*These components are included in Oracle BPEL Process Manager Option via the inclusion of Oracle Internet Application Server Enterprise Edition in Oracle WebLogic Suite. The Mediator is derived from Oracle Enterprise Service Bus (OESB), which was introduced in Oracle Fusion Middleware 10g Release 3 and was Oracle's primary Enterprise Service Bus on Oracle Containers for Java EE as well as on third-party Java EE platforms such as WebSphere. Users of Oracle SOA Suite 10g can migrate functionality from OESB to the Mediator component. Oracle Service Bus has become the Fusion Middleware strategic inter-application service bus going forward.

Restricted use: Any use of Oracle SOA Suite components not listed above requires a full use license for Oracle SOA Suite.

Prerequisite: A license for Oracle WebLogic Suite is a prerequisite to license Oracle BPEL Process Manager Option.

Prerequisite: A license for Oracle BPEL Process Manager Option requires a separate license for Oracle database. For details, see Full Use License of Oracle Database Standard Edition 2.

Restricted use: A license for Oracle BPEL Process Manager Option includes a restricted-use license for Enterprise Scheduler. Use of the Enterprise Scheduler feature of Oracle BPEL Process Manager Option is limited to scheduling Oracle BPEL Process Manager Option internal jobs and composite services.

Restricted use: A license for Oracle BPEL Process Manager Option includes a restricted-use license for Oracle Coherence Enterprise. Use of Oracle Coherence Enterprise is limited to clustering, portable object format, local caching, and support for internal Service Oriented Architecture (SOA) usage.

Restricted use: A license for Oracle BPEL Process Manager Option release 11g includes UDDI client libraries from the HP SOA Systinet Registry. Use of UDDI client libraries is restricted to connecting to and communicating with the Oracle Service Registry.

- Third-Party Products and Details for Oracle BPEL Process Manager

Third-Party Products and Details for Oracle BPEL Process Manager

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle BPEL Process Manager in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle BPEL Process Manager with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle BPEL Process Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle BPEL Process Manager:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

The following table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle BPEL Process Manager.

Table 4-1 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle BPEL Process Manager

Oracle Service Bus

Oracle Service Bus is a lightweight SOA integration platform, or "enterprise service bus." Oracle Service Bus includes Oracle SOA Suite Adapters (see Oracle Fusion Middleware Adapters).

Oracle Service Bus is licensed as an option to Oracle WebLogic Suite and is also included in Oracle SOA Suite and Oracle Mobile Suite. Users running Oracle SOA Suite on WebLogic Server Basic may not run Oracle Service Bus (see Oracle SOA Suite and Oracle BPEL Process Manager Option Licensing with Oracle Internet Application Server).

Prerequisite: A license to Oracle WebLogic Suite is a prerequisite to license and use Oracle Service Bus.

Prerequisite: A license to Oracle Database (Standard Edition 2 or Enterprise Edition) is a prerequisite to license and use the following Oracle Service Bus features: Reporting provider, Re-sequencer, Xrefs and Enterprise Scheduler.

Restricted use: Oracle Service Bus includes the Enterprise Scheduler feature. Use of the Enterprise Scheduler feature is limited to scheduling Oracle Service Bus internal jobs and proxy services.

Restricted Use: A license to Oracle Service Bus includes a restricted use license for Oracle Web Services Manager. Use of Oracle Web Services Manager is restricted to policy enforcement in Oracle Service Bus. Authoring and management tooling is limited to capabilities delivered with Oracle Service Bus console screens. New policies may be authored with command line and scripting tools only. Any other use of Oracle Web Services Manager requires a full use license to Oracle SOA Suite.

- Third-Party Products and Details for Oracle Service Bus

Third-Party Products and Details for Oracle Service Bus

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Service Bus, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Service Bus with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Service Bus are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Service Bus:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Service Bus.

Table 4-2 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Service Bus

Provider	Component(s)	Release Versions	Licensing Information
Apache	Ant 1.7 1.6.2	12.2.1.2.0 12.2.1.3.0	This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`). For a copy of the license, see Apache License Version 2.

Table 4-2 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Service Bus

Provider	Component(s)	Release Versions	Licensing Information
Apache	Xerces 1.1, C++, 1.6, 2.4, 2.5, 2.6, 2.7, 2.7.0	12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	Axis Java, 1.2.1, 2.1.1, 1.4, 1.4.2	12.2.1.2.0 12.2.1.3.0	This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`). Portions Copyright 2006 International Business Machines Corp. Portions Copyright 2005-2007 WSO2, Inc. This product also includes schemas and specification developed by: - the W3C consortium (`http://www.w3c.org`) This product also includes WS-* schemas developed by International Business Machines Corporation, Microsoft Corporation, BEA Systems, TIBCO Software, SAP AG, Sonic Software, and VeriSign This product also includes a WSDL developed by salesforce.com - Copyright 1999-2006 salesforce.com, inc. Portions of the included xmlbeans library were originally based on the following: - software copyright (c) 2000-2003, BEA Systems, `<http://www.bea.com/>`. For a copy of the license, see Apache License Version 2 .
Apache	XML Beans Developer Kit (xbean.jar) 2.3.0, 2.2.0 and 2.1.0	12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	Commons Pool 1.5.2	12.2.1.2.0 12.2.1.3.0	This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`). For a copy of the license, see Apache License Version 2.
Apache	Commons Codec 1.1.2	12.2.1.4.0	For a copy of the license, see Apache License Version 2.
Apache	Commons FileUpload 1.4	12.2.1.4.0	For a copy of the license, see Apache License Version 2.

Oracle SOA Suite

Oracle SOA Suite is an application integration platform.

Oracle SOA Suite is licensed as an option to Oracle WebLogic Suite and includes:

- Oracle BPEL Process Manager
- Oracle Service Bus
- Mediator

  The Mediator is derived from Oracle Enterprise Service Bus (OESB), which was introduced in Oracle Fusion Middleware 10g Release 3 and was Oracle's primary Enterprise Service Bus on Oracle Containers for Java EE as well as on third-party Java EE platforms such as WebSphere. Users of Oracle SOA Suite 10g can migrate functionality from OESB to the Mediator component. Oracle Service Bus has become the Fusion Middleware strategic inter-application service bus going forward.
- Oracle Web Services Manager
- Oracle Business Rules
- Oracle Human Workflow
- Oracle Event Processing
- Oracle JDeveloper and Oracle Application Development Framework
- Enterprise Scheduler
- Oracle Business Activity Monitoring
- Oracle SOA Core Extension
- Oracle SOA Suite Adapters (see Oracle Fusion Middleware Adapters)
- Oracle Entitlements Server Basic (see Oracle Entitlements Server Basic)
- Technology Adapters*
- B2B*

  *These components are included in Oracle SOA Suite via the inclusion of Oracle Internet Application Server Enterprise Edition in Oracle WebLogic Suite.

Users running Oracle SOA Suite on WebLogic Server Basic, Oracle SOA Suite and Oracle BPEL Process Manager Option Licensing with Oracle Internet Application Server are licensed to run all components of Oracle SOA Suite except Oracle Service Bus and Oracle Event Processing.

Prerequisite: A license to Oracle WebLogic Suite is a prerequisite to license and use Oracle SOA Suite.

Prerequisite: A license to Oracle database is a prerequisite to license and use Oracle SOA Suite. For details, see Oracle Database License Requirements: Oracle Internet Application Server (Standard Edition, Enterprise Edition) and WebLogic Suite.

Restricted use: Oracle Business Activity Monitoring includes a restricted-use license to Oracle Data Integrator Enterprise Edition. Use of Oracle Data Integrator Enterprise Edition is restricted to scenarios where Oracle Business Activity Monitoring is the source of and/or destination for the transformed data.

Restricted use: A license to Oracle SOA Suite includes a restricted-use license for Oracle Coherence Enterprise Edition. Use of Oracle Coherence Enterprise Edition is limited to clustering, portable object format, local caching, and support for internal SOA usage.

Restricted use: A license to Oracle SOA Suite release 11g includes UDDI client libraries from the HP SOA Systinet Registry. Use of UDDI client libraries is restricted to connecting to and communicating with the Oracle Service Registry.

Third-Party Products and Details for Oracle Business Activity Monitoring

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Business Activity Monitoring, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Business Activity Monitoring with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Business Activity Monitoring are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle JDeveloper:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

Table 4-3 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Activity Monitoring

Provider	Component(s)	Release Versions	Licensing Information
Apache	ActiveMQ 5.6.0	12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2

Provider	Component(s)	Release Versions	Licensing Information
Terence Parr	ANTLR 2.7.6	11.1.1.9.0	We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software. We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc. If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed. In countries where the Public Domain status of the work may not be valid, the author grants a copyright licence to the general public to deal in the work without restriction and permission to sublicence derivates under the terms of any (OSI approved) Open Source licence. The Python parser generator code under antlr/actions/python/ is covered by the 3clause BSD licence (this part is included in the binary JAR files); the runtime part under lib/python/ is covered by the GNU GPL, version 3 or later (this part is not included in the binary JAR files). See here for the full details.

Third-Party Products and Details for Oracle Business Process Management

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Business Process Management, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Business Process Management with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Business Process Management are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Business Process Management:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

The following table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Business Process Management.

Table 4-5 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Process Management

Provider	Component(s)	Release Versions	Licensing Information
Android Open Source Project	Google Droid Fonts	12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	Ant 1.6.2 1.7	11.1.1.9.0 12.2.1.2.0 12.2.1.3.0 12.2.1.4.0	"This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`)." For a copy of the license, see Apache License Version 2
Apache	Commons Compress 1.1	11.1.1.9.0 12.2.1.2.0 12.2.1.3.0	Apache Commons Compress Copyright 2002-2011 The Apache Software Foundation This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`). For a copy of the license, see Apache License Version 2
Apache	fop.jar 1 1.1	11.1.1.9.0	For a copy of the license, see Apache License Version 2
Apache	Fop 1.1	12.2.1.3.0 12.2.1.4.0	Apache FOP Copyright 1999-2012 The Apache Software Foundation This product includes software developed at The Apache Software Foundation (`http://www.apache.org/`). This software consists of voluntary contributions made by many individuals on behalf of The Apache Software Foundation and was originally created by James Tauber `<jtauber@jtauber.com>`. Oracle Unified Business Process Management Suite

Oracle Unified Business Process Management Suite is a software suite that integrates the modeling, integration, execution, management and monitoring of business processes into a

complete lifecycle that supports rapid change. It enables the creation, execution, and optimization of business processes, providing for unparalleled collaboration between business and IT. As a result, business processes are automated and optimized to improve efficiency and agility while costs are lowered. Oracle Unified Business Process Management Suite leverages your existing IT investments and is specially tuned for line-of-business users. Using Oracle Unified Business Process Management Suite, you can improve productivity and visibility and provide your organization with the ability to respond to market needs as never before.

Oracle Unified Business Process Management Suite comprises the following components:

- Oracle BPM Studio

  Oracle BPM Studio is a set of extensions on top of Oracle JDeveloper providing Business Process Modeling Notation (BPMN) modeling and simulation, including business friendly modeling of supporting artifacts such as organization, business calendars, business catalog, and business objects. In particular, business process guides navigate end users through different activities they need to perform as part of a process, organizing them in milestones and aggregating status.

- Oracle BPM Composer

  Oracle BPM Composer is a web based modeling and customization tool for BPMN models and Business Rules.

- Oracle BPMN Service Engine and Workflow Extensions

  Oracle BPMN Service Engine provides the ability to execute BPMN models natively and integrates with Oracle Enterprise Manager Fusion Middleware Control for administration and management. Workflow Extensions add more advanced capabilities to the base workflow capabilities in Oracle BPEL Process Manager and Oracle SOA Suite. These extensions include approval management extensions, which are features targeted at sophisticated document-based and dynamic approval routing.

- Oracle BPM Process Spaces

  Oracle BPM Process Spaces include Oracle Unified Business Process Management Suite-specific WebCenter Spaces Group Spaces, corresponding templates, and task flows.

- Oracle BPM Process Analytics

  Oracle BPM Process Analytics include the ability to define business indicators as part of process models and to capture these and other standard process metrics in an included STAR schema. It also provides seamless integration to Oracle Business Activity Monitoring.

> **Note:**
>
> 1. Oracle Unified Business Process Management Suite includes a restricted license for Oracle WebPortal for use with Process Portal/Process Spaces only. Oracle WebPortal is a user interaction suite for building portals, composite applications, and Enterprise 2.0 social and collaborative applications with seamless combination of search, publishing, and knowledge management.
> 2. Oracle Unified Business Process Management Suite includes a restricted license for Oracle WebCenter Content for use with Oracle Unified Business Process Management Suite and Process Portal/Process Spaces only. For WebCenter Content usage, see the "WebCenter Content" bullet .

- Oracle WebCenter Portal (restricted use: for use with Process Portal/Process Spaces only)

  Oracle WebCenter Portal is a user interaction suite for building portals, composite applications, and Enterprise 2.0 social and collaborative applications with seamless combination of search, publishing, and knowledge management.

- Oracle WebCenter Content (restricted use: for managing documents, Web Content -WCM- and Digital Assets -DAM-)

  Oracle WebCenter Content can be used to store all content that is attached to BPM process instances, process models and other artifacts, as well as delivered as part of any WebCenter Portal Web site, application, or portal (see restricted usage of WebCenter Portal above). This includes base content management features, such as versioning and rendering different renditions of content, as well as indexing content in the repository for integration with search results within the site, portal, or application. This also includes full feature usage of the Web Content Management (WCM), Digital Asset Management (DAM), and other WebCenter Content components for content attached to BPM process instances, models, and other artifacts, as well as delivered via WebCenter Portal. All interactions can be done through BPM Suite interfaces, including Workspace, Process Composer, and JDev, the WebCenter Portal portal interface, a custom application, Desktop integrations, or the WebCenter Content user interface, including administration activities.

Prerequisite: A license for Oracle SOA Suite is a prerequisite to license and use Oracle Unified Business Process Management Suite.

Oracle SOA Suite and Oracle BPEL Process Manager Option Licensing with Oracle Internet Application Server

Customers that have a valid license for Oracle BPEL Process Manager Option and Oracle SOA Suite on Oracle Internet Application Server Enterprise Edition have the right to use Oracle WebLogic Server Basic to run those products on Oracle WebLogic Server as part of their existing Oracle Internet Application Server Enterprise Edition license. This does not include the right to run Oracle Service Bus or Oracle Event Processing on WebLogic Server Basic. Oracle WebLogic Server Basic is described in WebLogic Server Basic.

Oracle WebLogic Coherence Grid Edition Option

Oracle Coherence Grid Edition Option may only be licensed as an option to Oracle WebLogic Suite. Oracle WebLogic Coherence Grid Edition Option enables full use of Oracle Coherence Grid Edition. Oracle WebLogic Coherence Grid Edition Option is included in Oracle WebLogic Server Multitenant (see Oracle WebLogic Server Multitenant and Oracle WebLogic Server Continuous Availability (see Oracle WebLogic Server Continuous Availability). For more information see Oracle Coherence Products.

Oracle WebLogic Server Enterprise Edition and WebLogic Suite Options

If licensing by Named User Plus, the number of licenses to Oracle WebLogic Server Enterprise Edition and Oracle WebLogic Suite Options must match the number of licenses to the associated Oracle WebLogic Suite application server. In the case where the minimum number of Named User Plus licenses are/were purchased, the number of licenses may not match due to variance in core factors between the times the respective programs were licensed. If licensing by Processor, the number of licenses to Oracle WebLogic Server Enterprise Edition and Oracle WebLogic Suite Options must match the number of licenses to the associated Oracle WebLogic Suite application server. In the case where the programs are licensed at

different times, the number of licenses may not match due to variance in core factors between the times the respective programs were licensed, in that case the number of cores used to determine the number of licensed processors for Oracle WebLogic Server Enterprise Edition and Oracle WebLogic Suite Options must match the number of cores used to determine the number of licensed processors of Oracle WebLogic Suite application server. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.

- Oracle WebLogic Server Multitenant
- Oracle WebLogic Server Continuous Availability

Oracle WebLogic Server Multitenant

Oracle WebLogic Server Multitenant enables consolidation of separate WebLogic Server and Coherence applications and caches into fewer domains through an infrastructure capability called Domain Partitions. Domain Partitions enable WebLogic Server Domain and Coherence Data Grid consolidation while maintaining security and isolation between applications and caches.

Oracle WebLogic Server Multitenant includes the following components:

- Oracle Traffic Director (deprecated in 12.2.1.4.0)
- Oracle WebLogic Server Multitenant Domain Partitions and integrated constructs including Virtual Targets, Resource Groups, Resource Consumption Managers
- Oracle WebLogic Coherence Grid Edition Option

Oracle WebLogic Server Enterprise Edition and Oracle WebLogic Suite (which includes Oracle WebLogic Server Enterprise Edition) include a single user created WebLogic partition (single tenant) without requiring a license to Oracle WebLogic Server Multitenant.

Prerequisite: A license to Oracle WebLogic Server Enterprise Edition or Oracle WebLogic Suite is a prerequisite to license and use Oracle WebLogic Server Multitenant. A license to either Oracle Coherence Enterprise Edition or Oracle WebLogic Suite (which includes Oracle Coherence Enterprise Edition) is a prerequisite to use the Oracle WebLogic Coherence Grid Edition Option included in Oracle WebLogic Server Multitenant.

Third-Party Products and Details for Oracle Traffic Director

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Traffic Director, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Traffic Director with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Traffic Director are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Traffic Director:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

Java SE Products

Licensing information for Java SE products is available at the following location:

http://www.oracle.com/technetwork/java/javase/documentation/index.html

Such licensing information includes Java SE-specific license terms, a description of commercial features that are restricted for use in certain scenarios, and notices and license for third party components.

Oracle WebLogic Server Continuous Availability

Oracle WebLogic Server Continuous Availability enables setting up, running, managing and monitoring multi data center infrastructures with Oracle WebLogic Server, Oracle Coherence and Oracle Traffic Director.

Oracle WebLogic Server Continuous Availability includes the following components:

- Oracle Traffic Director
- Oracle WebLogic Server Cross Domain XA Transaction Recovery
- Oracle WebLogic Server Domain Partition Live Migration
- Oracle WebLogic Coherence Grid Edition Option
- Oracle Enterprise Manager Site Guard

Prerequisite: A license to Oracle WebLogic Server Enterprise Edition or Oracle WebLogic Suite is a prerequisite to license and use Oracle WebLogic Server Continuous Availability. A license to either Oracle Coherence Enterprise Edition or Oracle WebLogic Suite (which includes Oracle Coherence Enterprise Edition) is a prerequisite to use the Oracle WebLogic Coherence Grid Edition Option included in Oracle WebLogic Server Continuous Availability. A license to Oracle WebLogic Server Multitenant is a prerequisite to use Oracle WebLogic Server Domain Partition Live Migration included in Oracle WebLogic Server Continuous Availability.

Oracle SOA Suite Options

The number of licenses to Oracle SOA Suite options must match the number of licenses to Oracle SOA Suite.

- Oracle Integration Continuous Availability
- Third-Party Products and Details for Oracle Webservices Manager

Oracle Integration Continuous Availability

Oracle Integration Continuous Availability includes operational capabilities to maximize uptime, diagnose and tune the service-oriented architecture environment, and make SOA deployments more resilient to exceptions and overload.

Oracle Integration Continuous Availability includes the following high availability features:

- Circuit Breaker
- Composite Instance Patching
- Automatic Service Migration (ASM) support
- Integration Workload Statistics
- In-Memory SOA

Prerequisite: A license to Oracle SOA Suite is a prerequisite to license and use Oracle Integration Continuous Availability.

Prerequisite: A license to Oracle WebLogic Server Continuous Availability is a prerequisite to license and use Oracle Integration Continuous Availability. If using only In-Memory SOA, a license to Oracle WebLogic Server Continuous Availability is not required.

Third-Party Products and Details for Oracle Webservices Manager

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Webservices Manager, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Webservices Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Webservices Manager:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Webservices Manager.

Third-Party Products and Details for Oracle JRF Webservices

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle JRF Webservices, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle JRF Webservices with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle JRF Webservices are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle JRF Webservices:

- 12.1.3.0.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle JRF Webservices.

Application Server Enterprise Management

The following Oracle Enterprise Manager products can be licensed for use with WebLogic Suite options:

- Oracle SOA Management Pack Enterprise Edition
- Oracle WebLogic Server Management Pack Enterprise Edition

Oracle SOA Management Pack Enterprise Edition

This pack delivers management and modeling capabilities for a SOA-based environment. By combining SOA run-time governance, business-IT alignment, model-driven metrics, and SOA infrastructure management with Oracle's rich and comprehensive system management solution, Oracle Enterprise Manager Cloud Control reduces the cost and complexity of managing SOA-based environments.

For complete license details about SOA Management Pack Enterprise Edition, see "Oracle Middleware Enterprise Management" in *Oracle Enterprise Manager Licensing Information*. This document is available from the Oracle Enterprise Manager Documentation page at `http://www.oracle.com/technetwork/oem/grid-control/documentation/index.html`.

Oracle WebLogic Server Management Pack Enterprise Edition

This pack offers a solution for managing Oracle Fusion Middleware, Oracle WebLogic Server, and Oracle Application Server.

For licensing information, please refer to Oracle WebLogic Server Management Pack Enterprise Edition.

Third-Party Products and Details for Oracle Fusion Middleware

This topic lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Fusion Middleware Options, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Fusion Middleware Options with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Fusion Middleware Options are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Fusion Middleware Options:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Fusion Middleware Options.

Table 4-9 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Fusion Middleware

Provider	Component(s)	Release Versions	Licensing Information
Shay Banon and ElasticSearch	ElasticSearch 5.2	12.2.1.3.0 12.2.1.4.0	For a copy of the license, see Apache License Version 2

5
Exalogic Elastic Cloud Software

The Oracle Exalogic Elastic Cloud Software is a set of software components, tools, and documentation required to make the Exalogic Elastic Cloud Hardware functional and usable as a platform for Oracle's Fusion Middleware and business applications.

The Exalogic Elastic Cloud Software license grants the right to use all supported features of the software and firmware installed on the Exalogic Elastic Cloud Hardware by Oracle at the time of manufacture.

There are no supported means of operating the Exalogic Elastic Cloud Hardware that does not require use of the Exalogic Elastic Cloud Software. The principal components of the Exalogic Elastic Cloud Software are as follows:

- **Exalogic Base Image**: a collection of device drivers, device firmware, software libraries and configuration files that allow other software products to make use of the Exalogic Elastic Cloud Hardware and ensure the optimal performance and reliability of the system. Portions of this software extend the Oracle Linux and Oracle Solaris bootable operating system images that are required to operate the Exalogic Elastic Cloud hardware.
- **Oracle Traffic Director**: an optimized software load balancer feature providing a highly available, high performance routing, caching and network traffic shaping capability for Exalogic.

  Oracle Traffic Director includes the following restricted use licenses:

  – Restricted Use License Oracle WebLogic Server Enterprise Edition Standard Edition restricted to WebLogic Server to be used as a host to provide Java EE runtime environment for Oracle Traffic Director
- **Oracle Virtual Assembly Builder**: enables rapid configuration and provisioning of multi-tier application topologies onto virtualized and cloud environments.

  Oracle Virtual Assembly Builder includes the following restricted use licenses:

  – Restricted Use License Oracle WebLogic Enterprise Edition restricted to WebLogic Server to be used as a host to provide Java EE runtime environment for Oracle Virtual Assembly Builder Deployer in Exalogic Control

  – Restricted Use License Oracle Coherence Enterprise Edition to be used for persistence, state management architecture and high availability for Oracle Virtual Assembly Builder Deployer functionality in Exalogic Control
- **Exalogic System Utilities**: A collection of utilities that are used to configure and validate the configuration, physical state, firmware and software of the Exalogic system.

