			by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
			4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.
			5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
			6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

			9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Provid er	Compo nent(s)	Versio n	Licensing Information
SQLite Inc.	SQLite	3.42.0	SQLite Is Public Domain SQLite is in the Public Domain All of the code and documentation in SQLite has been dedicated to the public domain by the authors. All code authors, and representatives of the companies they work for, have signed affidavits dedicating their contributions to the public domain and originals of those signed affidavits are stored in a firesafe at the main offices of Hwaci. All contibutors are citizens of countries that allow creative works to be dedicated into the public domain. Anyone is free to copy, modify, publish, use, compile, sell, or distribute the original SQLite code, either in source code form or as a compiled binary, for any purpose, commercial or non-commercial, and by any means. The previous paragraph applies to the deliverable code and documentation in SQLite - those parts of the SQLite library that you actually bundle and ship with a larger application. Some scripts used as part of the build process (for example the "configure" scripts generated by autoconf) might fall under other open-source licenses. Nothing from these build scripts ever reaches the final deliverable SQLite library, however, and so the licenses associated with those scripts should not be a factor in assessing your rights to copy and use the SQLite library. All of the deliverable code in SQLite has been written from scratch. No code has been taken from other projects or from the open internet. Every line of code can be traced back to its original author, and all of those authors have public domain dedications on file. So the SQLite code base is clean and is uncontaminated with licensed code from other projects. Open-Source, not Open-Contribution SQLite is open-source, meaning that you can make as many copies of it as you want and do whatever you want with those copies, without limitation. But SQLite is not open-contribution. In order to keep SQLite in the public domain and ensure that the code does not become contaminated with proprietary or licensed content, the project does not accept patches from people who have not submitted an affidavit dedicating their contribution into the public domain. All of the code in SQLite is original, having been written specifically for use by SQLite. No code has been copied from unknown sources on the internet. Warranty of Title SQLite is in the public domain and does not require a license. Even so, some organizations want legal proof of their right to use SQLite. Circumstances where this might occurs include the following: Your company desires indemnity against claims of copyright infringement. You are using SQLite in a jurisdiction that does not recognize the public domain.

Table (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information
			You are using SQLite in a jurisdiction that does not recognize the right of an author to dedicate their work to the public domain.
			You want to hold a tangible legal document as evidence that you have the legal right to use and distribute SQLite.
			Your legal department tells you that you must purchase a license.
			If any of the above circumstances apply to you, Hwaci, the company that employs all the developers of SQLite, will sell you a Warranty of Title for SQLite. A Warranty of Title is a legal document that asserts that the claimed authors of SQLite are the true authors, and that the authors have the legal right to dedicate the SQLite to the public domain, and that Hwaci will vigorously defend against challenges to those claims. All proceeds from the sale of SQLite Warranties of Title are used to fund continuing improvement and support of SQLite.
			Contributed Code
			In order to keep SQLite completely free and unencumbered by copyright, the project does not accept patches. If you would like to suggest a change and you include a patch as a proof-of-concept, that would be great. However, please do not be offended if we rewrite your patch from scratch.

Freetype.org	Freetype	2.13.0	The FreeType Project LICENSE

			2006-Jan-27
			Copyright 1996-2002, 2006 by
			David Turner, Robert Wilhelm, and Werner Lemberg
			Introduction
			============
			The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.
			This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.
			This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:
			o We don't promise that this software works. However, we will be interested in any kind of bug reports. (`as is' distribution)
			o You can use this software for whatever you want, in parts or full form, without having to pay us. (`royalty-free' usage)
			o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. (`credits')
			We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.
			Finally, many people asked us for a preferred form for a credit/ disclaimer to use in compliance with this license. We thus encourage you to use the following text:
			"""
			Portions of this software are copyright © <year> The FreeType Project (www.freetype.org). All rights reserved.
			"""
			Please replace <year> with the value from the FreeType version you actually use.
			Legal Terms
			===========
			0. Definitions

			Throughout this license, the terms `package', `FreeType Project', and `FreeType archive' refer to the set of files originally distributed

Provider	Component(s)	Version	Licensing Information
			by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the \`FreeType Project', be they named as alpha, beta or final release.
			\`You' refers to the licensee, or person using the project, where \`using' is a generic term including compiling the project's source code as well as linking it to form a \`program' or \`executable'. This program is referred to as \`a program using the FreeType engine'.
			This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.
			The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.
			1. No Warranty

			THE FREETYPE PROJECT IS PROVIDED \`AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.
			2. Redistribution

			This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:
			o Redistribution of source code must retain this license file (\`FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.
			o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.
			These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information
			work, you must acknowledge us. However, no fee need be paid to us.
			3. Advertising

			Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.
			We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: `FreeType Project', `FreeType Engine', `FreeType library', or `FreeType Distribution'.
			As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.
			4. Contacts

			There are two mailing lists related to FreeType:
			o freetype@nongnu.org
			Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution. If you are looking for support, start in this list if you haven't found anything to help you in the documentation.
			o freetype-devel@nongnu.org
			Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

			software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.
			When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.
			To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.
			For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.
			We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.
			Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.
			Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow.
			GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
			0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".
			Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information
			Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.
			1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.
			2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
			a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
			b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
			c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)
			These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.
			Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.
			In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program)

Table **(Cont.) Licensing Information for Release 8.5.7**

Provid er	Compo nent(s)	Versio n	Licensing Information
			on a volume of a storage or distribution medium does not bring the other work under the scope of this License.
			3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:
			a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
			b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
			c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)
			The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.
			If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.
			4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
			5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information
			so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
			6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.
			7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.
			If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.
			It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.
			This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.
			8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.
			9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.
			Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information
			to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.
			10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.
			NO WARRANTY
			11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
			12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
			END OF TERMS AND CONDITIONS
			How to Apply These Terms to Your New Programs
			If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.
			To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively

Table   (Cont.) Licensing Information for Release 8.5.7

			convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.
			<one line to give the program's name and a brief idea of what it does.> Copyright (C) <year> <name of author>
			This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.
			This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.
			You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin St, Fifth Floor, Boston, MA 02110-1301 USA
			Also add information on how to contact you by electronic and paper mail.
			If the program is interactive, make it output a short notice like this when it starts in an interactive mode:
			Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.
			The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.
			You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:
			Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.
			<signature of Ty Coon>, 1 April 1989 Ty Coon, President of Vice
			This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

			TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION
			1. Definitions.
			"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.
			"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.
			"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.
			"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.
			"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.
			"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.
			"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).
			"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.
			"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing

			lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."
			"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
			2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
			3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
			4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
			You must give any other recipients of the Work or Derivative Works a copy of this License; and
			You must cause any modified files to carry prominent notices stating that You changed the files; and
			You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
			If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if

			provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.
			You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.
			5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
			6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
			7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
			8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. 			whatever part of its purpose remains meaningful, or
			
			  b) under the GNU GPL, with none of the additional permissions of
			  this License applicable to that copy.
			
