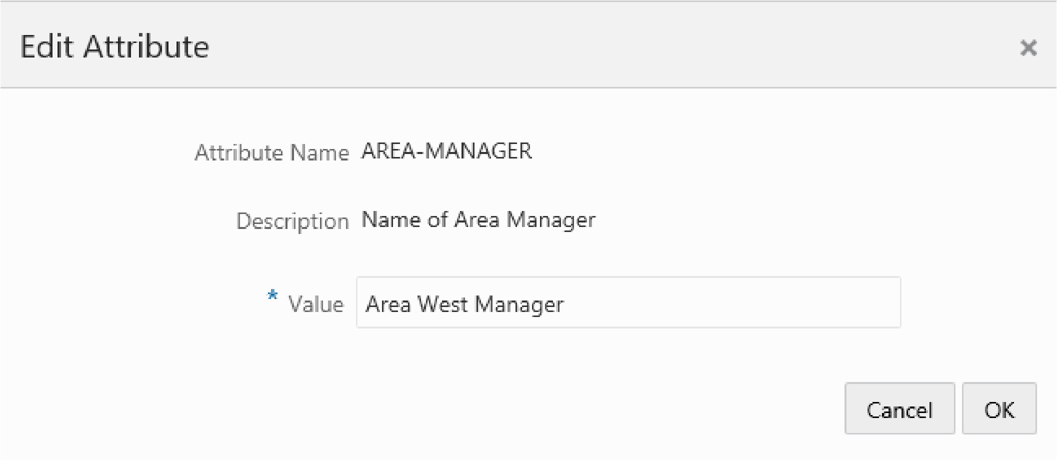
- Click the **Attribute Name** list.
- The Value field is dynamic and is based off of the data type of the attribute. The user either enters a value or selects a value from the list.

2. Click **OK**. This adds the new Location Attribute. Or select **Cancel** to close the window without adding the location attribute.

Editing a Location Attribute

1. To edit a Location attribute, highlight the Location Attribute and click the **Action Menu**, then click **Edit**, or click the **Edit icon**.

Figure 13-34 Edit Attribute



Edit Attribute

Attribute Name AREA-MANAGER

Description Name of Area Manager

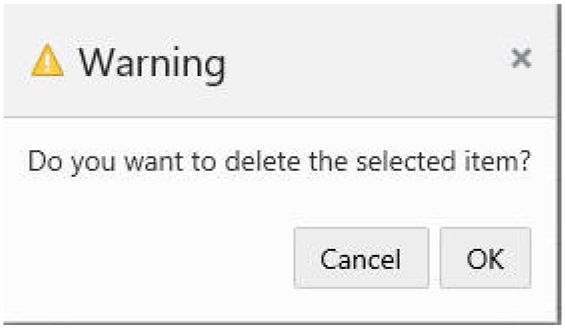
* Value Area West Manager

2. Edit the location attribute value.
3. Click **Ok** to accept the change or **Cancel** to close without saving.

Deleting a Location Attribute

1. To delete a Location Attribute, highlight the **row** of the location attribute and from the Action menu, click **Delete**, or click the **Delete X icon**.

Figure 13-35 Warning



Warning

Do you want to delete the selected item?

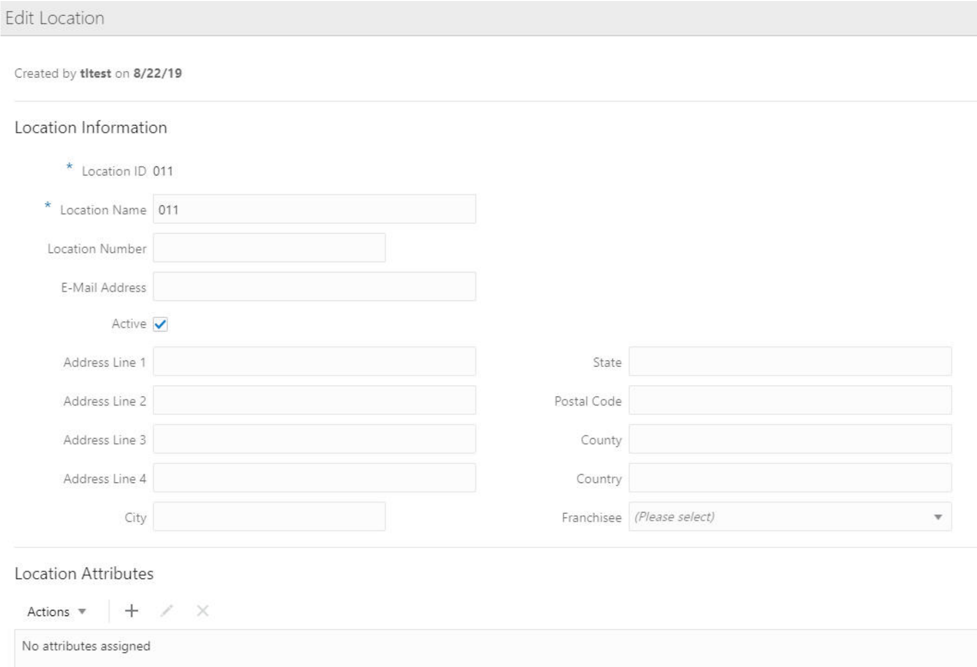
2. Click **OK** to delete the Location Attribute, or **Cancel** to return to the list of Location Attributes.
3. Once all Location Attributes are determined, click **OK** to create the location, or **Cancel** to close the window without saving.

Editing a Location

To edit the information in the Location Information, and/or Location Attribute sections for the Location, select the location from the Location Management window.

1. Click the **Edit** icon, or choose **Edit** from the **Actions** menu. This displays an Edit Location window which displays a window with details of the location:

Figure 13-36   Edit Location



Edit Location

Created by **tltest** on **8/22/19**

Location Information

* Location ID 011

* Location Name 011

Active ☑

Franchisee (Please select)

Location Attributes

No attributes assigned

2. Make any necessary change to the Location Information fields, and/or the Location Attributes values.
3. Click **OK** to accept the changes. The location is displayed with the new information. Click **Cancel** to close without saving.

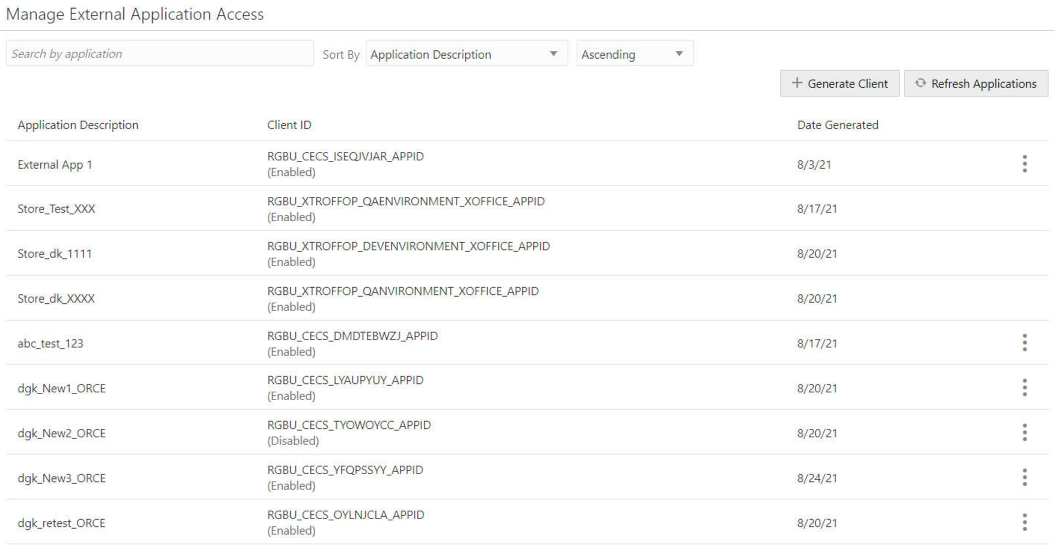
Managing External Application Access

As a retailer with external applications, I want a consistent view of the product integration with various application clients from Customer Engagement, so that my experience is the same regardless of the application I am in.

To view the list of application clients do the following:

1. Click **Tasks**.
2. Click **Admin**.
3. Click **Manage External Application Access**. The Manage External Application window displays.

Figure 13-37 Manage External Application Access



Application Description	Client ID	Date Generated
External App 1	RGBU_CECS_ISEQJVJAR_APPID (Enabled)	8/3/21
Store_Test_XXX	RGBU_XTROFFOP_QAENVIRONMENT_XOFFICE_APPID (Enabled)	8/17/21
Store_dk_1111	RGBU_XTROFFOP_DEVENVIRONMENT_XOFFICE_APPID (Enabled)	8/20/21
Store_dk_XXXX	RGBU_XTROFFOP_QANVIRONMENT_XOFFICE_APPID (Enabled)	8/20/21
abc_test_123	RGBU_CECS_DMDTEBWZJ_APPID (Enabled)	8/17/21
dgk_New1_ORCE	RGBU_CECS_LYAUPYUY_APPID (Enabled)	8/20/21
dgk_New2_ORCE	RGBU_CECS_TYOWOYCC_APPID (Disabled)	8/20/21
dgk_New3_ORCE	RGBU_CECS_YFQPSSYY_APPID (Enabled)	8/24/21
dgk_retest_ORCE	RGBU_CECS_OYLNJCLA_APPID (Enabled)	8/20/21

Searching Application Clients

Enter part or all of an Application Description and press **Enter**.

Sorting Application Clients

You can Sort By the following options:

- Application Description (default)
- Client ID
- Date Generated

Applications can be sorted ascending or descending from the list.

Delete an Application Client

To delete an Application, do the following:

1. Click the **Action menu** of the Application you want to delete.
2. Click **Delete** which opens the delete confirmation window.
3. Click **OK** to delete the Application or **Cancel** to close the window without deleting the application.

> **Note:**
>
> A confirmation notification appears to confirm the Application is deleted.

Disable an Application Client

To disable an Application, do the following:

1. Click the **Action menu** of the Application you want to disable.
2. Click **Disable** which opens the disable confirmation window.
3. Click **OK** to disable the Application or **Cancel** to close the window without disabling the application.