Oracle Exalogic Elastic Cloud Software also includes a license-restricted set of features that enables improved performance and reliability of Fusion Middleware products. For information about using these optimizations on the Exalogic Elastic Cloud, see "Enabling Exalogic-Specific Enhancements in Oracle WebLogic Server 11g Release 1" in *Exalogic Elastic Cloud Enterprise Deployment Guide*: http://docs.oracle.com/cd/E18476_01/doc.220/e18479/optimization.htm

Oracle Exalogic Elastic Cloud Software has the following performance optimization entitlements for each Fusion Middleware product identified below.

This chapter contains the following sections:

- Oracle Coherence
- Oracle WebLogic Server
- Oracle Tuxedo
- Use of Exalogic Elastic Cloud Software on the Oracle Private Cloud Appliance and Oracle Private Cloud at Customer

Oracle Coherence

- Oracle Coherence Optimizations for Exalogic Elastic Cloud Software

Oracle WebLogic Server

- Input/ Output and Work Manager Optimizations for Exalogic Elastic Cloud Software
- JDBC and Data Source Optimizations for Exalogic Elastic Cloud Software
- Cluster State Replication Optimizations for Exalogic Elastic Cloud Software
- Socket Direct Protocol for Exalogic Elastic Cloud Software
- Server and Service Migration Performance Optimizations for Exalogic Elastic Cloud Software
- Java Server Page Factory Caching Optimizations for Exalogic Elastic Cloud Software
- Oracle HTTP Client Optimizations for Exalogic Elastic Cloud Software

Oracle Tuxedo

- Oracle Tuxedo Optimization for Inter-node Communication
- Socket Direct Protocol for Exalogic Elastic Cloud Software
- Oracle Tuxedo Optimization for Lock Mechanism

Use of Exalogic Elastic Cloud Software on the Oracle Private Cloud Appliance and Oracle Private Cloud at Customer

Customers migrating their middleware or application deployments from Oracle Exalogic to the Oracle Private Cloud Appliance or Oracle Private Cloud at Customer are granted the right to use their Exalogic Elastic Cloud Software license on both the Oracle Exalogic and Oracle Private Cloud Appliance (or Oracle Private Cloud at Customer) for a period of six months to facilitate the migration, so long as technical support is maintained on the license. During this period of "dual use", the license may only be used for production on one of these systems.

Exalogic Elastic Cloud Software may be used on the Oracle Private Cloud Appliance and Oracle Private Cloud at Customer.

Due to differences in the hardware/software infrastructure, the components and entitlements that are not supported on the Oracle Private Cloud Appliance or Oracle Private Cloud at Customer are listed in the following table:

Table 5-1 Components and Entitlements Not Supported on Oracle Private Cloud Appliance or Oracle Private Cloud at Customer

Components of Exalogic Elastic Cloud Software	Performance Optimization Entitlements
• Exalogic Base Image • Oracle Virtual Assembly Builder • Exalogic System Utilities	• WebLogic Server – JDBC and Data Source Optimizations (Active GridLink for RAC is supported) – Socket Direct Protocol for Exalogic Elastic Cloud Software • Oracle Coherence – Optimized point-to-point communications on Exalogic • Oracle Tuxedo – Oracle Tuxedo Optimization for Inter-node Communication – Socket Direct Protocol for Exalogic Elastic Cloud Software

6
Oracle Fusion Middleware Adapters

This chapter covers licensing information for Oracle Fusion Middleware adapters.

Table 6-1 lists the types of integration adapters:

Table 6-1 Oracle Fusion Middleware Adapters

Application Adapters (see notes 1 and 5)	Mainframe and TP-Monitor Adapters (see note 5)	Changed Data Capture (CDC) Adapters (see note 5)	B2B Adapters (see notes 2 and 5)	Technology Adapters (see note 3)	Cloud Adapters (see note 5)	SOA Suite Adapters (see note 4)	Integration Adapters (see note 5)
J. D. Edwards	CICS	DB2/390	ebXML	Advanced Queueing	NetSuite	Coherence	JD Edwards World
Oracle E-Business Suite Adapter	IMS DB	IMS/DB	EDI	Database	Oracle Eloqua Marketing Cloud Service	LDAP	SAP R/3
PeopleSoft	IMS TM	VSAM Batch	RosettaNet	File	Oracle ERP Cloud Service	MSMQ	Siebel
SAP	VSAM	VSAM CICS	—	FTP	Oracle HCM Cloud	—	—
Siebel	—	—	—	JMS	Oracle RightNow Cloud Service	—	—
—	—	—	—	MQ Series	Oracle Sales Cloud	—	—
—	—	—	—	Socket	Salesforce.com	—	—
—	—	—	—	UMS	ServiceNow	—	—
—	—	—	—	—	SAP SuccessFactors	—	—
—	—	—	—	—	SAP Ariba	—	—

Notes:

1. SAP, PeopleSoft, Siebel, and J. D. Edwards adapters are each licensed separately under the "Application Adapters" product.
2. B2B for ebXML adapter is available either standalone, or as an included component of B2B for RosettaNet and B2B for EDI.
3. A license to Technology Adapters is included in the licenses for the following products:
   a. Oracle Internet Application Server Enterprise Edition (IASEE)
   b. Oracle WebLogic Suite (through its IASEE component)

c. Oracle SOA Suite for Non-Oracle Middleware

d. Oracle Mobile Suite

e. Oracle BPEL Process Manager Option (through the prerequisite Oracle WebLogicSuite)

f. Oracle SOA Suite (through the prerequisite Oracle WebLogicSuite)

4. A license to Oracle SOA Suite Adapters is only included in the license for the following products: Oracle Service Bus, Oracle Mobile Suite (through its Oracle Service Bus component), and Oracle SOA Suite.

5. Application Adapters, Mainframe and TP-Monitor Adapters, Changed Data Capture (CDC) Adapters, B2B Adapters, Cloud Adapters, and Integration Adapters are licensed separately.

This chapter contains the following sections:

- Adapters License Prerequisites

Adapters License Prerequisites

Prerequisite: A license to Oracle Service Bus or Oracle BPEL Process Manager Option or Oracle BPEL Process Manager or Oracle SOA Suite or Oracle SOA Suite for Non-Oracle Middleware or Oracle WebLogic Integration is a prerequisite to license and use Application Adapters.

Prerequisite: A license to Oracle Service Bus or Oracle BPEL Process Manager Option or Oracle BPEL Process Manager or Oracle SOA Suite or Oracle SOA Suite for Non-Oracle Middleware is a prerequisite to license and use Mainframe and TP-Monitor Adapters.

Prerequisite: A license to Oracle Service Bus or Oracle BPEL Process Manager Option or Oracle BPEL Process Manager or Oracle SOA Suite or Oracle SOA Suite for Non-Oracle Middleware or Oracle Internet Application Server Enterprise Edition is a prerequisite to license and use B2B Adapters (RosettaNet, EDI and ebXML).

Prerequisite: A license to Oracle Service Bus or Oracle BPEL Process Manager Option or Oracle SOA Suite is a prerequisite to license and use Cloud Adapters.

Prerequisite: A license to Oracle Service Bus or Oracle BPEL Process Manager Option or Oracle SOA Suite is a prerequisite to license and use Integration Adapters.

7

Data Integration Products

This chapter describes the licensing information for Data Integration products.

> **Note:**
>
> For Oracle GoldenGate products licensing information, see Oracle GoldenGate Licensing Information.

This chapter contains the following sections:

- Oracle Data Integrator Enterprise Edition
- Oracle Management Pack for Oracle Data Integrator
- Oracle Data Integrator for Big Data (DIBD)
- Oracle Data Integration Suite
- Oracle Enterprise Data Quality
- Oracle Application Adapters for Data Integration
- Oracle Application Adapters for Warehouse Builder
- Oracle Enterprise Metadata Management

Oracle Data Integrator Enterprise Edition

Oracle Data Integrator Enterprise Edition is a software package for enabling scalable data integration in heterogeneous data environments.

Oracle Data Integrator Enterprise Edition includes the following components:

- Oracle Data Integrator (ODI) (excluding those technologies separately licensed in the Oracle Application Adapters for Data Integration).
- Oracle Warehouse Builder Enterprise ETL

To obtain high availability with Oracle Data Integrator Enterprise Edition, separate licenses to Oracle WebLogic Server Enterprise Edition and Oracle Coherence Enterprise Edition are required.

Prerequisite: A license to Oracle Database Enterprise Edition is a prerequisite to license and use Oracle Warehouse Builder Enterprise ETL.

Oracle Warehouse Builder Enterprise ETL extends the extraction, transformation, and loading (ETL) features separately available with Oracle Database and includes the following functionality:

- Accessing sources and targets
  - Native support for heterogeneous databases, including the definition of new platform types, JDBC connectivity, knowledge modules, and code templates

  - Support for Exadata hybrid columnar compression
  - Transparent Data Encryption (TDE) support
  - External Table support for Data Pump imports and exports
  - External Table preprocessor support
  - Change Data Capture mappings in ET
  - Publishing and consuming web services, including integrating with process orchestration technologies such as Oracle BPEL Process Manager
  - Importing Cobol copybooks using the built-in wizard
  - Targeting XML files
- Data Guard certification and failover support
- Working with dimensional objects
  - Creating slowly changing dimensions, types 2 and 3
  - Storing data in OLAP cube-organized materialized views
  - Defining orphan management policies
- Designing and executing ETL jobs
  - Right-time data warehousing utilizing queues and real-time mappings
  - Reusing and embedding mapping code with pluggable mappings
  - Specifying the load order of multiple targets in a single mapping
  - Partitioning and parallelizing updates to tables by utilizing the data chunking feature
  - Scheduling ETL jobs using the built-in Schedule interface
  - Using advanced process flows features (activity templates, use of the following activities: Assign, Set Status, For Loop, While Loop, Route, Notification, EJB, Java Class, and Webservice)
  - Designing mappings to handle complex types using the following operators: varray iterator, construct object, and expand object
  - Rapidly moving large amounts of data with transportable modules
  - Using spatial transformations and streams transformations
  - Compiled PL/SQL code generation
  - Bulk code templates for Oracle --> Oracle, SQL Server --> Oracle, and DB2 --> Oracle
- Integrating with other products
  - Deploying metadata directly to Oracle Discoverer End User Layer
  - Deriving and deploying metadata to Oracle Business Intelligence Enterprise Edition
- Administering Warehouse Builder and its metadata repository
  - Support for database failover
  - Managing environments, including promoting from development to test to production, using the multiple configurations functionality
  - Interactively analyzing metadata lineage and impact and automatically propagating metadata change using the Metadata Dependency Manager
  - Extending the metadata repository using the following: user-defined objects, user-defined associations, user-defined modules, creating icon sets and custom icons

- Hosting the OWB design repository in an Oracle Real Application Clusters (Oracle RAC) environment (executing in an Oracle RAC environment does not require this license)
- Operating multiple databases with OWB repositories from a single Oracle home

Restricted use: A license to Oracle Data Integrator Enterprise Edition includes a restricted use license to Oracle WebLogic Server Standard Edition. Use of Oracle WebLogic Server Standard Edition is restricted to running the Oracle Data Integrator Web Console. Any other use requires a full use license.

- Third-Party Products and Details for Oracle Data Integrator

Third-Party Products and Details for Oracle Data Integrator

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Data Integrator, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Data Integrator with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Data Integrator are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Data Integrator:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Data Integrator.

Table 7-1 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Data Integrator

Oracle Management Pack for Oracle Data Integrator

Management Pack for Oracle Data Integrator provides a consolidated view of a user's entire Oracle Data Integrator (ODI) infrastructure enabling users to monitor and manage the ODI components centrally.

Prerequisite: A license to Data Integrator Enterprise Edition or Data Integrator for Oracle Business Intelligence or Oracle Data Integrator Enterprise Edition for Oracle Applications is a prerequisite to license and use Oracle Management Pack for Oracle Data Integrator.

Oracle Data Integrator for Big Data (DIBD)

Oracle Data Integrator for Big Data (DIBD) includes the following capabilities for use with certain Apache Hadoop technologies, as follows:

- Code generation architecture using;
  - Apache Cassandra Technology
  - Apache Cassandra Knowledge Modules
  - Apache Kafka Technology
  - Apache Kafka Knowledge Modules
  - Apache Spark Technology
  - Apache Spark Knowledge Modules
  - Apache Pig Technology
  - Apache Pig Knowledge Modules
- Execution of ODIEE Scenarios using the Apache Oozie workflow manager.

DIBD is compatible with, but does not include, the above-listed Apache programs. You must separately obtain the Apache programs you wish to use with DIBD.

Restricted Use: A license to Oracle Data Integrator for Big Data includes a restricted use license to Oracle Data Integrator Enterprise Edition restricted to the Oracle Data Integrator component. Use of Oracle Data Integrator component of Oracle Data Integrator Enterprise Edition is restricted to be used when the data transformations are executed in Big Data environments.

Restricted use: A license to Oracle Data Integrator for Big Data includes a restricted use license to Oracle WebLogic Server Standard Edition. Use of Oracle WebLogic Server Standard Edition is restricted to running the Oracle Data Integrator Web Console component of Oracle Data Integrator Enterprise Edition only.

Oracle Data Integration Suite

Oracle Data Integration Suite (ODI Suite) is a software bundle for enabling scalable, highly-accessible data integration in any heterogeneous data environment.

Oracle Data Integration Suite includes:

- Oracle Data Integrator Enterprise Edition
- Hyperion Data Relationship Management (up to maximum of 2,000 records per processor)

Restricted use: A license to Oracle Data Integration Suite includes restricted-use licenses to the following products:

- Oracle WebLogic Suite. Use of Oracle WebLogic Suite is restricted to hosting ODI Suite components including run-time components to provide a Java run-time environment as well as configuration and administration components used for the setup and management of these run-time components. Any other use of Oracle WebLogic Suite requires a full use license.
- Oracle BPEL Process Manager. Oracle BPEL Process Manager may only be used with Oracle Data Integrator and/or Hyperion Data Relationship Management as endpoints.
- Oracle Service Bus. Oracle Service Bus may only be used with Oracle Data Integrator and/or Hyperion Data Relationship Management as endpoints.

Oracle Enterprise Data Quality

Oracle Enterprise Data Quality (EDQ) technology includes the following separately licensed products:

- Oracle Enterprise Data Quality Profiling for Data Integration
- Oracle Enterprise Data Quality Audit and Dashboard for Data Integration
- Oracle Enterprise Data Quality Batch Processing for Data Integration
- Oracle Enterprise Data Quality Real-time Processing for Data Integration
- Oracle Enterprise Data Quality Address Verification Server for Data Integration

Restricted use: A license to any of the EDQ products listed above includes a restricted-use license to WebLogic Server Standard Edition (WLSSE). Use of WLSSE is restricted to hosting Java application logic that is distributed as part of the EDQ products listed above. Any modifications implemented as Java programs, which include Java programs that produce html interfaces or Java business logic, are not permitted. The restricted-use license to WLSSE includes use of the Oracle Application Development Framework subcomponent of the TopLink and ADF component. Any other use of WLSSE requires a full use license.

- Oracle Enterprise Data Quality Audit and Dashboard for Data Integration
- Oracle Enterprise Data Quality Batch Processing for Data Integration
- Oracle Enterprise Data Quality Real-time Processing for Data Integration
- Oracle Enterprise Data Quality Address Verification Server for Data Integration
- Third-Party Products and Details for Oracle Enterprise Data Quality

Oracle Enterprise Data Quality Audit and Dashboard for Data Integration

Prerequisite: A license to Oracle Enterprise Data Quality Profiling for Data Integration is a prerequisite to license and use Oracle Enterprise Data Quality Audit and Dashboard for Data Integration.

Oracle Enterprise Data Quality Batch Processing for Data Integration

Prerequisite: A license to Oracle Enterprise Data Quality Profiling for Data Integration or Oracle Enterprise Data Quality Profile and Audit is a prerequisite to license and use Oracle Enterprise Data Quality Batch Processing for Data Integration.

Oracle Enterprise Data Quality Real-time Processing for Data Integration

Prerequisite: A license to Oracle Enterprise Data Quality Batch Processing for Data Integration is a prerequisite to license and use Oracle Enterprise Data Quality Real-time Processing for Data Integration.

Oracle Enterprise Data Quality Address Verification Server for Data Integration

Prerequisite: A subscription to address data packs obtained from Oracle's partner, Loqate Inc., is required to license and use Oracle Enterprise Data Quality Address Verification Server for Data Integration.

Prerequisite: A license to Oracle Enterprise Data Quality Batch Processing for Data Integration is a prerequisite to license and use Oracle Enterprise Data Quality Address Verification Server for Data Integration.

Third-Party Products and Details for Oracle Enterprise Data Quality

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for the following Oracle Enterprise Data Quality:

- Oracle Enterprise Data Quality Profiling for Data Integration
- Oracle Enterprise Data Quality Audit and Dashboard for Data Integration
- Oracle Enterprise Data Quality Batch Processing for Data Integration
- Oracle Enterprise Data Quality Real-time Processing for Data Integration
- Oracle Enterprise Data Quality Address Verification Server for Data Integration

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Enterprise Data Quality Audit and Dashboard for Data Integration with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Enterprise Data Quality Audit and Dashboard for Data Integration are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Enterprise Data Quality:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Enterprise Data Quality Audit and Dashboard for Data Integration.

Oracle Application Adapters for Data Integration

Oracle Application Adapters for Data Integration assist for reverse-engineering metadata and extracting bulk data from the enterprise resource planning (ERP) software applications listed below in this section.

Restricted use: Each Application Adapter for Data Integration is licensed separately. Use of Application Adapter(s) for Data Integration is restricted for use with Oracle Data Integrator Enterprise Edition and the Oracle Data Integrator component.

Application Adapters for Data Integration are available for PeopleSoft, JD Edwards World, JD Edwards Enterprise One, E-Business Suite, Siebel, SAP Applications and SAP Business Warehouse Applications.

Table 7-3 Included components for Application Adapters for Data Integration

Oracle Application Adapters for Data Integration:	Included Components:
Application Adapter for Data Integration for PeopleSoft	Reverse-engineering Knowledge Module PeopleSoft Oracle Reverse-engineering Knowledge Module PeopleSoft MSSQL
Application Adapter for Data Integration for JD Edwards World	Reverse-engineering Knowledge Module JDE World Reverse-engineering Knowledge Module JDE World (JDE World JDBC Driver) Integration Knowledge Module JDE World Control Append
Application Adapter for Data Integration for JD Edwards Enterprise One	Reverse- Engineering Knowledge Module JDE Enterprise One Oracle Reverse-Engineering Knowledge Module JDE Enterprise One SQL Server Reverse-engineering Knowledge Module JDE Enterprise One DB2 UDB Reverse-engineering Knowledge Module JDE Enterprise One DB2 AS400 Integration Knowledge Module JDE Enterprise One Control Append (UBE)
Application Adapter for Data Integration for Siebel	Integration Knowledge Module SQL to Siebel Append (EIM) Loading Knowledge Module Siebel to SQL (EIM) Reverse-engineering Knowledge Module Siebel Oracle Reverse-engineering Knowledge Module Siebel EIM Oracle Reverse-engineering Knowledge Module Siebel MSSQL Reverse-engineering Knowledge Module Siebel EIM MSSQL
Application Adapter for Data Integration for E-Business Suite	Integration Knowledge Module E-Business Suite (Open Interface) Reverse-engineering Knowledge Module E-Business Suite
Application Adapter for Data Integration for SAP Applications	Reverse-engineering Knowledge Module SAP ERP Connection Test Loading Knowledge Module SAP ERP to Oracle (SQLLDR) Loading Knowledge Module SAP ERP to SQL Reverse-engineering Knowledge Module SAP ERP
Application Adapter for Data Integration for SAP Business Warehouse	Reverse-engineering Knowledge Module SAP BW Loading Knowledge Module SAP BW to Oracle (SQLLDR) Loading Knowledge Module SAP to SQL

Oracle Application Adapters for Warehouse Builder

Each Application Adapter for Warehouse Builder is licensed separately. Any use of Application Adapters for Warehouse Builder, including users constructing their own application adapters for Warehouse Builder using Oracle-documented APIs, requires a full use license to Oracle Data Integrator Enterprise Edition.

Application Adapters for Warehouse Builder are available for PeopleSoft, SAP, Siebel, and E-Business Suite.

Oracle Enterprise Metadata Management

Oracle Enterprise Metadata Management is a software package for metadata management of multi-vendor environments and support for data governance.

8

Oracle Tuxedo Licensing

This chapter describes the Oracle Tuxedo product family and their licensing features.

The Oracle Tuxedo product family consists of the following product categories:

- Oracle Tuxedo
- Add-on Products for Oracle Tuxedo
- Independent Products
- Third-Party Products and Details for Oracle Tuxedo
- Oracle Tuxedo Optimizations for Exalogic Elastic Cloud Software

Oracle Tuxedo

Oracle Tuxedo provides the foundation for the Oracle Tuxedo product family. Oracle Tuxedo includes the following components:

- Oracle Tuxedo Server
- Oracle Tuxedo Standalone Clients

Add-on Products for Oracle Tuxedo

The Oracle Tuxedo product family consists of the following add-on products. Some of these products are included in the Oracle Tuxedo installer, however, a license to Oracle Tuxedo does not include a license to these add-on products. A license to Oracle Tuxedo is a prerequisite to license and use each add-on product.

- Tuxedo Server Components
- Oracle Services Architecture Leveraging Tuxedo (SALT)
- Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus)
- Oracle Tuxedo JCA Adapter
- Oracle Tuxedo Mainframe Adapters (SNA and TCP)
- Oracle Tuxedo Application Runtime (ART) for CICS and Batch
- Oracle Tuxedo Application Runtime (ART) for Batch
- Oracle Tuxedo Application Runtime (ART) for IMS
- Oracle Tuxedo Application Rehosting (ART) Test Manager
- Oracle Tuxedo Advanced Performance Pack

Tuxedo Server Components

Oracle Tuxedo Jolt provides Java-based client API to access the Oracle Tuxedo application services extending functionality of existing Oracle Tuxedo applications to Intranet- and Internet-

wide availability. The Jolt client API can be used in standalone mode or from within an application server, such as Oracle WebLogic server.

Oracle Tuxedo Jolt consists of two components: Oracle Tuxedo Jolt server and Oracle Tuxedo Jolt client. Oracle Tuxedo Jolt must be separately licensed for each computer where the Oracle Tuxedo Jolt server component is installed. A license to Oracle Tuxedo Jolt includes the Tuxedo Jolt client software.

Oracle Services Architecture Leveraging Tuxedo (SALT)

Oracle SALT enables access to Oracle Tuxedo services as web services as well as enables Oracle Tuxedo applications to access Web services hosted outside of the Oracle Tuxedo domain.

Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus)

Oracle TSAM monitors and manages system servers, application servers, and application transactions. A license to Oracle TSAM Plus is required for each computer that you want to monitor and manage using Oracle TSAM Plus. A license to Oracle TSAM Plus entitles you to run one or more instances of TSAM Plus Manager component on the computer.

A license to Oracle TSAM Plus includes a license to the plugin for Oracle Enterprise Manager Cloud Control (OEM CC) 12c to manage one Oracle Tuxedo node.

Restricted use: A license to Oracle TSAM Plus includes a restricted use license to Oracle WebLogic Server Standard Edition. Use of Oracle WebLogic Server Standard Edition is restricted to running the Oracle Tuxedo System and Applications Monitor Plus Web Console.

- Third-Party Products and Details for Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus)

Third-Party Products and Details for Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus)

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus), in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus) with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus) are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus):

- 11.1.1.0

- 12.2.2.0.0
- 12.1.3.0.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus).

Table 8-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus)

Provider	Component(s)	Release Versions	Licensing Information
SpringSource	Spring Framework 3.2.6	12.2.2.0.0	Spring Framework 3.2.0. RELEASE Copyright © 2002–2012 SpringSource, a division of VMware, Inc. This product is licensed to you under the Apache License, Version 2.0 (the "License"). You may not use this product except in compliance with the License. This product may include a number of subcomponents with separate copyright notices and license terms. Your use of the source code for these subcomponents is subject to the terms and conditions of the subcomponent's license, as noted in the `license.txt` file. For a copy of the license, see Apache License Version 2.