			  3. Object Code Incorporating Material from Library Header Files.
			
			  The object code form of an Application may incorporate material from
			a header file that is part of the Library. You may convey such object
			code under terms of your choice, provided that, if the incorporated
			material is not limited to numerical parameters, data structure
			layouts and accessors, or small macros, inline functions and templates
			(ten or fewer lines in length), you do both of the following:
			
			  a) Give prominent notice with each copy of the object code that the
			  Library is used in it and that the Library and its use are
			  covered by this License.
			
			  b) Accompany the object code with a copy of the GNU GPL and this license
			  document.
			
			  4. Combined Works.
			
			  You may convey a Combined Work under terms of your choice that,
			taken together, effectively do not restrict modification of the
			portions of the Library contained in the Combined Work and reverse
			engineering for debugging such modifications, if you also do each of
			the following:
			
			  a) Give prominent notice with each copy of the Combined Work that
			  the Library is used in it and that the Library and its use are
			  covered by this License.

Table   (Cont.) Licensing Information for Release 8.5.7

			b) Accompany the Combined Work with a copy of the GNU GPL and this license
			   document.
			
			   c) For a Combined Work that displays copyright notices during
			   execution, include the copyright notice for the Library among
			   these notices, as well as a reference directing the user to the
			   copies of the GNU GPL and this license document.
			
			   d) Do one of the following:
			
			       0) Convey the Minimal Corresponding Source under the terms of this
			       License, and the Corresponding Application Code in a form
			       suitable for, and under terms that permit, the user to
			       recombine or relink the Application with a modified version of
			       the Linked Version to produce a modified Combined Work, in the
			       manner specified by section 6 of the GNU GPL for conveying
			       Corresponding Source.
			
			       1) Use a suitable shared library mechanism for linking with the
			       Library. A suitable mechanism is one that (a) uses at run time
			       a copy of the Library already present on the user's computer
			       system, and (b) will operate properly with a modified version
			       of the Library that is interface-compatible with the Linked
			       Version.
			
			   e) Provide Installation Information, but only if you would otherwise
			   be required to provide such information under section 6 of the
			   GNU GPL, and only to the extent that such information is
			   necessary to install and execute a modified version of the
			   Combined Work produced by recombining or relinking the

Table   (Cont.) Licensing Information for Release 8.5.7

			Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)
			
			  5. Combined Libraries.
			
			  You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:
			
			    a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
			
			    b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.
			
			  6. Revised Versions of the GNU Lesser General Public License.
			
			  The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.
			
			  Each version is given a distinguishing version number. If the Library as you received it specifies that a certain

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			numbered version
			of the GNU Lesser General Public License "or any later version"
			applies to it, you have the option of following the terms and
			conditions either of that published version or of any later version
			published by the Free Software Foundation. If the Library as you
			received it does not specify a version number of the GNU Lesser
			General Public License, you may choose any version of the GNU Lesser
			General Public License ever published by the Free Software Foundation.
			
			  If the Library as you received it specifies that a proxy can decide
			whether future versions of the GNU Lesser General Public License shall
			apply, that proxy's public statement of acceptance of any version is
			permanent authorization for you to choose that version for the
			Library.

			                     GNU GENERAL PUBLIC LICENSE
			                        Version 3, 29 June 2007
			
			 Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
			 Everyone is permitted to copy and distribute verbatim copies
			 of this license document, but changing it is not allowed.
			
			                            Preamble
			
			  The GNU General Public License is a free, copyleft license for
			software and other kinds of works.
			
			  The licenses for most software and other practical works are designed
			to take away your freedom to share and change the works. By contrast,
			the GNU General Public License is intended to

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			guarantee your freedom to
			share and change all versions of a program--to make sure it remains free
			software for all its users. We, the Free Software Foundation, use the
			GNU General Public License for most of our software; it applies also to
			any other work released this way by its authors. You can apply it to
			your programs, too.
			
			  When we speak of free software, we are referring to freedom, not
			price. Our General Public Licenses are designed to make sure that you
			have the freedom to distribute copies of free software (and charge for
			them if you wish), that you receive source code or can get it if you
			want it, that you can change the software or use pieces of it in new
			free programs, and that you know you can do these things.
			
			  To protect your rights, we need to prevent others from denying you
			these rights or asking you to surrender the rights. Therefore, you have
			certain responsibilities if you distribute copies of the software, or if
			you modify it: responsibilities to respect the freedom of others.
			
			  For example, if you distribute copies of such a program, whether
			gratis or for a fee, you must pass on to the recipients the same
			freedoms that you received. You must make sure that they, too, receive
			or can get the source code. And you must show them these terms so they
			know their rights.
			
			  Developers that use the GNU GPL protect your rights with two steps:
			(1) assert copyright on the software, and (2) offer you this License
			giving you legal permission to copy, distribute and/or modify it.

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.
			
			  Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.
			
			  Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.
			
			  The precise terms and conditions for copying, distribution and modification follow.
			
			                    TERMS AND CONDITIONS
			
			  0. Definitions.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			"This License" refers to version 3 of the GNU General Public License.
			
			  "Copyright" also means copyright-like laws that apply to other kinds of
			works, such as semiconductor masks.
			
			  "The Program" refers to any copyrightable work licensed under this
			License. Each licensee is addressed as "you". "Licensees" and
			"recipients" may be individuals or organizations.
			
			  To "modify" a work means to copy from or adapt all or part of the work
			in a fashion requiring copyright permission, other than the making of an
			exact copy. The resulting work is called a "modified version" of the
			earlier work or a work "based on" the earlier work.
			
			  A "covered work" means either the unmodified Program or a work based
			on the Program.
			