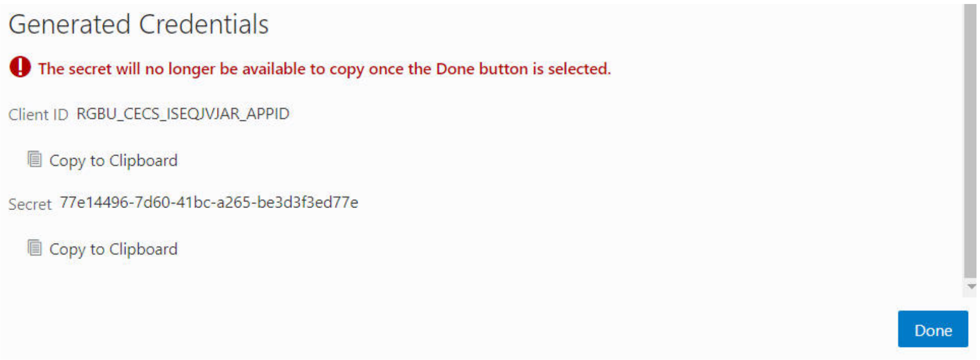
> **Note:**
>
> A confirmation notification appears to confirm the Application is disabled.

Regenerate Secret

To regenerate secret, do the following:

1. Click the **Action menu** of the Application you want to regenerate secret.
2. Click the **Regenerate Secret** which opens the confirmation window.
3. Click **OK** to continue the process, or **Cancel** to close the window without regenerating secret. The Regenerate Application Client Secret window opens.
4. The window confirms a new secret will be generated. The Application Details display. Click Regenerate to regenerate secret or Cancel to close the window without saving. The Generated Credentials appear.

Figure 13-38 Generated Credentials



Generated Credentials

The secret will no longer be available to copy once the Done button is selected.

Client ID RGBU_CECS_ISEQJVJAR_APPID

Secret 77e14496-7d60-41bc-a265-be3d3f3ed77e

5. Click **Copy to Clipboard** to copy the **Client ID**.
6. Click **Copy to Clipboard** to copy the **Secret**.
7. Click **Done** to close the window.

Note:

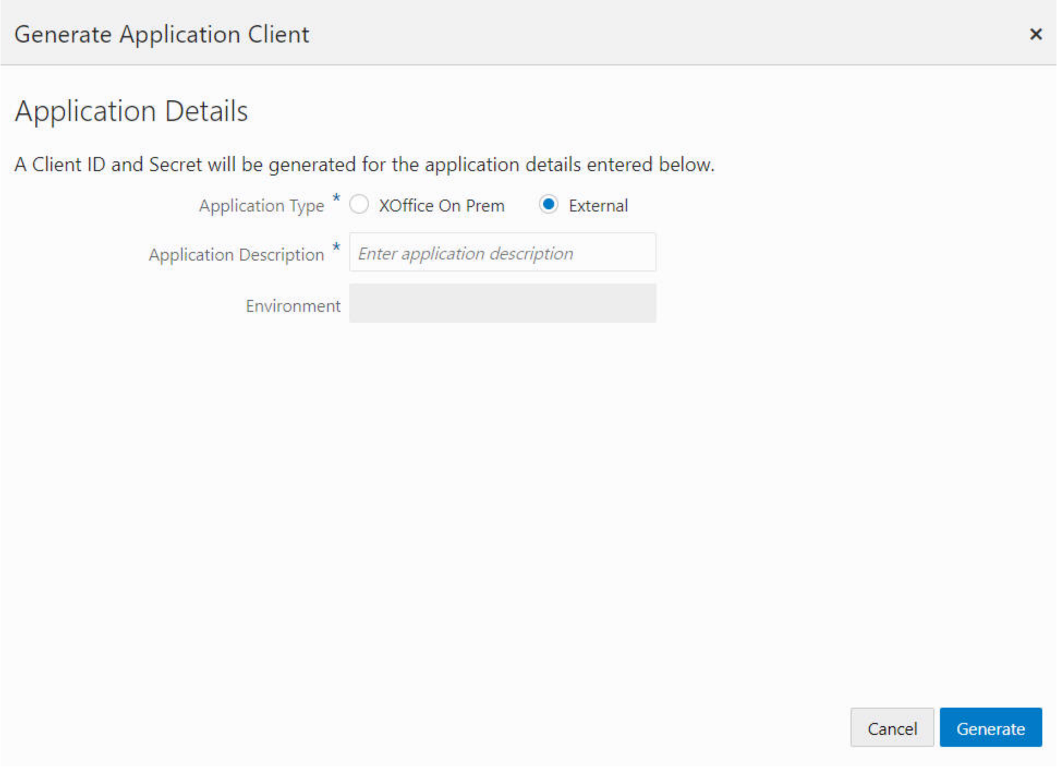
The secret will no longer be available to copy once the Done button is selected.

Generate Client

You have the ability to generate an application client for IDCS or OCI-IAM from Customer Engagement, so that my experience is the same regardless of the application I am in. To generate a client do the following:

1. Click **+ Generate Client**. The Generate Application Client window opens.

Figure 13-39 Generate Application Client



Generate Application Client

Application Details

A Client ID and Secret will be generated for the application details entered below.

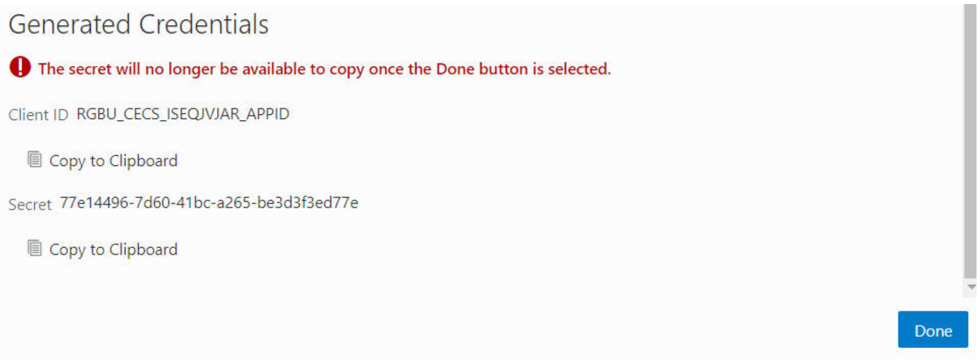
Application Type * ○ XOffice On Prem ● External

Application Description * Enter application description

Environment

2. Select an **Application Type**.
   - XOffice On Prem
   - External
3. Enter the **Application Description**.
4. Enter the **Environment**. (only available for XOffice On Prem)
5. Click **Generate**. The Generated Credentials appear.

Figure 13-40   Generated Credentials



Generated Credentials

The secret will no longer be available to copy once the Done button is selected.

Client ID RGBU_CECS_ISEQJVJAR_APPID

Secret 77e14496-7d60-41bc-a265-be3d3f3ed77e

6. Click **Copy to Clipboard** to copy the Client ID and Secret in order to paste into the configuration for linking applications. You will receive a notification: "Copied" for the Client ID. For Secret, a confirmation window appears if you have the Client ID still in memory. Click **OK** to copy the Client Secret or **Cancel** to close that confirmation without copying.

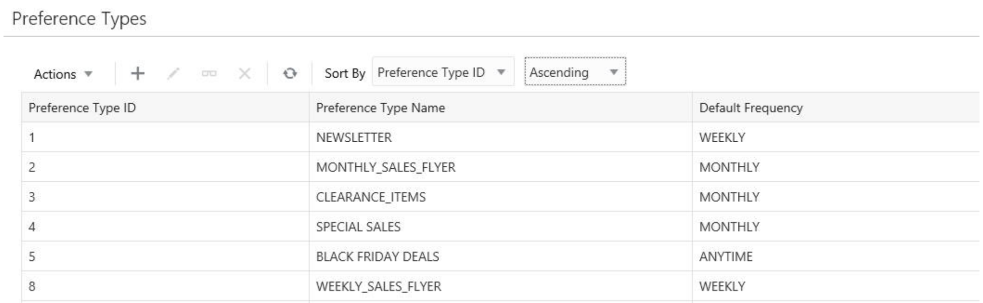
> **Note:**
>
> You may also manually highlight the Client ID and Secret and use Copy/Paste.

Preference Types

Preference Types are methods in which a customer can receive promotional information from the retailer. In this section, you can sort, add, edit, view, and delete preference types, so that you can setup unlimited preference types to use with the Customer Preference Center. To access Preference Types:

1. Click the **Tasks** icon.
2. Click the **Admin Task**.
3. Click the **Preference Types Task**.

Figure 13-41   Preference Types



Preference Types

Sort By Preference Type ID Ascending

Preference Type ID	Preference Type Name	Default Frequency
1	NEWSLETTER	WEEKLY
2	MONTHLY_SALES_FLYER	MONTHLY
3	CLEARANCE_ITEMS	MONTHLY
4	SPECIAL SALES	MONTHLY
5	BLACK FRIDAY DEALS	ANYTIME
8	WEEKLY_SALES_FLYER	WEEKLY

Sorting Preference Types

You can sort by:

- Default Frequency
- Preference Type ID
- Preference Type Name

Preference types can be sorted ascending or descending from the list.

Adding a Preference Type

To add a Preference Type do the following:

1. To add a Preference Type, click the **Action Menu** and click **Add**, or click the **Add (+) icon**. This displays the Create Preference Type window where you can enter the following information:

   Figure 13-42 Create Preference Type

      Create Preference Type

   * Preference Type Name
   * Default Frequency (Please select)

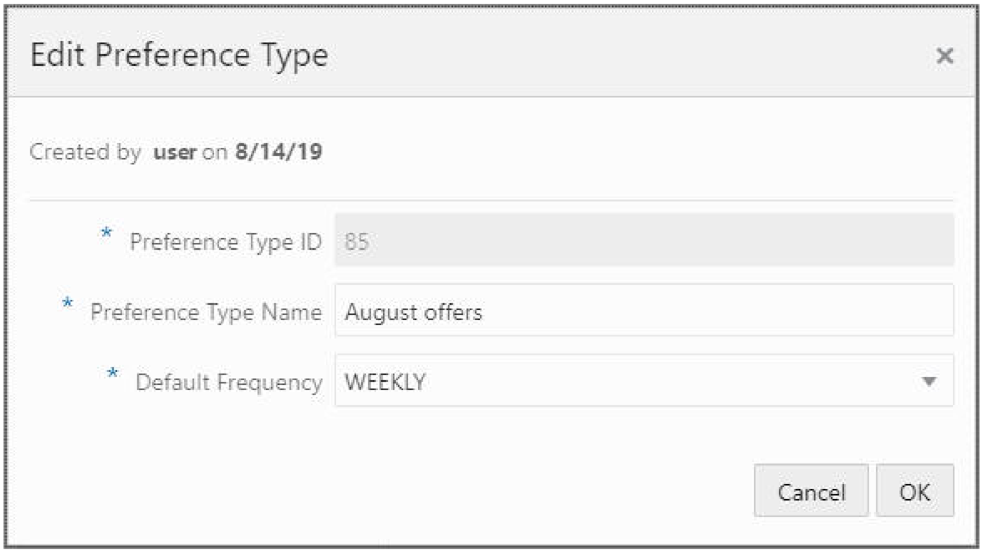
2. Type a Preference Type Name and choose one of the following default frequencies – both fields are required (these frequencies are configurable).
   - Anytime
   - Weekly
   - Monthly
   - Yearly
   - Daily
   - Quarterly
3. Click **OK** to add the new Preference Type. Click **Cancel** to close the window.