Oracle Tuxedo JCA Adapter

Oracle Tuxedo JCA Adapter enables bi-directional access between Tuxedo services and Java Enterprise Edition (Java EE) application servers.

Oracle Tuxedo JCA Adapter must be licensed on the node which is running the Java EE application server, and which is communicating with Oracle Tuxedo Services.

Oracle Tuxedo Mainframe Adapters (SNA and TCP)

Oracle Tuxedo Mainframe Adapters (SNA and TCP) provide bi-directional and transactional connectivity between Oracle Tuxedo and CICS/IMS services running on IBM or Unisys mainframes. These adapters support automatic data conversion to and from HOST formats.

Oracle Tuxedo Application Runtime (ART) for CICS and Batch

Oracle Tuxedo Application Runtime (ART) for CICS and Batch supports rehosting of IBM CICS and batch mainframe applications to Oracle Tuxedo. It provides a combination of APIs and services that allows OLTP and Batch mainframe applications to run unchanged, preserving investment in business logic and data.

Oracle Tuxedo Application Runtime (ART) for Batch

Oracle Tuxedo Application Runtime (ART) for Batch enables rehosting of mainframe batch applications to Oracle Tuxedo running on open systems.

Oracle Tuxedo Application Runtime (ART) for IMS

Oracle Tuxedo Application Runtime (ART) for IMS supports IBM IMS TM mainframe applications rehosted to Oracle Tuxedo.

Oracle Tuxedo Application Rehosting (ART) Test Manager

Oracle Tuxedo Application Rehosting (ART) Test Manager is a tool for managing and automating testing of rehosted CICS, IMS, and Batch applications running on Tuxedo Application Runtimes.

If licensing by Processor, the number of licenses to ART Test Manager must match the number of licenses to the associated Oracle Tuxedo Application Runtime (CICS & Batch, IMS or Batch). In the case where the programs are licensed at different times, the number of Processor licenses may not match due to variance in core factors between the times the respective programs were licensed.

In that case, the number of cores used to determine the number of licensed processors of ART Test Manager must match the number of cores used to determine the number of licensed processors of Oracle Tuxedo Runtime (CICS & Batch, IMS or Batch).

- Third-Party Products and Details for Oracle Tuxedo Application Rehosting (ART) Test Manager

Third-Party Products and Details for Oracle Tuxedo Application Rehosting (ART) Test Manager

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Tuxedo Application Rehosting (ART) Test Manager, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Tuxedo Application Rehosting (ART) Test Manager with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Tuxedo Application Rehosting (ART) Test Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Tuxedo Application Rehosting (ART) Test Manager:

- 11.1.1.0
- 12.2.2.0.0
- 12.1.3.0.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Tuxedo Application Rehosting (ART) Test Manager.

Oracle Tuxedo Advanced Performance Pack

Oracle Tuxedo Advanced Performance Pack consists of following features:

- Routing of all Oracle Database (Database) requests from a global transaction to same Oracle Real Application Cluster (RAC) instance using XA affinity and common XID
- Automatic, real time load balancing across available RAC, Database nodes
- Auto failover/failback across RAC and Database nodes
- Auto SPINCOUNT tuning
- Shared memory queues
- Efficient Transaction Table Locking

The number of licenses to Oracle Tuxedo Advanced Performance Management Pack must match the number of licenses to Oracle Tuxedo.

Independent Products

The following products in the Oracle Tuxedo product family are separately licensed without any dependency on any other products.

- Oracle Tuxedo Application Rehosting Workbench
- Oracle Tuxedo Message Queue

Oracle Tuxedo Application Rehosting Workbench

Oracle Tuxedo Application Rehosting Workbench is used for mainframe application rehosting.

Oracle Tuxedo Message Queue

Oracle Tuxedo Message Queue is an enterprise messaging product. Oracle Tuxedo Message Queue must be licensed for each node it is installed on.

Third-Party Products and Details for Oracle Tuxedo

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Tuxedo, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Tuxedo with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Tuxedo are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Tuxedo:

- 11.1.1.1.0
- 12.2.2.0.0
- 12.1.3.0.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Tuxedo.

Table 8-3 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Tuxedo

Provider	Component(s)	Release Versions	Licensing Information
Apache	Ant 1.7, 1.6.2	12.2.2.0.0	For a copy of the license, see Apache License Version 2.
Apache	Tomcat 7.0.42	12.1.3.0.0	For a copy of the license, see Apache License Version 2.
Simple Network Management Protocol	Net-SNMP 5.7.2	11.1.1.1.0 12.2.2.0.0	For a copy of the license, see Net-SNMP License.
Microsoft	MICROSOFT PLATFORM SOFTWARE DEVELOPMENT KIT all	11.1.1.1.0	
Microsoft	Microsoft Visual Studio 2015 Redistributables	12.2.2.0.0	

Oracle Tuxedo Optimizations for Exalogic Elastic Cloud Software

The following sections describe the following Oracle Tuxedo optimizations for Oracle Exalogic Elastic Cloud Software:

- Oracle Tuxedo Optimization for Inter-node Communication
- Socket Direct Protocol for Exalogic Elastic Cloud Software
- Oracle Tuxedo Optimization for Lock Mechanism

Oracle Tuxedo Optimization for Inter-node Communication

Oracle Exalogic Elastic Cloud Software can be configured with Oracle Tuxedo to provide inter-node communication within an Oracle Tuxedo domain.

Socket Direct Protocol for Exalogic Elastic Cloud Software

Oracle Exalogic Elastic Cloud can be configured to utilize the socket direct protocol for Oracle Tuxedo network channels and Oracle Database connectivity.

Oracle Tuxedo Optimization for Lock Mechanism

Oracle Exalogic Elastic Cloud Software can be configured with Oracle Tuxedo to tune the bulletin board lock mechanism in an Oracle Tuxedo domain.

9

Oracle Business Intelligence

Oracle Business Intelligence products include a wide variety of applications for business analysis, reporting, and data visualization.

This chapter covers licensing for Oracle Business Intelligence products. It contains the following sections:

- Oracle Business Intelligence Suite Extended Edition
- Oracle Analytics Publisher
- Oracle Business Intelligence Standard Edition One
- Oracle Real-Time Decision Server
- Oracle Scorecard and Strategy Management
- Oracle Business Intelligence Mobile
- Oracle Business Intelligence Server Enterprise Edition
- Oracle Business Intelligence Interactive Dashboards
- Oracle Business Intelligence Answers
- Oracle Business Intelligence Delivers
- Oracle Business Intelligence Server Administrator
- Third-Party Products and Details for Oracle Business Intelligence
- Oracle Data Integrator for Oracle Business Intelligence
- Informatica PowerCenter and PowerConnect Adapters
- Oracle Metadata Management for Oracle Business Intelligence
- Oracle Essbase Plus
- Oracle Business Intelligence Suite Foundation Edition
- Oracle Data Visualization
- Oracle Exalytics In-Memory Software
- Oracle Hyperion Interactive Reporting
- Oracle Hyperion SQR Production Reporting
- Oracle Hyperion Web Analysis
- Oracle Hyperion Financial Reporting
- Oracle Endeca Server
- Oracle Endeca Information Discovery Integrator
- Oracle Endeca Information Discovery Studio
- Oracle Endeca Text Enrichment
- Oracle Endeca Text Enrichment with Sentiment Analytics
- Oracle Endeca Web Acquisition Toolkit

- Oracle Database In-Memory for Exalytics

Oracle Business Intelligence Suite Extended Edition

Oracle Business Intelligence Suite Extended Edition includes the following products:

- Oracle Business Intelligence Server Enterprise Edition
- Oracle Business Intelligence Answers
- Oracle Business Intelligence Interactive Dashboards
- Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher)
- Oracle Business Intelligence Delivers
- Oracle Business Intelligence Server Administrator
- Oracle WebLogic Server Standard Edition

Restricted use: Only one Named User Plus license to Oracle Business Intelligence Server Administrator is included with a license to Oracle Business Intelligence Suite Extended Edition. Use of the single Named User Plus license to Oracle Business Intelligence Server Administrator is limited to installing, configuring and administering an Oracle Business Intelligence Extended Edition installation. Additional licenses to Oracle Business Intelligence Server Administrator must be procured separately to enable additional administrators to manage Oracle Business Intelligence Suite Extended Edition.

Restricted use: Use of Oracle WebLogic Server Standard Edition is restricted to use with Oracle Business Intelligence Suite Extended Edition. Oracle WebLogic Server Standard Edition clustering is not allowed.

Oracle Analytics Publisher

Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) is a reporting solution used to author, manage, and deliver reports and documents.

Oracle Analytics Publisher includes the following products:

- Oracle WebLogic Server Standard Edition
- Oracle Entitlements Server Basic

Restricted use: Use of WebLogic Server Standard Edition is restricted to use with Oracle Analytics Publisher. Oracle WebLogic Server Standard Edition clustering is not allowed.

Restricted use: Use of "Oracle Hardware acceleration" with the Enhanced Bursting feature requires a license to Oracle Exalytics In-Memory Software.

- Third-Party Products and Details for Oracle Analytics Publisher

Third-Party Products and Details for Oracle Analytics Publisher

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Analytics Publisher, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Analytics Publisher with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Analytics Publisher are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Analytics Publisher:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Analytics Publisher.

Oracle Business Intelligence Standard Edition One

Oracle Business Intelligence Standard Edition One is a business intelligence offering designed for midsize enterprises or departments in larger organizations. Oracle Business Intelligence Standard Edition One includes the following products:

- Oracle Database Standard Edition One or Oracle Database Standard Edition 2
- Oracle Warehouse Builder
- Oracle Business Intelligence Server Enterprise Edition
- Oracle Business Intelligence Answers
- Oracle Business Intelligence Interactive Dashboards
- Oracle Business Intelligence Server Administrator
- Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher)
- Oracle WebLogic Server Standard Edition

Restricted use: The installer for Oracle Business Intelligence Standard Edition One installs all of the Oracle Business Intelligence Server Enterprise Edition components but only those components listed above may be used as part of Oracle Business Intelligence Standard Edition One.

Restricted use: Only one Named User Plus license to Oracle Business Intelligence Server Administrator is included with a license to Oracle Business Intelligence Standard Edition One. Use of the single Named User Plus license to Oracle Business Intelligence Server Administrator is limited to installing, configuring and administering an Oracle Business Intelligence Standard Edition One installation. Additional licenses to Oracle Business Intelligence Server Administrator must be procured separately to enable additional administrators to manage Oracle Business Intelligence Standard Edition One.

Restricted use: Use of Oracle WebLogic Server Standard Edition is restricted to use with Oracle Business Intelligence Standard Edition One. Oracle WebLogic Server Standard Edition clustering is not allowed.

Restricted use: You can install Oracle Business Intelligence Standard Edition One on a single machine with up to two sockets.

Restricted use: Oracle Business Intelligence Standard Edition One is limited to a minimum of 5 Named User Plus licenses and a maximum of 50 Named User Plus licenses.

Restricted use: You can use Oracle Warehouse Builder to pull data from any number of data sources. However, you must use only the included Oracle Database Standard Edition One or Oracle Database Standard Edition 2 as the target database. The data sources for Oracle Business Intelligence Server and Oracle Analytics Publisher are limited to:

- The included Oracle Database Standard Edition One or Oracle Database Standard Edition 2
- One other database
- Any number of flat file sources (for example, CSV, XLS)

Oracle Real-Time Decision Server

Oracle Real-Time Decisions (Oracle RTD) Server helps you develop adaptive enterprise software solutions.

Oracle Real-Time Decision Server includes the following products:

- Oracle WebLogic Server Standard Edition
- Oracle Entitlements Server Basic

Restricted use: Use of WebLogic Server Standard Edition is restricted to use with Oracle Real-Time Decision Server. Oracle WebLogic Server clustering is not allowed.

Restricted use: Use of Oracle Entitlements Server Basic is restricted to use with Oracle Real-Time Decision Server only.

- Third-Party Products and Details for Oracle Real-Time Decision Server

Third-Party Products and Details for Oracle Real-Time Decision Server

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Real-Time Decision Server, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Real-Time Decision Server with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Real-Time Decision Server are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Real-Time Decision Server:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Real-Time Decision Server.

Provider	Component(s)	Release Versions	Licensing Information
the Displaytag team	Displaytag 1	11.1.1.9.0	**The Artistic License** **Preamble:** The intent of this document is to state the conditions under which a Package may be copied, such that the Copyright Holder maintains some semblance of artistic control over the development of the package, while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications. **Definitions:** "Package" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification. "Standard Version" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder as specified below. "Copyright Holder" is whoever is named in the copyright or copyrights for the package. "You" is you, if you're thinking about copying or distributing this Package. "Reasonable copying fee" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.) "Freely Available" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it. 1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers. 2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version. 3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following: • a) Place your modifications in the Public Domain or otherwise make them Freely

Table 9-2 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Real-Time Decision Server

Provider	Component(s)	Release Versions	Licensing Information

Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.

- b) Use the modified Package only within your corporation or organization.
- c) Rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.
- d) Make other distribution arrangements with the Copyright Holder.

4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:
   - a) Distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.
   - b) Accompany the distribution with the machine-readable source of the Package with your modifications.
   - c) Give non-standard executables non-standard names, and clearly document the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.
   - d) Make other distribution arrangements with the Copyright Holder.
5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own.
6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whoever generated them, and may be sold commercially, and may be aggregated with this Package.

Oracle Scorecard and Strategy Management

Oracle Scorecard and Strategy Management enables you to map organization strategy to goals and monitor via Key Performance Indicators.

Oracle Scorecard and Strategy Management includes the following product:

- Oracle WebLogic Server Standard Edition

Prerequisite: A license to Oracle Business Intelligence Suite Extended Edition is a prerequisite to license and use Oracle Scorecard and Strategy Management.

Restricted use: Use of Oracle WebLogic Server Standard Edition is restricted to use with Oracle Scorecard and Strategy Management only. Oracle WebLogic Server Standard Edition clustering is not allowed.

Oracle Business Intelligence Mobile

Oracle Business Intelligence Mobile extends Oracle Business Intelligence Suite Extended Edition capabilities to mobile devices such as Apple's iPhone and iPad devices and Android devices.

Oracle Business Intelligence Mobile has complementary mobile applications:

- Oracle BI Mobile application for Apple iOS (downloadable from the Apple App Store)
- Oracle BI Mobile application for Android (downloadable from the Google Play Store)

Prerequisite: A license to Oracle Business Intelligence Suite Extended Edition is a prerequisite to license and use Oracle Business Intelligence Mobile.

Oracle Business Intelligence Server Enterprise Edition

Oracle Business Intelligence Server Enterprise Edition is a business intelligence server that balances concurrency and parallelism for a wide range of business intelligence applications. It provides a centralized data access and calculation engine that is used by Oracle Business Intelligence Interactive Dashboards, Oracle Business Intelligence Answers and Oracle Business Intelligence Delivers.

Oracle Business Intelligence Server Enterprise Edition includes the following products:

- Oracle Smart View for Office
- Oracle WebLogic Server Standard Edition
- Oracle Entitlements Server

The following Oracle Business Intelligence Server Enterprise Edition Options are not included and may be separately licensed:

- Oracle Business Intelligence Interactive Dashboards
- Oracle Business Intelligence Delivers
- Oracle Business Intelligence Answers
- Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher)

The number of licenses for each Option must match the number of licenses to Oracle Business Intelligence Server Enterprise Edition.

Restricted use: Use of Oracle Business Intelligence Server Enterprise Edition and Oracle Business Intelligence Server Enterprise Edition Options is restricted to testing and debugging the deployment of applications developed with Oracle Business Intelligence Server Administrator.

Restricted use: Use of Oracle WebLogic Server Standard Edition is restricted to use with Oracle Business Intelligence Server Enterprise Edition only. Oracle WebLogic Server Standard Edition clustering is not allowed.

Restricted use: Use of Oracle Entitlements Sever is restricted to use with Oracle Business Intelligence Server Enterprise Edition only.

Restricted use: Use of Aggregate Persistence (CREATE AGGREGATES, and DELETE AGGREGATES commands), when run against the TimesTen In-Memory Database for Exalytics or the Database In-Memory Option of Oracle Database Enterprise Edition, requires a license to Oracle Exalytics In-Memory Software.

Restricted use: Use of "Oracle Hardware acceleration" requires a license to Oracle Exalytics In-Memory Software.

- Third-Party Products and Details for Oracle Business Intelligence Enterprise Edition

Third-Party Products and Details for Oracle Business Intelligence Enterprise Edition

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Business Intelligence Enterprise Edition, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Business Intelligence Enterprise Edition with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Business Intelligence Enterprise Edition are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Business Intelligence Enterprise Edition:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Business Intelligence Enterprise Edition.

Brian Goetz and Tim Peierls	jcip-annotations 1	11.1.1.9.0	The Java code in the package net.jcip.annotations is copyright (c) 2005 Brian Goetz and is released under the Creative Commons Attribution License (http://creativecommons.org/licenses/by/2.5) Official home: http://www.jcip.net Attribution 2.5 CREATIVE COMMONS CORPORATION IS NOT A LAW FIRM AND DOES NOT PROVIDE LEGAL SERVICES. DISTRIBUTION OF THIS LICENSE DOES NOT CREATE AN ATTORNEY-CLIENT RELATIONSHIP. CREATIVE COMMONS PROVIDES THIS INFORMATION ON AN "AS-IS" BASIS. CREATIVE COMMONS MAKES NO WARRANTIES REGARDING THE INFORMATION PROVIDED, AND DISCLAIMS LIABILITY FOR DAMAGES RESULTING FROM ITS USE. License THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CREATIVE COMMONS PUBLIC LICENSE ("CCPL" OR "LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED. BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HERE, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. THE LICENSOR GRANTS YOU THE RIGHTS CONTAINED HERE IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS. 1. Definitions • "Collective Work" means a work, such as a periodical issue, anthology or encyclopedia, in which the Work in its entirety in unmodified form, along with a number of other contributions, constituting separate and independent works in themselves, are assembled into a collective whole. A work that constitutes a Collective Work will not be considered a Derivative Work (as defined below) for the purposes of this License. • "Derivative Work" means a work based upon the Work or upon the Work and other pre-existing works, such as a translation, musical arrangement, dramatization, fictionalization, motion picture version, sound recording, art reproduction, abridgment, condensation, or any other form in which the Work may be recast, transformed, or adapted, except that a work that constitutes a Collective Work will not

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information

be considered a Derivative Work for the purpose of this License. For the avoidance of doubt, where the Work is a musical composition or sound recording, the synchronization of the Work in timed-relation with a moving image ("synching") will be considered a Derivative Work for the purpose of this License.

- "Licensor" means the individual or entity that offers the Work under the terms of this License
- "Original Author" means the individual or entity who created the Work
- "Work" means the copyrightable work of authorship offered under the terms of this License.
- "You" means an individual or entity exercising rights under this License who has not previously violated the terms of this License with respect to the Work, or who has received express permission from the Licensor to exercise rights under this License despite a previous violation.

2. Fair Use Rights. Nothing in this license is intended to reduce, limit, or restrict any rights arising from fair use, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws.

3. License Grant. Subject to the terms and conditions of this License, Licensor hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:

   a. to reproduce the Work, to incorporate the Work into one or more Collective Works, and to reproduce the Work as incorporated in the Collective Works;

   b. to create and reproduce Derivative Works;

   c. to distribute copies or phonorecords of, display publicly, perform publicly, and perform publicly by means of a digital audio transmission the Work including as incorporated in Collective Works;

   d. to distribute copies or phonorecords of, display publicly, perform publicly, and perform publicly by means of a digital audio transmission Derivative Works.

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information

e. For the avoidance of doubt, where the work is a musical composition:

   i. Performance Royalties Under Blanket Licenses. Licensor waives the exclusive right to collect, whether individually or via a performance rights society (e.g. ASCAP, BMI, SESAC), royalties for the public performance or public digital performance (e.g. webcast) of the Work.

   ii. Mechanical Rights and Statutory Royalties. Licensor waives the exclusive right to collect, whether individually or via a music rights agency or designated agent (e.g. Harry Fox Agency), royalties for any phonorecord You create from the Work ("cover version") and distribute, subject to the compulsory license created by 17 USC Section 115 of the US Copyright Act (or the equivalent in other jurisdictions).

f. Webcasting Rights and Statutory Royalties. For the avoidance of doubt, where the Work is a sound recording, Licensor waives the exclusive right to collect, whether individually or via a performance-rights society (e.g. SoundExchange), royalties for the public digital performance (e.g. webcast) of the Work, subject to the compulsory license created by 17 USC Section 114 of the US Copyright Act (or the equivalent in other jurisdictions).

The above rights may be exercised in all media and formats whether now known or hereafter devised. The above rights include the right to make such modifications as are technically necessary to exercise the rights in other media and formats. All rights not expressly granted by Licensor are hereby reserved.

4. Restrictions

The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

a. .You may distribute, publicly display, publicly perform, or publicly digitally perform the Work only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy or phonorecord of the Work You distribute, publicly display, publicly perform, or

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information
			publicly digitally perform. You may not offer or impose any terms on the Work that alter or restrict the terms of this License or the recipients' exercise of the rights granted hereunder. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute, publicly display, publicly perform, or publicly digitally perform the Work with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License Agreement. The above applies to the Work as incorporated in a Collective Work, but this does not require the Collective Work apart from the Work itself to be made subject to the terms of this License. If You create a Collective Work, upon notice from any Licensor You must, to the extent practicable, remove from the Collective Work any credit as required by clause 4(b), as requested. If You create a Derivative Work, upon notice from any Licensor You must, to the extent practicable, remove from the Derivative Work any credit as required by clause 4(b), as requested. **b.** If you distribute, publicly display, publicly perform, or publicly digitally perform the Work or any Derivative Works or Collective Works, You must keep intact all copyright notices for the Work and provide, reasonable to the medium or means You are utilizing: (i) the name of the Original Author (or pseudonym, if applicable) if supplied, and/or (ii) if the Original Author and/or Licensor designate another party or parties (e.g. a sponsor institute, publishing entity, journal) for attribution in Licensor's copyright notice, terms of service or by other reasonable means, the name of such party or parties; the title of the Work if supplied; to the extent reasonably practicable, the Uniform Resource Identifier, if any, that Licensor specifies to be associated with the Work, unless such URI does not refer to the copyright notice or licensing information for the Work; and in the case of a Derivative Work, a credit identifying the use of the Work in the Derivative Work (e.g., "French translation of the Work by Original Author," or "Screenplay based on original Work by Original Author"). Such credit may be implemented in any reasonable manner; provided, however, that in

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information

the case of a Derivative Work or Collective Work, at a minimum such credit will appear where any other comparable authorship credit appears and in a manner at least as prominent as such other comparable authorship credit.

.

5. Representations, Warranties and Disclaimer

   UNLESS OTHERWISE MUTUALLY AGREED TO BY THE PARTIES IN WRITING, LICENSOR OFFERS THE WORK AS-IS AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE WORK, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF TITLE, MERCHANTIBILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, OR THE ABSENCE OF LATENT OR OTHER DEFECTS, ACCURACY, OR THE PRESENCE OF ABSENCE OF ERRORS, WHETHER OR NOT DISCOVERABLE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO SUCH EXCLUSION MAY NOT APPLY TO YOU.

6. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. Termination

   a. This License and the rights granted hereunder will terminate automatically upon any breach by You of the terms of this License. Individuals or entities who have received Derivative Works or Collective Works from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License.

   b. Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information

the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

8. 8. Miscellaneous
   a. Each time You distribute or publicly digitally perform the Work or a Collective Work, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License.
   b. .Each time You distribute or publicly digitally perform a Derivative Work, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License.
   c. .If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.
   d. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.
   e. This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You.

Creative Commons is not a party to this License, and makes no warranty whatsoever in connection with the Work. Creative Commons will not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. Notwithstanding the foregoing two (2) sentences, if Creative Commons has

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information
			expressly identified itself as the Licensor hereunder, it shall have all rights and obligations of Licensor. Except for the limited purpose of indicating to the public that the Work is licensed under the CCPL, neither party will use the trademark "Creative Commons" or any related trademark or logo of Creative Commons without the prior written consent of Creative Commons. Any permitted use will be in compliance with Creative Commons' then-current trademark usage guidelines, as may be published on its website or otherwise made available upon request from time to time. Creative Commons may be contacted at http://creativecommons.org/.