			  To "propagate" a work means to do anything with it that, without
			permission, would make you directly or secondarily liable for
			infringement under applicable copyright law, except executing it on a
			computer or modifying a private copy. Propagation includes copying,
			distribution (with or without modification), making available to the
			public, and in some countries other activities as well.
			
			  To "convey" a work means any kind of propagation that enables other
			parties to make or receive copies. Mere interaction with a user through
			a computer network, with no transfer of a copy, is not conveying.
			
			  An interactive user interface displays "Appropriate Legal Notices"
			to the extent that it includes a convenient and prominently visible
			feature that (1) displays an appropriate copyright notice, and (2)

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.
			
			  1. Source Code.
			
			  The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.
			
			  A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.
			
			  The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.
			
			  The "Corresponding Source" for a work in object code

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			form means all
			the source code needed to generate, install, and (for an executable
			work) run the object code and to modify the work, including scripts to
			control those activities. However, it does not include the work's
			System Libraries, or general-purpose tools or generally available free
			programs which are used unmodified in performing those activities but
			which are not part of the work. For example, Corresponding Source
			includes interface definition files associated with source files for
			the work, and the source code for shared libraries and dynamically
			linked subprograms that the work is specifically designed to require,
			such as by intimate data communication or control flow between those
			subprograms and other parts of the work.
			
			  The Corresponding Source need not include anything that users
			can regenerate automatically from other parts of the Corresponding
			Source.
			
			  The Corresponding Source for a work in source code form is that
			same work.
			
			  2. Basic Permissions.
			
			  All rights granted under this License are granted for the term of
			copyright on the Program, and are irrevocable provided the stated
			conditions are met. This License explicitly affirms your unlimited
			permission to run the unmodified Program. The output from running a
			covered work is covered by this License only if the output, given its
			content, constitutes a covered work. This License acknowledges your
			rights of fair use or other equivalent, as provided by copyright law.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.
			
			  Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
			
			  3. Protecting Users' Legal Rights From Anti-Circumvention Law.
			
			  No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.
			
			  When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			users, your or third parties' legal rights to forbid circumvention of technological measures.
			
			  4. Conveying Verbatim Copies.
			
			  You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.
			
			  You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.
			
			  5. Conveying Modified Source Versions.
			
			  You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:
			
			    a) The work must carry prominent notices stating that you modified it, and giving a relevant date.
			
			    b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".
			
			    c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			copy. This
			    License will therefore apply, along with any applicable section 7
			    additional terms, to the whole of the work, and all its parts,
			    regardless of how they are packaged. This License gives no
			    permission to license the work in any other way, but it does not
			    invalidate such permission if you have separately received it.
			
			    d) If the work has interactive user interfaces, each must display
			    Appropriate Legal Notices; however, if the Program has interactive
			    interfaces that do not display Appropriate Legal Notices, your
			    work need not make them do so.
			
			  A compilation of a covered work with other separate and independent
			works, which are not by their nature extensions of the covered work,
			and which are not combined with it such as to form a larger program,
			in or on a volume of a storage or distribution medium, is called an
			"aggregate" if the compilation and its resulting copyright are not
			used to limit the access or legal rights of the compilation's users
			beyond what the individual works permit. Inclusion of a covered work
			in an aggregate does not cause this License to apply to the other
			parts of the aggregate.
			
			  6. Conveying Non-Source Forms.
			
			  You may convey a covered work in object code form under the terms
			of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License,
			in one of these ways:
			
			    a) Convey the object code in, or embodied in, a physical product
			    (including a physical distribution medium),

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			accompanied by the
			    Corresponding Source fixed on a durable physical medium
			    customarily used for software interchange.
			
			    b) Convey the object code in, or embodied in, a physical product
			    (including a physical distribution medium), accompanied by a
			    written offer, valid for at least three years and valid for as
			    long as you offer spare parts or customer support for that product
			    model, to give anyone who possesses the object code either (1) a
			    copy of the Corresponding Source for all the software in the
			    product that is covered by this License, on a durable physical
			    medium customarily used for software interchange, for a price no
			    more than your reasonable cost of physically performing this
			    conveying of source, or (2) access to copy the
			    Corresponding Source from a network server at no charge.
			
			    c) Convey individual copies of the object code with a copy of the
			    written offer to provide the Corresponding Source. This
			    alternative is allowed only occasionally and noncommercially, and
			    only if you received the object code with such an offer, in accord
			    with subsection 6b.
			
			    d) Convey the object code by offering access from a designated
			    place (gratis or for a charge), and offer equivalent access to the
			    Corresponding Source in the same way through the same place at no
			    further charge. You need not require recipients to copy the
			    Corresponding Source along with the object code. If the place to
			    copy the object code is a network server, the Corresponding Source
			    may be on a different server (operated by you or a

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			third party)
			    that supports equivalent copying facilities, provided you maintain
			    clear directions next to the object code saying where to find the
			    Corresponding Source. Regardless of what server hosts the
			    Corresponding Source, you remain obligated to ensure that it is
			    available for as long as needed to satisfy these requirements.
			
			    e) Convey the object code using peer-to-peer transmission, provided
			    you inform other peers where the object code and Corresponding
			    Source of the work are being offered to the general public at no
			    charge under subsection 6d.
			
			  A separable portion of the object code, whose source code is excluded
			from the Corresponding Source as a System Library, need not be
			included in conveying the object code work.
			
			  A "User Product" is either (1) a "consumer product", which means any
			tangible personal property which is normally used for personal, family,
			or household purposes, or (2) anything designed or sold for incorporation
			into a dwelling. In determining whether a product is a consumer product,
			doubtful cases shall be resolved in favor of coverage. For a particular
			product received by a particular user, "normally used" refers to a
			typical or common use of that class of product, regardless of the status
			of the particular user or of the way in which the particular user
			actually uses, or expects or is expected to use, the product. A product
			is a consumer product regardless of whether the product has substantial
			commercial, industrial or non-consumer uses, unless such uses represent
			the only significant mode of use of the product.

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			"Installation Information" for a User Product means any methods,
			procedures, authorization keys, or other information required to install
			and execute modified versions of a covered work in that User Product from
			a modified version of its Corresponding Source. The information must
			suffice to ensure that the continued functioning of the modified object
			code is in no case prevented or interfered with solely because
			modification has been made.
			