Editing a Preference Type

To edit a Preference Type, do the following:

1. Highlight the **row** of the Preference Type you want to edit and click the **Actions** menu or the **Edit icon** to open the Edit Preference Type window.

Figure 13-43   Edit Preference Type



Edit Preference Type

Created by user on 8/14/19

* Preference Type ID: 85
* Preference Type Name: August offers
* Default Frequency: WEEKLY

2. Edit the Preference Type Name or select a different Default Frequency and click **OK**. Click **Cancel** to close the window and discard any changes.

Viewing a Preference Type

To view a Preference Type, do the following:

1. Highlight the **row** of the Preference Type you want to view.
2. Click the **Actions** menu or the **View icon** to open the View Preference Type window.

Figure 13-44   View Preference Type

* Preference Type ID: 85
* Preference Type Name: August offers
* Default Frequency: WEEKLY

3. View the details of the Preference Type and click **Done** to close the window.

Delete a Preference Type

To delete a Preference Type, do the following:

1. Highlight the **row** of the Preference Type you want to delete.
2. Click the **Actions** menu **Delete** option, or the **Delete icon** which opens the delete confirmation window.
3. Click **OK** to delete the Preference Type or **Cancel** to close the window without deleting the row.

> **Note:**
>
> A confirmation notification appears to confirm the Preference Type has been deleted.

Role Groups

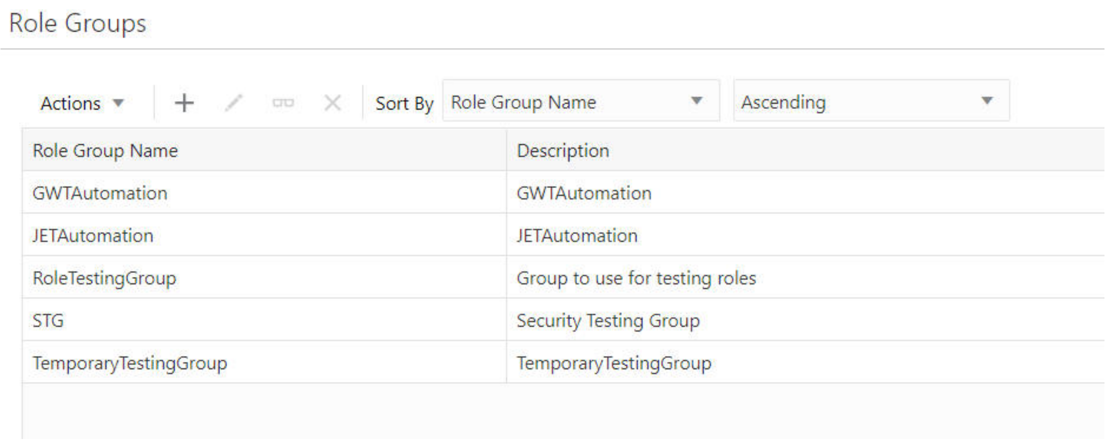
You have the ability to view, add, edit, and delete role groups, so that you can define which permissions should be granted to a role group. To access Role Groups do the following:

1. Click **Menu**.
2. Click the **Admin** task.
3. Click **Role Groups**. The Role Groups window displays.

Sorting Role Groups

Roles Groups can be sorted ascending or descending using the following Sort By options:

Figure 13-45 Sorting Role Groups



Sort By: Role Group Name ▾ | Ascending ▾

Role Group Name	Description
GWTAutomation	GWTAutomation
JETAutomation	JETAutomation
RoleTestingGroup	Group to use for testing roles
STG	Security Testing Group
TemporaryTestingGroup	TemporaryTestingGroup

- Role Group Name (default)
- Description

Adding Role Groups

To add a Role Group do the following:

1. Click the **Actions** menu **Add** option, or the **+ icon** which opens the Add Role Group window.
2. Enter a Role Group Name.
3. Enter a Description.
4. Use the **Select All** check box to select all Effective Roles or select **individual** Effective Roles using the check box **next** to the role.
5. Click **OK** to add the role group, or click **Cancel** to close the window without saving.

Editing Role Groups

To edit a Role Group do the following:

1. Highlight a **Role Group**.
2. Click the **Actions** menu **Edit** option, or the **Pencil icon** which opens the Edit Role Group window.

3. Click **Done** to close the window.

Delete Role Group

To delete a Role Group do the following:

1. Highlight a **Role Group**.
2. Click the **Actions** menu **Delete** option, or the **X icon**.
3. Click **Yes** to delete the Role Group, or click **No** to close the window without saving.

Security Groups

Security Groups determine whether Users can access and/or modify Customer information in that Security Group. Each Security Group is assigned a certain permission level for the Customers in that group. Each User assigned to a Security Group is assigned the permissions for that Security Group.

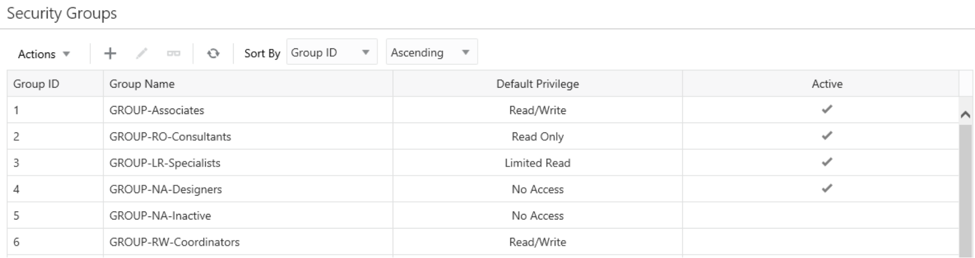
> **Note:**
>
> This option is available only if the user has been assigned the `SystemAdmin` role. See the `Oracle Retail Customer Engagement Cloud Service Implementation Guide` for more information on assigning User Roles.

Accessing Security Groups

To access the Security Groups do the following:

1. Click **Menu**.
2. Click the **Admin** task.
3. Click the **Security Groups** task. The Security Groups window displays.

Figure 13-48 Security Groups



Sort By Group ID Ascending

Group ID	Group Name	Default Privilege	Active
1	GROUP-Associates	Read/Write	✓
2	GROUP-RO-Consultants	Read Only	✓
3	GROUP-LR-Specialists	Limited Read	✓
4	GROUP-NA-Designers	No Access	✓
5	GROUP-NA-Inactive	No Access	
6	GROUP-RW-Coordinators	Read/Write	

The following fields are displayed:

- The following fields are displayed:

  Group ID – ID of the Security Group.
- **Group Name** – Name of the Security Group.
- **Default Privilege** – The access privileges given to Users in the Security Group. These access privileges are specific to the Customer. For a description of the Default Privilege Types, see , Default Privilege.
- **Active** – Indicates whether the Security Group is Active or not.

Sorting Results

In the Security Groups window, the user can sort the list to refine the results (see Figure 13-48). Results can be sorted Ascending or Descending using the following sorting options:

- Active
- Default Privilege
-
  - Read/Write
  - Read Only
  - Limited Read
  - No Access
- Group ID (Default)
- Group Name

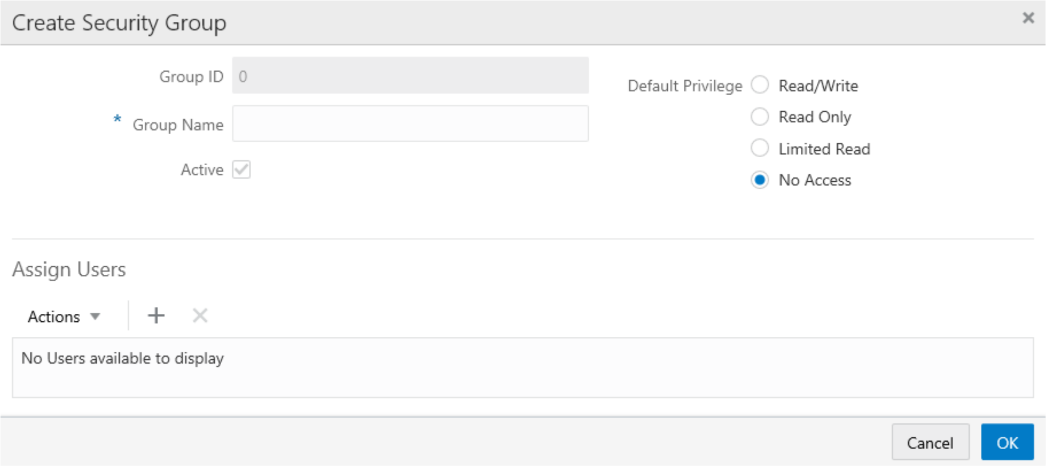
Working with the Security Groups

Creating a New Security Group

To create a new Security Group do the following:

1. Click the **Actions Menu**, and then click **Add**, or Click the **Add (+)** icon. The Create Security Group window displays.

Figure 13-49 Create Security Group



Create Security Group

Group ID 0

* Group Name

Active ☑

Default Privilege ○ Read/Write ○ Read Only ○ Limited Read ● No Access

Assign Users

No Users available to display

2. Enter the following information:
   - Group ID – (Read Only) Automatically assigned ID of the Security Group.
   - Group Name – (Required) The name you want to give to the Security Group.
   - Active – Indicates whether the Security Group is Active or not.
   - Default Privilege – Security Groups have the following privilege types available, listed in order from most permissible to least.
     - **Read/Write -** Users in the Security Group can read and update all data for Customers who have had the Security Group applied.
     - **Read Only -** Users in the Security Group can read all data for Customers who have had the Security Group applied, but cannot make updates.

  - **Limited Read** - Users in the Security Group can read some data for Customers who have had the Security Group applied, but cannot read sensitive Customer information (such as Address, Telephone Numbers, and Email Addresses) and cannot make updates.
  - **No Access** - A User in the Security Group will not even see that the Customer exists in the system.

3. Select **OK** to save or **Cancel** to exit. You do not at this time have to add users. If you wish to associate users to the new group at this time, then proceed to the Assign Users section.

Assign Users

4. In the Assign Users section of the Create Security Group window, click the **Actions Menu**, and then click **Add**, or Click the **Add (+)** icon. The Assign Users window displays.