Dev.perl.org	Perl 5.8.0	11.1.1.9.0	Artistic License, from http://dev.perl.org/licenses/artistic.html . **Preamble:** The intent of this document is to state the conditions under which a Package may be copied, such that the Copyright Holder maintains some semblance of artistic control over the development of the package, while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications. **Definitions:** "Package" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification. "Standard Version" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder as specified below. "Copyright Holder" is whoever is named in the copyright or copyrights for the package. "You" is you, if you're thinking about copying or distributing this Package. "Reasonable copying fee" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.) "Freely Available" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it. 1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers. 2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version. 3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following:

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information

- a) Place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.
- b) Use the modified Package only within your corporation or organization.
- c) Rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.
- d) Make other distribution arrangements with the Copyright Holder.

4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:
   - a) Distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.
   - b) Accompany the distribution with the machine-readable source of the Package with your modifications.
   - c) Give non-standard executables non-standard names, and clearly document the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.
   - d) Make other distribution arrangements with the Copyright Holder.
5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own. You may embed this Package's interpreter within an executable of yours (by linking); this shall be construed as a mere form of aggregation, provided that the complete Standard Version of the interpreter is so embedded.

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information
			6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whoever generated them, and may be sold commercially, and may be aggregated with this Package. If such scripts or library files are aggregated with this Package via the so-called "undump" or "unexec" methods of producing a binary executable image, then distribution of such an image shall neither be construed as a distribution of this Package nor shall it fall under the restrictions of Paragraphs 3 and 4, provided that you do not represent such an executable image as a Standard Version of this Package. 7. C subroutines (or comparably compiled subroutines in other languages) supplied by you and linked into this Package in order to emulate subroutines and variables of the language defined by this Package shall not be considered part of this Package, but are the equivalent of input as in Paragraph 6, provided these subroutines do not change the language in any way that would cause it to fail the regression tests for the language. 8. Aggregation of this Package with a commercial distribution is always permitted provided that the use of this Package is embedded; that is, when no overt attempt is made to make this Package's interfaces visible to the end user of the commercial distribution. Such use shall not be construed as a distribution of this Package. 9. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission. 10. THIS PACKAGE IS PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Eclipse Foundation	Platform 3.1, 3.1.2	11.1.1.9.0	For a copy of the license, see Eclipse Public License.
Free Software Foundation	JGroups 2.8	11.1.1.9.0	http://www.jgroups.org/javagroupsnew/docs/license.html JGroups is open source licensed under the Library (or Lesser) GNU Public License (LGPL). A commercial product can use JGroups (as a library) without having to become open source under the LGPL. (This is the big difference to the GPL, where applications using it must be licensed under the GPL as well.) So, if you for example use JGroups to write a product for clustering an application server, you can sell this product without any restrictions (ship it with JGroups included) and you do not have to make your application open source.

Terence Parr	ANTLR 2.7.6	11.1.1.9.0	We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software. We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc... If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed. In countries where the Public Domain status of the work may not be valid, the author grants a copyright licence to the general public to deal in the work without restriction and permission to sublicence derivates under the terms of any (OSI approved) Open Source licence. The Python parser generator code under antlr/actions/python/ is covered by the 3clause BSD licence (this part is included in the binary JAR files); the runtime part under lib/python/ is covered by the GNU GPL, version 3 or later (this part is not included in the binary JAR files). See here for the full details.

Provider	Component(s)	Release Versions	Licensing Information
the Displaytag team	Displaytag 1	11.1.1.9.0	**The Artistic License** **Preamble:** The intent of this document is to state the conditions under which a Package may be copied, such that the Copyright Holder maintains some semblance of artistic control over the development of the package, while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications. **Definitions:** "Package" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification. "Standard Version" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder as specified below. "Copyright Holder" is whoever is named in the copyright or copyrights for the package. "You" is you, if you're thinking about copying or distributing this Package. "Reasonable copying fee" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.) "Freely Available" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it. 1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers. 2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version. 3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following: • a) Place your modifications in the Public Domain or otherwise make them Freely

Table 9-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence Enterprise Edition

Provider	Component(s)	Release Versions	Licensing Information

Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.

- b) Use the modified Package only within your corporation or organization.
- c) Rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.
- d) Make other distribution arrangements with the Copyright Holder.

4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:
   - a) Distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.
   - b) Accompany the distribution with the machine-readable source of the Package with your modifications.
   - c) Give non-standard executables non-standard names, and clearly document the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.
   - d) Make other distribution arrangements with the Copyright Holder.
5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own.
6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whoever generated them, and may be sold commercially, and may be aggregated with this Package.

Oracle Business Intelligence Interactive Dashboards

Oracle Business Intelligence Interactive Dashboards provides personalized views of information which include reports with prompts and various ways to visualize business data.

The number of licenses to Oracle Business Intelligence Interactive Dashboards must match the number of licenses to Oracle Business Intelligence Server Enterprise Edition.

Prerequisite: A license to Oracle Business Intelligence Server Enterprise Edition is a prerequisite to license and use Oracle Business Intelligence Interactive Dashboards Option.

Oracle Business Intelligence Answers

Oracle Business Intelligence Answers provides ad-hoc query capabilities and the ability to create Oracle Business Intelligence Interactive Dashboards.

The number of licenses to Oracle Business Intelligence Answers must match the number of licenses to Oracle Business Intelligence Server Enterprise Edition.

Prerequisite: A license to Oracle Business Intelligence Server Enterprise Edition is a prerequisite to license and use Oracle Business Intelligence Answers Option.

Oracle Business Intelligence Delivers

Oracle Business Intelligence Delivers enables the creation and management of multi-step, multi-person and multi-application analytical workflows that provide business activity monitoring.

The number of licenses to Oracle Business Intelligence Delivers Option must match the number of licenses to Oracle Business Intelligence Server Enterprise Edition.

Prerequisite: A license to Oracle Business Intelligence Server Enterprise Edition is a prerequisite to license and use Oracle Business Intelligence Delivers Option.

Oracle Business Intelligence Server Administrator

Oracle Business Intelligence Server Administrator provides a data modeling tool for administrators and developers.

One Named User Plus license to Oracle Business Intelligence Server Administrator is included with each license to Oracle Business Intelligence Server Enterprise Edition, Oracle Business Intelligence Suite Extended Edition and Oracle Business Intelligence Suite Foundation Edition. The single Named User Plus license is intended to provide the minimum functionality to configure and administer metadata for an Oracle Business Intelligence Server Administrator installation.

There is not one Named User Plus license of Oracle Business Intelligence Server Administrator per Named User Plus license of Oracle Business Intelligence Suite Extended Edition, nor is there one Named User Plus license of Oracle Business Intelligence Server Administrator per Processor license of Oracle Business Intelligence Suite Foundation Edition.

Additional licenses to Oracle Business Intelligence Server Administrator may be procured separately to enable additional administrators to configure and administer metadata for an Oracle Business Intelligence installation.

Prerequisite: A license to Oracle Exalytics In-Memory Software is a prerequisite to use Summary Advisor functionality.

Third-Party Products and Details for Oracle Business Intelligence

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Business Intelligence, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Business Intelligence with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Business Intelligence are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Business Intelligence :

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Business Intelligence.

Table 9-4 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Intelligence

Provider	Component(s)	Release Versions	Licensing Information
Alluxio Open Foundation	Alluxio 1.3	12.2.1.4.0	Copyright 2016 Alluxio Open Foundation Licensed under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. For the SQLLine package: Copyright (c) 2002, 2003, 2004, 2005 Marc Prud'hommeaux From: `http://sqlline.sourceforge.net/#license` "SQLLine is distributed under the BSD License, meaning that you are free to redistribute, modify, or sell the software with almost no restrictions." Statement from Marc Prud'hommeaux regarding inconsistent licenses in some SQLLine source files: SQLLine was once GPL, but it was changed to be BSD a few years back. Any references to the GPL are vestigial. Hopefully the license declaration at `http://sqlline.sourceforge.net/#license` is sufficiently authoritative in this regard. For the SLF4J library:

Modified by Jack Jansen, CWI, July 1995: • Use binascii module to do the actual line-by-line conversion between ascii and binary. This results in a 1000-fold speedup. The C version is still 5 times faster, though. • Arguments more compliant with Python standard

Oracle Data Integrator for Oracle Business Intelligence

Oracle Data Integrator for Oracle Business Intelligence is a limited-use version of Oracle Data Integrator Enterprise Edition.

Oracle Integrator for Oracle Business Intelligence includes the product:

- Oracle WebLogic Server Standard Edition

To obtain high availability with Oracle Data Integrator for Oracle Business Intelligence, separate licenses to Oracle WebLogic Server Enterprise Edition and Oracle Coherence Enterprise Edition are required.

Prerequisite: A license to Oracle Business Intelligence Server Enterprise Edition, Oracle Business Intelligence Standard Edition One, Oracle Business Intelligence Cloud Service, Oracle Business Intelligence Foundation Edition or Oracle Business Intelligence Suite Extended Edition is a prerequisite to license and use Oracle Data Integrator for Oracle Business Intelligence.

Restricted use: A license to Oracle Data Integrator for Oracle Business Intelligence includes a restricted-use license to Oracle WebLogic Server Standard Edition. Use of Oracle WebLogic Server Standard Edition is restricted to running the Oracle Data Integrator Web Console only.

Restricted use: Oracle Data Integrator for Oracle Business Intelligence may not be used on a standalone basis or as a standalone extract, transform and load (ETL) tool. Oracle Data Integrator for Oracle Business Intelligence may be used with any data source provided the target environment(s) are: (i) a database used by Oracle Business Intelligence Applications, Fusion Edition programs (excluding Hyperion Enterprise Performance Management Applications), (ii) a database exclusively used by Oracle Business Intelligence Suite Foundation Edition, Oracle Business Intelligence Suite Extended Edition, Oracle Business Intelligence Cloud Service, and/or Oracle Business Intelligence Standard Edition One, or (iii) a staging database for any of the foregoing programs. When Oracle Data Integrator for Oracle Business Intelligence is licensed by Named User Plus, the user count must be equivalent to the greater of:

(a) when running or subscribing to Business Intelligence Applications, Fusion Edition or Oracle Business Intelligence Cloud Service (i) the licensed or subscribed user count for Oracle Business Intelligence Applications, Fusion Edition or Oracle Business Intelligence Cloud Service, or (ii) 20 named users; or

(b) when running Oracle Business Intelligence Suite Foundation Edition, Oracle Business Intelligence Suite Extended Edition, or Oracle Business Intelligence Standard Edition One (i) the licensed user count for Oracle Business Intelligence Suite Foundation Edition, Oracle Business Intelligence Suite Extended Edition, Oracle Business Intelligence Standard Edition One, or (ii) 25 named users per processor.

Informatica PowerCenter and PowerConnect Adapters

Informatica PowerCenter and PowerConnect Adapters is an enterprise data integration platform for accessing, discovering, and integrating data from different business systems.

Prerequisite: A license to Oracle Business Intelligence Server Enterprise Edition or Oracle Business Intelligence Suite Extended Edition is a prerequisite to license and use Informatica PowerCenter and PowerConnect Adapters.

Restricted use: Informatica PowerCenter and PowerConnect Adapters may not be used on a standalone basis or as a standalone extract, transform and load (ETL) tool. Informatica

PowerCenter and PowerConnect Adapters may be used with any data source provided the target environment(s) are: (i) the Oracle Business Intelligence Applications, Fusion Edition programs (excluding Hyperion Enterprise Performance Management Applications), (ii) the underlying platforms on which Oracle Business Intelligence Suite Foundation Edition, Oracle Business Intelligence Suite Extended Edition, Oracle Business Intelligence Standard Edition One or associated components run, or (iii) a staging database for any of the foregoing. Informatica PowerCenter and PowerConnect Adapters may also be used where the Oracle Business Intelligence Applications, Fusion Edition programs (excluding Hyperion Enterprise Performance Management Applications) are the data source and non-Oracle Business Intelligence applications are the target environments, provided that users do not use Informatica PowerCenter and PowerConnect Adapters to transform the data. When Informatica PowerCenter and PowerConnect Adapters is licensed by Named User Plus, the user count must be equivalent to the greater of: (i) the target environment(s), (i) - (iii) above, user count, or (ii) 20 named users.

Oracle Metadata Management for Oracle Business Intelligence

Oracle Metadata Management for Oracle Business Intelligence is a software package for metadata management of Oracle Business Intelligence environments.

Prerequisite: A license to Oracle Business Intelligence Server Enterprise Edition, Oracle Business Intelligence Standard Edition One, or Oracle Business Intelligence Suite Extended Edition is a prerequisite to license and use Oracle Metadata Management for Oracle Business Intelligence.

Restricted Use: Oracle Metadata Management for Oracle Business Intelligence may not be used on a standalone basis. Oracle Metadata Management for Oracle Business Intelligence may be used with any data source provided the target environment(s) are: (i) the database included with the Oracle Business Intelligence Applications, Fusion Edition programs (excluding Hyperion Enterprise Performance Management Applications), (ii) a database exclusively used by Oracle Business Intelligence Suite Foundation Edition, Oracle Business Intelligence Suite Extended Edition, Oracle Business Intelligence Cloud Service, and/or Oracle Business Intelligence Standard Edition One, or (iii) a staging database for any of the foregoing programs. When Oracle Metadata Management for Oracle Business Intelligence is licensed by Named User Plus, the user count must be equivalent to the greater of:

(a) when running or subscribing to Business Intelligence Applications, Fusion Edition or Oracle Business Intelligence Cloud Service (i) the licensed or subscribed user count for Oracle Business Intelligence Applications, Fusion Edition or Oracle Business Intelligence Cloud Service, or (ii) 20 named users; or

(b) when running Oracle Business Intelligence Suite Foundation Edition, Oracle Business Intelligence Suite Extended Edition, or Oracle Business Intelligence Standard Edition One (i) the licensed user count for Oracle Business Intelligence Suite Foundation Edition, Oracle Business Intelligence Suite Extended Edition, Oracle Business Intelligence Standard Edition One, or (ii) 25 named users per processor.

Oracle Essbase Plus

Oracle Essbase Plus is on online analytical processing (OLAP) server for Enterprise Performance Management Applications. It supports forecasting, variance analysis, root cause identification, scenario planning and what-if modeling.

Oracle Essbase Plus includes the following products:

- Oracle WebLogic Server Standard Edition

- Oracle Internet Directory
- Oracle Smart View for Office

Restricted use: Use of Oracle Internet Directory is restricted to use with Oracle Essbase Plus only.

Restricted use: Use of WebLogic Server Standard Edition is restricted to use with Oracle Essbase Plus. Oracle WebLogic Server Standard Edition clustering is not allowed.

Restricted use: Use of "Oracle Hardware acceleration" requires a license to Oracle Exalytics In-Memory Software.

- Third-Party Products and Details for Oracle Essbase

Third-Party Products and Details for Oracle Essbase

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Essbase, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Essbase with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Essbase are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Essbase:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Essbase.

Table 9-5 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Essbase

Provider	Component(s)	Release Versions	Licensing Information

Oracle Business Intelligence Suite Foundation Edition

Oracle Business Intelligence Suite Foundation Edition provides capabilities for relational online analytical processing (OLAP) and multi-dimensional OLAP, with an integrated suite of business intelligence tools.

Oracle Business Intelligence Suite Foundation Edition includes the following products:

- Oracle Business Intelligence Suite Extended Edition
- Oracle Essbase Plus
- Oracle Scorecard and Strategy Management
- Oracle Business Intelligence Mobile

Oracle Data Visualization

Oracle Data Visualization allows the exploration of data from multiple sources and uses the grammar of the graphics to render the data using various data visualization techniques.

Oracle Data Visualization includes the following products:

- Oracle Business Intelligence Server Enterprise Edition
- Oracle WebLogic Server Standard Edition
- Oracle Data Visualization Desktop

Restricted use: Use of Oracle Business Intelligence Server Enterprise Edition is restricted to installing Oracle Data Visualization only.

Restricted use: Use of Oracle WebLogic Server Standard Edition is restricted to use with Oracle Data Visualization only. Oracle WebLogic Server Standard Edition clustering is not allowed.

If licensing by processor, each processor license entitles the use of eighty Named User Plus licenses of Oracle Data Visualization Desktop.

Oracle Exalytics In-Memory Software

The Oracle Exalytics In-Memory Software provides specific features available only on the Exalytics In-Memory Machine.

Restricted use: When the below-listed products are operated on an Oracle Exalytics In-Memory Machine, the features listed below cannot be used unless Oracle Exalytics In-Memory Software is also licensed.

Table 9-6 Products and Features

Product	Feature
Oracle Business Intelligence Administrator	Summary Advisor for Oracle Business Intelligence Server Enterprise Edition The Oracle Exalytics In-Memory Software provides specific features available only on the Exalytics In-Memory Machine. Restricted use: When the below-listed products are operated on an Oracle Exalytics In-Memory Machine, the features listed below cannot be used unless Oracle Exalytics In-Memory Software is also licensed.
Oracle Business Intelligence Server Enterprise Edition	Aggregate Persistence (CREATE AGGREGATES, and DELETE AGGREGATES commands) when run against the TimesTen In-Memory Database for Exalytics
Oracle Business Intelligence Server Enterprise Edition	Exalytics-specific optimizations enabled by "Oracle Hardware acceleration" for Oracle Business Intelligence Server
Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher)	Enhanced Bursting within Oracle Analytics Publisher enabled by "Oracle Hardware acceleration"
Oracle Essbase Plus	Exalytics-specific optimizations enabled by "Oracle Hardware acceleration" for Oracle Essbase Plus

When Oracle Exalytics In-Memory Software is licensed by Named User Plus, the minimum license quantity is 20 Named User Plus licenses.

Prerequisite: A license to Business Intelligence Suite Foundation Edition, Business Intelligence Suite Extended Edition, Business Intelligence Foundation Suite for Oracle Applications, or Business Intelligence Suite Extended Edition for Oracle Applications, and Oracle Essbase Plus or Hyperion Planning Plus are a prerequisite to license and use Oracle Exalytics In-Memory Software.

Oracle Hyperion Interactive Reporting

Oracle Hyperion Interactive Reporting provides query, analysis and the ability to create dashboards against your business data in a relational database.

Oracle Hyperion Business Intelligence Interactive Reporting includes the following products:

- Oracle WebLogic Server Standard Edition
- Oracle Internet Directory

Restricted use: Use of WebLogic Server Standard Edition is restricted to use with Oracle Hyperion Business Intelligence Interactive Reporting only. Oracle WebLogic Server Standard Edition clustering is not allowed.

Restricted use: Use of Oracle Internet Directory is restricted to storing Oracle Hyperion Business Intelligence Interactive Reporting user information.

When Oracle Hyperion Interactive Reporting is licensed by Named User Plus the minimum license quantity is 20 Named User Plus licenses.

When Oracle Hyperion Interactive Reporting is licensed by Processor the minimum license quantity is 4 Processor licenses.

Oracle Hyperion SQR Production Reporting

Oracle Hyperion SQR Production Reporting provides a programming environment to generate high volume, presentation-quality, formatted reports.

Oracle Hyperion SQR Production Reporting includes the following products:

- Oracle WebLogic Server Standard Edition
- Oracle Internet Directory

Restricted use: Use of WebLogic Server Standard Edition is restricted to use with Oracle Hyperion SQR Production Reporting only. Oracle WebLogic Server Standard Edition clustering is not allowed.

Restricted use: Use of Oracle Internet Directory is restricted to storing Oracle Hyperion SQR Production Reporting user information.

When Oracle Hyperion SQR Production Reporting is licensed by Named User Plus the minimum license quantity is 20 Named User Plus licenses.

When Oracle Hyperion SQR Production Reporting is licensed by Processor the minimum license quantity is 4 Processor licenses.

Oracle Hyperion Web Analysis

Oracle Hyperion Web Analysis enables query, analysis and reporting against Oracle Essbase Plus.

Oracle Hyperion Web Analysis includes the following products:

- Oracle WebLogic Server Standard Edition
- Oracle Internet Directory

Restricted use: Use of WebLogic Server Standard Edition is restricted to use with Oracle Hyperion Business Intelligence Web Analysis only. Oracle WebLogic Server Standard Edition clustering is not allowed.

Restricted use: Use of Oracle Internet Directory is restricted to storing Oracle Hyperion Business Intelligence Web Analysis user information.

When Oracle Hyperion Web Analysis is licensed by Named User Plus the minimum license quantity is 20 Named User Plus licenses.

When Oracle Hyperion Web Analysis is licensed by Processor the minimum license quantity is 4 Processor licenses.

Oracle Hyperion Financial Reporting

Oracle Hyperion Financial Reporting includes the following products:

- Oracle WebLogic Server Standard Edition
- Oracle Internet Directory

Restricted use: Use of Oracle WebLogic Server Standard Edition is restricted to use with Oracle Hyperion Financial Reporting only. Oracle WebLogic Server clustering is not allowed.

Restricted use: Use of Oracle Internet Directory is restricted to storing Oracle Hyperion Financial Reporting user information.

When Oracle Hyperion Financial Reporting is licensed by Named User Plus the minimum license quantity is 20 Named User Plus licenses.

When Oracle Hyperion Financial Reporting is licensed by Processor the minimum license quantity is 4 Processor licenses.

Oracle Endeca Server

Oracle Endeca Server is a search-analytical database. It organizes complex and varied data from disparate source systems into a faceted data model.

Oracle Endeca Server includes the following product:

- Oracle WebLogic Server Standard Edition

Restricted use: Use of Oracle WebLogic Server Standard Edition is restricted to use with Oracle Endeca Server only. Oracle WebLogic Server clustering is not allowed.

Oracle Endeca Information Discovery Integrator

Oracle Endeca Information Discovery Integrator is an enterprise tool for ingesting data into the Oracle Endeca Server.

Oracle Information Discovery Integrator includes the following product:

- Oracle WebLogic Server Standard Edition

Prerequisite: A license to Oracle Endeca Server is a prerequisite to license and use Oracle Endeca Information Discovery Integrator.

Restricted use: Use of WebLogic Server Standard Edition is restricted to use with Oracle Information Discovery Integrator only. Oracle WebLogic Server Standard Edition clustering is not allowed.

Oracle Endeca Information Discovery Studio

Oracle Endeca Information Discovery Studio is a web-based application that allows business analysts to assemble dashboard applications. These applications enable analysts and other end users to explore a range of structured and unstructured enterprise data from an Oracle Endeca Server.

Oracle Endeca Information Discovery Studio includes the following product:

- Oracle WebLogic Server Standard Edition

Prerequisite: A license to Oracle Endeca Server and Oracle Endeca Information Discovery Integrator are prerequisites to license and use Oracle Endeca Information Discovery Studio.

Restricted use Use of WebLogic Server Standard Edition is restricted to use with Oracle Endeca Information Discovery Studio only. Oracle WebLogic Server clustering is not allowed.

Oracle Endeca Text Enrichment

Oracle Endeca Text Enrichment is a text enrichment engine that extracts entities such as people, companies, products, places, email addresses and dates, along with quotes and themes. Oracle Endeca Text Enrichment is language specific and a license to each language specific version must be separately procured.

Prerequisite: A license to Oracle Endeca Server or Oracle Endeca Guided Search is a prerequisite to license and use Oracle Endeca Text Enrichment.

Oracle Endeca Text Enrichment with Sentiment Analytics

Oracle Endeca Text Enrichment with Sentiment Analytics includes all the capabilities of Oracle Endeca Text Enrichment plus natural language processing to identify sentiment for the extracted entities. Sentiment scores show varying ranges of positivity and negativity in search, guided navigation and analytics. Oracle Endeca Text Enrichment with Sentiment Analytics is language specific and a license to each language specific version must be separately procured.