			  If you convey an object code work under this section in, or with, or
			specifically for use in, a User Product, and the conveying occurs as
			part of a transaction in which the right of possession and use of the
			User Product is transferred to the recipient in perpetuity or for a
			fixed term (regardless of how the transaction is characterized), the
			Corresponding Source conveyed under this section must be accompanied
			by the Installation Information. But this requirement does not apply
			if neither you nor any third party retains the ability to install
			modified object code on the User Product (for example, the work has
			been installed in ROM).
			
			  The requirement to provide Installation Information does not include a
			requirement to continue to provide support service, warranty, or updates
			for a work that has been modified or installed by the recipient, or for
			the User Product in which it has been modified or installed. Access to a
			network may be denied when the modification itself materially and
			adversely affects the operation of the network or violates the rules and
			protocols for communication across the network.
			
			  Corresponding Source conveyed, and Installation Information provided,

			in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.
			
			  7. Additional Terms.
			
			  "Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.
			
			  When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.
			
			  Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:
			
			    a) Disclaiming warranty or limiting liability differently from the
			    terms of sections 15 and 16 of this License; or

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			b) Requiring preservation of specified reasonable legal notices or
			    author attributions in that material or in the Appropriate Legal
			    Notices displayed by works containing it; or
			
			    c) Prohibiting misrepresentation of the origin of that material, or
			    requiring that modified versions of such material be marked in
			    reasonable ways as different from the original version; or
			
			    d) Limiting the use for publicity purposes of names of licensors or
			    authors of the material; or
			
			    e) Declining to grant rights under trademark law for use of some
			    trade names, trademarks, or service marks; or
			
			    f) Requiring indemnification of licensors and authors of that
			    material by anyone who conveys the material (or modified versions of
			    it) with contractual assumptions of liability to the recipient, for
			    any liability that these contractual assumptions directly impose on
			    those licensors and authors.
			
			  All other non-permissive additional terms are considered "further
			restrictions" within the meaning of section 10. If the Program as you
			received it, or any part of it, contains a notice stating that it is
			governed by this License along with a term that is a further
			restriction, you may remove that term. If a license document contains
			a further restriction but permits relicensing or conveying under this
			License, you may add to a covered work material governed by the terms
			of that license document, provided that the further restriction does
			not survive such relicensing or conveying.

Table (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.
			
			  Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.
			
			  8. Termination.
			
			  You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).
			
			  However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.
			
			  Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.
			
			  9. Acceptance Not Required for Having Copies.
			
			  You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.
			
			  10. Automatic Licensing of Downstream Recipients.
			
			  Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.
			
			  An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever

			licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.
			
			  You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.
			
			  11. Patents.
			
			  A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version".
			
			  A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Table   (Cont.) Licensing Information for Release 8.5.7

			Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.
			
			  In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.
			
			  If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.
			
			  If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a

			covered work, and grant a patent license to some of the parties
			receiving the covered work authorizing them to use, propagate, modify
			or convey a specific copy of the covered work, then the patent license
			you grant is automatically extended to all recipients of the covered
			work and works based on it.
			
			  A patent license is "discriminatory" if it does not include within
			the scope of its coverage, prohibits the exercise of, or is
			conditioned on the non-exercise of one or more of the rights that are
			specifically granted under this License. You may not convey a covered
			work if you are a party to an arrangement with a third party that is
			in the business of distributing software, under which you make payment
			to the third party based on the extent of your activity of conveying
			the work, and under which the third party grants, to any of the
			parties who would receive the covered work from you, a discriminatory
			patent license (a) in connection with copies of the covered work
			conveyed by you (or copies made from those copies), or (b) primarily
			for and in connection with specific products or compilations that
			contain the covered work, unless you entered into that arrangement,
			or that patent license was granted, prior to 28 March 2007.
			
			  Nothing in this License shall be construed as excluding or limiting
			any implied license or other defenses to infringement that may
			otherwise be available to you under applicable patent law.
			
			  12. No Surrender of Others' Freedom.
			
			  If conditions are imposed on you (whether by court order, agreement or

Table   (Cont.) Licensing Information for Release 8.5.7

			otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.
			
			  13. Use with the GNU Affero General Public License.
			
			  Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.
			
			  14. Revised Versions of this License.
			
			  The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.
			
			  Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it,

Table (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			you have the
			option of following the terms and conditions either of that numbered
			version or of any later version published by the Free Software
			Foundation. If the Program does not specify a version number of the
			GNU General Public License, you may choose any version ever published
			by the Free Software Foundation.
			
			  If the Program specifies that a proxy can decide which future
			versions of the GNU General Public License can be used, that proxy's
			public statement of acceptance of a version permanently authorizes you
			to choose that version for the Program.
			
			  Later license versions may give you additional or different
			permissions. However, no additional obligations are imposed on any
			author or copyright holder as a result of your choosing to follow a
			later version.
			
			  15. Disclaimer of Warranty.
			
			  THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY
			APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT
			HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY
			OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO,
			THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR
			PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM
			IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF
			ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
			
			  16. Limitation of Liability.
			
			  IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
			WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO

			MODIFIES AND/OR CONVEYS
			THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
			GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE
			USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF
			DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD
			PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS),
			EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF
			SUCH DAMAGES.
			
			  17. Interpretation of Sections 15 and 16.
			
			  If the disclaimer of warranty and limitation of liability provided
			above cannot be given local legal effect according to their terms,
			reviewing courts shall apply local law that most closely approximates
			an absolute waiver of all civil liability in connection with the
			Program, unless a warranty or assumption of liability accompanies a
			copy of the Program in return for a fee.
			
			                    END OF TERMS AND CONDITIONS
			
			                How to Apply These Terms to Your New Programs
			
			  If you develop a new program, and you want it to be of the greatest
			possible use to the public, the best way to achieve this is to make it
			free software which everyone can redistribute and change under these terms.
			
			  To do so, attach the following notices to the program. It is safest
			to attach them to the start of each source file to most effectively
			state the exclusion of warranty; and each file should have at least
			the "copyright" line and a pointer to where the full notice is found.

			  The GNU General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. 			 Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
			 Everyone is permitted to copy and distribute verbatim copies
			 of this license document, but changing it is not allowed.
			
			  This version of the GNU Lesser General Public License incorporates
			the terms and conditions of version 3 of the GNU General Public
			License, supplemented by the additional permissions listed below.
			