Choose The SystemConfigAnswers.xml File To Upload.

3. To add a file to upload, either:
   - Drag and Drop a file as shown in Figure 13-74.
   - Click anywhere in the Drop a file here or click to upload box.
4. Click **Upload File** to upload the file, or **Cancel** to close the window without saving.
5. At any time you can refresh the results by clicking the System Configurations **Action** menu and then click **Refresh**.
6. To close the Upload Configuration click the System Configurations **Action** menu and then click **Return to Categories**.

System Logs

Users who have the System admin role can view the log events. Log events include:

- Access
- Data Privacy Audit
- Duplicate Customer Merge

- File Reader
- File Transfer
- Loyalty Points
- Promote
- Promotions
- Quartz
- Services
- User Roles
- Web Services

Viewing System Logs

To access the System Logs do the following:

1. Click **Menu**.
2. Click the **Admin** task.
3. Click the **System Logs** task. The System Logs window displays.

   The following fields are displayed:

   - **Log ID** – ID of the log.
   - **Context ID** – Diagnostic context information to correlate messages coming from a specific request or application.
   - **Log Date** – The date and time the log event was generated.
   - **Log Type** – The particular log containing the log event.
   - **Log Level** – The level of the log event recorded.

     Colors as well as text are used to indicate the severity. They include:

     - **Info -** Pale Green
     - **Warning -** Pale Yellow
     - **Error -** Pale Red
     - **Fatal -** Red
     - **Debug -** Cyan
     - **Trace -** Grey
   - **Log Message** – The error message and first line of the recorded log event.

Show More... 1-25 of 501 items

> **Note:**
>
> The log events display in batches of 25 records. When more than 25 records are available, click **Show More...** to view more events up to a maximum of 500 records.

4. The Filters panel enables you to enter criteria to filter for a specific system log. Enter the desired filter criteria which includes the following fields:
   - **Log ID** – The log event sequence number.
   - **Context ID** – Diagnostic context information to correlate messages coming from a specific request or application.
   - **Date Range From and To** – The date range covering the log event.
   - **Select Log Type** – The particular log containing the log event. Default is All.
     - Access
     - Data Privacy Audit
     - Duplicate Customer Merge
     - File Reader
     - File Transfer
     - Loyalty Points
     - Promote
     - Promotions
     - Quartz
     - Services
     - User Roles
     - Web Services

- **Log Level** – The level of the log event recorded. Default is to show all.

  Log levels include:
  - INFO
  - WARNING
  - ERROR
  - FATAL
  - DEBUG
  - TRACE
- **Show Exceptions Only** – Whether to show log events where an exception has been recorded or to show all log events. Default is Exception Only.

5. Click **Apply** to apply the filter criteria or, click **Reset** to clear any criteria changes back to the default filter criteria settings.

Exporting System Logs

Using the Export Log button creates an immediate job to export the log events to a downloadable file based on the filter criteria.

To export a system log perform the following actions:

1. Navigate to the **System Logs** window.
2. Enter the desired **filter criteria** for a specific system log or logs.
3. Click **Apply** to apply the filter criteria or, click **Reset** to clear any criteria changes back to the default filter criteria settings.
4. Click **Export Log**.

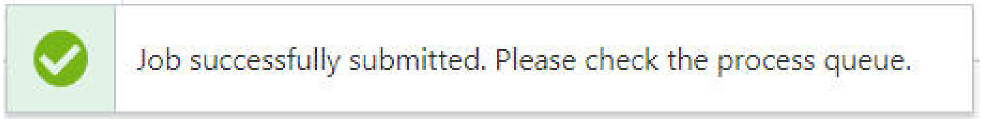
Figure 13-77 Success Notification



Job successfully submitted. Please check the process queue.

The download link will be attached to the “Export System Logs" job in the task information panel found in the Job Management process queue.

The exported file will contain a file header:

```
>>>> Report Based On Criteria - , Log ID: Not specified From Date: Not
specified, To Date: Not specified, Log Levels: [INFO, WARN, ERROR, FATAL,
DEBUG, TRACE], Log Type: ALL, Context ID: Not specified <<<<
```

The header details the selection criteria used to generate the report.

The report detail contains the same information as displayed in the UI.

Task Management

Use the Task Management window to search for tasks, as well as to add, edit, and assign tasks. To access the Task Management window:

1. Click **Menu**.
2. Click the **Admin** task.
3. Click the **Task Management** task. The Task Management window displays.

Viewing Operation Details

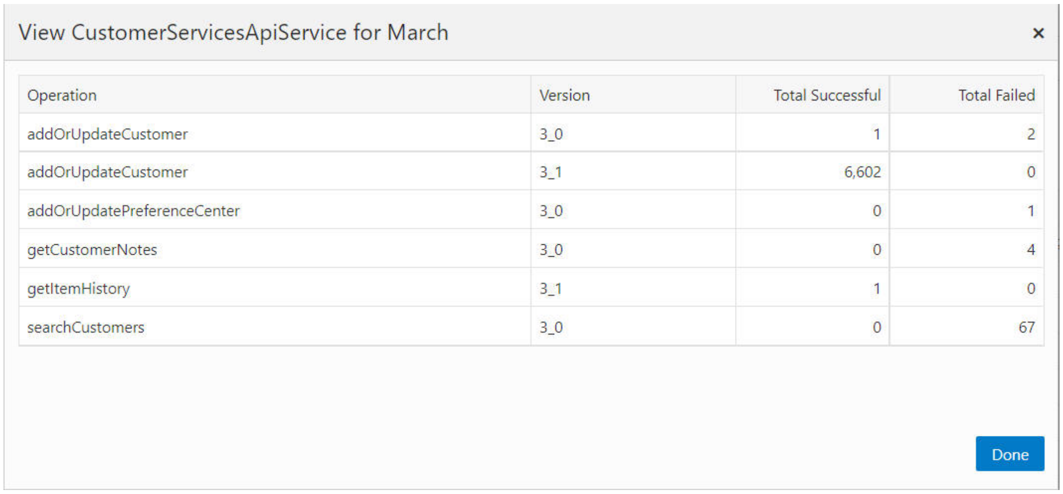
You have the ability to view operation details for a service to allow you to troubleshoot problems. To view operational details:

1. Use the **Date Picker** to enter a date.
2. Select a **specific time period** with a value **greater than zero** within one of the Activity Views.

> **Note:**
>
> The View Action Menu item is only available for specific time periods. The Total and Average section details of each view are unable to be viewed at that level.

3. Click the **Actions** menu **View** option, or the **Eyeglasses icon**. The service details displays.

Figure 13-92 Service Details



View CustomerServicesApiService for March

addOrUpdateCustomer	3_0	1	2
addOrUpdateCustomer	3_1	6,602	0
addOrUpdatePreferenceCenter	3_0	0	1
getCustomerNotes	3_0	0	4
getItemHistory	3_1	1	0
searchCustomers	3_0	0	67

4. After viewing the details click **Done** to close the window.
5. You can refresh the list by clicking the **Refresh** icon or picking the **Refresh** option from the **Actions menu**.

Users

You have the ability to view, search and edit a list of users, so that you can update user details.

Searching for Users

To search for a user do the following:

1. Click Tasks.
2. Click Admin
3. Click User. The User Search window displays.

Card Administration

The Card Administration page provides Users with access to Cards issued to Customers, and the Accounts associated with those Cards. Users can then view information about that Card or Account, or make any necessary changes to that Card or Account.You can use this page to work with Tender Accounts, Award Accounts, and Loyalty Accounts.

Overview

This chapter contains the following:

- Overview
- Card Search
- Card and Account Details
  - Basic Card Information
- Actions Menu
  - Activate Card
  - Add Account
  - Card Attributes
  - Deactivate Card
  - Merge Card
  - Reset Card Expiration Date
  - Unblock Card
  - View Card Details
- Tender Account
- Award Account
- Loyalty Account

Card Search

The Card Search page uses Card-specific or Account-specific information to locate a Card to open in Card Administration.

To perform a Card search:

1. Either select Task>Program>Card Search or select the Card Search icon on the Menu Bar.

   The Card Search page opens.

Select an Account

No account has been selected.

This area displays the following information:

- Card Information - Basic information about the Card. This includes the following information:
  - Card Number - Card Number for the Card.
  - Serial Number - Serial Number for the Card.

  - Primary holder - Name of Customer designated as the primary holder of the Card. Click the name to open Customer Record of the primary holder in the Customer Dashboard.
  - Card Status - Current status of the Card.
  - Card Holders - Total number of Customers assigned to this Card. This includes a link that will display all cardholders in a mini popup and will allow the user to click on a name which will open the customer dashboard for the selected customer.
- Accounts Panel - Displays the Accounts associated with the Card.
  - Account Name - Name of the Account.
  - Account Number - Account Number for the Account.
  - Account Type - Type of Account (Tender, Award, or Loyalty).
  - Value

    Tender - Current balance in the tender account.

    Award - Current E-Award balance for Award Accounts.

    Loyalty - Current Points balance for Loyalty Accounts
  -
  -
- Select an Account Panel - This section lists the accounts associated with the Card. Select an **Account** listed in the Accounts Panel to populate the Account Details and Activity.

  The fields are based on the type of program selected.
- Filter By - Options are based on the type of program selected.
- Sort By - Options are based on the type of program selected.
- Account Activity List
  - Activity ID - The ID of the Activity. Click the **Activity ID** to see the Activity Details. Click **Done** to close the Activity Details and return to the Activity List.
  - Voided - Indicates whether or not the activity was voided.
  - Activity Type - Type of activity performed.
  - Value

    Tender - Displays the activity amount.

    Award - Displays the e-award value or the entitlement offer name. A link will display for an entitlement offer that will open the View Offer screen.

    Loyalty - Displays the points associated with the activity.
  - Date and Time - Date and Time of the activity.
  - Location - Location where the activity occurred. Click on the Location ID to view details.
  - Coupon ID - The ID of the Coupon (visible for Award Program only).

Actions Menu

The Actions Menu for the Card Administration page (without selecting a specific Account, such as an Award Account) has the following options:

- Activate Card - Activate an inactive Card (only shown for inactive Cards). See Activate Card.
- Add Account - Add a Loyalty Account to the Card. This option is available only if there is a Loyalty Account that has not been applied to the Card, when the Card was generated for a Program that has the Dynamically Create Accounts option selected. Also, the DynamicProgramAccountAdmin role controls access to this option. See Add Account.
- Card Attributes - The details of the card attributes. See Card Attributes.
- Deactivate Card - Deactivate an active Card (only shown for active Cards). See Deactivate Card.
- Merge Card - Merge the Card with another Card. See Merge Card.
- Reset Card Expiration Date - Set a new expiration date for the Card. See Reset Card Expiration Date.
- Unblock Card - Enables you to unblock a card that has been blocked from deactivating or merging a card with a tender account. See Unblock Card.
- View Card Details - Displays the details for the selected card. See View Card Details.