Prerequisite: A license to Oracle Endeca Server or Oracle Endeca Guided Search is a prerequisite to license and use Oracle Endeca Text Enrichment with Sentiment Analytics.

Oracle Endeca Web Acquisition Toolkit

Oracle Endeca Web Acquisition Toolkit is a web-based graphical Extraction Transformation and Loading (ETL) tool that allows the Endeca Server to collect content, and add structure to it using only a Uniform Resource Location (URL).

Prerequisite: A license to Oracle Endeca Server is a prerequisite to license and use Oracle Endeca Web Acquisition Toolkit.

Oracle Database In-Memory for Exalytics

The Oracle Database In-Memory for Exalytics includes the following products:

- Oracle Database Enterprise Edition
- Oracle Database In-Memory Option

Prerequisite: A license to Oracle Business Intelligence Suite Extended Edition or Oracle Business Intelligence Suite Foundation Edition is a prerequisite to license and use Oracle Database In-Memory for Exalytics. When the prerequisite program is licensed by Named User Plus, both user counts must match.

Restricted use: Use of Oracle Database In-Memory for Exalytics is limited to use with the Oracle Exalytics In-Memory Machine. Database data is restricted to the local storage on the Oracle Exalytics In-Memory machine and no other Oracle Database Options can be licensed with Oracle Database In-Memory for Exalytics.

10

Oracle WebCenter

This chapter describes licensing information for Oracle WebCenter products.

It includes the following sections:

- Oracle WebCenter Suite Plus
- Oracle WebCenter Universal Content Management
- Oracle WebCenter Content
- Oracle WebCenter Portal
- Oracle WebCenter Imaging
- Oracle WebCenter Sites
- Oracle WebCenter Sites Mobile Option
- Oracle WebCenter Sites for Oracle ATG Web Commerce
- Oracle WebCenter Adapters
- Oracle WebCenter Enterprise Capture Standard Edition
- Oracle WebCenter Enterprise Capture
- Oracle Management Pack for Oracle WebCenter
- Oracle WebCenter Licensing with Oracle Internet Application Server

Oracle WebCenter Suite Plus

Oracle WebCenter Suite Plus is a product suite for enterprise portals, content management, web experience management, and collaboration.

Oracle WebCenter Suite Plus includes the following:

- Oracle WebCenter Content
- Oracle WebCenter Portal
- Oracle WebCenter Sites
- Oracle Management Pack for Oracle WebCenter

Oracle WebCenter Content

Oracle WebCenter Content bundles Oracle's solutions for content management, records management, and imaging, providing a solution for customers seeking to implement an enterprise-wide content management system.

Oracle WebCenter Content includes all of the Oracle WebCenter Universal Content Management (See Oracle WebCenter Universal Content Management) functionality, all of the Oracle WebCenter Imaging (See Oracle WebCenter Imaging) functionality, plus the following additional features and restricted use licenses:

- Records Management features: Installation Level: DoD Baseline, Installation Level: DoD Classified, Installation Level: Custom

Restricted Use: A license to Oracle WebCenter Content includes a restricted use license to Oracle SOA Suite. Use of Oracle SOA Suite is restricted to use only the following components included in Oracle SOA Suite: Oracle BPEL Process Manager, Oracle Business Rules, Oracle Business Activity Monitoring, and Oracle Web Services Manager. Use of such components is restricted to modeling, securing, executing and monitoring processes that are initiated from Oracle WebCenter Content components.

Restricted Use: A license to Oracle WebCenter Content includes a restricted use license to Oracle Unified Business Process Management Suite. Use of Oracle Unified Business Process Management Suite is restricted to modeling, executing, and monitoring processes that are initiated from Oracle WebCenter Content components.

Restricted Use: A license to Oracle WebCenter Content includes a restricted use license to Oracle WebLogic Server Enterprise Edition. Use of Oracle WebLogic Server Enterprise Edition is restricted to a host for only Oracle WebCenter Content, including run-time components to provide Java runtime environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.

Oracle WebCenter Portal

Oracle WebCenter Portal provides a solution for customers seeking to implement transactional web sites, enterprise portals, collaborative workspaces, and composite web applications across the enterprise.

Oracle WebCenter Portal includes:

- Oracle WebCenter Portal
- Oracle WebLogic Portal
- Oracle WebCenter Interaction

Prerequisite: A license to Oracle WebLogic Server Enterprise Edition is a prerequisite to license and use Oracle WebCenter Portal.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle WebCenter Content. Use of Oracle WebCenter Content is restricted to storing and managing all content that is delivered as part of Oracle WebCenter Portal website, application, or portal.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle Secure Enterprise Search. Use of Oracle Secure Enterprise Search is restricted to use with Oracle WebCenter Portal to search and index any content stored in the content repository, as well as any page delivered as part of Oracle WebCenter Portal or application. If a page includes portlets, the information delivered within the portlet can be indexed as part of the search results as well.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle SOA Suite. Use of Oracle SOA Suite is restricted to Oracle Web Services Manager (OWSM) and Oracle BPEL Process Manager:

- **Oracle Web Services Manager (OWSM):** Use of OWSM is restricted to securing authentication between Oracle WebCenter Portal components. This includes using OWSM security policies when interacting with Oracle WebCenter web service interfaces. Authoring and management tooling is limited to the capabilities delivered with the base Oracle WebCenter Portal console screens. New policies may be authored with command line and

scripting tools only. The use of OWSM is further limited to enforcing message-level security between Oracle WebCenter Portlet Producers and WebCenter Portlet Consumers and securing interactions between Oracle WebCenter Portal components, BPEL Process Manager, and WebCenter Portal Discussions Server.

- **Oracle BPEL Process Manager:** Use of Oracle BPEL Process Manager is restricted to running existing deployed processes and responding to requests that require user input delivered inside of Oracle WebCenter Portal application or portal. However, the ability to define, deploy, and run new BPEL processes is allowed provided that all process endpoints exist entirely within Oracle WebCenter Portal delivered components. The modification of document BPEL processes included with the content repository can also be integrated with existing BPEL processes. The pre-built BPEL portlet and task flows, which enable viewing of a user's worklist items from any combination of backend BPEL servers, is also included.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle Access Manager. Use of Oracle Access Manager is restricted to enabling Single-Sign On (SSO) between Oracle WebCenter Portal components. Oracle Access Manager may not be used for: **(a)** Enabling SSO for any custom services, functions, or third party applications, **(b)** Directing Oracle Access Manager SDK calls, or **(c)** Enabling third party directory integration.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle Internet Directory (OID) and Oracle Wallet.

- The use of OID is restricted to storing credentials and policies specific to Oracle WebCenter Portal and its delivered components.
- The use of Oracle Wallet is restricted to storing credentials specific to Oracle WebCenter Portal and its delivered components.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle WebLogic Communication Services (OWLCS) and Oracle Communications Presence (OCP). Use of OWLCS and OCP is restricted to development and evaluation purposes only. OWLCS can be used to set and display presence information and enable text chat functionality within Oracle WebCenter Portal applications or portals.

Oracle WebCenter Sites

Oracle WebCenter Sites is a comprehensive web content management solution that helps organizations build, deploy, and manage large-scale interactive web sites.

Restricted Use: A license to Oracle WebCenter Sites includes a restricted use license to Oracle WebCenter Content. Use of Oracle WebCenter Content is restricted to managing documents, Web Content (WCM), Digital Assets (DAM), and other content management components for content delivery as part of a web site.

Restricted use: A license to Oracle WebCenter Sites includes a restricted use license to Oracle WebLogic Server Enterprise Edition. Use of Oracle WebLogic Server Enterprise Edition is restricted to running the Oracle WebCenter Sites.

Restricted Use: A license to Oracle WebCenter Sites includes a restricted use license to Oracle Coherence Enterprise Edition. Use of Oracle Coherence Enterprise Edition is restricted to store an asset file locking mechanism only for Oracle WebCenter Sites.

Oracle Management Pack for Oracle WebCenter

This pack delivers comprehensive management for Oracle WebCenter environments and it provides comprehensive modeling for Oracle WebCenter Portal environments, running in Oracle WebLogic Server, as well as the underlying Java EE components.

Oracle WebCenter Universal Content Management

Oracle WebCenter Universal Content Management provides a unified application for delivering document management, Web Content Management (WCM), Digital Asset Management (DAM), and retention management.

Oracle WebCenter Universal Content Management is included in the Oracle WebCenter Content installer, however, a license to Oracle WebCenter Universal Content Management does not include a license to all of the components included in the installation packages in the Oracle WebCenter Content installer.

Oracle WebCenter Universal Content Management includes the following components:

- Digital Asset Management
- Oracle WebCenter Content Conversion:
  - Inbound Refinery
  - Inbound Refinery Standard Components
- Desktop Integration Suite
- Content Server
- Content Server System Components
- Content Server Standard Components:
  - Document Management
  - Web Content Management
  - Folders
  - Inbound Refinery
  - Integration: BPELIntegration
  - Integration: SESCrawlerExport
  - Integration: IPMRepository
  - Integration: WebCenterConfigure
  - Content Tracker
  - Content Tracker Reports
- Records Management:
  - Installation Level: Minimal
  - Installation Level: Typical

Restricted Use: A license to Oracle Universal Content Management includes a restricted use license to Oracle BPEL Process Manager. Use of Oracle BPEL Process Manager is restricted to creating workflows/processes within Oracle WebCenter Universal Content Management.

Restricted Use: A license to Oracle Universal Content Management includes a restricted use license to Oracle WebLogic Server Enterprise Edition. Use of Oracle WebLogic Server Enterprise Edition is restricted to use as a host for only Oracle WebCenter Universal Content Management, including run-time components to provide Java runtime environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.

Restricted Use: A license to Oracle Universal Content Management includes a restricted use license to Oracle Secure Enterprise Search. Use of Oracle Secure Enterprise Search is restricted to installation and running on the same processor(s) that runs the content management repository and may be used to index and search the local instance of the content management repository. Federation to external servers or other data resources is not permitted.

Restricted Use: A license to Oracle Universal Content Management includes a restricted use license to Oracle Outside In Technology. Use of Oracle Outside In Technology is restricted to using program libraries that can only be accessed,

(i) From Oracle WebCenter Universal Content Management — either using standard Oracle WebCenter Universal Content Management features or using custom components running on Oracle WebCenter Universal Content Management, or

(ii) From Oracle WebCenter Content Conversion — either using standard Oracle WebCenter Content Conversion features or using custom components running on Oracle WebCenter Content Conversion.

Outside In libraries cannot be accessed directly from any other application under this license.

Restricted Use: Java SE is included with Oracle Universal Content Management and is intended only for use in conjunction with running Oracle Universal Content Management applications. If you use Java SE in any other way or if you use a different version of Java SE than that provided with Oracle Universal Content Management, your use of Java SE is subject to the terms set forth at: http://java.com/otnlicense.

Oracle WebCenter Content

Oracle WebCenter Content bundles Oracle's solutions for content management, records management, and imaging, providing a solution for customers seeking to implement an enterprise-wide content management system.

Oracle WebCenter Content includes all of the Oracle WebCenter Universal Content Management (See Oracle WebCenter Universal Content Management) functionality, all of the Oracle WebCenter Imaging (See Oracle WebCenter Imaging) functionality, plus the following additional features and restricted use licenses:

- Records Management features: Installation Level: DoD Baseline, Installation Level: DoD Classified, Installation Level: Custom

Restricted Use: A license to Oracle WebCenter Content includes a restricted use license to Oracle SOA Suite. Use of Oracle SOA Suite is restricted to use only the following components included in Oracle SOA Suite: Oracle BPEL Process Manager, Oracle Business Rules, Oracle Business Activity Monitoring, and Oracle Web Services Manager. Use of such components is restricted to modeling, securing, executing and monitoring processes that are initiated from Oracle WebCenter Content components.

Restricted Use: A license to Oracle WebCenter Content includes a restricted use license to Oracle Unified Business Process Management Suite. Use of Oracle Unified Business Process Management Suite is restricted to modeling, executing, and monitoring processes that are initiated from Oracle WebCenter Content components.

Restricted Use: A license to Oracle WebCenter Content includes a restricted use license to Oracle WebLogic Server Enterprise Edition. Use of Oracle WebLogic Server Enterprise Edition is restricted to a host for only Oracle WebCenter Content, including run-time components to provide Java runtime environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.

- Third-Party Products and Details for Oracle WebCenter Content

Third-Party Products and Details for Oracle WebCenter Content

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle WebCenter Content, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle WebCenter Content with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle WebCenter Content are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle WebCenter Content:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle WebCenter Content.

Table 10-1 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Content

Provider	Component(s)	Release Versions	Licensing Information
Apache	Ant 1.6.2, 1.7, 1.7.1	11.1.1.9.0	For a copy of the license, see Apache License Version 2.
Apache	Apache Commons Jexl (commons-jexl.jar) 1	11.1.1.9.0	For a copy of the license, see Apache License Version 2.
Apache	ant.jar 1.6.5	12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	Ant 1.7.1	12.2.1.2.0 12.2.1.3.0	This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`). For a copy of the license, see Apache License Version 2.

Table 10-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Content

Provider	Component(s)	Release Versions	Licensing Information

Apache	HttpCore NIO 4.4.13	12.2.1.4.0	LICENSING OF DISTRIBUTIONS
			All software produced by The Apache Software Foundation or any of its projects or subjects is licensed according to the terms of the documents listed below.
			APACHE LICENSE, VERSION 2.0 (CURRENT)
			`http://www.apache.org/licenses/LICENSE-2.0`
			(TXT or HTML)
			The 2.0 version of the Apache License was approved by the ASF in 2004. The goals of this license revision have been to reduce the number of frequently asked questions, to allow the license to be reusable without modification by any project (including non-ASF projects), to allow the license to be included by reference instead of listed in every file, to clarify the license on submission of contributions, to require a patent license on contributions that necessarily infringe the contributor's own patents, and to move comments regarding Apache and other inherited attribution notices to a location outside the license terms (the NOTICE file).
			The result is a license that is supposed to be compatible with other open source licenses, while remaining true to the original goals of the Apache Group and supportive of collaborative development across both nonprofit and commercial organizations. The Apache Software Foundation is still trying to determine if this version of the Apache License is compatible with the GPL.
			All packages produced by the ASF are implicitly licensed under the Apache License, Version 2.0, unless otherwise explicitly stated. More developer documentation on how to apply the Apache License to your work can be found in * Applying the Apache License, Version 2.0. *.
			APACHE LICENSE, VERSION 1.1 (HISTORIC)
			`http://www.apache.org/licenses/LICENSE-1.1`
			The 1.1 version of the Apache License was approved by the ASF in 2000. The primary change from the 1.0 license is in the 'advertising clause' (section 3 of the 1.0 license); derived products are no longer required to include attribution in their advertising materials, only in their documentation.
			Individual packages licensed under the 1.1 version may have used different wording due to varying requirements for attribution or mark identification, but the binding terms were all the same.
			APACHE LICENSE, VERSION 1.0 (HISTORIC)
			`http://www.apache.org/licenses/LICENSE-1.0`
			This is the original Apache License which applies only to older versions of Apache packages (such as version 1.2 of the Web server).

Table 10-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Content

Provider	Component(s)	Release Versions	Licensing Information
			CONTRIBUTOR LICENSE AGREEMENTS The ASF desires that all contributors of ideas, code, or documentation to the Apache projects complete, sign, and submit (via postal mail, fax or email) an Individual Contributor License Agreement (1) (CLA) [PDF form]. The purpose of this agreement is to clearly define the terms under which intellectual property has been contributed to the ASF and thereby allow us to defend the project should there be a legal dispute regarding the software at some future time. A signed CLA is required to be on file before an individual is given commit rights to an ASF project. For a corporation that has assigned employees to work on an Apache project, a Corporate CLA (CCLA) is available for contributing intellectual property via the corporation, that may have been assigned as part of an employment agreement. Note that a Corporate CLA does not remove the need for every developer to sign their own CLA as an individual, to cover any of their contributions which are not owned by the corporation signing the CCLA. The ICLA is not tied to any employer you may have, so it is recommended to use one's personal email address in the contact details, rather than an @work address. Your Full name will be published unless you provide an alternative Public name. For example if your full name is Andrew Bernard Charles Dickens, but you wish to be known as Andrew Dickens, please enter the latter as your Public name. The email address and other contact details are not published. (1) Please use overwrite mode when typing in the underlined fields. Otherwise the fields will wrap, making the result harder to read. SOFTWARE GRANTS When an individual or corporation decides to donate a body of existing software or documentation to one of the Apache projects, they need to execute a formal Software Grant Agreement (SGA) with the ASF. Typically, this is done after negotiating approval with the ASF Incubator or one of the PMCs, since the ASF will not accept software unless there is a viable community available to support a collaborative project. SUBMITTING LICENSE AGREEMENTS AND GRANTS Documents may be submitted by traditional postal mail, fax, or email. If submitting by post, please print, sign, and mail the document to The Apache Software Foundation, Dept. 9660, Los Angeles, CA 90084-9660, U.S.A. Please make a copy and keep for your own records. If submitting by fax, please print, sign, and fax all pages of the document to +1-919-573-9199. Please send

Table 10-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Content

Provider	Component(s)	Release Versions	Licensing Information
			documents right-side-up, first page first; and send only one document per fax. If submitting by email, please print, sign, scan all pages into a single pdf file, and email the .pdf as an attachment to `secretary@apache.org`. Please send only one document per email. If you prefer to sign electronically, please edit the .txt or .pdf file and sign the file by preparing a detached PGP signature. For example, gpg --armor --detach-sign icla.pdf The above will create a file icla.pdf.asc. Send both the file and signature as attachments in an email to `secretary@apache.org`. Please send only one document per email. Please do not submit your public key to Apache. The files typically are named icla.txt and icla.txt.asc (or icla.pdf and icla.pdf.asc) for individual agreements; ccla.txt and ccla.txt.asc (or ccla.pdf and ccla.pdf.asc) for corporate agreements; software-grant.txt and software-grant.txt.asc for grants. Please upload your public key to `pgpkeys.mit.edu`. EXPORT RESTRICTIONS For export restriction information, please consult our ASF Export Classifications page. TRADEMARK AND LOGO USAGE For ASF trademark and logo usage information, please consult our ASF Trademark Use Policy page. For a copy of the licenses, see Apache License Version 2, Apache License Version 1.1, and Apache License Version 1.

			7. If this compilation is used in object code form in an application software, acknowledgement of the author is not required but would be appreciated. The contribution of any useful modifications or extensions to Wei Dai is not required but would also be appreciated.
Dmitry Streblechenko	Outlook Redemption 4.7.0.1026	11.1.1.9.0	By downloading and installing this software you agree to the following terms and conditions: The version of Redemption available from http://www.dimastr.com/redemption/download.htm is licensed for the development purposes only. It cannot be used with any commercial software. If you plan to include Redemption with a commercial product, you must purchase a distributable version which you can then use for any and all of your products. You only need to buy a single license, no matter how many of your products use Redemption or how many copies of your application you distribute. Restriction: Distributable version of Outlook Redemption cannot be used in open source projects. LIMITATION OF LIABILITY: TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL THE CREATOR OF THIS SOFTWARE BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE PRODUCT OR THE FAILURE TO PROVIDE SUPPORT SERVICES.

Yahoo	YUI (Yahoo User Interface) Library 2.9.0	12.2.1.4.0	Copyright © 2012 Yahoo! Inc. All rights reserved. For a copy of the license, see YUI (Yahoo User Interface) Library License. Sources of Intellectual Property Included in the YUI Library YUI is issued by Yahoo! under the BSD license above. Below is a list of certain publicly available software that is the source of intellectual property in YUI, along with the licensing terms that pertain to those sources of IP. This list is for informational purposes only and is not intended to represent an exhaustive list of third party contributions to YUI. • Douglas Crockford's JSON parsing and stringifying methods: In the JSON Utility, Douglas Crockford's JSON parsing and stringifying methods are adapted from work published at JSON.org. The adapted work is in the public domain. • Robert Penner's animation-easing algorithms: In the Animation Utility, YUI makes use of Robert Penner's algorithms for easing. • Geoff Stearns's SWFObject: In the Charts Control and the Uploader versions through 2.7.0, YUI makes use of Geoff Stearns's SWFObject v1.5 for Flash Player detection and embedding. More information on SWFObject can be found at http://blog.deconcept.com/swfobject/. SWFObject is (c) 2007 Geoff Stearns and is released under the MIT License (http://www.opensource.org/licenses/mit-license.php). • Diego Perini's IEContentLoaded technique: The Event Utility employs a technique developed by Diego Perini and licensed under GPL. YUI's use of this technique is included under our BSD license with the author's permission. • Yehuda Katz's Handlebars.js: YUI includes a wrapped version of Handlebars in our distribution. Handlebars.js is licensed under the MIT license which is in compliance with YUI's BSD license. Robert Penner's animation-easing algorithms uses BSD License. TERMS OF USE - EASING EQUATIONS Open source under the BSD License. Copyright 2001 Robert Penner All rights reserved. Oracle WebCenter Portal

Oracle WebCenter Portal provides a solution for customers seeking to implement transactional web sites, enterprise portals, collaborative workspaces, and composite web applications across the enterprise.

Oracle WebCenter Portal includes:

- Oracle WebCenter Portal
- Oracle WebLogic Portal
- Oracle WebCenter Interaction

Prerequisite: A license to Oracle WebLogic Server Enterprise Edition is a prerequisite to license and use Oracle WebCenter Portal.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle WebCenter Content. Use of Oracle WebCenter Content is restricted to storing and

managing all content that is delivered as part of Oracle WebCenter Portal website, application, or portal.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle Secure Enterprise Search. Use of Oracle Secure Enterprise Search is restricted to use with Oracle WebCenter Portal to search and index any content stored in the content repository, as well as any page delivered as part of Oracle WebCenter Portal or application. If a page includes portlets, the information delivered within the portlet can be indexed as part of the search results as well.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle SOA Suite. Use of Oracle SOA Suite is restricted to Oracle Web Services Manager (OWSM) and Oracle BPEL Process Manager:

- **Oracle Web Services Manager (OWSM):** Use of OWSM is restricted to securing authentication between Oracle WebCenter Portal components. This includes using OWSM security policies when interacting with Oracle WebCenter web service interfaces. Authoring and management tooling is limited to the capabilities delivered with the base Oracle WebCenter Portal console screens. New policies may be authored with command line and scripting tools only. The use of OWSM is further limited to enforcing message-level security between Oracle WebCenter Portlet Producers and WebCenter Portlet Consumers and securing interactions between Oracle WebCenter Portal components, BPEL Process Manager, and WebCenter Portal Discussions Server.
- **Oracle BPEL Process Manager:** Use of Oracle BPEL Process Manager is restricted to running existing deployed processes and responding to requests that require user input delivered inside of Oracle WebCenter Portal application or portal. However, the ability to define, deploy, and run new BPEL processes is allowed provided that all process endpoints exist entirely within Oracle WebCenter Portal delivered components. The modification of document BPEL processes included with the content repository can also be integrated with existing BPEL processes. The pre-built BPEL portlet and task flows, which enable viewing of a user's worklist items from any combination of backend BPEL servers, is also included.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle Access Manager. Use of Oracle Access Manager is restricted to enabling Single-Sign On (SSO) between Oracle WebCenter Portal components. Oracle Access Manager may not be used for: **(a)** Enabling SSO for any custom services, functions, or third party applications, **(b)** Directing Oracle Access Manager SDK calls, or **(c)** Enabling third party directory integration.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle Internet Directory (OID) and Oracle Wallet.

- The use of OID is restricted to storing credentials and policies specific to Oracle WebCenter Portal and its delivered components.
- The use of Oracle Wallet is restricted to storing credentials specific to Oracle WebCenter Portal and its delivered components.

Restricted Use: A license to Oracle WebCenter Portal includes a restricted use license to Oracle WebLogic Communication Services (OWLCS) and Oracle Communications Presence (OCP). Use of OWLCS and OCP is restricted to development and evaluation purposes only. OWLCS can be used to set and display presence information and enable text chat functionality within Oracle WebCenter Portal applications or portals.