			  0. Additional Definitions.
			
			  As used herein, "this License" refers to version 3 of the GNU Lesser
			General Public License, and the "GNU GPL" refers to version 3 of the GNU
			General Public License.
			
			  "The Library" refers to a covered work governed by this License,
			other than an Application or a Combined Work as defined below.
			
			  An "Application" is any work that makes use of an interface provided
			by the Library, but which is not otherwise based on the Library.
			Defining a subclass of a class defined by the Library is deemed a mode
			of using an interface provided by the Library.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".
			
			  The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.
			
			  The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.
			
			  1. Exception to Section 3 of the GNU GPL.
			
			  You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.
			
			  2. Conveying Modified Versions.
			
			  If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:
			
			  a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs

			whatever part of its purpose remains meaningful, or
			
			  b) under the GNU GPL, with none of the additional permissions of
			   this License applicable to that copy.
			
			  3. Object Code Incorporating Material from Library Header Files.
			
			  The object code form of an Application may incorporate material from
			a header file that is part of the Library. You may convey such object
			code under terms of your choice, provided that, if the incorporated
			material is not limited to numerical parameters, data structure
			layouts and accessors, or small macros, inline functions and templates
			(ten or fewer lines in length), you do both of the following:
			
			  a) Give prominent notice with each copy of the object code that the
			  Library is used in it and that the Library and its use are
			  covered by this License.
			
			  b) Accompany the object code with a copy of the GNU GPL and this license
			  document.
			
			  4. Combined Works.
			
			  You may convey a Combined Work under terms of your choice that,
			taken together, effectively do not restrict modification of the
			portions of the Library contained in the Combined Work and reverse
			engineering for debugging such modifications, if you also do each of
			the following:
			
			  a) Give prominent notice with each copy of the Combined Work that
			  the Library is used in it and that the Library and its use are
			  covered by this License.

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			b) Accompany the Combined Work with a copy of the GNU GPL and this license
			  document.
			
			  c) For a Combined Work that displays copyright notices during
			  execution, include the copyright notice for the Library among
			  these notices, as well as a reference directing the user to the
			  copies of the GNU GPL and this license document.
			
			  d) Do one of the following:
			
			    0) Convey the Minimal Corresponding Source under the terms of this
			    License, and the Corresponding Application Code in a form
			    suitable for, and under terms that permit, the user to
			    recombine or relink the Application with a modified version of
			    the Linked Version to produce a modified Combined Work, in the
			    manner specified by section 6 of the GNU GPL for conveying
			    Corresponding Source.
			
			    1) Use a suitable shared library mechanism for linking with the
			    Library. A suitable mechanism is one that (a) uses at run time
			    a copy of the Library already present on the user's computer
			    system, and (b) will operate properly with a modified version
			    of the Library that is interface-compatible with the Linked
			    Version.
			
			  e) Provide Installation Information, but only if you would otherwise
			  be required to provide such information under section 6 of the
			  GNU GPL, and only to the extent that such information is
			  necessary to install and execute a modified version of the
			  Combined Work produced by recombining or relinking the

			Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)
			
			  5. Combined Libraries.
			
			  You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:
			
			    a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
			
			    b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.
			
			  6. Revised Versions of the GNU Lesser General Public License.
			
			  The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.
			
			  Each version is given a distinguishing version number. If the Library as you received it specifies that a certain

			of the GNU Lesser General Public License "or any later version"

			published by the Free Software Foundation. If the Library as you
			received it does not specify a version number of the GNU Lesser
			General Public License, you may choose any version of the GNU Lesser
			General Public License ever published by the Free Software Foundation.
			
			  If the Library as you received it specifies that a proxy can decide

			apply, that proxy's public statement of acceptance of any version is
			permanent authorization for you to choose that version for the
			Library.

			                   GNU GENERAL PUBLIC LICENSE
			                       Version 3, 29 June 2007
			
			 Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>

			 of this license document, but changing it is not allowed.
			
			                            Preamble
			
			  The GNU General Public License is a free, copyleft license for
			software and other kinds of works.
			
			  The licenses for most software and other practical works are designed
			to take away your freedom to share and change the works. By contrast,
			the GNU General Public License is intended to

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			guarantee your freedom to
			share and change all versions of a program--to make sure it remains free
			software for all its users. We, the Free Software Foundation, use the
			GNU General Public License for most of our software; it applies also to
			any other work released this way by its authors. You can apply it to
			your programs, too.
			
			  When we speak of free software, we are referring to freedom, not
			price. Our General Public Licenses are designed to make sure that you
			have the freedom to distribute copies of free software (and charge for
			them if you wish), that you receive source code or can get it if you
			want it, that you can change the software or use pieces of it in new
			free programs, and that you know you can do these things.
			
			  To protect your rights, we need to prevent others from denying you
			these rights or asking you to surrender the rights. Therefore, you have
			certain responsibilities if you distribute copies of the software, or if
			you modify it: responsibilities to respect the freedom of others.
			
			  For example, if you distribute copies of such a program, whether
			gratis or for a fee, you must pass on to the recipients the same
			freedoms that you received. You must make sure that they, too, receive
			or can get the source code. And you must show them these terms so they
			know their rights.
			
			  Developers that use the GNU GPL protect your rights with two steps:
			(1) assert copyright on the software, and (2) offer you this License
			giving you legal permission to copy, distribute and/or modify it.

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.
			
			  Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.
			
			  Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.
			
			  The precise terms and conditions for copying, distribution and modification follow.
			
			                    TERMS AND CONDITIONS
			
			  0. Definitions.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			"This License" refers to version 3 of the GNU General Public License.
			
			  "Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.
			
			  "The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.
			
			  To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.
			
			  A "covered work" means either the unmodified Program or a work based on the Program.
			
			  To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.
			
			  To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.
			
			  An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2)

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.
			
			  1. Source Code.
			
			  The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.
			
			  A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.
			
			  The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.
			
			  The "Corresponding Source" for a work in object code

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			form means all
			the source code needed to generate, install, and (for an executable
			work) run the object code and to modify the work, including scripts to
			control those activities. However, it does not include the work's
			System Libraries, or general-purpose tools or generally available free
			programs which are used unmodified in performing those activities but
			which are not part of the work. For example, Corresponding Source
			includes interface definition files associated with source files for
			the work, and the source code for shared libraries and dynamically
			linked subprograms that the work is specifically designed to require,
			such as by intimate data communication or control flow between those
			subprograms and other parts of the work.
			