Open Customer Record

To open the Customer Record for the Customer associated with the Card, see Figure 14-4 and do one of the following:

- Click the **name** of the Primary holder. The Customer Record of the primary holder opens in the Customer Dashboard.
- Click the **number** of Card Holders to open a menu containing a menu of all of the Customers associated with the Card. Click the **name** in the menu to open the Customer Record in the Customer Dashboard.

Card Series Attributes include the following:

- Attribute Name
- Attribute Value
- Description

Card Attributes

Card Attributes - A List of Card Attributes currently assigned to the Card. Information displayed for each Card Attribute:

- Group- The group associated with the attribute.
- Name - The Name of the Card Attribute.
- Description - The Description of the Card Attribute
- Value - The current Value of the Card Attribute
- Data Type - The Card Attribute Data Type. Possible Data Types are:
  - Character - A string of characters entered through a Text Field
  - Number - A number value entered through a Text Field
  - Currency - A currency amount entered through a Text Field.
  - Date - A date entered through a Calendar Menu

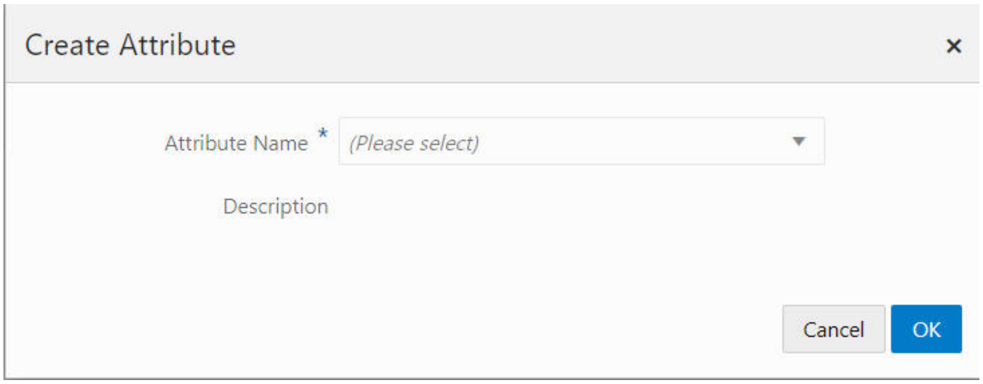
  - Logical - A true or false value entered through a Selection Menu
  - List - One of a number of defined values selected through a Selection Menu
- Unique - Indicates whether the Attribute can be assigned more than once:
  - Yes - The Attribute can only be assigned to a Card once
  - No - The Attribute can be assigned to a Card multiple times.
- Editable - Indicates the permissions required for a user to edit this attribute value in a customer record.
  - Yes - This attribute can edited by any user with permission to edit customer records.
  - No - This attribute can only be edited by a user with system administration permissions.
- Open Access - Indicates whether there is Open Access to this attribute.
  - Yes - This Attribute has Open Access.
  - No - This Attribute does not have Open Access.
- Publish to Batch Exporter - Indicates whether each Attribute value can be included in batch export to a Marketing system.

Add Card Attribute

To add a Card Attribute to a Card:

1. Click the **Actions Menu**, then, click **Add**, or click the **Add (+)** icon. This opens Create Attribute.

Figure 14-9 Create Attribute



2. Select the **Attribute Name**.
3. Enter or select the **Value** for the Attribute.
4. Either click **OK** to save the Attribute or **Cancel** to close without saving.

>
> If you flag Loyalty Programs to Dynamically Create Accounts, it is possible that two Cards you are merging do not share the same Accounts. For example, Card A has Accounts for Programs 1 and 2, and Card B has Accounts for Programs 2 and 3. The merge will dynamically create the Accounts that do not already exist for Card A. After the merge, Card A has Accounts for Programs 1, 2, and 3, and Card B has deactivated Accounts for Programs 2 and 3.

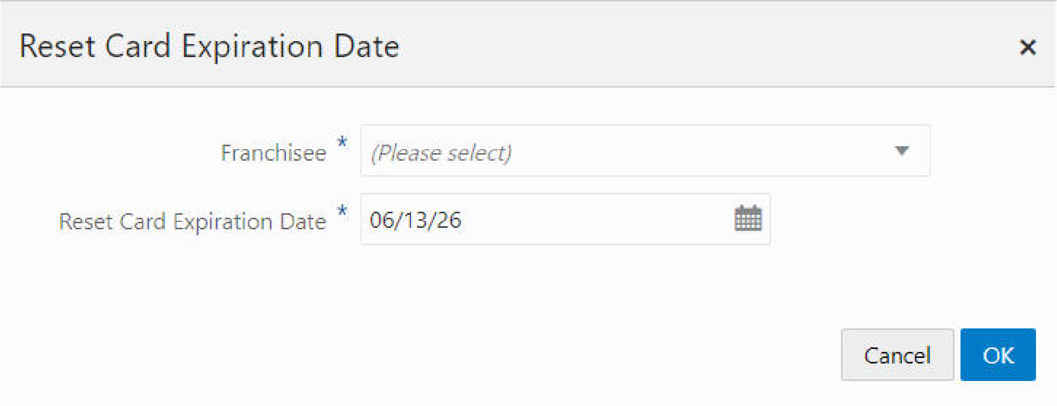
To exit the Window without merging the Cards, click **Cancel**.

Reset Card Expiration Date

Expiration dates can be set on individual Cards in Customer Engagement. To set a new expiration date for an individual Card:

1. Click **Reset Card Expiration Date** in the Actions Menu. A Reset Card Expiration Date Window opens.

Figure 14-19 Reset Card Expiration Date Window



Reset Card Expiration Date

Franchisee * (Please select)

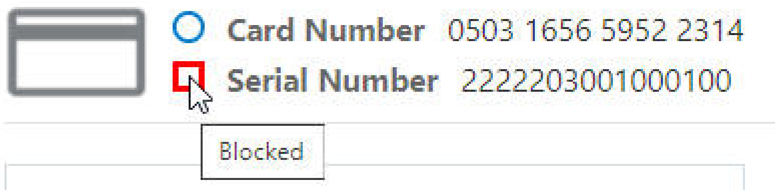
Reset Card Expiration Date * 06/13/26

2. Select a **Franchisee**, if Franchisees are available.
3. Use the Reset Card Expiration Date Calendar Menu, select the **new expiration date** for the Card.
4. Either click **OK** to change the Card Expiration Date to the new value and close the Window or click **Cancel** to close the Window without saving.

Unblock Card

Typically a card will be blocked when the card has been deactivated and has a tender account on the card as shown inFigure 14-20. To unblock a card:

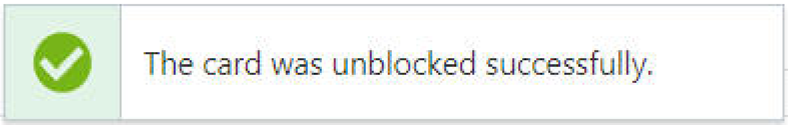
Figure 14-20 Blocked Card



Card Number 0503 1656 5952 2314
Serial Number 2222203001000100

1. Click **Unblock Card** in the Actions Menu.
2. Select a **Reason Code**.
3. Select a **Location**.
4. Enter **Comments**.
5. Click **OK** to unblock a card, or click **Cancel** to close without saving.

Figure 14-21 Confirmation Notification



The card was unblocked successfully.

> **Note:**
>
> A confirmation notification appears to confirm the card was unblocked successfully.

View Card Details

Click **View Card Details** to open the details for a card. Click **Done** to close the window.

- Tender Account Administration - Displays information about the Tender Account. This area includes the following information:

  - Program Name - Name of the Program to which the Account belongs.
  - Account ID - ID number for the Account.
  - Balance - Current tender balance of the Account.
  - Frozen Balance - Balance of the Account that is currently frozen.
  - Program Activation Amount - Amount the account will be activated for when there is no activation amount specified in the transaction. The original balance on the card could be different from this program activation amount.
  - Currency - Base currency for the Program.
  - Last Used Date - Date of the most recent activity on the Account.
  - Account Expiration - Date when the Account expires

> **Note:**
>
> Note that if the Tender Account was merged with another Account, Customer Engagement will display the message "Account has been merged" below the Tender Account Administration area.

- Tender Account Activity - A List displaying each action performed on the Account.

  The information in the List is determined by the Filter Activity Menu.

  The following information is displayed for each Account action:

  - Activity ID - ID of the activity on the Account.
  - Voided - Indicates whether the activity was voided.
  - Activity Type - Type of activity performed.
  - Value - Value applied to the Account by the activity.
  - Date and Time - Date and time of the activity.
  - Location - ID of the location where the activity occurred.

Filter Activity Menu

The Filter Activity menu is a Filter for the Tender Account Activity List. This Selection Menu filters the Tender Account Activity List by Activity Type, such as Deactivate. The default setting is All.

Tender Account Actions Menu

The Actions Menu for Tender Accounts displays the following options:

- Preauthorize - Preauthorize an amount on the Card. See Pre-Authorize an Amount.
- Redeem - Redeem an existing amount from the balance on the Card. See Redeem an Amount.
- Reload - Reload the Card with an additional amount. See Reload a Card.

Preauthorize an Amount

To preauthorize an amount on a Card:

1. Click **Preauthorize** in the Tender Account Actions Menu for a Tender Account. A Perform Action: Preauthorize Window opens.

Figure 14-24 Preauthorize Window

- Award Account Administration - Displays information about the Award Account. This area includes the following information:
  - Program Name - Name of the Program to which the Account belongs. Click the **Program Name** to open the View Program window.
  - Account ID - ID number for the Account.
  - Balance - Current award balance of the Account.
  - First Used - Date of the first activity on the Account.
  - Last Used - Date of the most recent activity on the Account.
  - Account Expiration - Date when the Account expires.

  > **Note:**
  >
  > If the Award Account was merged with another Account, Customer Engagement displays the message "Account has been merged" below the Award Account Administration area.

- Award Account Activity - A List displaying each action performed on the Account.

  The information in the List is determined by the Filter Activity Menu.

  The following information is displayed for each Account action:
  - Activity ID - ID number of the activity within the transaction.
  - Voided - Indicates whether the activity was voided.
  - Activity Type - Type of activity performed.
  - Value - Displays the E-award value or the entitlement offer name. A link will display for an entitlement offer that will open the View Offer screen.

    Tender - Displays the activity amount.

