Oracle WebCenter Forms Recognition Release Notes

12c (12.2.1.4.0)

**E95429-04**

November 2020

Documentation for the WebCenter Forms Recognition that describes the new features and resolved issues.

Copyright © 2019, 2020 Oracle and/or its affiliates. All rights reserved.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

# 1 What's New for Oracle WebCenter Forms Recognition 12c (12.2.1.4.0)

This section introduces the new features and enhancements of Oracle WebCenter Forms Recognition:

Category	Description
AP Project	Refer to <i>Oracle WebCenter Forms Recognition AP Project 2803 Release Notes</i> for information about the new features included in AP Project 2803.
Platform	<ul style="list-style-type: none"><li>WebCenter Forms Recognition now supports Windows Server 2016.</li><li>WebCenter Forms Recognition now supports SQL Server 2016 SP1.</li><li>WebCenter Forms Recognition now supports Oracle 12c R2.</li><li>WebCenter Forms Recognition now supports .NET Framework 4.6.</li><li>Discontinued support for SQL Server 2008 R2.</li><li>Discontinued support for SQL Server 2012 SP2.</li></ul>
API	<ul style="list-style-type: none"><li>The new RESTful API provides methods to upload and manage external documents to be further processed by Runtime Server. Refer to the <i>WebCenter Forms Recognition API Installation Guide</i> for more information.</li></ul>
Runtime Server	<ul style="list-style-type: none"><li>The Runtime Service Properties dialog provides a new option on the <b>Import</b> tab named <b>ImportGroup</b>. This enables the user to specify an import group to import documents from external batches created using API. Refer to <i>Processing of batches imported using API</i> in <i>WebCenter Forms Recognition Runtime Server Guide</i> for more information.</li></ul>
Document Filters	<ul style="list-style-type: none"><li>WebCenter Forms Recognition now supports Document Filters 11.4.0.2822, which provides several updates and enhancements.</li><li>Added the method <i>TestString</i> to the <i>SCBCdrFormatEngine</i> class to enable calculation of the distance of an arbitrary text against a Format String expression.</li></ul>

## 2 Issues fixed in Oracle WebCenter Forms Recognition 12c (12.2.1.4.0)

The following issues were fixed:

Category	Description
Document Filters	<ul style="list-style-type: none"> <li>▪ Resolved an issue where text was not rendered from a specific PDF file.</li> <li>▪ Resolved an issue where single letters were extracted as words.</li> <li>▪ Resolved an issue where sometimes two words were extracted as one word in specific documents.</li> <li>▪ Resolved an issue where certain words were not extracted from a specific PDF file.</li> <li>▪ Resolved an issue where a part of the text was not extracted from an XML file when using Windows 7.</li> </ul>
Associative Search Engine	<ul style="list-style-type: none"> <li>▪ Resolved an issue when classification failed after an Associative Search Engine pool update. The logs included the error message. Search error (45) InternalID = -104.</li> </ul>
Verifier	<ul style="list-style-type: none"> <li>▪ Resolved an issue where the shortcut key [F1] was not displayed for the <b>Help</b> menu item in the <b>Help</b> menu.</li> <li>▪ Resolved an issue where wrong shortcut keys displayed for <b>Previous Page in Document</b> and <b>Next Page in Document</b> in the <b>Image</b> menu.</li> <li>▪ Corrected a spelling mistake in the text <b>Filter: Batches to Verify, Document Separation Only</b> that displayed in the status bar.</li> <li>▪ Corrected a spelling mistake in the <b>Phrase Settings</b> dialog box, where <b>xhigh</b> displayed instead of <b>very high</b>.</li> </ul>
Web Verifier	<ul style="list-style-type: none"> <li>▪ Resolved an issue that the validate events were not triggered in RTS when the user reclassified a document in Web Verifier with a newly created class, and then processed the document through RTS. However, the validate events were erroneously triggered in Web Verifier during document reclassification with the <b>Perform automatic extraction</b> option disabled.</li> <li>▪ Resolved an issue in which a timeout error appeared sporadically and the application stopped working when the user opened a batch in Web Verifier and repeatedly performed the search operation in the <b>Vendor Search</b> dialog box using keywords containing special characters and random string values.</li> </ul>
Scripting	<ul style="list-style-type: none"> <li>▪ Resolved an issue where the <i>Field_Validate</i> event couldn't be triggered after setting the field text to empty in another script event.</li> </ul>