			  The Corresponding Source need not include anything that users
			can regenerate automatically from other parts of the Corresponding
			Source.
			
			  The Corresponding Source for a work in source code form is that
			same work.
			
			  2. Basic Permissions.
			
			  All rights granted under this License are granted for the term of
			copyright on the Program, and are irrevocable provided the stated
			conditions are met. This License explicitly affirms your unlimited
			permission to run the unmodified Program. The output from running a
			covered work is covered by this License only if the output, given its
			content, constitutes a covered work. This License acknowledges your
			rights of fair use or other equivalent, as provided by copyright law.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.
			
			  Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
			
			  3. Protecting Users' Legal Rights From Anti-Circumvention Law.
			
			  No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.
			
			  When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's

Table (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			users, your or third parties' legal rights to forbid circumvention of technological measures.
			
			  4. Conveying Verbatim Copies.
			
			  You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.
			
			  You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.
			
			  5. Conveying Modified Source Versions.
			
			  You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:
			
			    a) The work must carry prominent notices stating that you modified it, and giving a relevant date.
			
			    b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".
			
			    c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a

Provider	Component(s)	Version	Licensing Information

			copy. This
			    License will therefore apply, along with any applicable section 7
			    additional terms, to the whole of the work, and all its parts,
			    regardless of how they are packaged. This License gives no
			    permission to license the work in any other way, but it does not
			    invalidate such permission if you have separately received it.
			
			    d) If the work has interactive user interfaces, each must display
			    Appropriate Legal Notices; however, if the Program has interactive
			    interfaces that do not display Appropriate Legal Notices, your
			    work need not make them do so.
			
			  A compilation of a covered work with other separate and independent
			works, which are not by their nature extensions of the covered work,
			and which are not combined with it such as to form a larger program,
			in or on a volume of a storage or distribution medium, is called an
			"aggregate" if the compilation and its resulting copyright are not
			used to limit the access or legal rights of the compilation's users
			beyond what the individual works permit. Inclusion of a covered work
			in an aggregate does not cause this License to apply to the other
			parts of the aggregate.
			
			  6. Conveying Non-Source Forms.
			
			  You may convey a covered work in object code form under the terms
			of sections 4 and 5, provided that you also convey the
			machine-readable Corresponding Source under the terms of this License,
			in one of these ways:
			
			    a) Convey the object code in, or embodied in, a physical product
			    (including a physical distribution medium),

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			accompanied by the
			    Corresponding Source fixed on a durable physical medium
			    customarily used for software interchange.
			
			    b) Convey the object code in, or embodied in, a physical product
			    (including a physical distribution medium), accompanied by a
			    written offer, valid for at least three years and valid for as
			    long as you offer spare parts or customer support for that product
			    model, to give anyone who possesses the object code either (1) a
			    copy of the Corresponding Source for all the software in the
			    product that is covered by this License, on a durable physical
			    medium customarily used for software interchange, for a price no
			    more than your reasonable cost of physically performing this
			    conveying of source, or (2) access to copy the
			    Corresponding Source from a network server at no charge.
			
			    c) Convey individual copies of the object code with a copy of the
			    written offer to provide the Corresponding Source. This
			    alternative is allowed only occasionally and noncommercially, and
			    only if you received the object code with such an offer, in accord
			    with subsection 6b.
			
			    d) Convey the object code by offering access from a designated
			    place (gratis or for a charge), and offer equivalent access to the
			    Corresponding Source in the same way through the same place at no
			    further charge. You need not require recipients to copy the
			    Corresponding Source along with the object code. If the place to
			    copy the object code is a network server, the Corresponding Source
			    may be on a different server (operated by you or a

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			third party)
			    that supports equivalent copying facilities, provided you maintain
			    clear directions next to the object code saying where to find the
			    Corresponding Source. Regardless of what server hosts the
			    Corresponding Source, you remain obligated to ensure that it is
			    available for as long as needed to satisfy these requirements.
			
			    e) Convey the object code using peer-to-peer transmission, provided
			    you inform other peers where the object code and Corresponding
			    Source of the work are being offered to the general public at no
			    charge under subsection 6d.
			
			  A separable portion of the object code, whose source code is excluded
			from the Corresponding Source as a System Library, need not be
			included in conveying the object code work.
			
			  A "User Product" is either (1) a "consumer product", which means any
			tangible personal property which is normally used for personal, family,
			or household purposes, or (2) anything designed or sold for incorporation
			into a dwelling. In determining whether a product is a consumer product,
			doubtful cases shall be resolved in favor of coverage. For a particular
			product received by a particular user, "normally used" refers to a
			typical or common use of that class of product, regardless of the status
			of the particular user or of the way in which the particular user
			actually uses, or expects or is expected to use, the product. A product
			is a consumer product regardless of whether the product has substantial
			commercial, industrial or non-consumer uses, unless such uses represent
			the only significant mode of use of the product.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			"Installation Information" for a User Product means any methods,
			procedures, authorization keys, or other information required to install
			and execute modified versions of a covered work in that User Product from
			a modified version of its Corresponding Source. The information must
			suffice to ensure that the continued functioning of the modified object
			code is in no case prevented or interfered with solely because
			modification has been made.
			
			  If you convey an object code work under this section in, or with, or
			specifically for use in, a User Product, and the conveying occurs as
			part of a transaction in which the right of possession and use of the
			User Product is transferred to the recipient in perpetuity or for a
			fixed term (regardless of how the transaction is characterized), the
			Corresponding Source conveyed under this section must be accompanied
			by the Installation Information. But this requirement does not apply
			if neither you nor any third party retains the ability to install
			modified object code on the User Product (for example, the work has
			been installed in ROM).
			
			  The requirement to provide Installation Information does not include a
			requirement to continue to provide support service, warranty, or updates
			for a work that has been modified or installed by the recipient, or for
			the User Product in which it has been modified or installed. Access to a
			network may be denied when the modification itself materially and
			adversely affects the operation of the network or violates the rules and
			protocols for communication across the network.
			