    Award - Displays the e-award value or the entitlement offer name. A link will display for an entitlement offer that will open the View Offer screen.

    Loyalty - Displays the points associated with the activity.
  - Date and Time - Date and time of the activity.
  - Location - Location where the activity took place. Click the **Location** to view the Location Details.
  - Coupon ID - ID number for the coupon (if any) created or redeemed by the activity.

Filter Activity Menu

The Filter Activity menu is a Filter for the Award Account Activity List. This Selection Menu filters the Award Account Activity List by Activity Type, such as Activate or Issue Coupon. The default setting is All.

Award Account Actions Menu

The Actions Menu for the Award Account will display the following options.

- Award Transfer - Transfer one or more E Awards or Award Certificate Coupons to another Award Account for the same Program. This option is available only if the Card is linked to an active Customer. See Transfer Award.
- Expire Coupon - Expire an E-Award or Award Certificate Coupon so that it can no longer be redeemed. See Expire Coupon.
- Issue Coupon - Issue a Coupon to the Customer. See Issue a Coupon.
- View Coupons - View the Coupons that have been issued by the Award Account to the Customer. See View Coupons.

Award Transfer

To transfer one or more E-Awards or Award Certificate Coupons to another Award Account for the same Program, select Award Transfer from the Award Account Actions Menu. The Award Transfer page opens.

Process

To add a card using Search By Card

- In the Search for Card with Award Account, enter the **Card Number** or **Serial Number** of the Card you want to search for. Click **Partial** to search for Cards that partially match the search text, or click **Exact**, to search for an exact match.

To add a card using Search By Customer

- In the Search By Customer field, enter the **Customer Name**, **ID**, **Email Address**, or **Phone Number** of the Customer you want to search for. Click **Partial** to search for Customers that partially match the search text, or click **Exact**, to search for an exact match.

- Loyalty Account Administration. Displays information about the Loyalty Account. This area includes the following information.
  - Program Name - Name of the Program to which the Account belongs. Click the **Program Name** to view the View Program window.
  - Account ID - ID number for the Account.
  - Level - Name of the Loyalty Level to which the Account currently belongs.
  - Balance - Current points balance of the Account.
  - Escrow - Number of points currently escrowed in the Account.
  - YTD - Number of points earned by the Account in the current year to date.
  - LTD - Number of points earned by the Account during the lifetime of the Account.
  - First Used - Date of the first activity on the Account.
  - Last Used - Date of the most recent activity on the Account.
  - Account Expiration - Date when the Account expires.
- Loyalty Account Activity

  A List displaying each action performed on the Account.

  The information in the List is determined by the Filter Activity Menu.

  This List uses Page Navigation to organize the actions.

  The following information is displayed for each Account action:
  - Activity ID - ID of the activity on the Account.
  - Voided - Indicates whether the activity was voided.
  - Activity Type - Type of activity performed.
  - Value - Number of Points applied to the Account by the activity.
  - Date and Time - Date and time of the activity.
  - Location - Location of the activity. Click the **Location ID** to view the location details.

Filter Activity Menu

The Filter Activity menu is a Filter for the Loyalty Account Activity List. This Selection Menu filters the Loyalty Account Activity List by Activity Type, such as Change Level or Award. The default setting is All.

Loyalty Account Actions Menu

The Actions Menu for a Loyalty Account displays the following options.

- Change Level - Change the Loyalty Level of the Loyalty Account. See Change Level.
- Delete Account - Delete a Loyalty Account that has been added to the Card. This option is available only for a Loyalty Account that was applied to the Card, because the Card was generated for a Program that has the Dynamically Create Accounts option selected. Also, the DynamicProgramAccountAdmin role controls access to this option. See Delete Account.

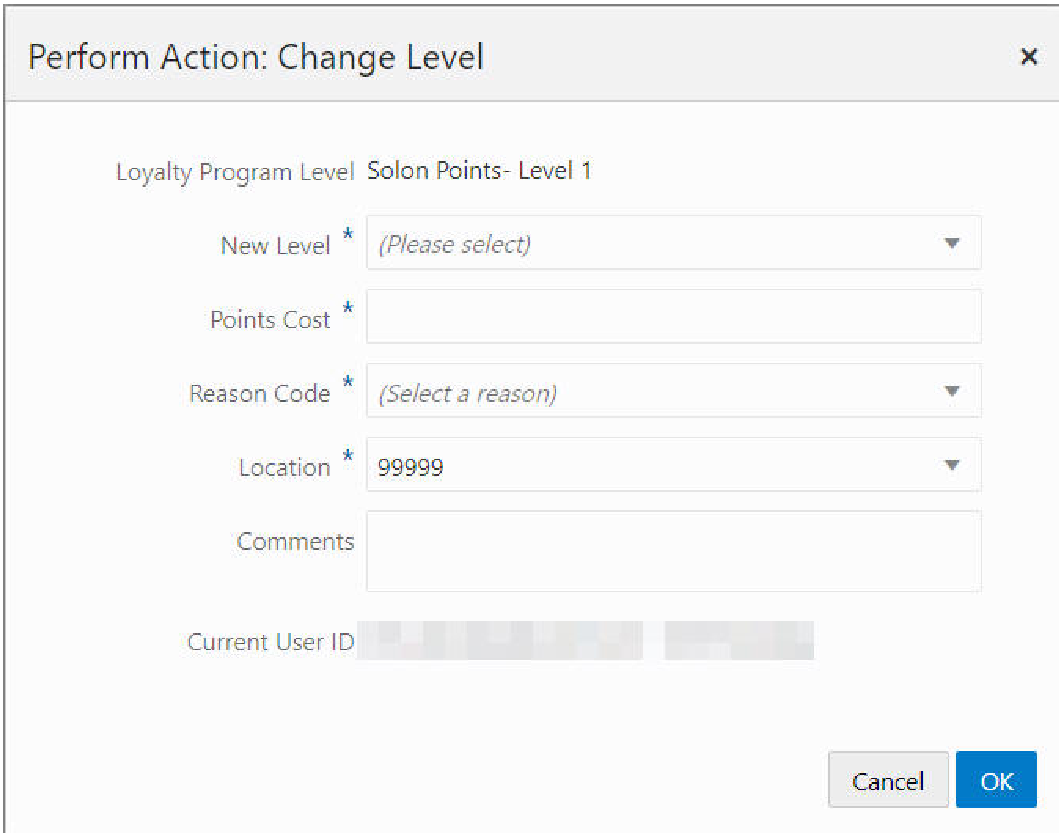
- Issue Award - Issue an award to a Customer. See Issue Award.
- Issue Points - Issue points to a Loyalty Account. See Issue Points.
- Point Recovery - Issue points that were not issued to a Customer in a previous transaction. See Recover Points.
- Points Transfer - Transfer points to another Loyalty Account for the same Program. This option is available only if the Card is linked to an active Customer. See Points Transfer.

Change Level

To change the Loyalty Level for a Customer:

1. Click Change Level in the Loyalty Account Actions Menu for a Loyalty Account. A Perform Action: Change Level Window opens.

Figure 14-42 Perform Action: Change Level



Perform Action: Change Level

Loyalty Program Level Solon Points- Level 1

2. Enter the information for changing the Loyalty Level.
   - New Level - Use the Selection Menu to select the new Loyalty Level for the Account. The menu includes the Levels in the Loyalty Program.
   - Points Cost - The number of points to remove from the Loyalty Account for changing the Loyalty Level.
   - Reason Code - Use the Selection Menu to select the reason for changing the level.
   - Location - Use the Selection Menu to select the location where the Loyalty Level change is being performed.

  - Comments - Enter any comments describing the change in Loyalty Level.

3. Click **OK** to change the Loyalty Level and close the Window, or click **Cancel** to close the Window without change the Loyalty Level of the Account.

Delete Account

Select this option to delete a Loyalty Account that has been added to the Card. This option is available only for a Loyalty Account that was applied to the Card, because the Card was generated for a Program that has the Dynamically Create Accounts option selected. Also, the DynamicProgramAccountAdmin role controls access to this option.

Click **Delete Account** in the Loyalty Account Actions Menu for a Loyalty Account.The Delete Account window opens.

Warning: Deleting an account will immediately and irreversibly purge account detail and history. Continue with Dynamic Account deletion?

☐ Select to Confirm

This window displays the following information about the Loyalty Account.

- Account ID - ID number for the Account associated with the activity.
- Program Name - Name of the Program to which the Account belongs.
- Program Currency - ID of the currency used for the Loyalty Program.
- Escrow Points - Number of points currently escrowed in the Account.
- Year to Date Points - Number of points earned by the Account in the current year to date.
- First Activity Date - Date of the first activity on the Account.
- Expiration Date - Date when the Account expires.
- Loyalty Program Level - Name of the Loyalty Level to which the Account currently belongs.
- Earned Points - Current points balance of the Account.

- Lifetime To Date Points - Number of points earned by the Account during the lifetime of the Account.
- Last Used Date - Date of the most recent activity on the Account.

Click **Select to Confirm** and then click **OK** to delete the Loyalty Account.

Note that when you delete a Loyalty Account, this information is not included in the Batch Export.

Issue Award

To issue an Award to an Account:

1. Click Award in the Loyalty Account Actions Menu for a Loyalty Account. A Perform Action: Issue Award Window opens.

Figure 14-44 Perform Action: Issue Award

OK

2. Enter the information for issuing the award.
   - Award Rule - Use the Selection Menu to select the Award Rule to use for issuing the Coupon for the Loyalty Account. The menu includes those Award Rules that belong to the Loyalty Program and Level the account is currently assigned to.

> **Note:**
>
> Only the award rules for the 'paper' coupons will be listed. The rules created for e-awards and award certificates will not be displayed

- Points Cost - The number of points to remove from the Loyalty Account as part of issuing the Coupon.
- Reason Code - Use the Selection Menu to select the reason for awarding the points.
- Location - Use the Selection Menu to select the location where the Award is being issued.
- Comments - Enter any comments describing the issuance of the Award.

3. Click **OK** to issue the Award and close the Window, or click **Cancel** to close the Window without issuing an Award.

Issue Points

To issue points to a Loyalty Account:

1. Click Issue in the Loyalty Account Actions Menu for a Loyalty Account. A Perform Action: Issue Window opens.

2. Enter the information for issuing points:

- Issue Rule - Use the Selection Menu to select the Loyalty Level Issue Rule to use for issuing the points. The menu includes those rules that belong to the Loyalty Program and Level the account is assigned to.
- Number of Points - The number of points to issue. For an Issue Rule whose Calculation Type is set to The number of marketing engagements, the Number of Points defaults from the Fixed Amount defined for the rule, but it can be overridden. See Issue Rule of the Programs chapter for background.
- Reason Code - Use the Selection Menu to select the reason for issuing the points.
- Location - Use the Selection Menu to select the location where the points are being issued.
- Comments - Enter any comments describing the points issued.