- Third-Party Products and Details for Oracle Webservices Manager

Third-Party Products and Details for Oracle WebCenter Portal

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle WebCenter Portal, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle WebCenter Portal with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle WebCenter Portal are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle WebCenter Portal:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle WebCenter Portal.

Table 10-2 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Portal

Provider	Component(s)	Release Versions	Licensing Information
Apache	Apache POI 3.6	11.1.1.9.0 12.2.1.2.0	For a copy of the license, see Apache License Version 2. For a copy of the license, see Apache POI License.
Apache	Apache POI 3.2	12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2.

Table 10-2 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Portal

Provider	Component(s)	Release Versions	Licensing Information
Apache	Apache POI 4.0.1	12.2.1.4.0	Copyright 2003-2018 The Apache Software Foundation This product includes software developed at The Apache Software Foundation (`http://www.apache.org/`) This product contains parts that were originally based on software from BEA. Copyright (c) 2000-2003, BEA Systems, (dead link), which was acquired by Oracle Corporation in 2008. This product contains W3C XML Schema documents. Copyright 2001-2003 (c) World Wide Web Consortium (Massachusetts Institute of Technology, European Research Consortium for Informatics and Mathematics, Keio University) This product contains the chunks_parse_cmds.tbl file from the vsdump program. Copyright (C) 2006-2007 Valek Filippov (`frob@df.ru`) This product contains parts of the eID Applet project and . Copyright (c) 2009-2014 FedICT (federal ICT department of Belgium), e-Contract.be BVBA (`https://www.e-contract.be`), Bart Hanssens from FedICT For a copy of the license, see Apache License Version 2. APACHE POI SUBCOMPONENTS: Apache POI includes subcomponents with separate copyright notices and license terms. Your use of these subcomponents is subject to the terms and conditions of the following licenses: **Office Open XML schemas (ooxml-schemas-1.*.jar)** The Office Open XML schema definitions used by Apache POI are a part of the Office Open XML ECMA Specification (ECMA-376, [1]). As defined in section 9.4 of the ECMA bylaws [2], this specification is available to all interested parties without restriction: 9.4 All documents when approved shall be made available to all interested parties without restriction. Furthermore, both Microsoft and Adobe have granted patent licenses to this work [3,4,5]. 1. `http://www.ecma-international.org/publications/standards/Ecma-376.htm` 2. `http://www.ecma-international.org/memento/Ecmabylaws.htm` 3. `http://www.microsoft.com/openspecifications/en/us/programs/osp/default.aspx` 4. `http://www.ecma-international.org/publications/files/ECMA-ST/`

			USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. IPTC Photo Metadata descriptions are taken from the IPTC Photo Metadata Standard, July 2010, Copyright 2010 International Press Telecommunications Council. 1. The Specifications and Materials are licensed for use only on the condition that you agree to be bound by the terms of this license. Subject to this and other licensing requirements contained herein, you may, on a non-exclusive basis, use the Specifications and Materials. 2. The IPTC openly provides the Specifications and Materials for voluntary use by individuals, partnerships, companies, corporations, organizations and any other entity for use at the entity's own risk. This disclaimer, license and release is intended to apply to the IPTC, its officers, directors, agents, representatives, members, contributors, affiliates, contractors, or co-venturers acting jointly or severally. 3. The Document and translations thereof may be copied and furnished to others, and derivative works that comment on or otherwise explain it or assist in its implementation may be prepared, copied, published and distributed, in whole or in part, without restriction of any kind, provided that the copyright and license notices and references to the IPTC appearing in the Document and the terms of this Specifications License Agreement are included on all such copies and derivative works. Further, upon the receipt of written permission from the IPTC, the Document may be modified for the purpose of developing applications that use IPTC Specifications or as required to translate the Document into languages other than English. 4. Any use, duplication, distribution, or exploitation of the Document and Specifications and Materials in any manner is at your own risk. 5. NO WARRANTY, EXPRESSED OR IMPLIED, IS MADE REGARDING THE ACCURACY, ADEQUACY, COMPLETENESS, LEGALITY, RELIABILITY OR USEFULNESS OF ANY INFORMATION CONTAINED IN THE DOCUMENT OR IN ANY SPECIFICATION OR OTHER PRODUCT OR SERVICE PRODUCED OR SPONSORED BY THE IPTC. THE DOCUMENT AND THE INFORMATION CONTAINED HEREIN AND INCLUDED IN ANY SPECIFICATION OR OTHER PRODUCT OR SERVICE OF THE IPTC IS PROVIDED ON AN "AS IS" BASIS. THE IPTC DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY ACTUAL OR ASSERTED WARRANTY OF NON-INFRINGEMENT OF PROPRIETARY RIGHTS, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE. NEITHER THE IPTC NOR ITS CONTRIBUTORS SHALL BE HELD LIABLE FOR ANY IMPROPER OR INCORRECT USE OF

			INFORMATION. NEITHER THE IPTC NOR ITS CONTRIBUTORS ASSUME ANY RESPONSIBILITY FOR ANYONE'S USE OF INFORMATION PROVIDED BY THE IPTC. IN NO EVENT SHALL THE IPTC OR ITS CONTRIBUTORS BE LIABLE TO ANYONE FOR DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO, COMPENSATORY DAMAGES, LOST PROFITS, LOST DATA OR ANY FORM OF SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES OF ANY KIND WHETHER BASED ON BREACH OF CONTRACT OR WARRANTY, TORT, PRODUCT LIABILITY OR OTHERWISE. 6. The IPTC takes no position regarding the validity or scope of any Intellectual Property or other rights that might be claimed to pertain to the implementation or use of the technology described in the Document or the extent to which any license under such rights might or might not be available. The IPTC does not represent that it has made any effort to identify any such rights. Copies of claims of rights made available for publication, assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of the Specifications and Materials, can be obtained from the Managing Director of the IPTC. 7. By using the Specifications and Materials including the Document in any manner or for any purpose, you release the IPTC from all liabilities, claims, causes of action, allegations, losses, injuries, damages, or detriments of any nature arising from or relating to the use of the Specifications, Materials or any portion thereof. You further agree not to file a lawsuit, make a claim, or take any other formal or informal legal action against the IPTC, resulting from your acquisition, use, duplication, distribution, or exploitation of the Specifications, Materials or any portion thereof. Finally, you hereby agree that the IPTC is not liable for any direct, indirect, special or consequential damages arising from or relating to your acquisition, use, duplication, distribution, or exploitation of the Specifications, Materials or any portion thereof. 8. Specifications and Materials may be downloaded or copied provided that ALL copies retain the ownership, copyright and license notices. 9. Materials may not be edited, modified, or presented in a context that creates a misleading or false impression or statement as to the positions, actions, or statements of the IPTC. 10. The name and trademarks of the IPTC may not be used in advertising, publicity, or in relation to products or services and their names without the specific, written prior permission of the IPTC. Any permitted use of the

Provider	Component(s)	Release Versions	Licensing Information
			trademarks of the IPTC, whether registered or not, shall be accompanied by an appropriate mark and attribution, as agreed with the IPTC. 11. Specifications may be extended by both members and non-members to provide additional functionality (Extension Specifications) provided that there is a clear recognition of the IPTC IP and its ownership in the Extension Specifications and the related documentation and provided that the extensions are clearly identified and provided that a perpetual license is granted by the creator of the Extension Specifications for other members and non-members to use the Extension Specifications and to continue extensions of the Extension Specifications. The IPTC does not waive any of its rights in the Specifications and Materials in this context. The Extension Specifications may be considered the intellectual property of their creator. The IPTC expressly disclaims any responsibility for damage caused by an extension to the Specifications. 12. Specifications and Materials may be included in derivative work of both members and non-members provided that there is a clear recognition of the IPTC IP and its ownership in the derivative work and its related documentation. The IPTC does not waive any of its rights in the Specifications and Materials in this context. Derivative work in its entirety may be considered the intellectual property of the creator of the work .The IPTC expressly disclaims any responsibility for damage caused when its IP is used in a derivative context. 13. This Specifications License Agreement is perpetual subject to your conformance to the terms of this Agreement. The IPTC may terminate this Specifications License Agreement immediately upon your breach of this Agreement and, upon such termination you will cease all use, duplication, distribution, and/or exploitation in any manner of the Specifications and Materials. 14. This Specifications License Agreement reflects the entire agreement of the parties regarding the subject matter hereof and supersedes all prior agreements or representations regarding such matters, whether written or oral. To the extent any portion or provision of this Specifications License Agreement is found to be illegal or unenforceable, then the remaining provisions of this Specifications License Agreement will remain in full force and effect and the illegal or unenforceable provision will be construed to give it such effect as it may properly have that is consistent with the intentions of the parties. 15. This Specifications License Agreement may only be modified in writing signed by an authorized representative of the IPTC. 16. This Specifications License Agreement is governed by the law of United Kingdom, as such law is applied to

Third-Party Products and Details for Oracle Webservices Manager

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Webservices Manager, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Webservices Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Webservices Manager:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Webservices Manager.

Oracle WebCenter Imaging

Oracle WebCenter Imaging provides imaging and business process management capabilities for enterprise applications, such as accounts payable and human resources, as well as for business applications, such as loan origination and claims processing.

Oracle WebCenter Imaging is included in the Oracle WebCenter Content installer; however, a license to Oracle WebCenter Imaging does not include a license to all of the installation packages in the Oracle WebCenter Content installer.

Restricted Use: A license to WebCenter Imaging includes a restricted use license to Oracle SOA Suite. Use of Oracle SOA Suite is restricted to use only the following components included in Oracle SOA Suite: Oracle BPEL Process Manager, Oracle Business Rules, Oracle Business Activity Monitoring, and Oracle Web Services Manager. Use of such components is restricted to modeling, securing, executing, and monitoring processes that are initiated from WebCenter Imaging.

Restricted Use: A license to Oracle WebCenter Imaging includes a restricted use license to Oracle Unified Business Process Management Suite. Use of Oracle Unified Business Process Management Suite is restricted to modeling, executing, and monitoring processes that are initiated from Oracle WebCenter Imaging.

Restricted Use: A license to Oracle WebCenter Imaging includes a restricted use license to Oracle Internet Application Server Enterprise Edition. Use of Oracle Internet Application Server Enterprise Edition is restricted to using: **(a)** Run-time components to provide Java runtime environment and HTTP support, as well as configuration and administration components used for the setup and management of these runtime components; and **(b)** Run-time and design-time components to display and customize screens provided with Oracle WebCenter Imaging.

Restricted Use: A license to Oracle WebCenter Imaging includes a restricted use license to Oracle WebCenter Universal Content Management. Use of Oracle WebCenter Universal Content Management is: **(1)** Restricted to storing and managing documents originating from WebCenter Imaging, and **(2)** Subject to the rights and restrictions stated in Oracle WebCenter Universal Content Management.

Restricted Use: A license to WebCenter Imaging includes a restricted use license to Oracle WebLogic Server Enterprise Edition. Use of Oracle WebLogic Server Enterprise Edition is restricted to use as host for only WebCenter Imaging, including run-time components to provide Java runtime environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.

Restricted Use: A license to WebCenter Imaging includes a restricted use license to Oracle WebCenter Enterprise Capture. Use of Oracle WebCenter Enterprise Capture is restricted to providing the following imaging functionality: importing documents using the list file import source only, committing non-image and image documents to imaging, where image documents are output in TIFF format only, and reviewing batches imported from the import processor only.

Oracle WebCenter Sites

Oracle WebCenter Sites is a comprehensive web content management solution that helps organizations build, deploy, and manage large-scale interactive web sites.

Restricted Use: A license to Oracle WebCenter Sites includes a restricted use license to Oracle WebCenter Content. Use of Oracle WebCenter Content is restricted to managing documents, Web Content (WCM), Digital Assets (DAM), and other content management components for content delivery as part of a web site.

Restricted use: A license to Oracle WebCenter Sites includes a restricted use license to Oracle WebLogic Server Enterprise Edition. Use of Oracle WebLogic Server Enterprise Edition is restricted to running the Oracle WebCenter Sites.

Restricted Use: A license to Oracle WebCenter Sites includes a restricted use license to Oracle Coherence Enterprise Edition. Use of Oracle Coherence Enterprise Edition is restricted to store an asset file locking mechanism only for Oracle WebCenter Sites.

- Third-Party Products and Details for Oracle WebCenter Sites

Third-Party Products and Details for Oracle WebCenter Sites

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle WebCenter Sites, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle WebCenter Sites with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle WebCenter Sites are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle WebCenter Sites:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle WebCenter Sites.

			THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CREATIVE COMMONS PUBLIC LICENSE ("CCPL" OR "LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED.
			BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HERE, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. TO THE EXTENT THIS LICENSE MAY BE CONSIDERED TO BE A CONTRACT, THE LICENSOR GRANTS YOU THE RIGHTS CONTAINED HERE IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS.
			1. Definitions
			a."Collective Work" means a work, such as a periodical issue, anthology or encyclopedia, in which the Work in its entirety in unmodified form, along with one or more other contributions, constituting separate and independent works in themselves, are assembled into a collective whole. A work that constitutes a Collective Work will not be considered a Derivative Work (as defined below) for the purposes of this License.

Table 10-4 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Sites

Provider	Component(s)	Release Versions	Licensing Information
			b."Derivative Work" means a work based upon the Work or upon the Work and other pre-existing works, such as a translation, musical arrangement, dramatization, fictionalization, motion picture version, sound recording, art reproduction, abridgment, condensation, or any other form in which the Work may be recast, transformed, or adapted, except that a work that constitutes a Collective Work will not be considered a Derivative Work for the purpose of this License. For the avoidance of doubt, where the Work is a musical composition or sound recording, the synchronization of the Work in timed-relation with a moving image ("synching") will be considered a Derivative Work for the purpose of this License. c."Licensor" means the individual, individuals, entity or entities that offers the Work under the terms of this License. d."Original Author" means the individual, individuals, entity or entities who created the Work. e."Work" means the copyrightable work of authorship offered under the terms of this License. f."You" means an individual or entity exercising rights under this License who has not previously violated the terms of this License with respect to the Work, or who has received express permission from the Licensor to exercise rights under this License despite a previous violation. 2. Fair Use Rights. Nothing in this license is intended to reduce, limit, or restrict any rights arising from fair use, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws. 3. License Grant. Subject to the terms and conditions of this License, Licensor hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below: a.to reproduce the Work, to incorporate the Work into one or more Collective Works, and to reproduce the Work as incorporated in the Collective Works; b.to create and reproduce Derivative Works provided that any such Derivative Work, including any translation in any medium, takes reasonable steps to clearly label, demarcate or otherwise identify that changes were made to the original Work. For example, a translation could be marked "The original work was translated from English to Spanish," or a modification could indicate "The original work has been modified.";; c.to distribute copies or phonorecords of, display publicly, perform publicly, and perform publicly by means of a digital audio transmission the Work including as incorporated in Collective Works;

Table 10-4 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Sites

Provider	Component(s)	Release Versions	Licensing Information
			d.to distribute copies or phonorecords of, display publicly, perform publicly, and perform publicly by means of a digital audio transmission Derivative Works. e.For the avoidance of doubt, where the Work is a musical composition: i.Performance Royalties Under Blanket Licenses. Licensor waives the exclusive right to collect, whether individually or, in the event that Licensor is a member of a performance rights society (e.g. ASCAP, BMI, SESAC), via that society, royalties for the public performance or public digital performance (e.g. webcast) of the Work. ii.Mechanical Rights and Statutory Royalties. Licensor waives the exclusive right to collect, whether individually or via a music rights agency or designated agent (e.g. Harry Fox Agency), royalties for any phonorecord You create from the Work ("cover version") and distribute, subject to the compulsory license created by 17 USC Section 115 of the US Copyright Act (or the equivalent in other jurisdictions). f.Webcasting Rights and Statutory Royalties. For the avoidance of doubt, where the Work is a sound recording, Licensor waives the exclusive right to collect, whether individually or via a performance-rights society (e.g. SoundExchange), royalties for the public digital performance (e.g. webcast) of the Work, subject to the compulsory license created by 17 USC Section 114 of the US Copyright Act (or the equivalent in other jurisdictions). The above rights may be exercised in all media and formats whether now known or hereafter devised. The above rights include the right to make such modifications as are technically necessary to exercise the rights in other media and formats. All rights not expressly granted by Licensor are hereby reserved. 4. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions: a.You may distribute, publicly display, publicly perform, or publicly digitally perform the Work only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy or phonorecord of the Work You distribute, publicly display, publicly perform, or publicly digitally perform. You may not offer or impose any terms on the Work that restrict the terms of this License or the ability of a recipient of the Work to exercise the rights granted to that recipient under the terms of the License. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. When You distribute, publicly display, publicly perform, or publicly digitally perform the Work, You may not impose any technological measures on the

Provider	Component(s)	Release Versions	Licensing Information
			Work that restrict the ability of a recipient of the Work from You to exercise the rights granted to that recipient under the terms of the License. This Section 4(a) applies to the Work as incorporated in a Collective Work, but this does not require the Collective Work apart from the Work itself to be made subject to the terms of this License. If You create a Collective Work, upon notice from any Licensor You must, to the extent practicable, remove from the Collective Work any credit as required by Section 4(b), as requested. If You create a Derivative Work, upon notice from any Licensor You must, to the extent practicable, remove from the Derivative Work any credit as required by Section 4(b), as requested. b.If You distribute, publicly display, publicly perform, or publicly digitally perform the Work (as defined in Section 1 above) or any Derivative Works (as defined in Section 1 above) or Collective Works (as defined in Section 1 above), You must, unless a request has been made pursuant to Section 4(a), keep intact all copyright notices for the Work and provide, reasonable to the medium or means You are utilizing: (i) the name of the Original Author (or pseudonym, if applicable) if supplied, and/or (ii) if the Original Author and/or Licensor designate another party or parties (e.g. a sponsor institute, publishing entity, journal) for attribution ("Attribution Parties") in Licensor's copyright notice, terms of service or by other reasonable means, the name of such party or parties; the title of the Work if supplied; to the extent reasonably practicable, the Uniform Resource Identifier, if any, that Licensor specifies to be associated with the Work, unless such URI does not refer to the copyright notice or licensing information for the Work; and, consistent with Section 3(b) in the case of a Derivative Work, a credit identifying the use of the Work in the Derivative Work (e.g., "French translation of the Work by Original Author," or "Screenplay based on original Work by Original Author"). The credit required by this Section 4(b) may be implemented in any reasonable manner; provided, however, that in the case of a Derivative Work or Collective Work, at a minimum such credit will appear, if a credit for all contributing authors of the Derivative Work or Collective Work appears, then as part of these credits and in a manner at least as prominent as the credits for the other contributing authors. For the avoidance of doubt, You may only use the credit required by this Section for the purpose of attribution in the manner set out above and, by exercising Your rights under this License, You may not implicitly or explicitly assert or imply any connection with, sponsorship or endorsement by the Original Author, Licensor and/or Attribution Parties, as appropriate, of You or Your use of the Work, without the

Provider	Component(s)	Release Versions	Licensing Information
			separate, express prior written permission of the Original Author, Licensor and/or Attribution Parties. 5. Representations, Warranties and Disclaimer UNLESS OTHERWISE MUTUALLY AGREED TO BY THE PARTIES IN WRITING, LICENSOR OFFERS THE WORK AS-IS AND ONLY TO THE EXTENT OF ANY RIGHTS HELD IN THE LICENSED WORK BY THE LICENSOR. THE LICENSOR MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE WORK, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF TITLE, MARKETABILITY, MERCHANTIBILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, OR THE ABSENCE OF LATENT OR OTHER DEFECTS, ACCURACY, OR THE PRESENCE OF ABSENCE OF ERRORS, WHETHER OR NOT DISCOVERABLE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO SUCH EXCLUSION MAY NOT APPLY TO YOU. 6. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. Termination a.This License and the rights granted hereunder will terminate automatically upon any breach by You of the terms of this License. Individuals or entities who have received Derivative Works (as defined in Section 1 above) or Collective Works (as defined in Section 1 above) from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License. b.Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above. 8. Miscellaneous a.Each time You distribute or publicly digitally perform the Work (as defined in Section 1 above) or a Collective

Table 10-4 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebCenter Sites

Provider	Component(s)	Release Versions	Licensing Information
			Work (as defined in Section 1 above), the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License. b.Each time You distribute or publicly digitally perform a Derivative Work, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License. c.If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. d.No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent. e.This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You.

			IS", AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT OWNER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. **ANTLR2** Antlr2 is released in the public domain. See licenses/antlr2-license.txt for details. We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software. We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc... If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed. In countries where the Public Domain status of the work may not be valid, the author grants a copyright licence to the general public to deal in the work without restriction and permission to sublicence derivates under the terms of any (OSI approved) Open Source licence. The Python parser generator code under antlr/actions/python/ is covered by the 3-clause BSD licence (this part is included in the binary JAR files); the run-time part under lib/python/ is covered by the GNU GPL, version 3 or later (this part is not included in the binary JAR files). See [1] for the full details.

Provider	Component(s)	Release Versions	Licensing Information
FasterXML, LLC	jackson-jaxrs-json-provider 2.9.9	12.2.1.4.0	Copyright (c) 2019 Tatu Saloranta <tatu.saloranta@iki.fi> Copyright (c) Fasterxml Dependencies: All licensed under the Apache 2.0 License. jackson-jaxrs-base jackson-module-jaxb-annotations jackson-annotations jackson-core jackson-databind For a copy of the license, see Apache License Version 2. The fourth party tools are jackson-jaxrs-base and jackson-module-jaxb-annotations. They are both under LICENSE: Apache 2.0 as stated above.
FasterXML, LLC	jackson-jaxrs-xml-provider 2.9.9	12.2.1.4.0	jackson-jaxrs-xml-provider is licensed under the Apache 2.0 license. There is no copyright statement included in Jackson project code, per this explanation on the Jackson Project FAQ (https://github.com/FasterXML/jackson/wiki/FAQ), under the heading "Why do source files NOT contain license and/or copyright information": "Some projects use (and require use of) per-file comment header which indicates license details and copyright assignments. Jackson project does not do this: we believe this is redundant and serves no useful purpose. Instead, the license information is contained in multiple places: • In src/main/resources/META-INF/LICENSE, so that it gets included in – Binary (jar) – Source archives (jar / zip) • pom.xml of the project (in some case parent pom) • Included in project Wiki pages For a copy of the license, see Apache License Version 2.
FasterXML, LLC	Jackson 2.5.4	12.2.1.3.0	For a copy of the license, see Apache License Version 2.

FasterXML, LLC	Jackson 2.7.4	12.2.1.3.0	# Jackson JSON processor Jackson is a high-performance, Free/Open Source JSON processing library. It was originally written by Tatu Saloranta (`tatu.saloranta@iki.fi`), and has been in development since 2007. It is currently developed by a community of developers, as well as supported commercially by FasterXML.com. ## Credits A list of contributors may be found from CREDITS file, which is included in some artifacts (usually source distributions); but is always available from the source code management (SCM) system project uses. For a copy of the license, see Apache License Version 2.

Oracle WebCenter Sites Mobile Option

If licensing by Named User Plus, the number of licenses to Oracle WebCenter Sites Mobile Option must match the number of licenses to the associated Oracle WebCenter application server.

If licensing by Processor, the number of licenses to Oracle WebCenter Sites Options must match the number of licenses to the associated Oracle WebCenter application server.

An associated application server is defined as the application server(s) which is (are) being managed by the licensed WebCenter Sites Mobile Option.

Oracle WebCenter Sites for Oracle ATG Web Commerce

Oracle WebCenter Sites for Oracle ATG Web Commerce is a comprehensive web content management solution that helps organizations to build, deploy, and manage, large-scale interactive web sites with Oracle ATG Web Commerce.

Restricted Use: Use of Oracle WebCenter Sites for Oracle ATG Web Commerce is restricted to serving content to ATG Web Commerce, either by delivering it to ATG Web Commerce or by delivering it directly to the end user browser, and serving content to websites that are also being served by ATG Web Commerce under a common fully qualified domain name.