			  Corresponding Source conveyed, and Installation Information provided,

			in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

  7. Additional Terms.

  "Additional permissions" are terms that supplement
the terms of this
License by making exceptions from one or more of its
conditions.
Additional permissions that are applicable to the
entire Program shall
be treated as though they were included in this
License, to the extent
that they are valid under applicable law.  If
additional permissions
apply only to part of the Program, that part may be
used separately
under those permissions, but the entire Program
remains governed by
this License without regard to the additional
permissions.

  When you convey a copy of a covered work, you may at
your option
remove any additional permissions from that copy, or
from any part of
it.  (Additional permissions may be written to require
their own
removal in certain cases when you modify the work.)
You may place
additional permissions on material, added by you to a
covered work,
for which you have or can give appropriate copyright
permission.

  Notwithstanding any other provision of this License,
for material you
add to a covered work, you may (if authorized by the
copyright holders of
that material) supplement the terms of this License
with terms:

    a) Disclaiming warranty or limiting liability
differently from the
    terms of sections 15 and 16 of this License; or
```

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			b) Requiring preservation of specified reasonable legal notices or
			    author attributions in that material or in the Appropriate Legal
			    Notices displayed by works containing it; or
			
			    c) Prohibiting misrepresentation of the origin of that material, or
			    requiring that modified versions of such material be marked in
			    reasonable ways as different from the original version; or
			
			    d) Limiting the use for publicity purposes of names of licensors or
			    authors of the material; or
			
			    e) Declining to grant rights under trademark law for use of some
			    trade names, trademarks, or service marks; or
			
			    f) Requiring indemnification of licensors and authors of that
			    material by anyone who conveys the material (or modified versions of
			    it) with contractual assumptions of liability to the recipient, for
			    any liability that these contractual assumptions directly impose on
			    those licensors and authors.
			
			  All other non-permissive additional terms are considered "further
			restrictions" within the meaning of section 10. If the Program as you
			received it, or any part of it, contains a notice stating that it is
			governed by this License along with a term that is a further
			restriction, you may remove that term. If a license document contains
			a further restriction but permits relicensing or conveying under this
			License, you may add to a covered work material governed by the terms
			of that license document, provided that the further restriction does
			not survive such relicensing or conveying.

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information
			If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms. Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way. 8. Termination. You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11). However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation. Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.
			
			  9. Acceptance Not Required for Having Copies.
			
			  You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.
			
			  10. Automatic Licensing of Downstream Recipients.
			
			  Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.
			
			  An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever

Table (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.
			
			  You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.
			
			  11. Patents.
			
			  A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version".
			
			  A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.
			
			  In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.
			
			  If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.
			
			  If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a

Table   (Cont.) Licensing Information for Release 8.5.7

Provid er	Compo nent(s)	Versio n	Licensing Information

			covered work, and grant a patent license to some of the parties
			receiving the covered work authorizing them to use, propagate, modify
			or convey a specific copy of the covered work, then the patent license
			you grant is automatically extended to all recipients of the covered
			work and works based on it.
			
			  A patent license is "discriminatory" if it does not include within
			the scope of its coverage, prohibits the exercise of, or is
			conditioned on the non-exercise of one or more of the rights that are
			specifically granted under this License. You may not convey a covered
			work if you are a party to an arrangement with a third party that is
			in the business of distributing software, under which you make payment
			to the third party based on the extent of your activity of conveying
			the work, and under which the third party grants, to any of the
			parties who would receive the covered work from you, a discriminatory
			patent license (a) in connection with copies of the covered work
			conveyed by you (or copies made from those copies), or (b) primarily
			for and in connection with specific products or compilations that
			contain the covered work, unless you entered into that arrangement,
			or that patent license was granted, prior to 28 March 2007.
			
			  Nothing in this License shall be construed as excluding or limiting
			any implied license or other defenses to infringement that may
			otherwise be available to you under applicable patent law.
			
			  12. No Surrender of Others' Freedom.
			
			  If conditions are imposed on you (whether by court order, agreement or

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information

			otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.
			
			  13. Use with the GNU Affero General Public License.
			
			  Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.
			
			  14. Revised Versions of this License.
			
			  The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.
			
			  Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it,

Table   (Cont.) Licensing Information for Release 8.5.7

Provider	Component(s)	Version	Licensing Information
			you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation. If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program. Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version. 15. Disclaimer of Warranty. THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 16. Limitation of Liability. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO

			MODIFIES AND/OR CONVEYS
			THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
			GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE
			USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF
			DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD
			PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS),
			EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF
			SUCH DAMAGES.
			
			  17. Interpretation of Sections 15 and 16.
			
			  If the disclaimer of warranty and limitation of liability provided
			above cannot be given local legal effect according to their terms,
			reviewing courts shall apply local law that most closely approximates
			an absolute waiver of all civil liability in connection with the
			Program, unless a warranty or assumption of liability accompanies a
			copy of the Program in return for a fee.
			
			                 END OF TERMS AND CONDITIONS
			
			            How to Apply These Terms to Your New Programs
			
			  If you develop a new program, and you want it to be of the greatest
			possible use to the public, the best way to achieve this is to make it
			free software which everyone can redistribute and change under these terms.
			
			  To do so, attach the following notices to the program. It is safest
			to attach them to the start of each source file to most effectively
			state the exclusion of warranty; and each file should have at least
			the "copyright" line and a pointer to where the full notice is found.

			PREAMBLE The goals of the Open Font License (OFL) are to stimulate

			TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION
			1. Definitions.
			"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.
			"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.
			"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.
			"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.
			"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.
			"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.
			"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).
			"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.
			"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives,

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Compon ent(s)	Versi on	Licensing Information
			including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."
			"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
			2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
			3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
			4. Redistribution.
			You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
			You must give any other recipients of the Work or Derivative Works a copy of this License; and
			You must cause any modified files to carry prominent notices stating that You changed the files; and
			You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
			If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Component(s)	Version	Licensing Information
			include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License.
			You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.
			5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
			7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
			8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages

			for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
			9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Provider	Component(s)	Version	Licensing Information
	SQLite	3.36.0	SQLite Is Public Domain
			SQLite is in the Public Domain
			All of the code and documentation in SQLite has been dedicated to the public domain by the authors. All code authors, and representatives of the companies they work for, have signed affidavits dedicating their contributions to the public domain and originals of those signed affidavits are stored in a firesafe at the main offices of Hwaci. All contibutors are citizens of countries that allow creative works to be dedicated into the public domain. Anyone is free to copy, modify, publish, use, compile, sell, or distribute the original SQLite code, either in source code form or as a compiled binary, for any purpose, commercial or non-commercial, and by any means.