3. Click **OK** to issue the points and close the Window, or click **Cancel** to close the Window without issuing points.

This window does not prevent you from issuing points more often than specified for the Issue Rule when the Calculation Type is set to The number of marketing engagements. See Issue Rule of the Programs chapter for background.

Recover Points

To issue loyalty points that were earned, but not issued to a Customer for a specific transaction:

1. Click **Point Recovery** in the Loyalty Account Actions Menu for a Loyalty Account. A Perform Action: Search for Retail Transaction Window opens.

2. Enter the transaction search information.
   - Location Number - ID number for the location where the transaction was performed.

- Register ID - ID number for the register where the transaction was performed.
- Business Date - Use the Calendar Menu to select business date when the transaction was performed.
- Sequence Number - The purchase number for the transaction.

> **Note:**
>
> Refer to Figure 14-55 to see the 'Purchase' number that should be used for this field. In a future release, we will likely rename this field to match so there will be no confusion.

3. Click **OK** to search for the transaction and close the window, or click **Cancel** to close the window without searching for the transaction.

   If the transaction is found and the loyalty points have not been processed for that line item, a Perform Action: Point Recovery Window opens.

Comments

The information on the Points Transfer page includes.

- Transfer Source Account:
  - Card Number - Card Number for the Card selected for points transfer.
  - Serial Number - Serial Number for the Card selected for points transfer.
  - Card Holder - Customer number and name of the a secondary card holder can also be displayed when searching by customer. If the primary cardholder is displayed, a primary cardholder icon will display next to the name. Click the name to open Customer Record of the card holder in the Customer Dashboard.
  - Card Status - Indicates whether the Card is currently active.
  - Card Holders - Indicates the number of Customers associated with the Card. Click the number of Card Holders to open a menu containing a menu of all of the Customers associated with the Card. Click the name in the menu to open the Customer Record in the Customer Dashboard.
- Loyalty Account Administration
  - Account id - ID number for the Account.
  - Program Name - Name of the Program to which the Account belongs.
  - Loyalty Program Level - The current level of the Loyalty Account.
  - Escrow Points - Number of points currently escrowed in the Account.
  - Earned Points - Current points balance of the Account.
  - Program Currency - Base currency for the Program.

  - Year To Date Points - Number of points earned by the Account in the current year to date.
  - Lifetime Points - Number of points earned by the Account during the lifetime of the Account.
  - First Used Date - Date of the first activity for the Loyalty Account.
  - Last Activity Date - Date of the most recent activity for the Loyalty Account.
  - Expiration Date - Date, if any, when the Loyalty Account is scheduled to expire.
- Customer Contact Permissions: The originating Customer can be notified of the transfer by an email or SMS message generated by an integrated marketing system, such as Responsys, if the Customer's contact permissions allow email or phone contact and if the marketing system supports it. See Points/Awards Transfer Notification Export for background.
  - Contact Preference - Indicates the preferred means for contact for the Customer, such as Email or Phone.
  - Email - The Customer's primary email address. Included if email is a preferred means of contact.
  - Phone - The Customer's primary phone number. Included if phone is a preferred means of contact.
  - The Email or Phone listed is None if the contact information is not available, indicating that no email or SMS message can be generated. Also, even when the Customer has provided the email address or phone number, the Email Address or Phone is listed as None if the Contact Permission is set to No.

Process

1. To add a card do the following:
   - Using Search by Card
     - In the Search for Card with Loyalty Account, enter the **Card Number** or **Serial Number** of the Card you want to search for. Click **Partial** to search for Cards that partially match the search text, or click **Exact**, to search for an exact match.
   - Using Search By Customer
     - In the Search By Customer field, enter the **Customer Name**, **ID**, **Email Address**, or **Phone Number** of the Customer you want to search for. Click **Partial** to search for Customers that partially match the search text, or click **Exact**, to search for an exact match.
2. Click **Search**. The Search Results appear.

Comments

- Card - Card Number for the Card. If the selected Customer has more than one Card in the Program, the most recently used Card is selected and displayed.
- Serial Number - Serial Number for the Card.
- Primary Card Holder - Customer name of the primary account holder.
- Selected Card Holder - Customer name of the selected card holder.
- Loyalty Level - The current loyalty level.

  - Current Balance - Current balance on the card.

4. Enter the Number of points to transfer. Your entry cannot exceed the Earned Points balance for the Transfer Source Account.
5. Enter any **Comments**.
6. Click **OK** to transfer the points, or click **Cancel** to close the window without saving.

The Points are transferred to the Destination Account. A Transfer In Activity Detail record is created for the Destination Account, and a Transfer Out Activity Detail record is created for the Source Account.

Loyalty Account Activity Actions Menu

The Actions Menu for Loyalty Accounts Account Activity List displays the following options:

- **Change Earn Date** - Changes the date the escrowed points will be moved to earned.
- **View Activity Details** - Views the details of the selected activity.
- **View Customer Details** - Views the details of the selected customer.
- **View Transaction Details** - Views the details of the selected transaction.
- **Void Activity** - Voids the selected activity

Change Earn Date

Perform the following actions to change the date the escrowed points will be moved to earned.

1. In the Account Activity area, click the **Action** menu for the desired activity.
2. Click Change Earn Date. The Change Earn Date window displays.

3. The Activity Detail Window displays the following information for the selected activity:
   - Account ID - ID number for the Account associated with the activity.
   - Activity ID - ID of the activity on the Account.
   - Activity Type - Type of activity performed.
   - Activity Date/Time - Date and time of the activity.
   - Number of Points - Number of points applied to the points balance, or subtracted in the case of an activity such as Change Level or Transfer Out.
   - Issue Type - The issue type of the tender,.
   - Exchange Rate - If the transaction was performed in a foreign currency, the exchange rate between the foreign currency and the Account's base currency.
   - Requested Amount - Requested currency amount.
   - Requested Currency - Currency used for the requested amount, if different from the base currency.
   - Converted Amount - Amount of the request in the system's base currency
   - Earn Date - Date a pending activity will complete.

- Pending Points Balance - Number of points pending at the time of the activity.
- Earned Points Balance - Earned points balance at the time of the activity
- Void Flag - Indicates whether the activity was voided.
- Referenced Activity ID - ID of an activity to which this activity refers.
- Referenced Account ID - ID of the Loyalty Account used by the Referenced Activity
- Merge From Account - If two cards have been merged, the originating source account is displayed.
- Location ID - ID of the Location where the activity was performed.
- Location Name - Name of the Location where the activity was performed.
- Business Date - Business date of the activity.
- Retail Transaction Sequence - Sequence number of the activity on the retail transaction
- Workstation ID - ID of the workstation (within the Location) where the activity was performed.
- Retail Transaction ID - ID number of the activity within a retail transaction.
- Create Date - Date when the activity was created.
- Create User ID - ID of the user who created the activity.
- Update Date - Date when the activity was most recently updated.
- Update User ID - ID of the last user to update the activity.
- Error Description - If an error occurred during the activity, a description of the error.
- Franchisee - Franchisee associated with the activity.
- Reason Code - Reason for the activity.
- Comments - Additional comments entered about the activity.

4. Click **Done** to close the window.

View Customer Details

Do the following to view the customer details.

1. In the Account Activity area, click the **Action** menu for the desired activity.
2. Click View Customer Details. The Customer Dashboard displays in a new tab. See Customer Dashboard to see more information.
3. Click **x** to close the Customer Dashboard.

View Transaction Details

Do the following to view the transaction details.

1. In the Account Activity area, click the **Action** menu for the desired activity.
2. Click **View Transaction Details**. The Item Purchase History for the transaction displays.

Note:

This is in the Customer Feature as well and can be accessed from the Customer Dashboard. See Item Purchase History for more information.

Segment Queries

When creating an Unstratified or a Stratified Segment, it is important to know what you need to enter/select in each field, whether there is a particular format for the data entered, and what the query is going to return. If you are not sure what Customer Engagement is doing, you may get an error on the query or the results may not be what you expect.

This appendix explains what is required for each query template.

The following conventions apply to data entry when creating a segment:

- Dates must be in the MM/DD/YYYY format.
- When entering numbers, do not use commas, dollar signs, or decimal places unless specifically instructed to do so.
- When entering text, do not use any punctuation unless instructed otherwise.

Overview

This chapter addresses the following;

- Overview
- Segment Query Categories
- Segment Queries
- Strata Queries

Segment Query Categories

The following is a list of the Segment Query categories:

- Customer Demographics
- Customer Contact
- Customer Attributes
- Purchase Activity
- Basic Programs
- Segment Elements
- Promotion Activity
- Strategic Segments
- Loyalty Segments

These categories are available at the Segment Query step of the Create Segment wizard, and control the customers selected for the Stratified or Unstratified Segment.

The following is a list of the Stratified Query categories:

- Loyalty Summary
- Transaction Criteria
- Line Item Detail

These categories control how the customers are broken out into strata for a Stratified Segment, and are available at the Strata Query step of the Create Segment Wizard if a Strata Type of Loyalty or Transaction was selected at the Strata Field step.

The Strata Query step is not available when a Strata Type of Customer was selected at the Strata Field step. Also, this step is not available for an Unstratified Segment.

Segment Queries

The following categories are available at the Segment Query step of the Create Segment wizard, and control the customers to select for the Stratified or Unstratified Segment.

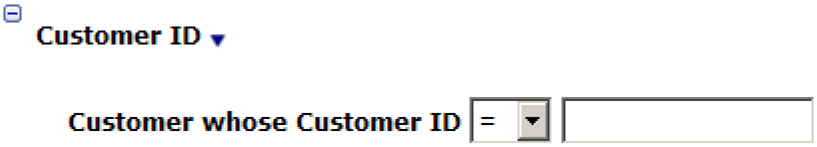
Customer Demographics

This category is available at the Segment Query step of the Create Segment wizard, and controls the customers to select for the Stratified or Unstratified Segment

Customer ID

This query returns active and valid Customers whose Customer ID matches your input.

Figure 15-1 Customer ID



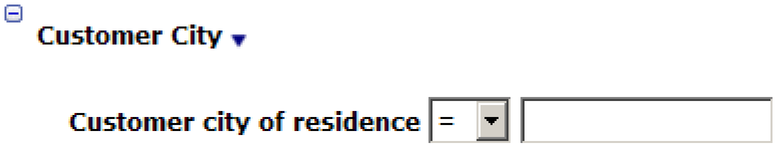
Customer ID ▾

Customer whose Customer ID =

Customer City

This query returns active and valid Customers whose primary and active address is in the city you have specified.