Restricted use: A license to Oracle WebCenter Sites for Oracle ATG Web Commerce includes a restricted use license to Oracle WebLogic Server Enterprise Edition. Use of Oracle WebLogic Server Enterprise Edition is restricted to running the Oracle WebCenter Sites for Oracle ATG Web Commerce.

Restricted Use: A license to Oracle WebCenter Sites for Oracle ATG Web Commerce includes a restricted use license to Oracle Coherence Enterprise Edition. Use of Oracle Coherence Enterprise Edition is restricted to storing an asset file locking mechanism only for Oracle WebCenter Sites for Oracle ATG Web Commerce.

Oracle WebCenter Adapters

This section covers licensing details for Oracle WebCenter Adapters. All Adapters in Table 10-5 are licensed separately:

Table 10-5 Oracle WebCenter Product Family Adapters

Oracle Product	Available Adapters
Oracle WebCenter Adapter Framework	• Enterprise Application Adapter Framework • File System • Java • Microsoft .NET
Oracle WebCenter Applications Adapter	• E-Business Suite • PeopleSoft • Siebel

Oracle WebCenter Enterprise Capture Standard Edition

Oracle WebCenter Enterprise Capture Standard Edition includes the following functionality:

- Capture Client
- Import Processor
- Document Conversion Processor
- Recognition Processor
- Commit Processor
- Enterprise Manager Capture Plug-in

Restricted Use: A license to Oracle WebCenter Enterprise Capture Standard Edition includes a restricted-use license to WebLogic Server Standard Edition (WLS SE). Use of WLS SE is restricted to hosting Java application logic that is distributed as part of the Oracle WebCenter Enterprise Capture Standard Edition. Any modifications implemented as Java programs, which include Java programs that produce HTML interfaces or Java business logic, are not permitted.

Restricted Use: Use of Oracle WebCenter Enterprise Capture Standard Edition is restricted to deploying and managing individual, non-clustered instances regardless of whether it is deployed to a WebLogic Server Enterprise Edition or WebLogic Suite instead of WLS SE.

Oracle WebCenter Enterprise Capture

Oracle WebCenter Enterprise Capture includes all of the Oracle WebCenter Enterprise Capture Standard Edition functionality, plus the following:

- High Availability
- Clustering Support

Prerequisite: A license to WebLogic Server Enterprise Edition or WebLogic Suite is a prerequisite to using the following Oracle WebCenter Enterprise Capture features:

- Load balancing
- Application failover
- Cluster management and administration

Restricted Use: A license to Oracle WebCenter Enterprise Capture includes a restricted-use license to WebLogic Server Standard Edition (WLS SE). Use of WLS SE is restricted to hosting Java application logic that is distributed as part of the Oracle WebCenter Enterprise Capture.

Any modifications implemented as Java programs, which include Java programs that produce HTML interfaces or Java business logic, are not permitted.

Oracle Management Pack for Oracle WebCenter

This pack delivers comprehensive management for Oracle WebCenter environments and it provides comprehensive modeling for Oracle WebCenter Portal environments, running in Oracle WebLogic Server, as well as the underlying Java EE components.

Oracle WebCenter Licensing with Oracle Internet Application Server

Customers that have a valid license for Oracle Internet Application Server as a pre-requisite for Oracle WebCenter Services (no longer available for new licenses) or Oracle WebCenter Portal have the right to use Oracle WebLogic Server Basic to run Oracle WebCenter Services and Oracle WebCenter Portal as part of their existing Oracle Internet Application Server Standard Edition or Enterprise Edition license.

This does not include the right to run Oracle WebLogic Portal, Oracle WebCenter Interaction, Oracle WebCenter Collaboration, Oracle WebCenter Ensemble, Oracle WebCenter Analytics, Oracle WebCenter Console for Microsoft SharePoint, and Oracle WebCenter Application Accelerator for .NET, on Oracle WebLogic Server Basic; a separate Oracle WebLogic Server license is required to run those components.

11

Oracle Identity and Access Management Independent License Offerings

This chapter describes the separately licensed Oracle Identity and Access Management independent license offerings.

You may not use the options, packs, or products described below without separately purchased licenses. The fact that these options, packs, or products may be included in product CDs or downloads or described in documentation that you receive does not authorize you to use them without purchasing the appropriate licenses.

See Oracle Database License Requirements for important license requirements regarding the use of Oracle Database with the products described in this chapter.

The following products and sections describe the Oracle Identity and Access Management products and product families, that can be separately licensed, independent of the packaged Oracle Application Server or WebLogic editions.

This chapter contains the following sections:

- Third-Party Products and Details for Oracle Identity and Access Management
- Oracle Enterprise Identity Services Suite
- Oracle Enterprise Identity Services Suite Plus
- Oracle Identity Governance Suite
- Oracle Entitlements Server
- Oracle Entitlements Server Security Module
- Oracle Directory Services Plus
- Oracle Access Manager
- Oracle Identity Federation
- Oracle Identity Manager
- Oracle Identity Manager Connectors
- Oracle Identity Manager Connectors Pack
- Oracle Enterprise Single Sign-On Suite Plus
- Oracle Access Management Suite Plus
- Oracle Identity and Access Management Suite Plus
- Oracle Management Pack Plus for Identity Management
- Oracle Database License Requirements

Third-Party Products and Details for Oracle Identity and Access Management

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity and Access Management, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity and Access Management are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Identity and Access Management:

- 11.1.2.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in for Oracle Identity and Access Management.

Table 11-1 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity and Access Management

Provider	Component(s)	Release Versions	Licensing Information
Apache	Apache POI 3.0 2.5.1	11.1.2.3.0	For a copy of the license, see Apache License Version 2.
Apache	Apache Axiom 1.2.22	12.2.1.4.0	For a copy of the license, see Apache License Version 2.
Codehaus	Jettison 1.3.2	11.1.2.3.0	The following applies to all products licensed under the Apache 2.0 License: You may not use the identified files except in compliance with the Apache License, Version 2 (the "License".) You may obtain a copy of the License at: `http://www.apache.org/licenses/LICENSE-2.0`. Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License. For a copy of the license, see Apache License Version 2.

Oracle Enterprise Identity Services Suite

Oracle Enterprise Identity Services Suite can be separately licensed, independent of any Oracle Application Server or WebLogic edition. It includes:

- Oracle Access Management Suite Plus
- Oracle Directory Services Plus
- Oracle Identity Governance Suite

Oracle Enterprise Identity Services Suite Plus

Oracle Enterprise Identity Services Suite Plus can be separately licensed, independent of any Oracle Application Server or WebLogic edition. It includes:

- Oracle Access Management Suite Plus
- Oracle Directory Services Plus
- Oracle Identity Governance Suite
- Oracle Identity Manager Connectors Pack
- Oracle Universal Authenticator

The following restricted-use licenses are included when you separately license Oracle Enterprise Identity Services Suite Plus:

- Restricted Use: Oracle Internet Application Server Enterprise Edition or WebLogic Enterprise Edition as host for all components licensed under Identity Governance Suite, including run-time components to provide Java runtime environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.
- Restricted Use: WebLogic Suite restricted to use Oracle WebLogic Server GridLink data sources, known as Active GridLink for RAC.

Oracle Identity Governance Suite

Oracle Identity Governance Suite can be separately licensed, independent of any Oracle Application Server or WebLogic edition. It includes:

- Oracle Identity Analytics (includes Identity Auditor) (*)
- Oracle Identity Manager
  - Self Service
  - Manage
- Compliance (Identity Certification, Reports, and Identity Audit)
- Oracle Identity Role Intelligence
- Oracle Privileged Account Manager (*)
- Oracle Identity Manager Connector for Database User Management, Oracle Identity Manager Connectors for Microsoft Active Directory, Oracle Identity Manager Connector for Microsoft Windows, Oracle Identity Manager Connector for Microsoft Exchange, Oracle Identity Manager Connector for Novell eDirectory, Oracle Identity Manager Connector for Oracle Internet Directory, Oracle Identity Manager Connector for Sun Java System Directory, Oracle Identity Manager Connector for Oracle Directory Server Enterprise Edition, Oracle Identity Manager Connector for Oracle Unified Directory, Oracle Identity Manager Connector for Web Services, and Oracle Identity Manager Connector for UNIX

(*) These components are not available as 12c release. For further information regarding support timeline, please see: http://www.oracle.com/us/support/library/lifetime-support-middleware-069163.pdf"

The following restricted-use licenses are included when you separately license Oracle Identity Governance Suite:

- Restricted Use: Oracle Internet Application Server Enterprise Edition or WebLogic Enterprise Edition as host for only all components licensed under Identity Governance Suite, including run-time components to provide Java runtime environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.
- Restricted Use: Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) to publish and/or view:
  1. Shipped Oracle Analytics Publisher reports. Layout changes are allowed, AND
  2. Shipped or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Identity Management schema that has not been customized.
- Restricted Use: BPEL Process Manager for creating workflows where Identity Analytics is one of the endpoints. Note: Oracle BPEL Process Manager bundles UDDI client libraries from the HP SOA Systinet Registry. Such libraries and UDDI client functionality are licensed only to the end user for the purpose of connecting to and communicating with the Oracle Service Registry.
- A license to Oracle Identity Governance Suite (IGS) includes a restricted-use license to Oracle Advanced Security (OAS), with OAS restricted to its Transparent Data Encryption component used solely for encrypting passwords for the Oracle Privileged Account Manager component of IGS. OAS is separately installed as a component of Oracle Database Enterprise Edition (DB EE). You have no further rights to use OAS or DB EE unless you have separately licensed those products.
- The Oracle Identity Manager component in Oracle Identity Governance Suite includes unrestricted use of Oracle Identity Connector Server. Processors where this software is installed are covered under license for Connectors and are not counted towards Oracle Identity Governance processor counts.
- Third-Party Products and Details for Oracle Identity Role Intelligence
- Third-Party Products and Details for Oracle Privileged Account Manager

Third-Party Products and Details for Oracle Identity Role Intelligence

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Role Intelligence, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Role Intelligence are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Identity Role Intelligence:

- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in for Oracle Identity Role Intelligence.

Most of the Checker Framework is licensed under the GNU General Public License, version 2 (GPL2), with the classpath exception. The text of this license appears below. This is the same license used for OpenJDK.

Table 11-2 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Role Intelligence

Provider	Component(s)	Release Versions	Licensing Information
			A few parts of the Checker Framework have more permissive licenses, notably the parts that you might want to include with your own program. The annotations and utility files are licensed under the MIT License. (The text of this license also appears below.) This applies to checker-qual*.jar and checker-util.jar and all the files that appear in them, which is all files in checker-qual and checker-util directories. It also applies to the cleanroom implementations of third-party annotations (in checker/src/testannotations/, framework/src/main/java/org/jmlspecs/, and framework/src/main/java/com/google/). The Checker Framework includes annotations for some libraries. Those in .astub files use the MIT License. Those in https://github.com/typetools/jdk (which appears in the annotated-jdk directory of file checker.jar) use the GPL2 license. Some external libraries that are included with the Checker Framework distribution have different licenses. Here are some examples. javaparser is dual licensed under the LGPL or the Apache license -- you may use it under whichever one you want. (The javaparser source code contains a file with the text of the GPL, but it is not clear why, since javaparser does not use the GPL.) See https://github.com/typetools/stubparser . Annotation Tools (https://github.com/typetools/annotation-tools) uses the MIT license. Libraries in plume-lib (https://github.com/plume-lib/) are licensed under the MIT License. For a copy of the license, see GNU GENERAL PUBLIC LICENSE (Version 2). CLASSPATH" EXCEPTION TO THE GPL Certain source files distributed by Oracle America and/or its affiliates are subject to the following clarification and special exception to the GPL, but only where Oracle has expressly included in the particular source file's header the words "Oracle designates this particular file as subject to the "Classpath" exception as provided by Oracle in the LICENSE file that accompanied this code." Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that

Table 11-2 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Role Intelligence

Provider	Component(s)	Release Versions	Licensing Information
			you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version. ========== MIT License: Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the "Software"), to deal in the Software without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the Software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions: The above copyright notice and this permission notice shall be included in all copies or substantial portions of the Software. NOTICE for Jackson Jackson JSON processor Jackson is a high-performance, Free/Open Source JSON processing library. It was originally written by Tatu Saloranta (tatu.saloranta@iki.fi), and has been in development since 2007. It is currently developed by a community of developers, as well as supported commercially by FasterXML.com. Licensing Jackson core and extension components may licensed under different licenses. To find the details that apply to this artifact see the accompanying LICENSE file. For more information, including possible other licensing options, contact FasterXML.com (http://fasterxml.com). Credits A list of contributors may be found from CREDITS file, which is included in some artifacts (usually source distributions); but is always available from the source code management (SCM) system project uses. --- Fourth Party Dependencies --- "jersey-core-common" (org.glassfish.jersey.core:jersey-common) Copyright (c) 2007,2020 Oracle and/or its affiliates. This software consists of voluntary contributions made by many individuals on behalf of the Hypersonic SQL Group." **checker-framework** Most of the Checker Framework is licensed under the GNU General Public License, version 2 (GPL2), with the classpath exception. The text of this license appears below. This is the same license used for OpenJDK. A few parts of the Checker Framework have more permissive licenses. The annotations are licensed under the MIT License. (The text of this license appears below.) More specifically, all the parts of the Checker Framework that you might want to include with your own program use the MIT License. This is the checker-qual.jar file and all the files that appear in it: every file in a qual/ directory, plus utility files such as NullnessUtil.java, RegexUtil.java, SignednessUtil.java, etc. In addition, the cleanroom implementations of third-party annotations, which the Checker Framework recognizes as aliases for its own annotations, are licensed under the MIT License. Some external libraries that are included with the Checker Framework have different licenses. javaparser is dual licensed under the LGPL or the Apache license -- you may use it under whichever one you want. (The javaparser source code contains a file with the text of the GPL, but it is not clear why, since javaparser does not use the GPL.) See file stubparser/LICENSE and the source code of all its files. plume-lib is licensed under

Table 11-2 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Role Intelligence

Provider	Component(s)	Release Versions	Licensing Information
			the MIT License. The Checker Framework includes annotations for the JDK in directory checker/jdk/, and for some other libraries. Each annotated library uses the same license as the unannotated version of the library. For a copy of the license, see GNU GENERAL PUBLIC LICENSE (Version 2). "CLASSPATH" EXCEPTION TO THE GPL Certain source files distributed by Oracle America and/or its affiliates are subject to the following clarification and special exception to the GPL, but only where Oracle has expressly included in the particular source file's header the words "Oracle designates this particular file as subject to the "Classpath" exception as provided by Oracle in the LICENSE file that accompanied this code." Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version. Third-Party Products and Details for Oracle Privileged Account Manager

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Privileged Account Manager, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Privileged Account Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Privileged Account Manager:

- 11.1.2.3.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Privileged Account Manager.

Table 11-3 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Privileged Account Manager

Provider	Component(s)	Release Versions	Licensing Information
Apache	Commons Lang 3.3.2	11.1.2.3.0	For a copy of the license, see Apache License Version 2.

Oracle Entitlements Server

Note:

Oracle Entitlements Server is not available in 12*c* release.

Oracle Entitlements Server can be separately licensed, independent of any Oracle Application Server or WebLogic edition. For using Oracle Entitlements Server, a license of Oracle Entitlements Server Security Module is required.

For further information regarding support timeline, see, http://www.oracle.com/us/support/library/lifetime-support-middleware-069163.pdf

- Restricted-Use Licenses

Restricted-Use Licenses

The following restricted-use licenses are included when you separately license Oracle Entitlements Server:

- Restricted Use: Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) to publish and/or view:
  - Shipped Oracle Analytics Publisher reports. Layout changes are allowed, AND
  - Shipped or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Identity Management schema that has not been customized.
- Oracle Internet Application Server Enterprise Edition or WebLogic Enterprise Edition as host for only Oracle Entitlements Server, including run-time components to provide Java run-time environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.

Oracle Entitlements Server Security Module

> **Note:**
>
> Oracle Entitlements Server Security Module is not available in 12*c* release.

Oracle Entitlements Server Security Module can be separately licensed, independent of any Oracle Application Server or WebLogic edition.

Note that to use the Oracle Entitlements Server Security Module, you need to license Oracle Entitlements Server or Oracle Access Management Suite Plus (which includes Oracle Entitlements Server).

For further information regarding support timeline, see, http://www.oracle.com/us/support/library/lifetime-support-middleware-069163.pdf

Oracle Directory Services Plus

Oracle Directory Services Plus includes the following Oracle products:

- Oracle Directory Server Enterprise Edition (**)
- Oracle Internet Directory (including Delegated Administration Services and Directory Integration Platform). These components are described in Oracle Identity Management*
- Oracle RADIUS Agent (limited to LDAP/Active Directory)
- Oracle Unified Directory*
- Oracle Unified Directory Virtualization*
- Oracle Virtual Directory (**)
- Oracle Authentication Services for Operating Systems (OAS4OS). OAS4OS is certified to work with Oracle Internet Directory (OID) only.

* A license to Oracle Internet Directory, Oracle Unified Directory, Oracle Unified Directory Virtualization and Oracle Virtual Directory includes a license to Oracle Directory Services Manager.

(**) These components are not available as 12c release. For further information regarding support timeline, see: http://www.oracle.com/us/support/library/lifetime-support-middleware-069163.pdf

- Restricted-Use Licenses
- Third-Party Products and Details for Oracle RADIUS Agent
- Third-Party Products and Details for Oracle Unified Directory
- Third-Party Products and Details for Oracle Internet Directory
- Third-Party Products and Details for Oracle Virtual Directory

Restricted-Use Licenses

A license to Oracle Directory Services Plus includes restricted-use licenses for the following products or components:

- Use of Oracle Single Sign-On is restricted to providing authentication services to users accessing Oracle Delegated Administration Services only.
- Use of Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) is restricted to publishing and/or viewing:
  - Included Oracle Analytics Publisher reports. Layout changes are allowed; and
  - Included or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Identity Management schema that has not been customized.
- Oracle Internet Application Server Enterprise Edition or Oracle WebLogic Server Enterprise Edition may be used solely as host for Oracle Directory Services Plus, including run-time components to provide Java run-time environment and HTTP support, as well as configuration and administration components used for the setup and management of those run-time components.
- Oracle Database (Standard Edition or Standard Edition 2) may be used solely for storing LDAP data related to the use of Oracle Internet Directory as a general purpose LDAP directory. Storing any other data in the infrastructure database requires a full use license of Oracle Database (Standard Edition or Standard Edition 2).

Third-Party Products and Details for Oracle RADIUS Agent

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle RADIUS Agent, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle RADIUS Agent are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle RADIUS Agent:

- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in for Oracle RADIUS Agent.

Oracle Access Manager

Oracle Access Manager can be separately licensed, independent of any Oracle Application Server or WebLogic edition.

- Restricted-Use Licenses
- Third-Party Products and Details for Oracle Access Manager
- Oracle Access Manager Clients

Restricted-Use Licenses

The following restricted-use licenses are included when you separately license Oracle Access Manager:

- Restricted Use: Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) to publish and/or view:
  - Shipped Oracle Analytics Publisher reports. Layout changes are allowed, AND
  - Shipped or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Identity Management schema that has not been customized.
- Oracle Internet Application Server Enterprise Edition or WebLogic Enterprise Edition as host for only Oracle Access Manager, including run-time components to provide Java run-time environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.
- Oracle Identity Manager and associated Identity Manager LDAP Connectors (Microsoft AD, Novell eDirectory, Oracle Internet Directory, and Sun Java System Directory) are restricted to managing users in a directory specific to the following:
  - Self-service registration
  - Self-service user profile view and/or modify
  - Self-service password reset
  - Lost password management (setting up challenge questions)
  - Password reset on first login
  - Password policy enforcement (password strength, expiration period, and so on)
  - Password expiration notification

  - Delegated administration of administrative capabilities (down to the attribute level) to lower level administrators to manage users in the system

- Oracle Coherence Enterprise Edition (restricted to run in the same JVM as Oracle Access Manager) for user session, configuration, and policy synchronization within Oracle Access Manager. Any other use, including running Oracle Coherence Enterprise Edition on a separate processor, triggers a full use license.

Third-Party Products and Details for Oracle Access Manager

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Access Manager, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Access Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Access Manager:

- 11.1.2.3.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in for Oracle Access Manager.

Provider	Component(s)	Release Versions	Licensing Information
Jython	Jython 2.5.3	12.2.1.3.0	For a copy of the license, see Jython License. ACKNOWLEDGMENTS Copyright © Corporation for National Research Initiatives Jim Hugunin invented JPython and was the primary developer while he was at CNRI. In February 1999, Jim left CNRI for sunny California and Barry Warsaw became the primary maintainer. When Barry and the rest of PythonLabs left CNRI, Barry renamed JPython to Jython, put the sources on SourceForge and made Finn Bock the primary maintainer. Python's inventor Guido van Rossum and the rest of PythonLabs continues to help and support Jython by their understanding of how Jython must live with the limits of Java. You can contact the Jython maintainers directly via `jython-dev@lists.sourceforge.net`, or the Jython community at `jython-users@lists.sourceforge.net`. Harry Mantakos contributed the underlying md5 implementation. The SHA1 implementation is taken from cryptix. Samuele Pedroni has designed and implemented the improved PackageManagers and java reload support and also fixed a lot of bugs. Kevin Butler has written and contributed the code for os.environ and os.system(). Brian Zimmer contributed zxJDBC which is a Python DB API subsystem. Cyrille Morvan has written the code for the Jythonc ant task. Alan Kennedy contributed modjy, which bridges WSGI to the Servlet API Chris Gokey, David Syer and Finn Bock added PyServlet. Yin Wang and Steve Yegge contributed the static analyzer from Google (also called indexer). A huge thanks goes to all the members of the jpython/jython mailing lists. Other folks who have contributed to JPython and Jython in ways large and small, in no particular order: • Greg Ward • Tony Plate • Jim Althoff • Drew Morrissey • John Mudd • Bryn Keller • dsyer • Tim Hochberg

Third-Party Products and Details for Oracle Access Manager Web Gates

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Access Manager Web Gates, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Access Manager Web Gates are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Access Manager Web Gates:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Access Manager Web Gates.

Table 11-9 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Access Manager Web Gates

Provider	Component(s)	Release Versions	Licensing Information
Apache	xerces-C++ 3.1.4	12.2.1.3.0	This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`). Portions of this software were originally based on the following: - software copyright (c) 1999, IBM Corporation., `http://www.ibm.com`. For a copy of the license, see Apache License Version 2.

Provider	Component(s)	Release Versions	Licensing Information
openssl.org Yip	OpenSSL 1.1.0a	12.2.1.4.0	For a copy of the license, see OpenSSL.
RSA	Bsafe (Bsafe Crypto-C.) 6.3.2.2	12.2.1.2.0	Commercial, license text not available. For a copy of the license, see Apache License Version 2.
RSA	BSAFE SSL-C 2.5	12.2.1.3.0	May visually display the RSA name and RSA product names and in the hardcopy documentation for the Siebel programs incorporating the RSA software and in advertising and promotional materials; Siebel agrees not to remove, alter or destroy any proprietary, trademark or copyright markings or notices placed upon or contained within the RSA software or documentation. This shall not be construed as to obligate Siebel to incorporate any proprietary, trademark or copyright markings or notices of RSA in the Siebel programs or related documentation, marketing materials or screens.

Oracle Identity Federation

A license to Oracle Identity Federation includes licenses to Oracle OpenSSO Fedlet and Social Identity.

- Restricted-Use Licenses
- Third-Party Products and Details for Oracle Identity Federation

Restricted-Use Licenses

A license to Oracle Identity Federation includes restricted-use licenses for the following products:

- Use of Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) is restricted to publishing and/or viewing:
  - Included Oracle Analytics Publisher reports. Layout changes are allowed; and
  - Included or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Identity Management schema that has not been customized.
- Oracle Internet Application Server Enterprise Edition or Oracle WebLogic Server Enterprise Edition may be used solely as host for Oracle Identity Federation, including run-time components to provide Java run-time environment and HTTP support, as well as configuration and administration components used for the setup and management of those run-time components.