			The previous paragraph applies to the deliverable code and documentation in SQLite - those parts of the SQLite library that you actually bundle and ship with a larger application. Some scripts used as part of the build process (for example the "configure" scripts generated by autoconf) might fall under other open-source licenses. Nothing from these build scripts ever reaches the final deliverable SQLite library, however, and so the licenses associated with those scripts should not be a factor in assessing your rights to copy and use the SQLite library.
			All of the deliverable code in SQLite has been written from scratch. No code has been taken from other projects or from the open internet. Every line of code can be traced back to its original author, and all of those authors have public domain dedications on file. So the SQLite code base is clean and is uncontaminated with licensed code from other projects.
			Open-Source, not Open-Contribution SQLite is open-source, meaning that you can make as many copies of it as you want and do whatever you want with those copies, without limitation. But SQLite is not open-contribution. In order to keep SQLite in the public domain and ensure that the code does not become contaminated with proprietary or licensed content, the project does not accept patches from people who have not submitted an affidavit dedicating their contribution into the public domain.
			All of the code in SQLite is original, having been written specifically for use by SQLite. No code has been copied from unknown sources on the internet.
			Warranty of Title SQLite is in the public domain and does not require a license. Even so, some organizations want legal proof of their right to use SQLite. Circumstances where this might occurs include the following:
			Your company desires indemnity against claims of copyright infringement.
			You are using SQLite in a jurisdiction that does not recognize the public domain.

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Compon ent(s)	Versi on	Licensing Information
			You are using SQLite in a jurisdiction that does not recognize the right of an author to dedicate their work to the public domain.
			You want to hold a tangible legal document as evidence that you have the legal right to use and distribute SQLite.
			Your legal department tells you that you must purchase a license.
			If any of the above circumstances apply to you, Hwaci, the company that employs all the developers of SQLite, will sell you a Warranty of Title for SQLite. A Warranty of Title is a legal document that asserts that the claimed authors of SQLite are the true authors, and that the authors have the legal right to dedicate the SQLite to the public domain, and that Hwaci will vigorously defend against challenges to those claims. All proceeds from the sale of SQLite Warranties of Title are used to fund continuing improvement and support of SQLite.
			Contributed Code
			In order to keep SQLite completely free and unencumbered by copyright, the project does not accept patches. If you would like to suggest a change and you include a patch as a proof-of-concept, that would be great. However, please do not be offended if we rewrite your patch from scratch.

	Freetype	2.11.0	The FreeType Project LICENSE

The FreeType Project LICENSE

2006-Jan-27

Copyright 1996-2002, 2006 by

David Turner, Robert Wilhelm, and Werner Lemberg

Introduction

============

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

o We don't promise that this software works. However, we will be interested in any kind of bug reports. (`as is' distribution)

o You can use this software for whatever you want, in parts or full form, without having to pay us. (`royalty-free' usage)

o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. (`credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:
"""

Portions of this software are copyright © <year> The FreeType

Project (www.freetype.org). All rights reserved.
"""

Please replace <year> with the value from the FreeType version you actually use.

Legal Terms

===========

0. Definitions

Throughout this license, the terms `package', `FreeType Project', and `FreeType archive' refer to the set of files originally

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Compon ent(s)	Versi on	Licensing Information
			distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the `FreeType Project', be they named as alpha, beta or final release.
			`You' refers to the licensee, or person using the project, where `using' is a generic term including compiling the project's source code as well as linking it to form a `program' or `executable'. This program is referred to as `a program using the FreeType engine'.
			This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.
			The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.
			1. No Warranty

			THE FREETYPE PROJECT IS PROVIDED `AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.
			2. Redistribution

			This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:
			o Redistribution of source code must retain this license file (`FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.
			o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.
			These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use

			our work, you must acknowledge us. However, no fee need be paid to us.
			3. Advertising

			Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.
			We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: `FreeType Project', `FreeType Engine', `FreeType library', or `FreeType Distribution'.
			As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.
			4. Contacts

			There are two mailing lists related to FreeType:
			o freetype@nongnu.org
			Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution. If you are looking for support, start in this list if you haven't found anything to help you in the documentation.
			o freetype-devel@nongnu.org
			Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

			GNU GENERAL PUBLIC LICENSE
			Version 2, June 1991
			Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin St, Fifth Floor, Boston, MA 02110-1301 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.
			Preamble
			The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Compon ent(s)	Versi on	Licensing Information
			Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.
			When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.
			To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.
			For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.
			We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.
			Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.
			Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow.
			GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
			0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".
			Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Component(s)	Version	Licensing Information
			Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.
			1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.
			2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
			a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
			b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
			c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)
			These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.
			Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Component(s)	Version	Licensing Information
			exercise the right to control the distribution of derivative or collective works based on the Program.
			In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.
			3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:
			a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
			b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
			c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)
			The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.
			If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.
			4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
			5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Component(s)	Version	Licensing Information
			modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
			6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.
			7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.
			If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.
			It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.
			This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.
			8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this

			License incorporates the limitation as if written in the body of this License.
			9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.
			Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.
			10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.
			NO WARRANTY
			11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
			12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH

			HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
			END OF TERMS AND CONDITIONS
			How to Apply These Terms to Your New Programs
			If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.
			To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.
			<one line to give the program's name and a brief idea of what it does.> Copyright (C) <year> <name of author>
			This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.
			This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.
			You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin St, Fifth Floor, Boston, MA 02110-1301 USA
			Also add information on how to contact you by electronic and paper mail.
			If the program is interactive, make it output a short notice like this when it starts in an interactive mode:
			Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.
			The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.
			You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

			Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.
			<signature of Ty Coon>, 1 April 1989 Ty Coon, President of Vice
			This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives,

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Compon ent(s)	Versi on	Licensing Information
			including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."
			"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
			2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
			3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
			4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
			You must give any other recipients of the Work or Derivative Works a copy of this License; and
			You must cause any modified files to carry prominent notices stating that You changed the files; and
			You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
			If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not

Table   (Cont.) Licensing Information for Release 8.5.6

Provider	Compon ent(s)	Versi on	Licensing Information
			pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.
			You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.
			5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
			6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
			7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
			8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages

			for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
			9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.