Figure 15-2 Customer City



Customer City ▾

Customer city of residence =

Customer State

This query returns active and valid Customers whose primary and active address is in the state you have specified.

Calculations

This appendix provides additional information on a few of the core retail calculations to help aid your understanding. It is important to understand that a particular measure can be calculated in many ways because it is impacted by many different input measures. When a value is changed that impacts the other editable values, the impacted measures that then need to be recalculated are protected so that you cannot also update the values. This prevents deadlock or circular calculation in which you do not know where to start recalculating.

Calculations on Scorecards

The following table lists the calculations used in Scorecards.

ORCE Feature	Location	Tile/Data Field	Calculation
Promotion Scorecard	revenue LY (tile)	promotion performance	SUM(CMP_PROMO_DEAL_RESULT.DIRECT_REVENUE)
	average transaction (tile)		
	average units (tile)		TABLE: CMP_PROMO_TRAN_RESULT
		direct revenue	SUM(TRAN_TOTAL - INDIRECT_REVENUE)
		indirect revenue	SUM(INDIRECT_REVENUE)
		total revenue	SUM(TRAN_TOTAL)
		Cost of goods sold	SUM(COST_OF_GOODS_TOTAL)
		markdowns	SUM(MARKDOWN_TOTAL)
		awards	Number of Award accounts (AWD_AWARD_ACCT.ACCOUNT_ID) multiplied by the award certificate amount (CMP_PROMO_AWARD_CERTIFICATE.AMOUNT)
		gross profit	SUM(TRAN_TOTAL) - SUM(COST_OF_GOODS_TOTAL)
		margin %	gross profit / SUM(TRAN_TOTAL) * 100)
		promotion cost	SUM(CMP_OFFER.FIXED_OFFER_COST) + SUM(COST_PER_THOUSAND) + (Sum of all associated CMP_PROMO_COST.AMOUNT)
		net profits	gross profit - promotion cost
		Promotion Cost per Customer per audience	promotion cost / total number of customers in target audience (CMP_CUST_PROMO_TARGET)

ORCE Feature	Location	Tile/Data Field	Calculation
		Promotion Cost per responded customer	promotion cost / total number of customers in target audience that have responded (CMP_CUST_PROMO_TARGET where CUST_RESPONDED_FLAG = 1) **Note**: If Target name is null or “Unidentified", the response will include a count of the distinct transactions from the CMP_PROMO_TRAN_RESULT table for the promotion.
		Revenue per customer in audience	direct revenue / total number of customers in target audience (CMP_CUST_PROMO_TARGET) (For Points promotions this will be always be 0)
		Revenue per Responded Customer	direct revenue / total number of customers in target audience that have responded (CMP_CUST_PROMO_TARGET where CUST_RESPONDED_FLAG = 1) **Note**: If Target name is null or "Unidentified", the response will include a count of the distinct transactions from the CMP_PROMO_TRAN_RESULT table for the promotion. (For Points promotions the INDIRECT_REVENUE is used in the calculation)
Promotion Scorecard continued	average units (tile) continued	Net Profit per customer in audience	net profits / total number of customers in target audience (CMP_CUST_PROMO_TARGET)
		Net Profit per responded customer	net profits / total number of customers in target audience that have responded (CMP_CUST_PROMO_TARGET where CUST_RESPONDED_FLAG = 1) **Note**: If Target name is null or "Unidentified", the response will include a count of the distinct transactions from the CMP_PROMO_TRAN_RESULT table for the promotion.
	average transaction (tile) coupon promotion	value of discount	SUM(CMP_PROMO_DEAL_RESULT.TOTAL_DISCOUNT) for the coupon code, Promotion and target
		average sales by coupon	SUM(CMP_PROMO_DEAL_RESULT.DIRECT_REVENUE) / Count of distinct RTL_TRAN_ID (Transaction Ids) in CMP_PROMO_DEAL_RESULT for the Coupon Code, Promotion and Offer.
		coupon revenue	SUM(CMP_PROMO_DEAL_RESULT.DIRECT_REVENUE) for the Coupon Code, Promotion and Offer.

ORCE Feature	Location	Tile/Data Field	Calculation
		Estimated distribution	CMP_PROMODEAL_COUPONCODE.ESTIMATED_DISTRIBUTION (If CMP_PROMO.COUPON_SERIALIZED_FLAG is set, then CMP_PROMODEAL_COUPONCODE.COUPON_GEN_COUNT is used instead)
		response %	(Count of distinct customers in CMP_PROMO_DEAL_RESULT for the coupon code, promotion, offer and target / Estimated distribution) * 100
	points for purchase	loyalty points tile	SUM(NUM_PTS) from LYL_LOYALTY_ACCT_ACT for the promotion
		average points per transaction	SUM(CMP_PROMO_DEAL_RESULT.LOYALTY_POINTS) / Count of distinct CMP_PROMO_DEAL_RESULT.RTL_TRAN_ID (Transaction Ids)
	response rate (tile)	total	COUNT of distinct Customer Ids in CMP_CUST_PROMO_TARGET for the promotion and target.
		sent	COUNT of CMP_CUST_PROMO_TARGET records where the EMAIL_DELIVERED_FLAG is set for the promotion and target.
		opened	COUNT of CMP_CUST_PROMO_TARGET records where the EMAIL_OPENED_FLAG is set for the promotion and target.
		clicked	COUNT of CMP_CUST_PROMO_TARGET records where the EMAIL_CLICKED_THROUGH_FLAG is set for the promotion and target.
		undeliverable	COUNT of CMP_CUST_PROMO_TARGET records where the EMAIL_UNDELIVERED_FLAG is set for the promotion and target.
		Net targeted	total - undeliverable
		net delivery	sent - undeliverable
		respondents	COUNT of distinct Customer Ids in CMP_CUST_PROMO_TARGET where the CUST_RESPONDED_FLAG = 1 for the promotion and target.
Promotion Scorecard continued	response rate (tile) continued	non- respondents	total - respondents
		net response rate	respondents / net delivery
		Response rate	respondents / total

ORCE Feature	Location	Tile/Data Field	Calculation
		award value	"For points promotions - Sum of the number of points (NUM_PTS) from Loyalty Account Activity (LYL_LOYALTY_ACCT_ACT) for the promotion and target. For other promotions: Award Certificate amount multiplied by the number of accounts linked to the promotion and target."
		redeemed award value	award value - remaining value (which is the sum of awd_award_coupons.amount for the award accounts linked to the promotion and target)
Offer Scorecard	Revenue LTD (tile	direct revenue	"SUM(CMP_PROMO_DEAL_RESULT.DIRECT_REVENUE) for the offer For Points Promotions, this value is always 0."
		last month revenue	This value is the total direct revenue as calculated above for the duration selected on the scorecard.
		response rate	respondents / Count of distinct customers from CMP_CUST_PROMO_TARGET for the promotion and offer
		respondents	Count of distinct customers from CMP_PROMO_DEAL_RESULT for the offer.
	Average Unit Retail (tile)	Direct Revenue	"SUM(CMP_PROMODEAL.DIRECT_REVENUE) For Points Promotions - Total Points = SUM(CMP_PROMODEAL.LOYALTY_POINTS) "
		total cost of goods sold	SUM(TRN_LINE_ITEM.ITEM_UNIT_COST) where VOID_FLAG=0 AND LINEITM_TYPCODE = Sale AND CMP_PROMO_DEAL_RESULT record exists for the transaction and offer
		total discounts	SUM(CMP_PROMO_DEAL_RESULT.TOTAL_DISCOUNT) for the offer
		average units sold	SUM(TRN_LINE_ITEM.ITEM_QUANTITY) where VOID_FLAG=0 AND LINEITM_TYPCODE = Sale AND CMP_PROMO_DEAL_RESULT record exists for the transaction and offer / Count of distinct RTL_TRAN_ID (Transaction Ids) from the CMP_PROMO_DEAL_RESULT table for the offer.
		margin %	(net profit / direct revenue) * 100
		net profits	direct revenue - total cost of goods sold
Segment Scorecard	stratified, unstratified, personal list	customer in segment	Count of CUST_ID from CST_CUSTOMER joined to QRY_USER_QUERY and QRY_CUSTOMER_SEGMENT tables for the segment

ORCE Feature	Location	Tile/Data Field	Calculation
		average value	AVG(TOTAL_SALES_AMT) from CST_CUSTOMER joined to QRY_USER_QUERY and QRY_CUSTOMER_SEGMENT tables for the segment
		average days since purchase	AVG(Current date - CST_CUSTOMER.LAST_TRANS_DATE) joined to QRY_USER_QUERY and QRY_CUSTOMER_SEGMENT tables for the segment
Segment Scorecard continued	stratified, unstratified, personal list continued	average purchases LTD	AVG(CST_CUSTOMER.TOTAL_TRANS_COUNT) joined to QRY_USER_QUERY and QRY_CUSTOMER_SEGMENT tables for the segment
		LTD Spend	AVG(CST_CUSTOMER.TOTAL_SALES_AMT) joined to QRY_USER_QUERY and QRY_CUSTOMER_SEGMENT tables for the segment
		YTD Spend	AVG(CST_CUSTOMER.YTD_SALES_AMT) joined to QRY_USER_QUERY and QRY_CUSTOMER_SEGMENT tables for the segment
Program Home	all active program		Count of total programs in ACT_PROGRAM where the ACTIVE_FLAG = 1
	active tender outstanding balance		SUM(SVC_TENDER_ACCT.BALANCE * EXCHANGE_RATE obtained from DRV_CURRENCY_EXCHANGE_RATES) for all SVC_TENDER_PROGRAM records
	active award certrificates/ value		SUM(AWD_AWARD_COUPONS.AWARD_AMOUNT * EXCHANGE_RATE obtained from DTV_CURRENCY_EXCHANGE_RATES) from AWD_AWARD_ACCT (Award accounts) where the EXPIRATION_DATE is null or greater than/equal to the current date.
	active loyalty oustanding points		SUM(EARNED_PTS_BALANCE) from LYL_LOYALTY_ACCT (Loyalty accounts)
Promotion Home	promotion revenue LTD		SUM(CMP_PROMO_TRAN_RESULT.TRAN_TOTAL) for all promotions that are active on the current date and not terminated.
	offer revenue LTD		SUM(CMP_PROMO_DEAL_RESULT.DIRECT_REVENUE) for all active promotions on the current date.
Segment Home	total active		Count of QRY_USER_QUERY (segment) records where there is a Job associated (job_job_def) that has the enabled_flag set.