Third-Party Products and Details for Oracle Identity Federation

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Federation, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Federation are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Identity Federation:

- 11.1.2.3.0
- 11.1.1.9.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Identity Federation.

Table 11-10 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Federation

Provider	Component(s)	Release Versions	Licensing Information
Apache	Apache Jakarta Commons HttpClient 3.1	11.1.2.3.0 11.1.1.9.0	For a copy of the license, see Apache License Version 2.
Apache	Commons Codec 1.2, 1.3	11.1.2.3.0	For a copy of the license, see Apache License Version 2.
Apache	Commons-Collections 3.1	11.1.2.3.0	For a copy of the license, see Apache License Version 2.
Apache	commons-logging.jar 1.0.3, 1.0.4	11.1.2.3.0 11.1.1.9.0	For a copy of the license, see Apache License Version 2.

Oracle Identity Manager

A license to Oracle Identity Manager includes a license to Oracle Identity Manager Connector for Flat File, Oracle Identity Manager Connector for Generic Scripting, and Oracle Identity Manager Connector for Identity Cloud Service.

Oracle Identity Manager can be separately licensed, independent of any Oracle Application Server or WebLogic edition, and it includes Identity Connector Server.

- Restricted-Use Licenses
- Third-Party Products and Details for Oracle Identity Manager

Restricted-Use Licenses

The following restricted-use licenses are included when you separately license Oracle Identity Manager:

- Restricted Use: Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) to publish and/or view:
  - Shipped Oracle Analytics Publisher reports. Layout changes are allowed, AND
  - Shipped or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Identity Management schema that has not been customized.
- Oracle Internet Application Server Enterprise Edition or WebLogic Enterprise Edition as host for only Oracle Identity Manager, including run-time components to provide Java run-time environment and HTTP support, as well as configuration and administration components used for the setup and management of these run-time components.
- Restricted use license of BPEL Process Manager for creating approval workflows, reviewing and approving approval tasks, invoking and consuming external web services and Java code, and performing endpoint routing and selection only for Oracle Identity Manager.
- Restricted Use: Oracle Identity Manager product includes use of Oracle Entitlements Server product solely for defining and managing authorization policies for Oracle Identity Manager

Third-Party Products and Details for Oracle Identity Manager

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Manager, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Identity Manager:

- 11.1.2.3.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Identity Manager.

Provider	Component(s)	Release Versions	Licensing Information
FasterXML, LLC	jackson-jaxrs-xml-provider 2.9.9	12.2.1.4.0	jackson-jaxrs-xml-provider is licensed under the Apache 2.0 license. There is no copyright statement included in Jackson project code, per this explanation on the Jackson Project FAQ (https://github.com/FasterXML/jackson/wiki/FAQ), under the heading "Why do source files NOT contain license and/or copyright information": Some projects use (and require use of) per-file comment header which indicates license details and copyright assignments. Jackson project does not do this: we believe this is redundant and serves no useful purpose. Instead, the license information is contained in multiple places: • In src/main/resources/META-INF/LICENSE, so that it gets included in – Binary (jar) – Source archives (jar / zip) • pom.xml of the project (in some case parent pom) • Included in project Wiki pages For a copy of the license, see Apache License Version 2.

Table 11-11 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Manager

Provider	Component(s)	Release Versions	Licensing Information
Nexaweb Technologies, Inc.	Nexaweb 3.3	11.1.2.3.0	Nexaweb Technologies, Inc. Nexaweb Production Server © 2004 Nexaweb Technologies, Inc. All rights reserved. NEXAWEB END USER LICENSE TERMS 1. The End User is granted a non-exclusive, non-transferable (except as expressly permitted by the Xellerate Software License) right and license to use the Nexaweb Product ("Licensed Software Copy"), solely as incorporated within Thor Technologies, Inc.'s Xellerate Software, for its own use. The End User is prohibited from using such Licensed Software Copy for any other purpose. 2. Nexaweb retains title to the Licensed Software Copy, and all copies thereof made by End User, and associated intellectual property rights therein. The End User may not copy the Licensed Software Copy, except for inactive backup and archival purposes only, and must not alter, remove, or disable any copyright, government restricted rights and other proprietary notices or legends included on the Licensed Software Copy when it was shipped to such End User. 3. Nexaweb and its suppliers shall not be responsible for any indirect, incidental, special and consequential damage 4. End User shall • (i) not disclose or provide any copy of the Licensed Software Copy to any other party (except as expressly permitted by the Xellerate Software License), • (ii) not alter, reverse engineer, disassemble, decompile, supplement, create derivative works from, adapt, translate or otherwise reduce the Licensed Software Copy to human readable form, except to the extent that such activity is expressly permitted by applicable law in order to achieve interoperability of the Licensed Software Copy with other software; • (iii) not copy any Licensed Software Copy, except that End User may make one machine readable copy of the Licensed Software Copy for security backup purposes only and may also copy the Licensed Software Copy as permitted by the Xellerate Software license, • (iv) to the extent that any of its employees and consultants require access to the Licensed Software Copy in connection with its use of the Xellerate Software, limit such access to the Licensed Software Copy in connection with its use of the Xellerate Software, limit

Table 11-11 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Manager

Provider	Component(s)	Release Versions	Licensing Information

such access to the Licensed Software Copy to only those employees and consultants who have agreed in writing or are otherwise legally bound to observe End User's obligations under these Nexaweb End User License Terms,

- (v) take all reasonable precautions to prevent unauthorized or improper use or disclosure of the Licensed Software Copy,
- (vi) reproduce on any copies of the Licensed Software Copy, and not remove, all titles, trademarks, and copyright and other proprietary or restrictive legends or notices,
- (vii) not host, rent, lease or lend the Licensed Software Copy nor allow use of the Licensed Software Copy for service bureau, timesharing or any other form of shared use except as otherwise expressly permitted in the Xellerate Software license,
- (viii) except as otherwise expressly permitted in the Xellerate Software license, not cause or permit the disclosure, copying, renting, licensing, sublicensing, leasing, dissemination or other distribution of the Licensed Software Copy by any means or in any form to any third party (including, without limitation, any form of distributor or reseller) and
- (ix) maintain all copies of the Licensed Software Copy in a manner so as to reasonably preclude unauthorized use thereof or access thereto.

5. End User shall agree to comply with all applicable laws, rules, or regulations of the United States or any other country governing End User's export of the Licensed Software Copy ("Export Restrictions"). If any Licensed Software Copy is acquired by or on behalf of the U.S. Government, the U.S. Government agrees that such Licensed Software Copy is "commercial computer software" and, absent a written agreement to the contrary, the U. S. Government's rights with respect to such Licensed Software Copy are limited by the terms of these Nexaweb End User License Terms pursuant to FAR §2.212(a) and/or DFARS §227.7202-1(a), as applicable. If any Licensed Software Copy is acquired by or on behalf of the U.S. Government, the U.S. Government agrees that under no circumstances shall Nexaweb be obligated to comply with any governmental requirements regarding the submission of, or the request for exemption from submission of, cost or pricing data or cost accounting requirements.

			6. Although copyrighted, the Licensed Software Copy is unpublished and contains proprietary and confidential information of Nexaweb or its suppliers. End User will agree to maintain the Licensed Software Copy in confidence and shall use a reasonable degree of care to protect the confidentiality of the Licensed Software Copy. 7. Upon termination of the license for the Xellerate Software, the End User shall be required to destroy or return all copies of the Licensed Software Copy.

Shigeru Chiba	Javassist 3.24.1-GA	12.2.1.4.0	Copyright (C) 1999-2018 by Shigeru Chiba, All rights reserved. Contributor(s): __Bill Burke, Jason T. Greene_____. Javassist (JAVA programming ASSISTant) makes Java bytecode manipulation simple. It is a class library for editing bytecodes in Java; it enables Java programs to define a new class at runtime and to modify a class file when the JVM loads it. Unlike other similar bytecode editors, Javassist provides two levels of API: source level and bytecode level. If the users use the source-level API, they can edit a class file without knowledge of the specifications of the Java bytecode. The whole API is designed with only the vocabulary of the Java language. You can even specify inserted bytecode in the form of source text; Javassist compiles it on the fly. On the other hand, the bytecode-level API allows the users to directly edit a class file as other editors. This software is originally distributed under the Mozilla Public License Version 1.1, the GNU Lesser General Public License Version 2.1 or later, or the Apache License Version 2.0. This specific distribution has elected to distribute under the Apache 2.0 license. For a copy of the license, see Apache License Version 2.

Oracle Identity Manager Connectors

Oracle Identity Manager Connectors can be separately licensed, independent of any Oracle Application Server or WebLogic edition. Oracle Identity Manager Connectors require Oracle Identity Manager.

Prerequisite: A license to Oracle Identity Manager, Oracle Identity Governance Suite, Oracle Enterprise Identity Services Suite, or Oracle Identity and Access Management Suite Plus is a prerequisite to license and use an Oracle Identity Manager Connector.

Available Identity Manager Connectors are:

- Amazon Web Services
- Atlassian Jira
- BMC Remedy Ticket Management(*)
- BMC Remedy User Management
- Box
- CA ACF2
- CA Top Secret
- Cisco WebEx
- Citrix GoToMeeting
- Database Applications Table
- Database User Management
- DocuSign
- Generic REST
- Generic SCIM
- Google Apps
- Google Cloud Platform
- IBM Lotus Notes/Domino
- IBM OS/400
- IBM RACF
- JDEdwards EnterpriseOne
- Microsoft Active Directory
- Microsoft Exchange
- Microsoft Office 365 (includes Microsoft Azure Active Directory, Microsoft Teams, Microsoft SharePoint)
- Microsoft Windows(*)
- Novell eDirectory
- Novell Groupwise(*)
- Oracle Cerner Millennium
- Oracle CRM On Demand
- Oracle Directory Server Enterprise Edition
- Oracle e-Business (includes Oracle e-Business Employee Reconciliation, Oracle e-Business User Management)
- Oracle Eloqua
- Oracle Fusion Applications
- Oracle Internet Directory

- Oracle NetSuite
- Oracle Primavera
- Oracle Retail
- Oracle Unified Directory
- PeopleSoft Enterprise Applications (includes PeopleSoft Employee Reconciliation, PeopleSoft User Management, PeopleSoft Campus Solutions(*))
- RSA Authentication Manager
- RSA ClearTrust(*)
- Salesforce
- SAP Concur
- SAP Enterprise Applications (includes SAP Employee Reconciliation, SAP User Management, SAP User Management Engine, SAP Ariba, SAP Fieldglass, SAP S/4HANA Cloud)
- SAP Enterprise Portal (includes SAP User Management Engine)
- SAP Success Factor
- ServiceNow
- Siebel Enterprise Applications (includes Siebel User Management)
- Sun Java System Directory
- UNIX
- Web Services
- Workday
- Zoom

(*) These components are not available in 12*c* release.

Third-Party Products and Details for Oracle Identity Manager Connectors

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Manager Connectors, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Manager Connectors are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Identity Manager Connectors:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Identity Manager Connectors.

Table 11-12 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Manager Connectors

Provider	Component(s)	Release Versions	Licensing Information
Apache	Groovy 2.4.11	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	HttpComponents HttpClient 4.5.2	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	cglib 2.1.3	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	commons-logging 1.2	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	jakarta-oro 2.0.8	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	Apache Commons Codec 1.10	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	expect4j 1.6	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	HttpComponents Core 4.4.6	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
FasterXML, LLC	jackson-core 2.9.4	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
FasterXML, LLC	jackson-databind 2.9.4	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
FasterXML, LLC	jackson-annotations 2.9.4	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Google	Google Croscore fonts 1.23.0	12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Google	google-api-services-admin-directory_v1-rev91-1.23.0	12.2.1.3.0	For a copy of the license, see Apache License Version 2.

Third-Party Products and Details for Oracle Identity Manager Connectors - Microsoft Teams and Microsoft SharePoint

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Manager Connectors - Microsoft Teams and Microsoft SharePoint, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Manager Connectors - Microsoft Teams and Microsoft SharePoint are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Identity Manager Connectors - Microsoft Teams and Microsoft SharePoint:

- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Identity Manager Connectors - Microsoft Teams and Microsoft SharePoint.

Third-Party Products and Details for Oracle Identity Manager Connectors - SAP Ariba

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Manager Connectors - SAP Ariba, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Manager Connectors - SAP Ariba are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Identity Manager Connectors - SAP Ariba:

- 12.2.1.3.0

Oracle Identity Manager Connectors Pack

Oracle Identity Manager Connectors Pack includes the following connectors:

- Amazon Web Services

- BMC Remedy Ticket Management(*)
- BMC Remedy User Management
- Box
- Cisco WebEx
- Citrix GoToMeeting
- Database Applications Table
- DocuSign
- Dropbox
- DocuSign
- Generic REST
- Generic SCIM
- Google Apps
- Google Cloud Platform
- IBM Lotus Notes/Domino
- IBM OS/400
- JDEdwards EnterpriseOne
- Microsoft Office 365 (includes Microsoft Azure Active Directory, Microsoft Teams, Microsoft SharePoint)
- Novell Groupwise(*)
- Oracle Cerner Millennium
- Oracle CRM On Demand
- Oracle e-Business (includes Oracle e-Business Employee Reconciliation, Oracle e-Business User Management)
- Oracle Eloqua
- Oracle Fusion Applications
- Oracle NetSuite
- Oracle Primavera
- Oracle Retail
- PeopleSoft Enterprise Applications (includes PeopleSoft Employee Reconciliation, PeopleSoft User Management, PeopleSoft Campus Solutions(*))
- RSA Authentication Manager
- RSA ClearTrust(*)
- Salesforce
- SAP Concur
- SAP Enterprise Applications (includes SAP Employee Reconciliation, SAP User Management, SAP User Management Engine, SAP S/4HANA Cloud)
- SAP Enterprise Portal (includes SAP User Management Engine)
- SAP Success Factor
- ServiceNow

- Siebel Enterprise Applications (includes Siebel User Management)
- Workday
- Zoom

(*) These components are not available in 12*c* release.

Prerequisite: A license to Oracle Enterprise Identity Services Suite or Oracle Identity Governance Suite is a prerequisite to license and use Oracle Identity Manager Connectors Pack.

Third-Party Products and Details for Oracle Identity Manager Connector for DocuSign

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Manager Connector for DocuSign, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Manager Connector for DocuSign are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Identity Manager Connector for DocuSign:

- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Identity Manager Connector for DocuSign.

Table 11-23 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Identity Manager Connector for DocuSign

Provider	Component(s)	Release Versions	Licensing Information
FasterXML, LLC	jackson-core 2.14.0	12.2.1.3.0	Copyright © 2008–2022 FasterXML. All rights reserved. Jackson JSON processor Jackson is a high-performance, Free/Open Source JSON processing library. It was originally written by Tatu Saloranta (`tatu.saloranta@iki.fi`), and has been in development since 2007. It is currently developed by a community of developers. Licensing Jackson 2.x core and extension components are licensed under Apache License 2.0. To find the details that apply to this artifact see the accompanying LICENSE file. Credits A list of contributors may be found from CREDITS(-2.x) file, which is included in some artifacts (usually source distributions); but is always available from the source code management (SCM) system project uses. Apache License Version 2.0, January 2004 `http://www.apache.org/licenses/` For a copy of the license, see Apache License Version 2.

Third-Party Products and Details for Oracle Identity Manager Connectors - NetSuite

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Manager Connectors - NetSuite, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Manager Connectors - NetSuite are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Identity Manager Connectors - NetSuite:

- 12.2.1.3.0

Third-Party Products and Details for Oracle Identity Manager Connector for Zoom

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Identity Manager Connector for Zoom, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Identity Manager Connector for Zoom are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Identity Manager Connector for Zoom:

- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Identity Manager Connector for Zoom.

Oracle Enterprise Single Sign-On Suite Plus

> **Note:**
>
> Oracle Enterprise Single Sign-On Suite Plus (ESSO Suite Plus) is not available in 12*c* release.

Oracle Enterprise Single Sign-On Suite Plus (ESSO Suite Plus) includes the following integrated components:

- Oracle Access Portal
- Oracle Enterprise Single Sign-On Anywhere
- Oracle Enterprise Single Sign-On Authentication Manager
- Oracle Enterprise Single Sign-On Kiosk Manager
- Oracle Enterprise Single Sign-On Logon Manager
- Oracle Enterprise Single Sign-On Password Reset
- Oracle Enterprise Single Sign-On Provisioning Gateway
- Oracle Enterprise Single Sign-On Universal Authentication Manager
- Restricted-Use Licenses
- Third-Party Products and Details for Oracle Enterprise Single Sign-On Suite Plus

Restricted-Use Licenses

- Use of the Oracle Traffic Director portion of the Oracle Access Portal is restricted to the following features: Access Manager WebGate, and Origin Server HTTP/TCP Load Balancing to ESSO Suite Plus components.
- Use of Oracle Access Manager is restricted to use with Oracle Access Portal.

- Use of Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) is restricted to publishing and/or viewing:
  - Included Oracle Analytics Publisher reports. Layout changes are allowed; and
  - Included or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Oracle Identity Management schema that has not been customized.
- Internet Application Server Enterprise Edition(IAS EE) or WebLogic Server Enterprise Edition (WLSEE) may be used solely as host for Oracle Access Manager, including run-time components to provide Java run-time environment and HTTP support, as well as configuration and administration components used for the setup and management of those run-time components.

Third-Party Products and Details for Oracle Enterprise Single Sign-On Suite Plus

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Enterprise Single Sign-On Suite Plus, in the following sub-sections.

Commercial Software

Commercial software products or components distributed in Oracle Enterprise Single Sign-On Suite Plus are identified in the following table along with the applicable licensing information.

The following release version is associated with the third-party products in Oracle Enterprise Single Sign-On Suite Plus:

- 11.1.2.4.0

Table 11-27 Commercial Software in Oracle Enterprise Single Sign-On Suite Plus

Provider	Component(s)	Release Version	Licensing Information
Kiwi	Kiwi Logger ("KLOG or Software") (Refer to Other Info Field below) 2.3.0.0	11.1.2.4.0	

Table 11-27 (Cont.) Commercial Software in Oracle Enterprise Single Sign-On Suite Plus

Provider	Component(s)	Release Version	Licensing Information
Madcap Software	Flare	11.1.2.4.0	The Software may contain third party software which requires notices and/or additional terms and conditions. They are located at `http://www.madcapsoftware.com` and are made a part of and incorporated by reference into the Agreement. (Agreement, Sec. 13) Note: Triage, summary 53 confirms that Passlogix has not received any third party software. Passlogix may not remove or alter any trademark, trade names, product names, logo, copyright or other proprietary notices, legends, symbols or labels in the Software. Except for the rights granted in Section 2 (“License Grants”) relating to Sample Application code, MadCap Redistributables, and MS Redistributables, the Agreement does not authorize Passlogix to use MadCap’s or its licensors’ names or any of their respective trademarks. (Agreement, Sec. 14(f)) Note: Software includes corresponding documentation and printed materials. (Agreement, Sec. 1(d)) Passlogix is permitted to copy and distribute the Sample Application Code (modified or unmodified) only if it does not use MadCap’s name, logos or other MadCap trademarks to market its application. (Agreement, Sec. 2(f)) Passlogix has right to reproduce and distribute in object code form only, any MadCap Redistributables and MS Redistributables identified in the REDISTRB.TXT file, provided that: 1) it includes MadCap’s copyright notice for the Redistributables on the title page of any documentation for any software product that incorporates the Redistributables. 2) it includes the following copyright notice for the MS-Redistributables “Portions copyright (c) Microsoft Corporation. All rights reserved.” on the title page of the documentation for any software application product that incorporates the MS-Redistributables, 3) except as required above, it does not use MadCap’s name, logo or tradenames in connection with any product that incorporates the Redistributables and does not use Microsoft"s name, logo, or trademarks to market any Help system that incorporates the MS-Redistributables. (Agreement, Secs.2(g)(h))

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Enterprise Single Sign-On Suite Plus are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Enterprise Single Sign-On Suite Plus:

- 11.1.2.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in for Oracle Enterprise Single Sign-On Suite Plus.

			SOFTWARE RIGHTS ANTLR 1989-2006 Developed by Terence Parr Partially supported by University of San Francisco & jGuru.com We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software. We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc... If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed. The primary ANTLR guy: Terence Parr parrt@cs.usfca.edu parrt@antlr.org FOURTH-PARTY DEPENDENCY: jalopy Copyright (c) 2001-2004, Marco Hunsicker. All rights reserved. Oracle Access Management Suite Plus

Oracle Access Management Suite Plus (AMSP) includes the following integrated components:

- Oracle Access Manager
- Oracle Access Portal(*)
- Oracle Adaptive Access Manager(*) replaced with Oracle Advanced Authentication and Oracle Adaptive Risk Management
- Oracle Adaptive Authentication Service
- Oracle Entitlements Server(*)
- Oracle Identity Federation
- Oracle Mobile and Social(*)

- Oracle OpenSSO Fedlet (*)
- Oracle RADIUS Agent
- Oracle Security Token Service (*)
- OAuth Service (includes social login)

(*) These components are not available as 12c release. For further information regarding support timeline see, http://www.oracle.com/us/support/library/lifetime-support-middleware-069163.pdf.

- Restricted-Use Licenses
- Third-Party Products and Details for Oracle Access Management Mobile and Social
- Third-Party Products and Details for Oracle Adaptive Access Manager
- Third-Party Products and Details for Oracle Advanced Authentication and Oracle Adaptive Risk Management
- Third-Party Products and Details for Oracle RADIUS Agent
- Third-Party Products and Details for Oracle Webservices Manager
- Third-Party Products and Details for User Messaging Service

Restricted-Use Licenses

A license to Oracle Access Management Suite Plus (AMSP) includes restricted-use licenses for the following products or components:

- Use of the Oracle Traffic Director portion of AMSP is restricted to the following features: Access Manager WebGate, and Origin Server HTTP/TCP Load Balancing to Access Management Suite Plus components.
- Use of Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher) is restricted to publishing and/or viewing:
  - Included Oracle Analytics Publisher reports. Layout changes are allowed; and
  - Included or newly created Oracle Analytics Publisher reports that are modified to access data from the existing Identity Management schema that has not been customized.
- Internet Application Server Enterprise Edition (IAS EE) or WebLogic Server Enterprise Edition (WLSEE) may be used solely as host for AMSP, including run-time components to provide Java run-time environment and HTTP support, as well as configuration and administration components used for the setup and management of those run-time components.
- Use of OWSM to protect web services must be performed in conjunction with at least one of the following components within AMSP:
  - Authentication — OWSM requires integration with Oracle Access Manager for authentication.
  - Authorization — OWSM requires integration with Oracle Entitlements Server for authorization.
  - Federation — OWSM requires integration with Oracle Identity Federation for federation.
  - OWSM agents acting as a WS-Trust client to the OpenSSO or Oracle STS server.

- Use of Oracle User Messaging Service (OUMS) is restricted to messaging needs related to Oracle Adaptive Access Manager security features. Message delivery is available in all formats including SMS, email, IM, and voice for the following:
  - Delivery of the Oracle Adaptive Access Manager one-time password authentication.
  - Delivery of transaction confirmation messages.
  - Security alerts to administrators/investigators.

Third-Party Products and Details for Oracle Access Management Mobile and Social

This section lists all the applicable open source or other separately licensed third party notices and/or licenses, for Oracle Access Management Mobile and Social, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Access Management Mobile and Social are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Access Management Mobile and Social:

- 11.1.2.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in for Oracle Access Management Mobile and Social.

Table 11-29 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Access Management Mobile and Social

For a copy of the license, see GNU LIBRARY GENERAL PUBLIC LICENSE (Version 2). This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the

Table 11-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Advanced Authentication and Oracle Adaptive Risk Management

Provider	Component(s)	Release Versions	Licensing Information
			GNU Library General Public License instead of this License. CLASSPATH EXCEPTION Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License version 2 cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version. 2-clause BSD license Note: This license has also been called the "Simplified BSD License" and the "FreeBSD License". To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.
